The legal and technical difficulties surrounding the sale or disposition of these parcels have not been examined, as the Law Department is the proper authority to pass upon such questions. A complete study of the advisability of the sale of these parcels should be made at once. The treasury of the City of Boston would benefit by the sale to the amount of about \$2,000,000 and there would be a further annual benefit in the form of the taxes assessed on the various properties after the sale. It is bad business policy for the city to own property which is not in use and for which there is no possible use in the future.

The commission recommends:

1. That section 1, chapter 39, of the Revised Ordinances of 1898, be strictly followed by the Street Laying-Out Department.

2. That all parcels of land owned by the city that cannot be advantageously used be sold.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

APPENDIX A.

ORIENT HEIGHTS PLAYGROUND.

(Containing 362,167 Square Feet, Valued at \$21,100.)

This playground is under water, as it was at the time of purchase.

SEAVER STREET AND WALNUT AVENUE.

(Containing 10,836 Square Feet, Valued at \$7,300.)

Strips of land along Seaver street owned by the City of Boston in fee. The portion corner of Seaver street and Walnut avenue is a grass lot, containing 6,093 square feet adjacent to the house of William J. Carlin. The land has been graded, sodded and surrounded with a hedge, so that it appears to be a continuance of the Carlin land.

LAND IN THE REAR OF 80 WEST CEDAR STREET.

(Containing 1,600 Square Feet and Valued at \$2,400.)

This is an ill kept yard inclosed by run down fences, and used for rubbish. It is of no use to the city.

MALL AND EUSTIS STREETS, ROXBURY.

(Containing 700 Square Feet, Valued at \$1,200.)

Next to the city scales lot and now occupied by a blacksmith's shop is a parcel of land which was conveyed to the City of Roxbury by deed dated December 28, 1860, by Andrew W. Newman, said containing a reservation that the building now standing on the released land "shall remain undisturbed by said city for the space of ten years from this date, and at the expiration of said term, said city shall have the right to cut off said building without paying said Newman any damages therefor but said city shall board up the building so cut off." The grant was evidently lost sight of because the buildings on the land have not been cut off and the occupants of the parcel have remained there since 1870 without the payment of rent. The land should now be claimed by the city, the terms of the deed followed and the land, together with the city scales parcel, should be sold. There is no necessity for the retention of the scales at Eustis and Mall streets, as it is seldom used and there are city scales at the corner of Massachusetts avenue and Northampton street, on land leased from the Boston Consolidated Gas Company. The latter location is preferable as it is in the center of a busy mercantile district.

BRUSH HILL AND BROOK ROAD, MILTON.

(Containing 90,970 Square Feet, Valued at \$4,650.)

Two parcels of land, one of which is held by the City of Boston on a 999 year lease acquired by the town of Dorchester, the other owned by the city in fee.

CHESTNUT HILL AVENUE AND COMMONWEALTH AVENUE.

(Containing 66,762 Square Feet, Valued at \$50,100.)

A large lot of vacant land used for tennis courts. Nearby is the Chestnut Hill Avenue Playground and on the opposite corner a park and reservoir.

POLICE STATION NO. 7 AND STABLE, MERIDIAN AND PARIS STREETS.

(Containing 7,977 Square Feet, Valued at \$24,600.)

Abandoned buildings formerly used by the Police Department.

OLD CROSS STREET SCHOOL.

(Containing 1,700 Square Feet, Valued at \$3,500.)

A wooden building leased for a nominal consideration to the Spanish War Veterans' Association.

LAND FOR SCHOOL ON ACADEMY HILL ROAD.

(Containing 54,448 Square Feet, Valued at \$5,400.)

Old Brighton High School lot on the top of Academy Hill. The old building has been torn down and the land is not being used.

LAND FOR SCHOOL ON UNION STREET, BRIGHTON.

(Containing 67,280 Square Feet, Valued at \$10,000.)

Old schoolhouse lot, now vacant. The land runs from the corner of Union street to Chestnut Hill avenue and is a valuable site.

FREEPORT STREET, DORCHESTER.

(Containing 160,745 Square Feet, Valued at \$37,600.)

Wharf property which was acquired by the city in 1911 for the Sanitary Service and which has never been used.

LAND ON CAMBRIDGE AND LINCOLN STREETS.

(Containing 13,948 Square Feet, Valued at \$4,900.)

Corner of Mansfield street, adjacent to a private playground.

BUILDING, 618-620 HARRISON AVENUE.

(Containing 3,816 Square Feet, Valued at \$12,000.)

A brick block, formerly the old fire department repair shop, leased at the present time to a junk dealer at \$65 a month.

RIFLE RANGE, WOBURN, MASSACHUSETTS.

(Containing 100 Acres, Valued at \$2,000.)

Swamp, hill and undergrowth purchased in 1901 for \$25,000, for a rifle range. It is worth about \$15 an acre and has never been used by the city for the purpose for which it was bought.

WASHINGTON AND WILLIAMS STREETS, FOREST HILLS.

(Containing 2,471 Square Feet, Valued at \$1,100.)

A parcel of land taken by the Street Commissioners in fee for Stony brook sewer service, for which \$1,000 was paid to Patrick J. Doyle *et al.* The land was leased in 1907 to Doyle *et al.*, at a rental of \$10 a year. Doyle conducts a liquor business at this location.

SQUANTUM, MASSACHUSETTS.

(Containing 19.5 Acres, Valued at \$22,800.)

A large tract of land bought in 1902 for sewer purposes. It is situated in Quincy Bay and is composed of a large area of shilly land, forming an extended peninsula from Squantum. There are two large houses, one in fairly good condition, and the other dilapidated, and a wharf and barn. One of the houses is occupied by Mrs. Cullen, a sister of Timothy Sullivan, who is in charge of the sewage at Moon Island. Mr. Sullivan formerly lived in the house, but upon his marriage moved to the town and allowed his sister to occupy the house rent free. The other house is in a run-down condition and is occupied in the summer time principally by boys and men from South Boston, who come there to spend Saturdays and Sundays. In former years squatters were allowed to pitch tents and wooden buildings on this land in the summer months, until the Quincy Board of Health objected on account of the unsanitary conditions of living. There is also a house boat belonging to Charles E. Folsom of the Assessing Department, moored off one of the beaches of the city property, for which privilege no fee is paid.

LAND, FRANKFORT AND PORTER STREETS, EAST BOSTON.

(Containing 44,887 Square Feet, Valued at \$11,200.)

A large tract of vacant land which was bought for the purpose of erecting a school thereon, but was never used. It is in the center of a factory district.

DWELLING HOUSES, 9 AND 25 WARRENTON STREET.

(Containing 3,365 Square Feet, Valued at \$19,200.)

Bought in 1909 as part of a site for the High School of Commerce. One of the buildings is leased, the other has been abandoned.

VACANT LAND NEXT TO 69 PAUL GORE STREET.

(Containing 32,346 Square Feet, Valued at \$11,300.)

Vacant land bought for a school site and not used. It is a large vacant lot, available for building purposes.

ADAMS STREET SCHOOL.

(Containing 44,455 Square Feet, Valued at \$7,500.)

Old frame schoolhouse, located on a fine lot of land at 887-991 Adams street. The building is abandoned and the property should be sold.

APPENDIX B.

BOSTON INFIRMARY DEPARTMENT.

Almshouse garden, Alford street, Ward 4, containing 67,671 square feet, valued at \$20,300. Vacant land opposite Almshouse and used as truck garden by the Infirmary Department. The land should be sold as the Almshouse will be transferred to Long Island possibly in August, 1914.

Vacant land, Alford and Dexter streets, Ward 4, containing 5,369 square feet, valued at \$1,900. On the corner of Alford and Dexter streets is a wooden shed said to be owned by T. M. Kelley for which he is said to pay rent to the city of Everett. It is claimed that the shed is on the City of Boston line. In order to ascertain this fact the city engineers should be called upon to survey the lot and in the event of the occupation of a portion of city land by Mr. Kelley, rent should be charged by him. Both of these parcels should be sold.

Total valuation, \$22,200.

CEMETERY DEPARTMENT.

Vacant land, Mt. Hope street, Ward 23, containing 17,686 and 23,165 square feet. Vacant land, although a part of Mt. Hope Cemetery, might be sold.

Cemetery, Atherton avenue, Ward 26, containing 28,988 square feet, valued at \$900. Two-story frame house of five rooms occupied by Superintendent Donovan and a great quantity of vacant land adjoining and near Fairview Cemetery owned by the City of Boston but not yet devoted to cemetery purposes.

Fairview Cemetery, Atherton avenue, Ward 26, containing 1,660,539 square feet, valued at \$49,800.

Part Fairview Cemetery, Atherton avenue and St. Joseph street, Ward 26, containing 28,800 square feet, valued at \$900.*

Part Fairview Cemetery, St. Joseph street, Ward 26, containing 11,200 square feet, valued at \$300.*

Part Fairview Cemetery, St. Joseph street, Ward 26, containing 165,054 square feet, valued at \$5,000.*

Part Fairview Cemetery, St. Charles avenue, Ward 26, containing 44,800 square feet, valued at \$1,300.*

Part Fairview Cemetery, 45 Fairview avenue, Ward 26, containing 57,923 square feet, valued at \$2,900 (land, \$1,700; buildings, \$1,200).*

Part Fairview Cemetery, St. Joseph street and Atherton avenue, Ward 26, containing 77,600 square feet, valued at \$2,300.*

Part Fairview Cemetery, St. Charles avenue, Ward 26, containing 11,805 square feet, valued at \$400.*

Part Fairview Cemetery, Fairview street, Ward 26, containing 12,258 square feet, valued at \$500.*

Part Fairview Cemetery, Fairview street, Ward 26, containing 10,930 square feet, valued at \$400.*

Part Fairview Cemetery, Fairview street, Ward 26, containing 10,103 square feet, valued at \$400.*

Part Fairview Cemetery, Fairview street, Ward 26, containing 11,763 square feet.*

* The parcels which do not adjoin the cemetery could be sold, as they will probably not be used for enlargement of the cemetery.

Total valuation, \$65,100.

FIRE DEPARTMENT.

Engine house, Soley street, Ward 5, containing 2,300 square feet, valued at \$2,500. Soley street fire yard is a large unused lot in the rear of engine house. If an additional fire station is needed for this district, this locus could be used and the Joiner street lot sold. If the Joiner street lot is retained, part of the Soley street lot should be sold.

Lot on Park and Joiner streets, Ward 5, containing 2,347 square feet, valued at \$9,500 (land, \$4,000; buildings, \$5,500). Site for engine house. This property should be sold if the Soley street lot is retained.

Coal station, 114 Salem street, Ward 6, containing 417 square feet, valued at \$4,400 (land, \$2,900; building, \$1,500). An old shed for storage of cannon coal and coal wagon for Engine No. 8. The coal and wagon could be stored in the area adjoining the engine house and this property should then be sold.

West Fourth and Dorchester streets, Ward 15, containing 8,169 square feet, valued at \$25,800 (land, \$10,800; building, \$15,000). Fire station and Old Court House Building; half of first floor is occupied by Fire Department; upper floor by veterans' associations. The building should be sold or remodelled so as to include the hook and ladder station adjacent on West Fourth street, in which case that property could be sold.

Coal station, Jenkins and Dorchester streets, Ward 16, containing 1,610 square feet, valued at \$3,100 (land, \$1,100; building, \$2,000). A one and one-half story brick building used as a coal station for Fire Department. It could possibly be sold and other property of department utilized.

Total valuation, \$45,300.

PARK AND RECREATION DEPARTMENT.

Orient Heights Playground, Ward 1, containing 362,167 square feet, valued at \$21,100. This playground is under water, as it was at the time of purchase. It should be developed or else sold.

Gymnasium, Harrison avenue, corner Plympton street, Ward 9, containing 3,789 square feet,

valued at \$16,000 (land, \$9,000; building, \$7,000). If a new municipal building is erected for this ward this property should then be sold.

Bath house lot, 249-253 East Ninth street, Ward 15, containing 6,671 square feet, valued at \$2,000. This is vacant land and should be sold.

Vacant land, East Ninth street, Ward 15, containing 2,950 square feet, valued at \$1,500. This is vacant land, corner East Ninth and I streets and Columbia road. Building of Thomas Hills is said to extend over city line. In order to ascertain this fact the city engineers should be called upon to survey the lot and in the event of the occupation of a portion of city land by Mr. Hills rent should be charged to him. The land should be sold.

Triangular lot, northerly side Marine Parkway, Ward 15, containing 326 square feet, valued at \$200. Vacant land, northerly side Marine Parkway, Ward 15, containing 500 square feet, valued at \$300. Vacant land, south side 20-foot street, Ward 15, containing 1,650 square feet, valued at \$800. Three triangular vacant lots, contiguous to one another, between K street, Columbia road and a new street not named, and directly back of 579, 581 and 583 East Ninth street. They should be sold.

Nursery grounds, Massachusetts avenue, Ward 16, containing 10,598 square feet, valued at \$3,700. Winter quarters for plants belonging to department; the land could be sold and Franklin Park utilized for this purpose.

City greenhouses, East Cottage street, Ward 16, containing 91,933 square feet, valued at \$44,600 (land, \$27,600; building, \$17,000). The property could be sold and Franklin Park utilized.

Tool shed, Old Colony avenue and Preble street, Ward 16, containing 25,000 square feet, valued at \$9,000 (land, \$7,500; building, \$1,500). Used by department as a yard and stable. The upper part of stable is occupied by Patrick Daly. This park yard can probably be taken care of by moving it to vacant land in parkway.

Richardson Park (Dorchester Historical Society), East Cottage street and Columbia road, Ward 16, containing 45,982 square feet, valued at \$35,500 (land, \$34,000; building, \$1,500). Old Blake House now used by Dorchester Historical Society. Large tract of land and old dwelling situated between East Cottage street and Columbia road. Portion could be sold.

Yard, Shirley street and Massachusetts avenue, Ward 17, containing 60,054 square feet, valued at \$30,000. Yard, Shirley street, Ward 17, containing 14,225 square feet, valued at \$5,700. Shirley street, near railroad track. A large yard used apparently for storage purposes but containing very little material. It is bounded by Massachusetts avenue, the railroad location and Shirley street.

Vacant land, Harold and Seaver streets, Ward 21, containing 1,550 square feet, valued at \$1,200. Vacant land, Seaver street, Ward 21, containing 1,550 square feet, valued at \$900. Vacant land, Seaver street, corner of Harold street, Ward 21, containing 1,643 square feet, valued at \$1,600. Strips of vacant land on Seaver street of no further use to the city and as they have been taken in fee by the Park and Recreation Department can be sold.

Vacant land, Seaver street, corner Walnut avenue, Ward 21, containing 6,093 square feet, valued at \$3,600. Grass lot adjacent to house of William J. Carlin; has been graded, sodded and surrounded with hedge so that it appears to be a continuation of the Carlin lawn. Should be sold.

Land, Chestnut Hill and Commonwealth avenues, Ward 25, containing 66,762 square feet, valued at \$50,100. Large lot of vacant land used at present time for tennis courts; as there are playground and park reservoir near by, the land could be sold.

House and land, 381 Chestnut Hill avenue, Ward 25. Not separately assessed. This is a two and one-half story house with a pitched roof, Queen Anne style of architecture, with eight rooms, in fair condition. It is located on Beacon street, corner Chestnut Hill avenue, and overlooks the playground. Michael O'Brien and his family occupy the place. The house forms no part of the playground site and could be disposed of to some private person without interfering with the playground.

Total valuation, \$227,800.

PARKMAN ESTATE.

Dwelling house, 33 Beacon street, Ward 8, containing 3,080 square feet, valued at \$64,500 (land, \$58,500; buildings, \$6,000). Vacant stable, Joy place, Ward 8, containing 850 square feet, valued at \$10,000 (land, \$8,400; buildings, \$1,600). Parkman house and stable now used by Park and Recreation Department. The department should be removed to the City Hall Annex and this property should be sold.

Total valuation, \$74,500.

PUBLIC BUILDINGS DEPARTMENT.

Police Station No. 7, Meridian street, junction Paris street, Ward 2, containing 3,773 square feet, valued at \$15,400 (land, \$9,400; building, \$6,000). This property has been abandoned for police station uses and should be sold.

Police stable, Havre street, Ward 2, containing 4,204 square feet, valued at \$9,200 (land, \$4,200; building, \$5,000). Abandoned, now used to store

a hack. Should be sold, either together with the Police Station No. 7 property or separately.

Old Armory Building, Bremen and Maverick streets, Ward 2, containing 4,337 square feet, valued at \$10,500 (land, \$3,500; building, \$7,000). Now vacant. Signs, however, are by the door stating as follows: "Major P. J. Grady Camp No. 3, U. S. W. V. Meeting nights first and third Friday," and "Halls to let, apply to J. H. Pridham, 49 Condon street, telephone E. B. 137-2," and "Overseers of the Poor, office hours 10-11 daily." The building is used for a wardroom for Ward 2. The property should be sold.

Old Probate Building, 28 Court square, Ward 6, containing 2,423 square feet, valued at \$178,000 (land, \$145,400; building, \$32,600). Old Historical Society Building, 30-32 Tremont street, Ward 6, containing 2,342 square feet, valued at \$210,500 (land, \$187,400; building, \$23,100). This property could be sold in case of removal of city departments now housed therein.

Cross Street School, 38 Cross street, Ward 3, containing 1,708 square feet, valued at \$3,500 (land, \$2,100; building, \$1,400). Wooden building leased to and occupied by Col. Fred B. Bogan Camp No. 14, S. W. V. This property could be sold and the camp provided with quarters elsewhere.

Old Franklin School, 1151 Washington street, Ward 9, containing 11,741 square feet, valued at \$78,000 (land, \$66,000; building, \$12,000). Occupied by G. A. R., on lease; also used as a wardroom for Ward 9. This property could be sold and quarters for G. A. R. provided elsewhere.

Building occupied by Wire Department, Plympton street, Ward 9, containing 8,500 square feet, valued at \$44,700 (land, \$12,700; building, \$32,000). Will be abandoned on removal of department to City Hall Annex. It could then be sold or used as storehouse for city.

Building, 618-620 Harrison avenue, and 3 Wareham street, Ward 9, containing 3,816 square feet, valued at \$12,000 (land, \$9,500; building, \$2,500). Brick block occupied by numerous tenants, including W. L. Waples Company, Shapiro, a junk dealer, a cleaning concern, etc. This building was formerly an old Fire Department repair shop. Until recently Waples leased it from this department for \$65 a month, but now Shapiro is the lessee and the other tenants sublet through him. It should be disposed of.

Smith Schoolhouse, occupied by G. A. R. Post 138, Joy street and Smith court, Ward 11, containing 1,938 square feet, valued at \$10,400 (land, \$6,200; building, \$4,200). Two-story brick building, 46 Joy street, used on lease by Robert A. Bell Post G. A. R. It should be sold.

West Brookline street, 400-406 Shawmut avenue and 4, 5 and 7 Canton court (St. Elizabeth Hospital property), Ward 12, containing 7,310 square feet, valued at \$33,800 (land, \$23,300; building, \$10,500). Dwelling houses bought for site for Ward 12 Municipal Building. They are now rented for \$193 a month. If the site is not to be used for this purpose it should be sold.

Old pumping station, Elmwood street, Ward 19, containing 5,000 square feet, valued at \$19,500 (land, \$4,500; building, \$15,000). Wardroom and gymnasium, shabby building which is only used at night as a gymnasium; it is located at the rear of Station 10. The property should be improved or disposed of.

Old engine house and lockup, 1992 Centre street, Ward 23, containing 1,628 square feet, valued at \$800 (land, \$300; building, \$500). An old police station, dilapidated frame building, should be sold.

Thomas Street School and G. A. R. Hall, Thomas street, Ward 23, containing 10,954 square feet, valued at \$7,300 (land, \$4,300; building, \$3,000). This building was evidently once a school and is now occupied by Post 200 G. A. R. It is in excellent condition, with considerable land about it, and could be sold and quarters for G. A. R. provided elsewhere.

Lot for municipal building, Washington and Ashland streets, Rosindale, Ward 23, containing 169,391 square feet, valued at \$22,800 (land, \$16,900; building, \$5,900). Lot and frame buildings taken as site for new municipal building. It should be sold if it is not to be used for this purpose.

Pumping station, Metropolitan avenue and Washington street, Rosindale, Ward 23, containing 12,895 square feet, valued at \$9,800 (land, \$1,800; building, \$8,000). Now abandoned and should be sold.

Town Hall, Washington street, Ward 23, containing 13,431 square feet, valued at \$19,100 (land \$12,100; building, \$7,000). Used for wardroom and also by S. W. V., Post 92 G. A. R., and by Associated Charities. In the rear of the town hall is a stable for Police Department patrol and ambulance. This property is excellent and is in center of the business section of Brighton and should be sold and quarters for G. A. R. provided elsewhere.

Rifle range, Woburn Mass., containing 100 acres. Situated in the rear of the Merrimac Chemical Works. Consists of 100 acres of swamp hill and undergrowth. Although the parcel was bought for target practice it has never been used, and though it cost \$25,000 it is not worth over \$15 an acre. The Merrimac Chemical Works might wish to buy a part of it. The locus is reached by crossing white bridge beyond the Chemical Works and climbing hill to right of road. Land extends from road back to valley.

Total valuation, \$685,300.

PUBLIC WORKS DEPARTMENT.

Reservoir, Brooks street, corner White street, Ward 1, containing 220,087 square feet, valued at \$66,700 (land, \$66,300; building, \$400). A large tract of land surrounded by four streets and inclosed by high iron fence. Reservoir is not needed except for possible emergencies and could, perhaps, be disposed of.

Old pumping station, Condor street, Ward 1, containing 118,000 square feet, valued at \$36,900 (land, \$28,900; building, \$8,000). Now used for district yard. The building is in excellent condition and there is large wharfing space. The property could be sold, or other departments paying rent for quarters in the immediate neighborhood should be transferred to it.

690-696 Albany street, Lamp Department Yard, Ward 12, containing 8,000 square feet, valued at \$13,000 (land, \$10,000; building, \$3,000). Now occupied by the Rising Sun Street Lighting Company at a rental of \$100 a month.

Vacant land, Mt. Vernon street, Ward 20, containing 45,729 square feet, valued at \$4,500. Vacant land adjoining property of Boston Consolidated Gas Company.

Vacant land, Mt. Vernon street, Columbia road and Carson street, Ward 20, containing 2,952 square feet, not assessed. Vacant tract of land across Old Colony Railroad track and lying between Columbia road, Carson street and Mt. Vernon street.

Vacant land, Mt. Vernon street, Old Colony avenue and Columbia road, Ward 20, not assessed. Vacant tract of land, between Mt. Vernon street, Old Colony avenue and Columbia road.

Vacant land, seven lots, Downer avenue, Ward 20, containing 35,301 square feet, valued at \$3,300. Land on top of hill and apparently part of Hancock street yard. It is valuable only for house lots, and should be sold.

Gravel and ledge lot, Morton street, Ward 23, containing 17,031 square feet, valued at \$1,400. A large parcel of land adjacent to Forest Hills Cemetery. This is vacant land, and might be sold to advantage. The cemetery might purchase it.

Vacant land, Paine and Canterbury streets, Ward 23, containing 283,295 square feet, valued at \$14,200. A large vacant tract of land near Mt. Hope Cemetery. The land fronts on Canterbury street. As there are 4,646,093 square feet in Mt. Hope Cemetery the land may not be needed and could be sold.

Vacant land, Canterbury street (in rear), Ward 23, containing 54,295 square feet, valued at \$1,600. Stone crusher, rear 818 Canterbury street, Ward 23, containing 155,680 square feet, valued at \$28,200 (land, \$2,700; building, \$20,500). Vacant land adjoining Mt. Hope Cemetery. The larger tract contains disused crushers. The land could be sold.

Washington and Williams streets, Stony brook channel, Ward 23, containing 2,471 square feet, valued at \$1,100. Parcel of land taken by the Street Commissioners for Stony brook sewer service. A portion of the land of Patrick J. Doyle *et al.*, was taken by the City of Boston in fee and \$1,000 paid to them for it. After the city had taken the land from Doyle *et al.*, they leased it to Patrick J. Doyle for \$10 per year. (Doyle carries on a liquor business at this location.) Lease is dated May 1, 1907, and permits lessee to erect buildings thereon. Lease can be terminated by giving sixty days' notice to lessee. Land should be immediately sold as it is in a business section and would probably bring an amount in excess of the assessed valuation. If not sold it should be leased based on an adequate return to city.

Freepoint street, Ward 24, containing 160,745 square feet, valued at \$37,600. Wharf property which was acquired by the city in 1911 for the Sanitary Service but has not been used. Should be sold.

Land and building, Bispham and Christopher streets, Ward 24, containing 3,840 square feet, valued at \$2,500 (land, \$1,000; building, \$1,500). Vacant land, Bispham and Christopher streets, Ward 24, containing 21,250 square feet, valued at \$6,400. Land and shed, Christopher Gibson street, Ward 24, containing 4,366 square feet, valued at \$1,500 (land, \$1,300; building, \$200). Land and buildings, Gibson and Bispham streets, Ward 24, containing 28,097 square feet, valued at \$13,000 (land, \$7,000; building, \$6,000). Four parcels of land occupied by Street, Sewer and Water Division Yards. Part of this tract should be sold.

Codman Street Yard, Codman street, Ward 24, containing 299,000 square feet, valued at \$18,000 (land, \$15,000; building, \$3,000). Vacant land, Codman street, Ward 24, containing 111,423 square feet, valued at \$5,600. Vacant land, Codman street, Ward 24, containing 35,770 square feet, valued at \$1,800. Much vacant land; site for crusher which is no longer used. Part or all of it might be sold.

Land and marsh, Mapes street, Ward 24, containing 450,734 square feet, valued at \$9,000. Off Park street. The land runs parallel with the railroad track and is used as a dump. It is not of much value and part might be sold.

Vacant land, Lyons street, Ward 24, containing 1,800 square feet, valued at \$400. Opposite fire station and near the corner of Lyons and Callender streets. It should be sold.

Chestnut Hill avenue, yard and crusher, Ward 25, containing 569,776 square feet, valued at \$85,300 (land, \$79,800; building, \$5,500). Large tract of land partly occupied by the department. It is in an apartment house district which is fashionable and growing. The yard should be

consolidated with the Western avenue yard, and the land disposed of.

Part of reservoir and holder, Milton avenue. Ward 26, containing 206,020 square feet, valued at \$23,200 (land, \$8,200; building, \$15,000). This is Fairmount Reservoir which is partly in Milton and partly in Hyde Park, and is not in use as the Metropolitan Water Board supplies the Hyde Park district. It should be sold.

Vacant land, Sprague street, Ward 26, containing 16,128 square feet, valued at \$500. Sprague street and Sprague pond. A parcel of land from street to pond, starting at the beginning of the incline of the bridge, which should be sold.

Vacant land, Water street to railroad, and vacant land, Water street and Walcott road, Ward 26, containing 144,830 square feet, valued at \$5,800. Old pumping station, near Neponset river and railroad track. The pumping station is now abandoned. Over 300,000 feet of land overgrown with brush and trees, which should be sold.

Land, Thatcher street, Ward 26, containing 8,125 square feet, valued at \$400. Vacant land, apparently not used and should be sold.

Land, Huntington avenue, Ward 26. Vacant land taken in fee by town of Hyde Park for sewer service. It should be sold.

Squantum, Mass., 19.5 acres, valued at \$22,800. The city owns 19.5 acres of upland and a large area for sewer purposes. The upland is situated on Quincy bay and is composed of a large area of hilly land. It is at an extreme point of land and forms a delightful summer park for the residents of Quincy and thereabouts. There are two large houses, one in fairly good condition, the other dilapidated, and a wharf and barn. The better house is occupied by a Mrs. Cullen, a sister of Timothy Sullivan, who is in charge of the sewage at Moon Island. It seems that when the land was acquired by Boston during ex-Mayor Hart's administration, Mr. Sullivan was permitted to occupy the house rent free. Upon his marriage, he moved to the city but allowed his sister to occupy the house. She is there at present and pays no rent to the city. The other house is in a run down condition and is occupied in the summer time principally by boys and men from South Boston who come there to spend Saturday and Sundays. In former years squatters were allowed to pitch tents and wooden buildings on this land during the summer months until the Quincy Board of Health objected on account of the unsanitary conditions of living. There is also a house boat belonging to Charles E. Folsom of the Assessing Department, moored off one of the beaches of the city property, for which privilege no fee is paid the city. Mrs. Cullen, upon being interviewed, stated that the city property, on account of its pleasant situation and accessibility to the car line, afforded a delightful pleasure ground for summer crowds and that it was not unusual for 300 or 400 people to gather there on Saturdays and Sundays during the summer season. There is a Quincy policeman paid by Boston who is presumed to be on duty there on Saturdays and Sundays, but even with this slight supervision the opportunities for a good time are numerous. The parcel is assessed for \$22,800, but the city of Quincy has had a tax title on it for the last ten years. The parcel should be redeemed and then disposed of. Meanwhile Mrs. Cullen should be charged rental.

Dedham, old Hyde Park pumping station and land, near junction of Milton and River streets. Much swamp land, at present not used. Should be sold.

Total valuation, \$399,700.

SCHOOL COMMITTEE AND SCHOOLHOUSE DEPARTMENT.

Austin Primary School, Paris street, Ward 2, containing 4,640 square feet, valued at \$54,800 (land, \$8,100; building, \$46,700). This building has been abandoned for school purposes and the property should be sold.

Land, Frankfort, Porter and Lubeck streets, Ward 2, containing 44,887 square feet, valued at \$11,200. A large tract of vacant land which was bought for the purpose of erecting a school but not used. Should be sold.

Land, southwest side of Chauncey place, Ward 3, containing 7,410 square feet, valued at \$3,700. Formerly the building on the lot was used as a school, but building was abandoned and razed. Land is diagonally across from gasometer. Should be sold.

Baldwin School, Chardon court, Ward 6, containing 6,139 square feet, valued at \$36,000 (land, \$21,500; building, \$14,500). Is now occupied but will be abandoned when new school in Wells District is completed. The property should then be sold.

Dwelling house, 9 Warrenton street, Ward 7, containing 1,582 square feet, valued at \$9,300 (land, \$6,300; building, \$3,000). Dwelling house, 25 Warrenton street, Ward 7, containing 1,783 square feet, valued at \$9,900 (land, \$7,100; building, \$2,800). Two and one-half story brick dwelling houses. No. 9 is occupied by Paul Goldner and used by him as a lodging house, for which he pays rent of \$60 a month. No. 25 is now abandoned. These parcels were part of the site bought originally for the High School of Commerce. They should be sold.

Way Street Primary School, Way street, Ward 9, containing 2,508 square feet, valued at \$13,400 (land, \$4,400; building, \$9,000). An abandoned schoolhouse. Should be sold.

Winthrop Street School, Winthrop street, Ward 17, containing 9,775 square feet, valued at \$10,000 (land, \$4,900; building, \$5,100). The building is apparently only used for a storehouse and as a voting place and probably could be sold.

Old Ira Allen School, Leon street, Ward 19, containing 10,057 square feet, valued at \$6,500 (land, \$4,500; building, \$2,000). This is an abandoned schoolhouse which is in a disgraceful condition and should be sold.

Vacant land for school, Paul Gore street, Ward 22, containing 32,346 square feet, valued at \$11,300. Land opposite No. 63 and next to No. 68 Paul Gore street. This is a large lot, which would be valuable for building purposes.

Vacant land on Washington and Stimson streets, Ward 23, containing 13,180 square feet, valued at \$800 and vacant land on Grove street, Ward 23, containing 82,891 square feet, valued at \$800. Vacant land around wooden school building which is of no great value, but would be useful if school were enlarged. It should be determined whether or not it will be needed for future growth, and, if not, it should be sold.

Adams Street School, Ward 24, containing 44,455 square feet, valued at \$7,500 (land, \$4,500; building, \$3,000). Old frame schoolhouse located on fine lot of land, lot between 887 and 911 Adams street, near Milton street. Appears to be abandoned and should be sold.

Land for school, Redford street and Holmes avenue, now Brainerd road, Ward 25, containing 26,000 square feet, valued at \$6,500. Vacant land, corner Redford street and Brainerd road, very near Brookline line. This should be sold.

Land for school, Academy Hill road, Ward 25, containing 54,448 square feet, valued at \$5,400. Old Brighton High School lot on top of Academy Hill, an excellent location. The old building has been torn down. The land is not used and should be sold.

Land for school, Washington street and Corey road, Ward 25, containing 29,900 square feet, valued at \$9,000. Old ledge lot now used for storing old pungs, cobble stones and rubbish. This lot should be sold at once.

Land for school, Union street, Ward 25, containing 67,280 square feet, valued at \$10,000. Old schoolhouse lot, now vacant land, which runs from corner of Union street to Chestnut Hill avenue. This is a valuable site and should be sold.

Butler School, north side of River street, Ward 26, containing 3,900 square feet, valued at \$600 (land, \$500; building, \$100). Now closed and should be sold.

Total valuation, \$200,700.

STREET COMMISSIONERS.

Land, rear 80 West Cedar street, Ward 11, containing 1,600 square feet, valued at \$2,400. An ill-kept yard inclosed by a rundown fence and used for rubbish. Abutting property owners have built up to the line of the city's land. It should be sold.

Vacant land, 23 Gold street, Ward 13, containing 1,100 square feet, valued at \$400. One of two vacant lots poorly fenced in and littered with rubbish; should be disposed of.

Mall and Eustis streets, city scales, Ward 17, containing 700 square feet, valued at \$1,200 (land, \$1,100; building, \$100). Next to city scales and occupied by a blacksmith shop is land belonging to the City of Boston. This land was conveyed to the city of Roxbury by deed dated December 28, 1860, by Andrew W. H. Newman, but containing a reservation that the buildings now standing on the released land "shall remain undisturbed by said city for the space of ten years from this date and at the expiration of said term, said city shall have the right to cut off said building without paying said Newman any damages therefore, but said city shall board up the building so cut off." The grant was evidently lost sight of because the buildings on the land have not been cut off and the occupant of the parcel has remained there since 1860 without, so far as have been able to learn, the payment of rent. The land should now be claimed by the city, the terms of the deed followed and the land together with the city scales parcel should be sold. There is no necessity for the retention of the scales at Eustis and Mall streets, as it is seldom used and there are city scales at the corner of Massachusetts avenue and Northampton street, on land leased from the Boston Consolidated Gas Company. The latter location is more preferable as it is in the center of a busy mercantile district.

Vacant land, Manning street, corner Berry street, Ward 23, containing 5,262 square feet, valued at \$400, and vacant land, Manning street, corner Berry street, Ward 23, containing 7,150 square feet, valued at \$500. Vacant land, Manning street, has not yet been laid out. These lots are on either side of Manning street, and are also opposite to Mt. Hope Cemetery. Should be sold.

Vacant land, Prospect and Moreland streets, four lots, Ward 23, containing 30,329 square feet, valued at \$600. Vacant land in the woods on a street running off Spring street, West Roxbury, and directly opposite the Parental School.

King's Mill Pond, between Mill, Exchange, Park and Adams streets, Ward 24, containing 470,386 square feet. Large tract of land now used as a dump and gradually being filled in; when filled in should be sold, if no impediments to a sale.

Land, Cambridge and Lincoln streets, Ward 25, containing 13,948 square feet, valued at \$4,900.

Land, corner of Cambridge, Lincoln and Mansfield streets, adjacent to a private playground. Land is not used at present; should be sold.

Brush Hill road, Milton, and Brook road, containing 30,025 square feet, valued at \$2,500. Vacant land owned by city in fee; should be sold.

Brush Hill road and Brook road, containing 60,945 square feet, valued at \$2,150. Vacant land directly opposite land owned by City of Boston. This Brush Hill road parcel is an inheritance from the town of Dorchester, which leased the property for 999 years. It might be disposed of on a lease.

Total valuation, \$15,050.

A CITY'S PARK SYSTEM.

By JOHN NOLEN, *Landscape Architect, of Cambridge, Mass., in Presenting Plans for Establishment of Park System for the City of Little Rock, Arkansas.*

In the reservation of parks it should be clearly understood that the primal end is neither to beautify nor to add a luxury to the city's possessions. On the contrary, it is the profoundly important matter of securing a reasonably high standard for property development. Without reservations for parks, playgrounds, etc., and the proper platting of streets, the more influential and independent citizens will go beyond the city to pleasanter regions where streets shall be laid at easy grades, conforming to the topography, and where ample reservation of open spaces will secure for all time the pleasant prospects appropriate to a region of homes.

These are features which people in cities which have passed through the experience of park reservation have learned to appreciate and would not do without. Park reservation serves a distinctly practical purpose, providing always an element of permanence to a neighborhood which serves to fix the real estate values in the region.

Owners facing a park know the outlook is thus secured for all time, and they build and settle with confidence. Business in all instances may encroach, but the desirability of the region, as far as open spaces are concerned, can never be seriously impaired, and property with secured advantages passes always at a premium over property unsecured.

By some who have not followed the history of American park reservation, the question may still be asked "Of what use are these parks?" Why do we need them at all? Why not secure the large return from the same land devoted to business? Why not continue the building of brick and stone over an unbroken area indefinitely as the city develops? The answer is that cities can never be wholesomely and economically built in this way. Especially in our rapidly growing American cities it is vitally necessary to recognize certain laws on which wholesome development depends; precisely as we recognize laws on which the physical development of the individual depends. Never have cities entirely failed to appreciate the need for freedom and elbow room so to speak, for contact with nature, for relief from the artificial and mechanical.

A certain ratio should be maintained between the population of a city and the area reserved for open spaces. As the city develops, it is a short-sighted policy that fails to maintain this ratio—a policy which leads eventually to low property valuation, to slum conditions and to ill-favored succeeding generations. A certain complement of fresh air, of open space, of touch with nature, proves in the experience of cities vitally essential for wholesome development. Response to this need results in high grade development and in sound unfluctuating values—two of the chief factors in civic well-being.

OPERATION OF THE NEW TARIFF LAW.

Hon. Albertus H. Baldwin, Chief of the Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, has directed a most exhaustive analysis of the operation of the Underwood-Simmons Tariff Law for the first six months of its administration by the Treasury Department.

He declares:

"Home consumption of domestic foodstuffs has so nearly overtaken home production that the United States is not only reducing its sales of foodstuffs abroad but drawing more largely on foreign countries for food requirements. Imports of foodstuffs in natural condition, including food animals, increased from \$117,194,237 in half-year ending with March, 1913, to \$143,421,536 in like period ended with March, 1914; and imports of foodstuffs partly or wholly prepared advanced from \$95,714,241 to \$100,967,378. Increase in importations of all food products amounted to over \$30,000,000, or an average of \$5,000,000 per month. On the export side the figures are even more striking. Of crude foodstuffs, sales to foreign countries fell off more than 50 per cent, while prepared foodstuffs declined in smaller proportion. Exports of first-named group fell from \$115,850,453 in six months' period of last year to \$55,483,787 in half-year which ended with March last, and manufactured food products from \$180,007,422 to \$162,022,620.

"Articles showing largest increases in importations are fresh beef, cattle, corn, wheat, rice, macaroni, fruits, molasses and edible oils. We imported during six months which ended with March last 550,000 head of cattle, or more than double the number in corresponding period a year earlier; 85,667,000 pounds of beef and veal, or more than 50 times as much as a year ago; nearly 9,000,000 bushels of corn, or 30 times as much; 140,000,000 pounds of rice or rice flour, or nearly 50,000,000 pounds more; and 66,000,000 pounds of macaroni, vermicelli and similar preparations as against 53,000,000 pounds.

"Sugar is a conspicuous exception. Of cane sugar the imports in six months ended with March were 1,650,000,000 pounds compared with 1,800,000,000 in corresponding six months of 1912-13, while of beet sugar the imports fell to 114,000,000 pounds from 182,000,000 pounds.

"While in many instances the above-named products form a small proportion of domestic consumption, as in corn, wheat and meats, the increase in imports has been so rapid as to give promise of reducing before long the shortage of our own food supply.

"The following illustrates the change in position in imports and exports of food products during last 15 years and shows what balance of trade has shifted to the import side: Imports of foods, 1898, \$190,000,000; 1913, \$405,000,000; six months, ending March, 1914, \$244,000,000. Exports of foods, 1898, \$590,000,000; 1913, \$502,000,000; six months, ending March, 1914, \$217,000,000."

POPULAR GERMAN GRANITE BLOCK SYSTEM.

Hon. Henry H. Morgan, United States Consul, at Hamburg, Germany, has prepared an interesting report upon granite block road system in Germany. He declares:

"The so-called Kleinpflaster system for armoring roads has come into extensive use in Germany and other parts of Europe

during the past few years, and experience has shown that roads laid with small granite blocks under this system have many advantages over highways armored with macadam or concrete. It is far cleaner than other armors, and roads laid therewith are particularly free from dust and dirt, and during wet and damp weather the danger to horses from slipping is reduced to a minimum on account of the joints being so close together. The finished surface is smooth and well adapted for both light and heavy traffic. As a rule, the road once laid requires no maintenance.

"The granite blocks used are cut by machines in the required shape and are covered by patents. The cost of armoring roads with the Kleinpflaster system in Germany, including all necessary work, amounts to \$1.58 per square meter (1.196 square yards), and the life of the road is about twenty years where traffic is heavy and thirty years where traffic is light.

"The following description of the method of laying the road is given:

"First, the old macadam is carefully leveled and rolled. In the absence of an old macadam, one may lay a foundation of concrete 4 to 6 inches in depth. The small stones of approximately cubical shape are placed in position on a bed of sand and pressed tight against each other so as to form a kind of rough mosaic. . . . The subsoil contributes to a great extent to the solidity of the pavement, which, laid in a solid foundation, will last accordingly. The old road should be carefully leveled and rolled or rammed so as to form a solid and water-tight surface with very little camber. A perfect smoothness of the surface is of great importance, as every unevenness of the same will be visible in the plaster and should consequently be removed, the surface being given a camber of one-fiftieth of the width of the road, or even less in flat and broad streets in towns, and then finally rolled by a steam roller."

"Sand is spread over the finished foundation to a depth of about one-half inch to bring up the shallow stones to the level of those of full depth. Only coarse-grained sand, without any earthy substance, or fine gravel is fit for this purpose. The small stones should be of approximately cubical shape, not too wedge-shaped, 2½ to 3½ inches or 3 to 4 inches in depth, the heads measuring 6 to 12 square inches. The size of the cubes depends on the hardness of the stone and on the amount of traffic."

BUSINESS CONDITIONS IN MASSACHUSETTS.

The conditions attending business in Massachusetts are well attested by the report from the office of Secretary of State Donahue declaring that new business incorporations under Massachusetts laws in May numbered 126 with \$11,760,000 authorized capital. In April, 167 new business corporations were organized. New business incorporations under the laws of this Commonwealth for the first five months of the current year, with authorized capital, compare:

	NUMBER		CAPITALIZATION.	
	1914.	1913.	1914.	1913.
January....	162	140	\$11,305,300	\$31,620,000
February....	145	149	8,345,700	36,789,000
March.....	167	141	22,930,800	12,972,400
April.....	167	142	13,293,700	6,025,500
May.....	126	138	11,760,000	10,088,000
Total....	767	710	67,635,500	97,494,900

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announces an open competitive examination for June 15, 1914, for chemist, in charge of state cooperative food and drug control, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., at a salary of \$4,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to act as a clearing house between the Department of Agriculture and the Food and Drug Commissioners of the several states in all matters of food and drug control, which will involve keeping the state officials informed concerning all rulings and precedents established under the Food and Drug Acts and the keeping track of similar rulings and precedents established by the different states, in order to keep all the food and drug officials of the country informed as to what is going on in every section of the country. This position will also probably involve notifying all food and drug officials of the country of court rulings and court actions, the distribution of the results of analysis made in this department to prevent duplication, and the receiving in exchange of results of analysis made by the states for distribution in the same way.

The commission announces that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announces an open competitive examination for expert radio aid, for men only, on June 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$6 per diem in the navy yard, New York, N. Y., and vacancies as they may occur in positions requiring similar qualifications throughout the United States, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Preference in certification will be given to eligibles who are examined nearest the places at which vacancies occur.

The duties of the appointee to this position will be as follows: To direct and assist in the laboratory standardization tests of all circuits, instruments, and apparatus pertaining to and used in radio signaling; the practical installation, repair, and adjustment of radio apparatus both in shore stations and on ships; the development of special apparatus and methods of radio signaling suited to special conditions, and of new forms of sending and receiving circuits; to inspect

the various radio stations when called upon and to make the necessary measurements of their electrical constants; and, in general, to carry out such work as may be necessary for the development of radio apparatus. They will be required to prepare technical reports of inspections, tests, and experimental research work.

The commission announces an open competitive examination for general mechanic, for men only, on June 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Departmental Service at Washington, D. C., and other services, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary for this position is from \$720 to \$900 per annum.

It is desired to secure eligibles who are capable carpenters or cabinetmakers, and who in addition have had experience in as many other lines as possible, such as painting, plumbing, electric work, operation of pumps and motors, and the care of steam-heating plants. The higher ratings on training and experience will be given to those who show the widest range of experience. A full and complete statement of all experience had by the applicant should be given in his application.

The commission announces an open competitive examination for immigrant inspector, for men only, on June 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in the positions of immigrant inspector and Chinese inspector in the Immigration Service, Department of Labor, at entrance salaries of \$1,380 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for expert farmer, for men only, on June 17, 1914. From the register of eligibles resulting from the examination certification will be made to fill a vacancy in this position at Fort Stanton, N. Mex., in the Public Health Service, Treasury Department, at \$1,500 a year, together with quarters, subsistence and laundry, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be farm accounting, timekeeping, reports and cost statements, care of range herd of over 2,000 head; farming and dairying as carried on in irrigated districts; well drilling, and care of gasoline engines and farm machinery.

The commission announces an open competitive examination for immigrant inspector for men only on June 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in the positions of immigrant inspector and Chinese inspector in the Immigration Service, Department of Labor, at entrance salaries of \$1,380 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for mechanical

draftsman, for men only, on June 17 and 18, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,000 per annum, in the Patent Office, Department of the Interior, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for mining draftsman, for men only, on June 17 and 18, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Mines, Pittsburgh, Pa., at an entrance salary of from \$1,080 to \$1,200 per annum, and vacancies in positions requiring similar qualifications as they may occur, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the person appointed to this position will be to review the drawings of mines sent in by the mining engineers of the bureau, to revise, complete and correct such drawings, or to reduce or enlarge them for the purpose of illustration in the printed publications of the bureau.

The commission announces an open competitive examination for law assistant, for men only, on June 17 and 18, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of law clerk in the office of the Solicitor, Department of Agriculture, Washington, D. C., at an entrance salary of \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for aid in the Coast and Geodetic Survey, for men only, on June 17 and 18, 1914. From the register of eligibles resulting from this examination certification will be made to fill existing vacancies and vacancies as they may occur in the positions of aid and deck officer in the Coast and Geodetic Survey, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Qualified persons have an excellent opportunity of appointment as a result of this examination.

The commission announces an open competitive examination June 22, 1914, for mechanic, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$1,020 a year in the Bureau of Standards, Department of Commerce, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Persons appointed as a result of this examination will be employed in the machine shop of the bureau where high-grade scientific apparatus and instruments are produced.

The commission announces an open competitive examination for plant pathologist in potato investigations, for men only, on June 29, 1914. From the register of eligibles resulting from this

examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, at a salary ranging from \$1,800 to \$2,250 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of investigations of the diseases of the Irish potato and especially study of the late blight.

The commission announces an open competitive examination June 29, 1914, for market specialist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Office of Markets, Department of Agriculture, at a salary of \$2,760 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to investigate the methods now used by cooperative associations of dairy producers in organizing and in marketing their products and to devise and demonstrate improvements in these methods.

The commission announces an open competitive examination June 29, 1914, for market milk specialists, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include cooperative work with state and municipal authorities in the improvement of milk supplies, and it will be necessary for the appointees to perform considerable traveling throughout the United States for the purpose of conducting investigations concerning the production, handling, and distribution of milk for city consumption. In addition, they will be called upon to attend dairymen's conventions and other meetings for the purpose of scoring milk and cream, and making addresses pertaining to the sanitary production and handling of the same; to assist local inspectors in inaugurating and carrying out efficient systems of dairy inspection; to inspect dairy farms and city milk plants, and give advice as to improvements from a sanitary standpoint.

The commission announces an open competitive examination June 29, 1914, for dairy husbandman, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,800 to \$2,500 a year, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include cooperative work with dairy farmers; advice and assistance with reference to instituting the keeping of records of production of herds, the construction of silos,

the construction and remodeling of dairy buildings, the feeding of dairy herds, the management of dairy farms, the care and handling of milk and cream, and the making of butter on farms; the organization and supervision of farmers' associations, bull associations, and cow-testing associations; demonstrations at fairs, judging dairy cattle and dairy products, lecture work on subjects connected with dairy farming, and other forms of dairy-farming extension work; collection of information concerning the dairy industry, and experimental work along dairy-farming lines. The performance of these duties will involve considerable traveling, usually within one state.

The commission announces an open competitive examination June 29, 1914, for dairy manufacturing specialist, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,800 to \$2,500 a year, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will include cooperative work with creameries, condensed milk factories, ice cream factories or cheese factories, according to the qualifications of the man. The person appointed to a position of this character will generally be assigned to a particular section of the United States, and he will be required to visit creameries, condensed milk factories, ice cream factories, or cheese factories; to attend patrons' meetings for the purpose of giving instructions in the care of milk and cream; to attend dairy conventions for the purpose of making addresses on the subjects pertaining to his special line of dairy manufacturing; and to give advice regarding the building of new factories and the installing of equipment.

The commission announces an open competitive examination June 29, 1914, for senior highway engineer and highway engineer, for men only. From the register of eligibles resulting from this examination certification will be made to fill a large number of vacancies in these positions in the Office of Public Roads, Department of Agriculture, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will involve superintending the construction of roads of various types throughout the United States. In addition the employees will be called upon to inspect roads and investigate road building materials, as well as administrative organization, methods of management, etc., in counties for the purpose of reporting upon systems by which the best administration, construction and maintenance of the county system may be secured. The inspecting of roads locally and giving advice in regard to their improvement, and the giving of addresses at road meetings will also be included as part of the duties of these positions.

Eligibles resulting from this examination will be divided into two grades. The first grade will be designated senior highway engineer, with salaries ranging from \$2,220 to \$3,000 a year. The second grade will be designated highway engineer, with salaries ranging from \$1,800 to \$2,100 a year.

The commission announces an open competitive examination, June 29, for the position of painter at the Boston Post Office and Sub-Treasury Building. The salary will be \$3.50 per day. No educational test will be given. For full particulars relative to this examination, apply at 141 Post Office Building, Boston.

The commission announces an open competitive examination for assistant biochemist, for men only, on July 6, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the United States Public Health Service, for duty in the field, at \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in making metabolic, dietetic and other biochemical studies in relation to pelagra.

The commission announces an open competitive examination for assistant epidemiologist, for men only, on July 6, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Public Health Service, at salaries ranging from \$2,000 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct laboratory studies of disease, to make epidemiological surveys to determine the prevalence and causation of epidemics, and to recommend measures to prevent and control outbreaks of disease.

It is desired to secure persons thoroughly competent in the various branches of sanitary bacteriology, and especially in isolating the typhoid bacillus from infected persons and materials.

The commission announces an open competitive examination for chemist's aid, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., and in the field service of the Bureau of Chemistry, at salaries ranging from \$720 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Most of the appointments will be made at \$720 a year.

Both men and women will be admitted to this examination, but most of the positions are of such a character that they can only be filled by men.

The duties of this position will include the construction and repairing of laboratory apparatus, the preparation of stock solutions and special reagents, and similar work. It is desired to secure efficient and practical appointees whose services will be valuable in assisting chemists in their work. Appointment to the position of chemist's aid will not lead to promotion as junior or assistant chemist, and persons desiring such promotion must take the regular examination for junior chemist, which is held at frequent intervals.

The commission announces an open competitive examination for timber scaler, for men only, on July 8, 1914. From the

register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$90 a month on ceded Chippewa Indian lands in Minnesota, under the General Land Office, Interior Department, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Persons who meet the requirements and desire to compete in these examinations should at once apply for application blanks and full information relative thereto, to the secretary of the United States Civil Service Board, 141 Post Office Building, Boston.

The commission announces an open competitive examination for weight clerk, for men only, on July 8, 1914, at Bath, Me. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$3.04 per diem, in the office of the Superintending Constructor, U. S. Navy, Bath Iron Works, Bath, Me., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

In the event of there being a shortage of eligibles in other naval establishments eligibles from this examination who are willing to accept appointment at an establishment where such shortage exists may be certified for appointment to such establishment.

The commission announces an open competitive examination for assistant market milk specialist, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,500 to \$1,740 a year, and in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position include cooperative work with state and municipal authorities in the improvement of milk supplies; investigations concerning the production, handling, and distribution of milk for city consumption; scoring of milk and cream in connection with milk contests; inspection of farms, stores and city milk plants where milk is handled; lecture work at dairymen's associations and other meetings. The performance of these duties will involve considerable travel.

The commission announces an open competitive examination for bacteriologist, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at salaries ranging from \$1,200 to \$2,000 a year, in the Bureau of Chemistry, Department of Agriculture, for duty both in Washington, D. C., and in the field, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to examine bacteriologically food products which are subject to the food and drugs act in order to determine their sanitary condition.

The commission announces an open competitive examination for landscape architectural draftsman, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Engineer Department at Large, War Department, Washington, D. C., at a salary of \$900 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for assistant dairy husbandman, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,500 to \$1,740 a year, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include cooperative work with dairy farming; giving advice and assistance with reference to instituting the keeping of records of production of herds, feeding of dairy herds, and management of dairy farms; organization and supervision of farmers' associations, bull associations, and cow-testing associations; judging dairy cattle; lecture work on subjects connected with dairy farming; and experimental work in dairy-farming lines.

The commission announces an open competitive examination for structural engineer and draftsman, for men only, on July 8 and 9, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Office of the Supervising Architect, Treasury Department, Washington, D. C., at entrance salaries ranging from \$1,600 to \$1,800 per annum; vacancies in the position of first-class structural draftsman in the Panama Canal Service, at entrance salaries ranging from \$150 to \$175 a month, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary of the position of structural engineer and draftsman in the Supervising Architect's Office is \$1,600 or \$1,800 a year; only those persons who attain an average percentage of 80 or over in the examination being eligible for appointment at a salary of more than \$1,600. The entrance salary for the position of first-class structural draftsman in the Panama Canal Service depends upon the amount of experience had by the appointee.

The commission announces an open competitive examination for marine engine and boiler draftsman for men only, on July 8 and 9, 1914, at all places at which city delivery service has been established in the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Navy Yard, Portsmouth, New Hampshire, at an entrance salary of \$4 per diem, and vacancies as they may occur in positions requiring similar qualifications at entrance salaries ranging from \$3.52 to \$5.04 per diem,

unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Marine engine and boiler draftsmen are employed by the Navy Department at the following places in the New England States: Bath, Maine; Boston and Quincy, Mass., and Portsmouth, New Hampshire. In certifying to these positions local eligibles are preferred, but in the event of there being a shortage of local eligibles, eligibles from this examination who reside in other cities and who are willing to accept appointment at a naval establishment where such shortage exists, may be certified for appointment to such establishment.

The commission announces an open competitive examination for assistant mining engineer, for men only, on July 13, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Mines, Department of the Interior, for service in the field, in relation to coal mining or metal mining, at salaries ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will include, in one case, investigations in relation to coal mines, and in another case in relation to metal mines, particularly such as concern the causes of mine accidents or waste in mining, and the suggestion of remedies therefor. It is desired to procure the services of persons having a broad training in mining, particularly underground experience.

The commission announces an open competitive examination for record examiner, for men only, on July 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position as they may occur in the Department of Agriculture, for service in the field, at salaries ranging from \$1,500 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It is desired to secure eligibles capable of making independent examinations of land titles in connection with the acquisition of forest lands by the Government.

The commission announces the postponement from June 17 and 18, 1914, to July 22 and 23, 1914, of the open competitive examination for law assistant, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of law clerk in the office of the Solicitor, Department of Agriculture, Washington, D. C., at entrance salaries of \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

SEMI-CENTENNIAL, CITY HOSPITAL.

The trustees announce a reception in honor of the semi-centennial observance of the opening of the Boston City Hospital in the Surgical Amphitheater, on Saturday, June 20, at 11.30 a. m. Luncheon will be served in the Medical Library at one o'clock.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 8, 1914.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD in the chair and all the members present.

The members of the Council voted, on motion of Coun. WATSON, to dispense with the reading of the records of the last meeting.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

B. F. Coleord, for compensation for damages at 6 Cardington street, Roxbury, caused by blasting. Annie M. Jenkins *et al.*, for compensation for damages at 30 Homes avenue by bursting of an automobile of the city.

Oscar S. Staples, 242 Geneva avenue, for compensation for damages by the burning of a city oil wagon.

Alexander McCarthy, to be paid for time lost on account of injuries received while working for city.

Executive.

Petitions were received for licenses to sell, rent or lease firearms, as follows:

Edward A. Grout & Co., 111 Summer street, Ward 7.

Levine Brothers, 11A Essex street, Ward 7.

Abraham Lipkin, 31 Green street, Ward 4.

Alfonso Rogers, 3 Prince street, Ward 6.

Louis Sonnabend, 373 Columbus avenue, Ward 10.

Edison Electric Illuminating Company of Boston for license to run automobile omnibus between 39 Boylston street and 1165 Massachusetts avenue.

A petition was received from M. Zimmermann for a license to manufacture sausages and smoked and pickled and chopped meats at 125 Fulton street.

CONSTABLES' BONDS.

The City Treasurer, after having duly approved of the same, submitted the following constables' bonds:

William G. Dolan, John J. Francy, Lawrence J. Kelly, Thomas J. O'Keefe.

Approved by the City Council.

PROBATION OFFICER.

A communication was received from the Justices of the Municipal Court establishing the salaries of Margaret H. Markham and Theresa C. Dowling, female assistant probation officers, at the rate of \$1,500 per annum, the same to take effect on June 20, 1914.

Referred to the Committee on County Accounts.

NOTICE OF HEARING.

Notice was received from the Public Service Commission of hearing on June 11, at 10.30 a. m., on petition of Boston Elevated Railway Company for approval of 436th and 437th locations.

Placed on file.

STORAGE OF EXPLOSIVES.

Notice was received from the following-named parties of use of premises hereinafter mentioned, of intention to use same for storage of explosives for the ensuing year, viz.:

F. A. Gendrot, 1 Buena Vista street.

Quincy Market Cold Storage Company, 69 Eastern avenue.

New England Newspaper Publishing Company, 19 Granite street. (Two notices.)

Nelson J. Molway, 20 Mt. Vernon street, Ward 25. (Three notices.)

The White Company, 341-343 Newbury street, Ward 11.

Placed on file.

OPINION CONCERNING LIGHTING CONTRACT.

The following was received:

City of Boston,

Office of the City Clerk, June 2, 1914.

Hon. John A. Sullivan,

Corporation Counsel:

Dear Sir,—I inclose herewith the minutes of the City Council containing the contracts with the Boston Consolidated Gas Company for Street Lighting submitted to the City Council by the Commissioner of Public Works on March 23, 1914, upon which a duly advertised hearing was given by the City Council according to law.

I also inclose a copy of an agreement signed by the Boston Consolidated Gas Company, under date of June 1, 1914, and submitted to the City Council by the Commissioner of Public Works.

At the meeting of the City Council on June 1, 1914, it was voted to request the Corporation Counsel to submit to the City Council, on or before the next meeting, a report in writing as to whether or not, in his opinion, the approval of the said contracts with the said agreement annexed would be legal.

Respectfully,
JAMES DONOVAN, City Clerk.

City of Boston,
Law Department, June 3, 1914.

To the Honorable the City Council:

Gentlemen,—In reply to the inclosed communication dated June 2, 1914, asking my opinion whether the approval (presumably without a further public hearing) of the pending ten-year contracts, one for furnishing gas and one for gas-lighting service, with the agreements annexed contained in the following letter of Mr. E. N. Wrightington, would be legal, I answer in the affirmative, assuming that the agreements set forth in said letter are to be put in due form as contracts between the city and the gas company and properly executed as such.

Boston Consolidated Gas Company,
June 1, 1914.

Mr. Louis K. Rourke,
Commissioner of Public Works:

Dear Sir,—If the two contracts dated March 19, 1914, for the supply of gas for street lighting purposes and for the maintenance of street lamps, executed by the Commissioner of Public Works and the Boston Consolidated Gas Company, are duly accepted and approved by the City of Boston according to law, before June 15, 1914, the Boston Consolidated Gas Company hereby agrees that said contracts may be terminated on April 1, 1919, by the City of Boston by written notice from the Mayor of Boston, received by the Boston Consolidated Gas Company any time between March 1, 1918, and July 1, 1918; otherwise said contracts shall continue in full force and effect for the full term provided therein.

Very truly yours,

E. N. WRIGHTINGTON,
Second Vice President.

There is no doubt that the ten-year contracts, without the option on the part of the city to terminate them at the end of five years as set forth in Mr. Wrightington's letter, would be valid if approved by the Mayor and City Council, as it appears that a duly advertised public hearing has been held as required by section 6 of chapter 486 of the Acts of 1909, and that all other legal requirements have been observed. If these contracts, upon which the public hearing has been held, are subsequently modified by the adoption of the agreement for termination at the end of five years at the city's option, without another public hearing, the legality of such contracts might be questioned, but in my opinion their validity would be sustained. The contracts so modified would in all particulars be exactly the same as they were when the public hearing was held, except for the provision permitting the city to terminate the contracts on April 1, 1919, instead of allowing them to run until April 1, 1924. The inclusion of this option is clearly for the benefit of the city, it provides a new safeguard of its interests, and it not only retains for the city whatever protection the public hearing offered, but it secures a substantial increase in that respect. The purpose of section 6 of said chapter 486 was to provide a check upon the award of long term contracts for street lighting and refuse disposal by requiring a public hearing thereon and the approval thereafter by the Mayor and City Council. In the present case the purpose of the statute would have been met if the Mayor and City Council, after the hearing on the lighting contracts, had approved them without having adopted the agreement giving the city the option to reduce the term from ten years to five years. The object of the statute will not be lost but on the contrary will be better secured by the adoption of the agreement for the option. Moreover, the contracts, modified as proposed, will, in contemplation of law, be ten-year contracts, and they will remain such in fact until the city elects to terminate them at the end of five years. Under all the circumstances the proposed modifications do not appear to constitute such substantial variations from the original contracts as to make invalid the contracts thus modified merely because no further public hearings are held thereon. The statute should be interpreted in a reasonable manner according to its evident intent and it would seem contrary to its purpose and unnecessarily obstructive to the timely dispatch of public business to interpret it to mean that no lighting contract for a term of more than one year may be changed in any particular after the public hearing thereon, even though the change, beyond the possibility of doubt, should be to the city's advantage.

Yours respectfully,

JOHN A. SULLIVAN,

Corporation Counsel.

Referred to the Executive Committee.

SIDEWALK SCHEDULE.

A communication was received from the Commissioner of Public Works on the cost of sidewalk construction in front of estates on Franklin and Alcott streets, Ward 25, and Cohasset street, Ward 23—recommending the passage of the following:

Ordered, That the persons named in the foregoing schedule be and the same are hereby assessed the sums set against their respective names, their proportional parts of the cost of constructing artificial stone sidewalks on Franklin and Alcott streets, Ward 25, and Cohasset street, Ward 23, the amounts being \$773.36 and \$719.38.

The order was passed.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for ten newboys, one bootblack and eleven vendors—recommending that the same be granted.

Reports accepted; licenses granted on usual conditions.

GAS LIGHTING CONTRACT.

President McDONALD called up Nos. 1 and 2, unfinished business, viz.:

1. Action on contracts made with the Boston Consolidated Gas Company by the Commissioner of Public Works for lighting with gas a portion of the public streets, parks and alleys for a period of ten years from April 1, 1914.

2. Message transmitting communication from E. N. Wrightington, Second Vice-President of the Boston Consolidated Gas Company, agreeing to the termination on April 1, 1919, after due notice, of the contracts for lighting the streets with gas, if the same are approved before June 15, 1914.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted, on motion of Coun. BAL-LANTYNE, at 3.24 p. m., to take a recess subject to the call of the chairman.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 5.23 p. m.

HOUSING OF CITY DEPARTMENTS.

The following was received:

City of Boston,

Office of the Mayor, June 8, 1914.

To the City Council:

The necessity for establishing permanent quarters on city property for the housing of the School Department and a portion of the Police Department is such that I most respectfully recommend to your honorable body the acceptance of the accompanying orders.

Respectfully,

JAMES M. CURLEY, Mayor.

Ordered, That chapter 263 of the Acts of 1913, entitled "An Act to Authorize the Erection of a Building for the Police Department of the City of Boston and other Boards, Departments and Commissions," be and the same is hereby accepted.

Ordered, That chapter 331 of the Acts of 1914, entitled "An Act to Provide for a School Administration Building in the City of Boston," be and the same is hereby accepted.

Referred to the Executive Committee.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Reports on petitions for permits to sell, rent and lease firearms (referred today)—recommending that leave be granted as follows:

Edward A. Grout & Co., 111 Summer street, Ward 7.

Levine Brothers, 11A Essex street, Ward 7.

Abraham Lipkin, 31 Green street, Ward 4.

Alfonso Rogers, 3 Prince street, Ward 6.

Louis Sonnabend, 373 Columbus avenue, Ward 10.

Reports accepted; permits granted on usual conditions.

NEXT MEETING.

The Council voted, on motion of Coun. ATTRIDGE, that when it adjourns it be to meet on Thursday, June 11, at three o'clock p. m.

CLAIMS.

Coun. BALLANTYNE, for the Committee on Claims, submitted the following:

(1) Report on petition of Richard Fitzgerald (referred May 25) for payment of \$50 paid by him in settlement of his acts as a police officer—recommending the passage of the following:

Ordered, That there be allowed and paid to Richard Fitzgerald the sum of fifty dollars (\$50) for expense incurred by him on account of his acts as a police officer, said sum to be charged to the appropriation for Police Department.

Report accepted; order laid over under the rule.

(2) Report on recommendation of Law Department (referred June 4) for payment to Roger N.

Allen *et al.*, executors, for amount of taxes paid under protest—recommending the passage of the following:

Ordered, That the Corporation Counsel be authorized to have judgment entered against the city in the sum of \$4,397.94 in the case of Roger N. Allen *et al.* v. Boston, an action to recover for personal property tax paid under protest December 3, 1913, said amount to be charged to the Reserve Fund.

Report accepted; order laid over under the rule.

COUNTY ACCOUNTS.

Coun. COLLINS, for the Committee on County Accounts, submitted a report on communication from justice of West Roxbury Municipal Court (referred June 1) concerning appointment of Arthur N. Towle—recommending the passage of the following:

Ordered, That the salary of Arthur N. Towle, Probation Officer for Wayward and Delinquent Children at Municipal Court of West Roxbury District, appointed by justice of said court, at a salary of \$1,300 per annum, to take effect May 25, 1914, be and the same is hereby approved, said amount to be charged to the appropriation for Municipal Court, West Roxbury.

Report accepted; order laid over under the rule.

SIDEWALK, ATKINSON STREET.

Coun. BALLANTYNE offered an order—That the Commissioner of Public Works make a sidewalk along both sides of Atkinson street, Ward 17, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of gravel with granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

Passed.

RESURFACING OF ROCKFORD STREET.

Coun. BALLANTYNE offered an order—That the Commissioner of Public Works be requested, through his Honor the Mayor, to cause Rockford street, Ward 17, to be resurfaced and regulated.

Passed.

ICE FOR DRINKING FOUNTAINS.

President McDONALD offered an order—That the Commissioner of Public Works be authorized to expend a sum not exceeding \$5,000 for the purpose of maintaining and furnishing ice for the public drinking fountains during the present season, said sum to be charged to the Reserve Fund.

Passed, under a suspension of the rules, on motion of Coun. WATSON, yeas 9.

GENERAL RECONSIDERATION.

Coun. COLLINS moved a general reconsideration on all business transacted at the meeting, hoping the same would not prevail. Lost.

Adjourned at 5.29 p. m., to meet Thursday, June 11, at 3 p. m.

COST OF NEW YORK CITY'S WATER.

The Comptroller of New York City has recently published a statement giving the more important features and figures relative to the revenues and operation expenses of the city's water supply for the year 1913. The gross revenues from the sale of water in the entire city during 1913 were \$12,753,050, and the total operating expenses, including taxes, were \$4,622,129, leaving a total operating income of \$8,130,921. The interest on the outstanding bonds (not including those of the new Catskill system) was \$3,270,452, and the amortization charges thereon \$1,534,158. Deducting this from the total income leaves a net income of \$3,326,311. No depreciation or obsolescence charges are included, but the amortization charge serves something the same purpose.

Of the operating charges, 7.79 per cent was for administration, 9.27 per cent for collection and storage, 3.70 per cent for purchased water, 0.94 per cent for purification, 37.29 per cent for pumping, 20.53 per cent for distribution, 0.87 per cent for analyzing and testing, 15.16 per cent for water revenue collection, 3.61 per cent for taxes, and 0.84 per cent undistributed. These operating expenses represent 36.2 per cent of the revenues, the other 63.8 per cent representing interest, sinking fund, and any allowance for depreciation or obsolescence.

From 1832 to the end of 1913, the capital expenditures for the water systems in all the boroughs aggregated \$194,734,433, for which there are still outstanding bonds to the amount of \$89,084,295. It is estimated that the new Catskill supply will add to this cost about \$176,000,000, or nearly as much as the cost of all of the water systems serving the several boroughs up to the present time. Up to the beginning of this year, bonds for this system had been issued to the amount of \$93,315,623. When the Catskill system has been completed the total interest charge will be \$10,840,788 a year; but this will be subject to reduction from year to year as the outstanding bond issues mature and are redeemed.

The comptroller makes an estimate as to the ability of the city to meet this interest charge out of the water revenues. He estimates that by the year 1920 the population of the city will be seven million, and the daily consumption about 700 million gallons. The consumption at the present time is estimated to be 520 million gallons per day. Taking 700 520ths of the present net income of \$8,130,922 gives an estimated net income of \$10,945,471 in 1920, or \$104,683 more than the interest charges. In 1913 the excess of income over operating and interest charges was \$712,203. Providing, therefore, that the percentage of operating cost remains stationary until 1920, the excess of earnings over interest charges will vary from \$712,203 in 1913, to \$104,683 in 1920, with possibly a deficit in some of the intervening years.—*Municipal Journal*.

SOME OBSERVATIONS ON FIRE HAZARD.

To read over the annual report of fire losses in these United States is not a cheerful task. It becomes still more depressing when one compares it with the similar records in other civilized countries. And the worst of it is that the loss is without mitigating circumstances. It is complete, irreparable and inexcusable. Just where the blame should be laid for the frightful conditions which exist in this country is not altogether easy to determine, yet it is quite certain that if the municipal organization for preventing fires were as well organized and as efficiently administered as are organizations for putting them out, the present record would be far less sinister than it now is.

The annual loss of life is more appalling than mere loss of property, yet one can go through any large city in which there has been a fire with frightful mortality and find the conditions which led to it repeated over and over again, unchanged by the latest horror, as they have been unchanged through preceding disasters. Now and then a rookery is condemned as unsafe. If besides being unsafe it is also dilapidated and somewhat disreputable, so that no considerable so-called property loss will be inflicted by its demolition, it is all the more likely to go. One can, however, go through the better sections of any American city and find apartment houses tenanted by the well to do as dangerous at least as any condemned tenement. Such conditions have come about not always through wilful neglect of safety in the interest of cheap construction, but also through changing conditions of municipal growth. A series of detached wooden cottages is not a particularly good fire risk, but is far better than the wooden "three-deckers" that go up when the population becomes slightly more dense, or the cheap brick apartment houses which succeed the wooden "three-deckers."

The time has come, however, when there ought to be united effort at improvement on a very sweeping scale. With the rise in the cost of wood and the experience now available in concrete construction the difference in cost between a tinder box and a reasonably safe building is relatively much less than formerly. Better construction may mean increase of rents, yet there ought to be countervailing savings from lessened fire losses and the charges which have to be made in one form or another against them sufficient to relieve the situation considerably. The main thing is to find some way of getting at and eliminating dangerous buildings, new or old. At present municipal authorities dislike to disturb the supposed "vested rights" of individuals in public dangers. Just because a particular owner has been a menace to his neighbors for thirty years is no adequate reason why he should be permitted to remain a menace for the next thirty years, particularly when those in his condition are a steady and heavy expense to the city in the maintenance of more or less adequate safeguards against the perils for which fire-trap owners are responsible. The insurance companies can and do exercise a good moral influence in improving construction. Why should not a city which is kept in peril, and at the expense of preparing to meet it, charge against the negligent some proportion of the costs now borne by the innocent and guilty alike? If a surtax could be placed on buildings the structure and condition of which render them a menace and a source of expense to the city, there would be a very strong tendency to make fire-traps, old and new, unprofitable. The tax thus raised could very appropriately be charged up to fire protection, the enforcement of suitable building requirements, and the condemnation of structures too bad to be tolerated longer. Only some such drastic method is adequate to deal with the situation, and whatever method may eventually turn out to be best it is high time for municipal reformers to take a hand in saving to the public the huge sums which now annually go up in smoke.

—*Engineering Record*.

BOSTON'S MUNICIPAL SHOWER BATHS.

Free public shower baths may be taken in these buildings:

East Boston Gymnasium, Paris street, East Boston.

D Street Gymnasium, South Boston. Municipal Building, Columbia road, Dorchester.

Cabot Street Gymnasium, Roxbury. North Bennet Street, North End. Tyler Street Gymnasium, South End. Harrison Avenue Gymnasium, Ward 9. Curtis Hall Gymnasium, Jamaica Plain. Dover Street Bath House, 249 Dover street.

Copley School, Bartlett street, Charlestown.

Municipal Building, corner Bunker Hill and Lexington streets, Charlestown.

Bathing facilities are entirely free of charge. Persons having no towels and soap may procure them at each building office for one cent each. Comfortable private dressing closets are free in all places. Hot and cold water may be had for baths. At the Dover Street Bath House women and men have separate accommodations and each may bathe there any day in the week. In the other houses women have exclusive use of baths on Mondays and Thursdays, and men have the remaining days. There is telephone connection in each building.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, JUNE 20, 1914.

No. 25

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By SUBSCRIPTION \$1.00 Per Year.
SINGLE COPIES 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 37, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, June 22, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, 100 Summer street.

EXAMINATION FOR BUILDERS' LICENSES.

On and after April 1, 1914, no building permit will be granted by the Building Commissioner unless application for said permit contains the name, address and signature of a duly licensed person.

Under section 4, Ordinances of 1912, chapter 9, examinations will be held from time to time after February 9, 1914, at the office of the Board of Examiners, Room 725, No. 6 Beacon street, Boston, Mass.

Applications for licenses must be filed at the office of the Board of Examiners. Applicants will be given due notice of the time of examination.

LOCAL GOVERNMENT CONTRACTS.

The editor of the *City Record* calls the particular attention of Boston contractors to the fact that sealed proposals will be received until June 25, for building a wharf and retaining wall for the United States Immigration Station, Boston. Drawings and specifications may be obtained from the custodian, at the site, Boston, or supervising architect, Treasury Department, Washington, D. C.

The attention of Boston merchants is also called to the fact that sealed proposals for furnishing the kitchen equipment of the United States Naval Hospital, Chelsea, will be received until June 27. Plans and specifications may be obtained by calling upon Captain DeWitt Coffman, U. S. N., the Commandant of the Boston Navy Yard, Charlestown.

BIDS FOR NAVAL SUPPLIES.

The present activity in Army and Navy circles has resulted in the opening of bids for many supplies. The attention of Boston merchants is particularly called to these bids. The Navy Department invites proposals for furnishing the following supplies:

Bids will be received until June 23 for the following supplies: Schedule 6825, duplex chain blocks, hydraulic jacks, outside mycometers, flexible shafts, stocks and dies, pipe wrenches; schedule 6812, galvanized screw bolts and washers, Douglas fir, boat spikes, steel I-beams; schedule 6819, rough forgings for breech mechanism, nickel-steel liners, gun-steel hoops; schedule 6828, gasoline; schedule 6824, motor-driven hydraulic test pump; schedule 6824, bench drills, grinders and buffers, pneumatic hammers, bench saws and spare saws, band saws; schedule 6823, white lead and color mixers; schedule 6813, combination saw and dado machine; schedule 6814, tinned bacon, corned beef, tinned biscuit, cocoa, lard, substitute lard, evaporated milk, tinned peas, pickles in kegs, rice in half barrels, salt, sugar in sacks, baking powder, curry powder, Worcestershire sauce.

Bids will be received until June 23 for the following supplies: Schedule 6884, steel anchors, diving apparatus and spare parts, Class A billet steel; schedule 6886, metallic piston-rod packing, panels, leaded and armored steel twin-conductor wire; schedule 6882, wall radiators; schedule 6883, nickel steel, white ash, white hickory, white maple, North Carolina and Virginia yellow pine, yellow poplar, spruce.

Bids will be received until June 30 for boiler compound, schedule 6893; and

marine glue, schedule 6892. Tenders are invited until July 7 for the following: Schedule 6895, chemicals and laboratory supplies; schedule 6891, pig iron; schedule 6890, lenses, band and circular saws; schedule 6887, chlorate crystals, potash; schedule 6894, petroleum spirits.

Bids will be received until July 14 for fireroom hoist engines, schedule 6881, and lathe, schedule 6880.

Boston firms desiring to bid should make immediate application to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., and give the schedule number of all bids for information desired, as printed above.

EXAMINATION FOR LOCAL PAINTERS.

The editor of the *City Record* calls the attention of members of the painting craft in Boston to an examination to be held at 141 Post Office Building, Boston, Monday, June 29, for the appointment of a painter at the Boston Post Office and Sub-Treasury Building. The salary of the position will be \$3.50 the day. Training and experience will rank 60 per cent and physical ability 40 per cent. No educational test will be given.

For further information relative to this examination, applicants should call upon Edward E. Stebbins, District Secretary of the United States Civil Service Commission, 141 Post Office Building, Boston.

SALE OF CITY OF BOSTON BONDS.

Hon. Charles H. Slattery, City Treasurer, invites proposals for the sale of 4 per cent City of Boston bonds, exempt from taxation in Massachusetts and from the federal income tax. Note advertisement in the current issue of the *City Record*.

BIDS FOR GOVERNMENT SUPPLIES.

The attention of Boston merchants is invited to the following proposals listed for Government supplies and work. The notice of bids is authentic in every detail, and prepared by Mr. Albertus H. Baldwin, Bureau of Foreign and Domestic Commerce, and sent expressly to the *City Record*.

Sealed proposals will be received at the office of the supervising architect, Treasury Department, Washington, D. C., until June 25 for the construction, including a wharf and retaining wall, for the United States immigration station at Boston. Drawings and specifications may be obtained from the custodian of site at Boston or from the office of the supervising architect.

Sealed proposals will be received at the office of the supervising architect, Treasury Department, Washington, D. C., until June 25 for the mechanical equipment of the United States immigration station at Boston, Mass. Specifications can be obtained from the office of the supervising architect.

Sealed proposals will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until June 27 for kitchen equipment at the United States Naval Hospital, Chelsea. Plans and specifications can be obtained on application to the Bureau or to the Commandant of the Navy Yard, Boston.

Bids will be received until July 1 for the purchase of brass journal bearings, condenser tubes, castings, sheet copper and tubing, and copper wire, offered for sale by the Panama Canal, and which is no longer needed.

NOTICE TO BOSTON CONTRACTORS.

The editor of the *City Record* calls the particular attention of Boston contractors to the fact that sealed proposals will be received until June 25 for supplying the mechanical equipment of the Boston Immigration Station. Specifications may be obtained by applying to the office of the Supervising Architect, Treasury Department, Washington, D. C. Bids to be filed at the same office.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

BOSTON TRANSIT COMMISSION.

Advertisers for proposals for furnishing the materials for and constructing a concrete balustrade and parapet around the open incline to subway in Boylston street, near Church street. Blank forms of contract and specifications may be obtained at the office of the commission, 15 Beacon street, Boston. Bids to be filed at the same office.

Bids close Tuesday, June 23, at 12 m.

Advertisers for proposals for furnishing the materials for and constructing a concrete coping, balustrade and parapet around the open incline of the East Boston Tunnel Extension, in Cambridge street, near North Russell and Chambers streets. Blank forms of contract and specifications may be obtained at the office of the commission, 15 Beacon street, Boston. Bids to be filed at the same office.

Bids close Tuesday, June 30, at 12 m.

HOSPITAL DEPARTMENT.

Advertisers for proposals for a supply of ice for the Hospital Department, between July 1, 1914, and January 1, 1915. The quantity to be 600 tons, more or less, of 2,000 pounds to the ton. The ice must be of the best quality, cleaned and stored upon delivery, and delivered at such times and in such quantities as the superintendent may direct. A surety bond will be required for the faithful performance of contract. Bids, accompanied by a certified check in the amount of \$100, to be filed at the City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, June 24, at 12 m.

PARK AND RECREATION DEPARTMENT.

Advertisers for proposals for leasing for a term of three years the refreshment privileges in the Refectory Building at Franklin Park, including care of sanitariums, the expense of maintenance to be paid by the lessee; the refreshment and boat privileges at the Shelter House and boat landing at Jamaica Pond, including care of sanitariums, the expenses of maintenance to be paid by the lessee. Bids close Friday, June 26, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertisers for proposals for bituminous macadam roadway in Manthorne road, between Centre and Weld streets, West

Roxbury. Surety bond will be required in the amount of \$6,000. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$500, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, June 22, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertisers for proposals for sewerage works in Clement avenue, between Meredith street and Anawan avenue; Kenneth street, between Beech and Meredith streets; Anawan avenue and Beech street, between West Roxbury Parkway and New York, New Haven & Hartford Railroad, West Roxbury. Surety bond will be required in the amount of \$1,500. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$700, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, June 26, at 12 m.

Advertisers for proposals for pipe sewer and drains in Tremont Entrance, northwesterly drive, from Tetlow street, northeasterly, Roxbury. Surety bond will be required in the amount of \$800. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$300, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, June 29, at 12 m.

Advertisers for proposals for sewerage works in Washington street, between Leshner and South streets, West Roxbury. Surety bond will be required in the amount of \$6,000. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$2,000, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, June 30, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertisers for proposals for furnishing and installing electric systems in the Andrews School, Genesee street, Boston. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$200, to be filed at same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, June 23, at 12 m.

Advertisers for proposals for installing new sanitation, plumber to be the general contractor, in the B. F. Tweed School, Cambridge street, Charlestown. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at the office of the Schoolhouse Commission, 120 Boylston street, Boston. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, June 26, at 12 m.

Advertisers for proposals for furnishing, setting and piping up new boilers in the Dudley School, Dudley and Putnam streets, Roxbury. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at

the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$150, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, June 26, at 12 m.

Advertises for proposals for erecting and completing general and sanitation work at the Cudworth School, Gove street, East Boston. Surety bond will be required in the amount of \$2,500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commission, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$750, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, June 29, at 12 m.

SUPPLY DEPARTMENT.

Advertises for proposals for the hay, straw, oats, shorts and corn needed in the various departments of the city for July, 1914. The bidder must cover the cost of delivery. The bidder is also requested to bid upon both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet, and the straw to be No. 1 straight rye straw. The bidder is further requested to bid upon No. 1 oats, to test 38 to 40 pounds; No. 2 clipped white oats, to test not less than 34 pounds to the bushel. Blank forms for proposals may be obtained at the office of the Superintendent of the Supply Department, 826 Tremont Building. Bids, accompanied by a certified check equivalent to one-quarter the amount of the contract, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, June 26, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, June 18, 1914:

ASSESSING DEPARTMENT.

John F. Qualters has been appointed as a provisional clerk, at a salary of \$9 the week, to do clerical work and perform other duties required by the Board.

COLLECTING DEPARTMENT.

John J. McCarthy has been appointed to serve as Acting City Collector at such times as Collector John J. Curley may be absent during the four weeks commencing June 16, 1914.

Charles E. Tucker, teller, salary \$2,600 per annum; Richard F. Field, teller and clerk, salary \$2,500 per annum; Edward J. O'Brien, deputy collector, salary \$1,600 per annum; Thomas Farrell, clerk and constable, salary \$1,600 per annum; Timothy F. Gorman, tax sales clerk, salary \$1,600 per annum, were discharged at the close of business June 15, 1914.

Salary reductions have been as follows: Michael W. Ahern, teller, from \$2,500 to \$2,000 per annum; John J. Leahy, cashier, from \$3,000 per annum to clerk at \$2,000 per annum.

Promotions are as follows:

Edwin A. Wall, from chief deputy at \$2,100 to teller at \$2,300 per annum; Thomas R. Appleton, from deputy at \$1,800 to chief deputy at \$2,100 per annum; William T. Gartland, from clerk at \$1,600 to teller at \$2,000 per annum; John F. McCarthy, from deputy at \$1,800 to cashier at \$3,000 per annum.

The following employees of the Col-

lecting Department have had their salaries decreased by 5 per cent:

John J. Leahy, LeForrest A. Hall, Jr., Michael W. Ahern, William E. Cunningham, John J. Hennessey, Edward A. Morrissey, Edward J. Dixon, William T. Gartland, Timothy J. Brinnin, Thomas J. Gorman, John Q. Adams, James W. Gibbons, Patrick H. O'Connor, James B. Machugh, James E. Moore, John F. Quinn, Joseph H. Hickey, Edwin A. Wall, Edward J. Bromberg, Edward E. Brown, James F. Daley, Crohan J. Daly, Frederick L. Donnelly, John F. Doyle, John J. Hannon, Jeremiah J. Hartnett, William Kells, Joseph T. Madden, Edward F. McAdams, John J. McCarthy, Matthew H. McEttrick, James S. McKenna, James J. Nolan, Louis P. Pfau, William H. Spain, Robert K. McKirdy, Francis M. Ducey, Thomas Farrell, Thomas P. McDavitt, Frederick R. Mul-loney, John J. Shea, Jr., Jeremiah J. Crowley, Leavitt B. Palmer, James F. Nolan, Henry J. Daly, Franklin H. Cochran, Peter J. Connolly, James A. Desmond, Michael F. Gearin, John F. Grant, John H. McElroy, John P. O'Connor, William H. Sullivan, Louis Needle, John J. Clifford, James G. Davis, Francis J. Doherty, John T. Hayes, Stewart E. Hoyt, Michael Cillo, Charles J. Costello, John J. Higgins, Edmund V. Lynch, John A. Morrison, Aaron Pinkofsky, Cornelius J. Spillane.

FIRE DEPARTMENT.

Michael J. Conley has been appointed as a machinist in the Fire Alarm Branch of the department by transfer from the Public Works Department, at a salary of \$3.75 per day, six days per week, to take effect Friday, June 19, 1914.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

To Fill Vacancies.

Permanent.—Selina Gummesson, laundress, re-employed, \$18 per month; Christine Homme, laundress, re-employed, \$16 per month; Catherine Kane, scrubber, \$5 per week; Georgina McBride, ward helper, \$5 per week; Molly Coughlin, ward helper, \$5 per week; Margaret Hoag, ward helper, \$5 per week; John Janley, ward porter, \$30 per month; Arthur F. Sheehan, house porter, \$25 per month; John McBride, house porter, \$25 per month; Richard C. Keen, orderly, \$25 per month; John T. Kennedy, orderly, re-employed, \$35 per month; Edward Chester, out-patient orderly, \$25 per month; William E. Murphy, out-patient orderly \$25 per month; Mary Kelleher, Vose House chambermaid, \$15 per month; Lizzie Britton, chambermaid, \$15 per month; Freeman J. Fowler, apothecary assistant, \$20 per month; Anna Smalolska, cleaner, \$24 per month; William A. Harrington, gate boy, lodge, \$25 per month; Wacław Brunnar, house cleaner, \$1 per day; Mae Coughlin, assistant table girl, \$14 per month; Mary A. Tobin, ward maid, re-employed, \$16 per month; Agnes Riley, assistant table girl, \$14 per month.

Temporary.—Patrick J. Stanton, vacation supply porter and furnace tender, \$16 per week; Annie Skowronski, vacation supply chambermaid, \$4.50 per week.

The following employees have had increase of wages:

Nettie Crow, ward maid at \$16 per month to ward assistant at \$5 per week; Sarah McDonald, ward maid at \$16 per month to ward assistant at \$5 per week.

INFIRMARY DEPARTMENT.

The pay rolls of this department show the following changes for the week ending June 11, 1914:

Long Island Hospital.

To Fill Vacancies.—Marjorie Harkins, wardmaid, \$20 per month; Crawford Ferguson, orderly, \$30 per month; Frank Wynman, orderly, \$30 per month; Alice V. Jennings, nurse, \$10 per month; Flora P. MacLean, nurse, \$10 per month.

Temporary Employment.—Margaret F. Coholan, laundress, \$20 per month.

Charlestown Almshouse.

Temporary Employment.—Eugene O'Sullivan, engineer, \$45 per month.

The pay rolls of this department for the week ending June 18 show the following changes:

Long Island Hospital.

Temporary Employment.—Kathryn S. Dailey, nurse, \$10 per month; Mary E. Grady, nurse, \$10 per month; Ethel M. Smith, nurse, \$10 per month.

OVERSEEING OF THE POOR DEPARTMENT.

The salary of Edward Riley, employed at the Lodge for Wayfarers, has been reduced from \$1,400 to \$1,000 the year, from July 1, 1914, with the approval of his Honor the Mayor.

The salary of Ellen C. Turnbull, telephone operator, has been increased from \$9 to \$12 the week, from June 1, 1914, with the approval of his Honor the Mayor.

The salary of Agnes I. O'Leary, clerk of the Board at the Boston City Hospital, has been increased from \$800 to \$900 the year, from June 1, 1914, with the approval of his Honor the Mayor.

The salary of Joseph T. Dizel, visitor, has been increased from \$1,000 to \$1,200 the year, from June 1, 1914, with the approval of his Honor the Mayor.

At a meeting of the Board of Overseers of the Poor it was voted that the minimum salary for visitors be \$1,200 the year.

The salary of Bartholomew J. Bresnahan, visitor, has been increased from \$1,400 to \$1,500 the year, from June 1, 1914, with the approval of his Honor the Mayor.

The salary of Thomas A. Regan, visitor, has been increased from \$1,400 to \$1,500 the year, from June 1, 1914, with the approval of his Honor the Mayor.

The salary of Joseph DeMarco, visitor, has been increased from \$1,400 to \$1,500 the year, from June 1, 1914, with the approval of his Honor the Mayor.

PARK AND RECREATION DEPARTMENT.

Johan Fleischer has been appointed as elephant keeper at Franklin Park, with salary of \$20 the week, to take effect June 6, 1914.

PENAL INSTITUTIONS DEPARTMENT.

The salary of Annie J. King, a matron at the House of Correction, has been increased from \$300 to \$360 the year.

John J. Foley has been appointed as a patrolman at the House of Correction at a salary of \$480 the year.

REGISTRY DEPARTMENT.

John J. Browne, clerk and bookkeeper of the department, has been appointed by Registrar McGleuen to act as Assistant City Registrar.

SCHOOLHOUSE DEPARTMENT.

Francis A. Williams, electrician, employed by the School Committee, has been engaged to assist in electrical work during the vacation period, as has been customary for many years. His salary will be the regular union scale of \$4.40 the day. The Mayor has approved of the temporary employment of Mr. Williams this year from June 16 to September 8, inclusive.

STREET LAYING-OUT DEPARTMENT.

The Board of Street Commissioners has voted and the Mayor has approved the reinstatement of the following-named employees of the Street Laying-Out Department who were dismissed under the order of the Board of May 20 last:

Frank M. Miner, assistant engineer, at the rate of \$1,500 per year; Thomas A. Berrigan, rodman, at the rate of \$2.50 per day.

The Board of Street Commissioners has voted and the Mayor has approved the reinstatement of the following-named employees who were dismissed under the order of June 1, 1914:

Frederick G. Floyd, assistant engineer, at \$1,408.50 per annum; Frank J. McNulty, assistant conveyancer, at \$2.75 per day; Henry L. Wightman, rodman, at \$900 per annum.

In the case of Frederick G. Floyd his compensation is the same as other assistant engineers under the reduced schedule. The compensations of Frank J. McNulty and Henry L. Wightman remain as formerly.

OVERTIME ALLOWED.

The heads of various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law.

Hospital Department.

For the week ending Thursday, June 18, 1914:

Main Department.—T. J. McNally, engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; W. T. Slater, engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; E. F. Cochrane, engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; R. W. Jaeger, engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; William Murray, coal passer, 8 hours at \$0.29 $\frac{1}{2}$ per hour, \$2.33.

Public Works Department (Sewer Service).

For the week ending Monday, June 15, 1914:

Office.—William J. Drummond, inspector, 1 $\frac{1}{2}$ days at \$3.50, \$4.38; M. J. Dagle, inspector, 2 days at \$3.50, \$7.

Districts 1, 7 and 8.—Robert Noonan, laborer, 1 day at \$2.75, \$2.75; John H. Connor, laborer, 1 day at \$2.50, \$2.50; Michael Conley, laborer, 1 day at \$2.50, \$2.50; Cornelius J. Sullivan, laborer, 2 $\frac{1}{2}$ days at \$2.75, \$6.88; James Clancy, sewer flusher, 1 $\frac{1}{2}$ days at \$2.50, \$3.75; Timothy Reardon, sewer cleaner, 1 $\frac{1}{2}$ days at \$3, \$4.50.

Districts 9 and 10.—Thomas Hughes, sewer cleaner, 3 $\frac{3}{4}$ days at \$3, \$11.25; Michael Hourihan, laborer, 4 $\frac{1}{2}$ days at \$2.75, \$12.38; Edward Doherty, bracer, 3 $\frac{1}{2}$ days at \$2.75, \$10.31; John Cassano, laborer, 2 days at \$2.75, \$5.50; Martin Tynan, teamster, 3 $\frac{3}{4}$ days at \$2.50, \$9.38.

District 11.—Thomas Ford, laborer, $\frac{1}{2}$ day at \$2.50, \$1.25; Thomas Daly, laborer, $\frac{1}{2}$ day at \$2.75, \$1.38; James Duffy, mason, 3 $\frac{3}{4}$ days at \$0.70, \$2.63. Total, \$88.34.

Public Works Department (Street Cleaning and Oiling Services).

For the week ending Tuesday, June 16, 1914:

Matthew Kelly, watchman, 1 day at \$2.50, \$2.50; Peter Kelly, watchman, 1 day at \$2.50, \$2.50. Total, \$5.

Public Works Department (Water Service).

For the week ending Thursday, June 18, 1914:

J. Begley, repairer, 1 $\frac{1}{2}$ days at \$3, \$4.50; M. Brennan, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; D. Burke, laborer, 1 $\frac{1}{2}$ days at \$2.50, \$3.75; James Doherty, inspector, $\frac{1}{2}$ day at \$3.50, \$2.41; J. F. Doyle, laborer, $\frac{1}{2}$ day at \$2.50, \$0.31; M. Durand, inspector, $\frac{1}{2}$ day at \$3.50, \$0.88; P. A. Foley, inspector, 4 $\frac{1}{2}$ days at \$3.50, \$15.75; C. Harkins, laborer, $\frac{1}{2}$ day at \$2.50, \$0.63; M. Hogarty, repairer, 1 $\frac{3}{8}$ day at \$2.75, \$2.23; J. Lyons, laborer, $\frac{1}{2}$ day at \$2.50, \$0.63; J. McCarthy, repairer, $\frac{3}{4}$ day at \$2.75, \$2.06; J. McMullen, inspector, $\frac{7}{8}$ day at \$3.50, \$1.53; J. F. Meade, laborer, $\frac{1}{2}$ day at \$2.50, \$0.31; C. Monagle, laborer, 1 $\frac{3}{8}$ day at \$2.50, \$2.03; P. F. Mullen, inspector, 2 $\frac{3}{8}$ days at \$3.50, \$9.52; W. O'Connor, inspector, $\frac{3}{4}$ day at \$3.50, \$2.63; N. O'Day, laborer, $\frac{1}{2}$ day at \$2.50, \$1.25; C. Quigley, laborer, 1 $\frac{3}{8}$ day at \$2.50, \$2.03; J. P. Regan, laborer, $\frac{1}{2}$ day at \$2.50, \$0.31; T. Riley, laborer, $\frac{1}{2}$ day at \$2.50, \$0.63; C. Sullivan, laborer, 1 $\frac{1}{2}$ days at \$2.50, \$3.75; E. Hassenfus, plumber, 1 $\frac{1}{8}$ days at \$3.50, \$6.78; J. Morrissey, plumber, $\frac{1}{2}$ day at \$3.50, \$0.88; J. T. Ryan, plumber, $\frac{1}{8}$ day at \$3.50, \$3.28; M. C. Sullivan, plumber, 3 $\frac{1}{8}$ days at \$3.50, \$13.78; P. Coleman, laborer, 2 $\frac{1}{8}$ days at \$2.50, \$5.16; G. Greer, plumber, 1 $\frac{1}{2}$ days at \$3.50, \$3.94; T. Lyden, laborer, $\frac{7}{8}$ day at \$2.50, \$1.09; J. Riley, laborer, $\frac{1}{8}$ day at \$2.50, \$1.09; J. Corcoran, laborer, $\frac{1}{2}$ day at \$2.50, \$0.94; F. Skaynor, repairer, $\frac{7}{8}$ day at \$2.75, \$2.41. Total, \$98.24.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending June 18, 1914:

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon June 19 the Mayor approved a contract with Daniel E. Lynch for edge-stones, gutters and artificial stone sidewalks in Buttonwood street, easterly side, between Mount Vernon and Locust streets, Dorchester. Bids for the work, opened June 8, were as follows:

Daniel E. Lynch, \$772.06; James Doherty, \$820.36; William J. Rafferty Company, \$835.60; D. M. Biggs & Co., \$859.93; Thomas J. Hind, Inc., \$871.81; Martino De Matteo, \$880.67; John F. Beatty, \$893.90; F. H. Cowin & Co., \$898.22; Charles B. Telless, \$919.36; Connelly & Diamond, \$922.64; John T. Shea, Jr., \$1,224.42.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon June 19 the Mayor approved a contract with James J. Conway for sewerage works in Waverly street, between Western avenue and Lincoln street, Brighton. Bids for the work, opened June 2, were as follows:

James J. Conway, \$11,715.50; Anthony Baruffaldi, \$12,297; Charles R. Gow Company, \$13,843.25; Coleman Brothers, \$13,951.50; William L. Dolan, \$14,310.75;

West Roxbury Trap Rock Company, \$14,627.90; Charles J. Jacobs Company, \$14,822.15; McCarthy & Walsh, \$14,960.95; John J. Lane, \$15,043.75; George M. Byrne Company, \$15,068.75; Long, Little & Russo, \$15,138.60; John McCourt Company, \$16,123.25; Michael De Sisto, \$16,408; Henry Spinach Contracting Company, \$17,508.50.

Upon June 19 the Mayor approved a contract with Antony Cefalo for building sewerage works in Old Colony avenue, between Hyde and Mt. Vernon streets, South Boston. Bids for the work, opened June 5, were as follows:

Antony Cefalo, \$3,583.25; McCarthy & Walsh, \$3,617.25; M. De Sisto, \$3,697.50; Timothy Coughlin, \$4,050.50; John McCourt Company, \$4,090.25; Daniel E. Lynch, \$4,119.35; M. H. Kelley, \$4,162.72; Martino De Matteo, \$4,240.25; Louis Balboni, \$4,575; Stephen Shaughnessy, \$4,636.75; Charles J. Jacobs, \$4,795.25; George J. Regan, \$4,939.50; James D. Kelly & Co., \$5,259.50.

Upon June 19 the Mayor approved a contract with McCarthy & Walsh for sewerage works in Atkinson street, between Southampton street and South Bay avenue, Roxbury. Bids for the work, opened June 11, were as follows:

McCarthy & Walsh, \$1,484; Timothy Coughlin, \$1,760; Louis Balboni, \$2,082; M. H. Kelley, \$2,265; M. De Sisto, \$2,395.50; John Guarino, \$2,414.80; R. Cartullo, \$2,437.30; George J. Regan, \$2,565.70; Martino De Matteo, \$4,011.70; D. E. Lynch, \$4,039.50.

Upon June 19 the Mayor approved a contract with Louis Balboni for sewerage works in Seaver street, from existing sewer, 300 feet northwest of Blue Hill avenue, Roxbury. Bids for the work, opened June 12, were as follows:

Louis Balboni, \$772.55; M. De Sisto, \$794.50; George J. Regan, \$874.10; M. H. Kelley, \$839.75; John Guarino, \$856.91; D. E. Lynch, \$957.25; Timothy Coughlin, \$1,058.15.

Upon June 19 the Mayor approved a contract with Louis Balboni for sewerage works in Roosevelt street, between Middleton and Morton streets, and outlet in Middleton street, between Wildwood and Roosevelt streets, Dorchester. Bids for the work, opened June 12, were as follows:

Louis Balboni, \$1,394.62; McAuley & O'Neil, \$1,410.72; Antony Cefalo, \$1,473.80; George J. Regan, \$1,520.99; M. De Sisto, \$1,566.48; McCarthy & Walsh, \$1,577.82; R. Cartullo, \$1,633.15; M. De Matteo, \$1,644.53; Thomas H. Corrigan, \$1,674.56; William L. Dolan, \$1,716.10; Joseph Rugo, \$1,725.02; Daniel E. Lynch, \$1,839.23; John Guarino, \$1,867.07; J. D. Kelly & Co., \$1,950.15; Charles J. Jacobs Company, \$2,048.70; J. L. Pierce & Co., \$2,665.67.

SCHOOLHOUSE DEPARTMENT.

Upon June 19 the Mayor approved a contract with J. J. Hurley & Co. for primary radiators in the Agassiz School, Brewer street, Jamaica Plain. Bids for the work, opened June 9, were as follows:

J. J. Hurley & Co., \$1,215; J. P. Dwyer Company, \$1,313; Power Heating and Ventilating Company, \$1,359; Laskey & McMurrer, \$1,379; F. W. Zemeir & Co., \$1,464; J. L. Hern Engineering Company, \$1,472; Ingalls & Kendrick, Inc., \$1,485; Furlong, Whittemore & Co., \$1,551; Huey Brothers Company, \$1,685.

Upon June 19 the Mayor approved a contract with the J. P. Dwyer Company for boilers in the Hugh O'Brien School,

Dudley street, Roxbury. Bids for the work, opened June 10, were as follows:

J. P. Dwyer Company, \$4,664; J. J. Hurley & Co., \$4,724; Power, Heating & Ventilating Company, \$4,829; Bay State Heating Company, \$4,900; Laskey & McMurrer, \$4,923; F. W. Zemeir & Co., \$4,975; Ingalls & Kendrick, Inc., \$5,245; P. J. Sullivan Company, \$5,345; Huey Brothers Company, \$5,348; J. L. Hern Engineering Company, \$5,400; Furlong, Whittemore & Co., \$5,449.

HOSPITAL DEPARTMENT.

Upon June 19 the Mayor approved a contract with the Haynes Construction Company for the erection of a brick wall, Item 1, at the Boston City Hospital, and upon Massachusetts avenue, Harrison avenue and Northampton street. Bids for the work, opened May 15, were as follows:

Item 1.—Wall from Paine building on Harrison avenue to laundry building on Northampton street.

Item 2.—Wall from Nurses' Home on Massachusetts avenue to Paine building on Harrison avenue.

	Item 1.	Item 2.	Totals.
B. F. Smith Construction Company..... (If simplex concrete piles are substituted for wood and foundations are installed in accordance with design and blueprint furnished by New England Foundation Company, Inc., can deduct \$1,400 from total cost.)	\$5,079 00	\$2,900 00	\$7,979 00 or 6,579 00
John F. Griffin Company.....	5,177 00	2,697 00	7,874 00
James Driscoll & Son Company.....	4,600 00	2,400 00	7,000 00
Rowe Contracting Company.....	6,579 00	3,316 70	9,895 70
Gascoigne & Goddard Inc..... (If both sections of wall are built at same time under one contract, figure for work is \$8,258.)	5,384 00	3,190 00	8,574 00 or 8,258 00
Hancock Engineering Company.....	6,766 00	3,900 00	10,666 00
S. P. Troy Company.....	6,282 00	3,461 00	9,743 00
Haynes Construction Company.....	3,980 00	1,965 00	5,945 00
William H. Ellis.....	6,356 00	4,356 00	10,712 00

Marr Brothers & Stewart Company.....	6,121 00	3,966 00	10,087 00
Alternative Item 1. If concrete piles and foundation as designed by New England Foundation Company are substituted for those specified, deduct \$621.	5,500 00	3,546 00	9,046 00
Alternative Item 2. For same substitution as mentioned in Alternative Item 1, deduct \$420.			
McCarthy & Walsh.....	5,700 00	3,300 00	9,000 00
Daniel L. Shepard.....	6,161 00	3,300 00	9,461 00
John H. Broderick.....	4,328 00	2,465 00	6,793 00
Whitecomb & Kavanaugh Company.....	6,269 00	3,592 00	9,861 00
Peter Bompiani Company.....	5,432 00	2,716 00	8,148 00
J. Caddigan Company.....	6,382 00	3,668 00	10,050 00

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts; also a contract for sidewalks.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states his intention of constructing a sanitary sewer of 12-inch earthen pipe in Westwood street, between Board of Survey street, No. 1038, and 420 feet southwesterly, Dorchester. The estimated cost is \$862.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids.

Resurface with tar macadam Hutchings street, from Elm Hill avenue to Humboldt

avenue, Dorchester. Estimated cost of labor and materials, \$1,875.

Resurface with asphalt macadam Spring street, from Centre street to railroad bridge, West Roxbury. Estimated cost of labor and materials, \$3,250.

Resurface with tar macadam South street, from Robert street to Centre street, Roslindale. Estimated cost of labor and materials, \$6,800.

Resurface with tar macadam Morton street, from Harvard street to Canterbury street, Dorchester. Estimated cost of labor and materials, \$3,400.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor.

PUBLIC WORKS DEPARTMENT (Paving Service).

A deduction, amounting to \$1,796.40, on contract with Jeremiah J. McCarthy Company for asphalt macadam roadway

in Ballou avenue, between Woodrow avenue and Willowwood street, Dorchester, on account of omitting the furnishing of asphalt for the macadam, same to be furnished by the city and applied by the contractor. A reduction of 36 cents per square yard to be made from the original contract price of \$1. Original contract, \$12,424.35; total addition, \$10; total deduction, \$1,796.40; contract as standing, \$10,637.95.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$177.26, on contract with Frank H. Cowin & Company for laying water pipe in Avenue Louis Pasteur, Roxbury; Huntington and Milton avenues, Hyde Park; Hinsdale road and Washington street, West Roxbury, and Itasca street, Dorchester, on account of setting three hydrants and two gates and extra work around 48-inch main on Avenue Louis Pasteur; laying 8-inch main and teaming surplus pipe, Milton avenue, Hyde Park; setting gate, Huntington avenue, Hyde Park; repairing hydrant, Washington street, West Roxbury. Original contract, \$2,560; total addition, \$182.75; contract as standing, \$2,742.75.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$1,620.70 on contract with J. Slotnik at the Quincy E. Dickerman School: For 58 yards of concrete at \$8.80, \$510.40; for 68 yards of excavating at \$3.50, \$238; for 3 yards of trench blasting in coal pocket at \$3.50, \$10.50; for 3 yards of concrete in coal pocket at \$8.80, \$26.40; for 392 yards of open blasting at \$2.75, minus \$1 per yard for the excavation, \$686; 10 per cent profit upon open blasting \$68.60; 17 yards of trench blasting at \$5, minus \$1 per yard for excavation, \$68; 10 per cent profit on trench blasting \$6.80. Original contract, \$85,100; total additions, \$1,970.90; contract as standing, \$87,070.90.

CONTRACT FOR SIDEWALKS.

Upon June 19 the Mayor approved a contract with the George M. Crowell Company for the construction of artificial stone sidewalks. The contractor is not selected by the city but by the abutters, and the expense of construction is divided between the city and the abutters.

TAKING OF LAND FOR SEWERAGE WORKS.

The Mayor has approved the order of the Board of Street Commissioners in taking for sewerage works land in Dorchester, bounded by Winter street and Navillus terrace, and containing 1,420 square feet, more or less.

The sewerage works to be constructed are about 235 linear feet of 10-inch pipe sanitary sewer.

The Board of Street Commissioners declares that no person sustains damages in his estate by the taking for and construction of the sewerage works, and awards no damages therefor.

SALE OF AUTOMOBILE.

The Schoolhouse Commissioners of the City of Boston announce the sale of a Carter car, 1912, 6-cylinder, 32-horse power, five passenger touring car, Model M, fairly equipped, at the Collins Dudley Square Garage, Dudley and Washington streets, Roxbury, upon Wednesday, June 24, at 12 m.

The Schoolhouse Commissioners of the City of Boston announce the sale of a Carter car, 1912, 6-cylinder, 32-horse power, five passenger touring car, Model M, fairly equipped, at the Collins Dudley Square Garage, Dudley and Washington streets, Roxbury, upon Wednesday, June 24, at 12 m.

CLAIMS.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Patrick F. Donovan, in the amount of \$16.89, for repayment of amount paid by mistake for certain street betterments at Norfolk street and Cook court, Dorchester, January 13, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Eugene Testa, in the amount of \$35, for damages occasioned his estate in Orient avenue, East Boston, by the laying out of the street, and in approval of the award of the Board of Street Commissioners.

OPENING OF BATHING SEASON.

The official opening of the bathing season in Boston occurred this week with many new additions and improvements throughout the Bath Division of the Park and Recreation Department. Chairman Dillon has been zealous in his efforts to provide suitable and up-to-date conveniences for the public throughout the city, and in the houses the patrons will observe a renovated condition prevailing in nearly every house.

The L Street Bath has been thoroughly repainted and the ceiling whitened. The beach has been leveled and placed in a condition more satisfactory than ever before, and the entire house presents a condition more inviting even than in previous years.

New bath houses have also been constructed at McKenzie Beach on the Strandway and Tenen Beach, Neponset. These places have been built to replace the ones destroyed by fire and the ravages of the winter tides.

The floating bath houses have been moored in their old positions throughout the various sections of the city, and the public will be served to the same liberal extent as in previous years.

The list of houses are as follows and are open from 2 p. m. until 10 p. m. daily:

Curtis Hall, Jamaica Plain (swimming pool).
Cabot Street, Roxbury (swimming pool).
Columbia Road, Dorchester.
Ward 7 Gymnasium, Tyler street.
Ward 9 Gymnasium, Harrison avenue.
Dover Street Bath, city.
D Street Baths, South Boston.
North Bennet Street Baths, city.
East Boston Baths, Paris street, East Boston.
Ward 3 Baths, corner Lexington and Bunker Hill streets, Charlestown.

The beaches of the city are opened from three hours before to three hours after high tide, with the exception of L street, from 6 a. m. until 10 p. m., and they are as follows:

L Street Beach, South Boston.
Tenen Beach, Neponset.
Freeport Street, Dorchester.
Savin Hill Beach, Dorchester.
McKenzie Beach, South Boston.
North End Park, city, Ward 6.
Dewey Beach, Charlestown.
Wood Island Beach, East Boston.

Instructors and life guards are present at all times during the bathing period.

The list of floating houses and their locations are as follows:

Jeffries Point, East Boston.
Border Street, East Boston, 2 houses, men and women.
Warren Bridge, Charlestown, 2 houses, men and women.
Charlesbank, city, West End, 2 houses, men and women.
Dover Street Bridge, city, 2 houses, men and women.
Fort Point Channel, city, near South Station, men only.

With these provisions every section of the city has its beach or shower house to have recourse to during the summer season, and the large number of bathing

establishments which the city provides easily places Boston in the van among municipalities which provide bathing and recreation for its people.

CULTIVATING SOIL AT LONG ISLAND.

Mayor Curley has received from Prof. Milton Whitney, Chief of the Bureau of Soils, Department of Agriculture, Washington, D. C., an interesting brief setting forth an analysis of the soil and subsoil of Long Island, Boston Harbor, the site of the Boston Infirmary Department. The samples were forwarded by Dr. Charles E. Donlan, superintendent of the department.

It is the intention of the Mayor to have the soil at Long Island properly cultivated in so far that vegetables and garden truck may be raised for the benefit of the inmates of the infirmary. A letter has been addressed to Doctor Donlan by the Mayor to begin immediate preparations for fertilizing and improving the land in harmony with Professor Whitney's suggestions.

Owners of land in and about Boston will find valuable suggestions contained in the brief submitted by Professor Whitney relative to the improvement of property for the cultivation of vegetables.

In the report submitted, Professor Whitney declares:

"An examination of the samples shows that both soil and subsoil are quite acid, and apparently the lime previously used has either lost its efficiency or was only partially successful in remedying the original acidity. It is believed that an additional ton of air-slaked burned lime to the acre will be found profitable for crops, other than perhaps potatoes or strawberries. For the successful raising of red clover lime would probably be necessary.

"The soil is a medium-textured loam, and when carefully cultivated and supplied with sufficient stable manure or other fertilizer should be well suited to grow such crops as tomatoes, late potatoes, peas, beans, sweet corn, cabbage, spinach, and root crops like table beets, carrots and turnips. The soil is rather heavy in texture for best results with such crops as early lettuce, radishes, early potatoes and watermelons. The soil should be well suited to grass and forage crops.

"It is believed that well-rotted stable manure will be found the most satisfactory fertilizer for the land, though if this is difficult to secure, you might, of course, grow, and turn under occasionally in the rotation, a green crop of Canada field peas or clover, both for the organic matter which they will furnish and for the nitrogen supplied by leguminous crops of this kind. Stable manure should not be applied directly following the use of slaked burned lime, but from ten days to three weeks should elapse, depending upon the supervention of rains to effect a distribution of the lime through the soil. Should you use a commercial fertilizer, it is recommended that for field crops you apply about 600 pounds to the acre of a mixture containing 3 per cent of nitrogen, 6 per cent of phosphoric acid, and 8 per cent of potash. For vegetables and special crops a mixture containing 4 per cent of nitrogen, 8 per cent of phosphoric acid and 10 per cent of potash may profitably be used at the rate of about 1,000 pounds to the acre.

"Part of the nitrogen should be in the form of nitrate of soda and part in a more slowly available form like fish scrap, tankage or dried blood.

"Trusting that the above observation may be of some value to you in selecting a series of crops adapted to your conditions, as well as to give you assistance in planning for the fertilization of the soil, and assuring you of our willingness to serve you in any other way we can,

I am,

Very respectfully,
MILTON WHITNEY,
Chief of Bureau."

BOSTON'S MUNICIPAL SHOWER BATHS.

Free public shower baths may be taken in these buildings:

East Boston Gymnasium, Paris street, East Boston.

D Street Gymnasium, South Boston.
Municipal Building, Columbia road, Dorchester.

Cabot Street Gymnasium, Roxbury.
North Bennet Street, North End.
Tyler Street Gymnasium, South End.
Harrison Avenue Gymnasium, Ward 9.
Curtis Hall Gymnasium, Jamaica Plain.
Dover Street Bath House, 249 Dover street.

Copley School, Bartlett street, Charlestown.

Municipal Building, corner Bunker Hill and Lexington streets, Charlestown.

Bathing facilities are entirely free of charge. Persons having no towels and soap may procure them at each building office for one cent each. Comfortable private dressing closets are free in all places. Hot and cold water may be had for baths. At the Dover Street Bath House women and men have separate accommodations and each may bathe there any day in the week. In the other houses women have exclusive use of baths on Mondays and Thursdays, and men have the remaining days. There is telephone connection in each building.

BOSTON'S MUNICIPAL SWIMMING POOLS.

Beautiful swimming pools are open to the public in these three buildings: Curtis Hall Gymnasium, Jamaica Plain; Columbia Road Gymnasium, Dorchester; Cabot Street Gymnasium, Roxbury. Modern methods are employed in keeping these pools perfectly clean. Admission costs fifteen cents, but this includes the use of bathing costume. Private bathing costumes are not allowed. A swimming instructor is always in charge of the pool and will give instruction free of charge.

SCHEDULE OF HOURS.

Monday.—Women, 10 a. m. to 3 p. m.; School Girls 3 to 6 p. m.; Women, 6 to 10 p. m.
Tuesday.—Men, 10 a. m. to 3 p. m.; High School Boys, 3 to 6 p. m.; Men, 6 to 10 p. m.
Wednesday.—Women, 10 a. m. to 3 p. m.; School Boys, 3 to 6 p. m.; Working Boys, 6 to 10 p. m.
Thursday.—Same as Monday.
Friday.—Same as Tuesday.
Saturday.—Grammar School Boys, 10 a. m. to 12 m.; High School Boys, 12 m. to 6 p. m.; Working Boys, 6 to 10 p. m.

INSTRUCTORS.

Curtis Hall.—Colin McDonald, Joseph Good.
Columbia Road.—George T. Cuddihy, Dennis J. Swanson.
Cabot Street.—Harry A. Grainger, William C. Rowe.

BOSTON STREET LIGHTING.

Total lamps, January 10, 1914, 18,493; i. e., 4,718 arc, 3,507 tungsten incandescent, 10,268 gas. Increase over 1913, 380 arc lamps, 1,364 tungsten incandescent, and a decrease of 1,506 gas lamps. Cost of electric lighting for year 1913, \$513,165, or \$41,983 more than in 1912; of gas lighting, \$264,682, or \$15,748 less than in 1912.

GREAT MEMORIAL ROAD IN CANADA.

Mayor Curley during both of his terms in Congress strongly advocated the construction of a memorial highway from the Battlefield of Gettysburg to Washington, as an honored tribute to the memory of Abraham Lincoln, rather than the erection of a Greek temple upon the Potomac Drive, Washington, as declared by the Memorial Commission, and which latter plan was subsequently adopted by both the United States Senate and House of Representatives.

Hon. Charles N. Daniels, United States Consul at Sherbrooke, Quebec, now advises that the Province of Quebec will construct a macadamized road from Rouses Point, N. Y., through Montreal and thence to Quebec, 240 miles in length. This road from Montreal to Quebec will by permission be known as the King Edward Highway, as a memorial to the late King. The Province of Quebec will bear the entire cost of its construction, with the exception of about \$1,000 a mile which will be borne by the municipalities through which it passes. It is expected that the whole 240 miles will be finished by 1916, and when completed will constitute an unbroken stretch of macadamized road extending from Quebec, Canada, to Miami, Fla., a distance of over 2,500 miles. The construction of 240 miles of improved road means a big forward step in a province like Quebec, which in proportion to its size is very sparsely populated, while the roadmaking season only embraces ninety working days in the year, and the severity of the winter climate makes the cost of road maintenance unusually heavy.

It is expected that such a road will stimulate tourist travel to Canada materially, particularly by automobile.

One of the greatest opportunities in the history of the American Nation to erect a great memorial highway was sacrificed when Mayor Curley's plan was rejected in Congress.

EXTENSION OF CONTRACT.

The contract of the Epping-Carpenter Pump Company, for furnishing and erecting an automatic electric sewage pumping plant in the proposed pumping station at Union Park and Albany streets, has been extended until November 1, 1914, by Commissioner Rourke of the Department of Public Works, with the approval of his Honor the Mayor.

CITY OF BOSTON.

PROPOSALS FOR HAY, STRAW, OATS, SHORTS AND CORN.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 826, Tremont Building, until 12 o'clock Friday, June 26, for the hay, straw, oats, shorts and corn needed in the different departments for July, 1914. The bidder must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1 straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association, and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The bidder is requested to bid on No. 1 oats, to test 38 to 40 pounds; No. 2 clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 826, Tremont Building. A bid in duplicate, without check, to be deposited with the City Auditor previous to the time named for opening bids. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Friday, June 26, at 12 m. The superintendent reserves the right to reject or accept bids.

(June 20.) D. FRANK DOHERTY,
Superintendent of Supplies.

CITY OF BOSTON.

SALE OF AUTOMOBILE.

The Schoolhouse Commissioners of the City of Boston advertise for sale at public auction, at the Collins Dudley Square Garage, corner of Dudley and Washington streets, Roxbury, Mass., on Wednesday, June 24, 1914, one Carter Car 1912, 6-cylinder, 32 horse power, 5 passenger touring car. Model "M," fairly equipped. Terms cash at time and place of sale. Other information as to terms may be obtained at the office of the municipal auctioneer, Edward W. Foye, 30 State street, Boston, Mass.

(June 20.) J. P. LOMASNEY,
CHARLES B. PERKINS,
W. F. KEARNS,
Commissioners.

CITY OF BOSTON.

TO HEATING CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for furnishing, setting and piping up new boiler in the Dudley School, Dudley and Putnam streets, Boston, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Friday, June 26, 1914, at said office, with a certified check for \$150, payable to the city if proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening of bids. The commissioners reserve the right to reject any and all proposals.

(June 20.) J. P. LOMASNEY,
CHARLES B. PERKINS,
WILLIAM F. KEARNS,
Commissioners.

CITY OF BOSTON.

PROPOSALS FOR REFRESHMENT PRIVILEGES.

The Park and Recreation Department advertises for proposals for leasing for a term of three years the refreshment privileges in the Refectory Building at Franklin Park, including care of sanitaries, the expense of maintenance to be paid by lessee; the refreshment and boat privileges at the Shelter House and boat landing at Jamaica Pond, including care of sanitaries, the expense of maintenance to be paid by the lessee. Bids must not include dancing. Bids to be filed at office, 33 Beacon street. Duplicate bid to be filed at the City Auditor's office, City Hall. Bids close on Friday, June 26, at 12 m. The Board reserves the right to reject any or all of these bids. Any further information can be obtained from the secretary at 33 Beacon street.

(June 20.) JOHN H. DILLON,
CHARLES GIBSON,
THOMAS F. GALVIN,
Commissioners.

CITY OF BOSTON.

TO PLUMBING CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for installing new sanitation (plumber to be the general contractor) in the B. F. Tweed School, Cambridge street, Charlestown, Mass., and giving bond of a surety company therefor in the sum of \$1,000. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Friday, June 26, 1914, at said office, with a certified check for \$200, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

(June 20.) J. P. LOMASNEY,
CHARLES B. PERKINS,
WILLIAM F. KEARNS,
Commissioners.

CITY OF BOSTON.

NOTICE TO CONTRACTORS.

Sealed bids for furnishing the materials for and constructing a concrete coping, balustrade and parapet around the open incline of the East Boston Tunnel Extension in Cambridge street, near North Russell and Chambers streets, will be received by the undersigned until 12 o'clock noon of Tuesday, June 30, 1914. Specifications and forms of contract can be obtained at 15 Beacon street, ninth floor. The right to reject any and all bids and to award the contract as is deemed to be for the best interest of the City of Boston is reserved.

By order of the Boston Transit Commission.
(June 20.) B. LEIGHTON BEAL, Secretary.

CITY OF BOSTON.

SCHOOLHOUSE DEPARTMENT, June 15, 1914.

The Board of Schoolhouse Commissioners of the City of Boston.

To Hon. JAMES M. CURLEY, Mayor,
City Hall, Boston, Mass.:

DEAR SIR,—This department had a contract for furnishing new clocks and repairing old clocks, which expired February 1, 1914. The service during the last six months not being satisfactory to the Board, we respectfully request the authority, in the interest of economy and efficiency, to make a new contract with John L. Norton, 24 Dean street, Boston, Mass., in the sum of one hundred (100) dollars per month, totaling twelve hundred (1,200) dollars per annum, for which sum he will be required to perform the work indicated above.

(June 20.) Respectfully yours,
J. P. LOMASNEY,
Chairman.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR \$6,558,000 4 PER CENT. CITY OF BOSTON LOANS. BONDS EXEMPT FROM TAXATION IN MASSACHUSETTS.

TREASURY DEPARTMENT.

OFFICE OF THE CITY TREASURER.

CITY HALL, BOSTON, MASS., June 20, 1914.

In pursuance of the authority given by Acts of Massachusetts, orders of the City Council of Boston, and of the School Committee of Boston, the undersigned will receive proposals until 12 o'clock M., Tuesday, June 30th, 1914, for the whole or any part of the following loans:

SINKING FUND BONDS.

Chapter 741, Acts of Massachusetts, 1911. Payable July 1st, 1959.

BOYLSTON STREET SUBWAY BONDS, \$100,000.

DORCHESTER TUNNEL BONDS, \$1,400,000.

EAST BOSTON TUNNEL EXTENSION BONDS, \$1,000,000.

SERIAL BONDS.

AVERY, MASON AND WASHINGTON STREETS, \$1,340,000.

Order of the City Council of Boston of November 11th, 1913. Payable \$67,000, annually, July 1st, 1915, to July 1st, 1934, inclusive.

SEWERAGE WORKS, \$600,000.

Order of the City Council of Boston of April 23d, 1914. Payable \$24,000, annually, July 1st, 1915, to July 1st, 1939, inclusive.

SEPARATE SYSTEMS OF DRAINAGE, \$400,000.

Order of the City Council of Boston of April 23d, 1914. Payable \$16,000, annually, July 1st, 1915, to July 1st, 1939, inclusive.

LAND AND BUILDINGS FOR SCHOOLS, \$500,000.

Order of the School Committee of Boston of April 2d, 1914. Payable \$25,000, annually, July 1st, 1915, to July 1st, 1934, inclusive.

HIGHWAYS, MAKING OF, \$300,000.

Order of the City Council of Boston of April 18th, 1913. Payable \$15,000, annually, July 1st, 1915, to July 1st, 1934, inclusive.

HIGHWAYS, MAKING OF, \$400,000.

Order of the City Council of Boston of June 16th, 1914. Payable \$20,000 annually, July 1st, 1915, to July 1st, 1934, inclusive.

HIGH PRESSURE FIRE SERVICE, \$150,000.

Order of the City Council of Boston of December 23d, 1913. Payable \$10,000, annually, July 1st, 1915, to July 1st, 1929, inclusive.

HIGH PRESSURE FIRE SERVICE, \$150,000.

Order of the City Council of Boston of April 23d, 1914. Payable \$10,000, annually, July 1st, 1915, to July 1st, 1929, inclusive.

CONSUMPTIVES' HOSPITAL DEPARTMENT, NEW BUILDINGS, \$125,000.

Order of the City Council of Boston of December 27th, 1913. Payable \$7,000, annually, July 1st, 1915, to July 1st, 1919, inclusive, and \$6,000, annually, July 1st, 1920, to July 1st, 1934, inclusive.

EAST FIRST STREET EXTENSION, \$48,000.

Order of the City Council of Boston of December 23d, 1913. Payable \$3,000, annually, July 1st, 1915, to July 1st, 1930, inclusive.

POLICE STATION, DORCHESTER, \$45,000.

Order of the City Council of Boston of December 23d, 1913. Payable \$3,000, annually, July 1st, 1915, to July 1st, 1929, inclusive.

All loans will be issued in Registered Bond Certificates of \$1,000 each, or any multiple thereof, and will be paid on the dates specified for each loan, all with interest at the rate of 4 per cent. per annum, payable semi-annually, on the first days of January and July in each year, at the office of the City Treasurer, Boston.

These Bonds are exempt from taxation in Massachusetts and from the Federal Income Tax.

The certificates will be dated July 1st, 1914, and will be ready for delivery, and money received for the same July 20th, 1914. Interest will begin July 1st, 1914, and will cease on the date on which the Bonds are payable.

Holders of these certificates, if they so desire, can receive the semi-annual interest through the mail by check payable to their order.

Proposals must be sealed and addressed to Charles H. Slattery, City Treasurer, Boston, Mass., indorsed "Proposals for Loans," and clearly state whether for the whole or part of said loans, and, if for part, the amount. Each proposal must be accompanied by a certified check on a Boston National Bank or Trust Company, or by cash, equal to one per cent. of the amount of loans bid for, the check made payable to the City of Boston, Charles H. Slattery, City Treasurer. The check or cash of any bidder to whom an award is made will be retained as part payment for the loan or loans awarded, but no interest will be allowed thereon. All other checks or cash will be returned.

Accrued interest from July 1st, 1914, to date of delivery is to be paid by the purchaser.

All proposals will be opened by the undersigned in the office of the City Treasurer, Tuesday, June 30th, 1914, at 12 o'clock M. The City Treasurer reserves the right to reject any or all bids or to accept such bid or bids as may seem to him to be the most advantageous to the city.

CHARLES H. SLATTERY,
City Treasurer.

(June 20-27.)

CITY OF BOSTON.

NOTICE TO CONTRACTORS.

Sealed bids for furnishing the materials for and constructing a concrete balustrade and parapet around the open incline to subway in Boylston street, near Church street, will be received by the undersigned until 12 o'clock noon of Tuesday, June 23, 1914. Specifications and forms of contract can be obtained at 15 Beacon street, ninth floor. The right to reject any and all bids, and to award the contract as is deemed to be for the best interest of the City of Boston is reserved.

By order of the BOSTON TRANSIT COMMISSION,
(June 20.) B. LEIGHTON BEAL, Secretary.

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for erecting and completing general and sanitation work at the Cudworth School, Gove street, corner Paris street, East Boston, Mass., and giving bond of a surety company therefor in the sum of \$2,500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Monday, June 29, 1914, at said office, with a certified check for \$750, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

J. P. LOMASNEY,
CHARLES B. PERKINS,
W. F. KEARNS,

(June 20.) Commissioners.

CITY OF BOSTON.

PROPOSALS FOR ICE.

The trustees of the Boston City Hospital will receive sealed proposals for a supply of ice for the Hospital Department between July 1, 1914, and January 1, 1915. The quantity to be 600 tons (more or less) of 2,000 pounds to the ton. The ice must be of the best quality, cleaned and stored on delivery, and delivered at such times and in such quantities as the superintendent may direct. The ice supply is to include delivery at the hospital proper, the South Department, 745 Massachusetts avenue, Haymarket Square Relief Station, East Boston Relief Station, 14 Porter street, and Convalescent Home, 2150 Dorchester avenue, Dorchester. One price must be given for the entire period. Each proposal must be accompanied by a properly certified check for one hundred dollars (\$100) and a bond will be required for the faithful performance of the contract. Proposals to state the price per ton of 2,000 pounds each, and to be addressed "The Boston City Hospital, Proposals for Ice," and to be left at the hospital not later than June 24, 1914, at 12 o'clock noon, at which time and place the proposals will be publicly opened. A sealed duplicate copy of the proposal must be deposited with the City Auditor before 12 o'clock noon on the date given above for receiving proposals. The right is reserved to reject any or all proposals.

By order of the trustees,
FRANK H. HOLT,
Acting Superintendent.

(June 20.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER AND DRAINS IN TREMONT ENTRANCE, ROXBURY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for pipe sewer and drains in Tremont Entrance, northwesterly drive from Tetlow street, north-easterly, Roxbury, and giving bond thereof of a surety company approved by the commissioner in the sum of eight hundred (800) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works, Tremont Entrance," and left at Room 62, fifth floor, City Hall, before 12 m. on Monday, June 29, 1914, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, June 18, 1914. (June 20.)

CITY OF BOSTON.

PROPOSALS FOR SEWERAGE WORKS IN WASHINGTON, LESHER AND SOUTH STREETS, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for sewerage works in Washington, Leshner and South streets, West Roxbury, and giving bond thereof of a surety company approved by the commissioner in the sum of six thousand (6,000) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works, Washington Street, Etc.," and left at Room 62, fifth floor, City Hall, before 12 m. on Tuesday, June 30, 1914, with a certified check for two thousand (2,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, June 18, 1914. (June 20.)

CITY OF BOSTON.

PROPOSALS FOR SEWERAGE WORKS IN CLEMENT AVENUE, KENNETH STREET, ANAWAN AVENUE AND BEECH STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for sewerage works in Clement avenue, between Meredith street and Anawan avenue; Kenneth street, between Beech and Meredith streets; Anawan avenue and Beech street, between West Roxbury Parkway and New York, New Haven & Hartford Railroad, West Roxbury, and giving bond thereof of a surety company approved by the commissioner in the sum of fifteen hundred (1,500) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works, Clement Avenue, Etc.," and left at Room 62, fifth floor, City Hall, before 12 m. on Friday, June 26, 1914, with a certified check for seven hundred (700) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, June 18, 1914. (June 20.)

FINANCING CITY PLANNING.

The Editor, City Record:

SIR,—One of the most valuable addresses made at the recent City Planning Conference at Toronto was that of Andrew Wright Crawford, Esq., of the Philadelphia bar, on the subject, "Certain Aspects of City Financing and City Planning." By permission of Mr. Crawford, and upon your invitation, I am able to make an abstract of that address for the benefit of our citizens.

Mr. Crawford pointed out that there is rarely a municipal bond issued by which injustice is not done. Thirty-year or fifty-year bonds for street paving, that will have to be replaced in ten or fifteen years, are constantly authorized. On these bonds, for many years before their expiration, our citizens will be compelled to pay interest and sinking-fund charges for a thing that they cannot by any possibility enjoy. In many municipalities there is a glaring misconception of the work that should be paid for through bond issues. Fifty-year bonds are issued to pay for improvements that will be quite inadequate fifty years hence. While a part of the original construction may be useful, frequently all of it is useless when the bonds are amortized, and often the cost of removal makes the total cost of the work greater than if the unoccupied ground were available. Thus, under-planning entails avoidable expense and is therefore extravagant.

Failure to foresee, or want of courage to act in the line of true vision, is responsible for this waste in American municipal expenditures.

No issue of municipal bonds should be made unless the thing to be constructed with the proceeds will last as long as the term of the bonds, and unless the work will be measurably adequate for the needs of the community at the expiration of the bonds. The administration that is not endeavoring to foresee and provide for the needs of the future should be confined in its expenditures to the income of the present.

American cities double in population in twenty-five years. A city of 100,000 to-day will be 200,000 in 1939. In 1964 it will have doubled again. This result is not obvious to him who thinks only of the present. The logical conclusion follows from this increase of population, that if the thing constructed by the sale of fifty-year bonds is to accord with the needs of the people who in the latter years of the bonds' life will be making use of that thing, and continuously paying interest and sinking-fund charges thereon. The needs of a population nearly four times the present one must be considered if no injustice would be done.

City planning is indispensable to determine that length of efficient life of municipal construction, hence the issuance of city bonds calls for city planning as a prerequisite.

We cannot provide absolutely for the needs of fifty years hence, because to do so in 1914 would call upon us to pay proportionately for a thing four times greater in capacity than required by us who have but one-quarter the financial resources of 1964. Our difficulty is therefore to provide equitably for things now needed in a measure, which will hereafter be needed in greater measure.

In the case of outlying parks we should pay the minimum. Fifty years hence these parks, now suburban and somewhat of a joyous luxury, will be indispensable to their urban neighborhoods. We should be able to issue bonds for such parks with a very small sinking-fund charge to-day,

graded up to a large charge fifty years hence,—in fact, we should make park bonds run seventy-five or one hundred years, and make their present amortization charges negligible.

Paving bonds should be issued for about fifteen years, and the immediate amortization charges should be heavy, the later charges graded to nothing. We who have the pavement at its finest should pay the highest toll.

Stone and concrete bridges should expect to last for seventy-five years. Bonds to provide money for them should run as long. It is difficult to determine whether their amortization charges should be graded up or down, or be kept at a level. In the case of centrally-located bridges, the last course would be best. As to suburban bridges, their future greater usefulness justifies heavier future sinking-fund charge.

Main sewers may deserve a diminishing amortization charge; main streets, an increasing charge. Public buildings probably deserve a diminishing charge throughout, though possibly the summit of their serviceableness is neither at the end nor at the beginning of the life of the bonds issued for them; but the deterioration of the physical building, which begins at once, must be considered.

Bonds to provide for the purchase of real estate for public buildings should have an increasing amortization charge. The division for taxation purposes, of land for improvements thereon, will show how the former often increases in value, while the latter decreases. It is true that some of these suggestions require changes in constitutional provisions. But if city planning contemplated the minimum of fifty years for physical results, a delay of four or five years to secure constitutional changes is not of importance.

City planning must necessarily contemplate changes in organic law from decade to decade; it is a part of city planning to plan future laws as well as future structures.

The desirability of providing for graded amortization charges has been recognized. A law to that end is the proposed Amendment to the Constitution of Pennsylvania, which passed the last Legislature, and will have to pass the next Legislature, and then will have to be ratified by the electors. The Amendment is to enable the city of Philadelphia to borrow 3 per cent over the existing limitation of 7 per cent for transit facilities, wharves, docks, the reclamation of land, etc. It provides, in part: "In incurring indebtedness for any one or more of said purposes, the city of Philadelphia may issue its obligations maturing not later than fifty years from the date thereof, with provisions for a sinking fund sufficient to retire said obligation at maturity, the payments to such sinking fund to be in equal or graded annual installments."

It may be noted that this amendment follows the admirable precedent of providing that the borrowing capacity of a city is to be ascertained by excluding from the calculation a credit where the work resulting from any previous expenditure of loan moneys is self-supporting.

Obviously, these methods of municipal financing and these differentiations, if they are to be more than mere guesses, necessitate city planning.

It will not have escaped notice that consideration of municipal bonds in connection with city planning establishes the minimum for the time that should be contemplated in city planning. It does not necessarily establish the maximum. But the minimum is usually in practice the maximum. In Pennsylvania, just before the enactment of the minimum

wage law, its opponents sought the support of a manufacturer who was known to pay the lowest of low wages, and they asked him, "Do you believe in the minimum wage?" To which he replied, "Sure I do; I pay it!"

If the needs of the population at the end of the life of fifty-year bonds must be considered as a mere matter of justice, city planning must consider fifty years as its minimum. Think of the inventions or improvements in inventions made during the last fifty years, especially those affecting communication—the telegraph, the telephone, the electric car, the motor car, the motor truck and the German dirigibles,—to suggest a few—and you will agree with me that it is enough to attempt to forecast the needs of an urban population four times that of to-day.

A striking example of changes in the problems we have to deal with in city planning is found in a report of the Third International Road Congress at Ghent in 1913:

"A census of traffic, taken on a fine Sunday afternoon in the spring of the present year on a certain secondary arterial road leading out of London, showed that the average number of vehicles passing in one hour was, motor buses, 50; motor cars, 300; motor bicycles, 50; bicycles, 100, and horse-drawn vehicles, 15. A fair presentation of the Saturday and Sunday crowd.

"This particular section of the road chosen for observation was straight for about one-third of a mile and had no cross roads. Deviations in its alignment at either end prevented excessive speed, but a computation showed that motor buses attained an average pace of 14 miles per hour and motor cars 25. It was a narrow road, being only 26 feet in width between the curbs, but it has a fine surface of wood block which has been recently laid.

"Ten years ago it was paved with macadam and at the same time of the day and on the same day in the year it would have been traversed by a continuous procession of cyclists, a few horse busses and other horse traffic of a lighter kind. Twenty years ago it was a carriage drive, a route for agricultural wagons and light tradesmen's carts, and it also provided a means of access to the metropolis for those possessed of a horse.

"The changes in condition of usage which have overtaken this secondary arterial road leading out of London apply with equal force to roads leading out of every town of importance in Europe and America."

As in the period of twenty-five years the average city doubles in population, and as the terms of administrations of city officials are becoming generally four years, it follows that each administration will see a growth of the city approximating 12 to 15 per cent. Each administration must prepare for a growth of about 15 per cent that will occur in the city's size during its term. This will be chiefly reflected on the city's perimeter, but it will react also on the city generally, on the central portion especially and on the subcenters intermediately. The more intensive future use of the portions of the city already built requires our present more extensive preparation. Each administration should at least take care of the physical requirements of public service that will become needed during its term of office.

A city cannot stop its growth. The maintenance and operation of the existing municipal plant is of pressing importance, but the skill and knowledge required for the planning for the growth of the city

that will take place each year, each ten years and each fifty years is of a higher order than that required for maintenance and operation. Just as it takes a higher degree of expert knowledge and skill to plan a house than to repair it afterwards, so it requires a better understanding of the problem, a more expert solution and more efficient construction work to plan and build the additions necessary for the future growth of the city, than to maintain and operate what has already been constructed. People used to think that a carpenter could build a house without an architect to tell him how; many cities have been built, and some are still being built by similarly self-satisfied municipal carpenters. But it costs more money to correct a badly-planned house than to build it right in the first place, and it costs the city vastly more to reconstruct itself where it has been planned on mean lines, than to construct it well on broad lines in the first place. And the direct money cost is not all. John Burns well said "mean streets make mean people"; and we may paraphrase the remark by saying that mean city planning makes a mean city, and a mean city makes mean citizens.

City planning involves not only planning but decision. The duties of the one and the exercise of the other are as important duties as any to which a municipal administration can give its attention.

Fortunately the resources of a city increase with its needs. The annual income from taxation will be larger, and our annual borrowing capacity will be greater each year. Our present plans, if they are to be adequate when materialized in the future, must be based on an understanding not only of what the needs of the future will be, but of what the financial ability of that future will be. It is difficult to persuade people that any plan to be carried out in twenty-five years, for which the present capacity of the city is sufficient, is to be regarded because of that fact alone, as probably inadequate; the sufficiency of the present capacity of the city to finance the plan throws the burden of proof on its proponents to show the enduring sufficiency of the plan itself.

The method of paying for various kinds of improvement through assessments on the property benefitted has been emphasized as an admirable American method. The method of excess condemnation has also been advocated. Expediency will determine which method is the more available in a given case. Generally, in undeveloped sections, assessments for benefits is the better method, while in developed sections, excess condemnation is preferable.

Excess condemnation means that any loss as well as any gain will be the city's, whereas in the case of assessments for benefits, the loss, if loss there be, will be that of property owners. Greater justice is thus often secured by excess condemnation.

Frequently, the combination of the two methods is advantageous; to condemn immediately abutting property to a desirable lot depth and control its development by the creation of easements will spread the resulting increase in values over a greater territory than if such abutting property were left uncontrolled in private hands. Immediately adjoining the excess area so condemned, there will be an enlarged area subject to assessments for benefits. In addition to the returns, in the one case, from the sale of the excess property, and in the other from the special assessments, both areas will thereafter return annually a

larger sum in taxes than before, thus taking care of proportionate interest and amortization charges on bonds that may have been issued to finance the work; or, if no such bonds were issued, thus securing a greater income for general municipal uses. The territory actually feeling an increment in value will exceed both areas.

In his admirable paper entitled "Paying the Bills for City Planning," delivered at our Boston conference, Mr. Nelson P. Lewis showed the justice of assessing the cost of rapid transit systems on the properties within the spheres of influence. A recent Philadelphia investigation confirmed the experience of New York City in this regard, by showing that a newly constructed rapid transit line so concentrated the normal general increase of the entire residential areas of the city within its own sphere of influence, as to cause an actual loss for six years in all the other residential areas combined, despite the erection of some 21,000 new houses in these other areas.

These experiences enable the exercise of municipal economy in another important respect.

Before a city proceeds to the undertaking of the construction of such lines, or before it permits their construction, the city should acquire the real estate it will need for all public purposes, whether for parks, for playgrounds, parkways, streets, schoolhouses, police or fire stations, public libraries or what not, in the territory that will be tapped; otherwise, if it waits until it has enormously increased the value of such property and the amount, therefore, which it will have to pay, it will be guilty of rank folly. Elementary prudence dictates action before thus unearned increment has actually accrued—unearned, that is, by the owners' money, but earned directly by the city's expenditure of money paid by the taxpayers, where the city constructs the system; and this increment begins long before completion of the new lines. City planning enables the exercise of similar far-sighted economy by present-day expenditure, in many respects other than the rapid transit system—parkways, other main thoroughfares, parks, river front improvements—in fact in the case of every public work where real estate, increased in value by its proximity to our public work, will be needed for another municipal service in the reasonable new future.

It will be observed that I am not here insisting upon the effect of the opening of parks, for instance, on adjacent land values. I am taking it for granted that there is no longer need of persuasion on this point. Such testimony as the following, "During the sixteen years following the laying out of Central Park, the average increase in the assessed value of real estate in the other parts of the then city of New York was about 100 per cent while in the three wards then adjoining the new park, the increase was approximately 800 per cent," has been duplicated in greater or less degree so often, that we are now able to exercise more far-sighted economy. Prompt expenditure is often the truest economy.

The broad financial aspects of city planning are frequently so general and illusory, so incapable of mathematical demonstration, that they have not been appreciated in America at anything like their financial worth to the community.

The manifestations of this monetary benefit fall naturally into two classes, namely, the benefit to citizens through the attraction and circulation of outside money, the magnetic cause of which is to

be found in certain city planning works, and the benefit to the city treasury in addition to the city's annual income caused by higher assessments for taxation purposes of properties within the spheres of influence of such works. As an example of this lack of appreciation of opportunities, consider the great sum annually lost by American treatment—if utter neglect of glorious opportunities can be called "treatment"—of their municipal river banks. Think, first of course, of the beauty and attractiveness of European waterfronts, the Thames embankment with the Hotel Cecil and other high-class properties crowding to its edge; the Seine; the hundreds of other European city rivers; and then, secondly and soberly, and in your counting houses, compute the municipal value of those works. In your calculations, assess the actual values of the properties fronting on the Seine, and compare them with what they would be if the Seine looked like the Chicago river; or the Schuylkill below Callowhill street in Philadelphia; or Jones' Falls in Baltimore; or the Anacostia Flats in Washington. Compare the actual values of the properties fronting on the Thames embankments with what they would have been if that river's banks looked the way they did at the beginning of Queen Victoria's reign. Then apply your tax rate to the differences and you will get an index to the primary loss caused by our American ignoring of the scenic value of river fronts. I am emphasizing the municipal value of riparian developments mainly noncommercial but there is a spirited, kaleidoscopic, fascinating scenic value and, hence, financial value, to the municipality in commercial waterfronts developed by masters who seek by-products as well as direct results.

So far, of the loss to the city; now of the loss to the citizen.

Compute the value to the citizens of European cities of their river fronts. How much money would Parisians *not* get a chance at, if their rivers were as dilapidated, as uglified as ours are generally? The sums left by visitors to Paris each year are variously estimated from \$50,000,000 up to several times that sum. How much would Parisians lose if the Seine were not a gigantic work in sculpture?

It is a pleasure to note that we are beginning the redemption of our waterfronts. Boston has begun it—true, in a hesitating, apologetic way, so as not to offend Beacon street—still it has begun it. You, here in Toronto, promise to do vastly better. Your combination of a commercial and noncommercial development promises to set the precedent for American cities that has been needed so long. The early realization of your plans is therefore a matter of financial concern to practically every American city.

If beauty pays, how much does ugliness cost? Do we realize now dearly we are paying every year for our investment in rectangular, grid-iron schemes of unattractiveness? City treasuries are losing money and citizens far more. Let us never forget, when discussing parkways, river embankment, park and playground systems, group plans and other physical developments, that there is another side to the picture, the side of the city without parkways, without river embankments, without parks and playgrounds, without civic centers—the city crowded with overhead wires, with its sidewalks covered by overhanging, threatening signs, the curbs lined with the ugly street fixtures. Which pays? Which costs?

JOHN J. WALSH.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announces an open competitive examination June 22, 1914, for mechanic, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$1,020 a year in the Bureau of Standards, Department of Commerce, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Persons appointed as a result of this examination will be employed in the machine shop of the bureau where high-grade scientific apparatus and instruments are produced.

The commission announces that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announces an open competitive examination for plant pathologist in potato investigations, for men only, on June 29, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, at a salary ranging from \$1,800 to \$2,250 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of investigations of the diseases of the Irish potato and especially study of the late blight.

The commission announces an open competitive examination June 29, 1914, for market specialist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Office of Markets, Department of Agriculture, at a salary of \$2,760 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to investigate the methods now used by cooperative associations of dairy producers in organizing and in marketing their products and to devise and demonstrate improvements in these methods.

The commission announces an open competitive examination June 29, 1914, for market milk specialists, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging

from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include cooperative work with state and municipal authorities in the improvement of milk supplies, and it will be necessary for the appointees to perform considerable traveling throughout the United States for the purpose of conducting investigations concerning the production, handling, and distribution of milk for city consumption. In addition, they will be called upon to attend dairymen's conventions and other meetings for the purpose of scoring milk and cream, and making addresses pertaining to the sanitary production and handling of the same; to assist local inspectors in inaugurating and carrying out efficient systems of dairy inspection; to inspect dairy farms and city milk plants, and give advice as to improvements from a sanitary standpoint.

The commission announces an open competitive examination June 29, 1914, for dairy husbandman, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,800 to \$2,500 a year, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include cooperative work with dairy farmers; advice and assistance with reference to instituting the keeping of records of production of herds, the construction of silos, the construction and remodeling of dairy buildings, the feeding of dairy herds, the management of dairy farms, the care and handling of milk and cream, and the making of butter on farms; the organization and supervision of farmers' associations, bull associations, and cow-testing associations; demonstrations at fairs, judging dairy cattle and dairy products, lecture work on subjects connected with dairy farming, and other forms of dairy-farming extension work; collection of information concerning the dairy industry, and experimental work along dairy-farming lines. The performance of these duties will involve considerable traveling, usually within one state.

The commission announces an open competitive examination June 29, 1914, for dairy manufacturing specialist, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,800 to \$2,500 a year, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will include cooperative work with creameries, condensed milk factories, ice cream factories or cheese factories, according to the qualifications of the man. The person appointed to a position of this character will generally be assigned to a particular section of the United States, and he will be required to visit creameries, condensed milk factories, ice cream factories, or cheese factories; to attend patrons' meetings for the purpose of giving instructions

in the care of milk and cream; to attend dairy conventions for the purpose of making addresses on the subjects pertaining to his special line of dairy manufacturing; and to give advice regarding the building of new factories and the installing of equipment.

The commission announces an open competitive examination June 29, 1914, for senior highway engineer and highway engineer, for men only. From the register of eligibles resulting from this examination certification will be made to fill a large number of vacancies in these positions in the Office of Public Roads, Department of Agriculture, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will involve superintending the construction of roads of various types throughout the United States. In addition the employees will be called upon to inspect roads and investigate road building materials, as well as administrative organization, methods of management, etc., in counties for the purpose of reporting upon systems by which the best administration, construction and maintenance of the county system may be secured. The inspecting of roads locally and giving advice in regard to their improvement, and the giving of addresses at road meetings will also be included as part of the duties of these positions.

Eligibles resulting from this examination will be divided into two grades. The first grade will be designated senior highway engineer, with salaries ranging from \$2,220 to \$3,000 a year. The second grade will be designated highway engineer, with salaries ranging from \$1,800 to \$2,100 a year.

The commission invites attention to the fact that in the open competitive examination for senior highway engineer and highway engineer, scheduled for June 29, 1914, applicants for the position of senior highway engineer must have reached their thirtieth birthday on the date of the examination, as stated in the original announcement No. 523; and applicants for the position of highway engineer must have reached their twenty-fifth birthday on the date of examination, instead of their thirtieth birthday, as stated in the original announcement.

The commission announces an open competitive examination, June 29, for the position of painter at the Boston Post Office and Sub-Treasury Building. The salary will be \$3.50 per day. No educational test will be given. For full particulars relative to this examination, apply at 141 Post Office Building, Boston.

The commission announces an open competitive examination for assistant biochemist, for men only, on July 6, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the United States Public Health Service, for duty in the field, at \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in making metabolic, dietetic and other biochemical studies in relation to pellagra.

The commission announces an open competitive examination for assistant epidemiologist, for men only, on July 6,

1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Public Health Service, at salaries ranging from \$2,000 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct laboratory studies of disease, to make epidemiological surveys to determine the prevalence and causation of epidemics, and to recommend measures to prevent and control outbreaks of disease.

It is desired to secure persons thoroughly competent in the various branches of sanitary bacteriology, and especially in isolating the typhoid bacillus from infected persons and materials.

The commission announces an open competitive examination July 6, 1914, for fiber inspector, for men only. From the register of eligibles resulting from this examination certification will be made to fill several vacancies in this position in the Philippine Service, at \$1,800 to \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. The appointees to these positions will be stationed at export ports and other grading stations designated by the Director of Agriculture of the Philippines.

The commission announces an open competitive examination for chemist's aid, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., and in the field service of the Bureau of Chemistry, at salaries ranging from \$720 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Most of the appointments will be made at \$720 a year.

Both men and women will be admitted to this examination, but most of the positions are of such a character that they can only be filled by men.

The duties of this position will include the construction and repairing of laboratory apparatus, the preparation of stock solutions and special reagents, and similar work. It is desired to secure efficient and practical appointees whose services will be valuable in assisting chemists in their work. Appointment to the position of chemist's aid will not lead to promotion as junior or assistant chemist, and persons desiring such promotion must take the regular examination for junior chemist, which is held at frequent intervals.

The commission invites attention to the fact that for the open competitive examination for chemist's aid, to be held on July 8, 1914, at the places mentioned in original announcement No. 517, the maximum age limit will be thirty-five years on the date of the examination instead of thirty years, as stated in the original announcement.

The commission announces an open competitive examination for timber scaler, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$90 a month on ceded Chippewa Indian lands

in Minnesota, under the General Land Office, Interior Department, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Persons who meet the requirements and desire to compete in these examinations should at once apply for application blanks and full information relative thereto, to the secretary of the United States Civil Service Board, 141 Post Office Building, Boston.

The commission announces an open competitive examination for weight clerk, for men only, on July 8, 1914, at Bath, Me. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$3.04 per diem, in the office of the Superintending Constructor, U. S. Navy, Bath Iron Works, Bath, Me., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

In the event of there being a shortage of eligibles in other naval establishments eligibles from this examination who are willing to accept appointment at an establishment where such shortage exists may be certified for appointment to such establishment.

The commission announces an open competitive examination for assistant market milk specialist, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,500 to \$1,740 a year, and in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position include cooperative work with state and municipal authorities in the improvement of milk supplies; investigations concerning the production, handling, and distribution of milk for city consumption; scoring of milk and cream in connection with milk contests; inspection of farms, stores and city milk plants where milk is handled; lecture work at dairymen's associations and other meetings. The performance of these duties will involve considerable travel.

The commission announces an open competitive examination for bacteriologist, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at salaries ranging from \$1,200 to \$2,000 a year, in the Bureau of Chemistry, Department of Agriculture, for duty both in Washington, D. C., and in the field, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to examine bacteriologically food products which are subject to the food and drugs act in order to determine their sanitary condition.

The commission announces an open competitive examination for landscape architectural draftsman, for men only, on July 8, 1914. From the register of eligibles resulting from this examina-

tion certification will be made to fill a vacancy in this position in the Engineer Department at Large, War Department, Washington, D. C., at a salary of \$900 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for assistant dairy husbandman, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,500 to \$1,740 a year, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include cooperative work with dairy farming; giving advice and assistance with reference to instituting the keeping of records of production of herds, feeding of dairy herds, and management of dairy farms; organization and supervision of farmers' associations, bull associations, and cow-testing associations; judging dairy cattle; lecture work on subjects connected with dairy farming; and experimental work in dairy-farming lines.

The commission announces an open competitive examination for first-class steam engineer, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of assistant engineer and electrician, at \$1,200 a year, in the United States Penitentiary, Atlanta, Ga., vacancies in the position of first-class steam engineer as they may occur in the departmental service at Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. The usual entrance salary of this position is \$1,200 a year.

The commission announces an open competitive examination for veterinarian, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of veterinary inspector in the Bureau of Animal Industry, Department of Agriculture, and in the position of veterinarian in the Quartermaster Corps, U. S. Army, unless it is found to be in the interest of the service to fill any vacancy by reinstatement transfer or promotion.

Bureau of Animal Industry.—Graduation from an accredited veterinary college or the fact that the applicant is a senior student in such an institution is a prerequisite. Such senior students will not be certified for appointment until after they have furnished proof of actual graduation. Entrance salary, \$1,400 per annum. It is probable that a large number of appointments will be made in the near future.

Quartermaster Corps.—Graduation from a veterinary college and one year's actual practice as veterinarian on horses are prerequisites. Entrance salary, \$1,200 per annum. There are now several vacancies at Texas City and Galveston, Tex., and additional vacancies will depend upon the activity of the army on the Mexican border. In certification of

eligibles preference will be given to those examined in the vicinity of the place where the vacancy exists.

The commission announces an open competitive examination for assistant physicist, qualified in metallography, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Standards, Department of Commerce, Washington, D. C., at a salary of \$1,400 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. It is desired to secure eligibles with a scientific training and with some experience in metallography either in the laboratory or in industrial works, and who are competent to carry on research in the scientific and practical fields of metallography and physical metallurgy. It is desirable that applicants have a reading knowledge of French and German, and the applicant's qualifications in this respect should be fully set forth in his application.

The commission announces an open competitive examination for structural engineer and draftsman, for men only, on July 8 and 9, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Office of the Supervising Architect, Treasury Department, Washington, D. C., at entrance salaries ranging from \$1,600 to \$1,800 per annum; vacancies in the position of first-class structural draftsman in the Panama Canal Service, at entrance salaries ranging from \$150 to \$175 a month, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary of the position of structural engineer and draftsman in the Supervising Architect's Office is \$1,600 or \$1,800 a year; only those persons who attain an average percentage of 80 or over in the examination being eligible for appointment at a salary of more than \$1,600. The entrance salary for the position of first-class structural draftsman in the Panama Canal Service depends upon the amount of experience had by the appointee.

The commission announces an open competitive examination for marine engine and boiler draftsman for men only, on July 8 and 9, 1914, at all places at which city delivery service has been established in the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Navy Yard, Portsmouth, New Hampshire, at an entrance salary of \$4 per diem, and vacancies as they may occur in positions requiring similar qualifications at entrance salaries ranging from \$3.52 to \$5.04 per diem, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Marine engine and boiler draftsmen are employed by the Navy Department at the following places in the New England States: Bath, Maine; Boston and Quincy, Mass., and Portsmouth, New Hampshire. In certifying to these positions local eligibles are preferred, but in the event of there being a shortage of local eligibles,

eligibles from this examination who reside in other cities and who are willing to accept appointment at a naval establishment where such shortage exists, may be certified for appointment to such establishment.

The commission announces an open competitive examination for assistant mining engineer, for men only, on July 13, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Mines, Department of the Interior, for service in the field, in relation to coal mining or metal mining, at salaries ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will include, in one case, investigations in relation to coal mines, and in another case in relation to metal mines, particularly such as concern the causes of mine accidents or waste in mining, and the suggestion of remedies therefor. It is desired to procure the services of persons having a broad training in mining, particularly underground experience.

The commission announces an open competitive examination for cartographer in agricultural geography, for men only, on July 13, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The duties of this position will be to assist in the preparation of crop, land utilization, and land tenure maps and charts.

The commission announces an open competitive examination for forest inspector, for men only, on July 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Forest Service, Washington, D. C., at \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The duties of this position will consist of directing the cooperative work in forest management carried on with private owners of timber lands in the Eastern United States. The position demands thorough familiarity with theoretical and practical work in forestry and lumbering, including timber cruising, mapping, the direction of logging operations and the management of private forest lands in the Eastern States.

The commission announces an open competitive examination for record examiner, for men only, on July 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position as they may occur in the Department of Agriculture, for service in the field, at salaries ranging from \$1,500 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It is desired to secure eligibles capable

of making independent examinations of land titles in connection with the acquisition of forest lands by the Government.

The commission announces the postponement from June 17 and 18, 1914, to July 22 and 23, 1914, of the open competitive examination for law assistant, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of law clerk in the office of the Solicitor, Department of Agriculture, Washington, D. C., at entrance salaries of \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

MASSACHUSETTS CIVIL SERVICE EXAMINATION.

A competitive examination will be held on July 1, 1914, to fill several vacancies in the position of deputy fish and game commissioner under the Commission on Fisheries and Game. The initial salary is \$60 a month and the maximum salary \$100 a month.

Men applying for the above should be sound physically, be good marksmen both with gun and revolver, have good eyesight, be able to distinguish the various colors, be good walkers and runners, be fearless and able to withstand fatigue and exposure. They should be fairly familiar with game birds and quadrupeds, fish, and the various song and insectivorous birds protected by law in this state. They should know the essential provisions of the fish and game laws. Their experience, to be rated as valuable, must include gunning and fishing, or constable and police experience, preferably both.

The examination will consist of a sworn statement of training and experience, handwriting, an accuracy test, report writing, arithmetic, and practical questions on the fish and game laws, on fresh and salt water fish, on game birds and quadrupeds, and on other animals protected by law. In addition to the above, candidates will be given a thorough test in identifying specimens of fish and specimen birds.

Successful candidates will be subjected to a physical examination which will include a test of their eyes for sight and for color blindness.

Only male citizens of the United States, between the ages of twenty and forty-five who have been residents of Massachusetts for the past year have a right to apply.

Men desiring to undergo this examination may secure application blanks by applying, in person or by letter, at the office of the Civil Service Commission, Room 152, State House, Boston.

Applications may be filed at any time, but in order that applicants may be entitled to appear at this examination, application blanks must be filled out and placed on file in the office of this Commission on or before June 24, 1914, at 5 p. m.

SEMI-CENTENNIAL, CITY HOSPITAL.

The trustees announce a reception in honor of the semi-centennial observance of the opening of the Boston City Hospital in the Surgical Amphitheater, on Saturday, June 20, at 11.30 a. m. Luncheon will be served in the Medical Library at one o'clock.

PROCEEDINGS OF CITY COUNCIL.

Thursday, June 11, 1914.

Meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD presiding.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Maria Teresa McNellis, to be paid for damages to garment by an alleged defect at City Hall.

Greater New York Pickle Works (Inc.), for payment for repairs on automobile caused by damages received on ferryboat.

Lichter Brothers, for a hearing on their claim.

Harold A. Wheeler, to be paid for amount paid City Collector by mistake.

Executive.

Petitions for permits for leave to sell, rent or lease firearms, viz.:

J. Wilensky, 1057 Washington street, Ward 9, Suffolk Loan Company, 1904B Washington street, Ward 17.

Petitions for children under fifteen years of age to appear at places of amusement, viz.:

Mary F. Dowd, Steinert Hall, June 30.

Catherine M. Madison, Whiton Hall, June 26.

Paula Mueller, Steinert Hall, June 24.

APPROVAL OF APPOINTMENTS.

Notice was received from the Civil Service Commission of approval of the following appointments of the Mayor, viz.:

John J. Curley, City Collector.

Edward W. McGlenen, City Registrar.

John Koren, Statistics Trustee.

Placed on file.

STORAGE OF EXPLOSIVES.

Notice was received from the Davidson Rubber Company, Caldwell street, Charlestown, of use of said premises for the storage of explosives and of intention to use same for the ensuing year.

Placed on file.

RESOLUTIONS CONCERNING TENEAN BEACH.

Resolutions were received from the Men's Club of the Second Congregational Church of Dorchester, protesting against conditions existing at Tenean Beach and asking for improvements of same.

Placed on file.

PUBLIC LANDS.

Coun. ATTRIDGE, for the Committee on Public Lands, submitted the following:

(1) Report on message of Mayor, communication, preamble and order (referred May 4) concerning alterations in bridge, Savin Hill avenue—that the order ought to pass.

Report accepted; order passed, yeas 8.

(2) Report on message of Mayor, communication and order (referred April 13) for conveyance of land at Worcester street—recommending the passage of the order, and also recommending that all papers in connection with the subject be printed in the City Council minutes.

(For papers referred to see City Council minutes of April 13, 1914.)

The report was accepted and the question came on the passage of the order.

Coun. ATTRIDGE—Mr. President, I desire to say for the committee that in this particular case the land on Worcester street was paid for and a deed was never given by the city. Mr. Owen of the Law Department appeared before the Committee on Public Lands yesterday and said that he had made a very complete investigation, that he went to the auditor's office and also to the treasury and found that the money had been paid to the city by the man who owned the land in, I believe, about the year 1859. For some reason or other no deed was ever given by the city, and the heirs of the original owner now come in and ask the city to have the Law Department pass the necessary papers so that the heirs and devisees of the original owner will have a proper title.

The order was passed, yeas 8, nays 0, and will take its second and final reading and passage in not less than fourteen days.

(3) Report on message of Mayor, communications and order (referred 1913) for sale of land at Cambridge and Mansfield streets, Ward 25—recommending passage of order in the following new draft:

Ordered, That his Honor the Mayor be and hereby is authorized to sell at public auction at not less than the assessed valuation (35 cents per square foot) the parcel of land on Cambridge street, corner of Mansfield street, in the Allston district, containing 13,948 square feet, more or less, and

upon such sale his Honor the Mayor is hereby further authorized, in the name and behalf of the city and by an instrument or instruments satisfactory to the Law Department, to convey said land to the purchaser or purchasers thereof.

The report was accepted, and the question came on the passage of the order.

Coun. ATTRIDGE—Mr. President, the members of the committee believe that this property should be sold, and sold at the assessed valuation, which is 35 cents per square foot. The members of the committee do not believe that the land is needed by the city at the present time, and that is why they voted in favor of the sale of the land at the assessed value.

Coun. WOODS—Mr. President, I hope the city will be able to get the assessed value for that land out in Brighton, although I do not think it will. But what I want to call the attention of the Committee on Public Lands to in regard to this particular matter is that I think it would be well to take up this land proposition with the committee that is trying to boom Boston. We have a lot of land that would be available for new industries that might be induced to come here, and which we might lease. I would be more in favor of leasing land owned by the city and having a revenue coming in from it all the time than selling it. Therefore I would merely call attention to the fact that the Mayor might be requested, if he cannot sell the land to good advantage, to see if he can lease it. I think it would be well for the city to hold on to all such land and lease it if possible.

The order was passed, yeas 8, nays 0, and will come up for final reading and passage in not less than fourteen days.

(4) Report on petition of Mina K. Wood *et al.* (referred 1912) for removal of restrictions on four lots on Dix place—recommending passage of the following order, and furthermore the incorporation in the City Council minutes of communication from Law Department relative to said petition:

Ordered, That his Honor the Mayor be and he is hereby authorized in the name and behalf of the city to execute an instrument satisfactory to the Law Department whereby the city shall, so far as it may lawfully do so without affecting the legal or equitable rights of parties holding title under it, release to Mina K. Wood and Nella C. Simpson and all persons claiming title under them, and the respective heirs and assigns of such persons, as their respective interests may appear, the parcels of land on Dix place described in its deed to Donald Kennedy, dated July 18, 1870, and recorded with Suffolk deeds, Lib. 1019, fol. 220, and in its deeds to Williamina Brown, dated respectively October 17, 1874, and May 4, 1881, and recorded with said deeds, Lib. 1239, fol. 121 and 124, and Lib. 1524, page 89, from the several conditions set forth in said deeds.

City of Boston,

Law Department, June 5, 1914.

To the Committee of the City Council on Public Lands:

Gentlemen,—In the matter of the petition of Mina K. Wood *et al.* for the release of certain conditions or restrictions imposed by the city upon land of the petitioners on Dix place, I beg leave to report as follows:

This land comprises the greater part of a parcel which was purchased by the city in 1865, apparently for an enlargement of the Winthrop School yard. In 1868 that purpose seems to have been abandoned and, the Committee on Public Buildings having reported that the land should be sold subject to such restrictions as would protect the Winthrop School estate, an order was passed December 29, 1868, authorizing such sale. In pursuance of this order the four lots which comprise the petitioners' land were sold subject to the conditions set forth in the petition.

The Winthrop School estate was sold by this city in March, 1913, and the greater part of it is now occupied by the Wilbur Theater.

The city now owns no land in the vicinity which can receive any benefit from the conditions imposed upon the premises of the petitioners and there seems to be no reason why they should not be released in accordance with the order which is herewith respectfully submitted.

Yours truly,

ROSCOE P. OWEN,
City Conveyancer.

The report was accepted, and the question came on the passage of the order.

Coun. ATTRIDGE—Mr. President, in regard to the lease of these restrictions I desire to say for the committee that John C. Kiley, who represents parties in interest there, appeared before the committee at its meeting yesterday, as well as Mr. Owen of the Law Department. These buildings are on a lot of land which is adjacent to the Wilbur Theater, at the corner of Dix place and Tremont street. The land was originally owned by the city and was purchased for a school yard for the Winthrop School. Later it was found that the yard was not necessary, and the property was sold with certain restrictions. The restrictions at the present time are not of any great importance. Mr. Owen said there would be no damage or injury to any individual on Dix place by the release of the restrictions and that the city by its vote would simply release whatever right, title or interest it had in those restrictions. One of the restrictions, for instance, was that the building should be built parallel to Dix place; another was that the cellar

should not be built below a line which was at Charlestown, at the Navy Yard, at the dry dock; and another was that no building should be above three stories in height. I presume that was for the benefit of the school, in the days when the school was there. The school having been torn down and a new building erected in its place, that restriction is of no consequence at the present time. Mr. Owen told the committee yesterday that these restrictions are now of no importance and should be released, and the committee so voted.

The order was passed, yeas 9, nays 0, and will take its second and final reading and passage in not less than fourteen days.

RECESS TAKEN.

The Council voted, at 3.25 p. m., on motion of Coun. KENNY, to take a recess subject to the call of the President.

The members of the Council reassembled in the Chamber and were called to order by the President at 4.27 p. m.

NEXT MEETING.

It was voted, on motion of Coun. KENNY, that when the Council adjourned it be to meet on Monday, June 22, at 3 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Reports on petitions (referred to-day) for permits to sell, rent or lease firearms—that permits be granted, viz.:

J. Wilensky, 1057 Washington street, Ward 9.

Suffolk Loan Company, 1904B Washington street, Ward 17.

Reports accepted; permits granted on the usual conditions.

(2) Reports on petitions (referred to-day) for children under fifteen years of age to appear at places of amusement—that permits be granted, viz.:

Mary F. Dowd, Steinert Hall, evening of June 30.

Catherine M. Madison, Whiton Hall, evening of June 26.

Paula Mueller, Steinert Hall, Wednesday, June 24.

Reports accepted; permits granted on the usual conditions.

(3) Report on opinion of Corporation Counsel (referred June 8) as to approval of contracts with agreement for street lighting annexed—that the same be placed on file.

Report accepted; paper placed on file.

(4) Report on message of Mayor, communication and agreement of Boston Consolidated Gas Company (referred June 8) concerning termination of contract at end of five years—that the same be placed on file.

Report accepted; papers placed on file.

(5) Report submitting an agreement of the Boston Consolidated Gas Lighting Company providing for the termination of the gas lighting contracts on April 1, 1919, under certain conditions, said agreement being submitted in substitution for the letter of said company presented to the City Council on June 8—recommending that the same be placed on file.

The agreement is as follows:

Boston, Mass., June 10, 1914.

In consideration of the execution of the two contracts dated March 19, 1914, for the supply of gas for street lighting purposes and for the maintenance of street lamps, the Boston Consolidated Gas Company hereby agrees that said contracts may be terminated on April 1, 1919, by the City of Boston in pursuance of a vote of the City Council approved by the Mayor after a public hearing held as provided in section 6 of chapter 486 of the Acts of 1909, provided written notice of such vote to terminate is given by the Mayor of Boston to the Boston Consolidated Gas Company any time between March 1, 1918, and July 1, 1918; otherwise said contracts shall continue in full force and effect for the full term provided therein.

BOSTON CONSOLIDATED GAS COMPANY,
by J. L. RICHARDS,
President.

Report accepted; placed on file.

(6) Report on message of Mayor, communication from the Commissioner of Public Works, and contracts for the Boston Consolidated Gas Company for street lighting—recommending that the two contracts executed on March 19, 1914, by the Commissioner of Public Works and the Boston Consolidated Gas Company, for lighting a portion of the public streets, parks and alleys of the City of Boston for a period of ten years from April 1, 1914, be approved.

Report accepted, and the question came on approving the two contracts as submitted.

Coun. COLLINS—Mr. President, for the last four years, in one form or another, the question of lighting the city's streets by gas has been before this Council. The Council in 1911 went on record in favor of the city buying its own equipment and maintaining its own plant, thereby doing away with the middleman, but the contracts which were sent to this Council for the last four years at different times have always been either not acted upon

by the Council or unanimously rejected. The reasons advanced have always been, in the first place, that we believe the city is big enough and strong enough to do this work itself properly without the intervention of any middleman. In 1914 the present contract is presented to us for our consideration. In its term it is for ten years, the same term which has been covered by other contracts which have come before us. This Council has felt, in the action it has taken and individually, that it favored a five-year term rather than a ten-year term. Fundamentally the big question here is, whether or not this Council, as trustees for the citizens of Boston, should approve a contract hindering the city for a period of ten years to do this kind of work. Five years is a pretty long time. The Massachusetts Gas and Electric Light Commission on a number of occasions have gone on record against any contract for the lighting of the streets of a city or town for a period in excess of five years, whether the contracts pertained to electricity or gas. The Corporation Counsel, in a letter addressed to this body at the last meeting, specifically referred to this contract as a ten-year contract. I believe it is against sound public policy for the city at this time to enter into any bargain with a corporation or person to light the city streets for a period of ten years, primarily, because it is in everybody's mouth that great inventions are about to be made in lighting. In view of that fact, is it not unwise, is it not bad policy, for this city to go ahead now, after this body, the legislative branch, has prevented this type of contract being put through for the past four years, and reverse itself, putting through this kind of contract to-day? I do not believe, Mr. President, that this is a proper settlement of this question. On the other hand, in my opinion, it means an unqualified surrender, and I, for one, do not intend to be a party to it. There are many other provisions in this contract which are faulty. They may be subdivided into three classes. I suppose I could stand here at this time and talk an hour upon this subject. I will try not to bore you, Mr. President, but will keep within the time limit of not more than fifteen minutes, setting forth under the various subheads why I am against the contract. In the first place, the contract provides for a specific candle power, namely, 60 candle power. What is the test necessary to insure the city's getting the 60 candle power? Under the specifications in the contract of 1911, which has been referred to by Mr. Emerson in the report of the Finance Commission, a very clear test is provided to see that the company which is doing the work for the city shall comply strictly with the terms of the contract.

It says under section 9, on page 11 of the contract for lighting streets, parks and alleys with gas incandescent mantle lamps:

"The lamps, complete with burners, mantles, chimneys and glassware must be maintained continuously when in service at not less than 60 candle power for single burners or 100 candle power for double burners, measured under the conditions of service at an angle of about 15 degrees below the horizontal, under all conditions of variation in the gas pressure. The standard candle power to be employed shall be the recognized international candle, as adopted by the United States Bureau of Standards.

"The city shall have the right at any time to test the lights to determine whether the specified candle power is being produced. In case two tests of any lamp, separated by an interval of not less than one hour during any one night, prove that the lamp is not furnishing the specified light, the lamp shall be considered as either dim or out for the night, unless such condition is caused by a broken or plugged service pipe or other interruption of the flow of gas to the burner.

"Any lamp found to give less than the specified candle power and more than 30 candle power, measured in the specified manner, shall be called dim, and any lamp similarly found to give less than 30 candle power shall be considered valueless and out."

I would also add, Mr. President, before coming to the important provisions of this contract, that that contract of 1911 goes on as follows:

"If tests show that 10 per cent or more of the lamps, selected at random, of any lamplighter's or equivalent district fall below the specified value, then all the lights in the affected districts shall be taken as being equal in candle power to the average of the lights so tested. The expense of such tests shall be borne by the contractor if the lights are shown to fall below the specified value, otherwise by the city."

Mr. President, in the contract before us the test must be made on an individual lamp, and if that individual lamp falls below the standard there is a penalty of a few cents inflicted, by reason of the fact that said lamp is not in condition. The test is worthless from this standpoint, because it is utterly impracticable to expect the city to go ahead and test each lamp on a lamplighter's route, bringing it to a laboratory. We can all see as practical men how it would be impossible to accomplish anything in that way. The only way to do it as suggested in this contract, to have a test made on the street, a photometric test, so to speak, at an angle of 25 degrees below the horizontal. That test was found practicable enough for the contractors of 1911 to bid upon and why has it not been incorporated in this contract? If you go ahead and ask a man to go ahead and test one lamp after another, 10,000 lamps, where are you going to end. The fact is that the city would

get pretty tired of its job, as after a night or two there would be no more testing of that kind done. That is the main objection to the specifications here. There are a number of other objections. For example, the city must give the contractor the written notice of when the test is to be made under this contract upon which the Council is about to pass. That is not true of the 1911 contract. The city can go ahead under that and make its own tests in its own way. Why should the city be required to give the contractor notice to the effect that it is about to make an examination to see that the city is getting what it is paying for? Mr. Emerson, in his report to the Finance Commission, received by this City Council May 11, 1914, is very clear with reference to this matter of candle power. That I may not misquote him I wish to read two short paragraphs showing what he has to say concerning it.

"In regard to the method of testing, i. e., in a horizontal plane from the burner of the lamp, it is well known that the Rising Sun Street Lighting Company lamp gives its greatest illumination above the horizontal plane rather than below. By testing at a horizontal plane nearly the maximum candle power of light will be obtained, although the rays tested are thrown off in a direction which will give no illumination on the street surface where illumination is most desirable."

The second paragraph provides that the city, by written notice, may request the contractor to employ a competent person to test the lamps. The effect of this is to give the company notice that the lamps are to be tested and give them ample time to take suitable measures to bring their lamps to the required candle power either by cleaning, renewing of mantles or temporarily increasing the gas pressure, as may be necessary. It would be extremely improbable that any lamps would be found in any way deficient in candle power.

Further, the contract provides that the test shall be made by standard laboratory methods. It is not clear just what this provision means. As interpreted by the Commissioner of Public Works it means that the lamps shall be taken from the posts and tested in a laboratory in actual comparison with a standard candle. This procedure is probably an impossible one to carry out in practice, as no lamp could be taken from the post and transported to a laboratory without breaking the mantle. Moreover, if a lamp was suspected giving less than the required candle power it would be easy to break the mantle in removing the lamp from the post thereby preventing any test from being made. On account of the variation in gas pressure in different portions of the city, the pressure at the laboratory would not be the same as at the post, the weather conditions would be different, and the laboratory tests would be absolutely of no value in determining the value of the illumination in service.

Again, in order that the penalty may be collected, two tests of any lamp separated by not less than one hour shall be made during any one night. This provision would involve taking down the lamp twice, testing it twice and setting it up once on the post during one night. Not only is this procedure impossible to accomplish in the limited space of one hour, but the ordinary workman cannot accomplish it in one night. In the laboratory tests no lamps would be found to be deficient because the gas pressure would be ample for the purpose, the lamps clean, the mantles new and the tests would be free from drafts of air or other influencing conditions of the weather.

Even assuming that through some inadvertence a lamp was found to be below the required 60 candle power, the penalty to be deducted from the price due the Gas Company would be $\frac{1}{10}$ of \$12, or approximately 33 cents in addition to the cost of the test.

In case the lamps are found to be not deficient the cost of testing must be paid by the city. The cost of a party of photometric observers for an evening would probably be in the neighborhood of \$20, and the labor of removing and replacing the lamps perhaps \$10 more. The city would therefore be obliged to risk the expenditure of \$30 on the slight chance of penalizing the Gas Company to the extent of 33 cents in addition to the cost of making the test. Under such conditions it is clear that few, if any, tests would ever be made and that section 6 would be absolutely inoperative as a means of maintaining the candle power of lamps.

There will be no assurance that the candle power of the Rising Sun Street Lighting Company lamps would be increased over the present average candle power which seems to be about 38. No contract should be accepted by the city containing such provisions and in my opinion the section regarding candle power contained in the specifications for lighting streets and alleys dated February 11, 1911, is far superior and should be included in the proposed contract, if the contract is to be made.

Article 11. Discontinuance of Lamps.

This section provides that the number of lamps furnished under the contract shall not be at any time less than 95 per cent of the number of lamps in the service at the time of the approval of this contract by the Mayor. As the number of lamps in service at the present time is approximately 10,000 the contract will bind the city to approximately 9,500 gas lamps for the term of the contract. In my opinion no such provision should

receive the confirmation of the Council. In the first place there is no reason why there should be any guaranty. There will be no new apparatus for the Rising Sun Company to provide, and therefore no additional fixed cost on account of new investment. As shown in previous reports of the Finance Commission the plant of the Rising Sun Street Lighting Company has been paid for many times and the city owes nothing on that account. The only provisions which could be reasonably required by the contracting companies as regards the number of lamps would be one that provided that if the city saw fit to replace gas lamps with other lamps it should replace them in such numbers that undue hardship should not be placed on the company in distributing the remaining lamps among their employees. That is to say, a number of lamps should be replaced which would allow the company to reduce its force of lamplighters by a definite number of routes, and such discontinued routes should be in the same neighborhood, contiguous to each other, and another that provided that the price per lamp year should be automatically increased, as the total number of lamps was reduced, by an amount sufficient to compensate the company for the fixed charges due to supervision, office expenses, rental, etc., as such expenses would not decrease proportionally as the number of lamps decreased.

Article 14. Arbitration.

Although this provision does not definitely provide for automatic lighting devices it is understood that this provision would apply to any saving made by the installation of such devices by the company. There does not seem to be, considering the protections the company receives under the contract, any reason why the city should not be entitled to its share of any saving in cost, and the contract should be so drawn.

Also, the provision regarding depreciation should be changed so that the charge for depreciation should apply only to the automatic lighting devices. As previously stated, it is impossible that there should be any depreciation of the present plant, which has been paid for many times.

Again, if automatic lighting devices are installed the city gets no rebate on account of savings in operation unless the saving exceeded one dollar (\$1) per lamp year; if the savings exceed one dollar per lamp year the city would be entitled to a rebate from the contract price of one-half of the amount saved. This provision could be manipulated in various ways for the benefit of the company. For example, assume that the saving from automatic lighters for the preceding year was one dollar and fifty cents (\$1.50) per lamp year; the company and the city would each be entitled to one-half the saving, or seventy-five (75) cents each. If the company arranged its business, by raise of salaries, higher payments for supplies to its parent company or otherwise, so that the saving appeared to be only one dollar (\$1) per lamp year, in that case the company would save one dollar and the city nothing per lamp year. The absurdity of the paragraph as a workable provision in favor of the city is apparent.

Many other minor defects are apparent in the contract and specifications, among them the fact that there appears to be no provision in the contract for the care of fire alarm lamps, of which there are 157 with open flame burners. These lamps have been considered at a separate price in previous contracts. It is unnecessary to enumerate further defects, as those above outlined should be sufficient to prevent the approval of the contract.

There are many provisions of this contract which are not good, in my opinion. This one pertaining to arbitration is a very substantial one to consider. When you take a contract extending over ten years, as this one probably will, the question of arbitration becomes a very important one. Under the clauses of this contract there are many defects pertaining to arbitration, but the one which stands out above all others is that it says that unless the saving exceeds \$1 the city shall derive absolutely no benefit. Does that seem fair to a large corporation like the City of Boston, paying 100 cents on the dollar, that the city should not receive a proportional benefit by reason of a saving in cost? Can anyone stand up here and defend that position, that if the saving is not at least \$1 the city shall not get one cent's worth of benefit? Let us get down to concrete facts and see what that might amount to and what is possible under that contract. There are 10,000 lamps. One year's saving of \$1 each on those lamps would mean \$10,000. The life of this contract is ten years. That would mean that \$100,000 might be saved by the Boston Consolidated Gas Company, and the city might not derive one penny of benefit. I ask you, Mr. President, and through you the members of the City Council, whether that provision appears to be reasonable and fair to the city. To me positively it does not. This is a ten-year contract. It may be terminated in five years, but, judging from antecedent probability, there is no opportunity for this contract, in all reasonableness, to be determined within ten years. We have had no contract for the last four years. The legislative and executive branches of the city government have not been able to get together by reason of the fact that there have been differences of opinion. Query: What will take place in five years from now? Mr. President, ten years is too long a time. One might call it not a contract but a franchise for ten years to do this particular kind of work. I do not believe the citizenship of Boston favor it. In the second place, Mr. President, any board,

any disinterested tribunal that has discussed the matter and has gone into it, has come out against this contract. There are the Chamber of Commerce, the Finance Commission, the United Improvement Society. I say, under all the considerations, particularly in view of the faulty test and the arbitration clause, that this contract should be rejected by the city government.

The question came on the approval of the contract.

Coun. ATTRIDGE—Mr. President, the Council in this particular matter has the right to disapprove or approve a contract made for the lighting of the public streets for a term longer than one year. As the gentleman on the other side of the Chamber has stated, the United Improvement Association in a communication to this Council, under date of April 29, the Chamber of Commerce, in a communication under date of April 17, and the Finance Commission, in a communication under date of May 11, recommended to this Council that this contract should be rejected. We have with the original two contracts which were submitted a paper which has been termed a supplementary statement, which was offered to-day by an official of the Consolidated Gas Company signed by Mr. Richards, the president of the Boston Consolidated Gas Company. That offered certain terms for the termination of this contract. That paper was signed by Mr. Richards, as president, although there was with the paper no copy of a vote which gave him authority of the Board of Directors to sign such an agreement on the part of the company. That paper was not signed by the man who acted for the gas company in the original two contracts and who signed for them—Mr. Wrightington. Furthermore, it was not approved by the Commissioner of Public Works, as were the original two contracts which were sent to us. Mr. Richards no doubt is an estimable man, and he may have general authority to sign for the corporation, but I have no absolute knowledge of the fact that he signed that contract with authority, either general or by vote of the Board of Directors. I understand, of course, from Mr. Sullivan, the Corporation Counsel of the city, that he did have general authority to make contracts for the Consolidated Gas Company. Mr. President, my opinion since I have been a member of this Council has been that the city should own and operate its own gas lamps in the City of Boston. The Chamber of Commerce recommended that the city purchase its own equipment; the Finance Commission, under date of July 21, 1909, said that the city should furnish its lamps and employ directly the labor to do the work. On May 2, 1910, the Finance Commission recommended to the City Council that an appropriation of \$175,000 be made to provide the necessary equipment for the 12,000 lamps then in existence, and that these be installed so as to be independent, so that the city might be independent of the company doing the work at the present time. On July 22, 1910, the Finance Commission also recommended to this Council that we appropriate \$310,000 for the purchase and installation of 12,000 inverted mantle lamps complete; and on September 19, 1911, the Finance Commission again recommended that we appropriate \$310,000 for lamps which would become the property of the city, so that the city would own its own street lighting equipment. On June 13, 1910, on resolution of Coun. Hale, it was resolved, that, in the opinion of the Boston City Council, instead of continuing the contract for street lighting with the Rising Sun Street Lighting Company the city should buy its own gas lamps. On May 22, 1911, the City Council, of which I was a member, passed a loan for \$300,000 for lamp equipment. That was upon the recommendation of the Finance Commission. That loan was issued by the Mayor, and interest began on it November 1, 1911. Twelve thousand dollars was paid yearly, \$1,000 per month, or \$31,000 for thirty-one months, up to June 1, or one-tenth of the total amount of the bonds issued. That shows a waste of the city's money to that extent. The former Mayor of the city asked the City Council to transfer that loan for street improvements, but the members of the Council at that time refused to make the transfer. I now ask, why did the Mayor and the Council authorize that loan, if it was not to be used for the purpose of purchasing gas lighting equipment? The Finance Commission, under date of April 29, 1911, when John A. Sullivan, the present Corporation Counsel, was chairman, said:

"The commission, viewing the matter merely from a financial standpoint, recommends the purchase by the city of a complete equipment of lamps and the operation of the plant by its own force."

On May 11 of this year the commission recommended that the city purchase and install in such parts of the city as were not covered by the electric light service, inverted mantle lamps. The city to-day owns, and for many years past has owned, part of the lamps—the risers, the lamp-posts and the pipe connections—and the city, in my opinion, should own the extensions, should own the entire lamp. We are now in the position of a man who is paying for the use of the hat which he wears. The city to-day owns a part of the lamp. I ask, why should not the city own the entire lamp? The Central Labor Union, by resolutions passed March 22, 1911, copies of which were forwarded to members of the Council, and also on August 22, 1912, declared for municipal ownership, and they also stated that they were not opposed to the installation of an automatic device. The Massachusetts State Branch of the American

Federation of Labor, under date of April 1, 1911, declared that the city should own its own lamps, declared in favor of municipal ownership. In my opinion, lighting is in the same class as water, sewers, parks and schoolhouses, and the lamps should be owned and operated by the City of Boston. The Boston Herald, under date of September 10, 1910,—that was five years ago, but the same conditions apply to-day, said:

"Municipal Lighting.

"There has as yet been no convincing argument against the proposition of the Finance Commission that the city should own its street lighting equipment. Street lighting is an essential part of street maintenance. The street lights are a part of the public equipment of the streets, serviceable like good pavements and sidewalks for the convenience and safety of travel, like the police patrol for the prevention of crime on the highways, as much communal function as any one of a score of branches of the municipal service which contribute to the general welfare and comfort of the citizens. Why should not the city own this essential part of its equipment?"

"It is a reasonable proposition that the City of Boston should establish and own its street lamps."

It further says:

"But the objection to municipal venture in this field of gas or electrical production does not lie against municipal ownership of the street lamps. Such an equipment could be as wisely selected by municipal authority as by any private contractor, with equally careful regard for economy in consumption and with a likelihood of greater regard for service in lighting power."

"There would then be no competitive bidding for the municipal contract. But this result would not be without its benefits. At least we should have a lighting system chosen on its merits and on scientific evidence as to its illuminating power. There would be a saving of middlemen's profits."

That was four years ago, Mr. President, and that same paper, under date of April 6 of this year, in an editorial entitled "The Rising Sun that Keeps on Rising," said:

"The only sure solution of this gas lighting problem is that proposed by the Finance Commission, namely, that the city should own the lamps, as it already owns the poles, thus making itself independent of the contractor. To purchase the lamps would cost some money, but it would be economy in the end. In any case, Mayor Curley should see to it that no lighting contract is awarded on any subletting basis."

City Affairs, in its issue of September, 1907, said: "The ownership by the city of its gas lamps will give to the city the opportunity to take advantage of the economies which automatic lighting and extinguishing devices will undoubtedly make possible during the next few years."

In that case, the city would get all the profit. *City Affairs*, under date of May, 1910, said:

"The city would save \$825,000 or about \$500,000 more than enough to pay for the equipment."

The same *City Affairs*, in February, 1913, said: "Municipal ownership through the purchase of equipment with the available funds offers a cheaper solution than extensions of the present contract."

And in May, 1913, *City Affairs* had an article regarding the saving which the city could make by owning the lamps. I say, Mr. President, that the city should own and operate its own gas lamps and that the superfluous monopolistic middleman should be eliminated in this city, and there will be a middleman under this contract, for the Boston Consolidated Gas Company, through its accredited representative, said it would sublet the contract to the Rising Sun Street Lighting Company, which is connected with the Welsbach Street Lighting Company of America. If the Rising Sun Street Lighting Company can do this work, it will do it at a profit and why should not the city do the work itself? On July 22, 1910, the Finance Commission, in another report to the Mayor and City Council, said that "the city should furnish and maintain the street gas lamps, and the gas company should provide the means of lighting, extinguishing and caring for them. There is no reason why a middleman's profit should be paid any longer."

On September 19, 1911, the Finance Commission recommended the appropriation of \$310,000, and said that by that appropriation the middleman would be eliminated and that the city would make a saving. The middleman's profit, in my opinion, should be saved to the city. They are not in business for love, but are in it for profit, and the city should get the profit. The city is at a disadvantage, and has been for many years, with a middleman who owns the lamps; and I say again, if the middleman can do it, the city can do it. The question arises as to the men now employed by the Rising Sun Street Lighting Company and the effect that this will have upon them. Mr. President, a bill was passed by the Legislature, chapter 344 of the Acts of 1913, which gave the city the right to appoint to positions in the labor service of any department of the City of Boston men employed by the Rising Sun Street Lighting Company; and this year, 1914, that act was amended so that it will now read that the city has four years, from January 1, 1913, to January 1, 1917, to take those men into the service of the city. If this contract is approved, what is to prevent this company from hiring boys to do the work and cutting out the laborers? If these men could be taken into the service of the city, as in

my opinion they will be in time, their wages will be not \$2 a day, which is paid by the Rising Sun Street Lighting Company at the present time, but \$2.50 a day, which is paid by the city. I say that that could happen if this act is approved, and I am not saying that as derogatory to the men employed by the Rising Sun Street Lighting Company. But it can be done. Furthermore, it could be done if the automatic devices are installed by this company, if this contract were awarded to it. Mr. President, Boston surely has had what I might term an illuminating experience in the matter of street lighting. For about twenty-six years this city has been in the grip of a monopoly. For twenty years it secured the contracts without competition, and for twenty years it received \$30 per lamp from the City of Boston, \$9 per lamp more than it would receive under this contract. All you gentlemen have to do is to figure up the amount of money that that concern has made from the City of Boston in those twenty years. That charitable concern never gave any reduction to the city until Mr. Emerson advertised for bids a few years ago. They have had a profitable monopoly of the street lighting of Boston, and, in my opinion, if this contract is approved, they will have a monopoly for ten years more, making in all about thirty-six years, and in ten years from now, or even five years from now, the city will be in the same position that it is to-day. If the city purchased its own equipment it would own it and would have it at the end of the term of the contract. If this contract is approved, at the end of ten years the city will have nothing, and we will then have the same problem over again. The city will be no better off and no other company can compete with the Rising Sun Street Lighting Company. This charitable company, which Mr. Rourke last Monday said was doing a favor to the City of Boston in lighting its public streets, at one time wanted to sell its equipment to the city. It wanted to sell devices for \$9.60 apiece, and Mr. Emerson said to the Finance Commission that they were not worth over \$6, and then the original cost had been charged off many times. This is the company which is doing a favor to the city at the present time by lighting the city's streets. Mr. Rourke, the Commissioner of Public Works—and I do not intend to criticize him—recommends this contract; and so he recommended the contract a year or two ago. In 1911, when the price asked was \$22.30, he recommended a contract on that basis for ten years. There would have been a saving in that particular instance to the company, not to the city, of about \$130,000 for the ten years. During my term in the Council I have believed in and have voted in favor of municipal ownership. I voted in favor of \$300,000 for the city to purchase its own gas lamps. I have maintained that the city should own the entire lamp, and not own a part of it, and the corporation own the rest. Since I have been a member of the City Council I have followed the recommendations of the Finance Commission, whose former chairman, Mr. Sullivan, is now Corporation Counsel of the city. To-day I am not going to deviate from that policy that I have adopted, of being in favor of the city owning and operating its own gas lamps. Mr. Sullivan himself has said at a conference with the Council in regard to the loan of \$300,000,—and I made a memorandum of it, took it down in writing,—that it was the best policy for the city to operate and own its own light. That was his honest opinion, when there was another mayor, and I believe it is his honest opinion now. I say, Mr. President, that I am going to vote to-day against this contract. I do not want to saddle the city with even a five-year contract which will leave the city in practically the same position then that it is to-day. A bait has been held out to the Council to the effect that this would become operative as of the first of April, if accepted June 15, and that there would thereby be a saving between then and now. That was the purpose, in my opinion, of deceiving the members of the Council. To-day I am going to vote to the same position that I have maintained up to the present time in this City Council. I voted for the loan of \$300,000 for the purchase of lamp equipment. When the former mayor of the city wanted to transfer that money for another purpose, I refused to so vote, with others. To-day I maintain the same position. I shall vote against the approval of this contract which will tie the city up in the clutches of this charitable corporation for years to come.

Coun. COULTHURST—Mr. President, the issue before us to-day is not an issue between the contract that we are to act upon and municipal ownership. It is an issue between the contract we are to act upon and the arrangement under which we are proceeding at the present time, under which we are paying a price of \$24.05 per lamp per year for 10,000 lamps, as compared with a price under this contract of \$21 per lamp per year. There is no question of what the attitude of this Council in the matter of street lighting by gas has been for years. The Council has favored a municipal plant and has done its utmost to get it. What has been the result, Mr. President? The City Council and Mayor Fitzgerald at loggerheads for four years, and the city is out over \$100,000 as a result of that situation. The present Mayor, the successor of Mayor Fitzgerald, has submitted to us a contract which shows a saving of \$30,000 a year, if we accept it, over existing rates. The contract under which this rate is given is not a perfect contract. As a lawyer, I never saw a contract that I considered perfect, especially if

it were drawn by some other lawyer; and this contract has its flaws and imperfections. But we have to be practical. On the one hand, we have a chance of saving \$30,000; on the other hand, we run a risk of being at loggerheads with the Mayor and going on under the existing rate of \$24.05 per year. The argument of the councilor from Ward 9, Mr. Attridge, does not meet this situation. We, as practical men, have to pass on this question between \$21 and \$24.05 per lamp per year. That is the practical consideration before us—the question of saving or not saving to the city \$30,000 a year. This price of \$21 a year is a good, fair price, in my opinion. I am not satisfied that the electric lighting contract gives us a good price, but I am satisfied upon all the evidence in the case that \$21 a year for these lamps is an exceedingly fair price to the city. Nine dollars of that goes to the gas company for gas, and that means sixty-one cents per 1,000 feet for the gas supplied. I happen to know from a very good authority that twenty-two cents of the present eighty cents that the gas company charges to its consumers in Boston is required for dividends, leaving a gross cost to the company of fifty-eight cents per 1,000 feet; and the price we are getting under this contract, therefore, of sixty-one cents, is an exceptionally reasonable and fair price. So far, so good. The contract provides that if there is any reduction in the general price of gas to the general consumer the city is going to get the benefit of it in the price of gas under this contract. What does that mean to us as practical men? It means that the company may at some time within the life of the contract reduce the price of gas, say, five cents per thousand feet. That would give to the city a price of fifty-six cents a thousand feet for the gas sold under the contract. The price of maintaining the lamps on the streets, as contemplated by this contract, and of lighting the lamps, is \$12 per lamp per year. Both Commissioner Rourke and Mr. Emerson agree that the cost to the Rising Sun Company of doing this work is \$11.50 out of the \$12. So, Mr. President, all the evidence that we have before us shows that the maximum profit that the Rising Sun Street Lighting Company can get out of this contract is fifty cents per lamp per year, or \$5,000 per year. So, gentlemen, we ought to be satisfied that we are getting a fine price for gas for the next five or ten years. The councilor from Dorchester, Coun. Collins, says that this is a ten-year contract. Well, it is a ten-year contract, perhaps. We have a provision which I am satisfied is legal that allows the city to terminate the contract during the first four months of the next administration; and we have a right to assume that when we reserve that power to our successors, the Mayor and City Council succeeding us four years from now, the city will be as well governed then as it is to-day, and that the city, if necessary, will take advantage of that option. So much for that objection. On the question of the candle power test, so severely criticised by Mr. Emerson, I am satisfied that, although that is not the sort of test I would like, I should not vote to turn down the contract on that ground. I am satisfied with the actual, practical penalty provided in connection with the test, namely, that the candle power of any lamp tested does not come up to the requirements of the contract, must pay the cost of making the test, which will be in each case \$20 to \$30, and the company will at the same time receive a blow to its prestige as an illuminating, lighting company, doing a big business in this city and the suburbs. So, as a practical matter, as far as the candle power testing clause of the contract is concerned, though I would like to rewrite it, having an alternative clause, I realize that we cannot get that. I am not going to repudiate the contract, therefore, on that ground, because with Commissioner Rourke, or whoever his successor may be, if he has a successor in the next four years, sitting in that office, I am satisfied that the city's interests are bound to be protected and that we are going to get pretty close to a 60 candle power light. As far as the arbitration clause is concerned, providing that unless there is a saving of more than a dollar a year there shall be no reduction to the city, I know that the only possible way in which there can be a reduction of the cost is by the substitution of automatic lighting for the present system. If there is any reduction in the cost of gas below the sixty-one cents per thousand feet, it could not amount to more than a few cents, and if that is given to the general consumers of the city, the city itself will get the advantage of it. But the only way in which the \$12 cost can be reduced, as I see it, according to Mr. Emerson's report, is by reducing the pay of the laborers, which amounts to \$8.12 per lamp per year—and that is not to be expected—or by introducing automatic lighting. Therefore, as a practical matter, the only chance we have of getting a reduction in that cost is by the substitution of automatic devices. That substitution would perhaps mean a gross saving of from \$3 to \$5 per lamp—\$3.37, I think, as estimated by Mr. Emerson, and \$5 as estimated by Mr. Rourke. So, as a practical matter, the saving in that case would be over \$1, and that arbitration clause protects us fully. There is the situation. Therefore, as we cannot get such a contract as the gentleman from Ward 9 wants, or such a contract as I might like to have, we are faced with the alternative of proceeding with the present price of \$24.05 per year as compared with \$21 per year. Twenty-one dollars per year certainly seems to me a low price for gas lighting. It is the lowest price paid by any city in the country, according to our information. The city must be

practical in its dealings with contracts of this kind. Here is a chance to make a material saving to the city as compared with the price that is being paid at present. When the contract provided a price of \$30 per lamp per year, the City Council entering into that contract did not protect the city's interests as we are doing. We are now proposing to enter into a contract which gives to the city a price of \$21 per lamp per year. It is a good contract, take it all in all, and I am going to vote for its approval.

Coun. KENNY—Mr. President, I feel, as one member of the City Council, like extending my congratulations to the City of Boston. I think the city is entitled to be congratulated upon what the Council, I believe, is about to do, namely, to confirm and ratify these contracts before us. We are not confronted with the question of municipal lighting. Four years ago, when the rate was as it is to-day, \$24.05 per lamp per year, it was recommended to us by the Finance Commission that we take up with the Mayor the question of municipal lighting. We did so. With that purpose in view we passed a loan order for \$300,000 for equipment. But the Mayor, the then executive of the city, would not be a party to that plan. He would not agree to it. Therefore, the Council was not able to accomplish what it desired to accomplish in the way of bringing about municipal lighting, as against a contract calling for \$24.05 per lamp. That status continued for over four years. The present Mayor, this year, indicates that he will not assent to a municipal lighting proposition. Where does that leave the Council? Exactly where we were four years ago. My friend from Ward 9, Coun. Attridge, says we will be no better off five years hence or ten years hence, if we adopt these contracts, than we are to-day. I desire to correct that statement. We will be at least \$30,000 better off at the end of each year. Just think of that. Then, dating the contracts from the 1st of April last, that means a saving of \$7,500 in three months. There will surely be a saving of \$25,000 a year for the next five years, and the saving may be even more than that, because who knows how within the next few years the cost of labor and materials may increase, so that this company could not afford to make a contract for \$21 a year. But under this contract they are already bound to that price, so no such question could arise. I say, as my friend from Roxbury, Coun. Coulthurst, has said, that this is a practical matter. It is a matter in which we should use common sense. We are the trustees of the City of Boston. We are standing here representing the city treasury, and it is our duty to do the best we can for the taxpayers of Boston. Their interests should be our first thought. It is not a question of what some other people may like or may not like. The question is, What is best for the taxpayers to-day, five years from now, ten years from now? That is the question that confronts the City Council. Therefore, I say the city is to be congratulated that, after four years of inaction—due to no fault of the Council, no blame attaching to any member of the Council—there is an opportunity to do something. We are ready at any time to put in force a plan which would, if adopted four years ago, have resulted in bringing us where we are to-day, getting a price of \$21 per lamp per year. Under present conditions, the gas company is the only one that we look to. We have nothing to do with the Rising Sun Street Lighting Company. We do not know the Rising Sun Company here. That company is all through, as far as the City of Boston is concerned. We are dealing with the Boston Consolidated Gas Company, a Massachusetts corporation, a responsible concern, a concern to which we can look to see that it carries out its contract. If it does not carry out its contract, the courts are open to us. But we need have no fear on that score. This contract has been passed on by the Corporation Counsel, the Law Department, and we can very well leave it there. The rights of the city will be respected and enforced if the company attempts to violate or evade the terms of the contract. Therefore—and I will not go into this again, because it has been covered by the gentlemen from Roxbury, Coun. Coulthurst,—we are going to release \$300,000 that has been tied up for four years. That is something. \$300,000 has been tied up for four years this very month. That money is going to be released and we are going to start in with a saving for the city of at least \$30,000 per year. I believe this contract is a just contract, and no contract is a just contract unless it is good for both sides.

Coun. ATTRIDGE—Mr. President, the Finance Commission four years ago did make certain recommendations to the City Council. The Finance Commission, under date of May 11, 1914, also made some recommendations to the City Council. It recommended that the city purchase and install, in such parts of the city as are not covered by the electric light service, inverted mantle lamps, and in connection therewith automatic lighting devices. In the same report Mr. Emerson, the engineer of the Finance Commission and former Superintendent of Streets, said that with automatic devices, the city owning its own lamps, the city could light the streets, not for \$21 a year, but for \$15.55 per year; that in the course of ten years \$245,000 would be saved to the City of Boston. Furthermore, he said that the city would have better light, that the city would own its own lamps at the end of that time, and that the city would be free from any entanglements. The men who light the lamps made a record of

the number of globes used, the number of mantles used, the number of repairs made, and they said that \$1.51 would cover the cost of repairs per lamp per year; although the Chamber of Commerce, in its communication under date of April 17, 1914, figured that it would cost \$3.88 per lamp per year for repairs. But the men who light the lamps and who know how many mantles are used figured the cost and set down the amount at \$1.51 per lamp per year. On repairs and maintenance alone in ten years the city would save in ten years \$227,000. I am not going to-day to impugn the motives of any man who votes to approve or disapprove of these contracts. We are elected by the people of the city as members of the City Council. We are here to do our duty as we see it, as our consciences dictate, taking such action as in our opinion is for the best interest of the city as a whole. Of course, we cannot all agree always, but it is my humble opinion that the city would be in a better position five years from to-day or ten years to-day if it owned the entire lamp instead of owning part of it, as it does to-day and has done for twenty odd years.

Coun. COLLINS—Mr. President, I think everybody must agree that when a contract is made both parties are bound by the terms of that contract. The first and all-important consideration here is, as the gentleman on the other side has stated, What is for the best interests of the taxpayers? I say unqualifiedly that it is for the best interests of the taxpayers not to tie the City of Boston up for a period of ten years. In the second place, in answer to the suggestion of the gentleman from Roxbury, Coun. Coulthurst, that we have been paying \$24.05 per lamp per year up to date, I want to say that this question was about reaching its head a few weeks ago. We suggested to Mr. Wrightington of the gas company that we did not favor a ten-year contract, that we wanted a five-year contract. With the Mayor of the City of Boston on record as against another extension of the Rising Sun Company's contract, the time was opportune to get a proper contract for five years at the low rate of \$21. The fact that this proposed contract carries a rate of \$21 per lamp per year does not tell the whole story. The question is, Are we getting the 60 candle power under that \$21 rate? It has been contended, and has not been refuted, that the candle powers of these upright lamps range from 38 to 40. If that is to be the average, is it fair to say that \$21 per lamp per year is a low price? Is it not high? It seems to me that it may very well be considered a high price for the city to pay. Again, I have not heard anybody stand up here and justify the arbitration clause, which provides that if there is a saving of a dollar per lamp per year, the city shall not receive a cent. It is all right to say that the contract, to be a fair one, should be a just one; but I want to say that the City of Boston is bound by the terms of this contract, not by the spirit, that the court will hold us to the terms of the contract. I merely reiterate what I said awhile ago, that this is not, to my mind, a proper settlement of the matter. If the thing is settled after four years of strife, it ought to be settled right. In my opinion this is a surrender.

President McDONALD—The question comes on approval by the City Council of the two contracts dated March 19, 1914, made by the Commissioner of Public Works and the Boston Consolidated Gas Company, submitted to the City Council on March 23, 1914, and upon which a public hearing of which seven days' notice was given in the *City Record*, was held by the City Council on April 22, 1914. The Clerk will call the roll.

The contracts were approved by roll call, yeas 7, nays 2, Coun. ATTRIDGE and COLLINS voting nay.

Later in the session Coun. COULTHURST said: Mr. President, I want to make a motion that we accept the proposition contained in the agreement submitted to us to-day and placed on file, formally signed by the Boston Consolidated Gas Company, by Mr. Richards, president.

Coun. COULTHURST'S motion to accept the proposition referred to was carried.

WIRE FENCE, CAROLINA AVENUE.

Coun. COULTHURST offered an order—That the Park and Recreation Board, through his Honor the Mayor, be requested to erect a wire fence between the premises owned by Mrs. Mary Teague on Carolina avenue, Jamaica Plain, and the Carolina Avenue Playground owned by the City of Boston, and to erect a similar wire fence along Carolina avenue on the border of said playground. Passed.

SIDEWALK ORDER.

Coun. COULTHURST offered an order—That the Commissioner of Public Works make a sidewalk along both sides of Burnett street, Ward 23, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of gravel with granite edgestones, under the provisions of chapter 437 of the Acts of 1893. Passed.

ACCEPTANCE OF ST. WILLIAM STREET.

Coun. COLLINS offered an order—That the Street Commissioners be requested to accept and lay out St. William street as a public way. Passed.

GENERAL RECONSIDERATION.

Coun. BALLANTYNE moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned, on motion of Coun. BALLANTYNE, at 5.30 p. m., to meet on Monday, June 22, at three o'clock p. m.

Monday, June 15, 1914.

Special meeting of the City Council, held in the Council Chamber, City Hall, at one o'clock p. m., President McDONALD in the chair. Absent—Coun. Kenny.

The Clerk read the call for the meeting, as follows:

City of Boston,
Office of the Mayor, June 12, 1914.

To the City Council:

You are hereby requested to assemble in the Council Chamber, City Hall, on Monday, June 15, 1914, at one o'clock p. m., for the purpose of taking action on pending loan order for four hundred thousand dollars (\$400,000) for the making of highways and of transacting such other business as may be submitted to your honorable body.

Respectfully,

JAMES M. CURLEY, Mayor.

Placed on file.

PETITIONS REFERRED.

Claims.

John Burke, for compensation for damage to building at 5341 Washington street, Ward 23.

CONSTABLE'S BOND.

The City Treasurer, after having duly approved of the same, submitted the constable's bond of James H. Waugh.

Approved by the City Council.

STORAGE OF NAPHTHA.

Notice was received from J. T. Reed & Co. of storage of naphtha at rear Hancock square, Ward 4, and of intention to use the same premises for said purpose for the ensuing year.

Placed on file.

ELECTRIC LIGHTING CONTRACT.

The following was received:

City of Boston,
Law Department, June 13, 1914.

Hon. James Donovan,

City Clerk:

Dear Sir,—I send herewith for transmission to the City Council copy of the proposed contract with the Edison Electric Illuminating Company redrafted according to the instructions of the City Council so as to put the various provisions in logical order and revised as to the arbitration clause, also at the request of the City Council, so as to bring said clause in conformity with the recommendations of the Finance Commission.

The first paragraph of the arbitration clause as revised is not in strict conformity with the Finance Commission's suggestions, but I have taken the liberty to make said first paragraph conform to the suggestions of the City Council made at the recent conference at which I was present, the purpose being to have the price named in the proposed contract investigated rather than the price of the existing contract. This draft has been examined by counsel for the Edison Electric Illuminating Company and he has conferred with the president of that company upon the subject. The counsel for the company has informed me that the president will not agree to the arbitration clause as redrafted, as he insists that the proposed price is a fair one and that the city under the proposed contract has ample power to secure the benefit of any reductions which may be made in the cost of furnishing the service.

Yours very truly,

JOHN A. SULLIVAN,
Corporation Counsel.

ELECTRIC LIGHTING CONTRACT.

The City of Boston, through its duly authorized representative, hereby applies to the Edison Electric Illuminating Company of Boston for all its Electric Street Lighting Service, to be rendered by said Company pursuant hereto and subject to the Street Lighting Terms and Conditions, printed herewith, all things to be furnished or done to the reasonable satisfaction of the Commissioner of Public Works.

Location of Lamps.

As now installed in the City of Boston, or as hereafter ordered in by the proper authority.

Description of District Supplied.

All parts of the City of Boston except Charlestown, and including Charlestown, if and when said Company shall, during the continuance of this agreement, purchase the electric distributing system located therein, at which time the public lamps then installed in said Charlestown shall be

added to the number of lamps then installed under this agreement and shall come under the operation of this agreement.

Description of Service.

40 candle power Inc. lamp; 60 candle power Inc. lamp; 80 candle power Inc. lamp; 100 candle power Inc. lamp; 200 candle power Inc. lamp; 320 candle power Inc. lamp; 400 candle power Inc. lamp; 425 watt A. C. Arc lamp; 800 candle power Magnetite 500 watt D. C. Arc lamp; 1,600 candle power Thoran 500 watt D. C. Arc lamp.

And said Municipality agrees to be bound by the Street Lighting Terms and Conditions of the Company, printed herewith, and to pay the prices called for in the Company's Schedule E, printed herewith, until March 31, 1924, and thereafter until one year after written notice by either party to the other of its election to terminate this agreement, which notice may be given at any time after the beginning of the one-year period next preceding the expiration of the original period above fixed.

This agreement shall take effect as of April 1, 1914, and is subject to appropriations for street lighting.

This agreement is in substitution for and in place of all existing agreements for street lighting between the parties.

CITY OF BOSTON,

By

(Signed) L. K. ROURKE,

Commissioner of Public Works.

March 18, 1914.

The foregoing application is hereby accepted upon the terms and for the period above specified.

THE EDISON ELECTRIC ILLUMINATING COMPANY
OF BOSTON.

By CHARLES L. EDGAR,

President.

March 18, 1914.

Street Lighting Rates.—Schedule E.

Electricity for street lighting use will be sold to Municipalities under the Street Lighting Terms and Conditions, printed herewith, in accordance with the following table:

DESCRIPTION OF LAMP.	Fixed costs per lamp per year.	Running costs per lamp hour.
40 candle power Inc. lamp..	\$10.80	2½ cent
60 candle power Inc. lamp..	12.00	3 cent
80 candle power Inc. lamp..	14.00	4 cent
100 candle power Inc. lamp..	18.00	5 cent
200 candle power Inc. lamp..	25.00	1 cent
320 candle power Inc. lamp..	36.00	1½ cents
400 candle power Inc. lamp..	42.00	1½ cents
425 watt A. C. Arc lamp....	36.00	1½ cents
800 candle power Magnetite 500 watt D. C. Arc lamp..	36.00	1½ cents
1,600 candle power Thoran 500 watt D. C. Arc lamp..	42.00	3½ cents

All readings of candle power and watts to be average and not individual.

First Deduction.—A rate of 1c. per hour per incandescent lamp and 5c. per hour per arc lamp will be allowed for all outages in any month, provided written notice of same is received by the Company on or before the 5th of the succeeding month.

Second Deduction.—When agreements are made for periods longer than one year, a discount of one per cent per year will be allowed for each year up to ten.

Street Lighting Terms and Conditions.

The foregoing Agreement is subject to the following Terms and Conditions:

1. The lamps, poles, wires, fixtures and other apparatus, appliances and materials necessary for the performance of this Agreement, except posts for incandescent lamps supplied from underground circuits, shall be furnished by the Company and kept in good order and condition by it. The lamps shall give a clear and steady light. The Company shall furnish electrodes (carbons) for and trim all arc lamps, and will renew incandescent lamps whenever they become dim, broken or burned out.

2. Payments hereunder shall be made monthly on the regular pay day of the Municipality.

3. The Company will give the Municipality the benefit of any lower prices for service such as that herein provided for, or of any better quality or efficiency of service, which may at any time during the continuance of this Agreement be enjoyed by any Municipality served by it, such relative prices, quality and efficiency to be determined by taking into consideration all the circumstances and conditions in both cases.

At any time within three months of the date of the execution of this contract the Mayor may

request an investigation of the fairness of the prices named herein, and upon the receipt of such request, the Company shall permit such investigation to be made. If, as a result of the investigation, it appears that a fair price for the service to be performed hereunder is less than the price named in the contract, the fair price as thus determined shall be considered to be the price for the service from the beginning of the contract, and such price as thus established shall be the basis of any further investigation as to prices which shall be made thereafter.

During the term of this contract there shall be three other investigations, the first to be begun upon the first day of the second year of the contract, the second upon the first day of the fifth year and the third upon the first day of the eighth year thereof.

In each of the three investigations subsequent to the first, the question shall be whether the cost to the Company, including depreciation and interest on investment, of furnishing the service to the City called for hereby is less than the cost as determined by the investigation immediately preceding, and if so, how much. If in any of said three subsequent investigations it shall be shown that the cost to the Company, including depreciation and interest on investment, of furnishing the service has been reduced, the Company shall give to the City the benefit of two-thirds of such reduction, and the City shall be entitled to the benefits of such reduction from the first day of the second, fifth or eighth years as the case may be; but the City shall continue to receive the benefit of such reductions only so long as, and to the extent that, such decreased cost shall continue.

In any of the investigations made as herein provided, the investigators may take into consideration the cost to the Company of any or all other parts of its supply and any other pertinent facts and conditions which they may deem important.

The investigations shall be made by the then head professors of applied electricity, by whatever titles known, of the Massachusetts Institute of Technology and the Scientific Department of Harvard University, if able and willing to serve. In case either is unable or unwilling to serve, his substitute shall be named by the then President of said Institute or University, as the case may be. In case of any disagreement between said Investigators, they may call in an Arbitrator of their own selection. The decision of said Investigators, or of either of them and said Arbitrator, shall be binding upon the City and the Company until the Supreme Court of Massachusetts has decided that the constitutional rights of either are thereby infringed.

4. The Company will indemnify and save harmless the Municipality against any and all claims for damages, loss, cost and expense on account of injury to persons or property arising in any way out of the erection, construction, maintenance or use of any of the lamps, poles, wires, fixtures and other apparatus and appliances furnished by the Company hereunder, except where such injury is the result, in whole or in part, of the fault or neglect of the Municipality, its officers, servants or agents, while acting as agents of the Municipality; and against any and all claims for damages by reason of any alleged infringement of patent rights in the use of lamps, poles, wires, fixtures, machinery and other apparatus, appliances and material supplied by the Company hereunder; and will, at its own expense, assume the defence of all actions at law or in equity which may be brought against the Municipality upon any claims as aforesaid, and also against all decrees, judgments and orders of any court based thereon.

5. The Municipality may, at any time, by written notice, require the Company to employ a competent and disinterested person connected with either the Massachusetts Institute of Technology or the scientific department of Harvard University to examine and test the electrical currents and apparatus employed in furnishing the lighting service herein provided for, to ascertain whether or not the Company is complying with the terms of this Agreement, and for such purpose such person may have access at all reasonable times to the lamps, poles, wires, fixtures and other apparatus of the Company used in carrying out this Agreement.

In case two tests of any circuit or lamp shall be made, separated by an interval of not less than one hour, during any one night, and both of said tests shall prove that the Company is not furnishing the electrical energy or light required by this Agreement, then such circuit or such lamp shall be deemed to be outages as provided herein. If such tests show that the Company is not furnishing the electrical energy or light required by this Agreement, the Company shall pay the expense of the examination and test herein provided for; otherwise the Municipality shall pay such expense.

6. Such additional lamps shall be installed, without charge to the Municipality, as may be designated by the Municipality at any time before notice is given to terminate this Agreement, provided the Company shall not be required to extend its lines more than four hundred feet overhead, or in localities served by underground construction more than one hundred feet underground, to reach any lamp; but the Municipality may require extension of lines for additional lamps at any time during the term of this Agreement, by paying the cost of so much of the extension as exceeds that herein required to be made by the Company, such payments to apply as credits on future bills for lighting on such additional lines. Whenever re-

quested by the Municipality, the Company will change the location of any lamps at the expense of the Municipality, not exceeding, however, five dollars for each arc lamp and three dollars for each incandescent lamp so moved, unless new lines or poles are required.

7. The discontinuance of any street or highway shall have the effect of discontinuing whatever lamps may have been located on such street or way. The Municipality may at any time discontinue a lamp or lamps for reasonable cause, but the number of lamps of any type in service at any time shall not, except as hereinbelow provided, be less than ninety-five per cent of the maximum number of such lamps in service under this Agreement at any time prior thereto. In case of such discontinuance the installation of any lamps at other locations shall be charged for the same as changes of locations under Article 6 hereof until the original number installed shall again have been reached.

Lamps of any type may be substituted for lamps of any other type if the Municipality pays the total expense of making the change and the total amount of payments by the Municipality hereunder at the then standard rates is not thereby diminished, except that, when standard incandescent lamps of large candle power have been so improved that they can, without increase in watts or in maintenance cost to the Company, be substituted for Magnetite lamps, the Company will, upon demand of the Municipality, and without charge for making the change therefor, substitute such an incandescent lamp for any Magnetite lamp, at the price provided herein for Magnetite lamps.

The contractor shall give preference in employment, first, to citizens of Massachusetts, second, to other citizens of the United States; and shall allow all employees on said work to lodge, board and trade where they choose and shall not obstruct any other person in doing work for the city; and shall conform to all the labor laws of the Commonwealth; and no laborer, workman or mechanic working within this Commonwealth in the employ of the contractor, subcontractor or other person doing or contracting to do the whole or a part of the work contemplated by the contractor shall be requested or required to work more than eight hours in any one calendar day. The contract is made subject to all the laws of the Commonwealth, and if any clause thereof does not conform to such law such clause shall be void and such law operative in lieu thereof.

8. Should the Municipality at any time find that the Company is not complying fully with the terms and requirements of this Agreement, the Municipality shall immediately notify the Company of such fact, and the Company shall at once remedy the fault, but failure to give such notice shall not impair any obligation of the Company. But the Company shall not be responsible for any failure to supply electricity if such failure is without default or neglect on its part.

9. If the Municipality shall at any time during the continuance of this Agreement be required to purchase the whole or any part of the plant of the Company located within the limits of said Municipality, under the present law, or any amendment thereof, the Municipality shall not be held for the unexpired term of this Agreement, nor shall this Agreement or the unexpired term thereof be in any way considered as an element of value in such purchase; provided, however, that in case of such purchase the Municipality shall not be entitled to the full discount provided for in this Agreement, unless it shall have been in operation for the full period thereof. If the Agreement shall not have been in operation for the full period thereof, because of such purchase, the accounts between the Municipality and the Company shall be adjusted so as to make the total net payments by the Municipality to the Company what they would have been if the Agreement had been made for the period during which it was actually in operation.

Referred to the Executive Committee.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for licenses to be granted to one newsboy and five vendors—recommending that licenses be granted.

Reports accepted; licenses granted on the usual conditions.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted a report on petition of Edison Electric Illuminating Company of Boston (referred June 8) for license to run an automobile omnibus between 39 Boylston street and 1165 Massachusetts avenue—that the petitioner have leave to withdraw, at their own request.

Report accepted.

SOLDIERS' RELIEF.

Coun. WATSON, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of June.

Report accepted; order passed.

MONEY FOR HIGHWAYS, MAKING OF.

President McDONALD called up unfinished business, No. 1, viz.:

Ordered, That the sum of four hundred thousand dollars (\$400,000) be and hereby is appropriated for Highways, Making of, under the provisions of chapter 393 of the Acts of 1906, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

The order was given its final reading and passed, yeas 8, nays 0.

CONVENIENCE STATION, ROXBURY CROSSING.

President McDONALD called up unfinished business, No. 2, viz.:

Ordered, That the sum of \$10,100 be and hereby is appropriated, to be expended under the direction of the Board of Health, for Convenience Station, Roxbury Crossing, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, bonds or certificates of indebtedness of the city to said amount.

The order was given its final reading and passed, yeas 8, nays 0.

SALARY OF PROBATION OFFICER.

Coun. COLLINS called up unfinished business, No. 3, viz.:

Ordered, That the salary of Arthur N. Towle, probation officer for wayward and delinquent children at Municipal Court of West Roxbury District, appointed by justice of said court, at a salary of \$1,300 per annum, to take effect May 25, 1914, be and the same is hereby approved, said amount to be charged to the appropriation for Municipal Court, West Roxbury.

The order was passed.

PAYMENT OF SOLDIERS' RELIEF.

President McDONALD offered an order—That chapter 212 of the Acts of 1914, entitled "An Act to Authorize the City of Boston to Pay Soldiers' Relief to the Widow of Russell M. Zuver," be and the same is hereby accepted.

Referred to the Committee on Soldiers' Relief.

SIDEWALK, SEAVER STREET.

Coun. COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along 346 Seaver street, corner Normandy street, Ward 20, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of gravel with granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

Passed.

GENERAL RECONSIDERATION.

Coun. BALLANTYNE moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail.

Lost.

RECESS TAKEN.

The Council voted, on motion of Coun. WATSON, at 4.15 p. m., to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 4.35 p. m.

COAL POCKET, HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, June 15, 1914.

To the City Council:

Your attention is called to the fact that the Hospital Department is spending \$9,000 per annum for the storage of coal, made necessary through the destruction of the coal pocket more than a year ago by fire. Half of this sum could be saved and the business of the department expedited by the construction of a coal pocket. I respectfully recommend, therefore, the transfer of eighty-five thousand dollars (\$85,000) for this purpose from the appropriation for Street Lighting Equipment.

At the present time at the City Hospital a wooden building is located in which inflammable material is stored, such, for example, as gasoline, ether, paints, etc., which, in my opinion, should be stored in a fireproof structure under the ground, as a means of protecting the property and the lives of the persons inhabiting the buildings. I respectfully recommend the transfer from the appropriation for Street Lighting Equipment of

five thousand dollars (\$5,000) for the Hospital Department for the construction of fireproof storage building.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfers:

From the appropriation for Street Lighting Equipment to the appropriation for Hospital Department, Coal Pocket.....	\$85,000 00
From the appropriation for Street Lighting Equipment to the appropriation for Hospital Department, Fireproof Storage Building.....	5,000 00
	\$90,000 00

Referred to the Executive Committee.

MONEY FOR INFIRMARY DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, June 15, 1914.

To the City Council:
The conditions at the Infirmary Department at Long Island are such that in my opinion an appropriation sufficient to provide a home for nurses and an additional wing for men and for women is warranted in the sum of two hundred thousand dollars for this purpose and a further appropriation of sixty-four hundred eleven dollars and forty-eight cents for a sea wall for the protection of such property as there located.

I respectfully recommend, therefore, the adoption of the accompanying order, the required money to be transferred from the balance of appropriation for Street Lighting Equipment.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$206,411.48 from the appropriation for Street Lighting Equipment to the appropriation for Boston Infirmary Department, Long Island Improvements.

Referred to the Executive Committee.

Adjourned at 4.37 o'clock p. m., on motion of Coun. BALLANTYNE, to meet on Monday, June 22, at three o'clock p. m.

EXAMINATIONS FOR LIGHTHOUSE SERVICE.

United States civil service examinations for the following mechanical trades and non-educational positions in the Lighthouse Service, Engineer Department at Large, and the Quartermaster Corps, U. S. A., and the various branches of the government service in Boston, Mass., and vicinity, will be held on July 1, 1914.

Positions.—Assistant marine steam engineer (including positions on lighthouse tenders), carpenter, marine fireman, mate (including positions on lighthouse tenders), oiler, stationary fireman, mason* (qualified as bricklayer).

Age limits, Lighthouse Service: eighteen years or over, except for positions requiring license from United States Steamboat Inspection Service, for which the minimum age is twenty-one. Maximum age for officer of tender, forty-five years. Persons honorably discharged from the United States Army, Navy or Marine Corps and persons already in the Lighthouse Service in classified positions will be examined without regard to their age.

No educational tests will be given and applicants will therefore not be called upon to appear at any place to be examined. They will be rated according to their physical condition and experience as indicated in their applications, and the medical certificate and vouchers furnished.

For information, apply to Secretary, First District, United States Civil Service Commission, 141 Post Office Building, Boston.

* Applications for this position should be filed with T. H. Pillsbury, Secretary, Board of Examiners, United States Engineer Office, 1017 Barristers Hall, Boston, Mass.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 37, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, June 29, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, 100 Summer street.

PUBLIC HEARING.

The Directors of the Port will give a public hearing upon the application of Louis K. Rourke, Commissioner of Public Works, for license to build and maintain a fire service pumping station in Fort Point channel, at the office of the directors, 40 Central street, upon Thursday, July 9, at 9.15 a. m.

FOURTH OF JULY OBSERVANCE.

Mr. John F. Dever, Director of Public Celebrations, announces the following program for the City of Boston Celebration of Independence Day, Saturday, July 4, 1914:

PATRIOTIC AND HISTORIC EVENTS.

9.00 a. m. Flag raising exercises on Boston Common with military ceremonies.

10.00 a. m. Reading of the Declaration of Independence from the balcony of the Old State House, by Carlo F. Maraldi, in Continental costume.

10.30 a. m. Oration exercises in Faneuil Hall, Mayor James M. Curley presiding. Orator will be Rev. James A. Supple. Chaplain will be Rabbi M. M. Eichler.

Patriotic exercises by children will be arranged in connection with games and sports of twenty or more playgrounds and parks, in connection with the district celebrations which will be made a prominent feature of this year's celebration.

Ringling of bells and playing of chimes morning, noon and night.

GENERAL FEATURES.

10.00 a. m.—5.30 p. m. Children's festival at Franklin Park.

This will include an outing for children from the South End and other parts of the city during the forenoon. In the afternoon there will be a program of dancing, music and games, the main portion of the program being provided by Mrs. William S. Butler, consisting of some of the special features from her annual May Festival, under the direction of Mrs. Lilla Viles Wyman.

10.00 a. m. Distribution of flowers and flags to children under the direction of the Floral Emblem Society.

Evening. Bell pealing from Old North Church tower.

EVENING BAND CONCERTS AND FIREWORKS.

Grand display of fireworks and band concert on Boston Common in the evening in addition to other displays and concerts in several districts of the city. There will be no international entertainment at the Frog Pond as last year.

At Jamaica Pond the local committee is making special efforts for a display that will approach those which were formerly given with great success at this place, including an illumination of the entire pond as well as fireworks and band concert. Some of the money will be contributed by citizens of the district to supplement the allowance by the city.

Other fireworks displays at Marine Park; Franklin Field; Washington Street Playground, Roslindale; Hyde Park and Brighton.

Evening band concerts as mentioned and also at Brighton; East Boston; Hyde Park; North End; Washington Street Playground, Roslindale; Roxbury; Marine Park; South End and Neponset.

ATHLETICS AND SPORTS.

9.00 a. m. Gaelic football on Boston Common.

9.00 a. m. Hurling at Commonwealth Park, South Boston.

9.30 a. m. Rowing regatta on Charles River Basin.

10.00 a. m. Veteran Firemen's playout on Boston Common, at the Frog Pond.

10.30 a. m. City Athletic meet on Boston Common.

11.00 a. m. Sailing regatta off City Point.

4.00 p. m. City swimming races for boys and girls on Charles River Basin.

DISTRICT CELEBRATIONS.

In charge of local committees, the citizens contributing in some districts to supplement city appropriations. The district programs are now being made up by the local committees, whose chairman and membership so far as arranged is as follows:

Brighton and Allston.—Francis B. McKinney.
East Boston.—Thomas F. Rice.
Forest Hills District.—John B. Hoar.
Hyde Park.—D. W. Murray, W. L. Gilman.
Jamaica Plain.—Theodore Barnes and committee of ten.
North End.—Joseph Santosuosso.
Neponset.—Matthew Cummings.
Roslindale District.—George W. Carruth.
Roxbury.—Patrick A. Kearns.
South Boston.—Dr. H. J. Keenan.
South End.—Mrs. Margaret A. Gallagher.
West End.—W. H. Cuddy.

The Independence Day Committee of the Citizen's Public Celebration Association, which will assist the Director of Public Celebrations, is as follows:

Charles L. Burrill, William A. Boudrot, Frank Chouteau Brown, Mrs. W. S. Butler, William H. Cuddy, George W. Carruth, Mrs. Margaret A. Gallagher, Patrick A. Kearns, John A. Kiggen, Daniel A. MacKay, E. B. Mero (Secretary), Alexander I. Peckham, James H. Phelan, Addison L. Winship.

BIDS FOR NAVAL SUPPLIES.

The present activity in Army and Navy circles has resulted in the opening of bids for many supplies. The attention of Boston merchants is particularly called to these bids. The Navy Department invites proposals for furnishing the following supplies:

Bids will be received until June 30 for boiler compound, schedule 6893; and marine glue, schedule 6892. Tenders are invited until July 7 for the following: Schedule 6895, chemicals and laboratory supplies; schedule 6891, pig iron; schedule 6890, lenses, band and circular saws; schedule 6887, chlorate crystals, potash; schedule 6894, petroleum spirits.

Bids will be received until July 14 for fireroom hoist engines, schedule 6881, and lathe, schedule 6880.

Boston firms desiring to bid should make immediate application to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., and give the schedule number of all bids for information desired, as printed above.

BIDS FOR GOVERNMENT SUPPLIES.

The officials of the Bureau of Light-houses, Department of Commerce, are now ready to receive sealed proposals for supplies for the fiscal year ending June 30, 1915.

The supplies consist of the following: Alcohol, ammonia, coal, blocks, bon ami, brass rod, brooms, brushes, buff skins, candles, tin cans, cement, asbestos cement, charcoal, chimneys, chinaware, clocks, boat compasses, Russian crash, dry goods, khaki duck, engineer stores, excelsior, glycerine, grease, graphite, lubricating

compound, hardware, firehose, rubber hose, lamps, red lead, white lead, pump leather and rigging, machine wipers, matches, cocoa mats, sheet metal, linseed oil, engine oils, packing, paints and oils, mixed paints, toilet paper, polishing paste, polishing powder, sal soda, shellac, ship chandlery, soap, scouring soap, steam fittings, time markets, turpentine, varnishes, waste, zinc slabs, white zinc.

Blank forms for proposals may be secured from the Lighthouse Inspector, Tompkinsville, New York. Bids close July 10.

Sealed proposals will be received at the office of the Chief Signal Officer, War Department, Washington, D. C., until July 6 for furnishing the Signal Corps with 500 field glasses, in accordance with specifications which can be obtained from the office of the Chief Signal Officer.

SHOE AND LEATHER EXPOSITION.

Mayor Curley is greatly interested in the success of the Seventh National Shoe and Leather Fair to be held at Mechanics Building, in this city, July 8-15, inclusive.

Interest in the fair is not only country-wide, but the Hon. Thomas Sainmons, United States Consul at Shanghai, China, writes as follows from his far-away post:

"The *China Press*, an American newspaper published in Shanghai, comments on the Seventh National Shoe and Leather Fair to be held at Boston, Mass., July 8 to 15, 1914, as follows:

"This event is the largest of its kind in the shoe industry in the world and it is suggested that representatives of foreign firms will find it a fine opportunity to renew trade friendships and open up new business connections."

"It may be added that recent investigations as made in China by the representatives of American shoemaking machinery, as well as American shoe manufacturers, have resulted in the decision to establish retail stores at Shanghai, Hankow and Tientsin for the purpose of handling American-made shoes exclusively."

PROTESTS OF CUSTOMS ENTRIES.

The attention of Boston merchants is called to the new rules promulgated by Hon. William P. Malburn, Assistant Secretary of the Treasury Department, relative to fees, to accompany protests against rulings of the Collector of Customs.

If the liquidation of only one entry be objected to, but one fee will be collected, even though the protest makes several claims or raises several issues in relation to such liquidation.

If the same claim or objection be raised with respect to each of several entries, only one fee will be required.

If a protest relates to a number of entries and raises different issues with respect to each of two or more entries, each separate issue raised on different entries will constitute a separate protest and a fee will be charged for each issue so raised.

If a number of papers be joined or attached together, each addressed to the collector and signed by the owner, importer, consignee or agent, and each is in the usual form of a protest, each such paper will constitute a protest and a separate fee will be charged for each, notwithstanding they may be filed at the same time.

If, after a protest has been filed, another protest be filed by the same or another person, a fee will be charged on each of such protests, whether stating the same or different grounds of objection.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

Bids close Wednesday, July 8, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, June 25, 1914:

ASSESSING DEPARTMENT.

James A. Murray, chauffeur, has been temporarily transferred from the Supply Department to the Assessing Department, at a salary of \$18 the week.

AUDITING DEPARTMENT.

Julien C. Haynes has been designated to act as City Auditor at such times as Auditor J. Alfred Mitchell may be absent during the four weeks beginning Monday, June 22, 1914.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Henry Healey has been appointed to the position of farmer at the hospital, at a salary of \$45 the month.

The following persons have been employed:

August Thurman, choreman, at \$18 a month; Margaret McTigue, nurse, at \$40 a month; Florence Davison, attendant, at \$25 a month; Nellie Roche, laundress, at \$20 a month; Dennis Reagan, choreman,

at \$18 a month; Mary Abbitt, cook, at \$18 a month; Ida Beach, maid, at \$18 a month; Catherine Gudrow, maid, at \$18 a month; Julia O'Brien, maid, at \$18 a month; Catherine Arnold, maid, at \$18 a month; Mary O'Brien, maid, at \$18 a month.

FINANCE COMMISSION.

The service of Miss Elizabeth L. Matross ceased on Monday, June 22, 1914.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

To Fill Vacancies.

Permanent.—James Curley, house porter, \$25 per month; William J. Mahoney, porter, \$20 per month; Thomas L. Scott, dispensary diener, \$6 per week; Albert L. Higgins, orderly, \$25 per month; Thomas F. Nolan, orderly, \$25 per month; Edward F. Lynch, orderly, \$25 per month; Howard A. Drew, out-patient orderly, re-employed, \$35 per month; Julia Craig, assistant table girl, \$14 per month; Annie Nevins, scrubber, \$5 per week; Lena Galvin, scrubber, \$5 per week; Ellen Ahern, Vose House chambermaid, \$15 per month; Sarah Healey, kitchen woman, \$24 per month; Alma Caraman, telephone operator, re-employed, \$11 per week and \$1 extra for Sunday work; Antonia Conrad, laundress, \$16 per month; Emily Conrad, laundress, \$16 per month; Rose Lyons, ward helper, \$5 per week; Christina Thompson, ward attendant, re-employed, \$5 per week; Mary Donnelly, ward maid, \$15 per month; John Kaj, house cleaner, re-employed, \$1 per day; Henry E. Hirst, orderly, \$25 per month.

Temporary.—Neil Sweeney, supply laundry porter, \$30 per month; John Murphy, coal passer, \$14 per week; Michael Morrison, scrubber, \$0.15 per hour; Mollie Going, scrubber, \$0.15 per hour.

The following employees have had increase of wages:

Katherine Quigley, laundress, \$24 to \$26 per month; Celia Coholan, ward maid at \$15 per month to ward attendant at \$5 per week.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Michael F. Doyle, Jr., has been promoted from the position of assistant drawtender to first assistant drawtender, to fill the vacancy on Northern Avenue Bridge caused by the transfer of Robert E. Burrill to Dover Street Bridge, due to a vacancy created by the resignation of James F. Cooper, Jr.

PUBLIC WORKS DEPARTMENT (Ferry Service).

The salary of Peter F. Costello, employed as regular extra gateman in the service, has been increased from \$2.50 to \$3.25 the day, to take effect June 19, 1914.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

The salary of Thomas M. O'Leary, blacksmith, employed in the service, has been increased from \$2.75 to \$3.75 the day, to take effect June 19, 1914.

PUBLIC WORKS DEPARTMENT (Water Service).

The salary of Thomas Douglass, employed as an inspector in the service, has been increased from \$3.50 the day to \$1,150 the year, to take effect June 19, 1914.

RETIREMENT OF FIREMEN.

Murdock D. McLean, of Engine Company No. 21, has been retired upon half

pay. His name will be placed upon the pension roll at the rate of \$750 the year. Engineer McLean was appointed to the department as call man March 26, 1882; became a permanent man May 18, 1891; was appointed assistant engineer March 12, 1897, and promoted to the position of engineer May 25, 1900. McLean is fifty-nine years of age.

Ladderman Francis McArdle, of Ladder Company 2, has been retired on half pay. His name will be placed on the pension roll at the rate of \$700 the year. Ladderman McArdle is forty-eight years of age and was appointed to the department October 10, 1890. He has been injured several times in the performance of duty as follows: April 28, 1896, left arm severely cut by glass, Box 53; February 24, 1898, left foot crushed by hind wheel of hose wagon passing over it while responding to Box 62, off duty for forty days; June 18, 1914, back strained while working at Box 645.

The opinion of the medical examiner of the department is as follows:

"He is flat-footed, and the injured foot, the left, is weak, swollen and painful, which greatly impairs its usefulness and causes him to limp badly when walking. There are also large knots of varicose veins on the left limb. In my opinion he is unfit for further fire duty."

OVERTIME ALLOWED.

The heads of various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law.

Fire Department.

For the week ending Thursday, June 25, 1914:

Herbert J. Hickey, stenographer, 15 hours, \$5.87.

Hospital Department.

For the week ending Thursday, June 25, 1914:

Main Department.—B. J. Sandiford, engineer, 8 hours at \$0.43 $\frac{1}{4}$ per hour, \$3.50; T. J. McNally, engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; J. Deery, assistant engineer, 8 hours at \$0.43 $\frac{1}{4}$ per hour, \$3.50; W. T. Slater, engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; E. F. Cochran, engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; R. W. Jaeger, engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50.

East Boston Relief Station.—John J. Devine, porter and tender furnace, 8 hours at \$0.33 $\frac{1}{4}$ per hour, \$2.67.

Public Works Department (Bridge Service).

For the week ending Tuesday, June 23, 1914:

Timothy F. Hayes, inspector, 1 day at \$4.75, \$4.75; Timothy Fitzmaurice, inspector, 1 day at \$4.75, \$4.75; John Bowler, stableman, 1 day at \$2.75, \$2.75; Jeremiah Brosnahan, stableman, 1 day at \$2.75, \$2.75; Hugh McLaughlin, stableman, 1 day at \$2.75, \$2.75; Timothy Sullivan, stableman, 1 day at \$2.75, \$2.75; Martin Gill, stableman, 1 day at \$2.75, \$2.75; John Clabby, watchman, 1 day at \$2.50, \$2.50; Patriek J. McLaughlin, watchman, 1 day at \$2.50, \$2.50. Total, \$28.25.

Public Works Department (Ferry Service).

For the week ending Monday, June 22, 1914:

Arthur F. Keefe, gateman, 1 day at \$3.25, \$3.25; Peter F. Costello, regular extra gateman, 1 day at \$2.50, \$2.50. Total, \$5.75.

Public Works Department (Paving Service).

For the week ending Monday, June 22, 1914:

Maurice J. Fitzgerald, stableman, 1 day at \$2.75, \$2.75; Martin Devine, stableman, 1 day at \$2.75, \$2.75; Patrick Devlin, stableman, 1 day at \$2.75, \$2.75; Cornelius McCarthy, teamster, 1 day at \$2.50, \$2.50; Michael Doyle, yardman, 1 day at \$3, \$3; John J. Crowley, stableman, 1 day at \$2.75, \$2.75; Richard F. O'Neil, stableman, 1 day at \$2.75, \$2.75; Michael McClellan, stableman, 1 day at \$2.75, \$2.75; William Love, stableman, 1 day at \$2.50, \$2.50; Charles J. Jacobs, stableman, 1 day at \$2.75, \$2.75; John F. McCormack, stableman, 1 day at \$2.75, \$2.75; Thomas H. Rorke, stableman, 1 day at \$2.75, \$2.75; James McKenney, stableman, 1 day at \$2.75, \$2.75; William McLaughlin, stableman, 1 day at \$2.75, \$2.75; James H. Fitzgerald, stableman, 1 day at \$2.75, \$2.75; William J. Galvin, stableman, 1 day at \$2.75, \$2.75; James Glynn, laborer, 1 day at \$2.50, \$2.50; Patrick Leonard, laborer, 1 day at \$2.50, \$2.50; John R. Leonard, laborer, 1 day at \$2.50, \$2.50; John B. Tighe, watchman, 1 day at \$2.50, \$2.50; Daniel J. Dooling, watchman, 1 day at \$2.50, \$2.50; Timothy B. Lyons, watchman, 1 day at \$2.50, \$2.50; Joseph Ennis, stableman, 1 day at \$2.75, \$2.75; Martin Norton, stableman, 1 day at \$2.75, \$2.75; John H. Flanders, teamster, 1 day at \$2.50, \$2.50; James H. Noonan, watchman, 1 day at \$2.50, \$2.50; Michael Dorsey, watchman, 1 day at \$2.50, \$2.50; Joseph S. Goodnow, stableman, 1 day at \$2.75, \$2.75; William F. Shaughnessey, stableman, 1 day at \$2.75, \$2.75; John T. Kelley, carpenter's helper, 1 day at \$2.50, \$2.50; Michael Stretch, teamster, 1 day at \$2.50, \$2.50; John Moore, teamster, 1 day at \$2.50, \$2.50; Charles J. Hennrikus, watchman, 1 day at \$2.50, \$2.50; Daniel Angelin, stableman, 1 day at \$2.75, \$2.75; Thomas Carroll, stableman, 1 day at \$2.75, \$2.75; John J. Cronin, stableman, 1 day at \$2.75, \$2.75; Michael Dillon, stableman, 1 day at \$2.75, \$2.75; Joseph Baxter, watchman, 1 day at \$2.50, \$2.50; Thomas J. O'Keefe, watchman, 1 day at \$2.50, \$2.50; Hugh Cosgrove, laborer, 1 day at \$2.50, \$2.50; John J. Moore, laborer, 1 day at \$2.50, \$2.50; John McCarthy, laborer, 1 day at \$2.50, \$2.50; Thomas Kelley, laborer, 1 day at \$2.50, \$2.50; Daniel P. Connor, laborer, 1 day at \$2.50, \$2.50; John Donovan, laborer, 1 day at \$2.50, \$2.50; Daniel Spellman, laborer, 1 day at \$2.50, \$2.50; Peter Ball, laborer, 1 day at \$2.50, \$2.50; Patrick D. Murphy, laborer, 1 day at \$2.50, \$2.50; Patrick J. Toomey, laborer, 1 day at \$2.50, \$2.50; Thomas J. Clark, stableman, 1 day at \$2.75, \$2.75; Daniel Hurley, stableman, 1 day at \$2.50, \$2.50; Andrew T. Brown, teamster, 1 day at \$2.50, \$2.50; John Sheehan, teamster, 1 day at \$2.50, \$2.50; Charles F. Caffrey, stableman, 1 day at \$2.75, \$2.75; Thomas Flesk, watchman, 1 day at \$2.50, \$2.50; Henry Minard, watchman, 1 day at \$2.50, \$2.50; John Sweeney, laborer, 1 day at \$2.50, \$2.50; William A. Duffy, laborer, 1 day at \$2.50, \$2.50; Michael Barry, laborer, 1 day at \$2.75, \$2.75; T. Edward Jackson, yardman, 1 day at \$2.75, \$2.75; Bartholomew Dunn, teamster, 1 day at \$2.75, \$2.75; Joseph F. O'Brien, inspector, 1 day at \$3.50, \$3.50; Frank J. Hasson, inspector, 1 day at \$3.50, \$3.50; Edward J. Hayden, inspector, 1 day at \$3.50, \$3.50; William J. Lynch, inspector, 1 day at \$3.50, \$3.50; Daniel F. Murphy, inspector, 1 day at \$3.50, \$3.50; John H. Murphy, inspector, 1 day at \$3.50, \$3.50; Henry J. O'Neil,

inspector, 1 day at \$3.50, \$3.50; Edgar H. Reed, inspector, 1 day at \$3.50, \$3.50; James C. Kevancy, inspector, 1 day at \$3.50, \$3.50; Richard V. Quirk, inspector, 1 day at \$3.50, \$3.50. Total, \$194.50.

Public Works Department (Sanitary Service).

Magee, driver, $\frac{3}{4}$ day at \$2.50, \$0.47; T. Dolan, plumber, $\frac{1}{2}$ day at \$3.50, \$0.88; M. Dinneen, helper, $\frac{1}{2}$ day at \$2.50, \$0.63; D. Rull, plumber, 1 day at \$3.50, \$3.50; J. Callahan, helper, 1 day at \$2.50, \$2.50. Total, \$9.82.

PRIZES COME TO CAMBRIDGE.

The first prize awarded in the competition for city planning by a committee of citizens of Richmond, Cal., has been won by Mr. Arthur C. Comey of Cambridge. The prize is \$5,000.

The second prize of \$1,000 was won by Mr. Philip W. Foster of Cambridge.

The property consists of 350 acres located at the end of the new inner harbor at Richmond. It was necessary for the contestants to consider and solve the problem of docks, shipping facilities, a business district and railroad and water approaches.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending June 25, 1914:

PARK AND RECREATION DEPARTMENT.

Upon June 25 the Mayor approved an award of contract to John McCourt Company for building the retaining walls, stairways and walks at the Rutherford Avenue Playground, Charlestown. Bids for the work, opened June 5, were as follows:

John McCourt Company, \$4,777.50; Martino DeMatteo, \$4,940; William H. Ellis Company, \$5,246.10; Coleman Brothers, \$6,225; D. M. Biggs & Co., \$6,247.50; Beatty Construction Company, \$6,392.75; Hyde Park Construction Company, \$6,510.50; Lawlor Brothers, \$7,907.50; Frank H. Cowin & Co., \$8,205; James J. Brock, \$11,110.50.

PUBLIC BUILDINGS DEPARTMENT.

In consequence of the facts presented by Superintendent of Public Buildings Lynch, relative to the installing of certain wooden commercial furniture in the City Hall Annex building, the Mayor has approved a contract with the Paine Furniture Company for the supply and in the amount of \$2,965.25, a saving to the city of \$1,008.42 upon this contract.

The communication of Superintendent Lynch is as follows:

June 19, 1914.

HON. JAMES M. CURLEY,

Mayor of Boston:

DEAR SIR,—In response to an advertisement appearing in the *City Record* of May 6, 1914, the Public Buildings Department did, on May 21, 1914, publicly open and read proposals for making, erecting and installing certain wooden commercial furniture for the City Hall Annex Building. Only one bid was received, that being from the Doten-Dunton Desk Company in the sum of \$3,973.67.

Being somewhat surprised at not receiving more than one bid, I very naturally made investigations and from facts gleaned I found that the specifications were so drawn that it was practically useless for any other concern to submit a figure. Accordingly, I have been in consultation with the Paine Furniture Company and I have received a figure for providing this furniture from them. While it is not exactly similar to that proposed by the Doten-Dunton Desk Company it will fill the bill to all intents and purposes, in the sum of \$2,965.25, this being a saving of \$1,008.42 to the city.

Considering the foregoing facts and also that the Paine Furniture Company is a Boston concern, I therefore respectfully request that I be allowed to award same, without the usual form of advertising.

Respectfully yours,

RICHARD A. LYNCH,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Upon June 23 the Mayor approved a contract with Thomas F. Broderick for raising and recutting the parapets of the Beacon Street Bridge, over the Boston & Albany Railroad. Bids for the work, opened June 4, were as follows:

Thomas F. Broderick, \$4.50 per linear foot

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon June 26 the Mayor approved a contract with Antony Cefalo for sewerage works in Pinehurst street, between Dudley and Belgrade avenues, West Roxbury. Bids for the work, opened June 15, were as follows:

Antony Cefalo, \$2,594.45; M. De Sisto, \$2,663.05; William L. Dolan, \$2,679.30; Anthony Baruffaldi, \$2,693.56; Martino De Matteo, \$2,792.20; John Guarino, \$2,958.43; D. E. Lynch, \$3,179.19; Charles J. Jacobs Company, \$3,317.35; M. H. Kelley, \$3,329.16; John McCourt Company, \$3,585.40.

Upon June 26 the Mayor approved a contract with M. De Sisto for sewerage works in Riverview road, between Brooks street and Ranelegh road, Brighton. Bids for the work, opened June 12, were as follows:

M. De Sisto, \$1,206.52; Antony Cefalo, \$1,240.25; Charles J. Jacobs Company, \$1,256.50; McCarthy & Walsh, \$1,343.25; M. H. Kelley, \$1,387.10; Daniel E. Lynch, \$1,407.50; A. J. & G. H. McMurtry, \$1,436.25; George J. Regan, \$1,808.50.

SCHOOLHOUSE DEPARTMENT.

Upon June 23 the Mayor approved a contract with Peter F. Lamont for fire-proofing in the basement of the Plummer School, Belmont square, East Boston. Bids for the work, opened June 5, were as follows:

Peter F. Lamont, \$1,275; M. S. Kelliher, \$1,299; Thomas H. Hanlon, \$1,336; Walter Curley, \$1,359; Berger Manufacturing Company, \$1,465; D. F. Burke, \$1,577.

Upon June 23 the Mayor approved a contract with M. S. Kelliher for additional sanitation in the Drake School, C and Third streets, South Boston. Bids for the work, opened June 2, were as follows:

M. S. Kelliher, \$1,369; L. J. Towle, \$1,380; W. N. McKenna Company, \$1,400; Kelley & Gaffey, \$1,420.

Upon June 26 the Mayor approved a contract with the J. P. Dwyer Company for boilers in the Frances E. Willard School, Rutland street, Boston. Bids for the work, opened June 16, were as follows:

J. P. Dwyer Company, \$892; Ingalls & Kendrick, Inc., \$919; Huey Brothers Company, \$973; Furlong, Whittemore & Co., \$980; J. J. Hurley & Co., \$1,070; F. W. Zemeir & Co., \$1,157; Laskey & McMurrer, \$1,194; J. L. Hern Engineering Company, \$1,200; P. J. Sullivan Company, \$1,250; Bay State Heating Company, \$1,400.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts; also contract for sidewalks.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 12-inch earthen pipe and a surface drain of 12-inch pipe in the Tremont entrance to Back Bay Fens, northwest drive, from Tetlow street, about 200 feet northeasterly, Roxbury, at an estimated cost of \$1,342.

The Commissioner of Public Works states his intention to construct a surface drain of 10, 12 and 20 inch earthen pipe, a sanitary sewer of 8-inch earthen pipe, and two catch-basins in Clement avenue,

between Meredith street and Anawan avenue; a surface drain of 10, 18 and 24 inch earthen pipe in Kenneth street, between Beech and Meredith streets; a surface drain of concrete, 2 feet 3 inches in diameter, and of 10 and 24 inch earthen pipe in Anawan avenue and Beech street, between West Roxbury Parkway and the New York, New Haven & Hartford Railroad, West Roxbury. Estimated cost \$6,400.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

Resurface with asphalt macadam Blue Hill avenue, west roadway, from Canterbury to Harvard street, Dorchester. Estimated cost of labor and materials, \$2,200.

Redeck, sheath, put in new stringers under roadway, rebuild both sidewalks, clean and paint ironwork and one fence upon the West Newton Street Bridge, city proper. Estimated cost for labor and materials, \$1,250.

For constructing Avery street, between Washington and Tremont streets, and removing old rubbish, building materials, etc., and constructing retaining wall when directed. Estimated cost of extra work, \$3,000.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor.

PUBLIC BUILDINGS DEPARTMENT.

A deduction, amounting to \$90, on contract with the Whiton-Haynes Company for the erection and completion of the South Boston Police Station, for omitting main horizontal conductor drain in basement and substituting 4-inch Callahan sand-arrester trap and chamber, with 4-inch outlet connected to drainage system instead of the floor drain shown in plans. Original contract, \$75,800; total additions, \$1,100; total deductions, \$142; contract as standing, \$76,758.

PUBLIC WORKS DEPARTMENT (Ferry Service).

An addition, amounting to \$400, on contract with S. W. K. Brooks for redecking the roadway of ferryboat "Hugh O'Brien," on account of calking foot walks, wheel guards and monitor ends and furnishing oakum for same; grade the roadway deck, furnishing tools, pitch, etc., for same; straighten guard irons and lay foot walk decks and roadway sheathing. Original contract, \$1,452; total addition, \$400; contract as standing, \$1,852.

PUBLIC WORKS DEPARTMENT (Highway Division).

An addition, amounting to \$15, on contract with James Doherty for asphalt macadam roadway in Clermont street, between Bailey and Fuller streets, Dorchester, on account of regulating Bradley Head catch-basins, where directed. Original contract, \$1,483.70; total addition, \$15; contract as standing, \$1,498.70.

An addition, amounting to \$47, on contract with James Doherty for bitulithic pavement in Norfolk street, between Washington street and the New York, New Haven & Hartford Railroad, near Corbet street, Dorchester, on account

of building new fence to connect with existing fence on the northerly side of Norfolk street, at the railroad bridge and the easterly end of the new concrete wall and regulating the existing fence to conform with the new line and grade. Original contract, \$58,095.75; total additions, \$957.55; contract as standing, \$59,053.30.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$10.64, on contract with McCarthy & Walsh for sewerage works in Winslow street, between Eustis and Renfrew streets, Roxbury, on account of cutting out and removing old timber foundation, piling, brick and slab culvert. Original contract, \$2,034.10; total addition, \$10.64; contract as standing, \$2,044.74.

An addition, amounting to \$520, on contract with M. De Sisto for sewerage works in Foster and Washington streets, Hyde Park, on account of extending sewer in Foster street, from Washington street about 450 feet southeasterly, at the original contract price. Original contract, \$2,182.41; total addition, \$520; contract as standing, \$2,702.41.

An addition, amounting to \$56, on contract with Louis Balboni for sewerage works in Cabot street, between Vernon and Linden Park streets, and St. Francis De Sales street, between Cabot and Roxbury streets, Roxbury, on account of furnishing extra labor caused by water pipe in trench and cutting one gutter-mouth. Original contract, \$2,320.40; total addition, \$56; contract as standing, \$2,376.40.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$175.44, on contract with John Guarino for laying water pipe in Northern avenue, South Boston; Massachusetts avenue, Norton and West Bellflower streets, Dorchester; Cornell and Kittredge streets, Manthorne road, Pinehurst, Rowe and South streets, West Roxbury, and Avenue Louis Pasteur, Roxbury, on account of regulating mains in Cornell street, West Roxbury; regulating mains, setting hydrant and laying 6-inch pipe in Kittredge street, West Roxbury; setting 12-inch gate in Manthorne road, West Roxbury; extra joints and removing obstruction on Morton street, Dorchester; regulating mains, setting gate and hydrant and extra pumping on Pinehurst street, West Roxbury. Original contract, \$3,676; total additions, \$398.99; contract as standing, \$4,074.99.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$45, on contract with Patrick Rich for work at the George Frisbie Hoar School, for reinforcing the entire concrete slab in sanitariums with half-inch rods. Original contract, \$66,944; total additions, \$1,396.50; total deductions, \$1,554; contract as standing, \$66,786.50.

An addition, amounting to \$40, on contract with C. S. Cunningham & Sons' Construction Company for work at the E. P. Tileston School, for trench in game and play room and for steam pipes, iron covers, etc. Original contract, \$66,700; total additions, \$5,075.50; total deductions, \$3,750; contract as standing, \$68,025.50.

A deduction, amounting to \$10, on contract with J. F. Griffin Company, for work at the Bennett District School, for omitting laundry stove in boiler room and gas cooker in teachers' room. Original

contract, \$37,379; total additions, \$289.30; total deductions, \$712; contract as standing, \$36,956.30.

A deduction, amounting to \$10, on contract with J. Slotnik for the work at the Quincy E. Dickerman School, for omitting laundry stove in boiler room and gas cooker in teachers' room. Original contract, \$85,100; total additions, \$1,732.90; total deductions, \$10; contract as standing, \$86,822.90.

A deduction, amounting to \$10, on contract with Patrick Rich for work at the George Frisbie Hoar School, for omitting laundry stove in boiler room and gas cooker in teachers' room. Original contract, \$66,944; total additions, \$1,351; total deductions, \$1,554; contract as standing, \$66,741.50.

A deduction, amounting to \$400, on contract with John Zedren (New England Casualty Company) for work at the Philip Sheridan School, for omitting shrubs, planting and sidewalks. Original contract, \$76,650; total additions, \$1,346.14; total deductions, \$7,666; contract as standing, \$70,330.14.

CONTRACT FOR SIDEWALKS.

Upon June 23 the Mayor approved a contract with Jacob S. Heller for the construction of artificial stone sidewalks. The contractor is not selected by the city, but by the abutters, and the expense of construction is divided between the city and the abutters.

BOARD OF HEALTH NOTICE.

100 SUMMER STREET,
BOSTON, June 25, 1914.

At a meeting of the Board of Health held this day, it was ordered that:

The keeping of live hens and the granting of permits therefor shall be in compliance with the following regulations:

1. Application for permits for the keeping of live hens shall be made on blank forms furnished by the Board of Health and shall state the place where said hens are to be kept and such other facts as the Board of Health may deem necessary.

2. All permits for the keeping of live hens shall expire on the first day of April of each calendar year unless sooner revoked.

3. All live hens must be kept in properly fenced inclosures approved by the Board of Health.

4. Premises where live hens are kept shall always be in a condition satisfactory to the Board of Health.

5. The keeping of a live rooster or roosters is forbidden.

6. A fee of one dollar will be required for each permit issued and for each renewal thereof.

7. Permits may be revoked at any time by the Board of Health in its discretion.

A true copy,

Attest:

F. H. SLACK, *Secretary.*

SUMMER MUSICAL PROGRAM.

The band concerts given by the City of Boston under the auspices of the Park and Recreation Department will be started as usual this year upon Sunday, July 5, at all permanent bandstands located throughout the city. Each section will be favored, as in past years, with one or more concerts during the summer season, the number given being the same as in past years. The time and place of all concerts will be stated in the *City Record* and through the medium of the daily press.

CLAIMS.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Etta Echevitz, in the amount of \$50, for damages caused by overflow of water from broken supply pipe at 91 Chelsea street, East Boston, February 9, 1912.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Thomas H. Connolly, in the amount of \$370, for damages caused by breach of contract in Devon street, Roxbury, December 27, 1905.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of I. Young & Co., in the amount of \$28.30, for damage to automobile, caused by teams backing into same, upon the ferryboat "Governor Russell," November 11, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Katherine E. Bullard *et al.*, in the amount of \$1,340.91, in recovery of taxes paid upon personal property, under protest, March 12, 1914.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Brownell & Field, in the amount of \$24.50, for compensation for damage to automobile, caused by teams bumping into same upon ferryboat "Noddle Island," May 5, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Elizabeth Coule, executrix of the estate of George Atkinson, Jr., in the amount of \$1,082.40, for recovery of tax paid under protest on personal property, September 17, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Abraham Bravaman, in the amount of \$8,500, for damages caused his estate in McLean court, city proper, by the taking of the estate for school-house purposes, and in approval of the award of the Board of Street Commissioners.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Fred C. Bowditch *et al.*, executors under the will of Katherine C. Pierce, in the amount of \$557.64, for a recovery of tax paid under protest upon personal property, February 19, 1914.

SALE OF AUTOMOBILES.

The Commissioner of Public Works announces the sale of seven old automobiles, carriages, dump carts, harnesses, etc., at the Sewer Service yard, 680 Albany street, Boston, upon Thursday, July 2, at 12 m. Address all inquiries relative to the sale to Mr. Edward W. Foye, 30 State street, Boston.

RESIGNATION FROM BRIDGE COMMISSION.

Frederic H. Fay, Division Engineer of the Bridge and Ferry Division, Public Works Department, has resigned as Commissioner for the City of Boston upon the Boston and Cambridge Commission, to take effect at the close of business, June 30, 1914.

SALE OF CITY OF BOSTON BONDS.

Hon. Charles H. Slattery, City Treasurer, invites proposals for the sale of 4 per cent City of Boston bonds, exempt from taxation in Massachusetts and from the federal income tax. Note advertisement in the current issue of the *City Record*.

CHANGE OF METHOD AT FERRIES.

The Mayor has approved the suggestion of Commissioner Rourke of the Department of Public Works for a change of method relative to the checking of receipts at the ferries.

The communication of Commissioner Rourke is as follows:

June 23, 1914.

To the Honorable the Mayor:

SIR,—Since November 19, 1913, the system of checking receipts of tickets and money by gatemen at the ferries by means of checks issued to drivers of vehicles has been in service and thoroughly tried out. Since February 1 of this year a second method of checking the receipts has been in use, namely, the keeping by the captains and the quartermasters of a classified record of vehicle traffic as the vehicles come aboard the boat. This second method has been found to give as accurate a check as the other, and the first system involved considerable delay in the handling of vehicle traffic during rush hours. It was also rather expensive, the cost of printing involved amounting, approximately, to \$1,700 per year.

In my opinion the records kept by the captains and quartermasters are sufficient, and with your approval I propose to discontinue the issuing of checks after June 30, 1914. The discontinuance of checks will serve to expedite the handling of traffic and also save the expenditure of about \$2,000 per year.

Respectfully,

L. K. ROURKE,

Commissioner of Public Works.

TAKING OF LAND FOR IMPROVEMENTS.

The Board of Street Commissioners announce, and the Mayor has formally approved, the taking of land in Riverway road, Brighton, owner unknown, for sewerage works, and containing 930 square feet more or less. The sewerage works will consist of about 155 linear feet of 10-inch pipe, surface drain, upon River-view road, easterly from Ranelegh road, and for a distance of about 155 feet. The Board declares that no person sustains damages in his estate by the taking for and the construction of the sewerage works and awards no damages therefor.

The Board of Street Commissioners announce, and the Mayor has formally approved, as a public improvement, the widening and construction of Boylston street, city proper, as a highway on the northerly side, easterly from Arlington street. The Boston Transit Commission is ordered to construct the same. The highway, as widened, is bounded, west by Arlington street, 40¹⁵/₁₀₀ feet; north, by the northerly line of Boylston street, as hereby widened, 376⁴⁵/₁₀₀ feet; southeast, by the northwesterly line of Boylston street as established by the Boston Transit Commission, under chapter 810 of the Acts of the Legislature of 1913, 375¹⁶/₁₀₀ feet. Containing 7,529 square feet, more or less.

SALE OF WASTE MATERIAL.

Commissioner of Public Works Rourke has been given permission to sell old junk, the property of the Water Service Division, in an amount not to exceed \$500.

Permission has been granted Fire Commissioner Grady to sell old iron, lead cable and insulated wire in the amount of about \$250, to the Gamewell Fire Alarm Telegraph Company, the same to be in part payment for new material.

APPROVAL OF BURKHARDT STREET.

The location, direction, width and grade of the private way, in Roxbury, designated as Burkhardt street, between Wyman and Mozart streets, and southeasterly from Bolster street, about 170 feet, has been duly approved by the Mayor, and in confirmation of the order of the Board of Street Commissioners.

CITY DOCUMENTS.

The following city documents of the current year are now ready and can be had from the office of the City Messenger, Room 24, City Hall, until the edition is exhausted:

Doc. No.

1. Inaugural address of Mayor Curley.
5. Annual report of the Board of Appeal.
7. Annual report of the Cemetery Department.
9. Annual report of the City Clerk.
11. Annual report of the Consumptives' Hospital Department.
12. Annual report of the Election Department.
18. Annual report of the Law Department.
20. Annual report of the Market Department.
29. Annual report of the Sinking Funds Department.
30. Annual report of the Soldiers' Relief Department.
33. Annual report of the Supply Department.
34. Annual report of the Treasury Department.
39. Message from the Mayor transmitting the estimates from the heads of departments for the current year.
40. Ordinances of the City Council up to February 1, 1914.
41. Report of the Committee on Rules.

57. List of officials paid by fees.
58. Report of the Committee on Appropriations.
59. Ordinance concerning the sales of land.
60. Ordinance relative to the Park and Recreation Department.
61. Ordinance concerning the building limits.

Doc. No.

62. Report of the City Treasurer for the month of April.
63. Report of the City Auditor for the month of April.
64. Report of the City Collector for the month of April.
66. Report of the City Treasurer for the month of May.
69. Report of the City Auditor for the month of May.
71. Report of the City Collector for the month of May.

BOSTON'S MUNICIPAL GYMNASIA.

The following is a list of the free Park and Recreation gymnasia and instructors in charge:

Curtis Hall, Jamaica Plain.—Joseph J. McNamara.
Cabot Street, Roxbury.—Matthew M. Leary.
Columbia Road.—George E. Fraser and William E. Mullen.
Ward 9, Harrison Avenue.—Henry J. Brennan.
Ward 7, Tyler Street.—John A. Lane.
D Street, South Boston.—Leo C. Knebel.
North Bennet Street, North End.—James F. Winston.
Paris Street, East Boston.—John J. Driscoll.
Bunker Hill Street, Charlestown.—Maurice R. Smith.

All of them are conducted entirely free of charge. Membership in a class in any one of them may be obtained by making application to the instructor. The requirements are simple. Each applicant must agree to observe the rules of the gymnasium, and must provide himself with proper gymnasium costume.

Classes for men will be held on Tuesday and Friday mornings at 10.30 and in the evenings at 8 o'clock. The morning lessons are devoted largely to men who are preparing for civil service examinations for Police and Fire Departments, but in the night classes all grades of instruction are offered.

Classes for women are held on Mondays and Thursdays. At 10.30 in the morning instruction is given in calisthenics, general upbuilding exercises and in gymnastic and æsthetic dancing. At 8 o'clock in the evening similar instruction is given to young ladies and working girls. And at 4.30 in the afternoon school girls' classes are formed for games, dancing and calisthenics.

Wednesday and Saturday afternoons and Saturday mornings classes are held for school boys. They are given gymnastic drills, athletics and play. And on Wednesday and Saturday nights classes are formed for working boys. They are given recreational exercise and athletics. Both school boys and working boys are given much time for free play.

GYMNASIUM HOURS AND CLASSES.**MONDAY — WOMEN AND GIRLS.**

Women, 10 a. m. to 12 m.; class at 10.30. School Girls, 3 to 6 p. m.; class at 4.30. Women, 7.30 to 10 p. m.; class at 8.

TUESDAY — MEN AND HIGH SCHOOL BOYS.

Civil Service Class, 10 a. m. to 12 m.; class at 10.30. High School Boys, 3 to 6 p. m. Men, 7 to 10 p. m.; class at 8.

WEDNESDAY — MEN, SCHOOL AND WORKING BOYS.

Men, 10 a. m. to 3.30 p. m.; School Boys, 4 to 6 p. m.; class at 4.30. Working Boys, 7.30 to 10 p. m.; class at 8.

THURSDAY — WOMEN AND GIRLS.

Same as Monday.

FRIDAY — MEN AND HIGH SCHOOL BOYS.

Same as Tuesday.

SATURDAY — SCHOOL AND WORKING BOYS AND MEN.

Junior Boys, 10 a. m. to 12 m. Senior Boys, 2 to 4 p. m.; class at 2.30. Men, 4 to 6 p. m. Working Boys, 7.30 to 10 p. m.; class at 8.

LAYING OUT OF STREETS.

In view of the fact that the Mayor has recommended to the City Council an appropriation of \$400,000, for the laying out of streets, which has been formally approved by the members of the Council, and in further consideration of the fact that an additional appropriation of \$400,000 will probably be made with the same purpose in view, the Board of Street Commissioners has presented a list of the streets which might well be laid out, and for which petitions are at present upon file in the office of the commissioners.

Secretary John J. O'Callaghan has very courteously prepared for the *City Record* a list of such streets, which is herewith presented.

Live petitions for the laying out of streets on file in the Street Commissioners' office, having an aggregate cost, estimated, of \$1,060,900:

LIBRARY BOOKS UPON CITY PLANNING.

Mr. Frank A. Bourne has prepared in behalf of the trustees of the Boston Public Library a most excellent catalogue relative to the books now to be obtained at the library treating of the various questions incident to city planning.

To students of the many and varied problems important reference works are available upon the subjects of the growth of cities, promotion of town planning, design and construction, reports of experts and commissions, village improvement, garden cities, housing problems and

social surveys, housing reform, housing laws, ports and waterfronts, railways and transportation, rapid transit, subways and tunnels, terminals, street construction, bridges, playgrounds and recreation centers, squares and civic centers, public works, waste disposal, sewage disposal, street cleaning, smoke prevention, light and air, street furniture and decoration, street lighting, street trees, outdoor advertising, billboards, taxation, land valuation and development, building and cooperative associations, building laws and contracts, building regulations and restrictions, town planning laws and building codes.

OPPORTUNITIES FOR BATHING.

The Park and Recreation Commissioners have provided every possible facility for the enjoyment of bathing during the present season.

The list of houses are as follows and are open from 2 p. m. until 10 p. m. daily:

Curtis Hall, Jamaica Plain (swimming pool).
Cabot Street, Roxbury (swimming pool).
Columbia Road, Dorchester.
Ward 7 Gymnasium, Tyler street.
Ward 9 Gymnasium, Harrison avenue.
Dover Street Bath, city.
D Street Baths, South Boston.
North Bennet Street Baths, city.
East Boston Baths, Paris street, East Boston.
Ward 3 Baths, corner Lexington and Bunker Hill streets, Charlestown.

The beaches of the city are opened from three hours before to three hours after high tide, with the exception of L street, from 6 a. m. until 10 p. m., and they are as follows:

L Street Beach, South Boston.
Tenean Beach, Neponset.
Freeport Street, Dorchester.
Savin Hill Beach, Dorchester.
McKenzie Beach, South Boston.
North End Park, city, Ward 6.
Dewey Beach, Charlestown.
Wood Island Beach, East Boston.

Instructors and life guards are present at all times during the bathing period.

The list of floating houses and their locations are as follows:

Jeffries Point, East Boston.
Border Street, East Boston, 2 houses, men and women.
Warren Bridge, Charlestown, 2 houses, men and women.
Charlesbank, city, West End, 2 houses, men and women.
Dover Street Bridge, city, 2 houses, men and women.
Fort Point Channel, city, near South Station, men only.

EXAMINATIONS FOR LIGHTHOUSE SERVICE.

United States civil service examinations for the following mechanical trades and non-educational positions in the Lighthouse Service, Engineer Department at Large, and the Quartermaster Corps, U. S. A., and the various branches of the government service in Boston, Mass., and vicinity, will be held on July 1, 1914.

Positions.—Assistant marine steam engineer (including positions on lighthouse tenders), carpenter, marine fireman, mate (including positions on lighthouse tenders), oiler, stationary fireman, mason* (qualified as bricklayer).

Age limits, Lighthouse Service: eighteen years or over, except for positions requiring license from United States Steamboat Inspection Service, for which the minimum age is twenty-one. Maximum age for officer of tender, forty-five years. Persons honorably discharged from the United States Army, Navy or Marine Corps and persons already in the Lighthouse Service in classified positions will be examined without regard to their age.

No educational tests will be given and applicants will therefore not be called upon to appear at any place to be examined. They will be rated according to their physical condition and experience as indicated in their applications, and the medical certificate and vouchers furnished.

For information, apply to Secretary, First District, United States Civil Service Commission, 141 Post Office Building, Boston.

* Applications for this position should be filed with T. H. Pillsbury, Secretary, Board of Examiners, United States Engineer Office, 1017 Barristers Hall, Boston, Mass.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announces an open competitive examination for plant pathologist in potato investigations, for men only, on June 29, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, at a salary ranging from \$1,800 to \$2,250 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of investigations of the diseases of the Irish potato and especially study of the late blight.

The commission announces that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announces an open competitive examination June 29, 1914, for market specialist, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Office of Markets, Department of Agriculture, at a salary of \$2,760 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to investigate the methods now used by cooperative associations of dairy producers in organizing and in marketing their products and to devise and demonstrate improvements in these methods.

The commission announces an open competitive examination June 29, 1914, for market milk specialists, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include cooperative work with state and municipal authorities in the improvement of milk supplies, and it will be necessary for the appointees to perform considerable traveling throughout the United States for the purpose of conducting investigations concerning the production, handling, and distribution of milk for city consumption. In addition, they will be called upon to attend dairymen's conventions and other meetings for the purpose of scoring milk and cream, and making addresses per-

taining to the sanitary production and handling of the same; to assist local inspectors in inaugurating and carrying out efficient systems of dairy inspection; to inspect dairy farms and city milk plants, and give advice as to improvements from a sanitary standpoint.

The commission announces an open competitive examination June 29, 1914, for dairy husbandman, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,800 to \$2,500 a year, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include cooperative work with dairy farmers; advice and assistance with reference to instituting the keeping of records of production of herds, the construction of silos, the construction and remodeling of dairy buildings, the feeding of dairy herds, the management of dairy farms, the care and handling of milk and cream, and the making of butter on farms; the organization and supervision of farmers' associations, bull associations, and cow-testing associations; demonstrations at fairs, judging dairy cattle and dairy products, lecture work on subjects connected with dairy farming, and other forms of dairy-farming extension work; collection of information concerning the dairy industry, and experimental work along dairy-farming lines. The performance of these duties will involve considerable traveling, usually within one state.

The commission announces an open competitive examination June 29, 1914, for dairy manufacturing specialist, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,800 to \$2,500 a year, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will include cooperative work with creameries, condensed milk factories, ice cream factories or cheese factories, according to the qualifications of the man. The person appointed to a position of this character will generally be assigned to a particular section of the United States, and he will be required to visit creameries, condensed milk factories, ice cream factories, or cheese factories; to attend patrons' meetings for the purpose of giving instructions in the care of milk and cream; to attend dairy conventions for the purpose of making addresses on the subjects pertaining to his special line of dairy manufacturing; and to give advice regarding the building of new factories and the installing of equipment.

The commission announces an open competitive examination June 29, 1914, for senior highway engineer and highway engineer, for men only. From the register of eligibles resulting from this examination certification will be made to fill a large number of vacancies in these positions in the Office of Public Roads, Department of Agriculture, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the

interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will involve superintending the construction of roads of various types throughout the United States. In addition the employees will be called upon to inspect roads and investigate road building materials, as well as administrative organization, methods of management, etc., in counties for the purpose of reporting upon systems by which the best administration, construction and maintenance of the county system may be secured. The inspecting of roads locally and giving advice in regard to their improvement, and the giving of addresses at road meetings will also be included as part of the duties of these positions.

Eligibles resulting from this examination will be divided into two grades. The first grade will be designated senior highway engineer, with salaries ranging from \$2,220 to \$3,000 a year. The second grade will be designated highway engineer, with salaries ranging from \$1,800 to \$2,100 a year.

The commission invites attention to the fact that in the open competitive examination for senior highway engineer and highway engineer, scheduled for June 29, 1914, applicants for the position of senior highway engineer must have reached their thirtieth birthday on the date of the examination, as stated in the original announcement No. 523; and applicants for the position of highway engineer must have reached their twenty-fifth birthday on the date of examination, instead of their thirtieth birthday, as stated in the original announcement.

The commission announces an open competitive examination, June 29, for the position of painter at the Boston Post Office and Sub-Treasury Building. The salary will be \$3.50 per day. No educational test will be given. For full particulars relative to this examination, apply at 141 Post Office Building, Boston.

The commission announces an open competitive examination for assistant biochemist, for men only, on July 6, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the United States Public Health Service, for duty in the field, at \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in making metabolic, dietetic and other biochemical studies in relation to pelagra.

The commission announces an open competitive examination for assistant epidemiologist, for men only, on July 6, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Public Health Service, at salaries ranging from \$2,000 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct laboratory studies of disease, to make epidemiological surveys to determine the prevalence and causation of epidemics, and to recommend measures to prevent and control outbreaks of disease.

It is desired to secure persons thoroughly competent in the various branches of

sanitary bacteriology, and especially in isolating the typhoid bacillus from infected persons and materials.

The commission announces an open competitive examination July 6, 1914, for fiber inspector, for men only. From the register of eligibles resulting from this examination certification will be made to fill several vacancies in this position in the Philippine Service, at \$1,800 to \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. The appointees to these positions will be stationed at export ports and other grading stations designated by the Director of Agriculture of the Philippines.

The commission announces an open competitive examination for chemist's aid, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., and in the field service of the Bureau of Chemistry, at salaries ranging from \$720 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Most of the appointments will be made at \$720 a year.

Both men and women will be admitted to this examination, but most of the positions are of such a character that they can only be filled by men.

The duties of this position will include the construction and repairing of laboratory apparatus, the preparation of stock solutions and special reagents, and similar work. It is desired to secure efficient and practical appointees whose services will be valuable in assisting chemists in their work. Appointment to the position of chemist's aid will not lead to promotion as junior or assistant chemist, and persons desiring such promotion must take the regular examination for junior chemist, which is held at frequent intervals.

The commission invites attention to the fact that for the open competitive examination for chemist's aid, to be held on July 8, 1914, at the places mentioned in original announcement No. 517, the maximum age limit will be thirty-five years on the date of the examination instead of thirty years, as stated in the original announcement.

The commission announces an open competitive examination for timber scaler, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$90 a month on ceded Chippewa Indian lands in Minnesota, under the General Land Office, Interior Department, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Persons who meet the requirements and desire to compete in these examinations should at once apply for application blanks and full information relative thereto, to the secretary of the United States Civil Service Board, 141 Post Office Building, Boston.

The commission announces an open competitive examination for weight clerk, for men only, on July 8, 1914, at Bath, Me. From the register of eligibles resulting

from this examination certification will be made to fill a vacancy in this position at \$3.04 per diem, in the office of the Superintending Constructor, U. S. Navy, Bath Iron Works, Bath, Me., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

In the event of there being a shortage of eligibles in other naval establishments eligibles from this examination who are willing to accept appointment at an establishment where such shortage exists may be certified for appointment to such establishment.

The commission announces an open competitive examination for assistant market milk specialist, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,500 to \$1,740 a year, and in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position include cooperative work with state and municipal authorities in the improvement of milk supplies; investigations concerning the production, handling, and distribution of milk for city consumption; scoring of milk and cream in connection with milk contests; inspection of farms, stores and city milk plants where milk is handled; lecture work at dairymen's associations and other meetings. The performance of these duties will involve considerable travel.

The commission announces an open competitive examination for bacteriologist, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at salaries ranging from \$1,200 to \$2,000 a year, in the Bureau of Chemistry, Department of Agriculture, for duty both in Washington, D. C., and in the field, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to examine bacteriologically food products which are subject to the food and drugs act in order to determine their sanitary condition.

The commission announces an open competitive examination for landscape architectural draftsman, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Engineer Department at Large, War Department, Washington, D. C., at a salary of \$900 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for assistant dairy husbandman, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries

ranging from \$1,500 to \$1,740 a year, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include cooperative work with dairy farming; giving advice and assistance with reference to instituting the keeping of records of production of herds, feeding of dairy herds, and management of dairy farms; organization and supervision of farmers' associations, bull associations, and cow-testing associations; judging dairy cattle; lecture work on subjects connected with dairy farming; and experimental work in dairy-farming lines.

The commission announces an open competitive examination for first-class steam engineer, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of assistant engineer and electrician, at \$1,200 a year, in the United States Penitentiary, Atlanta, Ga., vacancies in the position of first-class steam engineer as they may occur in the departmental service at Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. The usual entrance salary of this position is \$1,200 a year.

The commission announces an open competitive examination for veterinarian, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of veterinary inspector in the Bureau of Animal Industry, Department of Agriculture, and in the position of veterinarian in the Quartermaster Corps, U. S. Army, unless it is found to be in the interest of the service to fill any vacancy by reinstatement transfer or promotion.

Bureau of Animal Industry.—Graduation from an accredited veterinary college or the fact that the applicant is a senior student in such an institution is a prerequisite. Such senior students will not be certified for appointment until after they have furnished proof of actual graduation. Entrance salary, \$1,400 per annum. It is probable that a large number of appointments will be made in the near future.

Quartermaster Corps.—Graduation from a veterinary college and one year's actual practice as veterinarian on horses are prerequisites. Entrance salary, \$1,200 per annum. There are now several vacancies at Texas City and Galveston, Tex., and additional vacancies will depend upon the activity of the army on the Mexican border. In certification of eligibles preference will be given to those examined in the vicinity of the place where the vacancy exists.

The commission announces an open competitive examination for assistant physicist, qualified in metallography, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Standards, Department of Commerce, Washington, D. C., at a salary of \$1,400 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. It is

desired to secure eligibles with a scientific training and with some experience in metallography either in the laboratory or in industrial works, and who are competent to carry on research in the scientific and practical fields of metallography and physical metallurgy. It is desirable that applicants have a reading knowledge of French and German, and the applicant's qualifications in this respect should be fully set forth in his application.

The commission announces an open competitive examination for assistant radio inspector, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$1,200 per annum in the offices of the radio inspectors of the Bureau of Navigation, Department of Commerce, at New York, San Francisco and Cleveland, and vacancies as they may occur throughout the United States in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for structural engineer and draftsman, for men only, on July 8 and 9, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Office of the Supervising Architect, Treasury Department, Washington, D. C., at entrance salaries ranging from \$1,600 to \$1,800 per annum; vacancies in the position of first-class structural draftsman in the Panama Canal Service, at entrance salaries ranging from \$150 to \$175 a month, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary of the position of structural engineer and draftsman in the Supervising Architect's Office is \$1,600 or \$1,800 a year; only those persons who attain an average percentage of 80 or over in the examination being eligible for appointment at a salary of more than \$1,600. The entrance salary for the position of first-class structural draftsman in the Panama Canal Service depends upon the amount of experience had by the appointee.

The commission announces an open competitive examination for marine engine and boiler draftsman for men only, on July 8 and 9, 1914, at all places at which city delivery service has been established in the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Navy Yard, Portsmouth, New Hampshire, at an entrance salary of \$4 per diem, and vacancies as they may occur in positions requiring similar qualifications at entrance salaries ranging from \$3.52 to \$5.04 per diem, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Marine engine and boiler draftsmen are employed by the Navy Department at the following places in the New England States: Bath, Maine; Boston and Quincy, Mass., and Portsmouth, New Hampshire. In certifying to these positions local eligibles are preferred, but in the event of there being a shortage of local eligibles, eligibles from this examination who reside in other cities and who are willing

to accept appointment at a naval establishment where such shortage exists, may be certified for appointment to such establishment.

The commission announces an open competitive examination for assistant mining engineer, for men only, on July 13, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Mines, Department of the Interior, for service in the field, in relation to coal mining or metal mining, at salaries ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will include, in one case, investigations in relation to coal mines, and in another case in relation to metal mines, particularly such as concern the causes of mine accidents or waste in mining, and the suggestion of remedies therefor. It is desired to procure the services of persons having a broad training in mining, particularly underground experience.

The commission announces an open competitive examination for cartographer in agricultural geography, for men only, on July 13, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The duties of this position will be to assist in the preparation of crop, land utilization, and land tenure maps and charts.

The commission announces an open competitive examination, July 13, 1914, for metallurgical engineer, for work in iron and steel, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Mines, Department of the Interior, for service at Pittsburgh, Pa., at a salary ranging from \$3,000 to \$4,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The special duties of the position will be to conduct inquiries and investigations into both safety and efficiency problems in the metallurgy of iron and steel.

The commission announces an open competitive examination for forest inspector, for men only, on July 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Forest Service, Washington, D. C., at \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The duties of this position will consist of directing the cooperative work in forest management carried on with private owners of timber lands in the Eastern United States. The position demands thorough familiarity with theoretical and practical work in forestry and lumbering, including timber cruising,

mapping, the direction of logging operations and the management of private forest lands in the Eastern States.

The commission announces an open competitive examination for record examiner, for men only, on July 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position as they may occur in the Department of Agriculture, for service in the field, at salaries ranging from \$1,500 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It is desired to secure eligibles capable of making independent examinations of land titles in connection with the acquisition of forest lands by the Government.

The commission announces an open competitive examination for transitman, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Forest Service, for duty in the field, at salaries ranging from \$800 to \$900 a year, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to assist in the survey of lands to be acquired under the Weeks law in the southern Appalachian and White Mountains.

The commission announces an open competitive examination for dental interne, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$600 per annum, with maintenance, in the Government Hospital for the Insane, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

As an insufficient number of applications were filed for the examination for this position announced to be held on June 3, 1914, qualified persons are urged to enter this examination.

The department states that it reserves the right to terminate the appointment at the expiration of one year of service if it is deemed advisable to do so.

In addition to many interesting cases presented, the dental interne is given an excellent opportunity for study and for doing experimental and research work in the pathological, histological, and other laboratories of the institution.

The commission announces an open competitive examination for map colorist, for both men and women, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position, at salaries ranging from \$600 to \$720 a year, in the departments at Washington, D. C., or in the field, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for skilled laborer, for women only, on July 22, 1914, at Pittsfield, Mass. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of counter, at \$720 a year,

in the Government paper mill, Pittsfield, Mass., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces the postponement from June 17 and 18, 1914, to July 22 and 23, 1914, of the open competitive examination for law assistant, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of law clerk in the office of the Solicitor, Department of Agriculture, Washington, D. C., at entrance salaries of \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for instrument maker, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$3.84 per diem at the Naval Observatory, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for assistant in agricultural education, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the office of Experiment Stations, Department of Agriculture, Washington, D. C., at salaries ranging from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include correspondence, report writing, editing and the preparation of original articles concerning different phases of agricultural education, including instruction in regular college and school courses, various forms of extension teaching, farmers' institutes, etc. This position also calls for some field work, that is, work outside of Washington, studying problems in agricultural education, studying educational institutions, attending conferences and giving addresses at important public meetings.

The commission announces an open competitive examination for assistant in plant malnutrition, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in the plant malnutrition work in the office of Biophysical Investigations in the Bureau of Plant Industry.

It is desired to secure applicants well qualified in soil physics, plant physiology and biochemistry.

PROCEEDINGS OF SCHOOL COMMITTEE.

June 11, 1914.

A special meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 8.15 o'clock P. M., the Chairman presiding.

Present: Messrs. Brock, Corcoran, Miss Curtis, Messrs. Lee and Scannell.

SECRETARY PRO TEMPORE.

In the absence of the Secretary, Ellen M. Cronin was elected Secretary pro tempore.

APPROVAL OF RECORDS.

The reading of the records of the last meeting was omitted, the Board approving them as printed.

APPOINTMENTS.

The Chairman stated the question was on approving the appointments from the eligible list, as reported by the Superintendent and laid over at the last meeting.

The appointments were approved.

The question came on approving the appointments by promotion, with the exception of principals of elementary districts, as reported by the Superintendent and laid over at the last meeting.

The appointments were approved.

The question came on approving the appointments by promotion of five principals of elementary school districts, to take effect Sept. 8, 1914, as reported by the Superintendent and laid over at the last meeting.

The appointments were approved by the following vote:—

YEAS—Messrs. Brock, Corcoran, Miss Curtis, Messrs. Lee and Scannell—5.

NAYS—0.

A communication was received from the Superintendent, under date of June 11, 1914, withdrawing, subject to the approval of the Board, the following appointments as principals of evening schools, laid over at the last meeting:

Maurice J. Lacey, South Boston Evening Commercial High School.

Alfred R. Winter, Washington Allston Evening School.

Joseph F. Gould, Franklin Evening School.

Adelbert H. Morrison, Evening Industrial School.

Placed on file, and the appointments withdrawn.

The appointments of principals of evening schools for the term 1914-15, with the exception of those withdrawn, as reported by the Superintendent and laid over at the last meeting, were taken up and approved by the following vote:—

YEAS—Messrs. Brock, Corcoran, Miss Curtis, Messrs. Lee and Scannell—5.

NAYS—0.

The question came on the transfer of Henry C. Parker, master of the Harvard District, to the same position in the Jefferson District, to take effect Sept. 1, 1914, as reported by the Superintendent and laid over at the last meeting.

The transfer was approved.

TRANSFER OF APPROPRIATIONS FOR ADDITIONAL SCHOOL ACCOMMODATIONS.

A communication was received from the Board of Schoolhouse Commissioners, under date of June 10, 1914, asking that the School Committee concur in a vote of that Board transferring certain amounts from one item to another in the list of school accommodations to be provided from the tax levy appropriation and from the bond issue appropriation of various years.

Placed on file.

The following was offered:—
ORDERED, That this Board hereby concurs in the vote of the Board of Schoolhouse Commissioners transferring certain amounts to other items in the list of school accommodations, as follows:—

From Oliver Wendell Holmes District, Dorchester: elementary school, lower grades, bond issue 1914, the sum of \$40,000.

To Eliot-Hancock Districts, North End:

elementary school, lower grades and special class rooms, land and plans, bond issue 1914.

From Oliver Wendell Holmes District, Dorchester: elementary school, lower grades, land and building, tax levy 1914, the sum of \$12,000.

To Mechanic Arts High School Extension, equipping building for industrial school purposes.

From Oliver Wendell Holmes District, Dorchester: elementary school, lower grades, land and building, tax levy 1914, the sum of \$10,000.

To Accommodations for Pre-vocational Classes, boys and girls, various schools.

From Oliver Wendell Holmes District, Dorchester: elementary school, lower grades, land and building, tax levy 1914, the sum of \$3000.

To Dorchester High School, changing classrooms, etc.

From Norcross District, South Boston: additional accommodations and improvement of sanitariums, tax levy 1914, the sum of \$2200.

To Dorchester High School, changing classrooms, etc.

From Comins-Sherwin Districts, Roxbury: Boston Industrial School for Boys, building only, bond issue 1914, the sum of \$20,000.

To Eliot-Hancock Districts, North End: elementary school, lower grades and special class rooms, land and plans, bond issue 1914.

Passed unanimously.

RESIGNATIONS.

The following resignations, reported by the Superintendent, to take effect on the dates stated, were presented:—

Elihu Greenwood District—Laura K. Darling, assistant, Aug. 31, 1914.

Henry Grew District—Elizabeth de Senacour, assistant, Nov. 1, 1914.

High School of Practical Arts—Margaret L. Ryan, clerical assistant, Sept. 12, 1913.

Accepted.

The following appointments and transfers by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:—

SPECIAL ASSISTANTS.

Gilbert Stuart District—Annie F. Rice, June 10, 1914.

Hancock District—Alvira A. Colton, June 2, 1914.

John A. Andrew District—Miriam Cohen, June 1, 1914.

Sherwin District—A. Russell McCormick, June 10, 1914 (one-half day).

Ulysses S. Grant District—Harriet Ayer, June 1, 1914.

Approved.

TEMPORARY TEACHERS.

Hyde Park High School—George S. Penney, assistant instructor, military drill, Sept. 8, 1914.

Department of Manual Arts—Walter W. Stroncer, prevocational instructor (four hours per day), Sept. 8, 1914; Louis K. Hull, prevocational instructor (two hours per day), Sept. 8, 1914; Robert E. Baker, prevocational instructor, Sept. 8, 1914; Clarence W. Goodridge, prevocational instructor, Sept. 8, 1914.

Placed on file.

APPOINTMENTS.

(From the Eligible List.)

Public Latin School—William H. J. Kennedy, junior master (from assistant, Phillips Brooks District), Sept. 8, 1914.

East Boston High School—Agnes C. Early, industrial instructor, Sept. 8, 1914.

English High School—Daniel V. O'Flaherty, junior master, Sept. 8, 1914.

High School of Commerce—Max Weiss, James E. O'Neil, junior masters, Sept. 8, 1914.

High School of Practical Arts—Mabelle B. Rimbach, Mary B. Whiting, industrial instructors, Sept. 8, 1914.

Roxbury High School—Helen A. Taff, assistant instructor in salesmanship, Sept. 8, 1914.

Department of Music—Ruth B. Mitchell, assistant, Sept. 8, 1914.

Laid over.

(By Promotion.)

Dorchester High School—Rollin H. Fisher, junior master (from instructor in commercial branches), Sept. 8, 1914.

Classes for Stammerers—Ellen E. Good, assistant, class for stammerers (from assistant, Dearborn District), Sept. 8, 1914.

Department of Practice and Training—Mary R. Thomas, first assistant director of practice and training (from assistant director of practice and training), Sept. 8, 1914.

Laid over.

(Under a License.)

Trade School for Girls—Elizabeth Harrison, student aid, Apr. 13, 1914.
Approved.

(By Promotion, Under a License.)

Boston Industrial School for Boys—Henry C. Fellman, division head, class A (from instructor in electrical work), Sept. 1, 1914; Lewis H. Haight, division head, class B (from instructor in machine shop practice), Sept. 1, 1914; Hannibal L. Hamlin, division head, class C (from instructor in printing), Sept. 1, 1914; Andrew Roswell, division head, class C (from instructor in wood-working), Sept. 1, 1914; Ellsworth M. Longfield, division head, class C (from instructor in sheet metal work), Sept. 1, 1914; Edwin L. Carpenter, shop instructor (from assistant instructor in machine shop practice), Sept. 1, 1914; Carl G. E. Engborg, shop instructor (from assistant instructor in wood-working), Sept. 1, 1914; Francis A. Williams, shop instructor (from assistant instructor in electrical work), Sept. 1, 1914; Earl C. Allen, assistant shop instructor, Sept. 8, 1914.
Laid over.

Trade School for Girls—Josephine C. MacLeavy, Elizabeth E. Moore, A. Veronica Tracy, trade assistants (from helpers), Grace M. Gould, L. Beatrice Judy, Sara E. Lavin, Anna M. Rogers, Mary A. Shea, Josephine B. Tanck, helpers (from aids), Sept. 8, 1914.
Approved.

TRADE SCHOOL FOR GIRLS.

Term 1914-15.

(Reappointments to take effect Sept. 1, 1914.)

First Assistants—Mary J. Orr, Marie Thayer.

Vocational Assistants—Rebecca Anslow, Mary S. Nye, Della M. Towne.

Trade Assistants—Mary E. Cadigan, Mary E. Connor, Mary V. Cunningham, Ethel O. Davidson, Madge L. Douglas, Marie F. Libourel, Marie C. Rollins.

Helpers—Mildred E. Arnold, Ellen L. Barry, Katharine Bergen, Nancy A. Emerson, Katherine A. Gillis, Nellie L. Greeley, Florence P. Johnson, Catherine Kelleher, Josephine C. MacLeavy, Mary L. Maker, Cora Miller, Elizabeth E. Moore, Katharine J. Randall, A. Veronica Tracy.
Approved.

EVENING SCHOOLS.

Term of 1914-15.

Principals.

South Boston Evening Commercial High School—Thomas H. H. Knight.

Franklin Evening School—Michael J. Downey.

Washington Allston Evening School—Harry Brooks.

Laid over.

ASSISTANT DIRECTOR OF EVENING AND CONTINUATION SCHOOLS.

Joseph F. Gould, Sept. 1, 1914.

Laid over.

PLAYGROUNDS.

Season of 1914.

Play Teachers—John J. Connolly, Leander A. MacDonald, Walter C. Winston.

First Assistants—Alice J. Barry, Annie F. Carr, Helena E. Casey, Miriam E. Clancey, Miriam Cohen, Matilda I. Covey, Margaret M. Connelly, Anna E. Dixon, Mildred M. Doyle, K. Grace Farrell, Margaret G. Ford, Julia W. Gavin, Lillian E. Goodwin, Grace W. Gormley, Elizabeth M. Hayes, Irene F. Jackson, Gertrude Kalmus, Edna K. Lane, Agnes C. Lavery, Grace F. Laughlin, Catherine C. Lynch, Mary J. McLaughlin, Mary V. Meagher, Marion E. Mellen, Annie E. Molloy, Margaret M. O'Connell, Mary M. O'Mara, Gertrude M. Riley, Rose Stone, Ella J. Sullivan, Louise W. Vaughn.

Assistants—Helen M. Baker, Rose Bloom, Sadie Boles, Mary L. Bradley, Katherine F. Breen, Josephine L. Broderick, Mary E. Buckley, Claire A. Bulger, Daisy E. Cohen, Mary E. Driscoll, Anna

Duggan, Mary M. Dwyer, Nelly G. Fannon, Gertrude M. Finn, Mary A. Hanlon, Ruth Holland, Ellen A. Leahy, Leonora P. Lorden, Mary M. Lorden, Mary E. Manning, Alice G. Mason, Beatrice M. McNally, Elizabeth J. Miley, Caroline C. Moy, Margaret E. O'Brien, Margaret J. O'Brien, Margaret E. O'Connor, Mary V. O'Neil, Bridget C. Ridge, Ruth A. Sharkey, Minnie W. Silverman, Dora Slepian, Mildred G. Sullivan, Jeanette A. Wall.

Assistants in Sand Garden—Agnes J. Boland, Jennie F. Boles, Mary M. Byrne, Helen C. Conway, Marion B. Curley, Marie P. Denihan, Gertrude Friederman, Anna M. Galvin, Alice E. Gibbons, Marion Goldstein, Lillian M. Hanson, Margaret M. Hayes, Lucile A. Harrington, Katharine M. Kelley, D. Lyle Lombard, Charlotte M. McMorrow, Evelyn Murphy, Dorothy C. O'Connor, Helen E. Rourke, Florence P. Saunders, Sadie L. Siskind, Dora F. Smith, Gertrude A. Smith, Kathleen G. Tobin, Anastasia K. White, Elizabeth L. Willis, Margaret F. Duffy, Agnes Harrington.

Substitutes—Rose Arenson, Jeannette Ascolillo, Bessie R. Blair, Florence L. Brennan, Esther Cahill, Grace J. Campbell, Esther L. Carley, Margaret M. Casey, Louise J. Chambers, Minnie Colitz, Marguerite A. Connick, Lillian M. Connors, Anna J. Corliss, Bessie F. Crimmins, Elizabeth A. Crowley, Eleanor T. Cummings, Florence C. Cunningham, Marguerite Dockendorff, Eleanor Dordoni, Mary V. Driscoll, Mary M. J. Egar, Alice C. English, Mildred E. Frazier, Katharine French, Anna C. Gallagher, Margaret E. Gallagher, Elizabeth Gay, Elizabeth A. Good, Helen Hannon, Helen R. Jones, Loretto R. Kelly, Marie L. Kirby, Helen R. Lanigan, Lemy-si Leinonen, Sarah M. Logue, Elizabeth M. Luby, Florence J. Maguire, Margaret E. Maloney, Alice E. Manning, Florence A. Marmaud, Caroline E. Mayberger, Josephine A. McLaughlin, Frances B. Mea, Mary C. Murphy, Marguerite M. O'Brien, Mary E. O'Connor, Regina G. O'Connor, Mary M. O'Hearn, Theresa A. O'Reilly, Anna Riordan, Eileen E. Rogers, Louise Smith, Edith Sonnabend, Minnie H. Stroup, Edith A. West, Marguerite R. Young.
Approved.

CONTINUATION SCHOOL.

Term of 1914-15.

Grace T. Blanchard, head of division (from assistant, Dorchester High School), Sept. 8, 1914; Louis A. White head of division (from assistant, Abraham Lincoln School), Sept. 8, 1914; John J. Boyan; Mary J. Grady (from assistant, Frederic W. Lincoln School); Angela M. Keenan (from assistant, Wendell Phillips School); Louise C. Keyes (from assistant, Bigelow School); Edward M. McDonough; Marion P. McPhee (from assistant, Chapman School); Mary J. Manning (from assistant, Sherwin School); Agnes G. Nash (from assistant, Frederic W. Lincoln School); Elizabeth A. Nash (from assistant, Oliver Hazard Perry School); assistants, Sept. 8, 1914; Mary B. Drown, Ethel D. Hodson, Eleanor M. Laird, Helen E. Parker, assistants, Sept. 1, 1914.
Laid over.

SUMMER REVIEW SCHOOLS.

To take effect June 22, 1914.

Summer Review High School—Henry W. B. Arnold, Ralph C. Benedict, Roy Davis, John E. Denham, John M. Gallagher, Carolyn M. Gerrish, Gertrude M. Hall, Alfred B. Kershaw, Amy V. Kingston, Fred P. H. Pike, Orren H. Smith, William E. Smith, Eugene R. Vinal, assistants, June 22, 1914.
Charlestown Summer Review Elementary School—Mary M. Crane, Frederick A. Dunfey, Ellen C. Hayes, Elizabeth M. Hoar, Bertha C. Quinann, Helen M. Richardson, Alice G. Ryan, Esther F. Sullivan, assistants, June 22, 1914.

City Summer Review Elementary School—Katherine C. Brady, Dorothy A. Busby, Jennie A. Drew, Mary A. A. Haverty, Estelle K. Kennedy, Elinor Maher, William T. Miller, Mary A. Molloy, Eleanor F. Morris, Bertha F. Murray, William G. O'Hare, Mary V. O'Regan, Joseph E. O'Sullivan, Frances S. Parker, Alice M. Roche, Anna Sansiper, Harriet E. Sargent, Marion I. Sherman, Anna T. Sennott, Anna G. Turner, Ethel M. Wilson, Gertrude A. White, Louis A. White, assistants, June 22, 1914.

East Boston Summer Review Elementary School—Margaret M. Breen, Elizabeth A. Burns, Jenny W. Cronin, May Harty, Josephine M. Hodgkinson, Alice

L. Kelly, Lucy A. Mackenzie, Marion P. McPhee, Alice D. Murley, Frederick J. Murphy, Gertrude V. Nugent, Clarissa E. Prouty, Anna E. Rosen, Mary F. Sharkey, Mary A. Sullivan, Joseph I. Whalen, assistants, June 22, 1914.

Roxbury Summer Review Elementary School—James F. Rockett, assistant in charge; Elizabeth C. Bonney, Mary K. Corbett, Loretta J. Curran, Marietta H. Delaney, Mary E. Doherty, Margaret E. Foster, Ellen G. Garraghan, Helen H. Goulter, Cornelius A. Guiney, Eunice C. Hearn, Nellie M. Howes, Margaret E. Kelleher, Thomas E. Kelley, William H. J. Kennedy, Lucy H. Littlefield, Susie J. McCloskey, Mary F. MacGoldrick, Elizabeth M. McLaughlin, Martha A. Norton, Mary B. T. Oliver, Gertrude E. O'Neil, Elizabeth G. Phelps, M. Cecilia Power, William J. Renison, Anna E. Spillane, Mary A. Starkey, Helen F. Tarpey, Aloyse B. Tierney, Mary E. Walsh, Lillian A. Wiswell, assistants, June 22, 1914.

South Boston Summer Review Elementary School—Alice M. Riley, assistant in charge; Agnes E. Barry, Annie T. Burke, Helen T. Coholan, Ellen M. Collins, Emily M. Desmond, Marguerite L. Dolan, Ellen B. Donohoe, Margaret E. Gove, M. Isabel Harrington, Bessie E. Kennedy, Joseph E. Lynch, Susan H. Lynch, Mary A. Manning, Ora M. McDonnell, Edward J. Muldoon, Cora L. Mulrey, Agnes G. Nash, Elizabeth A. Nash, Mary E. Nicolson, Julia R. O'Brien, Henrietta L. Stumpf, Elizabeth J. Turnbull, assistants, June 22, 1914.

West End Summer Review Elementary School—Ella J. Boyle, Mary V. Cunningham, Mary J. Donaher, Mary A. Fletcher, Helena R. Guiney, Florence M. Halligan, Edgar E. Hulse, Agnes R. Hurley, James E. Lynch, Mary A. Magner, E. Beatrice Mahaney, Mary A. Mahoney, Marie E. McCue, Rose G. McEnroe, Esther L. McNellis, Annie M. Sheahan, Mary E. Smith, assistants, June 22, 1914.

Emergency List—Theresa V. Arato, Rita Baker, Rosella V. Bishop, A. Frances Brennan, Annette Campbell, Adah I. Childs, M. Edith Cole, Helen M. Connelly, Geraldine F. Corbett, Margaret L. and that the compensation of substitutes and temporary teachers of other ranks than those enumerated herein shall be one-fourth hundredth part of the minimum salary of the respective ranks for each day of actual service; provided, that the minimum pay of no substitute shall be less than two dollars (\$2.00) for each day of actual service, except as above provided.

3. ORDERED, That for the year ending Aug. 31, 1915, any teacher or member of the supervising staff who may be designated by the Superintendent, in accordance with the regulations, to fill a vacancy caused by the death, disability, or absence of a principal of a school or district, or of a director, assistant director, supervisor, or supervising nurse for a continuous period exceeding two weeks, shall receive, in addition to his or her regular salary, one-half of the difference between the said salary and the minimum salary of the higher position, during the time of such service, but not including the summer vacation. Teachers who may similarly be designated to fill the positions of master's assistant, first assistant in charge, or first assistant kindergarten, shall be paid at the rate of ninety-six dollars (\$96) per year in addition to the regular salary of their rank.

4. ORDERED, That William C. Crawford, master of the Boston Industrial School for Boys, be placed upon the sixth year of the salary of his rank, namely, thirty-nine hundred twenty-four dollars (\$3924) per year, to take effect Sept. 1, 1914; and that he be advanced on successive anniversaries of the latter date until the maximum of his rank is reached.

5. ORDERED, That Henry C. Fellman, Division Head, Class A, Boston Industrial School for Boys, be placed on the second year of the salary of his rank, namely, twenty-one hundred dollars (\$2100) per year, to take effect Sept. 1, 1914; and that he be advanced on successive anniversaries of the latter date until the maximum of his rank is reached.

6. ORDERED, That Lewis H. Haight, Division Head, Class B, Boston Industrial School for Boys, be placed upon the maximum salary of his rank, namely, nineteen hundred ninety-two dollars (\$1992) per year, to take effect Sept. 1, 1914.

7. ORDERED, That Hannibal L. Hamlin, Andrew Roswell, and Ellsworth M. Longfield, Division Heads, Class C, Boston Industrial School for Boys, be placed upon the second year of the salary of their rank, namely, fifteen hundred dollars (\$1500) per year, to take effect Sept. 1, 1914, and that they be advanced on successive anniversaries of the latter date until the maximum of their rank is reached.

8. ORDERED, That Edwin L. Carpenter and Carl G. E. Engborg, Shop Instructors, Boston Industrial School for Boys, be placed upon the third year of the salary

of their rank, namely, twelve hundred ninety-six dollars (\$1296) per year, to take effect Sept. 1, 1914; and that they be advanced on successive anniversaries of the latter date until the maximum of their rank is reached.

9. ORDERED, That Francis A. Williams, Shop Instructor, Boston Industrial School for Boys, be placed upon the second year of the salary of his rank, namely, twelve hundred dollars (\$1200) per year, to take effect Sept. 1, 1914; and that he be advanced on successive anniversaries of the latter date until the maximum of his rank is reached.

10. ORDERED, That the salary of George W. Earle, Head Master, Hyde Park High School, is hereby established at the rate of twenty-nine hundred eighty-eight dollars (\$2988) per year, to take effect Sept. 1, 1914; and that he be placed upon the minimum salary of his rank, namely, thirty-two hundred four dollars (\$3204) per year, on Jan. 1, 1915, and be advanced thereafter on successive anniversaries of the latter date until the maximum of his rank is reached.

11. ORDERED, That the salary of Harold F. Stevens, temporary assistant, Hyde Park High School, is hereby established at the rate of nine hundred ninety-six dollars (\$996) per year for the year ending Aug. 31, 1915.

12. ORDERED, That the employment of George Dickinson as instructor of the Hyde Park High School Orchestra and the Hyde Park High School Drum Corps, is hereby authorized during the school year 1914-15, and that he be paid for said service at the rate of two dollars (\$2) per lesson for not more than three lessons in all per week.

13. ORDERED, That the salary of Florence N. Damon, temporary assistant, kindergarten, Henry Grew District, is hereby established at the rate of five hundred four dollars (\$504) per year for the year ending Aug. 31, 1915.

14. ORDERED, That the salary of Ruth Solomon, temporary assistant in manual arts, is hereby established at the rate of six hundred ninety-six dollars (\$696) per year for the year ending Aug. 31, 1915.

15. ORDERED, That instructors in the mechanical department, Mechanic Arts High School, shall remain on the rate of salary they are receiving Aug. 31, 1914, until their respective anniversaries, when they shall be advanced to the next higher rate in the schedule for their rank as authorized for the year ending Aug. 31, 1915.

16. ORDERED, That the teachers of kindergartens who are assigned work not more than three afternoons a week in classes of the first three grades shall receive additional compensation for such service at the rate of one dollar (\$1.00) per session.

17. ORDERED, That Theresa A. Dacey be paid at the rate of three hundred dollars (\$300) per year in addition to her regular salary as assistant, elementary schools, during her special assignment to the direction of the work in the classes for stammerers, for the year ending Aug. 31, 1915.

18. ORDERED, That the compensation of Ellen E. Good, temporarily assigned to classes for stammerers, is hereby established at the rate of eight hundred twenty-eight dollars (\$828) per year, to take effect Sept. 1, 1914, and that she be placed on the minimum salary of the rank of assistant, classes for stammerers, namely nine hundred twelve dollars (\$912) per year, to take effect Sept. 8, 1914.

19. ORDERED, That the Director of Practice in Courses in Salesmanship be paid for her services in ten monthly installments of two hundred fifty dollars (\$250) each from Sept. 1, 1914, to June 30, 1915, upon the monthly certification to the Business Agent by the Superintendent that her services have been satisfactorily completed.

20. ORDERED, That the salary of Helen L. Smith, teacher of the class for semi-blind pupils, is hereby established at the rate of four dollars and seventy-five cents (\$4.75) per day of service for the year ending Aug. 31, 1915.

21. ORDERED, That the salary of Sarah M. Lilley, teacher of the class for semi-blind pupils, is hereby established at the rate of three dollars (\$3.00) per day of service for the year ending Aug. 31, 1915.

22. ORDERED, That the salary of Walter W. Stronker, temporary prevocational instructor, is hereby established at the rate of four dollars and forty cents (\$4.40) per four-hour period of service for the year ending Aug. 31, 1915.

23. ORDERED, That the salary of Louis K. Hull, temporary prevocational instructor, is hereby established at the rate of two dollars and twenty cents (\$2.20) per

two-hour period of service for the year ending Aug. 31, 1915.

24. ORDERED, That the salary of Robert E. Baker, temporary prevocational instructor, is hereby established at the rate of six dollars (\$6) per day of service for the year ending Aug. 31, 1915.

25. ORDERED, That the salary of Clarence W. Goodridge, temporary prevocational instructor, is hereby established at the rate of six dollars (\$6) per day of service for the year ending Aug. 31, 1915.

26. ORDERED, That Alfred R. Winter be paid at the rate of five hundred four dollars (\$504) per year in addition to his regular salary as sub-master, Mather District, as director of the work of the vocational counsellors, for the year ending Aug. 31, 1915.

27. ORDERED, That Rose A. Carrigan be paid at the rate of three hundred dollars (\$300) per year in addition to her regular salary as assistant, Normal School, during her special assignment as assistant in the testing of the work in arithmetic in the elementary schools, for the year ending Aug. 31, 1915.

28. ORDERED, That Mary A. Cahill, first assistant kindergarten, Abraham Lincoln District, be paid at the rate of eighty-four dollars (\$84) per year in addition to the regular salary of her rank for the year ending Aug. 31, 1915.

29. ORDERED, That the salaries of temporary teachers of salesmanship are hereby established for the year ending Aug. 31, 1915, in accordance with the following schedule:—

Day high schools, temporary teachers of salesmanship, per period.....	\$2.00
Evening high schools, temporary teachers of salesmanship, per period.....	2.00
Continuation schools, temporary assistants, salesmanship course, per half day of service.....	2.00

30. ORDERED, That the schedule of compensation provided for assistants assigned to classes attended exclusively by boys in grades above the third in the Agassiz, Bigelow, Dudley, Dwight, Eliot, Frederic W. Lincoln, Lawrence, Quincy, Sherwin, Thomas N. Hart and Wendell Phillips Districts; namely, first year \$600; annual increase \$48; maximum \$1224; shall be applied as follows: Assistants assigned to such classes upon the date of their original appointment or any anniversary thereof shall be advanced upon anniversaries of such dates in accordance with the above schedule; and upon the second anniversary of such date, in addition to the advance due to the above schedule, they shall be given an additional advance of one year on the schedule; and they shall be advanced thereafter upon successive anniversaries until the maximum of the rank is reached; and assistants assigned to such classes upon a date other than that of their original appointment or any anniversary thereof shall advance on successive anniversaries of their original appointment until the second anniversary of their assignment to such classes, when they shall be given an additional advance of one year upon the schedule and be advanced thereafter upon successive anniversaries of the date of their assignment, until the maximum of the rank is reached.

31. ORDERED, That teachers who have been reappointed to the Trade School for Girls or the Continuation School following service in either school ending not later than the close of the regular term in the preceding year, or appointed to service in other parts of the day school system following such service in such schools, shall be paid for the period between Aug. 31 and the date of the reopening of the schools at the same rate for said period as they were paid during the month of June last preceding; provided, that any teacher whose anniversary occurs between Aug. 31 and the reopening of school in the following September shall be advanced on such anniversary in accordance with the schedule of compensation in effect during the year preceding her reappointment.

32. ORDERED, That W. Stanwood Field, director of evening and continuation schools, be placed upon the maximum salary of his rank, namely, thirty-seven hundred eighty dollars (\$3780) per year, to take effect Sept. 1, 1914.

The orders collectively and unanimously passed.

SALARY OF DIRECTOR OF EXTENDED USE OF THE PUBLIC SCHOOLS.

The following was offered:—

ORDERED, That the salary of the Director of the Extended Use of the Public Schools is hereby established at the rate

of thirty-four hundred and twenty dollars (\$3420) per annum, for the year ending Aug. 31, 1915, and to continue until otherwise ordered.

The yeas and nays being requested, the order passed by the following vote:—

YEAS—Mr. Brock, Miss Curtis, Messrs. Lee and Scannell—4.
NAY—Mr. Corcoran—1.

ESTABLISHMENT OF SPECIAL CLASS, DWIGHT DISTRICT.

A communication was received from the Superintendent, under date of June 11, 1914, reporting that in accordance with the authority of the Board, he has established an additional special class, making four in all, in the Dwight District, to take effect Sept. 8, 1914.

Placed on file.

ESTABLISHMENT OF BRANCH OF TRADE SCHOOL FOR GIRLS.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to establish a branch of the Trade School for Girls in the North Bennet Street Industrial School, without expense to the city for heat, light or rent, to take effect Sept. 8, 1914.

EMPLOYMENT OF AN ADDITIONAL JUNIOR MASTER, GIRLS' LATIN SCHOOL.

Subsequently the Superintendent offered the following:—

ORDERED, That the Superintendent is hereby authorized to appoint one junior master in excess of the number allowed by the Regulations in the Girls' Latin School for the school year 1914-15.

Passed.

EMPLOYMENT OF HELEN E. HAPGOOD ON FOUR-FIFTHS TIME.

On motion of the Superintendent, it was ORDERED, That during the school year 1914-15, Helen E. Hapgood, a teacher of sewing, be placed on four-fifths time, and that she be paid four-fifths of her regular salary.

SUMMER REVIEW SCHOOLS.

On motion of the Superintendent, it was ORDERED, That branches of the summer review elementary schools are hereby authorized as follows for the term 1914:—

Roxbury Summer Review Elementary School in the Oliver Wendell Holmes School-house, School street, Dorchester.

South Boston Summer Elementary Review School in the Shurtleff School-house, Dorchester street, South Boston.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to appoint teachers of the following ranks in summer review schools:—

Summer Review High School: A principal and assistants.

Summer Review Elementary Schools: One principal for each school, one assistant in charge for each branch, and as many assistants as may be necessary.

On motion of the Superintendent, it was ORDERED, That the compensation of assistants in charge of branches of summer review elementary schools is hereby established at the rate of three dollars (\$3) per session for the term 1914.

On motion of the Superintendent, it was ORDERED, That the compensation of assistants, summer review elementary schools is hereby established at the rate of two dollars (\$2) per session for the term 1914, instead of two dollars and fifty cents (\$2.50) per session as ordered at the meeting of Apr. 6, 1914 (see p. 48).

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to make such emergency appointments as may be necessary for service in summer review schools for the term of 1914.

CLASSES FOR STAMMERERS.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to continue the classes for stammerers in the Emerson, Lewis and Washington Districts during the year ending Aug. 31, 1915.

A communication was received from the Superintendent, under date of June 11, 1914, reporting that, subject to the approval of the Board, he has assigned Theresa A. Dacey, assistant, Washington District, to direct the work of the classes for stammerers during the school year ending Aug. 31, 1915.

Placed on file, and the assignment approved.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized, subject to the approval of the Board, to temporarily assign assistants, elementary schools, to classes for stammerers during the school year ending Aug. 31, 1915.

A communication was received from the Superintendent, under date of June 11, 1914, reporting that, subject to the approval of the Board, he has temporarily assigned Emma L. Steves, assistant, Emerson District, and Marguerite L. Dolan, assistant, Dillaway District, as assistants in classes for stammerers, without change of salary, for the school year ending Aug. 31, 1915.

Placed on file, and the assignments approved.

CLASSES FOR SEMI-BLIND PUPILS.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to continue the class for semi-blind pupils in the Old Thornton-street School, Dillaway District, for the school year ending Aug. 31, 1915.

On motion of the Superintendent, it was ORDERED, That the employment of Helen L. Smith and Sarah M. Lilley as teachers of the class for semi-blind pupils, Dillaway District, is hereby authorized, to take effect Sept. 8, 1914, and to continue until the close of school in June, 1915.

INSPECTION OF WORK IN ARITHMETIC IN ELEMENTARY SCHOOLS.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to continue the testing of the work in arithmetic in the elementary schools during the school year ending Aug. 31, 1915, and to assign a teacher to this work.

A communication was received from the Superintendent, under date of June 11, 1914, reporting that, subject to the approval of the Board, he has re-assigned Rose A. Carrigan, assistant, Normal School, as assistant in the testing of the work in arithmetic in the elementary schools, to take effect Sept. 1, 1914.

Placed on file, and the assignment approved.

ASSIGNMENT OF ELLEN S. BLOOMFIELD AS TEACHER OF PENMANSHIP, NORMAL AND ELEMENTARY SCHOOLS.

A communication was received from the Superintendent, under date of June 11, 1914, reporting that, subject to the approval of the Board, he has assigned Ellen S. Bloomfield, assistant, elementary schools, to special service as teacher of penmanship in the Normal and elementary schools, her salary to be charged to the account of the Normal School, for the year ending, Aug. 31, 1915.

Placed on file, and the assignment approved.

TEMPORARY ASSISTANT INSTRUCTOR IN MILITARY DRILL, HYDE PARK HIGH SCHOOL.

On motion of the Superintendent, it was ORDERED, That a temporary assistant instructor in military drill is hereby authorized in the Hyde Park High School for the year ending Aug. 31, 1915.

CO-OPERATION BETWEEN MUSEUM OF FINE ARTS AND DEPARTMENT OF MANUAL ARTS.

A communication was received from the Superintendent, under date of June 11, 1914, to whom was referred at the meeting of Apr. 6, 1914 (see p. 53), a tentative plan of co-operation between the Museum of Fine Arts and the Department of Manual Arts in providing special opportunities in work in drawing and manual training for pupils in the public schools, reporting that an arrangement has been effected whereby high school pupils who specialize in art may take courses in that subject in the Art School

of the Museum of Fine Arts on afternoons during the ensuing school year.

The Director of the Museum of Fine Arts states that he is able to offer ten scholarships for these art courses. These scholarships, with the six pledges given by parents who pay tuition, will provide \$400 of the \$625 which is the amount estimated to meet the running expenses of the class, leaving a balance of \$225 which must be received before the plan can be carried out.

The Superintendent, therefore, recommends that the School Committee consider the advisability of providing nine scholarships, which would require an appropriation of \$225, and that the aforesaid expense be deducted from the estimate for drawing supplies in high schools and devoted to this purpose.

He further recommends that pupils to whom scholarships for this course are given be allowed five points towards graduation from high or Latin schools, and that the accompanying orders be passed.

Placed on file.

On motion, it was ORDERED, That the Superintendent is hereby authorized to arrange for an art course at the Art School of the Museum of Fine Arts, in accordance with the report submitted herewith, at an expense to the city not to exceed two hundred twenty-five dollars (\$225) during the financial year 1914-15.

On motion, it was ORDERED, That pupils of high and Latin schools who may be permitted by the Superintendent to attend the art course in the Art School of the Museum of Fine Arts be allowed five points toward graduation from a high or Latin school provided, they complete such course in a manner approved by the Superintendent.

ESTABLISHMENT OF COURSES IN HOUSEHOLD SCIENCE AND ARTS IN HIGH SCHOOLS.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized to establish courses in household science and arts in such high schools as he may deem expedient, to take effect Sept. 1, 1914.

On motion of the Superintendent, it was ORDERED, That the Board of School-house Commissioners is hereby requested to secure and equip suitable quarters for instruction in Household Science and Arts in connection with the East Boston High School.

EXPENDITURE FOR COURSE OF INSTRUCTION IN GARDENING FOR TEACHERS.

On motion of the Superintendent, it was ORDERED, That the Superintendent is hereby authorized during the school-year 1914-15 to conduct a course of instruction in gardening for teachers in conjunction with the Massachusetts Agricultural College, lessons to be given on Saturdays or evenings at an expense not to exceed one hundred dollars (\$100) during the financial year 1914-15.

SHORT UNIT COURSES, EVENING HIGH SCHOOLS.

On motion of the Superintendent, it was ORDERED, That short unit courses covering parts of the evening high school courses or closely allied thereto, are hereby authorized during the term 1914-15.

ISSUE OF CAR TICKETS TO VOLUNTEER LEADERS, EVENING CENTERS.

On motion of the Superintendent, it was ORDERED, That the Business Agent is hereby authorized to issue car tickets to volunteer leaders in the Roxbury and South Boston Evening Centers during the school year 1913-14 as follows:—

Name.	Amount.
Cogan, Matilda.....	\$1.50
Hachebarth, Elsa.....	1.50
Marcy, Katherine.....	2.00
McCrillis, Martha.....	2.00
Mitch, Cyrilla.....	3.00
McKenna, Agnes C.....	1.00
O'Brien, Katherine.....	1.60
Perrine, Helen.....	2.60
Smith, Loretta.....	2.10
Zimmers, Dorothy.....	1.00
Schlichting, Bertha.....	3.10
	\$21.70

ISSUE OF CAR TICKETS TO BERTHA A. MANN.

On motion of the Superintendent, it was ORDERED, That the Business Agent is hereby authorized to issue car tickets to Bertha A. Mann, assistant, office of the Superintendent, at an expense of two dollars and forty-five cents (\$2.45).

PAVING OF DARTMOUTH AND LAGRANGE STREETS.

On motion of the Superintendent, it was ORDERED, That the Commissioner of Public Works is hereby requested to have Dartmouth street, in the vicinity of the Public Latin School, and Lagrange street, in the vicinity of the Continuation School, paved with noiseless pavement.

ACCOMMODATIONS FOR COOKING AND MANUAL TRAINING CLASSES, JOHN D. PHILBRICK SCHOOL.

A communication was received from the Superintendent, under date of June 11, 1914, to whom was referred at the meeting of May 18, 1914 (see p. 84), a communication from Charles D. Lennon, President of the John D. Philbrick Home and School Association, requesting that additional accommodations be provided in the John D. Philbrick School-house for classes in cooking and manual training, reporting that it is not practicable to comply with the request. He states that although it is a fact that the pupils are required to walk a considerable distance to the Charles Sumner School, the conditions are quite similar in many other districts throughout the city; that there is no opportunity for the installment of cooking and manual training rooms in the John D. Philbrick School-house and recommends that the petitioner be informed that the Committee is unable to grant his request.

Placed on file, and the recommendation adopted.

ADDITIONAL ACCOMMODATIONS, ROBERT G. SHAW DISTRICT.

A communication was received from the Superintendent, under date of June 11, 1914, to whom was referred at the meeting of May 18, 1914 (see p. 84), a communication from the West Roxbury Citizens' Association requesting additional accommodations for the Robert G. Shaw District, reporting that as the communication is in the nature of a request for a new school-house, he has filed it for consideration at the time when the appropriations for new school-houses are considered in 1915; and recommending that the petitioners be notified that it would not be possible to have the new school-house ready for occupancy in September, 1915, since the school-house budget will not be acted upon until March or April, 1915, and should the petition receive favorable action at that time, the new building requested could not be ready for occupancy until 1916.

Placed on file, and the recommendation adopted.

RECOMMENDATION OF TRUSTEES OF THE PUBLIC LIBRARY RELATIVE TO USE OF LIBRARY COLLECTION OF LANTERN SLIDES.

A communication was received from the Superintendent, under date of June 11, 1914, to whom was referred at the meeting of May 18, 1914 (see p. 85), a recommendation of the Trustees of the Boston Public Library relative to the collection of lantern slides, reporting that he has had Frederick W. Swan, principal of the Quincy District, and Augustine L. Rafter, Assistant Superintendent of Schools, take up the matter, and their report is appended.

This report points out certain objections to the restriction of the use of slides in the schools to those in the possession of the Library, which appear to the Superintendent to be valid. Messrs. Rafter and Swan recommend that the suggestion of the Trustees to the effect that a joint committee made up of representatives of the School Committee, Trustees of the Library and Boston public school teachers be appointed to work out a plan whereby unnecessary duplication of slides may be avoided.

The Superintendent recommends that a copy of the report of Messrs. Rafter and Swan be forwarded to the Trustees of the Boston Public Library together with a copy of this report from the Superintendent.

dent, and that the School Committee inform the Trustees of the Public Library that it will be pleased to cooperate in the manner suggested in the sixty-second annual report of the Trustees of the Library, and, further, that the Superintendent be delegated the authority to act for the School Committee in the selection of the joint committee to take the matter in hand.

Placed on file, and the recommendations adopted.

PRINTING OF SCHOOL DOCUMENTS.

On motion of the Superintendent, it was ORDERED, That "A Description of the Work of the Model School," is hereby authorized as School Document No. 3, 1914, and that eight hundred (800) copies be printed for distribution.

On motion of the Superintendent, it was ORDERED, That "A Syllabus for Special Class Work" is hereby authorized as School Document No. 4, 1914, and that eight hundred (800) copies be printed for distribution.

BOUNDARY LINES OF THE FREDERIC W. LINCOLN AND OLIVER HAZARD PERRY DISTRICTS.

On motion of the Superintendent, it was ORDERED, That the boundary lines of the following elementary school districts are hereby established as follows:—

FREDERIC W. LINCOLN DISTRICT, FOR BOYS.

Beginning at the centre of Dorchester street on the northern shore; thence by the centre of Dorchester street to Broadway; thence by the centre of Broadway to Emerson street; thence by the centre of Emerson street to L street; thence by the centre of L street to the southern shore; thence by the southern shore to M street; thence by the centre of M street to Fifth street; thence by the centre of Fifth street to O street; thence northerly by the centre of O street to the northern shore.

OLIVER HAZARD PERRY DISTRICT, FOR BOYS.

All that part of South Boston lying easterly and southerly of the line beginning at the southern shore at the foot of M street; thence by the centre of M street to Fifth street; thence by the centre of Fifth street to O street; thence by the centre of O street to the northern shore.

OLIVER HAZARD PERRY DISTRICT, FOR GIRLS.

All that part of South Boston lying easterly and southerly of the line beginning at the southern shore at the foot of L street; thence by the centre of L street to Seventh street; thence by the centre of Seventh street to M street; thence by the centre of M street to the northern shore.

DISCONTINUANCE OF RANKS OF INSTRUCTOR AND ASSISTANT INSTRUCTOR OF ATHLETICS.

On motion of the Superintendent, it was ORDERED, That the rank of instructor in athletics and the rank of assistant instructor in athletics are hereby discontinued, to take effect Aug. 31, 1914, and that the services of the present incumbents of those ranks cease on the aforesaid date.

AMENDMENTS TO RULES AND REGULATIONS.

The Superintendent offered the following:—

ORDERED, That the regulations are hereby amended as follows:—

Section 291, paragraph 9. Add the following new clause: In the East Boston High School, one industrial instructor instead of an assistant.

Passed, under a suspension of the rules.

The Superintendent offered the following:—

ORDERED, That the regulations are hereby amended as follows:—

Section 292, paragraph 1. Strike out the paragraph and substitute in place thereof the following new paragraph:

Sect. 292, 1. Teachers of elementary schools shall consist of principals holding the rank of masters, sub-masters, master's assistants, first assistants, grammar school, first assistants in charge, assistants, first assistants kinder-

garten, assistants kindergarten, assistants special classes, and assistants classes for stammerers.

Passed, under a suspension of the rules.

The Superintendent offered the following:—

ORDERED, That the regulations are hereby amended as follows:—

Section 297. Strike out paragraphs 1, 2 and 3, and substitute therefor the following:—

Sect. 297. 1. Teachers in playgrounds shall consist of supervisors of schoolyard playgrounds, play-teachers, first assistants in playgrounds, assistants in playgrounds, assistants in sand gardens and teachers of dramatics and story-telling.

2. The superintendent shall appoint with the approval of the Board, a list of teachers of playgrounds, and all teachers of playgrounds shall be assigned from this list by him. He may also appoint, with the approval of the Board, a list of substitute teachers in playgrounds, from which list he shall fill all vacancies that may occur in playgrounds.

3. Play-teachers must hold a certificate of qualification, elementary school, class B, or a higher certificate. Supervisors of schoolyard playgrounds must hold a special physical training certificate for high schools, or a playground certificate, with a diploma of graduation from a school in physical education approved by the board of superintendents, and must have had one year's successful experience as first assistant of a playground under the jurisdiction of the Boston School Committee. First assistants in playgrounds must hold a certificate of qualification, elementary school, class B, or a higher certificate, or a kindergarten certificate, or a special physical training certificate for high schools, or a playground certificate. Assistants in playgrounds and assistants in sand gardens must hold a certificate of qualification, elementary school, class B, or a higher certificate, or a kindergarten certificate, or a special physical training certificate, or a playground certificate, or be pupils in regular attendance at the Boston Normal School. Teachers of dramatics and story-telling must hold a playground certificate including the position. Teacher coaches in high, Latin or industrial schools must hold a certificate of qualification covering service in high, Latin or industrial schools, unless regularly employed as teachers in high, Latin or industrial schools. Assignments of teacher coaches may be made to groups of not less than thirty pupils. Such assignments shall expire at the close of school in June of the year for which they are made.

Passed, under a suspension of the rules.

The Superintendent offered the following:—

ORDERED, That the regulations are hereby amended as follows:—

Section 301. Strike out the section and substitute therefor the following new section:

Sect. 301. There shall be a director of music, four assistant directors, and nine assistants.

Passed, under a suspension of the rules.

The Superintendent offered the following:—

ORDERED, That the regulations are hereby amended as follows:

Section 302, paragraph 1. Strike out the paragraph and substitute therefor the following new paragraph:

Sect. 302. 1. There shall be a director of school hygiene, an associate director of school hygiene, one assistant director of athletics, one assistant director of physical training, and as many instructors in physical training, assistant instructors in physical training, teacher coaches, supervisors of schoolyard playgrounds, play-teachers, first assistants in playgrounds, assistants in playgrounds, and assistants in sand gardens, as the Board may from time to time authorize.

Passed, under a suspension of the rules.

The Superintendent offered the following:—

ORDERED, That the regulations are hereby amended as follows:—

Section 310. Strike out the section and substitute therefor the following:—

DAY INDUSTRIAL SCHOOLS.

Sect. 310. 1. Teachers in the Boston Industrial School for Boys shall consist of a principal, holding the rank of master, a vice principal, a shop superintendent, instructors in academic and technical branches, division heads, class A, division heads, class B, division heads, class C,

shop foremen, shop instructors, and assistant shop instructors. There shall be a sufficient number of teachers of the aforesaid ranks, exclusive of the principal, to equal one for every fifteen pupils. In addition thereto, there shall be as many apprentice helpers and tool-keepers as the superintendent may from time to time appoint, subject to the approval of the Board, for a period not extending beyond the first day of September next following their appointment. There shall be one vocational assistant for every three hundred pupils. There shall be one bookkeeper and one clerical assistant.

2. Teachers in the Trade School for Girls shall consist of a principal, holding the rank of master, first assistants, assistants, trade assistants, and helpers. There shall be a sufficient number of teachers of the aforesaid ranks, exclusive of the principal, to equal one for every fifteen pupils. In addition thereto, there shall be as many aids and student aids as the superintendent may from time to time appoint, subject to the approval of the Board, for a period not extending beyond the first day of September next following their appointment. There shall be one vocational assistant for every one hundred pupils. There shall be one bookkeeper and one clerical assistant. One assistant instructor in physical training may be appointed.

Passed, under a suspension of the rules.

AUTHORIZED LIST OF TEXT AND SUPPLEMENTARY BOOKS.

The orders making changes in the authorized list of text and supplementary books, laid over at the previous meeting (pp. 95-97), were taken up.

On motion of the Superintendent, the orders were amended as follows:—

1. Strike out "Wentworth and Smith's Arithmetic, by George Wentworth and David Eugene Smith, published by Ginn & Company—Book I., Grades IV.-V.; Book II., Grades V.-VI.; Book III., Grades VII.-VIII.;" and substitute therefor the following:—

Wentworth and Smith's Arithmetic, Three Book Series, by George Wentworth and David Eugene Smith, published by Ginn & Company—Book I., Grades IV.-V.; Book II., Grades V.-VI.; Book III., Grades VII.-VIII.

Strike out "Morey's Arithmetic, by Charles W. Morey, M.A., published by Charles Scribner's Sons—Part I., Grade III.; Part II., Grade IV.; Part III., Grade V. Advanced—Part I., Grade VI.; Part II., Grades VII.-VIII.; Part III., Grade VIII.;" and substitute therefor the following:—

Morey's Arithmetic, Six Book Series, by Charles W. Morey, M.A., published by Charles Scribner's Sons—Part I., Grade III.; Part II., Grade IV.; Part III., Grade V. Advanced—Part I., Grade VI.; Part II., Grades VII.-VIII.; Part III., Grade VIII.

Add after The Stone-Millis Arithmetic the following words:—

"The new edition to take the place of the old as new books are needed."

Strike out "Ritchie's Primer of Physiology, by John W. Ritchie, published by World Book Company, Grade VII.;" and substitute therefor the following:—

Ritchie and Caldwell's Primer of Physiology, by John W. Ritchie and J. S. Caldwell, published by World Book Company, Grade VII.

2. Strike out "Nichols's New Graded Lessons in Arithmetic, Book II., by Wilbur F. Nichols, published by Thompson-Brown Company;" and substitute therefor the following:—

Nichols's New Graded Lessons in Arithmetic, Book II., by Wilbur F. Nichols, published by E. P. Dutton Company.

3. Strike out "Practical Homemaking, by W. H. Kittredge, published by The Century Company;" and substitute therefor the following:—

Practical Homemaking, by Mabel H. Kittredge, published by The Century Company.

5. Strike out "The Haliburton Primer, by W. L. Haliburton, published by D. C. Heath & Company, Grade I;" and substitute therefor the following:—

The Haliburton Primer, by Margaret W. Haliburton, published by D. C. Heath & Company, Grade I.

Strike out "Colette in France, by Etta MacDonald, published by Little, Brown & Company, Grade VI.;" and substitute therefor the following:—

9. ORDERED. That for a period of two years after a book has been dropped from the list of authorized text and supplementary books, the Business Agent shall furnish, on special approval of the Assistant Superintendent in charge, as many copies of the book as a Principal certifies to be necessary to complete the number required for a division.

10. ORDERED. That Howe & Leigh's A History of Rome, now authorized for use as a text-book in high and Latin schools be transferred to the list of books for supplementary use in high and Latin schools.

11. ORDERED. That the Superintendent is hereby authorized in his discretion to approve for use in the day or evening industrial schools, books authorized for use in the day elementary and high schools.

Laid over.

AMENDMENT TO RULES AND REGULATIONS.

The Superintendent offered the following:—

ORDERED. That the regulations be hereby amended as follows:—

Section 296, Par. 1. Strike out the paragraph and substitute in place thereof the following new paragraph:—

Sect. 296, 1. Teachers of evening schools shall consist of principals, supervisors of divisions, assistants in charge, first assistants, assistants, second assistants, interpreters, typewriting assistants and laboratory assistants. Other employees in evening schools shall consist of clerical assistants and tool keepers.

Section 296, Par. 3. Strike out the paragraph and substitute in place thereof the following new paragraph:—

3. Beside the principal, each evening high school shall be entitled to one assistant for every twenty-five pupils in average attendance and an additional assistant for an excess of twenty pupils.

Sect. 296, Par. 4. Strike out the paragraph and substitute in place thereof the following new paragraph:—

4. In each evening high school additional teachers may be appointed as follows: one clerical assistant, one typewriting assistant, one laboratory assistant in each class in physics or chemistry, and in schools having over 400 pupils in average attendance, one assistant.

Section 296, Par. 5. Strike out the paragraph and substitute in place thereof the following new paragraph:—

5. Beside the principal, each evening elementary school shall be entitled to one assistant or interpreter for every twenty pupils in average attendance and an additional assistant or interpreter for an excess of fifteen pupils; provided, that the required average number of pupils may be fifteen in grades E-1 and L-1, and in classes conducted under the provisions of Chapter 106, Acts of 1912.

Section 296, Par. 6. Strike out the paragraph and substitute in place thereof the following new paragraph:—

6. In each evening elementary school additional teachers may be appointed as follows: In schools having over 300 pupils in average attendance, one male first assistant; in schools having over 200 pupils in average attendance, one clerical assistant; in schools having over 400 pupils in average attendance, one assistant or interpreter.

Section 296, Par. 8. Strike out the paragraph and substitute in place thereof the following new paragraph:—

8. In the evening industrial school, one clerical assistant may be appointed.

Section 296, Par. 12. Strike out the paragraph and substitute in place thereof the following new paragraph:—

12. Employment of day school teachers in evening schools, except as principals thereof, shall not exceed 300 nights in any period of five years; provided, however, that such teachers may in the discretion of the superintendent continue such evening service until the close of the term for which they have been appointed, but no longer.

Section 296. Add to the section the following new paragraph:—

14. In evening elementary schools, one supervisor of division B classes and one supervisor of division C classes may be appointed.

Section 400. Strike out the section and substitute in place thereof the following new section:—

Section 400. Evening schools are established for the benefit of adults, and of minors not less than sixteen years of age who do not attend day schools, but pupils over fourteen years of age who attend day or continuation schools may be admitted under such conditions as the superintendent may prescribe.

Section 402, Par. 2. Insert in the second line after the word "than" the words "fifteen minutes past" so that the paragraph will read as follows:—

2. Sessions of the evening schools shall open not earlier than fifteen minutes past seven o'clock P.M., nor later than half past seven o'clock P.M., and shall close not later than half past nine o'clock P.M. on not less than three evenings in the week from Monday to Friday inclusive, as determined by the superintendent, the evenings of legal holidays and of the day following Thanksgiving excepted.

Section 403, Par. 4. Insert in the first line in place of the word "fourteen" the word "sixteen"—so that the paragraph will read as follows:—

4. Pupils sixteen years of age and over may be admitted without examination to evening elementary schools, provided, however, that admission to classes conducted under the provisions of Chapter 106, Acts of 1912, shall be restricted to pupils seventeen years of age and over and without examination.

Section 410, Par. 3. Strike out the paragraph and substitute in place thereof the following new paragraph:—

3. Each pupil shall be refunded the full amount of his advance payment during the last week of the evening school term; provided, first, that said pupil has been in attendance on at least two-thirds of the full number of sessions held during the term, or at least three-fourths of the full number of sessions held after January first,—but in case of personal illness certified to by a physician, this requirement may be waived at the discretion of the principal; second, that said pupil's conduct has been satisfactory to the principal; third, that said pupil has made proper use of the school equipment and supplies, and has returned all books or other material loaned to him. Each pupil who enrolls in a short unit course shall be refunded the full amount of his advance payment at the time the course for which he has registered has been completed to the satisfaction of the principal; provided, first, that said pupil has been in attendance on at least three-fourths of the full number of sessions held between the date of his registration and the date on which said course was completed; second, that said pupil's conduct has been satisfactory to the principal; third, that said pupil has made proper use of the school equipment and supplies, and has returned all books or other material loaned to him.

Passed, under a suspension of the rules.

EMPLOYMENT OF ADDITIONAL ATTENDANCE OFFICERS.

On motion, it was

ORDERED. That the employment of one additional attendance officer in connection with the enforcement of the laws relative

to attendance in evening and continuation schools, is hereby authorized to take effect Sept. 8, 1914.

On motion, it was

ORDERED. That the employment of four temporary attendance officers in connection with the enforcement of the laws relative to attendance in evening and continuation schools is hereby authorized during such part of the school year 1914-1915 as, in the opinion of the Superintendent, may be necessary.

A communication was received from the Secretary, under date of June 11, 1914, reporting that he has made requisition upon the Civil Service Commission for the names of candidates eligible for appointment to the attendance officer service, and has received the following certification:—

James A. Berrill, Jr., Joseph W. Hobbs and Daniel Thompson.

Placed on file, and the appointment of James A. Berrill Jr., as attendance officer approved, to take effect Sept. 8, 1914.

ADVISORY COMMITTEES.

A communication was received from the Secretary, under date of June 9, 1914, submitting the following list of the Advisory Committee on Evening Classes in Practical Arts; also, for the formal approval of the Board, the appointments contained in the lists of the Advisory Committee on Household Arts Continuation School Classes and the Advisory Committee on Evening Industrial Schools, which are for the term ending Aug. 31, 1916:

ADVISORY COMMITTEE ON EVENING CLASSES IN PRACTICAL ARTS.

Mrs. Agnes McLaughlin, 687 Boylston street; Miss Alice Blood, Simmons College.

To serve for the term ending Aug. 31, 1917:—

Mrs. Christopher F. Lee, R. H. Stearns Co., Tremont street; Mrs. Mary G. Moran, New England Kitchen, 39A Charles street.

ADVISORY COMMITTEE, HOUSEHOLD ARTS CONTINUATION SCHOOL CLASSES.

To serve for the term ending Aug. 31, 1914:—

Miss Bessie G. Kaufman, 9 Hamilton place; Mrs. Dale G. Steely, 16 Bellevue avenue, Cambridge.

To serve for the term ending Aug. 31, 1915:—

Miss Annie Carroll, 11 Clifford street, Roxbury; Mrs. J. H. Stannard, 19 Chestnut street; Frank Webb, New England Confectionery Company, Summer street.

To serve for the term ending Aug. 31, 1916:—

Miss Margaret Hurley, 38 Gove street, East Boston; Mrs. Charles F. Whiting, Francis avenue, Cambridge.

ADVISORY COMMITTEE ON EVENING INDUSTRIAL SCHOOLS.

To serve for the term ending Aug. 31, 1914:—

Gardner C. Anthony, Tufts College, Medford; Arthur Huddell, 386 Harrison avenue; James P. Munroe, 79 Summer street.

To serve for the term ending Aug. 31, 1915:—

Henry F. Arnold, American Tool and Machine Company, Hyde Park; Fred H. Drisko, 166 Devonshire street.

To serve for the term ending Aug. 31, 1916:—

Edward J. Ryan, 710 Albany street; Horace R. Yardley, 100 Boylston street.

Placed on file, and the appointments approved.

ADDITIONAL ASSISTANCE. BUSINESS AGENT'S OFFICE AND SUPPLY ROOM.

On motion, it was

ORDERED. That the Business Agent is hereby authorized to employ such temporary assistance in the supply room and the Business Agent's office, and at such compensation as he may deem advisable during the months of June, July, August and September, 1914.

ESTABLISHMENT OF RATE OF TUITION OF NON-RESIDENT PUPILS, VOLUNTARY CONTINUATION SCHOOLS.

A communication was received from the Business Agent, under date of May 15, 1914, requesting that the rate of tuition of non-resident pupils in the Voluntary Continuation Schools be established.

Placed on file.

On motion, it was

ORDERED, That the charge for tuition of non-resident pupils in the Voluntary Continuation Schools for the school year 1914-15 is hereby established at the following rates:

Modern Language Classes.....	\$24
Preparatory Salesmanship Classes.....	24
Department Store Salesmanship Classes.....	24
English Classes for Non-English Speaking People.....	56
Shoe and Leather Classes.....	8
Dry Goods Classes.....	8

TRANSFER OF UNEXPENDED BALANCES.

A communication was received from the Business Agent, under date of June 3, 1914, stating that as no appropriation has been made to provide the funds for the payment of pension to George Murphy, Chief Attendance Officer, he recommends that such appropriation be made by transfer from the appropriation "Salaries of Officers," and that such appropriation be combined with that for "Pensions to Janitors."

Placed on file.

The following was offered:—

ORDERED, That there be transferred from the appropriation "Pensions to Janitors" the entire amount appropriated therefor, seven thousand three hundred thirty-seven dollars and fifty-two cents (\$7,337.52) to a new appropriation "Pensions to Attendance Officers and Janitors."

Passed unanimously.

The following was offered:—

ORDERED, That there be transferred from the item "Salaries of Officers" the sum of five hundred fifty-five dollars (\$555) to the appropriation "Pensions to Attendance Officers and Janitors."

Passed unanimously.

APPROPRIATIONS AND EXPENDITURES TO JUNE 1, 1914.

A communication was received from the Business Agent, under date of June 11, 1914, submitting a statement showing the appropriations, expenditures and balances for the first five months of the current financial year, the total expenditures and expenditures for the corresponding five months of the financial year 1913-14, with the increases and decreases in the several items.

Placed on file.

SERVICES OF SEALER OF WEIGHTS AND MEASURES.

A communication was received from the Business Agent, under date of June 11, 1914, informing the Board that valuable services have been rendered by the Sealer of Weights and Measures during the past year in checking the weights of coal delivered to the several school buildings by ordering the teams of the contractors on to sealed scales from time to time, comparing the weights thus obtained with the certified weights on the tickets held by the drivers.

Placed on file.

On motion, it was

ORDERED, That the School Committee hereby acknowledges the valuable assistance rendered by the Sealer of Weights and Measures in checking the weights of coal delivered by contractors to the several school buildings during the past year.

AMENDMENT TO RULES AND REGULATIONS.

The following was offered:—

ORDERED, That the regulations be amended as follows: Section 345, paragraph 2. Strike out the paragraph and substitute the following new paragraph:—

2. Teachers absent from duty on leave

without pay or absent without leave for one year shall receive no compensation during such period. Teachers absent from duty on leave without pay or absent without leave for a period of less than one year who die, resign, or retire from the service during or at the end of such period shall receive no compensation during any part of such period. The salaries of teachers absent from duty on leave without pay or absent without leave for a period of less than one year and who return to the service shall be subject to deductions in accordance with paragraph 3 of this section. The provisions of this paragraph shall apply to members of the supervising staff, nurses, clerical assistants and bookkeepers.

Paragraph 3. Renumber as paragraph 4, and insert the following as new paragraph 3.

3. Except for leaves of absence without loss of pay granted by order of the Board or under the provisions of section 344, paragraph 1 of the regulations, deduction shall be made from the compensation of the absentee at the following rates for each day of absence, including days on which the regular school sessions may be suspended; provided, that in the event of such deduction exceeding the salary for the month for which the deduction is made, the balance shall be deducted from the salary for any succeeding month.

	One year's absence without leave, or on leave without pay.....	Deduction per day for absence without pay, or without leave.....	Deduction per day on leave granted.....
Members of supervising staff whose vacations are not expressly limited by regulations; teachers in day schools, except as hereinafter provided; clerical assistants (except in continuation schools) and bookkeepers.....	****	1/200	1/400*
Supervising nurse and assistant nurses.....	****	1/250	1/500
Members of supervising staff whose vacations are limited to four weeks in each calendar year.....	****	1/280	1/560
Clerical assistants in continuation schools.....	****	1/284	1/568
Teachers in day industrial schools whose compensation is at a monthly rate.....	***	.05	.025
Women assistant managers, Evening Centers..	****	\$3.00 per evening	\$4.50 per evening

***No compensation allowed.

*In the Trade School for Girls and the Boston Industrial School for Boys a period of eight hours is equivalent to a day's service, and a period of four hours is equivalent to a half-day's service.

Passed, under a suspension of the rules.

RETIREMENT OF CERTAIN SCHOOLHOUSE JANITORS ON PENSION.

The following was offered:—

ORDERED, That in accordance with the provisions of Chapter 113 of the Acts of 1911, as amended by Chapter 313 of the Acts of 1913, the following-named school-house janitors, honorably discharged veterans of the Civil War, who have severally been in the service of the city for ten or more years, and who are now unable fully to perform their duties, are, in accordance with their several applications, hereby retired from active service, with the consent of the Mayor, at one-half their respective net rates of compensation per annum, as hereinafter specified, to take effect June 11, 1914:—

William H. Bowman, Aaron Davis and William Eustis School-houses.....	\$336.76
Michael Dundon, Joshua Bates School-house.....	481.52
Gustavus H. Gibbs, Bunker Hill and Thomas Starr King School-houses.....	600.08
James McNabb, W. L. P. Boardman School-house.....	504.40
Charles O. Newell, Dwight School-house....	572.00
John W. Remmonds, Bennett School-house and Annex.....	732.16

Passed unanimously.

CERTIFICATION OF AREAS, 25 LAGRANGE STREET.

A communication was received from the Schoolhouse Custodian, under date of June 11, 1914, transmitting a certification of the areas of premises 25 Lagrange street, to take effect June 1, 1914, which have been hired by the Schoolhouse Commission, with the consent of the Chairman of the Board, and now occupied by the Business Agent and the Schoolhouse Custodian, to take effect June 1, 1914, and upon which the compensation for janitor service is based.

Placed on file, and the Chairman authorized to approve such certification to take effect on the date stated.

JANITORSHIP, CHARLES BULFINCH SCHOOL-HOUSE.

A communication was received from the Schoolhouse Custodian, under date of June 11, 1914, submitting a list of applicants for transfer to the janitorship of the Charles Bulfinch School-house, and recommending that James F. Cooper, janitor of the Skinner School-house, who stands at the head of the list, be appointed to the position, to take effect June 19, 1914.

Placed on file and the transfer of James F. Cooper approved, to take effect on the date stated.

JANITORSHIP, 25 LAGRANGE STREET.

A communication was received from the Schoolhouse Custodian, under date of June 11, 1914, recommending that requisition be made upon the Civil Service Commission for the names of candidates eligible for the janitorship of the premises at 25 Lagrange street.

Placed on file, and the Secretary directed to make requisition upon the Civil Service Commission accordingly.

PAYMENT OF ACTING JANITORS DURING SUMMER VACATION.

A communication was received from the Schoolhouse Custodian, under date of June 10, 1914, recommending that the Business Agent be authorized to approve and pass for payment all sums due temporary janitors for services rendered between June 11 and Sept. 14, 1914, upon certification of such service by the Schoolhouse Custodian in order that the Janitors rendering temporary service during the summer vacation may receive compensation therefor.

Placed on file, and the recommendation adopted.

TEMPORARY JANITORS.

A communication was received from the Schoolhouse Custodian, under date of June 10, 1914, stating that he has considered the applicants certified by the Civil Service Commission as eligible for temporary appointment as janitors of various school-houses, and that he has temporarily employed the following-named persons as janitors of the school-houses mentioned:

John P. Powers, Old Gibson School-house.

Jeremiah J. White, Charles Bulfinch School-house.

Logan A. McLean, English High School Annex.

James A. FitzGerald, Elizabeth Peabody School-house.

John J. Sheehan, Samuel Dexter School-house.

Thomas H. Walsh, Louisa May Alcott School-house.

Patrick C. McKernan, Oak Square School-house.

Placed on file, and the appointments approved.

APPOINTMENT AND PAYMENT OF ACTING JANITORS.

A communication was received from the Schoolhouse Custodian, under date of June 10, 1914, submitting a list of temporary appointments and reappointments of janitors for periods of ten days or less, and amounts due for services, as follows:

Aaron Davis School-house, John L. Nolan, reappointed June 6, 1914. Amount due June 2 to 11, 1914, inclusive, \$25.16.

Albert Palmer School-house and Portable No. 62, Charles D. P. Desmond, reappointed June 6, 1914. Amount due June 2 to 11, 1914, inclusive, \$23.23.

Charles C. Perkins School-house, Daniel J. O'Neill, reappointed June 6, 1914. Amount due June 2 to 11, 1914, inclusive, \$26.37.

To Joseph L. Butler, Florence street School-house, from June 2 to 6, 1914, inclusive, nine and 96-100 dollars (\$9.96).

To Joseph L. Butler, Mt. Vernon street School-house and Portables Nos. 54 and 106, from June 7 to 11, 1914, inclusive, twelve and 19-100 dollars (\$12.19).

To James F. Cooper, Sherwin School-house, from June 2 to 11, 1914, inclusive, forty-two and 40-100 dollars (\$42.40).

To Charles D. P. Desmond, Albert Palmer School-house and Portable No. 62, from June 2 to 11, 1914, inclusive, twenty-three and 23-100 dollars (\$23.23).

To Samuel A. Dodds, Cottage Place School-house, from June 2 to 11, 1914, inclusive, nine and 46-100 dollars (\$9.46).

To John V. Dole, W. L. P. Boardman School-house and Portable No. 64, from June 2 to 11, 1914, inclusive, twenty-nine and 87-100 dollars (\$29.87).

To James A. Fitzgerald, Elizabeth Peabody School-house and Portable No. 55, from June 2 to 11, 1914, inclusive, eighteen and 17-100 dollars (\$18.17).

To James V. Flaherty, Dorchester-avenue School-house and Portable No. 29, from June 2 to 11, 1914, inclusive, twenty and 93-100 dollars (\$20.93).

To John L. Galway, Everett-street School-house, from June 7 to 11, 1914, inclusive, two and 92-100 dollars (\$2.92).

To Ira M. Jacobs, Joseph Tuckerman School-house, from June 2 to 11, 1914, inclusive, twenty-seven and 29-100 dollars (\$27.29).

To James E. Johnson, Dwight School-house, from June 2 to 11, 1914, inclusive, thirty-three and 60-100 dollars (\$33.60).

To Michael Keefe, Samuel Dexter School-house, from June 2 to 6, 1914, inclusive, nine and 31-100 dollars (\$9.31).

To Henry Keenan, William Brewster School-house and Annex and Portable No. 75, from June 2 to 11, 1914, inclusive, twenty-five and 54-100 dollars (\$25.54).

To William Kerrigan, Mt. Vernon-street School-house and Portables Nos. 54 and 106, from June 2 to 6, 1914, inclusive, twelve and 19-100 dollars (\$12.19).

To Francis P. Linnchan, Plummer School-house and Portables Nos. 53, 56, 59, 68, 81, and 95, from June 2 to 11, 1914, inclusive, forty-nine and 94-100 dollars (\$49.94).

To James Lynch, Rosewood-street Portable No. 12, from June 2 to 11, 1914, inclusive, three and 30-100 dollars (\$3.30).

To Jacob Mayer, Joshua Bates School-house and Portable No. 43, from June 2 to 11, 1914, inclusive, twenty-seven and 83-100 dollars (\$27.83).

To William McCarthy, Nahum Chapin School-house, from June 2 to 11, 1914, inclusive, fourteen and 69-100 dollars (\$14.63).

To Patrick C. McKernan, Oak Square School-house, from June 7 to 11, 1914, inclusive, eight and 11-100 dollars (\$8.11).

To Logan A. McLean, English High School Annex, from June 2 to 11, 1914, inclusive, seventeen and 19-100 dollars (\$17.19).

To Lawrence Morgan, Martha A. Baker School-house, from June 2 to 6, 1914, inclusive, nine and 21-100 dollars (\$9.21).

To George F. Murphy, Hillside School-house, from June 2 to 11, 1914, inclusive, nineteen and 94-100 dollars (\$19.94).

To John Murphy, Frances E. Willard School-house, from June 7 to 11, 1914, inclusive, six and 71-100 dollars (\$6.71).

To William Murphy, Frances E. Willard School-house, from June 2 to 6, 1914, inclusive, eight and 28-100 dollars (\$8.28).

To Chester L. Musgrave, Florence street

School-house, from June 7 to 11, 1914, inclusive, nine and 96-100 dollars (\$9.96).

To John L. Nolan, Aaron Davis School-house, from June 2 to 11, 1914, inclusive, twenty-five and 16-100 dollars (\$25.16).

To Patrick A. O'Brien, Skinner School-house, from June 7 to 11, 1914, inclusive, six and 57-100 dollars (\$6.57).

To William O'Connell, Elbridge Smith School-house, from June 2 to 11, 1914, inclusive, twenty-seven and 1-100 dollars (\$27.01).

To Daniel J. O'Neill, Charles C. Perkins School-house, from June 2 to 11, 1914, inclusive, twenty-six and 37-100 dollars (\$26.37).

To John H. Palmer, John Greenleaf Whittier School-house and Portables Nos. 10 and 103, from June 2 to 11, 1914, inclusive, thirty-three and 54-100 dollars (\$33.54).

To Frank Powers, Old Gibson School-house, from June 2 to 6, 1914, inclusive, eight and 39-100 dollars (\$8.39).

To John P. Powers, Old Gibson School-house, from June 7 to 11, 1914, inclusive, eight and 39-100 dollars (\$8.39).

To John B. Pratt, Oak Square School-house, from June 2 to 6, 1914, inclusive, eight and 11-100 dollars (\$8.11).

To Michael T. Reagan, Clinch School-house and Portables Nos. 25 and 72, from June 2 to 11, 1914, inclusive, twenty and 77-100 dollars (\$20.77).

To David F. Sennott, William E. Endicott School-house, Glenway and Annex and Portables Nos. 5, 45, 50, 67, 80 and 88, from June 2 to 11, 1914, inclusive, fifty-four and 76-100 dollars (\$54.76).

To John J. Sheehan, Samuel Dexter School-house, from June 7 to 11, 1914, inclusive, nine and 31-100 dollars (\$9.31).

To William Svestis, 25 Lagrange street, from June 1 to 11, 1914, inclusive, twelve and 73-100 dollars (\$12.73).

To Thomas H. Walsh, Louisa May Alcott School-house, from June 2 to 11, 1914, inclusive, twenty-five and 96-100 dollars (\$25.96).

To Charles Wason, Skinner School-house, from June 2 to 6, 1914, inclusive, eight and 12-100 dollars (\$8.12).

To Jeremiah J. White, Charles Bulfinch School-house, from June 3 to 11, 1914, inclusive, twenty-nine and 60-100 dollars (\$29.60).

REPORT ON TEMPERATURE IN SCHOOL-ROOMS.

A communication was received from the Director of School Hygiene and School-house Custodian, under date of June 10, 1914, who were requested at the meeting of May 18, 1914 (see p. 84), to report the names of those buildings containing rooms in which the temperature was found in the report of the Director of School Hygiene of Apr. 4, 1914, to be above 70 degrees with the windows open, or below 69 degrees with the windows closed, giving a detailed report on this subject.

Placed on file, and a copy ordered to be sent to each member of the Board.

SALARIES OF EMPLOYEES, OFFICES OF SCHOOL COMMITTEE.

On motion, it was ORDERED, That the salaries of persons hereinafter named and employed in the offices of the School Committee are hereby established at the respective rates stated, to take effect on the dates specified and to continue for the remainder of the year ending Aug. 31, 1915, and thereafter until otherwise ordered:—

BUSINESS AGENT'S OFFICE.

IMPROVEMENT OF ELECTRIC LIGHTING FACILITIES, MARY HEMENWAY SCHOOL-HOUSE.

On motion, it was
ORDERED, That the Board of School-house Commissioners be requested to extend the electric lighting facilities in the Mary Hemenway School-house to include the assembly hall and stairways.

SCHOOL CENSUS, 1914-15.

A proposal was received from John J. Sullivan, under date of May 27, 1914, submitting a proposal to take the School Census for the year 1914-15.
 Placed on file.

On motion, it was
ORDERED, That the proposal of John J. Sullivan, under date of May 27, 1914, to take the school census for the current year for the sum of eighteen hundred fifty dollars (\$1850) be, and the same hereby is, accepted.

PAYMENT OF SALARY DUE CHARLES M. CLAY.

On motion, it was
ORDERED, That the salary due Charles M. Clay, late headmaster of the Roxbury High School, be paid to his brother, Benjamin G. Clay.

AMENDMENTS TO RULES AND REGULATIONS.

The Superintendent offered the following:

ORDERED, That the regulations are hereby amended as follows:—

Section 308. Strike out the section.

Chapter XXVII. Strike out the chapter and substitute in place thereof the following new chapter:—

CHAPTER XXVII.

Section 480. The compulsory continuation schools are day schools established under the provisions of Chapter 806 of the Acts of 1913, for the benefit of minors between the ages of fourteen and sixteen years, who are working under employment certificates, or who are at home under special home permits.

Sect. 481. 1. The term of the compulsory continuation schools shall begin on the second Wednesday in September and shall continue up to and including the Wednesday of the second calendar week immediately preceding the fourth of July.

2. Sessions of the compulsory continuation schools shall be suspended on Saturday afternoons and Sundays and the following-named holidays and vacations: the Twelfth of October; from twelve o'clock on the day before Thanksgiving Day until the following Monday; from the second Friday preceding Christmas Day to and including the first day of the following January, but when the first day of January of any year shall fall later than Wednesday of any week, the sessions shall be suspended on the remaining days of that week; the Twenty-Second of February; Good Friday; the Nineteenth of April; Memorial Day, and the Seventeenth of June. Whenever any of the aforesaid holidays, except the first day of January falls upon Sunday, the schools shall not be in session on the following Monday.

3. The compulsory continuation classes shall have sessions for each class of not less than four hours per week, at such times, within the law, as shall best suit the convenience of the employers and serve the interests of pupils; provided, that 160 hours or more of instruction taken by any group in a shorter period than an entire term, when conditions of employment and the organization of classes make it possible and desirable, shall be considered as equivalent to a year's work under the provisions of the law, but the completion of 160 hours of work shall not operate to exclude a pupil from Continuation School.

4. The sessions of continuation schools shall open and close at hours determined

by the Director of Evening and Continuation Schools, but in no case are sessions to open earlier than eight o'clock A.M. or close later than six o'clock P.M.

Sect. 482. School rooms shall be open and teachers shall be present at least fifteen minutes before the time for sessions to begin.

Sect. 483. Voluntary continuation schools are schools for the benefit of minors and others over sixteen years of age who by reason of their employment or home duties are unable to take advantage of instruction in the regular day and evening schools.

Sect. 484. 1. The term of the voluntary continuation schools shall begin on the second Monday in September and continue for thirty-six school weeks with the same vacations and holidays as are provided by the regulations for compulsory continuation schools, except that courses in shoe and leather, dry goods, banking, business organization and salesmanship, clothing, English for Newspaper Workers, retail shoe salesmanship, cooking and serving shall be given in two courses; the first, for twelve weeks beginning with the second Wednesday in September, and the second course for twelve weeks, beginning on the second Monday in January.

2. Sessions in the voluntary continuation school classes shall be conducted on two two-hour sessions per week, except that in English for non-English speaking people, classes shall be conducted on five two-hour sessions each week.

Sect. 485. Voluntary continuation school courses shall consist of the following subjects: shoe and leather, dry goods, banking, business organization and salesmanship, clothing, English for newspaper workers, retail shoe salesmanship, cooking and serving, preparatory salesmanship, household arts, English to non-English speaking people.

Sect. 486. No child shall be admitted to a compulsory continuation school or class until he shall have presented a statement showing his assignment to that particular class by the person authorized to make such assignment.

Sect. 487. No pupil shall be admitted to a voluntary continuation school who is unable to attend each session regularly, except by permission of the director of evening and continuation schools.

Sect. 488. Pupils sixteen years of age and over may be admitted without examination to voluntary continuation schools. No person who is a non-resident of Boston shall be admitted to a voluntary continuation school until he or she has shown the teacher in charge the Business Agent's receipt for tuition charges.

Sect. 489. No pupil shall be transferred from one class to another except with the approval of each head of division concerned.

Sect. 490. 1. Any pupil who shall absent himself from a session of the continuation school on which his attendance is due, shall be reported to the proper attendance officer by the assistant in charge of his class, unless in the opinion of said assistant such absence was excusable.

Sect. 490. 2. Any pupil who shall continue to absent himself from continuation school after both the pupil and his employer have received from an attendance officer, notice of such pupil's absence shall be reported by such attendance officer to the superintendent through the director of evening and continuation schools, and cases so reported shall be dealt with by the superintendent in accordance with the provisions of the law.

Sect. 491. A pupil who is guilty of disobedience or improper conduct may be suspended by a head of division, who shall immediately report such suspension to the director of evening and continuation schools. In case a pupil who is under suspension shall not have been reinstated by the director of evening and continuation schools within fourteen days after the date of such suspension, the matter shall be reported to the superintendent, who may then revoke the employment certificate of such pupil.

Sect. 492. Children whose employment is terminated shall continue their attendance at compulsory continuation school on five half-days each week as determined by the director of evening and continuation schools. The remaining half-days shall afford opportunity for such children to secure other employment. If at the end of ten school days, a child has neither secured employment nor received a bona fide promise of employment, such child shall be discharged from continuation school and reported to the chief truant officer for the day schools.

Sect. 493. Pupils of the regular day schools who secure employment during the vacation of the regular day schools or who secure employment for the purpose of practice and experience in connection with their day school course shall be considered as pupils of the regular day schools, and shall be exempt from attendance upon compulsory continuation schools, provided however, that such pupils present a written statement from their principal at the time employment certificates are secured.

Sect. 494. Teachers in continuation schools shall consist of heads of divisions; trade assistants; assistants; assistants, advanced courses; special assistants; student teachers and clerical assistants.

Sect. 495. Teachers in continuation schools shall be appointed in June of each year, and at such other times as the needs of the service require.

Sect. 496. 1. There shall be one Head of Division for each division or large group of pupils whose occupations and aims are closely allied, but in general there shall not be more than fifteen hundred pupils assigned to one division, provided, however, that the number of Heads of Divisions shall not exceed six.

2. There shall be one trade assistant or assistant for each group of pupils representing four hundred pupil hours of instruction per week and there may be in the discretion of the superintendent one trade assistant or assistant for each group of pupils representing three hundred pupil hours of instruction per week, one pupil hour to be understood to mean one hour of instruction for one pupil.

3. Additional teachers, including assistants, advanced courses; special assistants, and one student teacher for each five hundred pupils assigned to compulsory continuation classes, may be appointed in the discretion of the superintendent.

Sect. 497. 1. In each building occupied by two hundred or more compulsory continuation school pupils, one clerical assistant may be appointed.

2. One clerical assistant may be appointed to assist the head of division having charge of the department of assignment and records.

3. Clerical assistants employed in continuation schools shall be allowed the holidays named or included in the vacations specified in Section 481, par. 2 of the regulations, and in addition thereto, July Fourth, Labor Day, and not more than three weeks' vacation in each calendar year, to be taken at such time or times as the director of evening and continuation schools shall determine.

Sect. 498. Continuation school teachers in addition to their periods of instruction shall perform such follow-up work both in their pupils' places of employment and in their pupils' homes as is required by the director of evening and continuation schools, but the hours of service per week shall meet the standards of requirements set up by the State Board of Education for State-aided schools.

Sect. 499. Continuation school teachers, except those whose vacation periods are otherwise fixed by order of the Board, shall report for duty at nine o'clock A.M. on the Tuesday preceding the second Wednesday of September, and they shall continue on duty, except on such days as the sessions of the schools are suspended or, unless leave of absence is granted in accordance with the regulations, up to the close of the regular sessions on Wednesday of the second calendar week immediately preceding the Fourth of July. The Director of Evening and Continuation Schools may require the attendance of teachers on Thursday and Friday of the last week for assistance in the completion of records and reports.

Sect. 500. Teachers regularly employed in day service at the time of their appointment to continuation school service, and those at present in continuation school service, who were on tenure in the regular day schools at the time of their appointment, shall be returned to their former rank in the regular day school service whenever they fail to secure the approval of the State Board of Education in continuation school work, at the salary to which they would then be entitled had they remained in day school service, and further that those in continuation school service prior to September 1, 1913, who were on the eligible list when appointed, shall be transferred to the regular day service with the rank of assistant elementary school, whenever they shall fail to secure the approval of the State Board of Education in continuation school work at the salary next higher than they are then receiving, but not to exceed the maximum of the rank.

Sect. 501. Teachers from outside the serv-

ice appointed to continuation schools may, upon satisfactory evidence as to the amount received in wages during the twelve months next preceding the date of their appointment to continuation schools, be placed upon the yearly salary of their respective schedules next higher than the amount so certified; provided, however, that no such teacher may be placed on a higher salary than that of the fifth year of his rank.

Sec. 502. There shall be an advisory committee for compulsory continuation schools in accordance with the regulations for advisory committees.

Sec. 503. Certificates of proficiency signed by a head of division and by the superintendent may be awarded to deserving pupils in the continuation schools at the close of the period of such pupils' attendance.

Sec. 504. Exhibitions of the work of the continuation schools may be held at such times and at such places as the superintendent shall approve.

Chapter XXVIII. Renumber the Sections in this chapter by striking out number 485 and substituting in place thereof number 510.

Laid over, and a copy ordered to be transmitted to each member of the Board.

PROTESTS AGAINST VISITS OF PUPILS TO ART MUSEUM.

Sundry communications were received and presented, protesting against the visits of pupils to the Art Museum. Referred to the Chairman with full powers.

NEW SCHOOL-HOUSE FOR BOSTON INDUSTRIAL SCHOOL FOR BOYS.

A communication was received from the master of the Boston Industrial School for Boys, under date of June 2, 1914, requesting that this Board ask the Board of Schoolhouse Commissioners to enter the following provisions into its contract for the building of the new school-house for the Boston Industrial School for Boys:

1st. That the building shall be finished, according to contract, not later than Sept. 1, 1915.

2nd. That in the order of the construction, the heating, lighting and power plant and the shop wing be built and made ready for use first, that is, in advance of the main building.

Referred to the Chairman for conference with the Board of Schoolhouse Commissioners.

SCHOOL PROPERTY NOT IN ACTUAL USE.

The Chairman presented a memorandum prepared by the Finance Commission showing a list of school property not in actual use which it is suggested shall be disposed of.

Referred to the Superintendent for investigation and report.

UNFINISHED BUSINESS.

The order laid over at the meeting of June 1, 1914 (see p. 99), amending sections 377 and 384 of the regulations, was taken up. The yeas and nays being requested, the order passed by the following vote:—

YEAS—Miss Curtis, Messrs. Lee and Scannell—3.

NAYS—Messrs. Brock and Corcoran—2.

The order laid over at the meeting of Feb. 16, 1914 (see p. 16), amending sections 377 and 384 of the regulations, was taken up and placed on file.

The Annual Reappointments of Teachers and Members of the Supervising Staff, and four accompanying orders, laid over at the meeting of June 1, 1914 (see p. 93), were taken up and collectively passed.

The order laid over at the meeting of June 1, 1914 (see p. 95) authorizing a course of study for the first-year class in the Mechanic Arts High School, was taken up and amended by adding English, five periods, per week, periods to include study and recitation. The order, as amended, passed.

The order laid over at the meeting of June 1, 1914 (see p. 97), amending section 138, paragraph XII of the rules, was taken up and passed.

NEW COURSE OF STUDY, KINDERGARTEN SECTION, BOSTON NORMAL SCHOOL.

On motion, it was ORDERED, That the Superintendent is requested to report by Jan. 1, 1915, a modification of the third year of the regular

course of study in the Normal School by which the pupils shall receive instruction in the principles and practice of the kindergarten.

On motion, it was ORDERED, That the Superintendent is requested to prepare and report by Jan. 1, 1915, a three-year kindergarten, or kindergarten and primary course in the Normal School.

RECESS.

The Board took a recess at 11.05 o'clock P.M.

The members of the Board reassembled in the School Committee Chamber at 11.20 P.M., and were called to order by the Chairman.

ADJOURNMENT.

The Board adjourned at 11.30 o'clock P.M. to meet on Friday, June 12, 1914, at 4 o'clock P.M.

Attest:

ELLEN M. CRONIN,

Secretary pro tempore.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 22, 1914.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD in the chair and all the members present.

The Council voted, on motion of Coun. BAL-LANTYNE, to dispense with the reading of the records of the last meeting.

JURORS DRAWN.

Jurors were drawn in accordance with the law (the Mayor not being present), viz.:

Twenty-two Grand Jurors, Superior Criminal Court, to appear July 6, 1914:

George J. Doherty, Ward 13; William P. Preble, Ward 25; Edward J. McCallum, Ward 1; Timothy F. Higgins, Ward 12; Frank A. Kamp, Ward 22; Frank Miller, Ward 20; Bartly Malloy, Ward 26; Jeremiah P. O'Riordan, Ward 5; Joseph L. Pinder, Ward 10; James Watson, Ward 24; James E. Phelan, Ward 4; Joseph Lindon Smith, Ward 11; John J. McNamara, Ward 15; Lauritz F. Rasmussen, Ward 24; William H. Richardson, Ward 1; Patrick Bowdren, Ward 5; Thomas G. Cox, Ward 26; William J. Brown, Ward 19; James H. Keegan, Ward 17; Edgar A. Cook, Ward 11; William J. Hussey, Ward 13; James P. Grimes, Ward 8.

Forty-one traverse jurors, Superior Criminal Court, to appear July 8, 1914.

Edward J. Sampson, Ward 21; Solomon H. Harrison, Ward 10; James A. Sullivan, Ward 20; Michael Duffy, Ward 6; James A. Mahoney, Ward 6; Walter C. Warren, Ward 25; Michael J. Foley, Ward 2; Daniel J. McDougall, Ward 10; John Murray, Ward 13; Albert F. Higgins, Ward 25; George H. Gunning, Ward 8; Barnard E. Levine, Ward 21; Francis Lally, Ward 1; Charles Duckering, Ward 20; John J. Prendergast, Ward 17; Frederick A. Schumann, Ward 22; Thomas Rielly, Ward 26; James J. Ahern, Ward 7; John E. Anderson, Ward 18; Frederick Wachenheim, Ward 14; Thomas J. O. Pratt, Ward 16; Harold F. Hayes, Ward 1; Edward H. Healey, Ward 20; Charles D. Chick, Ward 16; Gardner Bates, Ward 4; Herbert J. Phillips, Ward 5; James J. Riegel, Ward 6; Robert H. Smith, Ward 15; Henry A. Brehaut, Ward 20; Luke William Condry, Ward 20; James L. Sears, Ward 15; James J. Corbett, Ward 24; Weston H. Cloudman, Ward 1; Daniel F. Regan, Ward 5; William R. McDonald, Ward 24; Hedley C. Nickerson, Ward 24; Edward F. Murphy, Ward 4; Michael Connell, Ward 5; James E. Shea, Ward 4; Thomas H. Fitzpatrick, Jr., Ward 5; Farrell McGovern, Ward 19.

IMPROVEMENT OF PARKS.

The following was received:

City of Boston,

Office of the Mayor, June 22, 1914.

To the City Council:

In order to have available funds for the necessary care and improvement of the Common and parks of the city in existence January 12, 1887, I respectfully recommend the adoption of the accompanying order making provision for an appropriation from the income of the Parkman Fund for the maintenance and improvement of the Common and parks in existence on January 12, 1887, and for the maintenance of the Aquarium and Zoological Garden.

Respectfully,

JAMES M. CURLEY, Mayor.

Ordered, That the sum of fifty thousand three hundred and seventy-two dollars and eight cents (\$50,372.08) be and hereby is appropriated from

the income of the Parkman Fund, to be expended under the direction of the Park and Recreation Department, for the maintenance and improvement of the Common and parks in existence on January 12, 1887, and for the maintenance of the Aquarium and Zoological Garden.

Referred to the Committee on Parkman Fund.

APPOINTMENTS BY THE MAYOR.

The following were received:

City of Boston,

Office of the Mayor, June 22, 1914.

To the City Council:

Subject to confirmation by your honorable body, I have appointed the following-named persons to be Constables for the term ending April 30, 1915:

John J. Pondoloy (398 Ashmont street, Ward 24), Frank J. Glynn (50 Draper road, Ward 20), Stephen F. Koogan (39 Cambridge street, Ward 8) and Edward C. Carroll (180 West Seventh street, Ward 13).

Thomas Jordan and Thomas J. Donnollon to be Constables for the Health Department of the City of Boston and to serve without bonds.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Office of the Mayor, June 22, 1914.

To the City Council:

Subject to confirmation by your honorable body, I have made the following appointments for the term ending April 30, 1915:

To be Weighers of Coal, John F. Donovan (35 Breed street, Boston), Harry E. Adams (63 University road, Brookline), John J. Lavin (68 Whitney street, Boston), Harry R. Thompson (12 Herbert street, West Somerville), Joseph B. Nealon (196 Havre street, East Boston), Lewis W. Keith (335 Boylston street, Brookline).

To be a Weigher of Coal and Measurer of Wood, Charles A. Hardy (34 Chestnut street, Somerville).

To be a Weigher of Coal and Inspector of Pressed or Bundled Hay and Straw, John Wray.

To be Measurers of Leather, Thomas W. Edwards (324 Geneva avenue, Boston), Bertram Ellis Jewell (32 Milford street, Boston).

To be an Inspector of Pressed or Bundled Hay and Straw, Charles H. Seely (18 Dell street, Somerville).

To be Weighers of Goods for the Boston & Albany Railroad Company, Charles V. Kreutzkamp (310 Cambridge street, Allston), Hugh H. McCarthy (166 Tremont street, Newton), Ivory L. Allen (122 Franklin street, Allston), Charles A. Brandin (26 Cazenove street, Boston), Frank J. C. Kern (14 Bayard street, Allston), Frank J. Hayes (189 Cambridge street, Allston), Arthur L. Muldoon (240 Washington street, Brighton).

To be Weighers of Goods for the Maverick Mills, East Boston, William Wells and Peter Ryan (144 Addison street, East Boston).

Respectfully,

JAMES M. CURLEY, Mayor.

Severally laid over under the law.

FUNDS FOR WARD 19 PLAYGROUND.

The following was received:

City of Boston,

Office of the Mayor, June 22, 1914.

To the City Council:

In compliance with request contained in the order adopted by your honorable body on May 25, 1914, I beg to transmit herewith report from the Park and Recreation Department relative to funds appropriated for the Playground, Ward 19.

Respectfully,

JAMES M. CURLEY, Mayor.

City of Boston,

Park and Recreation Department,

June 20, 1914.

To the Honorable the Boston City Council:

Gentlemen,—In reply to your order of May 25, 1914, requesting the Park and Recreation Department, through his Honor the Mayor, to inform the City Council as to the status of the playground in Ward 19, for which funds have been appropriated, I am directed by the commission to state that at present the balance on hand of the appropriation for Playground Accommodations, Ward 19, is \$28,461.24, which is held to pay for awards for taking of land by the Street Commissioners, amounting to \$28,200 at the present date. The account now stands as follows:

Playground Accommodations, Ward 19.	
By transfer August 22, 1911, for appropriation for Playground, Parker Hill, to an appropriation for Playground Accommodations, Ward 19.....	\$60,000 00
By transfer, October 16, 1911, from the Reserve Fund to the appropriation for Playground Accommodations, Ward 19.....	40,000 00
To payments made for 22 awards for land takings,	\$71,538 76
Balance of appropriation on hand.....	28,461 24
	\$100,000 00
	\$100,000 00

Respectfully submitted,

D. J. Byrne, Secretary.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Mrs. Bernard Rooney, for compensation for damage to clothing by oil on Washington street, in front of the store of Leopold Morse.

Mrs. Louise M. Burton, for compensation for damage to her child's clothing by oil on Huntington avenue, corner West Newton street.

Mrs. John Carberry, for compensation for damages to her child's clothing by oil on Tremont street, junction Faxon street.

Walter H. Trout, for compensation for damage to clothing on account of oil and tar on Huntington avenue.

Bella Albit, for compensation for injuries received.

Mary Kane, for compensation for injuries caused by a fall on Clarendon street.

Executive.

Jacob Cohen, for permit to sell, rent or lease firearms at 16 Main street, Ward 5.

Joseph Rogers, for permit to sell, rent or lease firearms at 176 Hanover street, Ward 6.

RAILWAY LOCATION.

A copy of order was received from Street Commissioners granting the West End Street Railway Company permission for alteration of tracks on Columbus avenue, 438th location.

Placed on file and ordered printed.

NOTICE OF HEARING.

Notice was received from the Port Directors of hearing on petition of the Boston Elevated Railway Company for license to lay two submarine cables in Chelsea creek, on July 2 at 9.05 a. m.

Placed on file.

STORAGE OF EXPLOSIVES.

Notices were received of intention to continue use of premises for explosives or inflammable fluids, viz.:

Charles F. Tirrell, keeping of gasoline, 157 Brighton avenue, Ward 25.

Robey-French Company, keeping and sale of soluble or negative cotton, 34 Bromfield street, Ward 7.

William Smith, Jr., 408 South Huntington avenue, keeping and sale of gasoline.

Taxi-Service Company, keeping and sale of gasoline, 49-65 Lansdowne street.

Thompson & Norris Company, keeping of gasoline, corner Braintree and Everett streets, Ward 25.

Helen W. McElwain, 390 Beacon street, Ward 11.

A. J. & G. H. McMurtry, rear 487 Washington street, Ward 25.

George H. Proctor, keeping and sale of gasoline, 36 Ferdinand street, Ward 10.

Placed on file.

CLERK HIRE.

W. T. A. Fitzgerald, Register of Deeds, submitted a report in accordance with section 33, chapter 22, of the Revised Laws, certifying that certain persons had been employed in his office from May 25 to June 22, and that work had been performed to the amount of \$3,612.45.

Referred to the Committee on County Accounts.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for eight newboys and five vendors—recommending that licenses be granted.

Reports severally accepted; licenses granted on usual conditions.

CLAIMS.

President McDONALD called up unfinished business, Nos. 1 and 2, viz.:

1. Ordered, That there be allowed and paid to Richard Fitzgerald the sum of fifty dollars (\$50) for expense incurred by him on account of his acts as a police officer, said sum to be charged to the appropriation for Police Department.

Passed.

2. Ordered, That the Corporation Counsel be authorized to have judgment entered against the city in the sum of \$4,397.94 in the case of Roger N. Allen *et al.* v. Boston, an action to recover for personal property tax paid under protest December 3, 1913, said amount to be charged to the Reserve Fund.

Passed.

FINANCE.

Coun. BALLANTYNE, for the Committee on Finance, submitted the following:

(1) Report on order (referred June 1) for loan of \$42,100 for widening of Washington street,

between Warrenton and Pleasant streets—that the order ought to pass.

Report accepted; order given its first reading and passed, yeas 9.

The order will take its final reading and passage in not less than fourteen days from to-day.

(2) Report on order (referred June 1) for loan of \$400,000 for highways, making of—that the order ought to pass.

The report was accepted and the question came on giving the order its first reading.

Coun. KENNY—Mr. President, I am going to vote against the adoption of this order. For several years the Council has passed an order appropriating \$300,000 for the making of highways, and in every case, with one exception, it has been in the form of a loan. My recollection is that during one of the years of the administration of former Mayor Fitzgerald, a part of the money which would ordinarily be appropriated either for sewers or for the making of streets was raised by taxes. In any event, Mr. President, a certain number of the Council have felt that this was an expense or a charge upon the city that should be met from taxes, and it was only a question of expediency, having the money or not having it. I think we all felt—or rather, a majority of the Council felt—that this was of an annual, recurrent nature, and therefore should be met from taxes, but owing to the state of the finances and the limited borrowing capacity of the city the Council has been willing from time to time to vote money for the making of highways, taking the same out of loans. I have always maintained, Mr. President, that we should, so far as we were able to do so financially, meet this charge out of taxes; but in any event the fact remains that for some years we have passed a loan order for \$300,000 for this purpose, for the making of highways. This year the Council went beyond what it has done any other year during my service in the Council—during the past four years—and has added \$100,000 to that annual loan. It seems to me, Mr. President, that ought to be sufficient, in view of the possibilities and in view of the capacity of the Street Commissioners to spend the money. I am informed, as other members of the Council have been informed, that it is impossible for the Street Commissioners to spend more than half a million dollars a year for the making of highways, for the building of the so-called private streets. They did have \$400,000. We have the positive, direct, affirmative evidence that the Street Commissioners will not be able to spend more than \$500,000. That evidence had been presented to the Committee on Finance, and it has not been contradicted, and, so far as I am advised, the members agreed that not more than one-half million dollars a year could be spent by the Street Commissioners for the making of highways. And at the conference the other day, at which his Honor the Mayor was present, I stated that I had reason to believe that the Street Commissioners could not exceed the expenditure of more than a half a million dollars, and he agreed with me. Now, why spend \$800,000? Go back over the history of last year. We three times passed a loan order for a half million dollars under the Acts of 1912, providing for radial highways, the widening of Chelsea street—one of the most commendable pieces of street work that can be done to-day in Boston, that great artery leading out from Charlestown; \$100,000 was provided for the beginning of that work in the loan order of \$500,000 passed three times a year ago, taking money within the debt limit. The widening of Centre street in West Roxbury—another great highway—\$100,000; the widening of Hyde Park avenue, another big highway, \$100,000; North Beacon street, Amory street, Neptune avenue—all large, comprehensive propositions that looked to the development of this city, this great metropolitan city of New England. We have passed the order once this year already and it has also been vetoed. It seems to me, Mr. President, that this Council, charged with the same high responsibility, a responsibility coequal with that of the Mayor in the matter of loans, should stop appropriating by loans money that cannot be spent, and so far as it has the authority to do so—and it has the power and authority to do so—insist upon the development of these radial highways. This matter was discussed in the conference the other day, and his Honor the Mayor stated that he would be willing to spend some money for radial highways, but he wanted in advance to have the parties affected, those whose land would be taken, come in and agree to accept a sum which would not be larger than the assessed valuation. Mr. President, that argument is all well enough, but it is not of itself action. The way to do this thing is to do it. Stop borrowing any more money, because you have already borrowed enough for the making of highways, and pass this loan order of a half million dollars for the radial highways. If the Mayor with \$500,000 to negotiate with can't negotiate with the property owners when this loan order has been passed just as well as he could before, why, then, Mr. President, I can't quite see that the Mayor has actually accomplished very much in that line. What is the difference? Why can't he sign the loan order for a half million dollars and then negotiate just as well as now? But he is not doing it. Nothing has been accomplished; the matter is lying dormant. It is practically pigeon-holed. And these great highways are suffering. The Mayor is apprehensive that he is not going to be able to

carry on negotiations with the property owners to the advantage of the city. We all know, Mr. President, that the Mayor is not obliged or bound to come to an agreement with the people who own the land. We have the right under the law to take the land, and they have the right, if they are not willing to accept our terms, to go to a jury. Is the Mayor of the City of Boston afraid of a jury of Suffolk County? Is he afraid that the jurors who are serving this city and the county are going to treat the city unfairly? I submit, Mr. President, that there is no case tried in our court involving damages to be paid by a city or a corporation where the rights of the parties are preserved nearly so much as in the case of a municipality. Only the other day a case was tried in Suffolk County for the taking of land damages. It is familiar to you all. The City of Boston was willing to settle for \$26,000, and what did the jury give? They gave \$17,000, \$9,000 less than the city had been willing to pay. And in my experience, Mr. President, and in the experience of those gentlemen who are here and members of the bar, it is well known that the juries of this county and the juries of all the other counties of this Commonwealth are loath to give excessive damages for the taking of land by municipalities. Therefore, I say that the excuse which the Mayor has offered is not a sound, logical, or substantial excuse. If it is proper to widen Chelsea street, if it is proper to widen Centre street, if it is proper to widen Hyde Park avenue, and the two great thoroughfares in Brighton, why not do it and stand upon our rights, and stop talking about what people will do when the taxpayers come in and agree—individuals scattered all along the line—to take less than the assessed value? Nothing has been done towards that end. I say, therefore, Mr. President, that we ought to refuse this \$400,000 and appropriate half a million dollars for the radial highways, and insist, in so far as we have the right to do so—and that is exemplified by our passing this order—that that work shall begin now. Therefore, Mr. President, I shall vote against this order.

Coun. BALLANTYNE—I am very glad to have an opportunity to vote for this order for \$400,000 for the making of highways. I am now serving my seventh year in the city government and I have always voted for the largest amount which his Honor the Mayor would allow for streets and for the making of highways. I do not agree with my brother on my right that the Street Commissioners cannot spend more than \$500,000 in a year. I believe the present Board of Street Commissioners are just as efficient as some boards that we have had in the past, and they have many times spent more than \$400,000 or \$500,000 a year. It is a fact that for the past few years we have voted the sum of \$300,000 for the making of highways, and the very fact that we have only voted \$300,000 in the past makes it necessary for us to vote this much more here. We have been going behind. The unaccepted streets are growing upon us and in our residential sections—such as Dorchester, West Roxbury, Brighton and Hyde Park—the streets are being laid out in great numbers every year, are being built upon, the City of Boston is receiving taxes from those streets just the same as from the business section of the city, and these people have to wade through mud and slush to get to their homes. I think they are entitled to a good street just as well as we are in other older sections of the city. As to the question of borrowing money and having it taken out of the tax levy, I stand with my brother on the right at all times ready to expend this money out of the tax levy if the financial condition of the city will admit. At the present time the finances of the city are in such condition that we cannot afford that amount of money, and I am perfectly willing that it should be taken out of a loan. I think that if there is any public improvement that should come from a loan at a time when we can't afford a tax levy it is the laying out of streets. I am just as much interested in the improvement of radial highways as any other member of this Council; I have presented an order for \$500,000 under the Horgan Act several times. I am about to present it again to-day. I want to say that I thoroughly agree with his Honor the Mayor in the step that he is about to take to try and ascertain in advance the cost of laying out those streets. I am going to present this order to-day with the full knowledge of his Honor the Mayor, and he has agreed to immediately take steps towards ascertaining the net cost of these great improvements. The matter of verdicts for land damages against the city has been referred to, and a case cited. I doubt if you can go back over the history of Massachusetts or Suffolk County for as many years as you please and find such another verdict where the City of Boston has benefited by resorting to the courts. In this case the Board of Street Commissioners awarded \$25,000; the petitioners claimed \$30,000, and I am told that they had fifteen of the best experts in the City of Boston go in there and swear that their damage was \$75,000 and that is the amount of money that ought to have been awarded. Notwithstanding those facts, a jury did award only \$17,000, \$8,000 less than the Street Commissioners were willing to settle for. It is the first case of the kind in the history of Suffolk County. And let me tell you, gentlemen, that you can go over the records of these cases and find hardly a solitary case where the verdict has been for the amount of the award of the Street Commissioners; instead in almost every case the verdict has been for a very much larger amount. I agree with his Honor the

Mayor that in all those improvements the people who are going to be benefited are the ones who come in and claim the largest amount of damages, and I am going to cite just one case of an improvement that has been demanded and called for in Roxbury for a good many years, and I think it was during the last year of the administration of Mayor Hart that this improvement came pretty near going through. If I remember correctly, a sum exceeding \$200,000 was about to be appropriated for that improvement. And the same parties who were interested at that time came to me within the last two years and have urged that improvement. I was satisfied that \$200,000 was a sum very much in excess of what was necessary to make it. I put an order through this Council asking the Street Commissioners to give me an estimate of the cost of making that improvement, and the report was that \$75,000 would be sufficient. These people who were so much interested in the improvement came to me then and said, "Aren't you going to push that order through?" I said, "Yes, on one condition, that you, as one of the abutters, and the principal abutter, will get the other abutters to place right opposite their names there the amount of money that they will take for the damage done to their property, and if it is a reasonable sum I think your improvement will go through. Under no other conditions will I take one single step further in the matter." And that settled the whole thing, and there is not one of them that has advocated that improvement since. It is simply a case of getting what you can out of the city and the same thing applies not only to one section but to all other sections. And I believe the plan about to be adopted by his Honor the Mayor is the right plan, and I am going to present this order here to-day with the understanding that his Honor the Mayor will at once take up with these abutters on these streets and find out just what amount they will take. Now, there is no issue on any of these people being allowed the assessed value of their property. If the assessed value is not the value of their property, then they ought to see to it that the assessment is changed. They are not using the City of Boston fairly. If their property is assessed for more than its value, then they will reap the benefit of it. And I hope, Mr. President and members of the Council, that this order for \$400,000 to-day will be passed, and I hope it will be passed unanimously because I believe that there is nothing that tends more to beautifying or to making a city attractive than having good streets, well kept.

Coun. WOODS—Mr. President, I am only too pleased to have the privilege of voting for this order of \$400,000. The gentleman on the other side said that the Street Commissioners could not spend over \$500,000. I certainly did not so understand it. We all know that the Street Commissioners could spend \$2,000,000 if they had it to spend. The theory of laying out and widening streets is that there has got to be plots. Streets have got to be plotted, sewers have got to be laid, water pipes have got to be laid. We know it cannot be done this year, but we have got to get the foundation for it. And it takes some time. We appropriated \$300,000 last year. That is not expended, but is ready to be. They have the sewers and other things in. I want to say that the policy of the Board may be all right, but I want to see what we have got for the \$300,000 they have been passing the last three, four, five, six or seven years. In the little town where I come from we got very little of it. I believe we have got four streets in Brighton in seven years out of that \$1,200,000, if they appropriated that much. But I want to say that we have got streets there which were made, I think, in the days of the "Mayflower," and now they have to get a boat to get into some of the streets. People own their own little homes, and it is impossible to get in there.

Coun. WATSON—Are they on the banks of the Charles river?

Coun. WOODS—No, not on the banks of the Charles river; in the center of the town. I was as much interested in radial highways as any member of the Board. I started in and said that I would consider any street where we could get the abutters to take the assessed valuation. I called a meeting of the Board of Trade out in Brighton and got the two leading land men, real estate men, out there that are interested. We have got one concern out there that is willing to donate 1,000 feet of land to the city, free of any expense, if they can get Faneuil street widened. There are several more public-spirited citizens who are willing to do the same thing. So we have called a meeting of the Board of Trade and all the abutters on Faneuil street, and we are going to have it a week from Monday night, and I think if they will come in to the Mayor and say, "Here is the land; we will contribute it to the city for this widening," the Mayor will open up the radial highway. He said if he could get 60 per cent of the people to agree to take the assessed valuation he would consider the matter. I think out there they are going to give the land free. Now, with these radial highways that the people are trying to get widened, usually they want a profit of about 50 per cent. I do not blame the Mayor not to widen your radial highways; I believe where the people use radial highways and want them widened and are willing to share the expense and come down to a business basis, and sell the land at assessed valuations, I think those are the highways which should be taken into consid-

eration. Also I understand that these small streets would go through the same process, would not be widened except and unless they would put the land into the city for the assessed valuation. Now, \$800,000 is a lot of money, of course, for this administration. Only giving \$300,000 a year it seems like a lot of money, but we can stand it. I think if we can clean up all these small streets there will be an improvement in the future; if a man has an old stand he will try to build up the business. If we can do this, why isn't it a good investment? It is a permanent improvement, and I hope every member of the Council will vote for this order.

Coun. COLLINS—Mr. President, since the beginning of this year it has been my wish and contention, and it has been that for some time past, that we ought to spend at least \$1,000,000 on sewers and \$1,000,000 on streets each year until the demands were complied with acceptably. During the past four years this Council has stood for a pay-as-you-go policy, and has also contended that improvements of recurrent nature should, when practicable, be paid out of the tax levy. What is the situation which confronts us to-day, Mr. President? We have a reserve fund of \$162,000. I, with the gentleman from South Boston, two years ago, called on the former mayor of the city and succeeded, when there was a substantial reserve fund, together with a fund of \$500,000 which had recently come to the hands of the City Treasurer, in getting \$75,000 for sewers from the tax levy. It was practicable then. The money was on hand and it ought to have been had; we ought to have had more money for sewers and streets. Now, under this charter, every one knows that no one can start an appropriation except his Honor the Mayor, and it is ridiculous to assume that any mayor would start an appropriation for the making of highways, with the amount of the reserve fund at this time of year—June or July—of \$162,000. The situation for some years past has been this—and I know it on account of living in the suburban part of Boston; the demands for street construction have been extraordinary, and at no time would the \$300,000 which this government has appropriated fulfill the wants by 25 per cent. What is the situation to-day? Having spent \$300,000 every year during the past four years we have actual demands of over \$1,000,000 for the making of highways. They are permanent improvements, and when the money is not on hand and the demands are justifiable, it is proper and just that we should meet them by way of loan. Mr. President, it is equally proper to take from the tax levy money for the construction of sewers. What have we done this year? We have appropriated \$1,000,000 by way of loan for the making of sewers. Why not give streets equal and, in my mind, just consideration? With that in view I offered an order some months ago for \$500,000 for the making of new highways under the Acts of 1906. At that time another order was pending, offered by the chairman of the committee, for \$500,000 for taking care of what is known as the larger arteries in the suburban districts. What was done? This Council passed it and the Mayor vetoed it. I disagreed with the Mayor; I believe he ought to have signed that order, but under the charter his veto was final, and, as I understand it, it is his intention not to do anything on these larger arteries for the rest of this year. Now, that being the condition, and one \$400,000 having been appropriated, it seems to me just and right that we ought to spend as much money as we can to meet the demands of the citizens of the district south of Dudley street and in parts of East Boston. These taxpayers have for years, many of them, lived in veritable mudholes. They have gone patiently to the Street Commissioners' office and every year they have been met, or a substantial part of them have been met, by them, saying, "Well, we haven't the money." Now, I think it is right and proper, and the Mayor will be upheld in his determination to try and institute a comprehensive system of street improvements. I regret that he vetoed the \$500,000 order for larger arteries, but since his attitude is final and we have no appeal therefrom, I submit, Mr. Chairman, that it is wise and just that, with over a million dollars of live petitions, we ought to do our share in appropriating this \$400,000 of money, making in all \$800,000 for the construction of highways, and which, after all, means that there is not a substantial maintenance account against that, as in the case of a municipal building, but on the other hand money comes into the city treasury because these people are assessed for pretty close to 50 per cent of the improvement. I believe it is good business, good finance, and I hope the order will pass.

Coun. WATSON—I propose to vote for this \$400,000 for streets to-day. I would vote for a million if the order came in. I am satisfied that the Street Commissioners can lay out work that will eat up a million dollars in six or seven months. It is true the work will not be anywhere near completed, but it will be initiated and started. I want to say a word with respect to the gentleman from Brighton. Before he became a member of this body, in twelve months I voted three separate and distinct times for \$100,000 for street improvements in Brighton, and I am willing to continue to do it this year. Brighton has been used very well, I think, by the present Council. It is no fault of ours, Mr. President, if the Mayor vetoed the orders. I think in view of the fact that Brighton is represented in the Board now by a local representative who is in fairly good standing with his Honor the Mayor, he ought to be able to get

through a \$500,000 loan for streets, which includes Faneuil and North Beacon streets in his district, \$50,000 each. And I am very anxious to see those houses located in the streets where they have to get to them in row boats, and when I go out to see the moving picture house, as I hope to do some time, I want to see those streets. I hope the order will pass.

Coun. COUTHURST—The history of street improvements here in Boston has been a very interesting one. Back in 1893 the Legislature adopted what is called the Board of Survey Act, recommended, as I remember, by ex-Mayor Matthews, under which it was proposed to spend a million dollars a year for new street construction and assess the total cost upon the abutters. And under that act the city government appropriated by loan a million dollars a year for quite a number of years, until the Supreme Court of the United States, having declared the act unconstitutional whereby the entire cost was assessed on the abutters, it became necessary to use \$600,000 of borrowed money to pay into the sinking fund to take care of some bonds that had been issued. And that was done in the Collins administration. During the Collins administration not a dollar was spent for new street construction. And it was after his administration, when we had squared up on our loans by paying loans by borrowed money from new loans, that the city adopted the skimping policy of spending only \$300,000 a year on new streets. As a result of that policy it has been harder here in the City of Boston to get a private street turned into a public street than in any city or town of the Commonwealth, and the suburbs of Boston are suffering to-day as the result of that skimping policy. Two years ago I advocated in the Committee on Finance an increase of \$300,000 over and above the annual appropriation of \$300,000, which the Mayor of the city at that time, having other uses for the city's money, did not seem to favor. Now there are pending before the Street Commissioners to-day over a million dollars' worth of live petitions for new streets, put in by people living on private streets, who are paying the same rate of taxation that people living on public streets are paying. And everyone of those streets, Mr. President, I would like to see laid out this year. The councilor from South Boston is right when he says that \$800,000 could not be spent this year for new streets. No, of course not. It takes from one to two years after the Street Commissioners lay out the street on paper to make it a public street. It takes from one to two years before that street is finally accepted and made a public highway. And what we are doing now is giving the Street Commissioners \$800,000 to lay out on new streets, the last of which will have been constructed two years from now. And we are not any more than evening up with the present demand in that particular. I believe it is a fine policy to encourage people to build on private streets with the knowledge that within a reasonable time, when those streets are sufficiently built upon, the city will come in and automatically turn them into public highways. Now, we want the radial thoroughfares of the city improved, and we have passed successive orders with that purpose in view, to spend \$500,000 a year on radial highways. We did not succeed in convincing ex-Mayor Fitzgerald that that was the right policy, and the present Mayor has not as yet assented to that policy so far as this year is concerned. But he has compromised on it in the way the councilor from Roxbury has explained. And there is an immediate prospect, Mr. President, that we are going to take up seriously, through the Board of Street Commissioners, and plan the laying out and construction of private streets into public streets, and we are also going to spend for the construction and widening of the radial thoroughfares, adopting a policy which I hope will continue not only during the present administration but through future administrations.

Coun. KENNY—After all, perhaps the members of the Council are better judges as to the amount of money which may advantageously be spent each year than the officials who have the control of its expenditure. Personally, I have no knowledge as to how much money may be required in any one year, and I have looked around for information and for advice. And we called before us the one man in the Board of Street Commissioners' office who is recognized by all those who know, and who know him and who know that department, as the best informed man in that department. He came before the committee the other day and he stated that if they could have a half million dollars a year, that is all they could spend, Mr. President. How are you going to get behind that? I am surprised that some of the members who are now so anxious to vote away this money have not exercised their rights as members of this Council in years past and presented here to this Board loan orders in keeping with this line of argument. They have the same right to do that as has his Honor the Mayor. Under the charter any member here may bring in a loan order. We have not seen it done, Mr. President; we have been content to spend \$300,000 a year for the making of highways. I would not yield to any man in this body in the desire to develop the streets of this city and to see that they get all the money that is requisite for them. But why spend \$400,000 now? It is admitted by a gentleman who knows that the commission cannot spend over half a million dollars a year. Notwithstanding what has been said here as to what the Street Commissioners may do—one member

says they can spend \$2,000,000; another member says they can spend \$1,000,000—the fact remains that the man in the department who has the control and the custody of its books, who is familiar with the history of the streets of Boston and its developments, says that it cannot spend over a half-million dollars a year. Why throw \$300,000 more after what has already been given when the City of Boston is waiting, and has been waiting for years, for the development of our radial highways? His Honor Mayor Fitzgerald was not against that proposition; the councilor from West Roxbury is mistaken. He vetoed it, it is true. Why? Because he believed the money should come from outside the debt limit. We all agreed that it should be done. Mayor Fitzgerald was in favor of it, and every time he said he was ready to sign it if we borrowed the money outside the debt limit. Mr. President, I will vote \$900,000 this year. \$400,000 I have already voted for, and I will now vote a half-million for the radial highways. That is going some. I am not willing to tie up \$400,000 for development work that cannot be done this year. Last year on the 18th of April—a year ago last April—we passed a loan order of \$300,000. It has not yet been used; a loan authorized but not used. Now, you are tying up \$400,000, but why didn't you do it last year? You had the right to do it then, and you didn't do it. I contend, Mr. President, for the benefit of this great metropolitan city, that it is our duty to fight to see that the great streets running out from the center, this hub, are developed, and we will be doing much more for the future of Boston and the future of the city if we stand by that plan. I note what my friend from West Roxbury says about juries not being fair, or his experience that juries are unfair in awarding verdicts. I do not know what experience my friend has had in the courts. I think any man—I don't say he is trying to put this matter unfairly—but any man who looks into it and investigates will find that juries as a rule are very fair when it comes to dealing with municipalities in the matter of land damages.

Coun. BALLANTYNE—Mr. President, I want to make one little correction. I do not think that I ever made a statement that juries were unfair; I simply stated that this was the first case on record where a verdict for a lower sum than the Street Commissioners offered was awarded in Suffolk County, as far as I know. I want to say further that with regard to the money that was appropriated last year, that money will be spent this year, just the same as the money was spent last year that was appropriated the year before. This money that we appropriate this year will be spent next year. The Street Commissioners, when they get this money this year, lay out the street that is going to be improved by this amount of money. They immediately instruct the Public Works Department that this street has been laid out and is going to be taken as a public highway. It takes the Public Works Department all this year to get the sewer and water into those streets, and the laying out will not take place on those streets until next year. That same procedure comes along every year; with the money that we appropriate this year for streets, the streets will be laid out next year; with the money that we appropriate next year for streets, the streets will be laid out the following year. It is always a year behind. I may have misunderstood the representative of the Street Commissioners' office, but I did not understand him to say that \$500,000 was all that they could spend. But he did make this statement, as I understood it, that if they had \$500,000 a year they could get along very well. If they had had \$500,000 a year for the past four years they would not need this \$500,000 to-day; they would have been able to keep up with the demand; but the \$300,000 that we have been giving them has allowed them to get behind. They can't keep up with the development of the outlying districts with \$300,000 a year. And he said if we could give him \$500,000 a year that they would get along very well, but I did not understand him to say that that was all the money that they could spend. I may have misunderstood him, but that was my understanding of the statement there. I do not know as I want to take any more of the Council's time. I think this order ought to pass, and I still hope it will pass unanimously.

Coun. WOODS—I wish to take issue also with the statement that was made that Mr. O'Callaghan said he could not spend over \$500,000. I heard no such words, and I think the chairman of the Committee on Ordinances must have misunderstood. When he put the question to him, if we would give him \$100,000 more wouldn't he get along, he said, "Yes, very nicely." Then I put the question, "If you could have \$800,000, Mr. O'Callaghan, wouldn't that wipe out the odds and ends?" And he said, "Certainly, much better." But when you try to say that he could not spend \$800,000, that is absurd. In the first place, they know the estimate on every street. All he has to do is to plot out his street, and give the Water Department and the Sewer Department the right to advertise for those streets. Now is the time to get the work done, and not in the dead of winter, because it costs twice as much to put in a sewer in the winter time as in the summer time. I know, I have worked in the Sewer Department. Now is the time to have the work done. I am speaking from the practical side of it, not the theoretical. I want to say that

now is the time to have this work done. You have got your sewer, you have got your gas, you have got your telephone conduits, you have got your electric conduits, and it takes a whole year to do that work. And next year we will be in a position to build these streets. I want to say that if we put it off for another year we will only be putting ourselves back another year. I want to say, as far as the radial highways go, that that seems to be the only bone of contention. What difference whether it is \$400,000 for small highways or \$500,000 on radial highways? And when we have a Mayor liberal enough to give \$800,000 for the small ways, with the possibility of \$500,000 for the radial highways, I say we should take advantage of it.

Coun. KENNY—There is the question; the gentleman has let the cat out of the bag. What difference does it make whether you spend it on new streets, private streets, or radial highways? That is exactly what his case is here this afternoon; he doesn't care. Now, I do care. He doesn't care, he said so—

Coun. WOODS—I did not, Mr. President.

Coun. KENNY—Now, Mr. President, I will refer back to what took place the other afternoon. I did not introduce the name of Mr. O'Callaghan in this debate, I studiously refrained from doing so. I referred to him as an official. It remained for the gentleman from Brighton to bring in his name here and create an issue around which his name will now center. Mr. O'Callaghan I will say—now that his name is already in here—is an official of high standing, a man whom we all respect, a man who is looked upon as an authority in the work of street developments, and he has acquired this distinction by his own experience and by his own knowledge. He did not express any surprise the other afternoon over a million dollars being wanted for streets, petitions for a million dollars, or something in excess of a million dollars being wanted for streets. Why, that is not a great amount for a great city, Mr. President. Go over the country, ask at Philadelphia, Washington, Baltimore, New York, Buffalo, Chicago—I will venture to say that in all those cities there are petitions pending for amounts which are larger, and perhaps excessive as compared with Boston demands of this character. Mr. O'Callaghan said that in two years with \$500,000 a year they could clean up all that was required. Those were his words—clean up. But he did state, Mr. President, and I am going to use that statement with all the force that I have, that a half-million dollars a year was as much as the Board of Street Commissioners could spend in making these private streets.

Coun. COULTHURST—Mr. President, I simply want to add that I interpreted the remarks of Mr. O'Callaghan the same as the chairman of the Committee on Ordinances did, that \$500,000 a year appropriated from year to year would be sufficient for their purposes. I did not understand him to say that they could not spend over \$500,000 in any one year, and my own knowledge of the workings of that department in the past leads me to believe that they could easily spend, or at least lay out on paper, that is all they have to do, streets for a half-million dollars if the occasion required it. And it is a matter of fact that for ten years—from 1893 to 1903, or thereabouts—they did expend on the construction, or did lay out for new highways, \$1,000,000 a year. Those are facts, Mr. President. And they could do so easily, it seems to me, to-day, so far as the machinery of the office is concerned because there are these streets that people brought before us the other day aggregating over a million dollars. So that all it is necessary to do to carry out the improvement itself, to turn the private streets into public ways, is to take a list of those streets and advertise a public hearing thereon on any day of the week, two or three weeks after the first publication of the notice. It is merely a matter of routine work in that office, and the Street Commissioners can easily lay out—not spend, because it is spent next year by the Commissioner of Public Works under contract—they can easily plan out and lay out, so far as they are concerned, \$800,000 during this current year.

Coun. WOODS—Mr. President, I want to say, in reference to the mention of Mr. O'Callaghan's name, it was not my intention to bring it into this debate. I have known John O'Callaghan probably as long as any member of this Council, and I am glad I brought his name in. No man would be an efficient head of a department, or connected with a department, who would go in and state before a body of the City Council that it would be impossible for them to spend \$500,000, and I am glad I brought his name in because I know the statement was not made. It might have been misunderstood, but he is too broad a man and too bright a man to say that he could not spend \$500,000. John O'Callaghan could spend \$1,000,000 if you gave it to him and he had the power to do it.

Coun. COLLINS—Mr. President, as I have gone into the Street Commissioners' office for the past four years, all of them have stated—the officials—that they needed a great deal more money each year. When this \$400,000 was first pending, I inquired of the officials of that department if the amount was necessary. They all told me it was. Now, Mr. President, the way I view it is this: The taking care of the larger arteries, the widening of the larger arteries, and the extension of the smaller arteries, are both institutions, and because the Mayor, who has the final say, has seen fit to curtail one of the institutions, I do not see why I,

as a member of this government, should curtail the other. For that reason I shall vote for the order.

The order was given its first reading and passage, yeas 8, nays 1, Coun. KENNY voting nay. The order will take its final reading and passage not less than fourteen days from this date.

MONEY FOR STREETS.

Coun. BALLANTYNE offered an order—That the sum of five hundred thousand dollars (\$500,000) be and hereby is appropriated, to be expended according to the provisions of chapter 661 of the Acts of 1912, entitled "An Act to Provide for the Widening and Laying Out of Certain Streets or Thoroughfares in the City of Boston," and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of indebtedness to said amount, the indebtedness incurred under the provisions of this order to be included within the statutory debt limit authorized by law.

Coun. BALLANTYNE offered an order—That the following-named streets are hereby designated for improvements or construction, as hereinafter specified, in accordance with the provisions of chapter 661 of the Acts of 1912, viz.:

Chelsea street, widening.....	\$100,000 00
Norfolk street, widening.....	100,000 00
Centre street, West Roxbury, widening.....	100,000 00
Hyde Park avenue, widening.....	55,000 00
North Beacon street, widening.....	50,000 00
Faneuil street, widening.....	50,000 00
Amory street, widening.....	25,000 00
Neptune avenue, extension of.....	20,000 00

The orders were referred to the Committee on Finance.

Coun. KENNY—Mr. President, inasmuch as that matter has been before the Committee on Finance on four different occasions, in the same identical language, in order to save time I move the reconsideration of the reference in order that the orders may take their first reading this afternoon.

Coun. BALLANTYNE—Mr. President, I hope this motion will not prevail. I think that the majority of the members of the Council understood that this order was to be put in here to-day and referred to the Committee on Finance and to lay there for a certain time to give his Honor the Mayor an opportunity to confer with the abutters on those streets mentioned and to enable him to make some arrangement about having a reasonable sum set opposite for damages. And I still hope this motion to reconsider will not prevail.

Coun. WATSON—Mr. President, my understanding is different from the preceding speaker on this question. I understood we were going to offer this order to-day and the order was going to lie on the table in the Council here to give his Honor the Mayor an opportunity to make arrangements, and I therefore move an amendment to the motion, that the rules be suspended and that it be laid upon the table.

Coun. KENNY—Mr. President, my understanding is this, and it is in line with what the councilor from Roxbury has stated, that the order was to take one reading and then lay on the table.

Coun. WATSON—I accept the correction; I understood that that was the arrangement.

Coun. WOODS—We seem to be all at sea on this. Now, I had a different understanding. I understood that this was to be placed in here and then referred to the Executive Committee, to be taken from the Executive Committee at any time. That is the way I understood it; I might be mistaken.

Reconsideration was declared carried. Coun. BALLANTYNE doubted the vote and asked for a roll call. Reconsideration was refused.

Yeas—Coun. Coulthurst, Kenny, McDonald, Watson—4.

Nays—Coun. Attridge, Ballantyne, Coleman, Collins, Woods—5.

Coun. COULTHURST—I wish to make a motion. I suppose it ought to be in the form of an order. I will make it in the form of a motion, that the Corporation Counsel be requested to pass upon the form of this order, as to whether or not it is in proper legal form. I am afraid that the designation of the streets is not sufficiently definite and I would like to have the opinion of the Corporation Counsel on that question. I feel that inasmuch as the Council must designate the streets under the order in accordance with the statute that they have got to do it in a definite form, the same as the Street Commissioners would do if they laid the streets out.

Coun. BALLANTYNE—The order as presented to-day is an exact duplicate of the orders we have passed heretofore, and there has never been any such question raised. The amount is placed opposite each street, and I do not see any reason why we should refer this to the Corporation Counsel. I hope the motion will not prevail, and that the matter will be referred to the Committee on Finance.

Coun. COULTHURST—Mr. President, while it is perfectly true that this question has never been raised before, it is never too late to mend a mistake. As a lawyer I am satisfied that that designation of streets is not sufficiently definite to be legal. For example, it says, "\$100,000 for the widening of Hyde Park avenue." It does not say

what part of Hyde Park avenue is to be widened. There is a part of Hyde Park avenue at the Forest Hills end that could be widened, and there is another part at the other end that could be widened. The orders which have previously passed this Council at other sessions were not then in proper form any more than I think this is at the present time, and inasmuch as I am interested in having this thing go through, and go through in a legal form, I would like to ask the opinion of the Corporation Counsel on it.

Coun. BALLANTYNE—Mr. President, the statement made by my brother opposite is one of the strongest arguments why it should be referred to the Committee on Finance, as there may be some changes necessary to be made in this order.

Coun. COULTHURST—Will the gentleman yield?

Coun. BALLANTYNE—Yes.

Coun. COULTHURST—I want to make a brief statement. This thing has already gone to the Committee on Finance, and I do not object to its remaining there. It is still in the Committee on Finance, but when the Committee on Finance meets, it will have the opinion of the Corporation Counsel on this matter.

Coun. BALLANTYNE—I must have misunderstood this matter. I thought he wanted the Corporation Counsel's opinion to be given to the Council. If the matter is in the hands of the Committee on Finance, I am satisfied.

The question came on Coun. Coulthurst's motion that the opinion of the Corporation Counsel be requested on the form of the orders. The motion was declared lost, and Coun. COULTHURST doubted the vote and asked for a roll call.

The motion was carried, yeas 6, nays 3:

Yeas—Coun. Attridge, Coleman, Collins, Coulthurst, Kenny, Woods—6.

Nays—Coun. Ballantyne, McDonald, Watson—3.

ORDINANCES.

Coun. KENNY, for the Committee on Ordinances, submitted the following:

(1) Report on order (referred June 1) requesting Finance Commission to give opinion on draft of proposed ordinance to establish a Department of Finance—that the order ought to pass.

(2) Report on order (referred June 1) asking Chamber of Commerce to consider draft of proposed ordinance to establish a Department of Finance.

The reports were accepted, and the question came on the passage of the orders.

Coun. KENNY—Mr. President, I would like to say simply in passing that these are orders from the Committee on Ordinances and relate to the ordinance which we now have before us. They are not ordinances in themselves.

The reports were accepted and the two orders were passed.

(3) Report on ordinance (referred May 11) relative to vessels and ballast—that the ordinance ought to pass.

Report accepted, and the ordinance was assigned to the next meeting, on motion of Coun. KENNY.

(4) Report on ordinance (referred January 26) relative to city flag and municipal standard—recommending passage in the following new draft:

Be it ordained by the City Council of Boston, as follows:

Section 1. The municipal standard of the city of Boston, which is hereby established, shall be made of silk, and shall be five feet in length and three and one-half feet in width, or of a different size but in the same proportions of length and width. The body of the standard shall be Continental blue, with the official city seal embroidered in the center; and two rings of white shall encircle the seal as indicated by photograph hereto attached. The standard shall have a fringe of Continental buff and the reverse of the standard shall bear a representation of the Trimountain.

A city flag of like design and colors may be made of bunting for outdoor display, the size of such bunting flag to depend upon the place of display. The flag shall be without a fringe, and it shall have no reverse except the seal showing through the bunting, the seal to be painted on or woven in the fabric.

Secr. 2. The colors herein specified shall be the official colors for the city of Boston, namely: Continental blue and Continental buff, according to colors certified and on file with the Secretary of the Commonwealth.

Secr. 3. The municipal standard of silk shall be carried or displayed in parades, at review and on other official occasions when the Mayor is present and when directed by him. Boston organizations may have copies of the municipal standard on approval by the Mayor.

Secr. 4. The city flag shall be displayed on City Hall, on other municipal buildings, on Boston Common and in other public places on all holidays and other occasions when the national flag is ordered to be displayed; provided that the city flag may be used on other occasions not in conflict with this ordinance.

Secr. 5. The municipal standard or the city flag, or any reproduction of either, shall not be used for any commercial purpose and no advertising device shall be placed upon it, or used in connection with it; and neither shall be used for any purpose not authorized by this ordinance, except with the permission of the Mayor.

Secr. 6. The City Messenger shall be custodian of the municipal standard, and of the city flags that are the property of the city.

Secr. 7. Whoever mutilates, tramples upon, defaces or treats contemptuously the municipal standard of the city of Boston or the city flag, whether such standard or flag is public or private property, or whoever displays such standard or flag, or any representation thereof, upon which are words, figures, advertisements or designs, or whoever exposes to public view, manufactures, sells, exposes for sale, gives away, or has in his possession for sale or to give away, or for use for any purpose, any article or substance, being an article of merchandise or a receptacle of merchandise or articles upon which shall be attached through a wrapping or otherwise engraved or printed in any manner a representation of the municipal standard or city flag, shall be punished by a fine of not exceeding twenty dollars for each offense.

Secr. 8. This ordinance shall take effect upon its passage, except as to section three, which shall not take effect until thirty days thereafter.

Report accepted, and the ordinance was assigned to the next meeting, on motion of Coun. KENNY.

(5) Report on ordinance (referred May 25) relative to Law Department—that the ordinance ought to pass.

The report was accepted, and the question came on the passage of the ordinance.

Coun. KENNY—Mr. President, that is a matter which relates to chapter 23 of the Ordinances. It is an amendment to section 1 of chapter 23. It is drawn for the purpose of making the language of section 1 consistent with the present situation under the new charter, referring to the City Council in places where the Board of Aldermen's name appears, and also the Common Council. It is also, Mr. President, intended to do away with the present ordinance which provides that the Corporation Counsel may have \$2,000 each year from the contingent fund of the City Council for the purpose of defraying legislative expenses. That is an ordinance which has been in force for some years. Under section 1 of chapter 23, which was amended in 1904, the Corporation Counsel is permitted to take \$2,000 of the moneys which were set apart for the contingent operation expenses of the City Council—what is known as the Council's fund—and apply that \$2,000 in meeting certain expenses of his own office in connection with legislative matters. It seemed to the Committee on Ordinances, Mr. President, that that is a misleading situation, that under the budget his department receiving, as it does, some \$50,000 odd each year, that this is the amount which should be applied for the operation of that department and not come down here and take \$2,000 of the moneys which were set aside for the conduct of the business of this Council. Therefore, if the Law Department requires additional moneys for that purpose let it say so when it makes up its budget, and not take it from this channel, which has been the case for some years. Therefore, this ordinance is expected to cure that impropriety, to say the least. Why should we pay \$2,000 to the Law Department for doing its own business?

The ordinance was passed.

Coun. KENNY—Mr. President, I offer two reports, one on the ordinance offered by the Mayor May 4 with respect to the Printing Department purchasing supplies—ought not to pass, and a new ordinance which I now hand to the Clerk.

The ordinances referred to were as follows: (6) Report on message of Mayor and ordinance (referred May 4) concerning Printing Department—that the ordinance ought not to pass.

Report accepted; ordinance rejected.

(7) Report on ordinance (referred May 25) relative to Printing Department—recommending passage of same with the following amendment:

Amend section 2, lines 10 and 11, by striking out the words "or other officer designated by the City Council."

Report accepted; ordinance as amended passed.

Coun. KENNY—Mr. President, the ordinance upon which the Council acted favorably is the ordinance which was presented the Council by the President of the Council.

ANNUITY FOR MRS. NORTON.

Coun. KENNY offered an order—That under the provisions of chapter 178 of the Acts of 1887 an annuity not exceeding three hundred dollars be allowed and paid to Annie L. Norton, widow of Thomas J. Norton, a member of the Police Department, who died from injuries received while in the discharge of his duty, said annuity to continue so long as she remains unmarried, and to be charged to the appropriation for Police Department, Pensions.

Referred to the Executive Committee.

LIST OF MALE VOTERS.

Coun. ATTRIDGE offered an order—That the Election Commissioners be requested, through his Honor the Mayor, to furnish the City Council with a list of the male voters registered for the last city election, arranged so as to show the number of such voters residing in each assessment block, and that the Street Commissioners be requested to furnish the City Council with a map showing the assessment blocks and the number of voters in each block.

Referred to the Executive Committee.

PAYMENT TO MRS. HALLORAN.

Coun. COLLINS offered an order—That chapter 17 of the Acts of 1914, as amended by chapter 416 of the Acts of 1914, relative to payment to widow of Daniel M. Halloran, be and the same hereby is accepted.

Coun. COLLINS—Some time ago, at the request of some representatives and senators, I offered an order based upon a bill. I found after offering it that the bill was improperly drawn and that it did not cover the petition which was filed, but went much farther, and incorrectly so. Mr. President, on matters of this kind, particularly concerning expenditures of money based upon causes of action, either moral or legal, taking place some years ago, it seems to me proper that either the Committee on Claims or the Law Department should investigate the claim and report on it. In this body it is usual to offer orders of this character in order that the same may be officially put before the Council. Accordingly I offer it simply for that purpose, but not advocating the same, not having conferred with the Law Department or the Commissioner of Public Works, knowing that the Corporation Counsel will advise us as to the merits, legal and moral, of the foregoing order and petition.

Referred to the Executive Committee.

PRINTING OF LIGHTING CONTRACTS.

President McDONALD offered an order—That the City Clerk be directed to have printed an edition of 1,000 copies of a city document containing the contracts made by the city with the Boston Consolidated Gas Company for street lighting, the expense of the same to be charged to the appropriation for City Documents.

Referred to the Executive Committee.

WIDENING OF NORTHAMPTON STREET.

President McDONALD offered an order—That the sum of \$115,000 be appropriated, to be expended by the Street Commissioner, for the widening of Northampton street on the northerly side, between Washington street and Harrison avenue, to a width of sixty feet, and that to meet the said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the City of Boston to said amount for said purpose.

Referred to the Committee on Finance.

RECESS TAKEN.

The Council voted, at 5.40 p. m., on motion of Coun. BALLANTYNE, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 6.22 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on petitions of Jacob Cohen and Joseph Rogers (referred to-day) for permits to sell, rent or lease firearms—that permits be granted.

Report accepted; permits granted on the usual conditions.

(2) Report on order (referred May 25) to pay the sum of \$300 to Roger F. Scannell for use of land in Mattapan known as Rugby Park—that the order ought to pass.

Report accepted; order passed.

(3) Report on order (referred to-day) for payment of annuity to widow of Thomas J. Norton—that the order ought to pass.

Report accepted; order passed.

(4) Report on order (referred to-day) that Election Commissioners prepare assessment blocks, etc.—that the order ought to pass.

Report accepted; order passed.

(5) Report on order (referred to-day) to print street lighting contract—that the order ought to pass.

Report accepted; order passed.

(6) Report on order (referred April 22) for construction of artificial stone sidewalk on westerly side of Washington street, between Cambridge and Union streets, Ward 25—that the order ought to pass.

Report accepted; order passed.

(7) Report on order (referred to-day) to accept act relative to payment to widow of Daniel M. Halloran—recommending reference of same to Law Department for report.

Report accepted; said reference ordered.

COUNTY ACCOUNTS.

Coun. COLLINS, for the Committee on County Accounts, submitted a report on pay roll (referred to-day) of Register of Deeds, amounting to \$3,612.45—approving of the same.

Report accepted; pay roll approved and ordered paid.

GENERAL RECONSIDERATION.

Coun. BALLANTYNE moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 6.25 p. m., on motion of Coun. BALLANTYNE, to meet on Monday, June 29, at three o'clock p. m.

CITY OF BOSTON.

PROPOSALS FOR \$6,558,000 4 PER CENT. CITY OF BOSTON LOANS. BONDS EXEMPT FROM TAXATION IN MASSACHUSETTS.

EAST FIRST STREET EXTENSION, \$48,000.

Order of the City Council of Boston of December 23d, 1913. Payable \$3,000, annually, July 1st, 1915, to July 1st, 1930, inclusive.

POLICE STATION, DORCHESTER, \$45,000.

Order of the City Council of Boston of December 23d, 1913. Payable \$3,000, annually, July 1st, 1915, to July 1st, 1929, inclusive.

All loans will be issued in Registered Bond Certificates of \$1,000 each, or any multiple thereof, and will be paid on the dates specified for each loan, all with interest at the rate of 4 per cent. per annum, payable semi-annually, on the first days of January and July in each year, at the office of the City Treasurer, Boston.

These Bonds are exempt from taxation in Massachusetts and from the Federal Income Tax.

The certificates will be dated July 1st, 1914, and will be ready for delivery, and money received for the same July 20th, 1914. Interest will begin July 1st, 1914, and will cease on the date on which the Bonds are payable.

Holders of these certificates, if they so desire, can receive the semi-annual interest through the mail by check payable to their order.

Proposals must be sealed and addressed to Charles H. Slattery, City Treasurer, Boston, Mass., indorsed "Proposals for Loans," and clearly state whether for the whole or part of said loans, and, if for part, the amount. Each proposal must be accompanied by a certified check on a Boston National Bank or Trust Company, or by cash, equal to one per cent. of the amount of

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

loans bid for, the check made payable to the City of Boston, Charles H. Slattery, City Treasurer. The check or cash of any bidder to whom an award is made will be retained as part payment for the loan or loans awarded, but no interest will be allowed thereon. All other checks or cash will be returned.

Accrued interest from July 1st, 1914, to date of delivery is to be paid by the purchaser.

All proposals will be opened by the undersigned in the office of the City Treasurer, Tuesday, June 30th, 1914, at 12 o'clock M. The City Treasurer reserves the right to reject any or all bids or to accept such bid or bids as may seem to him to be the most advantageous to the city.

(June 27.) CHARLES H. SLATTERY,
City Treasurer.

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for installing a cooking room in the Henry Grew School, Gordon avenue, Hyde Park, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Friday, July 3, 1914, at said office, with a certified check for \$100 payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

(June 27.) J. P. LOMASNEY,
CHARLES B. PERKINS,
W. F. KEARNS,
Commissioners.

CITY OF BOSTON.

AUCTION SALE OF SEVEN OLD AUTOMOBILES, CARRIAGES, DUMP CARTS, HARNESSSES, ETC., AT THE SEWER SERVICE YARD, 680 ALBANY STREET.

The Commissioner of Public Works directs the sale at public auction of seven old automobiles, carriages, dump carts, harnessses, etc.

The sale will be held on the premises Thursday, July 2, 1914, at 12 m.

Payment in full in cash or certified check must be made at time of sale.

Direct all inquiries to Mr. Edward W. Foye, 30 State street, Boston, Mass.

(June 27.) L. K. ROURKE,
Commissioner of Public Works.
June 25, 1914.

CITY OF BOSTON.

PROPOSALS FOR FURNISHING BITULITHIC PAVEMENT, DILLAWAY STREET, CITY PROPER.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for furnishing and laying bitulithic pavement in Dillaway street, from Dix place to Hollis street, city proper, and giving bond therefor of a surety company approved by the commissioner in the sum of six hundred dollars (\$600), to secure the due performance of the contract and the full protection of the city. Only proposals obtained at said office, filled out, signed by the bidder, and left at Room 62, fifth floor, City Hall, before 12 o'clock m. of Monday, July 6, 1914, with a certified check for two hundred dollars (\$200), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening bids. The contractor will furnish his own specification and attach same to the proposal. The commissioner reserves the right to reject any or all proposals or to award the contract as he may deem in the best interests of the city. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The proposals should be inclosed in an envelope, sealed and marked "Proposal for Bitulithic Pavement, Dillaway Street."

(June 27.) L. K. ROURKE,
Commissioner of Public Works.
Boston, June 25, 1914.

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for installing a cooking room in the Everett School, Northampton street, Boston, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Friday, July 3, 1914, at said office, with a certified check for \$100, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

(June 27.) J. P. LOMASNEY,
CHARLES B. PERKINS,
W. F. KEARNS,
Commissioners.

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for installing a cooking room in the Longfellow School, South and Hewlett streets, Roslindale, Mass., and giving bond of a surety company therefor in the sum of \$300. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Friday, July 3, 1914, at said office, with a certified check for \$100, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

(June 27.) J. P. LOMASNEY,
CHARLES B. PERKINS,
W. F. KEARNS,
Commissioners.

CITY OF BOSTON.

TO MACHINERY CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for furnishing and installing woodworking machinery in the Mechanic Arts High School, Belvidere street, Boston, and giving bond of a surety company therefor in the sum of \$1,500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Tuesday, July 7, 1914, at said office, with a certified check for \$300 payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall. The commissioners reserve the right to reject any and all proposals.

(June 27.) J. P. LOMASNEY,
CHARLES B. PERKINS,
W. F. KEARNS,
Commissioners.

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for erecting and completing (all trades) a teachers' and master's office in the yard of the Wendell Phillips School, Phillips street, corner of Anderson street, West End, Boston, Mass., and giving bond of a surety company therefor in the sum of \$1,500. The plans will be ready for contractors July 1, 1914. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Wednesday, July 8, 1914, at said office, with a certified check for \$300, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

(June 27.) J. P. LOMASNEY,
CHARLES B. PERKINS,
W. F. KEARNS,
Commissioners.

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By Subscription \$1.00 Per Year.
Single Copies 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 37, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, July 13, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, 100 Summer street.

POSTPONEMENT OF SALE.

The sale of two Stevens-Duryea, Model R, 1910 touring cars; one Columbia 1909 Model touring car; one Maxwell runabout, 1910 model; two Stevens-Duryea runabouts, 1907 model; one Pierce Arrow Model, 1912 touring car, has been postponed until Monday, July 6, at 12 m. These cars are to be sold as they are; also carriages, wagons, dump carts, harnesses, etc., at the Sewer Service Yard, 680 Albany street.

FOURTH OF JULY CELEBRATION.

From the plans made by Mr. John F. Dever, Director of Public Celebrations, with the approval of the Mayor, and the reports which come from the sixteen committees which are arranging the details, it appears probable that the City of Boston's Fourth of July celebration to-day will be at least equal in extent and interest to the safe and sane celebrations of the past two years. The Independence Day Committee of the Citizens' Public Celebration Association and its subcommittees are working with the director as usual to accomplish whatever may be possible to help the city give the people an instructive and interesting commemoration of the 138th anniversary of the Declaration of Independence.

Although the official opening of the day's celebration will be the flag raising on Boston Common at 9 a. m., some of the districts will begin activities with the arrival of the day at midnight. Bonfires are being arranged at Forest Hills as last year and at Hyde Park. At the other end of the day's celebration will come evening band concerts and fireworks at more than a dozen places throughout the city. The citizens of Jamaica Plain are arranging an elaborate use of the fine natural conditions at Jamaica Pond. Besides a band concert and display of fireworks from a float anchored in the pond, there will be an illumination by several hundred torches of the entire shore of the pond, which in itself will make a brilliant spectacle expected to attract thousands of spectators, as was formerly the case when the Jamaica Plain evening Fourth of July celebrations were events talked about throughout the entire city.

Particular attention is being given this year to children's entertainments and other features in various districts of the city, and there are a dozen committees at work on this part of the day's celebration. Probably twenty parks and playgrounds will be used in this connection all the way from Hyde Park to East Boston. Considerably more than 1,000 gallons of ice cream will be supplied by the city and distributed by these committees to the children in the districts, in addition to entertainments of various kinds which have been arranged.

There will be a band concert in the Back Bay Fens this year for the first time, in recognition of a growing district. At Franklin Park there will be a children's festival, with a special program in the afternoon, to which the public is invited. During the morning children from the South End will be carried to Franklin Park in special cars, under the direction of the South End District Committee, Mrs. Margaret A. Gallagher, chairman. By noon time there will be at least 2,000 children assembled in a specially reserved section of the park. For an hour or two they will be shown the attractions of the reservation, including the birds, bears, elephants and other animals. From 2 to 5 o'clock in the afternoon there will be a

special entertainment arranged by a committee of which Alexander I. Peckham is chairman. This will consist largely of some of the best features of Mrs. W. S. Butler's annual May festival under the direction of Mrs. Lilla Viles Wyman. The children taking part in this program will include solo dancers and larger groups, all in costume and accompanied by an orchestra. The entertainment will take place on the grass on a section to be roped off, and with accommodations for many spectators, who are likely to improve the opportunity to witness a program which the city is providing free of expense and which will be equal in most respects to the regular May festivals to which thousands of people have been paying fifty cents and one dollar during the past twenty-six years in which Mrs. Wyman and Mrs. Butler have been conducting these interesting celebrations in Mechanics Building.

Arrangements are being made, as last year, for the pealing of the bells at the Old North Church, which compose one of the few sets in America which can be pealed in full form. These arrangements are in charge of Dr. Arthur H. Nichols, and the pealing is to be done by volunteer English bell ringers, without expense to the city, as a patriotic contribution to the celebration of the day.

The annual distribution of flags and flowers to children, which has been under the direction of the Floral Emblem Society during the past fourteen years, is to be changed from Boston Common this year to the building and grounds of the Abraham Lincoln School.

Athletic and sporting events include the Boston Common athletic meet at 10 a. m. for young men, city swimming races in Charles River Basin at 4 p. m. for boys and girls as well as women, sailing regatta off City Point, rowing races at Charles River Basin at 9.30 a. m., Gaelic football on Boston Common at 9 a. m., hurling at Commonwealth Park at the same hour. Exclusively for boys and girls there will be athletics and games on twenty playgrounds in different parts of the city, as arranged by the district committees, preceded by patriotic exercises, which will in general follow a suggested program prepared by the Independence Day Committee.

In fourteen sections of the city there will be district celebrations arranged by local committees, for children only, all day, including patriotic exercises, games, sports, moving pictures, folk dances, music and the distribution of ice cream, cake and peanuts. In the evening there will be fourteen band concerts, starting at 7.30, scattered all over the city. At 8 o'clock in the evening there will be half a dozen fireworks displays. During the day numerous athletic and sporting events are scheduled for adults, and many groups of games for boys and girls on playgrounds.

Mayor Curley will officially begin the day's program by flag-raising exercises and military ceremonies on Boston Common at 9 a. m. The military detail this year will be the Mission Church Cadets with band. A detail of Daughters of Veterans will give a flag drill. There will be singing of the "Star Spangled Banner" and "America," brief remarks by the Mayor, and then a short parade escorting the Mayor, City Council and others to the Old State House for the reading of the Declaration of Independence from the balcony at 10 o'clock. Then follow the oration exercises at Faneuil Hall at 10.30 with the Mayor presiding.

At Abbotswood a special entertainment will be given, consisting of character and folk dancing under the direction of Mrs. William S. Butler and Mrs. Lilla Viles Wyman, with a dozen groups and individual dancers all in costume.

The complete program for the day is as follows:

PATRIOTIC EVENTS.

9 a. m. Flag raising and military ceremonies, band and singing. Flag drill by Daughters of Veterans. Parade escort to Mayor, Chaplain and City Council.

10 a. m. Reading of Declaration of Independence from balcony of Old State House by Carlo P. Maraldi.

10.30 a. m. Oration exercises in Faneuil Hall. Rev. James A. Supple, Orator. Rabbi M. M. Eichler, Chaplain. Mayor James M. Curley presiding.

Chime playing, morning, noon and night.

Exercises by children on city playgrounds and parks during the day.

ATHLETICS AND SPORTS.

9 a. m. Gaelic football at Boston Common; hurling at Commonwealth Park.

9.30 a. m. Rowing regatta and canoe races, Charles River Basin.

10 a. m. Veteran Firemen's payout, Boston Common.

10 a. m. City athletic meet, Boston Common: 1-mile and 440-yard runs for novices; 100-yard dash, 440-yard run, 880-yard run, 1-mile run, 3-mile run, running broad jump, running high jump.

10 a. m. Sailing regatta off City Point.

4 p. m. City swimming races at Charles River Basin for men, women, boys and girls.

Junior games and sports on playgrounds throughout the city.

FIREWORKS.

Evening fireworks at 8 o'clock at Boston Common, Jamaica Pond (with illumination), Franklin Field, Marine Park, Hyde Park, Washington Street Playground.

GENERAL FEATURES.

2 to 5 p. m. Children's festival at Franklin Park. Character and folk dancing special features. Flag march. Patriotic singing. Orchestra music. The public welcome.

5 to 8 p. m. Bell pealing from Old North Church, by members of English Guild of Bell Ringers.

All day. Children's Field Day at Wood Island Park.

Flags and flowers to children at Abraham Lincoln School, 10 a. m.

Free city ferries all day.

DISTRICT CELEBRATIONS.

Arranged by local committees for children only. All day. Including patriotic exercises, games, sports, moving pictures, folk dances, music, ice cream and peanuts.

Brighton and Allston.—Patriotic exercises. Moving pictures. Children's playground games. Ice cream and peanuts to children. Band concert at Wilson Park.

East Boston.—Children's Field Day, Wood Island Park, all day. Games and sports at Cottage Street Playground for children. General entertainment. Evening band concerts at Orient Heights and Maverick square.

Forest Hills.—Midnight bonfire. Children's entertainment at Carolina Avenue Playground. Games and sports.

Hyde Park.—Children's exercises and sports at River street, Readville and Peabody Home. Evening band concert and fireworks.

North End.—Ice cream to children. Games and sports at North End Park.

Roslindale District (including Mt. Hope, West Roxbury and Germantown).—Joint program, 9 a. m., and all day at Washington Street Playground. Flag raising, Declaration of Independence, oration, vaudeville entertainment. Ice cream and peanuts for children. Baseball at Pearce Field. Evening band concert and fireworks.

Metropolitan Hill.—All day and evening celebration.

Roxbury.—Patriotic exercises on seven playgrounds with athletics and games for boys and girls: Marcella Street, John Winthrop, William Eustis, Washington Park, Columbus Avenue. Fens and Lawrence Avenue. Distribution of ice cream and peanuts. Evening band concerts.

South Boston.—Moving picture shows and ice cream for children. Evening band concert and fireworks, Marine Park.

South End.—Two thousand children to Franklin Park. Evening band concert.

West End.—9 a. m. Children's games, sports and patriotic exercises at Charlesbank. 2 p. m. Ice cream and peanuts to children from wardroom.

Neponset.—10 a. m. Ice cream to children; Punch and Judy, on playground. Noon. Gaelic games. Swimming events for boys and girls at Tenean Beach. Evening band concert.

BAND CONCERTS.

Evening concerts at 7.30 o'clock at Boston Common, Jamaica Pond, Franklin Field, Marine

Park, Neponset Playground, Everett square (Hyde Park), Wilson Park at Chestnut Hill avenue (Brighton), Orient Heights, Maverick square (East Boston), Washington Street Playground, Boylston street and Back Bay Fens, Pembroke street (South End), and Roxbury at John Winthrop Playground and Smith Street Playground.

John F. Dever, Director of Celebrations.
James M. Curley, Mayor.

INDEPENDENCE DAY COMMITTEE OF THE CITIZEN'S PUBLIC CELEBRATION ASSOCIATION.

Charles L. Burrill, chairman; William A. Boudrot; E. J. Bromberg; Frank Chouteau Brown; Mrs. William S. Butler; George W. Carruth; William H. Cuddy; Mrs. M. A. Gallagher; E. B. Mero, secretary; Patrick A. Kearns; John A. Kiggen; Daniel A. MacKay; Alexander I. Peckham; James H. Phelan; Addison L. Winship.

CHAIRMAN OF DISTRICT COMMITTEES.

West End, W. H. Cuddy; South End, Mrs. M. A. Gallagher; North End, Joseph Santosuosso; East Boston, Richard McDonnell; South Boston, H. J. Keenan; Roslindale, George W. Carruth; Jamaica Plain, Theodore Barnes; Roxbury, Patrick A. Kearns; Neponset, Matthew Cummings; Hyde Park, W. L. F. Gilman; Brighton, Francis B. McKinney; Forest Hills, John B. Hoar.

BIDS FOR GOVERNMENT SUPPLIES.

After-Cooler with Piping and Accessories.—Sealed proposals will be received at the Bureau of Yards and Docks, Navy Department, Washington D. C., until July 11 for furnishing and installing an after-cooler, complete with piping and all accessories, at the central power plant, Navy Yard, Portsmouth, N. H. Specifications and plans can be obtained on application to the bureau or to the commandant of the navy yard named.

Canvas Cases, Semaphore Flag Kits and Jointed Staffs.—Sealed proposals will be received at the office of the Chief Signal Officer, War Department, Washington, D. C., until July 7 for furnishing the Signal Corps with 700 canvas cases for 2-foot and semaphore flag kits, 1,000 staffs, jointed, complete, for 2-foot flag kits, and 100 staffs, jointed, complete, for 4-foot flag kits. Specifications, etc., may be obtained from the office of the Chief Signal Officer.

CHANGES IN CONTRACTS.

Superintendent of Public Buildings Lynch has ordered the Whiton-Haynes Company, in the contract for the erection and completion of the South Boston Police Station, to make the following changes, for which there will be neither charge nor credit on the contract price:

Raise the grade of boiler room floor approximately 15 inches; omit one sanitary and relocate lavatories in men's toilet rooms upon the first floor; change plumbing work to comply with the above-named changes.

Original contract, \$75,800; total additions, \$1,100; total deductions, \$142; amount of contract, \$76,758.

Superintendent Lynch has further directed the John F. Griffin Company to make changes in contract for the erection and completion of the Municipal Building, City square, Charlestown, for which there will be neither charge nor credit on the contract price:

Cut door in brick wall between toilet room and corridor, second floor; build stud partition, plastered both sides and extending to ceiling, between probation officers' toilet and general toilet, second floor; change location of door to judges' toilet; reinforce 10 by 12 pine girder over corridor upon first floor with two 12-inch channels, bolted through beams, with $\frac{3}{4}$ -inch bolts.

Original contract, \$106,441; total additions, \$1,441.85; contract as standing, \$107,882.85.

RELIGION: THE HOPE OF THE NATION.

AN ORATION DELIVERED AT FANEUIL HALL, BOSTON, JULY 4, 1914, BY REVEREND
JAMES A. SUPPLE, D.D., OF SAINT CECILIA'S PARISH, BOSTON.

Your Honor and Fellow Citizens:

This day, set apart by the government to commemorate the signing of the Declaration of Independence, recalls the principles of justice and liberty upon which this republic was founded when she took her place among the nations of the world to begin her career; a career which seems destined under the Providence of God to rival the grandeur of ancient dynasties and historic empires, if indeed she has not already excelled them in scientific discovery and invention.

The very atmosphere of rejoicing is tempered by the necessity of retrospect regarding those principles which are the cornerstones upon which has been reared this temple of self-government, this refuge of all who seek liberty. The resounding of cannon from the armored ships in our harbor, the festive embellishment of our public buildings, the measured tread of our country's defenders lose much of their meaning if we, conscious of our present power and contented with our satisfying past, do not examine the beginnings and aims of our government. This is the time to apply our keenest methods of scrutiny to discover the course of our Ship of State and to ascertain if the path across the surging years has been in accord with the compass.

This is an occasion when we not only present to the Master of Men and the Protector of Peoples a grateful heart for His many blessings but with earnest searchings we examine our national conscience to consider how we have fulfilled the trust committed to our care, what account we can give of our stewardship.

One hundred and thirty-eight years have elapsed since the memorable hour when the framers of a new nation signed that singular document known as the Declaration of Independence. We of today cannot appreciate the significance of that occasion. What that hour meant to them it is almost impossible for us to estimate. We are too remote from the time to understand the conditions of that day and generation, the difficulties which confronted them, the obstacles that impeded the way to peace and progress; in consequence we cannot adequately value their achievement.

Independence was the dream of years; their message of a free nation to the thirteen colonies was not merely the end of oppression and unjust taxation. No, it was something more; it was the fulfillment of a hope that had been the source of constant inspiration and encouragement; it was the answer to the prayers of those who had gone before them, the yearnings of an exiled people who had braved the seas to reach these distant shores where they might find on alien soil freedom to worship God and build the future for themselves and their children.

We may read of the pass at Thermopylae; the legions of imperial Rome may have stamped our memories with indelible impressions of their deeds of war and conquest; the career of Napoleon with its striking manifestation of power and genius we may know by heart, but our appreciation is dull indeed when compared to the sentiments of those who took part in the conflict and were actual

participants. They heard the strife of battle; saw the flash of bayonets; looked upon the field of blood covered with the dead and dying. They knew the worth of victory for they witnessed the price paid for it.

The thoughts of those at home, the happiness of the future, the welfare of the nation, all these give to triumph a zest beyond even the keenest imagination. True it is that we weep over the tragedies of the past, our hearts may be torn in anguish by the mere recital of wrongs which nations have endured in times of suffering and persecution, but our sorrow is a phantom when compared to the calamity of the moment which caused the tragedy and made the time of trial an era of persecution. So must it be with us. We cannot comprehend the full significance of the Declaration of Independence because we have not felt the conditions which stirred the colonies to rebellion and conceived the idea of liberty. It is for us rather, who have received the blessings, to revere and perpetuate the same principles of justice and liberty upon which the nation has been founded and which have accorded her for nearly a century and a half a unique and honored place in the universe.

It was in this same vein that President Lincoln pleaded, when on the battlefield at Gettysburg, his whole being flooded with the emotions of the Civil War, he spoke a thrilling message for the future: "We cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here have consecrated it, far above our poor power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here. It is for us the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us that from these honored dead we take increased devotion to that cause for which they gave the past full measure of devotion that we here highly resolve that these dead shall not have died in vain, that this nation, under God, shall have a new birth of free sons and that government of the people, by the people, for the people, shall not perish from the earth."

What will save this republic of ours? What will hold this country steadfast to its principles, constant to its traditions amid the vicissitudes of time and the incessant influx of new and strange yet fascinating theories? Surely no human power can stay the ravages of error; no human voice can still the discord of contention; no human law can hold within its sanction the conscience of a nation that welcomes to her shores the children of every habitable quarter of the universe.

Sicut patribus, sit Deus nobis: As He was to our fathers, so may he be to us, our God. Religion is the hope of this nation, the bulwark of its morality, the safeguard of its prosperity, the angel guardian of its very existence.

In spite of certain vague and visionary theories, it still remains a fact that the family is the basis of the nation. Nay, more; the family is not only the founda-

tion of the nation, it is the source, the principle of its vitality. Family life is to a nation what the heart is to the body; it has been aptly described as the second soul of humanity. So dependent is a nation upon its family life that the advancement or degeneration of the former may be measured by the people's esteem of the latter.

History affords the discerning mind undeniable evidence of the truth of this assertion. The prosperity of the Roman empire fluctuated with the integrity of her family life and even today nations are not a little concerned about their own immediate future because of conditions in their family life that are far from moral. Respect for parental authority, obedience and affection in the family are coexistent with national vigor and power. The evident unity of the English nation with her world-wide extent of empire is coincident with a devotion and love for home unequalled by any people of modern Europe. These concomitant prosperities of nation and family are not accidental. There exists between them the relation of cause and effect. The welfare of the nation is the product, the result of the good order of the family and not *vice versa*.

In a nation as well as in the family we need the same laws, the same qualities, the same virtues. The training and education of children, the development of habits and character, the formation of future generations takes place in the bosom of the family. It is the home that sows the seed; the nation reaps the harvest. The nation imposes her duties, her obligations; the family trains the children to accept, to perform them. Men of character are not made to order; they are the fruits of early and persistent training; they are the products of a real home.

If the family does not make men, the State never will. The lovers of the flag, the defenders of a nation, the patriots of today and yesterday are not formed in the barracks nor on the battlefield nor aboard the training ship; they are patriots when they leave their mother's embrace and bid farewell to the old home. There their education was begun and there too, as far as solidity is concerned, it was perfected also. It is the Spartan mother and the mother of the Machabees who gives true patriots to a nation.

Patriotism will never fire the heart of people devoid of love for their homes and respect for their families. Patriotism is devotion to that land which we call our own, around which are associated all those memories that men and women hold dearest in life. It brings into play and makes of them the impetus of action and the motive of sacrifice those hallowed ties that have become as it were a part of ourselves. What will military tactics or army maneuvers accomplish for sons trained in a weak, indolent, pleasure-loving family? Men are made of different stuff. Soldiers such as these would prove traitors rather than heroes of the flag.

Family life without religion is like to the house built upon the sand. "And the rain fell, and the floods came, and the winds blew, and they beat upon that house, and it fell, and great was the fall thereof." To attempt to erect it upon any other foundation is to trust its stability to the caprices of the heart, the inconsistency of human affection. The heart is the throne of love. It is capable of great things; it is the all-conquering power of the universe. The master paintings of the artist, the most sublime creations of the sculptor, the noblest deeds of the hero—all have been the labor of love.

Love stands at the threshold of every human endeavor worthy of being remembered by future generations. The zeal of love will attempt even the impossible, for love knows no fear and is well acquainted with sacrifice.

Yet love is not permanent; the human heart will vacillate. Of its very nature it demands the influence, the guidance, the check of religion.

Family life without religion is a story of strife and sorrow. Even the pagans acknowledged it. They gave religion the place of honor in the family circle. They united their altars and their hearths.

Today, perhaps, because of the greater activity of the apostles of material progress a discordant note is sounded to disturb this universal harmony; an isolated voice is heard bringing its message of discord and striving to maintain the integrity of the family on a purely natural basis. Listen to that voice, banish God from your homes; expel the influence of faith, do away with the principles of religion and what have you left? The heart: yes, the heart with its frailties, its caprices. Love governs the heart but religion must govern love.

Would you have the nuptial couch without honor, children without respect, husband and wife unfaithful to their promise and matrimony itself a mere mercantile contract? Do you want one of the most sacred of human bonds broken at the will of its fickle contractors until divorce stalks the land, your nation becomes polygamous and you have immolated on this sacrilegious altar the happiness of your children, the welfare of the entire country?

"Matrimony is a sacrifice rather than a contract, a crucial test for both man and woman." Duties must be performed, obstacles overcome, crosses are to be borne. Sacrifice without religion is not easy. It is faith that teaches the merit, the nobility of sacrifice. It pierces the clouds and reveals the hidden God; it offers men and women the road beset with abnegation; it counsels them to proceed without fear, for it teaches them that though the world may know nothing of their sacrifices, there is a just God, who, witness to what they bear, will console them in their trials and tribulations.

It is the law of God that safeguards the stability of the family; it is the love of God that strengthens men and women for its burdens.

The home is also the sanctuary of the children, the most important factor in the future of a nation. The child of today is the citizen of tomorrow. Responsibilities await him. He is needed to succeed the men and women who built well in their generation and left the legacy of conserving that for which they labored and for which many of them sacrificed their lives.

The training of the child is the making of the man. To teach children the ground work of future character, to guide them along the lines of correct habits, religion is indispensable. The law of God is the eternal standard of right and wrong. Without God duty is a word without meaning and obligations have no sanction. The supreme law-giver is the vindicator of parental authority. "Honor thy father and thy mother" is the ultimate appeal, the tribunal that guarantees the peace and good order of every family.

When the influence of religion is set aside in the education of our youth fads and fancies are substituted in its place. They thrive for awhile and perish. Today they propose the knowledge of sin.

It is not knowledge that we need but virtue. Sex hygiene will not make better men and women but the observance of the ten commandments will.

Silence the name of God in your homes, your schools and institutions in which your children, the future citizens of the nation, are trained and you may write over their doors what Dante saw written over the gates of hell, "All ye who enter here, leave hope behind."

Well has it been said that if the child is not a lawmaker he will become a law-breaker and that in the near future. If respect for authority is not inculcated in our youth, then look for rebellion and anarchy. Children will not grow up spontaneously into law-abiding citizens. Obedience to law, reverence for superiors, honesty in public and private life, respect for the rights of others do not spring in human lives like mushrooms in a field over night. These virtues need careful, constant cultivation. Without the help of religion the task will be in vain. Education to-day as always without religion will prove a failure. The court records rarely bear witness to the fact that crimes are committed through lack of education. Rather improper education is responsible for crime, because it has left the consciences of men dead, without God, without religion.

If the family is to be the faithful nursery of a nation, for nursery it is, we must make room for God, that through His teachings children may obey their parents, honor their fathers and mothers, bring into the lives of those whom they meet the principles of justice, reverence, respect, charity, which are the foundation of genuine character and the only substantial corner stone upon which the future of a nation can safely rest.

As the integrity of a nation depends upon the morality of its family life, so its material prosperity varies with the condition of the working classes. It is the workingman that produces the nation's wealth, and whether his labor be in the field or on the sea or in the factory, it is his constant, daily toil that makes for the country's greatness. Hence it is that the question of labor is one of the most engaging problems to be solved by any community and never before as in our time has it demanded so much study and attention. It involves the consideration of labor in itself and the relations between employer and employed. Neither can be settled satisfactorily on any other basis than that of religion.

Take God and the consolations of religion out of labor and what does it become? Drudgery. It is described as such in the language of pagan classics. Aristotle calls work illiberal; Plato tells us that the man who worked was frowned upon and considered unworthy of Grecian citizenship; Cicero, spokesman for the Latin people, regards laborers as an inferior class to be treated as slaves. Terence assures us that to gain respect and win the esteem of the populace men must lead a life of leisure, and the satirical pen of Juvenal reveals the chasm between the rich and poor, the wretchedness and desolation of the laboring classes.

This degraded view of labor still exists in countries where the name of God is never spoken. Work to the Brahmins was a sort of legal contamination, and the Indians of our own country refused to labor. That was menial service relegated to their women whom they regarded as slaves. Today with all our enlightenment labor is honored in word only. Money is the idol of the moment. Men demean themselves before the rich.

They bow before wealth and influence. They look askance at the common laborer whose hands are hardened by honest toil.

Religion alone can dignify the condition of labor. Without it labor is equivalent to the energy of a machine and the mechanic is placed on a par with the machine he operates. What difference is there between them? None, or very little. Both labor for the same result; one works for wages, the other does not. One is an absolute slave, the other a conditional. Is this the only difference between a machine and a man? God forbid.

Labor is inseparable from the man. No employer can hire so much labor as he would buy a machine. Labor is a part of the man and his rights must be considered when we speak of labor. Man does not live to work; he works to live and to live as God created him, a free, intelligent, moral agent and not a slave.

The evil is not in labor nor in the organization of labor. The evil lies in the fact that labor has been paganized. Drive faith out of the heart of the workingman, take away his belief in Divine Providence, there is nothing before him but a blind destiny that raises one man and degrades another; fate, heartless but inevitable against which he rebels yet always in vain. Viewed from this standpoint labor is slavery pure and simple and the laborer must groan under his daily burden like the slave under the master's lash.

The various issues kindred to labor, the living wage, competition, inequality of wealth, poverty, industrial capital, private property can never be answered without the aid of religion. The whole question is not a purely economic problem; it involves moral rights and principles. Labor is the product of human as well as physical activities. It must be treated from the standpoint of religion that declares the immutable standard of justice, and gives an appeal to the Court of God himself.

It is absolutely true, as the Socialist says, that many of our economic evils are due to vicious organization, absolutely callous to the woes and lamentations of the working classes. While it means liberty to the strong to abuse their strength in ironic contrast it degrades labor to commercial slavery. The poor must take the terms upon which they are to earn their daily bread or starve. There is no alternative. No less a light than Pope Leo XIII. says practically the same thing: "The preservation of life is the bounden duty of each and all, and to fail therein is a crime. It follows that each one has a right to procure what is required in order to live, and the poor can procure it in no other way than by work and wages. There is a dictate of nature more imperious and more ancient than any bargain between man and man, that the remuneration must be enough to support the wage-earner in reasonable and frugal comfort. If through necessity or fear of a worse evil the workman accepts harder conditions because an employer or contractor will give him no better, he is the victim of force and injustice."

We do not deny the evils which the Socialists emphasize, but the remedies they propose are utterly inadequate. You cannot change conditions unless you control the principles that are responsible for them; you cannot alter principles unless you can reach the consciences that inspire and make them; you cannot guide conscience without the law of God.

It is the fatherhood of God that makes the brotherhood of man. It is precisely this spirit of fraternal charity coupled

with social justice that can meet effectually the present problems of the industrial universe.

So it is with the relations between employer and employed. Those relations are properly adjusted by the law of God who made the toiler and the master; before whose tribunal both are amenable; whose law of brotherly love is incumbent upon each; with whom there is no exception of persons; who demands an account of each stewardship.

Employers are bound to treat those who work for a living as fellow-men. They do not belong to a lower order of creation. In everything essential they are equal to those who employ them. They are created by the same God; they are made to the same image and likeness; their souls are as valuable; they are endowed with the same faculties. Often they stand higher in the moral code than the men who employ them.

Imperfection in education, the lack of social distinction, their position in an inferior station does not deprive men of the right of being considered human beings. If those who hire labor would admit these simple truths not only in theory but in practice, carry them out to their legitimate consequences, much of the sorrowing of the working classes would cease to exist. Men do not rebel against work; it is by work that they live. They understand that well. It is not work that wounds but the unjust, unscrupulous and even inhuman attitude of those for whom they labor.

The laborer has his obligations also. He must give his employer respect, obedience, loyalty. Respect; for in a certain way he is dependent upon his employer for the means of his livelihood. Obedience; the toiler contracts to do a certain work. He is engaged and paid to do not his own will but the will of the employer. Loyalty; the laborer is in a position of trust. Confidence has been put in him. He must not betray it. He has accepted a pledge. He must keep it.

These in a few words are the obligations of the employer and employed. If accepted and carried out conditions will be as nearly ideal as we can hope to make them. Religion is the leaven of social regeneration. The law of God becomes the standard of right and wrong; the consciences of men are governed by its benign and salutary teaching; the pagan idea of convenience and self-interest is relegated to the age to which it belongs, when men were regarded as slaves and work looked upon as drudgery.

As the welfare of a nation depends upon the integrity of its family life and the condition of its labor, and these in turn upon the influence of religion, the peace of a republic is assured by its acknowledgment of a supreme Being and its due regard for His eternal laws. Nations fall into ruin once they have forsaken their faith in God. Then vice has no restraint, virtue no reward. The world becomes a theater and life a stage of sin and sorrow. When France was drenched with human blood Figuiet declared it was not petroleum but materialism that destroyed her. And so it must be. Without God there is neither law nor order. All is chaos. What upholds the authority of a nation, the dignity of its magistrates? God's sanction. Do away with that sanction and laws are valueless and magistrates powerless.

God is the origin of right and duty. Exclude Him and the very notion, as Pope Leo says, of what is right and good will perish. We have no rights except what we have received from God and

there is no authority but His to vindicate them. The rights of men are inseparable from those of God. Sever the tie that binds them and human rights are no longer facts but chimeras.

When the name of God is without fear, right gives way to force, slavery, despotism. "What we take from the sovereignty of God, we add to that of the despot."

The city of Cambridge did a lasting service not alone to herself but to the entire nation when she carved over the portals of city hall: "God has given ten commandments to men. From these commandments men have framed laws by which to be governed."

When we pretend to build a nation on the foundation stones of reason and morality without God or religion; when professors teach that prime and final causes are nothing more or less than the abstractions of idealists and philosophers; and that even supposing that there be a God, He does not concern Himself about us, and man in consequence is irresponsible in his actions and morals; when the leaders of a people play fast and loose with the fundamental principles of right and wrong; when the public conscience is deprived of guidance, peace and order will be sought in vain.

To make a nation, gold is not enough. The altar was and the altar always will be the corner stone of any nation that is to endure. To look upon religion as an intruder in civil matters, to seek to relegate its influence to matters purely personal or ecclesiastic; to refuse it a forum in politics, business, education, economics and the manifold relations of men with one another, is to assume that God has abandoned men in their mutual relations although the most vital interests of the human race depend upon them.

The assumption cannot be proved. God has not only created individuals; he is the author of their mutual relations also. He has so formed human society that men's acts have not merely an individual but a social character. He has multiplied the points of contact, as it were, between the individuals that make society. He has surrounded each one of us with a network of influences, rights, duties. He has placed between Himself and each individual a host of others, so that we reach God by acts that affect others as much as by personal sanctity.

The relations and activities of social life not less than those of private life are dominated by moral laws. They who teach the people to adore no God but gold, to recognize no laws but those of self-interest, are the real enemies of a republic though they are not always publicly so regarded nor dragged before the courts of justice to be sentenced.

Justice and virtue are the necessary conditions of genuine progress. When religion has lost its hold upon a people's heart virtue will lie buried under the ruins of truth. It is impossible to act well when one believes and loves ill. Withdraw the light of faith from the public conscience, the family is humbled to the dust; obedience is shame; property is disputed; sacrifice and abnegation are driven out by egotism and idleness; pleasure and convenience become the standard of living; naturalism is the apology for vice; photography, lithography and journalism make friends with scandal; virtue is sold as a mere commodity and we have wholesale traffic in the honor of the nation.

The need of the present generation is men of faith; men of religion. As long as there are such, we need never fear for the future of the republic. It is related

that when the last hero of Poland fell on the battlefield, he cried: "The end of Poland." So also when the fires of faith are no longer kindled at our hearths, when among our people those who believe in the justice of a God who rewards and punishes are deprived of that belief through the insidious doctrines of materialism, when the name of God is no longer held in reverence by our nation, we may take up the cry and exclaim: "The end of America."

But that day, please God, shall never be. This nation has been blessed too bountifully by Him to forget its benefactor. Our public men have uttered His sacred name with honor; they have counted upon His help to work out the future of the nation.

"An appeal to arms and to the God of Hosts is all that is left us. They tell us, sir, that we are weak — unable to cope with so formidable an adversary. Sir, we are not weak, if we make a proper use of those means which the God of nature has placed in our power. Besides, sir, we shall not fight our battles alone. There is a just God who presides over the destinies of nations, and who will raise up friends to fight out battles for us."

The first president of our great republic said: "Of all the dispositions and habits which lead to political prosperity, religion and morality are indispensable supports. And let us with caution indulge the supposition that morality can be maintained without religion. Whatever may be conceded to the influence of refined education on minds of peculiar structure, reason and experience both forbid us to expect that national morality can prevail in exclusion of religious principle."

The words of Washington in his farewell address may be linked with those of Wilson in his inaugural: "God helping me, with the aid of all good and patriotic men to counsel me, I shall not fear of success for the future."

Give God His rightful place in the nation. Call Him by His proper name — God. Away with those seductive titles of Nature and Science by which a mistaken age would hide His identity and over whose temple it would carve as the Athenians of old, "To the unknown God."

Give God an honored place in the family; let Him enter the industrial, commercial, social and political life of our people; do not relegate Him to the church, the altar, the pulpit, and then the dream of those who framed the Declaration of Independence will be realized; the words of the inspired Psalmist will find a counterpart in our beloved country; there is no other nation like to ours, and the reason of it will be because no other nation has its gods so near to them as our God is to us.

PUBLIC HEARING.

The Directors of the Port will give a public hearing upon the application of Louis K. Rourke, Commissioner of Public Works, for license to build and maintain a fire service pumping station in Fort Point channel, at the office of the directors, 40 Central street, upon Thursday, July 9, at 9.15 a. m.

SEWERAGE CONTRACT ENLARGED.

Commissioner of Public Works Rourke has directed that Antony Cefalo, who is the contractor for building sewerage works in Pleasant street, from Eliot to Washington street, city proper, shall build new house drains at all vacant lots and alleys upon both sides of street. The estimated cost of extra work is \$1,319.37.

THE CLEAN CITY.

The pupils of the South Boston High School have presented Mayor Curley with a handsome and very interesting symposium of essays upon the subject "A Clean City." Members of the senior, junior, sophomore and freshman classes contributed papers of special interest which will be reproduced in the *City Record*.

The greeting of the pupils of the school is embraced in the following communication:

June, 1914.

HON. JAMES M. CURLEY,
Mayor of Boston:

YOUR HONOR,—The accompanying set of papers on "A Clean City" is one of the fruits of your campaign to "clean up and paint up" the City of Boston, to which we are all loyal. Our Home Rooms discussed the topic and we tried to advance the cause. As a final expression, each Home Room has contributed a paper to this set, as the following index will show. We tender the set to you, feeling that you have done much for the city and for us.

Respectfully yours,

AUGUSTUS D. SMALL,
Headmaster, South Boston High School.

A CLEAN CITY.—SANITATION IN CROWDED CITIES.

By MISS MARY E. F. McGRATH, *South Boston High School*.

One of the chief factors of a successful life is good health and this is dependent upon a great many conditions, one of which is cleanliness. Knowing this statement to be true, is it not the sensible thing for us all to pledge ourselves to aid in keeping the city in which we live clean?

The boys and girls, especially, meet with a great many opportunities during the week, sometimes in a day, when they can show that they have "Civic Pride."

In the first place we should guard ourselves against expectorating on sidewalks, not because we know that a fine is imposed upon us for violating the law, but because we know that it is wrong. If we see any waste about the house it is right for us to see that it is put into proper receptacles, having a tight cover. When on the street we should keep our discardables until the time when we arrive at the right place for disposing of them. If these hints for sanitation were heeded by all we would have cleaner streets.

Do we not want the city in which we live to have a neat appearance? Undoubtedly the answer is "yes," but neatness will not be prevalent unless the inhabitants lend a helping hand. An attractive city, we know, not only appeals to desirable residents but also to travelers.

Now, let us give our attention to the overcrowded communities of New York, for instance. In this city I am told that of 1,588 rooms, one-third of the entire number were dark, with no ventilation to the outside except through other rooms. As bacteria thrive in the dark, are not these rooms excellent places for disease? Furthermore, how much more likely it is that the health of the public is endangered by these conditions if they are allowed to prevail. The absence of ordinary cleanliness and the presence of filth and dirt are dangers to health. The truth of this statement is well illustrated in the report of numbers of people in the same district suffering from the same diseases found to be caused by the non-presence of sanitation.

In Texas a panic seized a city on the discovery of yellow fever. Efforts were

started to teach the school children about insects as carriers of disease. Aquariums were fitted up in school rooms and excursions were made to search for breeding places. Lessons were given on the subject and papers were written by the pupils. As a result, there was a decided decrease in the number of deaths. Now, if Texas is able to get such good results, surely we can succeed in having a city more free from dirt than ever if each and everyone of us abides by the advice given.

A CLEAN CITY.—THE DUTIES OF THE CITIZEN.

By MR. JOHN F. McKEON, *South Boston High School*.

This nation is a new nation among the powers of the earth. In many respects, young as we are, we outclass our older neighbors. But, it must be admitted, we in turn are outclassed by many European countries. One of the points in which we are far behind is the cleanliness of our cities. Now this country is a free country, and we, as citizens, enjoy unparalleled freedom. We have freedom of speech, freedom of religious principles, freedom of the press and that invaluable right and power to elect our own representatives to our own governing bodies.

From this we can easily see that the duties of citizenship narrow down to the individual. Now it is a well-known fact that if the average American were to be accused of lack of civic pride, he would become indignant—perhaps rightly so. But is it not an open manifestation of lack of civic pride when we throw papers, cans and other refuse on the public highway? Is it not lack of civic pride when we do not try to stop this accumulation of unsightly, disease-bearing refuse? Is it not lack of civic pride when we, as individuals, fail to do our duty as citizens of this great republic and support the authorities in their efforts to better the civic beauty of our city, state and country?

We can make this city of ours the cleanest in the land by a little care upon our part. Let each one make it a habit, as well as a matter of personal pride, that he or she will not, under any circumstances or conditions, throw waste paper or other material to be discarded about our public highways. The city has provided for this waste material and the civic authorities should have our entire cooperation and support in their efforts in this most important line. We have receptacles for this fast accumulating refuse and how simple a matter it would be to deposit there and how great the result would be. Would't it pay for the little individual care and attention, which we as future citizens owe to this republic, to have our city classed as the brightest, cleanest and most healthful in the land? So then let us as pupils of the South Boston High School lend our hearty and united support, both moral and actual, toward the attainment of this end.

PORTSMOUTH NAVY YARD CONTRACT.

The attention of Boston contractors is called to the fact that proposals will now be received for furnishing and installing an after-cooler, complete with piping and all accessories, at the central power plant, Portsmouth Navy Yard, Portsmouth, N. H. Specifications may be obtained upon application to the Commandant of the Portsmouth Yard, or at the Bureau of Yards and Docks, Navy Department, Washington, D. C. Bids close Saturday, July 11.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertises for proposals for furnishing and laying bitulithic pavement in Dillaway street, from Dix place to Hollis street, city proper. Surety bond will be required in the amount of \$600. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$200, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 6, at 12 m.

Advertises for proposals for bituminous macadam roadway in St. Rose street, from 600 feet south and west of Jamaica street to the Arborway, West Roxbury. Surety bond will be required in the amount of \$1,200. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$300, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 13, at 12 m.

Advertises for proposals for bituminous macadam roadway in Denton terrace, West Roxbury. Surety bond will be required in the amount of \$1,200. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$300, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 13, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for pipe sewer and drains in Westwood street, from Board of Survey street No. 1038 to 420 feet southwesterly, Dorchester. Surety bond will be required in the amount of \$300. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$200, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, July 9, at 12 m.

Advertises for proposals for pipe sewer and drains in Marsh street, from Hallett-Davis street about 1,000 feet westerly, Dorchester. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$300, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 10, at 12 m.

PUBLIC WORKS DEPARTMENT (Water Service).

Advertises for proposals for laying and relaying about 7,500 linear feet of 30-inch water pipe in Columbus avenue, between New Heath and Worcester streets, Roxbury and city proper. Surety bond will be required in the amount of \$7,000. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at Room 62, City Hall.

Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, July 15, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for furnishing and installing woodworking machinery in the Mechanic Arts High School, Belvidere street, Boston. Surety bond will be required in the amount of \$1,500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 7, at 12 m.

Reinvites proposals for erecting and completing general and sanitation work at the Cudworth School, Gove street, corner of Paris street, East Boston. Surety bond will be required in the amount of \$2,500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$750, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 7, at 12 m.

Advertises for proposals for erecting and completing a teachers' and master's office in the yard of the Wendell Phillips School, Phillips street, corner of Anderson street, West End, city proper. Surety bond will be required in the amount of \$1,500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. The plans will be ready for contractor July 1, 1914. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, July 8, at 12 m.

Advertises for proposals for furnishing and installing wiring and electrical material in Mechanic Arts High School, Belvidere street, Boston. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 17, at 12 m.

SUPPLY DEPARTMENT.

Advertises for proposals for furnishing 50,000 New Hampshire paving blocks, more or less, to the Public Works Department, Highway Division. Blank forms for proposals may be obtained at the office of the Superintendent of Supplies, 826 Tremont Building. Surety bond will be required in an amount equivalent to one-quarter the amount of the contract. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 10, at 12 m.

CLAIMS.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Richard D. Cleary, in the amount of \$18, for compensation for a coat torn by wire projecting from tree guard upon Huntington avenue, opposite Children's Hospital former site, December 12, 1913.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, July 2, 1914:

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Francis Heaney has been appointed to the position of carpenter and cabinet-maker at the hospital at a salary of \$55 per month.

FIRE DEPARTMENT.

Peter J. Dunn has been reinstated as a member of the Fire Department. Mr. Dunn joined the department April 14, 1905, and resigned June 1, 1914, to become a member of the Police Department. His record in this department was a good one. His salary will be at the rate of \$1,400 the year, which was the rate he was receiving at the time he resigned.

The following appointments have been made to the Fire Alarm Branch of this department:

Angus J. Owens, as a lineman at \$3.50 per day, six days per week; John Tanner, as a lineman at \$3.25 per day, six days per week; Timothy J. Cadigan, as a lineman at \$2.50 per day, six days per week; James E. Laughlin and John M. Ahern, as operators at \$2.75 per day, seven days per week.

INFIRMARY DEPARTMENT.

The pay rolls of the department for the week ending June 25, 1914, show the following changes:

Long Island Hospital.

To Fill Vacancies.—Patrick J. Flaherty, druggist, \$100 per month; Nellie Buchanan, housemaid, \$20 per month; Mary E. Grady, nurse, \$10 per month.

Increase in Salary.—Alice B. Fawcett, nurse, \$10 to \$12 per month.

The pay rolls of this department for the week ending July 2, 1914, show the following changes:

Long Island Hospital.

To Fill Vacancies.—James Conlan, engineer, \$18 per week.

PENAL INSTITUTIONS DEPARTMENT.

Gerald J. Thompson has been appointed to the position of hospital clerk at the House of Correction, at a salary of \$480 the year, to fill a vacancy caused by the resignation of Alfred R. Rudd, who held a similar rating.

James Murray, officer, has received an increase of salary, with the approval of the Mayor, from \$600 to \$660 the year.

John C. Phillips, officer, has received an increase of salary, with the approval of the Mayor, from \$480 to \$540 the year.

Charles R. Eaton has been appointed a special police officer to serve at the House of Correction, Deer Island, and upon the premises adjoining that are leased from the United States Government.

SCHOOLHOUSE DEPARTMENT.

Francis I. Rouke, who has been temporarily employed as rodman by the department, has, with the approval of the Mayor, been given permanent employment at a wage of \$2 the day. The Civil Service Commissioners passed favorably upon the appointment of Mr. Rouke.

Daniel H. Sullivan, Sr., clerk of works in the department, has been reinstated at the same salary as previously paid, \$5 the day, said reinstatement to take effect July 1, 1914.

James B. Moloney has been appointed as a temporary rodman in the department at a salary of \$2 the day.

Francis J. Lally, temporary stenographer and typewriter, has been retained for a period of twenty days further, which will be the final term of his employment.

RETIREMENT OF FIREMEN.

Andrew R. Hines, a hoseman attached to Engine Company 11, has been retired upon half pay. His name will be placed upon the pension roll of the department at the rate of \$700 the year. Hoseman Hines joined the department October 11, 1892, and is forty-seven years of age. His left foot was crushed while responding to an automatic alarm, November 9, 1896, and upon August 21, 1913, while exercising horses one of the horses shied, and Hines was thrown, receiving contusions and a strain of the back. The medical examiner of the department certifies that Hoseman Hines is unfit for further efficient fire duty.

John Flavell, an operator in the fire alarm branch of the department, has been retired upon half pay. The name of Mr. Flavell will be placed upon the pension roll at the rate of \$800 per year.

Operator Flavell was appointed to the department as a call man October 28, 1878. He was transferred to the fire alarm branch October 28, 1881. Mr. Flavell is sixty years of age.

RETIREMENT OF VETERANS.

Michael S. Green, a veteran of the Civil War, employed as mason and drawtender in the Public Works Department, has been retired upon half pay. The name of Mr. Green will be placed upon the pension roll at the rate of \$500 the year. He entered the service of the city in 1895 and until 1898 was employed in the Health Department; from 1900 to 1903 as a mason; from 1909 to 1914 as a drawtender. Mr. Green's retirement will date from July 1, 1914. He is sixty-eight years of age.

Stephen D. Snow, a veteran of the Civil War, employed as a boilermaker in the Public Works Department, has been retired upon half pay. The name of Mr. Snow will be placed upon the pension roll at the rate of \$547.75 the year. He entered the service of the city in 1876, and has been continuously employed in the Ferry Division as a boilermaker. Mr. Snow's retirement will date from July 1, 1914. He is seventy-two years of age.

OVERTIME ALLOWED.

The heads of various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law.

Penal Institutions Department.

For the week ending Thursday, July 2, 1914:

Lawrence Hackett, engineer, 4 days, \$10.96.

Public Works Department (Bridge Service).

For the week ending Thursday, June 18, 1914:

Martin Gill, stableman, 1 day at \$2.75, \$2.75; Timothy Sullivan, stableman, 1 day at \$2.75, \$2.75; Hugh McLaughlin, stableman, 1 day at \$2.75, \$2.75; Patrick McLaughlin, watchman, 1 day at \$2.50, \$2.50; John Clabby, watchman, 1 day at \$2.50, \$2.50. Total, \$13.25.

For week ending Monday, June 29, 1914:

Patrick F. Murphy, machinist, $\frac{3}{4}$ day at \$3.75, \$3.28; Joseph V. Maddock, electrician, $2\frac{1}{2}$ days at \$4, \$11.50. Total, \$14.78.

Public Works Department (Paving Service).

For the week ending Monday, June 29, 1914:

Andrew Moynahan, watchman, 1 day at \$2.50, \$2.50; William H. Mulrey, teamster, 1 day at \$2.50, \$2.50. Total, \$5.

Public Works Department (Sanitary Service).

For the week ending Monday, June 29, 1914:

T. J. Hannon, chauffeur, $1\frac{1}{2}$ days at \$3, \$3.94.

Public Works Department (Sewer Service).

For the week ending Monday, June 29, 1914:

Office.—James F. Lucas, inspector, $\frac{3}{4}$ day at \$3.50, \$2.63; William E. Flynn, inspector, $1\frac{1}{4}$ days at \$3.50, \$4.38; William J. Drummond, inspector, $1\frac{1}{2}$ days at \$3.50, \$5.25; C. F. Young, inspector, $\frac{3}{4}$ day at \$3.50, \$2.63.

Districts 1, 7 and 8.—John F. Doherty, laborer, 1 day at \$2.50, \$2.50; James Clancy, sewer flusher, 1 day at \$2.50, \$2.50; Cornelius J. Sullivan, laborer, 1 day at \$2.75, \$2.75; Timothy Reardon, sewer cleaner, 1 day at \$3, \$3.

Districts 9 and 10.—Thomas Hughes, sewer cleaner, $1\frac{1}{2}$ days at \$3, \$4.50; Michael Hourihan, laborer, $1\frac{1}{2}$ days at \$2.75, \$4.13; Thomas Flaherty, bracer, $1\frac{1}{2}$ days at \$2.75, \$4.13; Martin Flynn, teamster, $1\frac{1}{2}$ days at \$2.50, \$3.75.

District 12.—John Sullivan, fireman, 1 day at \$3.25, \$3.25; John McCarthy, engineer, 1 day at \$4.66 $\frac{2}{3}$, \$4.67. Total, \$50.07.

Public Works Department (Water Service).

For the week ending Monday, June 29, 1914:

P. J. Feeney, inspector, $1\frac{1}{2}$ day at \$3.50, \$2.08; P. Foley, inspector, $1\frac{1}{2}$ days at \$3.50, \$5.25; P. Heffernan, repairer, $\frac{7}{8}$ day at \$3, \$1.31; M. Hogarty, repairer, $\frac{1}{4}$ day at \$2.75, \$0.34; J. Logue, laborer, $\frac{7}{8}$ day at \$2.50, \$1.09; J. McCarthy, 2d, repairer, $\frac{1}{4}$ day at \$2.75, \$0.69; P. Mullen, inspector, $3\frac{1}{4}$ days at \$3.50, \$10.72; J. W. Murphy, laborer, $\frac{7}{8}$ day at \$2.50, \$1.09; W. O'Connor, inspector, $\frac{3}{4}$ day at \$3.50, \$2.63; M. O'Day, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; J. Moran, machinist, $\frac{1}{4}$ day at \$3.75, \$0.94; M. Bowen, plumber, $\frac{1}{4}$ day at \$3.50, \$1.75; C. Driscoll, plumber, $\frac{1}{4}$ day at \$3.50, \$0.88; P. Lawless, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; H. McCarthy, laborer, $\frac{1}{8}$ day at \$2.50, \$0.31; J. Morrissey, plumber, $1\frac{5}{8}$ days at \$3.50, \$4.59; J. Ryan, plumber, $\frac{1}{8}$ day at \$3.50, \$0.44; J. Welch, plumber, $\frac{1}{4}$ day at \$3.50, \$0.44; P. McKenney, laborer, $\frac{3}{4}$ day at \$2.50, \$1.88; J. McNulty, repairer, $1\frac{1}{2}$ days at \$2.75, \$4.38; B. Flanagan, plumber, $\frac{3}{4}$ day at \$3.50, \$1.31; F. Skaynor, repairer, $\frac{1}{2}$ day at \$2.75, \$1.38. Total, \$51.56.

ADDED SERVICE OF DRAUGHTSMEN.

The Mayor has approved the extra service of draughtsmen employed by the Schoolhouse Commission by reason of the

exigencies incident to the repair of some 140 schoolhouses in Boston.

The communication of Chairman Joseph P. Lomasney is as follows:

June 30, 1914.

HON. JAMES M. CURLEY, Mayor:

DEAR SIR,—At the present time we have under repair some 140 schoolhouses, including major and minor repairs. In order to get out the plans to complete this work it will be necessary to employ some of our regular force of draughtsmen, probably fifteen nights during the vacation season. The Board feels that it should have authority to so employ such draughtsmen for the period indicated, at a cost not to exceed one hundred and twenty-five (125) dollars in total. We figure this as the outside cost of what this overtime will come to, paying the draughtsmen time and a half for night work.

We therefore respectfully request that you approve this request as indicated, with the understanding that if such time and such money are not needed the same will not be expended.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending July 2, 1914:

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon June 30 the Mayor approved a contract with the West Roxbury Trap Rock Company for asphalt macadam roadway in Manthorne road, between Centre and Weld streets, West Roxbury. Bids for the work, opened June 22, were as follows:

West Roxbury Trap Rock Company, \$16,032.25; James Doherty, \$16,229.35; William J. Barry, \$16,726.25; Martino De Matteo, \$17,174.30; John F. Lynch, \$17,290.90; John F. Beatty, \$17,623.91; William J. Rafferty Company, \$17,625.81.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon June 30 the Mayor approved a contract with William L. Dolan for sewer-

age works in Lake street, from culvert at Chandler's pond to Appleton road, Brighton. Bids for the work, opened June 12, were as follows:

McCarthy & Walsh, \$6,778.60; William L. Dolan, \$6,839.85; Daniel E. Lynch, \$7,080.61; James L. Bryne, \$7,093.65; M. H. Kelley, \$7,151.70; M. DeSisto, \$7,230.50; Antony Cefalo, \$7,290.25; George J. Regan, \$7,766.90.

The contract was awarded to William L. Dolan, the second lowest bidder, Messrs. McCarthy & Walsh having neglected to submit a price for Item 30, which called for 400 yards of rock excavation.

SCHOOLHOUSE DEPARTMENT.

Upon June 29 the Mayor approved a contract with H. A. Smith for roofing and other work at the Harris School, Adams street, Dorchester. Bids for the work, opened June 16, were as follows:

H. A. Smith, \$1,961; W. J. Maguire, \$2,180; James A. Harrigan & Son, \$2,598; D. J. Desmond, \$2,795.

Upon June 30 the Mayor approved a contract with the Hixon Electric Company for electric systems in the Andrews School, Genesee street, Boston. Bids for the work, opened June 23, were as follows:

Hixon Electric Company, \$1,923; E. C. Lewis Company, \$2,134; Thomas W. Byrne, \$2,534; T. T. Kelley & Co., \$2,615; Carlisle-Corner Company, \$2,637; M. B. Foster Electric Company, \$2,727.

Upon June 30 the Mayor approved a contract with the Huey Brothers Company for furnishing, setting up and piping new boiler in the Dudley School, Dudley and Putnam streets, Roxbury. Bids for the work, opened June 26, were as follows:

Huey Brothers Company, \$1,336; Ingalls & Kendrick, Inc., \$1,385; J. L. Hern Engineering Company, \$1,424; Bay State Heating Company, \$1,495; J. J. Hurley & Co., \$1,544; F. W. Zemeir & Co., \$1,546; J. P. Dwyer Company, \$1,551.

Upon June 30 the Mayor approved a contract with James P. Landers, for new sanitation in the B. F. Tweed School, Cambridge street, Charlestown. Bids for the work, opened June 26, were as follows:

James P. Landers, \$3,645; Kelley & Gaffey, \$3,892; W. N. McKenna Company, \$4,130; L. J. Towle, \$4,143.

SUPPLY DEPARTMENT.

Upon June 29 the Mayor approved an award of contract to the Boston Ice Company, for furnishing ice to the public buildings and drinking fountains. Bids for the supply, opened June 18, were as follows:

	FOUNTAINS FOR SUMMER.						
	Public Buildings, City Proper.	City Proper.	Roxbury.	West Roxbury.	Dorchester.	South Boston.	East Boston.
Boston Ice Company.....	\$3 50	\$3 50	\$3 50	\$3 50	\$3 50	\$3 60	\$3 50
Independent Ice Company.....	4 00	4 00				4 00	4 00
Winter Hill Ice Company.....							3 20

Prices paid in 1913: Public buildings, \$5 per ton; fountains, \$5 per ton.

Prices paid in 1914: Public buildings, \$3.50 per ton; fountains, \$3.50 per ton.

For 1,005 tons at \$1.50 the ton saving, the total amount saved over the contract of 1913, is \$1,507.50.

APPROVAL OF STREETS.

The location, direction, width and grade of the private way, in Brighton, designated as Harriet street, from Faneuil street to Dunklee road, has been duly approved by the Mayor, and in confirmation of the order of the Board of Street Commissioners.

The location, direction, width and grade of the private way, in Brighton, designated as Arlington street, between Oakland and Parsons streets, has been duly approved by the Mayor, and in confirmation of the order of the Board of Street Commissioners.

The location, direction, width and grade of the private way, in Brighton, known as Hobart street, from Faneuil to Bennett streets, has been duly approved by the Mayor, and in confirmation of the order of the Board of Street Commissioners.

POSTAL SAVINGS IN BOSTON.

Postmaster Mansfield reports postal savings business at Boston Post Office for June showed 1,010 new accounts, with deposits for month of \$120,189, and payments of \$95,446.

Since inauguration of postal savings system, August 1, 1911, 35,660 accounts have been opened, with deposits of \$3,182,927, and payments of \$2,050,158.

FINANCE COMMISSION.

BOSTON, June 29, 1914.

HON. JAMES M. CURLEY, Mayor:

SIR,—The Finance Commission is at present making an examination of the trust funds held by the Overseers of the Poor Department for charitable purposes. Although an accountant has each year made an examination of these trust funds, no defalcation was discovered. The Finance Commission's examination, however, while not yet completed, has developed the fact that in the real estate portion of the trust funds there is a defalcation of \$5,066.69. The period covered by the defalcation is from 1905 to 1914, inclusive.

The results of the examination of the representative of the commission were submitted to an accountant and a further examination was made by him which verified the opinion of the Finance Commission that there was a defalcation. The method of taking the money was to substitute cheques of one account for cash taken from another account and to make no record of the receipt of the cheques. It was found in every case where proper credit for certain rentals had not been given that the cheques received for these rentals had gone through the National Shawmut Bank, where the general fund belonging to the Overseers of the Poor Department was kept and where it would be an easy matter to substitute a cheque for cash on hand in the office. The trust fund account was kept in the First National Bank.

Because of the fact that Frederick L. Gillooly, the bookkeeper, appeared to have received the money, the Finance Commission examined Mr. Gillooly this morning and has received from him a signed confession, admitting that he embezzled the \$5,066.69.

The commission has retained in its possession the evidence of the embezzlement of this money, and has submitted a report of the accountant to his Honor the Mayor.

The Finance Commission recommends that Mr. Gillooly be removed from his position as bookkeeper and that the question of the embezzlement be presented to the district attorney of Suffolk County.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

BOSTON, July 1, 1914.

To the Honorable the Senate Ways and Means Committee:

GENTLEMEN,—The Finance Commission desires to call your attention to House Bill 2770, which is pending before your honorable body for passage, and which seeks to increase the salary of the sheriff of Suffolk County from \$3,000 to \$4,000 a year.

In order that you may be fully acquainted with the merits of the case the Finance Commission desires to make the following statements:

At the present time the sheriff of Suffolk County receives a salary of \$3,000 as sheriff and \$1,000 as keeper of the Suffolk County jail, and is furnished with a house and living for himself and his family. Besides these salaries and emoluments he has a right as sheriff of Suffolk County to participate in the fees which the office of sheriff receives for the service of writs and which amount, according to the sheriff's statement, to upward of \$26,000 a year.

Although the present sheriff states that he has not participated in these fees, but has allowed his appointees, the deputy sheriffs, to share them equally among themselves, it is nevertheless his legal right to share in the profits of the sheriff's office. Upon being examined at the office of the Finance Commission, the sheriff admitted that the duties of his office as sheriff had not increased nor had the liabilities, but that he desires the increase of salary in order to establish a contingent fund as a matter of precaution, should he be sued for negligence or for the misfeasance of his appointees. He also was in doubt as to his legal right to participate in the fees received by the deputy sheriffs, and stated that if he was allowed to participate in them he would waive all claim to the increase of \$1,000 in salary.

As the commission can find nothing in the law which prohibits the sheriff of Suffolk County from sharing in the fees collected for the service of writs by his deputies, the commission feels that the present bill is not meritorious, and therefore recommends that it be rejected.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

BOSTON, July 2, 1914.

To the Honorable the Senate:

GENTLEMEN,—The Finance Commission is opposed to the passage of House Bill No. 2749, which seeks to increase the compensation to jurors from \$3 to \$4 a day and to allow compensation for mileage every day during the continuance of the jury session, whereas the jurors at the present time are allowed mileage once each week. The provisions of this bill will increase unnecessarily the financial burden of Boston and result in no greater efficiency in the service which the jurors are now rendering.

At the present time the City of Boston is suffering from a passing epoch of extravagance, and the present Mayor has announced the introduction of a policy of retrenchment in the city's expenditures. During the year 1913 the amount of jurors' fees paid by the County of Suffolk, excluding those paid for a murder trial, amounted to \$165,408; the amount paid for the murder trial amounted to only \$336, making a total sum of \$165,744 for jurors' fees. If the former amount of \$165,408 is taken as a basis for computing the increase in jurors' fees under the pending bill, it will be found that the net increased burden of Boston will be approximately \$55,167. If to this amount is added the increased cost of travel which, under the pending bill, amounts to five times as much as is paid at the present time, and which now varies from \$10,000 to \$15,000 a year, the City of Boston will have an increased financial burden thrust upon it of approximately \$125,000. As an increase of \$100,000 in expenditures, makes an increase in the tax rate of Boston of six and a half cents, this bill would place upon the City of Boston an increase of nine cents upon each one thousand dollars in the tax rate.

There are certain public duties which the community must call upon its citizens to share, for which adequate financial compensation cannot be made. As all citizens of the state are the beneficiaries of the government, these duties must be performed by citizens with sacrifice to convenience and to personal fortune. Jury service is one of those duties. It has been so from the earliest times.

In order that such additional financial burden may not be thrust upon the City of Boston, and for the reasons above set forth, the commission urges the rejection of the bill.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

EXTENSION OF CONTRACT.

Commissioner of Public Works Rourke has notified the Hugh Nawn Contracting Company that they are to relay the water pipes in Boylston street, between Clarendon street and Park square, so as not to deprive the abutters of the use of water in the daytime, under contract of April 6, 1914, for relaying water pipes in Boylston street, between Exeter street and Park square.

The city is to pay the extra sum of 50 cents per linear foot for each foot laid, as provided under Article 3 of the contract. The estimated cost of the extra work is \$1,200.

FIRE DEPARTMENT ORDER.

BOSTON, July 1, 1914.

I. NEW TELEPHONE NUMBER.

The department is hereby notified that owing to the discontinuance of the Tremont Telephone Exchange the headquarters telephone number has been changed to "Oxford 6100."

II. NEW FIRE ALARM BOXES.

The following new fire alarm boxes will shortly be established:

- 180. Crescent avenue and Sydney street, connected into circuit No. 49. Assignments will be the same as for box 184.
- 689. * Philip Sheridan School, Prescott street, connected into circuit No. 29. Assignments will be the same as for box 648.
- 801. Allston Heights and Ridgmont street, connected into circuit No. 46. Assignments will be the same as for box 836.
- 802. Maple avenue and Dustin street, connected into circuit No. 46. Assignments will be the same as for box 834.
- 812. Brighton avenue and Malvern street, connected into circuit No. 46. Assignments will be the same as for box 814.
- 816. Brainerd road and Marshall terrace, connected into circuit No. 21. Assignments will be the same as for box 858.
- 817. Quint and Glenview avenues, connected into circuit No. 21. Assignments will be the same as for box 820.
- 879. * Waverly and Lincoln streets, connected into circuit No. 21. Assignments will be the same as for box 844.
- 894. Lincoln and Everett streets, connected into circuit No. 14. Assignments will be the same as for box 826.
- 895. * Braintree street and Denton road, connected into circuit No. 46. Assignments will be the same as for box 815.
- 1266. City Hall Annex, Court square, connected into circuit No. 4. Assignments will be the same as for box 1265.
- 2544. Washington and South streets, connected into circuit No. 42. Assignments will be the same as for box 537.
- 2612. Birch and Albano streets, connected into circuit No. 25. Assignments will be the same as for box 578.
- 2613. Bellevue avenue and Auburn street, connected into circuit No. 42. Assignments will be the same as for box 572.
- 2617. * Aldrich and Cornell streets, connected into circuit No. 42. Assignments will be the same as for box 572.
- 2641. La Grange and Shaw streets, connected into circuit No. 23. Assignments will be the same as for box 564.
- 2662. Rockland street and Schiller road, connected into circuit No. 23. Assignments will be the same as for box 547.
- 2756. * Vermont and Temple streets, connected into circuit No. 23. Assignments will be the same as for box 597.
- 3125. * Edison Electric Illuminating Company, Massachusetts avenue, connected into circuit No. 40. Assignments will be the same as for box 314.
- 2357. Children's Hospital, Longwood avenue, connected into circuit No. 8. Assignments will be the same as for box 246.
- 3347. * Florence Nightingale School, West Park street, connected into circuit No. 24. Assignments will be the same as for box 364.
- 3532. Morton and Oakridge streets, connected into circuit No. 31. Assignments will be the same as for box 975.
- 3573. Oakland and Tampa streets, connected into circuit No. 31. Assignments will be the same as for box 398.
- 3642. Granite avenue near bridge, connected into circuit No. 38. Assignments will be the same as for box 989.
- 7325. * Edison Electric Illuminating Company, L street station, connected into circuit No. 11. Assignments will be the same as for box 138.
- 7326. * Edison Electric Illuminating Company, yard off East First street, connected into circuit No. 1. Assignments will be the same as for box 138.

* Denotes succession boxes.

III. CHANGE IN FIRE ALARM BOX NUMBER.

The following change in a fire alarm box number is hereby announced to become effective on and after 12 o'clock noon (the striking of the meridian blow on the gongs in the houses) on Thursday, July 2, 1914.

William Bradford School, Willowwood street. Present number 2347; new number 3523.

Changes on circuit cards will be made to conform to the new numbers.

Members will make this change on the small fire alarm books.

Old assignment cards for box 2347 will not be returned to these headquarters until assignment cards for box 3523 have been received.

IV. CHANGE IN LOCATION OF FIRE ALARM BOX.

The following fire alarm boxes will shortly be changed from their present location:

- 844. From Lincoln street, near Market street, to Lincoln and Market streets.
- 2818. From Gardner School, Brentwood and Athol streets, to Brentwood and Athol streets and auxiliary to Gardner School.

V. FIRE ALARM BOX DISCONTINUED.

Fire alarm box No. 2324, Children's Hospital, Huntington avenue, will be taken out of service at 10 a. m., Thursday, July 2, 1914.

VI. COMMENDATION.

Assistant Engineer Robert Talbot of Engine Company 45 is hereby commended for assisting Engine Company 39 at the fire in Salem, Mass., June 25, 1914, while on a day off.

By order of the Fire Commissioner.

PETER F. McDONOUGH,
Chief of Department.

BIDS FOR NAVAL SUPPLIES.

The present activity in Army and Navy circles has resulted in the opening of bids for many supplies. The attention of Boston merchants is particularly called to these bids. The Navy Department invites proposals for furnishing the following supplies:

Bids are invited until July 7 for furnishing the following materials: Schedule 6929, galvanized boat anchors, squirt cans, screen cloth, fire hose, mosquito netting, copper rivets and burrs, steel turn-buckles; schedule 6935, Trinidad asphalt, galvanized sheet steel, hot rolled or forged steel; schedule 6924, coal baskets, squilgee blades, squilgee handles, water heaters, slop jars, oak-tanned leather, pump leather, rigging leather, air-port and deck-light lenses, heavy linoleum, sewing palms, eye protectors, handy-billy pumps; schedule 6903, rubber boots; schedule 6925, easting brushes, hair felt, water-gauge glasses, electrician's tool kits, bunker lamps; schedule 6936, ship fenders, wrought-iron strap hinges; schedule 6930, rubber hose, searchlight mirrors, magnet wire, twin-conductor plain wire; schedule 6902, engine lathe; schedule 6895, laboratory supplies; schedule 6928, roofing slates, ship-lighting cable, lead-covered rubber-insulated wire, lighting and power wire; schedule 6926, string solder, regulus of antimony, brass bar, hard-rolled sheet brass, ingot copper; schedule 6933, white ash, cedar boards, Fort Orford cedar, white hickory, lignum-vitæ, white maple, New England pine, North Carolina pine, white oak, white pine, yellow pine, spruce, white spruce; schedule 6931, brass rivet rod, hard-rolled bolt copper, soft-roller sheet copper, sheet lead, roofing tin; schedule 6932, beef tallow, beeswax, calcium chloride, lump rosin, sodium fluoride, turpentine; schedule 6927, pipe fittings, seamless brass pipe, copper tubing, steel tubing, ground-cone joint unions. Bids will be received until July 14 for the following supplies: Schedule 6919, discharging bituminous coal from various vessels; schedule 6920, engine lathes; schedule 6919, hot-water meter, horizontal split-case pump; schedule 6921, torsion meters with all indicating and recording apparatus; schedule 6896, radio sets, transformers

and masts; schedule 6914, steel rivet rod; schedule 6918, telephones; schedule 6913, X-ray apparatus; schedule 6901, dry red lead, white lead, dry metallic zinc, dry white zinc, white zinc in oil.

Bids will be received until July 14 for fireroom hoist engines, schedule 6881, and lathe, schedule 6880.

Boston firms desiring to bid should make immediate application to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., and give the schedule number of all bids for information desired, as printed above.

THE HOME GARDEN.

By CAPT. JOHN H. DILLON, PARK AND RECREATION COMMISSIONER.

This is the season when everyone having a garden, be it large or small, is interested in watching the growth of cherished plants so industriously set out; geraniums, petunias, heliotropes, nasturtiums, pansies, asters and marigolds seem to predominate. In many instances amateur gardeners have planted but one of these varieties in their small borders or beds, while others, having in mind the "old fashioned garden," a little of everything, combined many varieties, and the blending of the different foliage and flowers makes a very pleasing effect and certainly adds very much to the attractiveness of the home. The gentler sex, as a rule, takes an especial pride in these "home" gardens, enthusiastically pointing out to their friends and visitors the many fine qualities resulting from personal effort.

The setting out of plants in beds or borders is beneficial in many ways; the owner enjoys them, the passerby enjoys them, and they improve the appearance not only of the home but of the street, making it more desirable as a place of residence. The "home" garden is also conducive to health, as earing for the flowers means exercise in the open air, and as no one who loves plants and flowers likes to see a slovenly garden, it leads to cleanliness, and for this alone the embellishment of small garden plots, whenever available, should be encouraged in every manner possible.

MASSACHUSETTS CORPORATIONS.

New business incorporations under Massachusetts laws in June numbered 125, with \$13,082,100 authorized capital. Number last month was the smallest since November, 1913, when 106 new companies were incorporated.

New business incorporations under the laws of this Commonwealth for the first six months of the current year numbered 892, compared with 829 in 1913, and 747 in 1912. Authorized capital for the six months was \$80,717,600, compared with \$108,180,400 in 1913, and \$82,822,600 in 1912.

The following shows new business corporations organized under Massachusetts laws for the first six months of 1914, with comparison:

	NUMBER.		CAPITALIZATION.	
	1914.	1913.	1914.	1913.
January...	162	140	\$11,305,300	\$31,620,000
February...	145	149	8,345,700	36,789,000
March.....	167	141	22,930,800	12,972,400
April.....	167	142	13,293,700	6,025,500
May.....	126	138	11,760,000	10,088,000
June.....	125	119	13,082,100	10,685,500
Total....	892	829	\$80,717,600	\$108,180,400

CITY OF BOSTON BONDS.

\$6,558,000 4 PER CENT LOANS SOLD TO SYNDICATE OF EIGHT BOSTON HOUSES AT 101.389, OR 3.89 PER CENT BASIS.

The City of Boston has sold to a syndicate comprising Estabrook & Co., R. L. Day & Co., N. W. Harris & Co., Blodget & Co., Merrill, Oldham & Co., Blake Brothers & Co., Curtis & Sanger and Parkinson & Burr, a total of \$6,558,000 4 per cent loans at 101.389. This is equal to about 3.89 per cent income basis. Average maturity is slightly less than twenty-four years.

The only other bid for a substantial amount of the bonds was that of the Old Colony Trust Company — 100.638 for \$1,340,000 Avery, Mason and Washington streets loan, due 1915-1934.

Other bids were: Robert Levi, \$3,000 of Avery, Mason and Washington streets, or sewerage works loans, at par. J. E. Prouty, Spencer, Mass., \$2,000 at par. Jason W. Prouty, Spencer, Mass., \$6,000 at par. Jennie L. Dunton, \$1,000 at par.

Below is a detailed list of the loans, with maturities:

SINKING FUND BONDS.

	Amount.	Maturities.
Boylston Street Subway.....	\$100,000	July 1, 1959.
Dorchester Tunnel.....	1,400,000	July 1, 1959.
East Boston Tunnel.....	1,000,000	July 1, 1959.

SERIAL BONDS.

	Amount.	Maturities.
Avery, Mason and Washington streets.....	\$1,340,000	\$67,000 1915-1934, incl.
Sewerage works.....	600,000	24,000 1915-1939.
Drainage systems.....	400,000	16,000 1915-1939.
Land and buildings for schools.....	500,000	25,000 1915-1934.
Highways.....	700,000	35,000 1915-1934.
High pressure fire service.....	300,000	20,000 1915-1929.
Consumptives' Hospital.....	125,000	{ 7,000 1915-1919. 6,000 1920-1934.
East First street extension.....	48,000	3,000 1915-1930.
Police Station, Dorchester.....	45,000	3,000 1915-1929.

Relative to the sale, the Boston News Bureau declares: "The opinion is expressed in bond circles that the city drove a satisfactory bargain in its sale of \$6,558,000 bonds at 101.389. This is a better figure by a good margin than received for the \$4,148,000 4½s last October. Naturally enough, with a large syndicate, there were several shades of opinion respecting the proper price for the issue, some of which were lower and some higher than that actually agreed upon. It is recalled in this connection that the bankers were supposed to have paid more for the October block than conditions then warranted, but the bonds spurted to a good premium over the issue price almost before the ink on the circulars was dry.

"A few short weeks ago bond dealers were bemoaning the dearth of tax-exempt municipals. They are now able to restock their shelves, however, with a score of small issues, topped by the biggest Boston issue ever sold at one time, and more new loans in sight. As a matter of fact, the City of Boston operates at some slight disadvantage in selling bonds because of the ten days' advertisement required. This enables whatever other cities and towns there are with bonds to sell to get them on the market in advance of the big issue, and collectively take some of the wind out of the larger city's sails.

"It is expected that income tax advantages possessed by municipal bonds will play an important part in the distribution of this new block, which is being sold at prices yielding all the way from 3½ per cent to 3.825 per cent. Of course it is only the one-year bonds really belonging in the category of commercial paper, which are going at a 3.50 per cent yield. The straight 45-year sinking fund bonds have been tagged at 103½, to yield 3.825 per cent, which from the savings bank standpoint is a more favorable purchase than "outside" municipals of similar character yielding 4.10 per cent or 4.20 per cent. The serial issues—2 to 25 years' maturity — are offered to yield 3.65 per cent to 3.77 per cent."

MEETING OF THE RETIREMENT BOARD.

A meeting of the Retirement Board for City Laborers was held on Wednesday, July 1, 1914, at 11 a. m. The following employees were retired, the retirement to date from Friday, July 3, 1914, and not to exceed \$360 per annum:

PUBLIC WORKS DEPARTMENT.

NAME.	Division.	Age.	Length of Service.	Salary.
Dudley Sullivan.....	Paving.....	67	26 yrs.	\$782 50
John Scott.....	Paving.....	65	32 "	782 50

ESTABLISHMENT OF BUSINESS MEN'S REFERENCE LIBRARY.

Mayor Curley has formally approved the plan of Mr. William F. Kenney, vice-president of the Board of Public Library Trustees, for the establishment of a business men's branch reference library, to be located at the old Aldermanic Chamber, City Hall.

Mr. Kenney has advised the Mayor that the books, charts, tables and other data required are at hand, and the library can be easily made ready with the building of necessary shelves.

The plan for the establishment of this library has been heartily indorsed by the members of the Pilgrim Publicity Association.

Dr. Edward M. Hartwell, secretary of the Statistics Department, will be the one in charge of the new library.

The scope of the library will resemble to some extent that established in Newark, N. J. The sponsors of the Newark Business Men's Reference Library in a report to Mayor Curley of the success attending their effort declare:

WHAT THE NEWARK PUBLIC LIBRARY HAS ACCOMPLISHED.

This is what the Newark, N. J., Public Library has done. It has established in the heart of the business center of the city a business branch as an advertisement of what it can do for the manufacturer, the importer, the exporter, the retail dealer, the broker, the business man.

This branch is on the first floor of a building very near the trade, office, traffic and rapid transit center of the city. It is on the street level, with large store front windows, in which recent year books, annuals of foreign countries, directories of cities, countries, trades and professions and atlases are attractively displayed. The room is bright, clean, agreeably decorated, and very inviting. It is open to everybody but children daily from 9 a. m. to 6.30 p. m. Evening opening did not pay.

A pay telephone stands in the vestibule, and a typewriter, provided by the Remington Typewriter Company, is at the disposal of patrons.

The branch is distant from the main library three-fourths of a mile. Its special telephone line is connected directly with the main library's own exchange, giving access through the latter to the city system and to the twenty-six phones in all the library's departments and offices. A special messenger carries books, maps, etc., to and from the main building, twice daily, and oftener if need be.

We lay special stress on the fact that this is a branch, and not a library. No branch can take a library's place, nor should it try to. The library proper has 200,000 volumes, including copies of a good many of the books in the branch, a collection of maps supplementing that at the branch, and notably, a daily-growing mass of information on every live topic of the day in the form of a series of nearly three thousand folders, alphabetically arranged under as many heads, and all handily kept in fifty vertical file drawers. The telephone puts this at the elbow of the assistants in the branch. Thus we say to every man who comes in, "You here find a suggestion of what your public library can do for you. This collection is a sample of and in a measure a guide to a huge, carefully indexed, daily renewed encyclopedia of the world's information—in your main library."

The branch contains:

Directories: City and county, 183; state, 27; trade, 134; foreign, 36; telephone, 593; total, 973.

Atlases: General, 10; real estate, 15; total, 25.

Maps of Cities: Post route maps of 1,000 counties (to be added soon), 1,000; maps of states and countries, 200; total, 2,225.

Periodicals: Business, 123; municipal and local development, 56 and 35 irregularly; house organs, 88 and 50 irregularly; labor unions, 54; general, 59; total, 380.

Books: Directories, etc., 1,000; reference books, 700; business books, book-keeping to efficiency, 1,000; pamphlets, 1,000; total, 3,700.

On the second floor is a general lending library of 10,000 volumes. The pamphlets include reports of the city and all its departments and of many quasi-public and civic organizations, and similar material from the county, the state and from other prominent cities. This material is marked by a simple device which makes cataloguing unnecessary and yet enables all to be kept in logical order so that users can help themselves.

Directories of Newark and neighboring cities are bought in duplicate and lent at ten cents a day for three days. The 600 telephone directories cost but a few cents each and cover thousands of towns, villages and cities.

Fifty of the maps, including the best obtainable on the Newark region, as well as the principal cities of the globe, are on rollers. The other maps are kept on edge, like cards in a catalogue, in the alphabetic order of the towns, counties, cities and States which they cover. That supply precedes demand in libraries as in business is here again shown, for this, the largest, most up-to-date, and most convenient collection of maps that we know of in any library, is highly appreciated and very much used.

All bills introduced in the State Legislature are filed at the Business Branch.

The branch attendants clip notes from the daily consular reports, paste them on postal cards, and mail to persons likely to be interested. Thus many have for the first time become acquainted with one of the manufacturer's best friends.

Business men use this material thus:

In the year 25,000 people use the 1,000 city, state, trade and foreign telephone directories; 7,000 use the 1,200 maps and 25 atlases; 10,000 consult the reference books; 600 use the typewriter; 3,000 telephone for and receive information upon business matters.

Of the 42,000 men who use the directories, maps and reference books, 37,500 help themselves; 4,500 have assistance.

The 3,000 telephone calls represent a very important means of service. These calls increase in number steadily. They cover a wide range of subject matter and require versatility in the attendants. "Please give me the names of some pill box manufacturers in Pennsylvania?" "What is the membership fee in the Institute of Civil Engineers in England?" "Who is the British Consul General at Algiers?" "Please decipher the cablegram 'Vasculum Marcasite.'"

The great use made of this branch, like the use of several others in Newark, similarly situated in ground floor stores with large show windows on business streets, makes it plain that most people like their libraries better when they are domesticated, brought near at hand, given an everyday, usable air, than when they are elaborately and remotely housed in marble lined sanctuaries.

The theory on which this business part of our library was conceived and on which it is now run is this:

Everything any man of affairs can want to know is somewhere in print; his public library has it or can get it for him, and should tell him so. Therefore, the public library should put in the center of its city—if not itself in the center—a collection of the printed material best fitted to answer business questions; should keep this collection up to date, and should be always telling of it.

In building up the business collection we found that there was no center of information about business literature and that to discover and collect it was quite difficult. This was because bookish people—booksellers, librarians and compilers of book and print information—all have the ancient notion about print, that it is for theorists and dreamers, not for practical people. Since we opened the business branch—and in some degree because we opened it, pushed it and talked and wrote about it—this business print has greatly grown in volume and has made itself visible to bookmen's eyes. However, there is still some plain talking yet to be done, for the librarian of one of the largest American libraries very recently said that there is nothing important in this idea of making a library especially useful to business.

From the first we have found it very difficult to persuade our business men that a library has any print that could help them. If librarians, who are doctors of book knowledge, did not know the print which is most useful in the world of affairs, how could one expect the world of affairs to know it? Therefore the branch did not come to answer a demand, but ahead of it. We had long believed such a thing would be used if provided, and here came the chance to prove the belief sound.

Thus we advertise the main library as best we can as something useful to our making-buying-selling town; then we take a little of the library to the center of the town as a sample of what the whole is like and thus advertise the main stock, and then we advertise the branch itself, and so in time we become quite useful to the community, and hope to be more so.

MAYOR OPPOSES JURORS BILL.

Mayor Curley is strongly opposed to the measure now pending in the Legislature, increasing the compensation of jurors, and addressed the following communication to members of the State Senate during the present week:

CITY OF BOSTON,

OFFICE OF THE MAYOR, June 29, 1914.

DEAR SIR,—The adoption of House Bill No. 2749 would increase the pay of jurors from \$3 to \$4 a day, increase the expenses of Boston \$60,000 a year, and the expenses of the Commonwealth from \$100,000 to \$125,000 a year. For this increase there will be absolutely no increase in the amount of quality of service rendered. In other words, over \$100,000 will be wasted annually by the state and over \$60,000 by the City of Boston.

The burden under which every city and town in this neighborhood staggers at the present time is such that in my opinion no greater service can be rendered the Governor by the members of the Senate than by a defeat of this measure, and in the interests of a community already overburdened, I respectfully request that your vote as a member of the body be cast in opposition to it.

Respectfully,
JAMES M. CURLEY, Mayor.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announces an open competitive examination for assistant biochemist, for men only, on July 6, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the United States Public Health Service, for duty in the field, at \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in making metabolic, dietetic and other biochemical studies in relation to pelagra.

The commission announces that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announces an open competitive examination for assistant epidemiologist, for men only, on July 6, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Public Health Service, at salaries ranging from \$2,000 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct laboratory studies of disease, to make epidemiological surveys to determine the prevalence and causation of epidemics, and to recommend measures to prevent and control outbreaks of disease.

It is desired to secure persons thoroughly competent in the various branches of sanitary bacteriology, and especially in isolating the typhoid bacillus from infected persons and materials.

The commission announces an open competitive examination July 6, 1914, for fiber inspector, for men only. From the register of eligibles resulting from this examination certification will be made to fill several vacancies in this position in the Philippine Service, at \$1,800 to \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. The appointees to these positions will be stationed at export ports and other grading stations designated by the Director of Agriculture of the Philippines.

The commission announces an open competitive examination for chemist's aid, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., and in the field service

of the Bureau of Chemistry, at salaries ranging from \$720 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Most of the appointments will be made at \$720 a year.

Both men and women will be admitted to this examination, but most of the positions are of such a character that they can only be filled by men.

The duties of this position will include the construction and repairing of laboratory apparatus, the preparation of stock solutions and special reagents, and similar work. It is desired to secure efficient and practical appointees whose services will be valuable in assisting chemists in their work. Appointment to the position of chemist's aid will not lead to promotion as junior or assistant chemist, and persons desiring such promotion must take the regular examination for junior chemist, which is held at frequent intervals.

The commission invites attention to the fact that for the open competitive examination for chemist's aid, to be held on July 8, 1914, at the places mentioned in original announcement No. 517, the maximum age limit will be thirty-five years on the date of the examination instead of thirty years, as stated in the original announcement.

The commission announces an open competitive examination for timber scaler, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$90 a month on ceded Chippewa Indian lands in Minnesota, under the General Land Office, Interior Department, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Persons who meet the requirements and desire to compete in these examinations should at once apply for application blanks and full information relative thereto, to the secretary of the United States Civil Service Board, 141 Post Office Building, Boston.

The commission announces an open competitive examination for weight clerk, for men only, on July 8, 1914, at Bath, Me. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$3.04 per diem, in the office of the Superintending Constructor, U. S. Navy, Bath Iron Works, Bath, Me., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

In the event of there being a shortage of eligibles in other naval establishments eligibles from this examination who are willing to accept appointment at an establishment where such shortage exists may be certified for appointment to such establishment.

The commission announces an open competitive examination for assistant market milk specialist, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,500 to \$1,740 a year,

and in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position include cooperative work with state and municipal authorities in the improvement of milk supplies; investigations concerning the production, handling, and distribution of milk for city consumption; scoring of milk and cream in connection with milk contests; inspection of farms, stores and city milk plants where milk is handled; lecture work at dairymen's associations and other meetings. The performance of these duties will involve considerable travel.

The commission announces an open competitive examination for bacteriologist, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at salaries ranging from \$1,200 to \$2,000 a year, in the Bureau of Chemistry, Department of Agriculture, for duty both in Washington, D. C., and in the field, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to examine bacteriologically food products which are subject to the food and drugs act in order to determine their sanitary condition.

The commission announces an open competitive examination for landscape architectural draftsman, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Engineer Department at Large, War Department, Washington, D. C., at a salary of \$900 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for assistant dairy husbandman, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Dairy Division, Bureau of Animal Industry, Department of Agriculture, at salaries ranging from \$1,500 to \$1,740 a year, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include cooperative work with dairy farming; giving advice and assistance with reference to instituting the keeping of records of production of herds, feeding of dairy herds, and management of dairy farms; organization and supervision of farmers' associations, bull associations, and cow-testing associations; judging dairy cattle; lecture work on subjects connected with dairy farming; and experimental work in dairy-farming lines.

The commission announces an open competitive examination for first-class steam engineer, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of assistant engineer and electrician, at \$1,200 a year, in the United States Penitentiary, Atlanta, Ga., vacancies in the position of first-class steam engineer

as they may occur in the departmental service at Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. The usual entrance salary of this position is \$1,200 a year.

The commission announces an open competitive examination for veterinarian, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of veterinary inspector in the Bureau of Animal Industry, Department of Agriculture, and in the position of veterinarian in the Quartermaster Corps, U. S. Army, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Bureau of Animal Industry.—Graduation from an accredited veterinary college or the fact that the applicant is a senior student in such an institution is a prerequisite. Such senior students will not be certified for appointment until after they have furnished proof of actual graduation. Entrance salary, \$1,400 per annum. It is probable that a large number of appointments will be made in the near future.

Quartermaster Corps.—Graduation from a veterinary college and one year's actual practice as veterinarian on horses are prerequisites. Entrance salary, \$1,200 per annum. There are now several vacancies at Texas City and Galveston, Tex., and additional vacancies will depend upon the activity of the army on the Mexican border. In certification of eligibles preference will be given to those examined in the vicinity of the place where the vacancy exists.

The commission announces an open competitive examination for assistant physicist, qualified in metallography, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Standards, Department of Commerce, Washington, D. C., at a salary of \$1,400 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. It is desired to secure eligibles with a scientific training and with some experience in metallography either in the laboratory or in industrial works, and who are competent to carry on research in the scientific and practical fields of metallography and physical metallurgy. It is desirable that applicants have a reading knowledge of French and German, and the applicant's qualifications in this respect should be fully set forth in his application.

The commission announces an open competitive examination for assistant radio inspector, for men only, on July 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$1,200 per annum in the offices of the radio inspectors of the Bureau of Navigation, Department of Commerce, at New York, San Francisco and Cleveland, and vacancies as they may occur throughout the United States in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for structural engineer and draftsman, for men only, on July 8 and 9, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Office of the Supervising Architect, Treasury Department, Washington, D. C., at entrance salaries ranging from \$1,600 to \$1,800 per annum; vacancies in the position of first-class structural draftsman in the Panama Canal Service, at entrance salaries ranging from \$150 to \$175 a month, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary of the position of structural engineer and draftsman in the Supervising Architect's Office is \$1,600 or \$1,800 a year; only those persons who attain an average percentage of 80 or over in the examination being eligible for appointment at a salary of more than \$1,600. The entrance salary for the position of first-class structural draftsman in the Panama Canal Service depends upon the amount of experience had by the appointee.

The commission announces an open competitive examination for marine engine and boiler draftsman for men only, on July 8 and 9, 1914, at all places at which city delivery service has been established in the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Navy Yard, Portsmouth, New Hampshire, at an entrance salary of \$4 per diem, and vacancies as they may occur in positions requiring similar qualifications at entrance salaries ranging from \$3.52 to \$5.04 per diem, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Marine engine and boiler draftsmen are employed by the Navy Department at the following places in the New England States: Bath, Maine; Boston and Quincy, Mass., and Portsmouth, New Hampshire. In certifying to these positions local eligibles are preferred, but in the event of there being a shortage of local eligibles, eligibles from this examination who reside in other cities and who are willing to accept appointment at a naval establishment where such shortage exists, may be certified for appointment to such establishment.

The commission announces an open competitive examination for assistant mining engineer, for men only, on July 13, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Mines, Department of the Interior, for service in the field, in relation to coal mining or metal mining, at salaries ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will include, in one case, investigations in relation to coal mines, and in another case in relation to metal mines, particularly such as concern the causes of mine accidents or waste in mining, and the suggestion of remedies therefor. It is desired to procure the services of persons having a

broad training in mining, particularly underground experience.

The commission announces an open competitive examination for cartographer in agricultural geography, for men only, on July 13, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The duties of this position will be to assist in the preparation of crop, land utilization, and land tenure maps and charts.

The commission announces an open competitive examination, July 13, 1914, for metallurgical engineer, for work in iron and steel, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Mines, Department of the Interior, for service at Pittsburgh, Pa., at a salary ranging from \$3,000 to \$4,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The special duties of the position will be to conduct inquiries and investigations into both safety and efficiency problems in the metallurgy of iron and steel.

The commission announces an open competitive examination for forest inspector, for men only, on July 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Forest Service, Washington, D. C., at \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The duties of this position will consist of directing the cooperative work in forest management carried on with private owners of timber lands in the Eastern United States. The position demands thorough familiarity with theoretical and practical work in forestry and lumbering, including timber cruising, mapping, the direction of logging operations and the management of private forest lands in the Eastern States.

The commission announces an open competitive examination for record examiner, for men only, on July 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position as they may occur in the Department of Agriculture, for service in the field, at salaries ranging from \$1,500 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It is desired to secure eligibles capable of making independent examinations of land titles in connection with the acquisition of forest lands by the Government.

The commission announces an open competitive examination for transitman, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Forest Service, for duty in the field, at salaries

ranging from \$800 to \$900 a year, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to assist in the survey of lands to be acquired under the Weeks law in the southern Appalachian and White Mountains.

The commission announces an open competitive examination for dental interne, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$600 per annum, with maintenance, in the Government Hospital for the Insane, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

As an insufficient number of applications were filed for the examination for this position announced to be held on June 3, 1914, qualified persons are urged to enter this examination.

The department states that it reserves the right to terminate the appointment at the expiration of one year of service if it is deemed advisable to do so.

In addition to many interesting cases presented, the dental interne is given an excellent opportunity for study and for doing experimental and research work in the pathological, histological, and other laboratories of the institution.

The commission announces an open competitive examination for map colorist, for both men and women, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position, at salaries ranging from \$600 to \$720 a year, in the departments at Washington, D. C., or in the field, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for skilled laborer, for women only, on July 22, 1914, at Pittsfield, Mass. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of counter, at \$720 a year, in the Government paper mill, Pittsfield, Mass., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces the postponement from June 17 and 18, 1914, to July 22 and 23, 1914, of the open competitive examination for law assistant, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of law clerk in the office of the Solicitor, Department of Agriculture, Washington, D. C., at entrance salaries of \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for instrument maker, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position

at \$3.84 per diem at the Naval Observatory, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for assistant in agricultural education, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the office of Experiment Stations, Department of Agriculture, Washington, D. C., at salaries ranging from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include correspondence, report writing, editing and the preparation of original articles concerning different phases of agricultural education, including instruction in regular college and school courses, various forms of extension teaching, farmers' institutes, etc. This position also calls for some field work, that is, work outside of Washington, studying problems in agricultural education, studying educational institutions, attending conferences and giving addresses at important public meetings.

The commission announces an open competitive examination for assistant in plant malnutrition, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in the plant malnutrition work in the office of Biophysical Investigations in the Bureau of Plant Industry.

It is desired to secure applicants well qualified in soil physics, plant physiology and biochemistry.

CAST-IRON PIPE FOR DRAINAGE IN ENGLAND.

By VICE CONSUL GENERAL RICHARD WESTACOTT, LONDON.

The practice of using cast-iron soil pipes and pipe fittings for house drainage in Great Britain has largely replaced wrought iron. While the subsidiary mains are constructed of vitrified earthenware pipes, the conduits leading thereto from buildings are now generally of cast iron, owing to the greater resistance to wear and deterioration.

Under the building laws it is at present necessary that the drain pipes from each building or house shall run separately into the subsidiary street main, and not connect up with such drains from other buildings. For premises erected prior to this requirement inspection has been made by the local sanitary authorities and the owners of the buildings served with a notice requiring the substitution of the new method of drainage.

According to a building trade journal the prices in England of cast-iron soil pipes are as follows per ton: 3-inch diameter, \$29.81 to \$30.90; 4 to 6 inch, \$29.20 to \$30.42; 7 to 24 inch, \$26.15 to \$29.20; coated with composition, \$1.22 per ton extra; turned and bored joints, \$1.22 per ton extra.

WATER SERVICE, PUBLIC WORKS DEPARTMENT.

Miles of supply and distributing mains, 825.44 on February 1, 1914; number of fire hydrants, 8,858. Total receipts for year 1913, \$3,014,600, or \$36,790 more than in 1912; cost of maintenance for 1913, \$899,339 (including extension of mains), or \$64,267 more than in 1912; Metropolitan assessment for 1913, \$1,842,128, or \$50,004 more than in 1912. Daily average amount of water used during 1913, 79,390,600 gallons (i. e., 10,646,900 gallons less daily than in 1912) or 108 gallons per capita; net water debt, February 1, 1914, \$532,187, or \$116,071 less than in 1913.

PROCEEDINGS OF SCHOOL COMMITTEE.

June 12, 1914.

An adjourned meeting of the School Committee of the City of Boston was held in the School Committee Chamber, Mason-street Building, at 5.25 o'clock P. M., the Chairman presiding.

Present: Messrs. Brock, Corcoran, Miss Curtis, Messrs. Lee and Scannell.

SECRETARY PRO TEMPORE.

In the absence of the Secretary, Ellen M. Cronin was elected Secretary pro tempore.

APPOINTMENTS.

The Chairman stated the question was on approving all appointments, as reported by the Superintendent and laid over at the last meeting.

The appointments were approved under a suspension of the rules.

AMENDMENTS TO RULES AND REGULATIONS.

The Board took up for consideration the order laid over at the previous meeting (see p. 120), amending the regulations relative to continuation schools.

On motion, the order was amended as follows:—

Section 494. Strike out the section, and substitute in place thereof the following:—

Sect. 494. Teachers in continuation schools shall consist of heads of divisions; instructors; trade instructors; assistants; trade assistants; assistants, advanced courses; special assistants; student teachers and clerical assistants.

Section 496, paragraph 2. Strike out the paragraph and substitute in place thereof the following:—

2. There shall be one instructor, trade instructor, assistant or trade assistant for each group of pupils representing four hundred pupil hours of instruction per week and there may be in the discretion of the superintendent one instructor, trade instructor, assistant or trade assistant for each group of pupils representing three hundred pupil hours of instruction per week, one pupil hour to be understood to mean one hour of instruction for one pupil.

Section 501. Strike out the section and re-number sections 502, 503 and 504, as sections 501, 502 and 503.

The order, as amended, was passed, under a suspension of the rules.

AMENDMENTS TO SALARY SCHEDULE.

The following amendments to the schedule of salaries for teachers for the year ending Aug. 31, 1915 adopted at the last meeting (see pp. 105-108), were offered:—

Under the heading "Continuation School." strike out the second item—Trade Assistants, first year \$996, annual increase \$72, maximum \$1423—and substitute in place thereof the following:—

Trade Instructors, first year \$1236, annual increase \$72, maximum.....\$1524.00

Instructors, first year \$1236, annual increase \$72, maximum..... 1524.00

Trade Assistants, first year \$996, annual increase \$72, maximum..... 1284.00

Under the heading "Teachers Specially Assigned" strike out the following item:—

To Continuation School teachers, assigned to classes attended exclusively by boys, in addition to the regular salary of their rank \$96.00

Under the heading "Instructors—Latin and High Schools" add the following:—

Salesmanship.

Assistant Instructors in Salesmanship, first year \$972, annual increase \$72, maximum\$1401.00

The question came on approving the amendment concerning the salaries of teachers in the Continuation School.

The yeas and nays being ordered, the amendment passed by the following vote:—

YEAS—Mr. Brock, Miss Curtis, Messrs. Lee and Scannell—4.

NAY—Mr. Corcoran—1.
The remaining amendments were approved.

TRANSFER OF APPROPRIATIONS FOR ADDITIONAL SCHOOL ACCOMMODATIONS.

The Board took up and gave further consideration to the communication received

from the Board of Schoolhouse Commissioners at the previous meeting (see p. 101), requesting that the School Committee concur in a vote of that Board transferring certain amounts from one item to another in the list of school accommodations to be provided from the tax levy appropriation and from the bond issue appropriation of various years.

Placed on file.

The following was offered:—

ORDERED, That this Board hereby concurs in the vote of the Board of Schoolhouse Commissioners transferring certain amounts to other items in the list of school accommodations, as follows:—

From Comins-Sherwin Districts, Roxbury: Boston Industrial School for Boys, building only, bond issue 1914, the sum of \$5,500.00.

To Dearborn District, Roxbury: High School of Practical Arts, completion of building, bond issue 1912.

From Washington Allston District, Brighton: Thomas Gardner School, appropriation 1904, the sum of \$1,441.60.

To Dearborn District, Roxbury: High School of Practical Arts, completion of building, bond issue 1912.

From Dearborn District, Roxbury: High School of Practical Arts, completion of furnishing of building and annex, tax levy 1914, the sum of \$1,300.

To Dearborn District, Roxbury: High School of Practical Arts, completion of building, bond issue 1912.

From Dearborn District, Roxbury: High School of Practical Arts, completion of furnishing of building and annex, tax levy 1914, the sum of \$2,700.

To Dearborn District, Roxbury: High School of Practical Arts, remodeling for school purposes of dwelling house in school yard, bond issue 1913.

From Comins-Sherwin Districts, Roxbury: Boston Industrial School for Boys, building only, bond issue 1914, the sum of \$1,837.65.

To Bennett District, Brighton: Annex to Brighton High School, bond issue 1912.

From Comins-Sherwin Districts, Roxbury: Boston Industrial School for Boys, building only, bond issue 1914, the sum of \$587.19.

To Charles Sumner District, West Roxbury: Elementary school, lower grades, land and building, tax levy 1912.

From Comins-Sherwin Districts, Roxbury: Boston Industrial School for Boys, building only, bond issue 1914, the sum of \$1,057.10.

To Rice District, South End: Public Latin School, Annex and building for supply department, bond issue 1912.

From Comins-Sherwin Districts, Roxbury: Boston Industrial School for Boys, building only, bond issue 1914, the sum of \$1,592.86.

To Quincy District, City Proper: Andrews School, enlargement of building, tax levy 1912.

From Comins-Sherwin Districts, Roxbury: Boston Industrial School for Boys, building only, bond issue 1914, the sum of \$94.62.

To Oliver Wendell Holmes District, Dorchester: Elementary school, upper grades, bond issue 1912.

From Comins-Sherwin Districts, Roxbury: Boston Industrial School for Boys, building only, bond issue 1914, the sum of \$2,107.74.

To Everett District, South End: New roof, fire escapes, addition to building, master's office and nurse's room, bond issue 1913.

Passed unanimously.

TRANSFERS.

Martin District—Elizabeth W. O'Connor, assistant, to the same position in the Shurtleff District, Sept. 1, 1914.

Quincy District—Marie T. Harrington, assistant, to the same position in the Gilbert Stuart District, Sept. 1, 1914.

Approved.

RETIREMENTS ON PENSION.

The Superintendent offered the following:—

ORDERED, That the following-named teacher be retired on pension, in accordance with the provisions of Chapter 589 of the Acts of 1908, as amended by Chapter 617 of the Acts of 1910, the date of retirement and rate of pension to be as herein-after specified:—

Lewis District—Emma R. Gragg, length of service 36 yrs., 11 mos., Aug. 31, 1914, \$392.

Passed, a majority of the Board voting in the affirmative.

APPOINTMENT OF BOOKKEEPER, BOSTON INDUSTRIAL SCHOOL FOR BOYS.

A communication was received from the Superintendent, under date of June 12, 1914, reporting that, subject to the approval of the Board, and with the approval of the Civil Service Commission, he has appointed Cecil Terr bookkeeper, from clerical assistant, Boston Industrial School for Boys, to take effect Sept. 1, 1914.

Placed on file, and the appointment approved.

AMENDMENTS TO RULES AND REGULATIONS.

The Superintendent offered the following:—

ORDERED, That the terms used in the rules and regulations are hereby amended as follows:—

Strike out the paragraph relative to the supervising staff and substitute therefor the following new paragraph:—

Supervising Staff. This term includes directors, associate directors, assistant directors, assistants to directors, supervisors, medical inspector, supervising nurse, assistant nurses, instructor and assistant instructor in military drill.

Passed, under a suspension of the rules.

The Superintendent offered the following:—

ORDERED, That the regulations are hereby amended as follows:—

Section 429. Strike out the section and substitute therefor the following new section:—

Section 429. 1. The assistant director of athletics, the assistant director of physical training, instructors in physical training, assistant instructors in physical training, teacher coaches, supervisors of schoolyard playgrounds, play-teachers, first assistants in playgrounds, assistants in playgrounds, and assistants in sand gardens shall perform such duties as may be assigned to them by the associate director of school hygiene; provided, that the assistant directors of physical training and athletics shall perform such other duties as may be assigned to them by the director of school hygiene with respect to matters affecting the physical welfare of pupils and teachers.

2. Assistant directors of physical training and athletics, teacher coaches, supervisors of schoolyard playgrounds, play-teachers, first assistants in playgrounds, and other employees in playgrounds shall keep such records, and make such reports as may be required by the associate director of school hygiene.

3. Assistant directors of physical training and athletics shall be entitled to four weeks' vacation in each calendar year, to be taken at such time or times as the associate director of school hygiene may appoint.

Passed, under a suspension of the rules.

The Superintendent offered the following:—

ORDERED, That the regulations are hereby amended as follows:—

Section 291, paragraph 9. Strike out the clause which provides for the appointment of instructors and assistant instructors in commercial branches and manual arts, and substitute therefor the following new clause:—

Instructors in commercial branches, or instructors in manual arts, instead of junior masters; assistant instructors in commercial branches, or assistant instructors in manual arts, or assistant instructors in salesmanship, instead of assistants.

Passed, under a suspension of the rules.

PRIVILEGES ACCORDED BOSTON PLACEMENT BUREAU.

A communication was received from the Superintendent, under date of June 12, 1914, stating that at a conference recently held regarding the work of the Boston Placement Bureau, the fact was disclosed that there is likely to be unnecessary duplication of effort unless the responsibility of co-ordinating the work is placed upon some one person, and recommending that the privileges which have been granted the Bureau be continued, and further that the Placement Bureau be made a clearing house for such other similar work as may be carried on in connection with the schools by other agencies.

Placed on file, and the recommendations adopted.

On motion of the Superintendent, it was ORDERED, That the privileges previously extended to the Placement Bureau be continued and that the Bureau be regarded as one of the factors in vocational guidance under the supervision of the person assigned to the direction of the work of vocational counsellors in the Boston public schools, and in co-operation with the vocational counsellors and the teachers of the continuation schools.

ADDITIONAL COMPENSATION TO ROSE A. CARRIGAN.

The following was offered:—
ORDERED, That Rose A. Carrigan be paid two hundred dollars (\$200) in addition to her regular salary as assistant, Normal School, for services in connection with her special assignment as assistant in the testing of the work in arithmetic in elementary schools, for the period Jan. 1 to Aug. 31, 1914.
Passed unanimously.

USE OF THE WASHINGTON SCHOOL ROOF DURING THE SUMMER.

A communication was received from William H. Fish, Moderator, Ford Hall Town Meeting, under date of June 11, 1914, requesting, in co-operation with the Council of Jewish Women, the use of the roof of the Washington School this summer as a sleeping place for women and children.
Referred to the Chairman with full powers.

NEXT REGULAR MEETING OF BOARD OMITTED.

The following was offered:—
ORDERED, That the regular meeting of the Board which would be held on Monday, June 15, 1914, be omitted.
Passed, under a suspension of the rules.

ADJOURNMENT.

The Board adjourned at 7.05 o'clock P. M. until the first regular meeting in September, unless some special meeting shall be held before that date.
Attest:

ELLEN M. CRONIN,
Secretary pro tempore.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 29, 1914.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD in the chair and all the members present.

The Council voted, on motion of Coun. BALANTYNE, to dispense with the reading of the records of the last meeting.

DILAPIDATED BUILDINGS.

The following was received:

City of Boston,
Office of the Mayor, June 29, 1914.
To the City Council:
I transmit herewith communication from the Building Commissioner relative to the dilapidated condition of buildings, in accordance with the provisions of sections 1 to 5, chapter 101, and sections 67 to 69, chapter 75, of the Revised Laws.
Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Building Department, June 23, 1914.
Hon. James M. Curley,
Mayor of Boston:

Dear Sir,—The owners of the following buildings have been notified of their dilapidated conditions, but it is reported to me that nothing has been done.

I therefore refer the matters to you for such action as you find best under the provisions of sections 1 to 5, chapter 101, and sections 67 to 69, chapter 75, of the Revised Laws:

223 West Ninth street, Ward 15, owner, W. N. Ambler, 43 Tremont street.
465 Neponset avenue, Ward 24, owner, J. W. Donovan, 40 Terrace street, Roxbury.
455 Neponset avenue, Ward 24, owner, J. J. Murphy, 23 Park street, Dorchester.
100 Walnut avenue, Ward 21, owner, J. F. Callahan Heirs, care of Francis J. Callahan, 158 Federal street.
22 Circuit street, rear, Ward 21, owner, Roy E. Moar, South Weymouth.
65 to 79 West Dedham street, Ward 9, owners, Annie Litchfield, two-thirds, William Collier Heirs, one-third, care of E. M. Corthell, agent, 1 Washington street.

436 Harrison avenue, Ward 9, owner, N. M. Ware, 1125 Washington street.

Yours respectfully,
PATRICK O'HEARN,
Building Commissioner.
Referred to the Executive Committee.

SALE OF FIRE BELLS.

The following was received:

City of Boston,
Office of the Mayor, June 29, 1914.
To the City Council:
I am advised by the Fire Commissioner that the Fire Department has in its possession five old fire alarm bells which are of no further use.
These bells were formerly used in connection with the fire alarm signal service but have been discontinued. In order that the department may properly dispose of the bells, I respectfully recommend the adoption of the accompanying order.
Respectfully yours,
JAMES M. CURLEY, Mayor.

Ordered, That the Fire Commissioner be authorized to sell five old discarded fire alarm composition bells, weighing about 16,000 pounds, after advertising for bids, the proceeds to be credited to the Fire Department Appropriation.
Referred to the Executive Committee.

PAYMENT TO R. F. SCANNELL—VETOED.

The following was received:

City of Boston,
Office of the Mayor, June 29, 1914.
To the City Council:
I return herewith without my approval the order passed by your honorable body on June 22, making provision for the payment to Roger F. Scannell of the sum of \$300 in compensation for the use of land on Randolph road, Mattapan, during the year 1913, for playground purposes, for the reason that the Park and Recreation Department have no official record of any contract or agreement for the hire of the said land.
Respectfully,
JAMES M. CURLEY, Mayor.

Placed on file.

LAYING OUT OF HIGHWAYS.

The following was received:

City of Boston,
Office of the Mayor, June 29, 1914.
To the City Council:
I beg to submit communication from the City Planning Board relative to the acceptance and laying out of highways in the City of Boston.
Map accompanying same is transmitted herewith.

Respectfully,
JAMES M. CURLEY, Mayor.

The City Planning Board, June 3, 1914.
To the Honorable the Mayor and City Council:
Gentlemen,—Having given careful consideration to the order recently pending before the City Council, appropriating eight hundred thousand dollars (\$800,000) for Highways, Making of, and the two orders now before the City Council appropriating four hundred thousand dollars (\$400,000) each for the same purpose, the City Planning Board desires to call your attention to the following considerations.

The streets in Boston may be divided into three classes, main thoroughfares, minor thoroughfares and residential streets. Residential streets may be technically thoroughfares in the sense of being through streets, in distinction from "dead end" streets, but they are streets which are used principally as approaches to the buildings thereon.

Such residential streets as are private should be taken over by the city as rapidly as possible, solely on account of the improvement in the appearance of the city which will result. The only change in the condition of private streets when they are accepted is that the city assumes the responsibility for their repair and the liability for accidents thereon. This extra burden which the city assumes when it accepts a private street is a sufficient return for the benefit which the city as a whole receives. All other cost of laying out the street should be borne by the abutters since the benefit is almost entirely theirs.

If the sum of four hundred thousand dollars (\$400,000) should be appropriated under conditions which would insure its return from the abutters within a year, it could at the expiration of the year be used again for a similar purpose, and so on indefinitely; in other words, it would constitute a fund for the immediate payment of cost of constructing newly accepted streets which would be used again as fast as it was replenished by receipts from abutters, and would continue available until all private streets have been accepted.

The main thoroughfares of the city need immediate attention, many of them being deplorably narrow and crooked. Some of these thoroughfares, which could and should have been widened a generation ago, are now so fully built up as to make the present cost of widening prohibitive. If we do not make the most of our present oppor-

tunities for widening the thoroughfares that are as yet not built upon, in a few years the opportunity will be gone.

We submit herewith a map showing what the City Planning Board considers the main thoroughfares of the City of Boston, showing also their connections in neighboring municipalities. These are the streets that now are and probably always will be the most important arteries of traffic from Boston to other cities and towns and between different parts of the city itself.

In the making of this map careful study has been given to similar very valuable reports by the Metropolitan Improvements Commission and the United Improvement Association; also a study by the City Planning Committee of the Boston Chamber of Commerce, in the course of which a conference was held with representatives of the Expressmen's League, the Boston Society of Architects, the Boston Society of Landscape Architects, the Real Estate Exchange and Auction Board, the Massachusetts Real Estate Exchange, the Street Laying-Out Department and the Massachusetts Highway Commission.

We cannot too strongly emphasize the necessity of putting all of these main thoroughfares into first-class condition at the earliest possible date. Without at this time making a comprehensive report regarding these streets individually, we would call to your attention the facts that of all the thoroughfares connecting Boston with adjoining towns, North Beacon street is probably the worst conditioned; that outside the heart of the city it would be difficult to find any street so inadequate for the teaming which passes over it as Chelsea street; that Centre street, south of the parkway, if widened immediately, can be completed for a fraction of what it will probably cost a few years hence; that Ruggles street should be widened before the Bacon store is rebuilt, and should be extended to Eustis street in order to make a continuous highway from lower Dorchester through Roxbury to Brighton and Cambridge.

As a result of the foregoing considerations, we recommend:

1. That future appropriations for the acceptance of private streets be made with the proviso that the fee of the land shall be conveyed to the city without cost, and that the abutters shall pay the whole cost of the construction of the street; also that when this money is returned by the abutters it shall be available for further use to the same end.

2. That as large an appropriation as the city's financial condition will permit be made each year for the widening of main thoroughfares substantially in accordance with the accompanying plan.

Respectfully yours,
R. A. CRAM,
Chairman Planning Board.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

M. J. Walsh, for compensation for damage to clothing by grease on gate post of Summer Street Bridge.

Mary E. McLaughlin, for compensation for damage to clothing by oil on Ashland street, Roslindale.

Mrs. Lula Ball, for compensation for damage to clothing by oil on Huntington avenue at Garrison street.

William L. Fraser, for compensation for damage to clothing by oil from an oil sprinkling wagon.

Mrs. Katherine Sullivan, for compensation for damage to her child's clothing by oil on Farragut road.

Mrs. Mary R. Nicholl, for compensation for damages on account of a fall on oily pavement on Warren and Montrose streets.

William Leavitt, for compensation for damage to clothing by oil on Huntington avenue at Garrison street.

John J. Halloran, administrator of estate of Daniel M. Halloran, for wages lost by said Daniel M. Halloran on account of injuries received while in the employ of the city.

Alexander McCarthy, for compensation for injuries received while in the employ of the city.

Margaret L. Moylan, for compensation for injuries caused by a fall at the corner of Joy and Mt. Vernon streets.

Orina Marie Hawley, for compensation for injuries caused by a defect in highway on Dartmouth street, near Columbus avenue.

Abraham Grosman, for compensation for damage to clothing by a street sweeper.

Mrs. S. B. Crane, for compensation for damage to clothing by water from a hose used by city employees at the corner of Norfolk and Corbet streets.

Louise A. Cullen, for compensation for damages by water from a hose used by the Park and Recreation Department on Aldrich street.

Mary A. Long, for compensation for damages by water from a hose used by the Park and Recreation Department on Aldrich street.

Executive.

John Colesie, for license to make sausage meat.
J. B. Croftwell et al., to name space in Roxbury "Farragut Circle."

Isaac W. Mendelstam, for permit to sell, rent or lease firearms at 130 Sumner street, Ward 2.

CONSTABLE'S BOND.

The City Treasurer, having duly approved of the same, submitted the constable's bond of Clayton H. Parmelee.

Approved by the City Council.

STORAGE OF EXPLOSIVES.

Notice was received of intention to store explosives at the following-named locations, viz.:
Irrington Street Garage, 16 Harcourt street, Ward 10.

Peter Ullsch, 75 Hastings street, West Roxbury.
Eli Pitonof, 11 Everdean street, Ward 24.
Placed on file.

APPOINTMENT OF RAILROAD POLICE.

Notice was received from the Boston & Maine Railroad of appointments of George L. Barker et al. as railroad police officers by the Mayor of Somerville.

Placed on file.

NOTICE OF HEARING.

Notice was received from the Public Service Commission of hearing on June 30, at 10.30 a. m., on petition of West End Street Railway Company for 438th location.

Placed on file.

CLAIM OF DANIEL M. HALLORAN.

The following was received:

City of Boston,
Law Department, June 24, 1914.

To the Honorable the City Council:

Gentlemen,—In reply to your communication dated June 23, 1914, requesting a report relative to chapter 17 of 1914, as amended by chapter 416 of the Acts of that year, I respectfully submit the following:

It appears that in 1908 Daniel M. Halloran, while in the employ of the city as a laborer, was struck on the head by a falling hucket and that the Committee on Claims allowed as compensation for his injury the sum of \$165, which was paid on the signing of a release by Mr. Halloran. His disability appears to have been temporary only, for he resumed work for the city early in 1909, continuing therein until September, 1913. On the 17th of that month he fell from a Boston Elevated Railway car, receiving injuries to his skull, and died the next day. For this latter injury the city was not responsible legally or morally, and the administrator of his estate has brought suit against the Elevated Railway Company for the injury sustained by the deceased.

All of these facts have been set forth in a report previously sent to the City Council by the Finance Commission, which appears in the proceedings of the City Council under date of February 25, 1914, on page 18. The Finance Commission then recommended that the act be not accepted by the City Council or approved by the Mayor. The later act, chapter 416 of 1914, amending chapter 17 of that year, does not change the situation in any way so far as the liability of the city for the injuries is concerned.

As Mr. Halloran worked for the city for more than four years after receiving the accident of 1908 without making any demand for compensation in addition to that which he received at the time and for which he signed a release, there appears to be no reason why the city should pay anything to his estate on account of that injury. Such a payment would seem to be a pure gratuity without legal or moral basis.

Yours truly,
JOHN A. SULLIVAN,
Corporation Counsel.

Placed on file.

LEGALITY OF STREET CONSTRUCTION ORDER.

The following was received:

City of Boston,
Law Department, June 23, 1914.

To the Honorable the City Council:

Gentlemen,—The proposed orders of the City Council, designating certain streets for improvement or construction and authorizing the appropriation of \$500,000 therefor as provided in Statute 1912, chapter 661, are in my opinion legal in form and if passed by the City Council and approved by the Mayor will accomplish the desired object.

Yours very truly,
JOHN A. SULLIVAN,
Corporation Counsel.

Placed on file.

REGULATIONS FOR HEAVY TRAFFIC.

The following was received:

City of Boston,
Street Laying-Out Department,
June 29, 1914.

To the Honorable the City Council:

Gentlemen,—The order of your honorable body of May 11 last, requesting the Board of Street

Commissioners "to consider the question of enacting regulations, so far as the same may be within their jurisdiction, to prohibit traffic by heavy vehicles driving at a rate of speed faster than a walk, and the making of other unnecessary noises, in streets in the immediate vicinity of hospitals or other institutions for the treatment of the sick, and report to the City Council as to the advisability of such action," has been considered by the Board.

Under the provisions of chapter 432 of the Acts of the Legislature of 1913, the Board has authority to make rules to divert vehicular traffic in the streets of the city. With the passage of this act the Board believed there would be a general demand to keep noisy vehicles out of streets on which hospitals and other institutions for the care of the sick are maintained. There has, however, been but one such request, which comes from a hospital at the South End and whose front is on one of the main thoroughfares of the city.

Though there appears to be no desire on the part of institution officials to take advantage of the provisions of the legislative act, it is the intention of the Board to give a public hearing on the subject at an early date. The officials in charge of the various institutions for the sick will be asked to attend, and the Board, by this method, hopes to find if there is a need for such regulations as your order suggests.

For the Board of Street Commissioners,
J. J. O'CALLAGHAN, Secretary.

Placed on file.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for seven newsboys and six vendors—that permits be granted.

Reports accepted; permits granted on the usual conditions.

UNFINISHED BUSINESS.

President McDONALD called up unfinished business, viz.:

1. Action on appointments submitted by the Mayor June 22 of the following-named persons to be Constables of the City of Boston, viz.:

John J. Pondoloy, Frank J. Glynn, Stephen F. Koogan and Edward C. Carroll.

Thomas Jordan and Thomas J. Donnellon to be Constables for the Health Department of the City of Boston and to serve without bonds.

2. Action on appointments submitted by the Mayor June 22, viz.:

To be Weighers of Coal, John F. Donovan, Harry E. Adams, John J. Lavin, Harry R. Thompson, Joseph B. Nealon, Lewis W. Keith.

To be a Weigher of Coal and Measurer of Wood, Charles A. Hardy.

To be a Weigher of Coal and Inspector of Pressed or Bundled Hay and Straw, John Wray.

To be Measurers of Leather, Thomas W. Edwards, Bertram Ellis Jewell.

To be an Inspector of Pressed or Bundled Hay and Straw, Charles H. Seely.

To be Weighers of Goods for the Boston & Albany Railroad Company, Charles V. Kreutz-Kampf, Hugh H. McCarthy, Ivory L. Allen, Charles A. Brandin, Frank J. C. Kern, Frank J. Hayes, Arthur L. Muldoon.

To be Weighers of Goods for the Maverick Mills, East Boston, William Wells and Peter Ryan.

The question came on confirmation. Committee—Coun. Attridge and Watson. Whole number of ballots cast 7, yeas 7, and the several appointments were confirmed.

3. Ordered, That his Honor the Mayor be and hereby is authorized to sell at public auction at not less than the assessed valuation (35 cents per square foot) the parcel of land on Cambridge street, corner of Mansfield street, in the Allston district, containing 13,948 square feet, more or less, and upon such sale his Honor the Mayor is hereby further authorized, in the name and behalf of the city and by an instrument or instruments satisfactory to the Law Department, to convey said land to the purchaser or purchasers thereof.

On June 11 the foregoing order was read once and passed, yeas 8, nays 0.

The order was given its final reading and passed, yeas 9.

4. Ordered, That his Honor the Mayor be and he is hereby authorized in the name and behalf of the city to execute an instrument satisfactory to the Law Department whereby the city shall, so far as it may lawfully do so without affecting the legal or equitable rights of parties holding title under it, release to Mina K. Wood and Nella C. Simpson and all persons claiming title under them, and the respective heirs and assigns of such persons, of land on Dix place described in its deed to Donald Kennedy, dated July 18, 1870, and recorded with Suffolk Deeds, Lib. 1019, fol. 220, and in its deeds to Williamina Brown, dated respectively October 17, 1874, and May 4, 1881, and recorded with said deeds, Lib. 1239, fol. 121 and 124, and Lib. 1524, page 89, from the several conditions set forth in said deeds.

On June 11 the foregoing order was read once and passed, yeas 9.

The order was given its final reading and passed, yeas 9.

5. Whereas, The City of Boston on the twenty-fifth day of February, 1859, entered into an agree-

ment with Stephen Smith of Boston, now deceased, whereby the city was to convey to said Smith a certain parcel of land on Worcester street in said Boston containing 16,283 square feet, more or less, upon payment of the sum of \$3,684, at the times and in the manner set forth in said agreement; and

Whereas, It appears that said consideration was long since paid by said Smith according to the terms of said agreement and that no conveyance of said land has been made by the city to said Smith or his legal representatives; it is therefore

Ordered, That his Honor the Mayor be and he hereby is authorized in the name and behalf of the city to convey to the heirs and devisees of said Stephen Smith, and the persons holding under such heirs and devisees, according to their respective interests, the premises described in said agreement, said conveyance to be made by a deed satisfactory to the Law Department and in conformity with the terms of said agreement.

On June 11 the foregoing order was read once and passed, yeas 8, nays 0.

The order was given its final reading and passed, yeas 9.

6. An Ordinance Concerning Vessels and Ballasts. Be it ordained by the City Council of Boston, as follows:

Chapter forty-one of the Revised Ordinances of 1898 is hereby amended by adding at the end thereof the following, to be numbered section 11, viz.:

Section 11. Whoever violates any of the provisions of sections six or seven of this chapter shall be punished by a fine not exceeding one hundred dollars for each offence.

7. Be it ordained by the City Council of Boston, as follows:

Section 1. The municipal standard of the City of Boston, which is hereby established, shall be made of silk, and shall be five feet in length and three and one-half feet in width, or of a different size but in the same proportions of length and width. The body of the standard shall be Continental blue, with the official city seal embroidered in the center; and two rings of white shall encircle the seal as indicated by photograph hereto attached. The standard shall have a fringe of Continental huff and the reverse of the standard shall bear a representation of the Trimountain.

A city flag of like design and colors may be made of bunting for outdoor display, the size of such bunting flag to depend upon the place of display. The flag shall be without a fringe, and it shall have no reverse except the seal showing through the hunting, the seal to be painted on or woven in the fabric.

Section 2. The colors herein specified shall be the official colors for the City of Boston, namely, Continental blue and Continental buff, according to colors certified and on file with the Secretary of the Commonwealth.

Section 3. The municipal standard of silk shall be carried or displayed in parades, at review and on other official occasions when the Mayor is present and when directed by him. Boston organizations may have copies of the municipal standard on approval by the Mayor.

Section 4. The city flag shall be displayed on City Hall, on other municipal buildings, on Boston Common and in other public places on all holidays and other occasions when the national flag is ordered to be displayed; provided that the city flag may be used on other occasions not in conflict with this ordinance.

Section 5. The municipal standard or the city flag, or any reproduction of either, shall not be used for any commercial purpose and no advertising device shall be placed upon it, or used in connection with it; and neither shall be used for any purpose not authorized by this ordinance, except with the permission of the Mayor.

Section 6. The City Messenger shall be custodian of the municipal standard, and of the city flags that are the property of the city.

Section 7. Whoever mutilates, tramples upon, defaces or treats contemptuously the municipal standard of the City of Boston or the city flag, whether such standard or flag is public or private property, or whoever displays such standard or flag, or any representation thereof, upon which are words, figures, advertisements or designs, or whoever exposes to public view, manufactures, sells, exposes for sale, gives away, or has in his possession for sale or to give away, or for use for any purpose, any article or substance, being an article of merchandise or a receptacle of merchandise or articles upon which shall be attached through a wrapping or otherwise engraved or printed in any manner a representation of the municipal standard or city flag, shall be punished by a fine of not exceeding twenty dollars for each offence.

Section 8. This ordinance shall take effect upon its passage, except as to section three, which shall not take effect until thirty days thereafter.

Coun. KENNY—Mr. President, I move, in order that one may have opportunity for further study of this calendar of to-day, that numbers 6 and 7 be assigned to the next meeting.

Numbers 6 and 7 were assigned to the next meeting.

PAYMENT OF FINES.

Coun. COLLINS offered an order—That the City Auditor be authorized to allow for payment

and the City Treasurer to pay to the Commonwealth of Massachusetts the sum of \$4,459, with interest to date of payment, from the income of the Superior Criminal Court, being for automobile and oleomargarine fines received by said court since 1910.

Coun. COLLINS—Mr. President, that order was offered at the request of the City Auditor. It seems that for some time past certain fines have been paid into the City Treasurer's office that should have been paid under the statute into the office of the Treasurer of the Commonwealth. I respectfully ask that the order be referred to the Executive Committee so that action may be taken at once and thereby save an interest account running against it at 6 per cent.

Referred to the Executive Committee.

SEATS AT FORT AVENUE PLAYGROUND.

Coun. BALLANTYNE offered an order—That the Commissioner of the Park and Recreation Department be requested, through his Honor the Mayor, to place seats at the Fort Avenue Playground, otherwise known as High Fort, for the convenience of the public.

Referred to the Executive Committee.

SALARY OF FREDERICK J. GLENN.

President McDONALD offered an order—That, until otherwise ordered, the salary of Frederick J. Glenn, employed by the City Council as an assistant in the office of the City Messenger, be fixed at the rate of fourteen hundred dollars per annum, the same to be charged to the appropriation for City Council, Incidental Expenses.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted, on motion of Coun. COLLINS, at 3.30 p. m., to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 6.04 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Report on order (referred to-day) that the City Auditor be authorized to allow and the City Treasurer to pay the Commonwealth of Massachusetts the sum of \$4,459, with interest, from income for automobiles and oleomargarine fines—that the order ought to pass.

Report accepted; order passed.

(2) Report on petition of Isaac W. Mendelstam (referred to-day) for license to sell, rent or lease firearms at 130 Sumner street, Ward 2—that permit be granted.

Report accepted; permit granted on the usual conditions.

(3) Report on order (referred to-day) that Frederick J. Glenn, employed as assistant in the office of the City Messenger, be paid at the rate of \$1,400 per annum—that the order ought to pass.

Report accepted; order passed.

(4) Report on order (referred to-day) for placing of seats at the Fort Avenue Playground—that the order ought to pass.

Report accepted; order passed.

COUNTY ACCOUNTS.

Coun. COLLINS, for the Committee on County Accounts, submitted a report on communication from the Chief Justice of the Municipal Court of the City of Boston (referred June 8), concerning salaries of female probation officers—recommending the passage of the following:

Ordered, That the salaries of Margaret H. Markham and Teresa C. Dowling, female assistant probation officers of the Municipal Court of the City of Boston, determined by the Chief Justice of said Court at the rate of \$1,500 per annum, to begin June 20, 1914, be and the same is hereby approved, the amounts so paid to be charged to the appropriation for County of Suffolk, Municipal Court of the City of Boston.

Report accepted; order laid over under the rule.

ADVICE ON LIGHTING CONTRACT.

Coun. KENNY offered an order—That the Executive Committee of the City Council be authorized to obtain expert advice upon the proposed electric lighting contract, at an expense not exceeding \$500, such expense to be charged to the appropriation for City Council, Incidental Expenses.

The question came on the passage of the order. Coun. KENNY—Mr. President, in the report of the Committee on Municipal and Metropolitan Affairs of the Chamber of Commerce, concerning the proposed new contracts for lighting the streets of Boston with gas and electricity, submitted under date of April 17, 1914, to this body, we find the following language:

"Whether the price proposed in the pending contract with the Edison Company, namely, \$87.53, is precisely the lowest figure which the city can

fairly hope to obtain would involve a more detailed and more technical investigation than this committee has felt qualified to make."

And further on the report says:

"It should be clearly understood that while the contract price mentioned in the preceding paragraph (\$87.53) is for a 6.6 ampere magnetite arc lamp, the pending contract with the city gives the company the right to substitute 'incandescent lamps of large candle power' for the magnetite arc lamps. We presume that this provision has in view the substitution of a newly invented nitrogen incandescent lamp, capable of producing the same candle power as the magnetite arc, but with a considerably smaller consumption of current. While \$87.53 seems to the committee to be a not unreasonable price for magnetite arc lamps, the committee is not in a position to offer an opinion as to a fair price for these nitrogen incandescent lamps in case they should be substituted, but it desires to point out the fact that under the present contract the city would get no benefit from the saving resulting from the substitution, but would continue to pay the price specified for magnetite lamps."

And quoting the estimate of Prof. D. C. Jackson of the Institute of Technology the report goes on to say:

"It seems to me that a reasonable price for 6.6 ampere magnetite arc lamp operating 3,828 hours per annum, largely on underground circuits, as in Boston, is between \$80 and \$90 per year when allowing 6 per cent interest. The figure offered by the Edison Company in its pending contract is between the above amounts. Whether it ought to come nearer the lower limit the committee cannot undertake to say."

Now, we have had several conferences on this lighting contract within a few weeks with the officials of the Edison Company, with his Honor the Mayor, and with the Corporation Counsel. Many things were said at those conferences. It has been stated, I think, by one or two members of this Council that we have been at a disadvantage in not being able to cope with the officials of the Edison Company in discussing with them intelligently what a fair price should be for the arc lighting. Now, Mr. President, that is true, but that is not to the discredit of the Council. The head of the Edison Company might come in and make any kind of a statement along technical lines. We are not trained for such a discussion involving a technical problem. The committee of the Chamber of Commerce itself, backed up with professional opinion and advice, says it involves a more detailed and technical investigation than it has felt qualified to make. Why, then, should the Council be expected to do so? The Chamber of Commerce was invited by this Council to make this investigation, and they confess, after making a most elaborate report, with the advice and assistance of professional opinion, that they are unable to determine what the price should be. Therefore, I say to the critics of the Council when they say that these Edison officials came in and "put it over" on the Council, that such criticism is not in good taste, nor is it sound or logical. Why should the Council be expected to meet and determine these prices when this able committee of the Chamber of Commerce has not been able to do so? I say, therefore, Mr. President, that we should have the right to call to our assistance some professional expert who will assist and aid the Council in determining what a fair price would be.

I want to refer again to the Chamber of Commerce report:

"In conclusion, the committee begs to reiterate its opinion that the question whether a proposed price is the lowest which the city ought to expect is a highly technical question which can be settled only after a detailed study and analysis of all local conditions. It cannot be settled by reference to tabulations of costs in other cities where the quality and conditions of service are altogether different and where the general laws make totally different demands concerning such matters as hours of labor and regulation of rates by state authorities. The committee has become fully satisfied that published tables of lighting costs are sure to be misleading unless every condition of service is set forth in detail as a qualification to the figures given."

Now, Mr. President, the Finance Commission made a report on this matter also. How far have we been assisted by the Finance Commission? We have their conclusions, in which they say:

"1. That the ten-year contract offered by the Edison Electric Illuminating Company of Boston be adopted, provided the company agrees to change the arbitration clause, so that arbitration shall be compulsory at least once in three years and so that the question of the fairness of the present or a lower price shall be determined, in addition to the question whether or not the cost of production has been reduced, and if so, how much since the date of the contract.

"2. That if the Edison Company will not agree to these changes in the arbitration clause the city insist upon a five-year term at the same price as is now offered by the company for ten years.

"3. That if the company will not accept either of these propositions, the pending contract be rejected and arbitration be demanded immediately under the provisions of the contract of 1909 which is now in force."

That is, the present existing contract. This last recommendation, Mr. President, is what I have been contending for this afternoon. Inasmuch as we ourselves are confronted with a situa-

tion where we have reports with alternative recommendations we ought not to undertake to pass on these involved questions until we have further professional advice to aid us in determining what is best for the city's interest, or let us reject this proposed contract and fall back upon the language in the present existing contract and have the price arbitrated. Now, as I understand the situation, this latter would mean this: If we asked for arbitration under the existing contract and get a reduction we practically go on to a basis of a one-year contract, that is, from year to year, until it is terminated by the act of the corporation—the Edison Company—or by the city. This would be a safe thing for the city as against a long term contract. But in any event it seems to me that before going any further in this matter we ought to halt and call in some professional advice and assistance to aid us in determining these technical matters with which we are confronted, and for that reason, Mr. President, I offer this order.

Coun. BALLANTYNE—Mr. President, I move that this order be referred to the Law Department for an opinion as to the right of the Council to appropriate money for such purposes.

Coun. KENNY—Mr. President, that is quite agreeable to me.

The question came on motion to refer the matter to the Law Department.

Coun. COUTHURST—Mr. President, I move as a further amendment that in case the Law Department decides that this order is illegal that it give us the benefit of its opinion as to how the same purpose can be accomplished in other ways, by special appropriations or otherwise.

Coun. KENNY—I accept that amendment.

Coun. COLLINS—In seconding the motion of Coun. Couthurst I cannot help but consider that this contract has been before us now for some time. No disinterested body that has looked into this question has given us very much technical light. It seems that the Chamber of Commerce in its report did say that the cost of arc lighting ought to be in Boston somewhere between \$80 and \$90. It gave that as the minimum—\$80—and \$90 as the maximum. Of course, that was far from accurate. We have had experts give their opinion to us, apparently from disinterested bodies—the Finance Commission, as well as the Chamber of Commerce—and here we are, something like two months after the contract has been before us for our consideration, and we are apparently a great distance from reaching a result. It seems to me that in fairness we ought to take up this matter promptly and decide it. The order offered may be helpful, but judging from past experience where we have been advised by experts from bodies of a disinterested nature, it does not seem as if we were going to make much progress by this move. However, I believe it is a step in the right direction, and I favor it, but I do believe, as nine men sitting here as trustees of the city's interests, after hearing all of the arguments, we ought to be in a fair position at this time to actively pass on this contract, to act either affirmatively or negatively. As for myself, my attitude is clear, and I do not think any expert appointed by this Council is going to aid me materially in reaching a conclusion as to what we ought to do with this contract. I have read the contract carefully and studied it, I have read the reports of the Chamber of Commerce and the Finance Commission, I have looked over the reports of the only tribunal in this state whose duty it is to look into such matters and pass on them—that is the Massachusetts Gas and Electric Light Commission. And I understand that during all the years that Boston has been doing business with the Electric Light Companies, namely, since 1882, that commission has never yet once been asked by the authorities of the City of Boston to establish the price. Now, Mr. President, I have also tried to get reports from other states and cities, and it is a curious state of affairs that when big public service corporations, such as lighting companies, are doing business with municipalities throughout the United States that no public body has apparently mastered the situation concerning street lighting. The excuse commonly given is that conditions vary in different communities. Now, for my part, Mr. President, I want to put myself on record here now that I am against any contract for ten years for the lighting of the streets of the City of Boston by electricity. Rapid improvements are to be made in the immediate future. You have heard of lights down on the Lynn Boulevard which it has been suggested are not of a marketable nature, but I want to say, as one member of the Council, that I am against a contract for ten years, because it is going too long a period, and against, in my opinion, a sound public municipal policy. There are other provisions of this contract, Mr. President. I recognize that this is not the time to discuss them, but in closing I want to say that no—

President McDONALD—The question comes on the motion made by Coun. Ballantyne to refer the matter to the Corporation Counsel; it is not on the adoption or rejection of the contract.

Coun. COLLINS—Mr. President, the order offered by Coun. Kenny refers to an investigation by an expert into the question of the contract before us. In talking on that order I propose to say that in discussing it naturally the question comes whether or not we should accept or reject the contract, and whether or not this order is going to help us in accepting or rejecting the contract. Inasmuch as we are discussing that

order anything pertaining to the contract is germane to the question.

President McDONALD—The Chair will rule that the only matter before the Council is the motion to have the Corporation Counsel instruct us as to the method in which we should proceed to get expert advice.

Coun. COLLINS—Mr. President, as I have already stated, expert advice—

Coun. COUTHURST—Question of information.

President McDONALD—Does the gentleman yield?

Coun. COLLINS—Certainly.

Coun. COUTHURST—Isn't the matter before us the original order presented by Coun. Kenny, as well as the two amendments, one by Mr. Ballantyne and the other by myself?

President McDONALD—The Chair will rule that Coun. Kenny and Coun. Ballantyne accepted your amendment as a part of the motion and made your amendment the original motion. It was accepted by both Coun. Kenny and Coun. Ballantyne. The question comes on the motion offered by Coun. Ballantyne.

Coun. COLLINS—Inasmuch as some members of the Council deem it advisable to call in experts for some information to help us, I am willing, as one member of the Council, to coincide with them and favor that order, but in doing so I want to say at this time that my position is as I have stated it—I am against a contract of ten years for lighting the streets by electricity. In view of the fact that this contract provides for permissive—not compulsory—arbitration, and taking into consideration the rapid changes in methods of lighting and inventions which are about to come, make the term of ten years too long and the prices under the present contract, in my opinion, too high.

Coun. COUTHURST—Mr. President, I do not want to dispute the ruling of the Chair or have any misunderstanding with him, but as I understand, there has been no amendment accepted by this body, or any motion accepted. There is an original motion pending before the house, there is an amendment to that motion, and there is an amendment to the amendment, and I take it—I may be wrong—that all those three are before the Council for consideration. So that I am entitled to talk not merely upon my amendment or upon Mr. Ballantyne's amendment, but also upon the two amendments and the original motion presented by Coun. Kenny.

President McDONALD—Do you ask the Chair for a ruling on the matter?

Coun. COUTHURST—That is my understanding.

President McDONALD—The Chair will rule that the order was introduced by Coun. Kenny, that Coun. Ballantyne made a motion to refer the matter to the Corporation Counsel for his advice, and that you made a lengthy motion which covered both those points and which was accepted by both Coun. Kenny and Coun. Ballantyne, and that is the question before the house—that this communication be referred to the Corporation Counsel for his advice and if illegal to give us his advice as to what method we should pursue in order to get the necessary expert advice. That is the motion before the Council.

Coun. COUTHURST—Mr. President, there is not much substantial disagreement, then, between us. Action must first come on my amendment and then if that is allowed action will come on Coun. Ballantyne's amendment, and if that is allowed action will come on the original motion offered by Coun. Kenny. There is not much substantial disagreement between us. I merely want to talk upon the original motion after amendment, as to the importance of getting independent, expert advice, and I want to quote from an article that appeared in the *Transcript* of April 22, 1914, entitled "Boston's Lights That Fail." "This city paying the third highest sum in the country for lighting that is not the best. In a review of the recent municipal lighting conference." And this quotation appears in the article from what occurred at that conference as follows:

"It was on the program of the administration, one is informed, even before the assertion was flatly made at the conference of the Society of Municipal Engineers in Philadelphia the other day that"

And just listen to these important words, Mr. Chairman and gentlemen—

"All of the large central power stations of the country are in combination to mislead the general public in regard to the cost of furnishing light and power service, and so discourage municipalities from entering the electric field." In New York and in Philadelphia, doubtless in all cities, electric corporations offer different prices to different consumers. Anybody threatening, for instance, to set up his own individual electric plant can get 'concessions.'"

That is the story, Mr. President. All through the large cities of the country these companies that are lighting the streets of the cities are throwing dust in the eyes of the public; it is impossible to get accurate information as to the cost of electric lighting, and no wonder that this Council is at sea as to what action it shall take upon this \$5,000,000 contract, and this order that has been put in by the councilor from South Boston may help us a little by throwing a little light upon this perplexing problem, and I hope the motion will prevail.

The motion of Coun. Ballantyne, as amended by Coun. Couthurst, to obtain the opinion of the Corporation Counsel was carried.

NEXT MEETING.

The Council voted, on motion of Coun. BALLANTYNE, that when it adjourns it be to meet on Monday, July 13, at three o'clock p. m.

ELECTRIC LIGHTING CONTRACT.

Coun. COUTHURST offered the following: Ordered, That the Edison Electric Illuminating Company, through his Honor the Mayor, be requested to submit to the City Council a basis of arbitration whereby the prices for electric lighting to be furnished by said company to the City of Boston for periods of five or ten years from April 1, 1914, may be determined. This request is submitted in view of the statements made by Mr. Edgar, president of said company, at the public hearing before the City Council of April 28, 1914, at which hearing the Council was considering a ten-year contract for such street lighting, dated April 1, 1914. Such statements of Mr. Edgar appear on pages 39 and 40 of the official record of said hearing and appear in answers to questions propounded to him as follows:

"Q. Mr. Edgar, are you willing in view of the fact that you are a monopoly dealing with the city, and therefore have more or less of an advantage, are you willing to submit to fair arbitration the price to be paid by the City of Boston for some definite period in the future, instead of fixing it between yourselves, Mr. Rourke and the Mayor? Are you willing to turn this whole question of price over to a fair arbitration tribunal at the present time? A. If you will define before I answer that question, what basis we are going to figure on. Are we going to get our same return from the city that we do from our commercial customers, or are we supposed to give the city a concession, which some of the newspapers of the city think that we should give the city, because we are doing business with the city? We do not admit that principle for a minute. If you say that we are to get the same return, all I can say is that we are getting now much less return from the city lighting than from our commercial customers, and I can prove it to anyone.

"Q. No, I put it on the basis of what is a reasonable price for the City of Boston to pay. A. How do you define reasonable price—on the basis of our costs, or what other people think it ought to be?

"Q. Based upon what other communities in the country are getting. A. We don't care anything about what the other cities of the country are getting. That does not pay our profits or our losses. Our prices must be based on our conditions. I think we can prove to you that our prices are lower than in most any city in the country. But that has nothing to do with our fixing our prices, as to what we ought to get. Take our commercial business; we are not influenced a particle by what New York charges for light. We make up our minds what we ought to get to pay our dividends, and are self contained. We have absolutely no regard to what other people are doing under other conditions.

"Q. Are you willing to supply in black and white to this Council the basis under which you are willing that the prices between the city and your company shall be arbitrated? A. Why, yes, I suppose so. I don't see any reason why I shouldn't.

"Q. Well, as one member of the Council I would respectfully ask you to submit in writing the basis on which you would be willing to submit this whole question of prices to arbitration. That is all I have to say."

Coun. WATSON moved to dispense with the reading of the order in view of the fact that it was read in the Executive Committee. The motion was carried.

The question came on the passage of the order.

Coun. COUTHURST—This is one of the orders that I submitted informally to the members of the Council in executive session, and it asks that Mr. Edgar submit to this Council a basis of arbitration whereby the prices to be furnished for electric lighting to the city may be fixed, and it is in accordance with his promise or his statement made to us at the hearing in April upon the question of approving this contract. It also is in accordance with the recommendation of the Finance Commission, and in accordance with the recommendation of the United Improvement Association of Boston, and I trust that this order will take its immediate passage and that at the next meeting of this Council, when we are considering the acceptance or rejection of this contract, we will have from Mr. Edgar a basis for a new contract whereby the prices will be fixed by an independent tribunal, a board of arbitrators, as he agreed that he was willing to do at one time, and as the Finance Commission and the United Improvement Association both recommend.

Coun. WOODS—Mr. President, I think this order ought to lay over for the next meeting. I think we are acting on one contract now and we are asking for expert advice. I move that that be laid over until the next meeting so that we can take it up then.

The question came on motion of Coun. WOODS to assign the order to the next meeting.

Coun. COUTHURST—Mr. President, I am opposed to that motion. I think that now is the time, between now and the next meeting, to hear from Mr. Edgar as to whether or not he will submit this to arbitration, and whether or not he is going back upon his word given to us at that public

hearing. We ought to have it at that next meeting of the Council and at no other time.

The motion was carried. Coun. COUTHURST doubted the vote and asked for the yeas and nays. The motion was lost.

Yeas—Coun. Ballantyne, McDonald, Watson, Woods—4.

Nays—Coun. Attridge, Coleman, Collins, Couthurst, Kenny—5.

The question came on the passage of the order. The order was declared rejected.

Coun. COUTHURST doubted the vote and asked for the yeas and nays. The order was passed.

Yeas—Coun. Attridge, Coleman, Collins, Couthurst, Kenny—5.

Nays—Coun. Ballantyne, McDonald, Watson, Woods—4.

Ordered, That his Honor the Mayor be requested to make a written demand upon the Edison Electric Illuminating Company in accordance with and for the purpose of getting the benefit of the following clause of a street lighting contract between the City of Boston and said company, dated May 5, 1909, as follows:

"Upon written demand by the Municipality the Company shall thereafter give to the Municipality the benefit of two-thirds of any general reduction in the present cost to the Company, including depreciation and interest on investment, of supplying the service called for by this agreement."

The question came on the passage of the order.

Coun. COUTHURST—Mr. President, this order can do no harm if it goes through at this meeting. It is something that ex-Mayor Fitzgerald should have asked for a half-dozen times during his administration. It is the first thing that Mayor Curley should have done when this contract was first called to his attention—merely asked this company, or made a written demand upon this company, as a preliminary, antecedent condition to arbitration, to make a written statement of the present cost of doing its business, and that will show whether, under the existing contract—the contract of 1909—we are entitled to any reductions. It will compel Mr. Edgar to put his cards right down on the table, and we ought to have that information at our next meeting.

Coun. WOODS—Mr. President, I am surprised that an order of this kind should be introduced when we have just passed an order to employ expert advice on the contract that is now before us. Now I hope this order will be defeated and then after we act on the other contract we can take this matter up. I think it is absurd that we should talk about terminating one contract that now exists before we act on the other. Let us accept the other contract, or reject it, and then act on the other. I hope this will be defeated.

Coun. COLEMAN—Mr. President, as I understand it, this order applies to the contract now in force and has no relation whatever to the contract that we are considering. I hope it will be passed.

The order was declared rejected. Coun. COUTHURST doubted the vote and asked for the yeas and nays. The order was passed:

Yeas—Attridge, Coleman, Collins, Couthurst, Kenny—5.

Nays—Ballantyne, McDonald, Watson, Woods—4.

Ordered, That his Honor the Mayor be requested to give to the Edison Electric Illuminating Company the legal notice required under the terms of the contract between the City of Boston and said Company for lighting the streets of said city, dated May 5, 1909, that is required to terminate said contract. The clause in said contract requiring said notice is as follows: "And Said Municipality Agrees to be bound by the Street Lighting Terms and Conditions of the Company, printed herewith, except as aforesaid, and to pay the prices called for in the Company's Schedule M C 5, printed herewith, until April 1, 1914, and thereafter until one year after written notice by either party to the other of its election to terminate this agreement, which notice may be given at any time after the beginning of the one-year period next preceding the expiration of the original period above fixed."

The question came on the passage of the order.

Coun. WATSON—Mr. President, I would like to ask for information. What does "M C 5" mean in that order?

Coun. COUTHURST—I don't know. I make a motion that this matter lay on the table until the next meeting. It is the notice that Mayor Fitzgerald did not give a year ago last April, and that Mr. Curley should have given as soon as he had his attention called to the contract. I would like myself to move its passage to-day, but inasmuch as some of my friends differ with me on that question I am willing to let it lay over two weeks.

The question came on motion to assign the order to the next meeting. Carried. Coun. BALLANTYNE doubted the vote and asked for the yeas and nays. The motion was carried:

Yeas—Attridge, Coleman, Collins, Couthurst, Kenny—5.

Nays—Ballantyne, McDonald, Watson, Woods—4.

GENERAL RECONSIDERATION.

Coun. BALLANTYNE moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 6.46, on motion of Coun. KENNY, to meet on Monday, July 13, at three o'clock p. m.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR PAVING BLOCKS.

The Supply Department of the City of Boston invites proposals for furnishing 50,000 New Hampshire paving blocks, more or less, to the Public Works Department, Highway Division. The bidder must use the form of proposal to be obtained at said office, and furnish a bond for one-quarter the amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. Bids, with a certified check for \$500, must be left at the office of the Superintendent of Supplies, Room 826, Tremont Building, Boston, before Friday, July 10, 1914, at 12 o'clock noon, at which time and place the proposals will be publicly opened and read. A bid in duplicate, without check, must be filed with the City Auditor prior to the time named for opening bids. The superintendent reserves the right to reject any or all proposals, or any part of a proposal, and award the contract as he deems it for the best interest of the city. Contracts made subject to appropriations to meet payments thereunder.

D. FRANK DOHERTY,
Superintendent of Supplies.

(July 4.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER AND DRAINS IN MARSH STREET, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for pipe sewer and drains in Marsh street, from Hallet Davis street about 1,000 feet westerly, Dorchester, and giving bond therefor of a surety company approved by the commissioner in the sum of five hundred (500) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposals for Sewerage Works, Marsh Street," and left at Room 62, fifth floor, City Hall, before 12 m. on Friday, July 10, 1914, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 2, 1914. (July 4.)

CITY OF BOSTON.

PROPOSALS FOR LAYING AND RELAYING WATER PIPE IN COLUMBUS AVENUE, ROXBURY AND CITY PROPER.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for laying and relaying about 7,500 linear feet of 30-inch water pipe in Columbus avenue, between New Heath and Worcester streets, Roxbury and city proper, and giving bond therefor of a surety company approved by the commissioner in the sum of seven thousand dollars (\$7,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Water Pipe, Columbus Avenue," and left at Room 62, fifth floor, City Hall, before 12 m. on Wednesday, July 15, 1914, with a certified check for one thousand dollars (\$1,000), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 2, 1914. (July 4.)

CITY OF BOSTON.

PROPOSALS FOR BITUMINOUS MACADAM ROADWAY IN DENTON TERRACE, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for bituminous macadam roadway in Denton terrace, between Washington and Kittredge streets, West Roxbury, and giving bond therefor of a surety company approved by the commissioner in the sum of twelve hundred dollars (\$1,200), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Macadam Roadway in Denton Terrace," and left at Room 62, fifth floor, City Hall, before 12 m. on Monday, July 13, 1914, with a certified check for three hundred dollars (\$300), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 2, 1914. (July 4.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER AND DRAINS IN WESTWOOD STREET, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for pipe sewer and drains in Westwood street, from Board of Survey street No. 1038 to 420 feet southwesterly, Dorchester, and giving bond therefor of a surety company approved by the commissioner in the sum of three hundred (300) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works, Westwood Street," and left at Room 62, fifth floor, City Hall, before 12 m. on Thursday, July 9, 1914, with a certified check for two hundred (200) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 2, 1914. (July 4.)

CITY OF BOSTON.

PROPOSALS FOR BITUMINOUS MACADAM ROADWAY IN ST. ROSE STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for bituminous macadam roadway in St. Rose street, from 600 feet south and west of Jamaica street to the Arborway, West Roxbury, and giving bond therefor of a surety company approved by the commissioner in the sum of twelve hundred dollars (\$1,200), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Macadam Roadway in St. Rose Street," and left at Room 62, fifth floor, City Hall, before 12 m. on Monday, July 13, 1914, with a certified check for three hundred dollars (\$300), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 2, 1914. (July 4.)

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston reinstate sealed proposals for erecting and completing general and sanitation work at the Cudworth School, Grove street, corner Paris street, East Boston, Mass., and giving bond of a surety company therefor in the sum of \$2,500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Tuesday, July 7, 1914, at said office, with a certified check for \$750, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

J. P. LOMASNEY,
CHARLES B. PERKINS,
W. F. KEARNS,

(July 4.)

Commissioners.

CITY OF BOSTON.

TO ELECTRICAL CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for furnishing and installing wiring and electrical material in Mechanic Arts High School, Belvidere street, Boston, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Friday, July 17, 1914, at said office, with a certified check for \$200, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

J. P. LOMASNEY,
CHARLES B. PERKINS,
W. F. KEARNS,

(July 4.)

Commissioners.

OPPORTUNITIES FOR BATHING.

The Park and Recreation Commissioners have provided every possible facility for the enjoyment of bathing during the present season.

The list of houses are as follows and are open from 2 p. m. until 10 p. m. daily:

Curtis Hall, Jamaica Plain (swimming pool).
Cabot Street, Roxbury (swimming pool).
Columbia Road, Dorchester.
Ward 7 Gymnasium, Tyler street.
Ward 9 Gymnasium, Harrison avenue.
Dover Street Bath, city.
D Street Baths, South Boston.
North Bennet Street Baths, city.
East Boston Baths, Paris street, East Boston.
Ward 3 Baths, corner Lexington and Bunker Hill streets, Charlestown.

The beaches of the city are opened from three hours before to three hours after high tide, with the exception of L street, from 6 a. m. until 10 p. m., and they are as follows:

L Street Beach, South Boston.
Tenean Beach, Neponset.
Freeport Street, Dorchester.
Savin Hill Beach, Dorchester.
McKenzie Beach, South Boston.
North End Park, city, Ward 6.
Dewey Beach, Charlestown.
Wood Island Beach, East Boston.

Instructors and life guards are present at all times during the bathing period.

The list of floating houses and their locations are as follows:

Jeffries Point, East Boston.
Border Street, East Boston, 2 houses, men and women.
Warren Bridge, Charlestown, 2 houses, men and women.
Charlesbank, city, West End, 2 houses, men and women.
Dover Street Bridge, city, 2 houses, men and women.
Fort Point Channel, city, near South Station, men only.

MASSACHUSETTS SEWAGE TREATMENT PLANTS.

The following report has been submitted the *Municipal Journal* relative to the sewage treatment plants in Massachusetts cities and towns:

	METHOD OF TREATMENT.	Amount of Sewage Treated, in Gallons per Day, or in Percentage of the Whole Amount Originating in the Community.
Amherst.....	Sand filters, settling basins.	
Andover.....	Sand filters, settling basins.	210,000
Attleboro.....	Sand filters.	300,000
Billerica.....	Sedimentation and sand filters.	
Brockton.....	Revolving screen, trickling filters (for part of sewage only), humus tank and sand filters.	1,752,000
Clinton.....	Sand filters, settling basins.	1,057,000
Concord.....	Sand filters.	395,000
Easthampton.....	Sedimentation and sand filters.	* 360,000
Fitchburg.....	Five Imhoff tanks, trickling filters and secondary settling tanks under construction.	
Framingham.....	Sand filters.	637,000
Franklin.....	Sedimentation and sand filters.	* 90,000
Gardner.....	Sand filters, two plants, one with settling tank.	705,000
Hopedale.....	Settling tank and sand filter.	90,000
Hudson.....	Settling tank and sand filter.	245,000
Leicester.....	Settling tank and sand filter.	
Lenox.....	Settling tank and sand filter.	
Longmeadow.....	Settling tank and sand filter, two plants.	* 80,000
Marion.....	Sand filter.	95,000

* Part only.

SALARIES OF CITY OFFICIALS.

The numbers, terms of office and salaries of the legislative and general executive officers of cities having a population of over 30,000 are given in a report on Financial Statistics of Cities, which has been issued by William J. Harris, Director of the Census, Department of Commerce. This report was prepared under the supervision of Le Grand Powers, chief statistician for finance and municipal statistics.

Statistics for 195 cities are given, divided into five groups. Cities of group 1 had a population of 500,000 and over in 1912; group 2, a population of 300,000 to 500,000; group 3, a population of 100,000 to 300,000; group 4, a population of 50,000 to 100,000; and group 5, a population of 30,000 to 50,000. The city officials included in this report are the aldermen and councilmen, commissioners, mayor, city clerk, comptroller, auditor, treasurer or chamberlain, collector of revenue, assessors, and city attorney or solicitor. The report calls attention to the lack of uniformity in nomenclature of city officers and of the duties assigned to them. Any comparison of salaries paid by the different cities, therefore, can be made only partially, the cost to the city for specific services being determinable only by ascertaining the character and extent of the services required of the officials.

The officials of cities in group 1, having a population of 500,000 and over, naturally received larger salaries than those of a less population; for example, New York paid its mayor \$15,000 a year, while Chicago paid its chief executive \$18,000 a year; Philadelphia, \$12,000; St. Louis, \$5,000; Boston, \$10,000; Cleveland, \$10,000; Baltimore, \$6,000; Pittsburgh, \$10,000; and Detroit, \$5,000. The salaries of the city clerks for cities of group 1 ranged

from \$8,000, which is paid in New York, to \$3,000, which is the salary in St. Louis. The comptroller of the city of New York received a \$15,000 salary; of Chicago, \$10,000; and of Philadelphia, \$8,000. The other cities in this group paid salaries of either \$4,000 or \$5,000 per annum to the comptroller. The auditor of the city of Boston was paid \$6,000 a year, a larger salary than was paid by any other city in this group, the salaries for other cities ranging from \$4,000 to \$5,000. The city chamberlains or treasurers of New York and Chicago each received a salary of \$12,000 a year, while the salaries of those in the seven other cities ranged from \$3,500 to \$10,000 a year. The assessors of the cities of group 1 received salaries ranging from \$7,000 in New York to \$2,700 in Pittsburgh. The city attorney of New York City received \$15,000 a year, and of Chicago and of Philadelphia, \$10,000. Baltimore paid the lowest salary of any city in this group to its city attorney—\$4,500 a year—the salaries in the other cities in this group ranging from \$5,000 to \$9,000.

The cities of group 2 include Buffalo, San Francisco, Milwaukee, Cincinnati, Los Angeles, Newark, New Orleans, Washington and Minneapolis. The mayors of Cincinnati and of New Orleans received the largest salaries for cities of this group—\$10,000 a year—while the salaries of mayors in the other cities ranged from \$4,000 in Milwaukee to \$6,000 in San Francisco. The city clerk of Newark heads the list for cities in this group, receiving a salary of \$7,500 a year, while the city clerks of the eight other cities ranged from \$2,400 in Los Angeles to \$4,100 in Cincinnati. The comptroller of Newark, N. J., received a salary of \$5,000 a year, while the comptrollers of

Minneapolis, Milwaukee and Buffalo received \$4,000 each. Four cities in group 2, namely, Buffalo, Milwaukee, Cincinnati and Minneapolis paid salaries of \$5,000 a year to their treasurers or chamberlains. Los Angeles paid a salary of \$2,400; Washington, D. C., \$3,000; San Francisco, \$4,000; and Newark, N. J., \$4,500. The auditor of Cincinnati is paid a salary of \$5,000 a year; of Buffalo, \$2,500; of San Francisco and Washington, \$1,000; of Newark, \$4,500; of Los Angeles, \$3,000; and of New Orleans, \$3,500. The assessor of San Francisco is paid \$8,000 a year, which is the highest for any city in this group. The salaries of assessors in other cities ranged from \$2,000 in Washington to \$1,200 in Minneapolis. The city attorney or solicitor of Newark receives a salary of \$9,000 a year, while Minneapolis and New Orleans pay their city solicitors \$6,000 a year. The salaries of these officials in the other cities ranged from \$4,000 in Milwaukee and Los Angeles to \$5,000 in Buffalo, San Francisco and Cincinnati.

In the 38 cities of group 3 the mayor of Seattle, Wash., received the largest salary, \$7,500 a year. The salaries of the mayors of the other cities ranged from \$2,000 in Paterson, N. J., and Grand Rapids, Mich., to \$6,000 in Denver Colo., and Memphis, Tenn. The salaries of the city clerks in cities of this group ranged from \$1,500 per year in Paterson, N. J., to \$5,000 in Jersey City. The comptrollers in these 38 cities were paid salaries ranging from \$4,200 in Seattle, Wash., to \$1,800 in Paterson, N. J. The treasurers received salaries ranging from \$4,600 in Denver, Colo., to \$800 in Bridgeport, Conn. The salaries of the assessors ranged from \$4,600 a year, which was paid in Denver, Colo., to \$3 per day in Toledo, Ohio. The auditors received salaries ranging from \$4,600 in Denver, Colo., to \$1,800 in Lowell, Mass. The salaries paid to the city attorneys of the cities in this group ranged from \$7,500 a year in Providence, R. I., to \$1,800 in Spokane, Wash.

The cities in group 4, which numbered 57, paid their mayors annual salaries ranging from \$5,000 in Mobile, Ala., to \$1,000 in Saginaw, Mich. The city clerks were paid salaries ranging from \$3,600 a year in Norfolk, Va., to \$800 in Allentown, Pa. The comptrollers in this group of cities were paid annual salaries ranging from \$4,000 in Elizabeth, N. J., to \$1,200 in Johnstown, Pa. The auditors received salaries ranging from \$3,000 in Fort Worth, Tex., to \$500 in South Bend, Ind. The city treasurers were paid salaries ranging from \$4,000 in Hoboken, N. J., to \$240 in Sacramento, Cal. The cities of Fort Worth, Tex., and Altoona, Pa., paid their treasurers \$300 a year. The assessors' salaries varied from \$4,200 a year in Duluth, Minn., to \$100 in Norfolk, Va. The city attorney or solicitor of Atlantic City drew a salary of \$6,000 a year, being the highest for any city of this class. The salaries of the city attorneys or solicitors of the other cities ranged from \$5,200 a year in Houston, Tex., to \$1,200 in Manchester, N. H., Brockton, Mass., Portland, Me., Holyoke, Mass., and Allentown, Pa.

In the cities of group 5, which numbered 82, the mayor of Superior, Wis., was paid the largest salary, \$5,000 a year. The salaries of the mayors of the other cities of this group ranged from \$4,500 in Montgomery, Ala., to \$100, which was paid in Flint, Mich. The city clerk of East Orange, N. J., was paid the largest salary for cities of this class—\$2,800 a year. The salaries of the city clerks of

the other cities ranged from \$2,500 in New Rochelle, N. Y., to \$600 (plus fees), which was paid in Superior, Wis. The comptrollers of cities of this group received annual salaries ranging from \$3,000 a year in Bay City, Mich., Newton, Mass., and Mount Vernon, N. Y., to \$500 in York, Pa. The auditors' salaries ranged from \$3,600 in Tampa, Fla., to \$400 in Rockford, Ill. The treasurers or chamberlains were paid annual salaries ranging from \$3,500 in Bay City and Jackson, Mich., to \$100 in McKeesport, Pa. The assessors were paid salaries ranging from \$2,500 in New Rochelle, N. Y., to \$400 in Chester, Pa., and Amsterdam, N. Y. The city attorneys' or solicitors' salaries ranged from \$5,000 a year in Mount Vernon, N. Y., to \$250 a year (plus fees) in Salem, Mass.

THE OPERATION OF LOCOMOTIVE CRANES.

The economy to be derived by the operation of locomotive cranes in our metropolitan cities in various industries and by contractors is a question of present interest.

According to a brief just submitted by Mr. A. C. Brown of the Brown Hoisting Machinery Company, a locomotive crane costing \$7,000 can be operated for \$10 per day, including 6 per cent interest on the investment, depreciation and all cost of wages, fuel, lubrication and repairs. In other words, wherever there is work to be done in and about a plant which could be accomplished by a locomotive crane, and which, with hand labor, costs as much as \$10 per day to accomplish, a locomotive crane is a good 6 per cent investment.

It is not a difficult matter for the manager of a coal yard, blast furnace, or lumber mill, and many other concerns handling materials in bulk, to figure fairly closely the possible savings to be made by a crane. Take, for instance, a company handling 800 tons of bulk materials per day at 10 cents per ton, or \$80 per day. A locomotive crane could handle this tonnage in a ten-hour day for \$10, or at the rate of $1\frac{1}{4}$ cents per ton — a saving of \$70 per day. Such a concern obviously could not afford to defer the installation of a crane. A lumber mill handling an output of 100,000 feet of lumber per day at 50 cents per thousand could handle the same output with a locomotive crane at 10 cents per thousand, a saving of \$40 per day.

The nearer the crane can be operated to its maximum capacity, the larger the saving, but a crane does not have to be kept busy all the time to make its installation worth while. Given \$10 worth of work or more to do per ten-hour day, and the price of a crane is well invested. A crane can effect so many economies that are difficult to calculate in advance that for the manager of a manufacturing plant, for instance, the saving to be accomplished with a crane is more difficult to determine than when bulk materials alone are to be considered. At such a plant the crane may unload coal for the power plant, dispose of the ashes, handle material to and from various departments, unload raw material, load finished product for shipment, and do all switching of cars. In many of these items and in the various other odd jobs that the crane should perform the saving in cost would be difficult to estimate in advance.

The saving in car demurrage alone enters in as a very material factor and is deserving of careful analysis. And now with the car-spotting charges of the railroads going into effect, an industry receiving carload shipments saves an additional

\$2 every time the locomotive crane switches a car. It is a safe rule, however, that if \$10 worth of work per day is assured the crane is a paying investment and its idle time will be, in a large measure, employed with work that had not been calculated upon in advance. Furthermore, the installation of a crane is frequently desirable and almost necessary because of scarcity of labor, even though an actual saving in handling costs cannot be assured. In times of great business activity, a locomotive crane is excellent insurance against losses which would be occasioned by scarcity of labor or actual labor troubles.

LIMITING WEIGHTS OF VEHICLES.

In an address before a motor truck club last month Dr. L. I. Hewes, chief of the Bureau of Economics in the United States office of Public Roads, stated that about \$1,700,000,000 had been spent on roads in this country during the last ten years, \$160,000,000 through state aid alone in building some 25,000 miles of roads. He also stated that the motor vehicle license fees collected in the United States last year amounted to more than \$6,000,000, and that those collected in Massachusetts almost met the entire cost of state highway maintenance.

With so much of the wealth of the country going into road and street paving, there certainly should be a determined and systematic effort to prevent unnecessarily rapid deterioration or destruction; and among the conditions to be controlled are the weight and speed of heavy motor vehicles. Doctor Hewes stated that there was very general unanimity of opinion among authorities in England and the European continent and also in America that the maximum weight per axle should be 8,000 pounds, the maximum weight per inch of tire width 800 pounds and the maximum speed of heavy trucks about fifteen miles an hour. These limitations are now embodied in a law in the state of Massachusetts, and are being enforced as a regulation in one or more other states. — *Municipal Journal*.

CITY DOCUMENTS.

The following city documents of the current year are now ready and can be had from the office of the City Messenger, Room 24, City Hall, until the edition is exhausted:

Doc. No.

1. Inaugural address of Mayor Curley.
3. Annual report of the Assessing Department.
4. Annual report of the City Auditor.
5. Annual report of the Board of Appeal.
7. Annual report of the Cemetery Department.
8. Annual report of the Children's Institutions Department.
9. Annual report of the City Clerk.
11. Annual report of the Consumptives' Hospital Department.
12. Annual report of the Election Department.
18. Annual report of the Law Department.
20. Annual report of the Market Department.
29. Annual report of the Sinking Funds Department.
30. Annual report of the Soldiers' Relief Department.
33. Annual report of the Supply Department.
34. Annual report of the Treasury Department.

Doc. No.

39. Message from the Mayor transmitting the estimates from the heads of departments for the current year.
40. Ordinances of the City Council up to February 1, 1914.
41. Report of the Committee on Rules.
42. Report of the City Auditor for February 1.
43. Ordinance concerning the building limits.
44. Report of the City Treasurer for the month of February.
45. First location of the Carnegie Steel Company.
46. Report of the City Auditor for the month of February.
47. Report of the City Collector for the month of February.
48. Four hundred and thirty-fourth location of the West End Street Railway Company.
49. Freight track location granted to Fred L. Hewitt.
50. Jury List for 1914.
51. Four hundred and thirty-fifth location of the West End Street Railway Company.
52. Auditor's Quarterly Statement of Contingent Expenses.
53. Report of the City Auditor for the month of March.
54. Report of the City Treasurer for the month of March.
55. List of Constables.
56. Report of the City Collector for the month of March.
57. List of officials paid by fees.
58. Report of the Committee on Appropriations.
59. Ordinance concerning the sales of land.
60. Ordinance relative to the Park and Recreation Department.
61. Ordinance concerning the building limits.
62. Report of the City Treasurer for the month of April.
63. Report of the City Auditor for the month of April.
64. Report of the City Collector for the month of April.
66. Report of the City Treasurer for the month of May.
67. Four hundred and thirty-sixth location of the West End Street Railway Company.
68. Four hundred and thirty-seventh location of the West End Street Railway Company.
69. Report of the City Auditor for the month of May.
71. Report of the City Collector for the month of May.
72. Four hundred and thirty-eighth location of the West End Street Railway Company.
73. Ordinance concerning the Printing Department.
74. Contracts with the Boston Consolidated Gas Company.

NEW QUARANTINE LAW.

The attention of the maritime interests of Boston is called to the new interstate quarantine law just promulgated, providing that no polluted water shall be used for drinking or cooking purposes aboard any vessel in traveling from one United States port to another. The new law declares that ships must not furnish water taken from any harbor, or from any other place, which may anywhere contain sewer discharges. The maximum penalty for disregarding the law is \$500 fine, or imprisonment for one year, or both, at the discretion of the court.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, JULY 11, 1914.

No. 28

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By Subscription \$1.00 Per Year.
Single Copies 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 37, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, 100 Summer street, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, July 13, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

SALE OF BUILDINGS.

John C. Kiley will sell, by order of the Schoolhouse Commissioners, at public auction, Tuesday, July 14, upon the premises, a part of the buildings numbered 39, 40, 41 and 42 Blossom street, West End, the same to be removed, and consisting of wooden and brick ells in the rear of said buildings.

SALE OF LAND.

Edward W. Foye, municipal auctioneer, will sell a parcel of land upon the premises, situated on Cambridge street, corner Mansfield street, Allston district, and containing 13,948 square feet, more or less, upon Friday, July 17, at 3 p. m.

CIVIL SERVICE EXAMINATIONS POSTPONED.

Particular attention is called to the following notice of the United States Civil Service Commission, postponing examinations for clerks and carriers in the Post Office Department:

Examinations usually held for clerk and carrier for the following named post-offices in November will not be held this year but will be postponed to October, 1915. Applications may be obtained on and after August 1, 1915. Should there be any occasion for holding an examination for any of these offices in the meantime, public announcement will be made thereof.

Bangor, Me.; Boston, Mass.; Bridgeport, Conn.; Brockton, Mass.; Burlington, Vt.; Concord, N. H.; Danbury, Conn.; Fall River, Mass.; Gloucester, Mass.; Hartford, Conn.; Haverhill, Mass.; Lawrence, Mass.; Lowell, Mass.; Lynn, Mass.; Manchester, N. H.; Meriden, Conn.; New Bedford, Mass.; New Britain, Conn.; New Haven, Conn.; Pawtucket, R. I.; Portland, Me.; Providence, R. I.; Salem, Mass.; Springfield, Mass.; Waterbury, Conn.; Worcester, Mass.

BIDS FOR NAVAL SUPPLIES.

The present activity in Army and Navy circles has resulted in the opening of bids for many supplies. The attention of Boston merchants is particularly called to these bids. The Navy Department invites proposals for furnishing the following supplies:

Bids will be received until July 14 for fireroom hoist engines, schedule 6881, and lathe, schedule 6880.

Bids are invited until July 14, for furnishing the following supplies: Schedule 6947, air ports, hinged and fixed bulk-head lights, deck lights, rubber gloves, rigging leather, oak-tanned pump leather, deck-light lenses, white-ash oars, bronze wire cloth, beeswax; schedule 6974, Valde-Travers asphalt, diving apparatus and dresses, canton flannel, heavy rigging leather, muslin, ship's ranges; schedule 6953, whisk brooms; schedule 6978, chinaware, silver-plated ware; schedule 6946, lamp cord, steel floor plates, seamless brass pipes, galvanized pipe; schedule 6954, mattress covers; schedule 6966, steam gauges; schedule 6973, cotton hose, garden hose, suction hose; schedule 6975, steam hose, loofah sponges, sheet brass, soft sheet copper; schedule 6972, lavatories, pipe fittings, flanged unions; schedule 6942, grinding machine, milling machines; schedule 6943, lubricating-oil testing outfit; schedule 6950, rubber packing rings, steel springs, ball thrust bearings; schedule 6965, chemical, mechanical, water, and mercurial thermometers; schedule 6944, chain bolts, bronze wire cloth, butt hinges, screen-door catches, night latches, coil door springs, thermostatic valves; schedule 6946, pipe vise, monkey and stillson wrenches, hinges, screw eyes, bolts, nuts, steel floor plates, brass pipe; schedule 6949, white ash, lignum-vitæ

logs, white maple, oak butts; schedule 6952, rolled naval brass, flat sheet copper; schedule 6970, steel angle bar, nickel steel bar, black sheet steel, galvanized sheet steel; schedule 6951, steel boiler plate, steel bolt material, steel forging material and billets, medium steel, seamless steel tubing; schedule 6971, blanc fixe, asphaltum varnish, damar varnish, mixing varnish, whitening.

Bids will be received until July 21 for the following: Schedule 6964, bath brick, oxalic acid; schedule 6957, squirt cans, padlocks, pipe wrenches, screw wrenches; schedule 6956, iron or steel cement, litharge, muriatic acid, sulphuric acid, alcohol, beeswax, calcium carbide, paint drier, petrolatum, paint and varnish remover, gum shellac; schedule 6961, charcoal, coal for rivet forges, window glass, rubber air hose, suction hose, wash-deck hose, pump leather, rigging leather, ash oars, fishing seines; schedule 6979, furnishing and applying bituminous compositions; schedule 6960, gravel and sand for concrete; schedule 6958, white ash, iron bark, Port Orford cedar, Douglas fir, white hickory, laurel, white oak, redwood, shingles, fir shiplap; schedule 6962, silver anodes, round naval brass, sheet brass, sheet copper, monel metal; schedule 6963, antimony; schedule 6959, medium bronze, sheet lead, medium steel, sheet zinc.

Bids are invited until July 28 for the following supplies: Schedule 6980, garbage incinerator; schedule 6969, forming machine, horizontal single-feed pumps, hydraulic pumps; schedule 6967, wire rope, drop-forged steel sockets, special mixing varnish; schedule 6968, universal saw.

Boston firms desiring to bid should make immediate application to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., and give the schedule number of all bids for information desired, as printed above.

CHICAGO RAILWAY COMMISSION HERE.

The members of the Chicago Railway Terminal Commission reached Boston last evening from Montreal. The commission are here to make a study of the railway terminal and harbor terminal facilities of the city, and also to consider general transportation arrangements as provided in Boston.

The commission embraces John F. Wallace, engineer, chairman; Bion J. Arnold, engineer; E. H. Bennett, engineer; L. E. McGann, Commissioner of Public Works; Hon. Walter L. Fisher, attorney and late Secretary of the Interior; Hon. John W. Beckwith, assistant corporation counsel; Hon. Ellis Geiger, alderman, chairman of railway terminals committee and member of finance and local transportation committee.

The following officials of the city of Chicago accompany the commission: Hon. J. A. Richert, chairman of the finance committee and member of railway terminals and local transportation committee; Hon. Eugene Block, chairman of local transportation committee and member of finance and railway terminals committee; Hon. William J. Healy, chairman of streets and alleys committee and member of railway terminals and local transportation committee; Hon. Harry E. Littler, chairman of harbors, wharves and bridges committee and member of railway terminals committee.

The visitors will remain in Boston over Sunday.

THE RESPONSE OF THE BOSTON FIRE DEPARTMENT TO SALEM'S APPEAL.

Commissioner John Grady, of the Boston Fire Department, has with much courtesy prepared an entertaining report for the *City Record* relative to the response of the Boston Fire Department at the Salem fire, June 25, 1914.

In harmony with the best traditions of the Boston Fire Department, the report of Commissioner Grady proves that our splendid force did its full duty at Salem, and performed during hours of great hardship and danger a magnificent work.

Commissioner Grady's report follows:

At 2.25 p. m., a call for assistance was received by Chief of Department P. F. McDonough from the chief operator of the Salem telephone exchange to send two engine companies and a ladder company to Salem, Mass., as they had a very bad fire in that city.

At 2.27 p. m. the train dispatcher of the Boston & Maine Railroad was notified to make up a train to transport two engines and hose wagons with men to Salem, and that the apparatus would proceed to the loading station in freight yard No. 20 immediately.

Simultaneously with the above order, Engine Companies Nos. 6 and 27 were ordered to respond to yard No. 20, and Ladder Company No. 21 (motor truck) was ordered to respond over the road to the fire in Salem, and to report to the officer in charge.

The engines and hose wagons were loaded on flat cars with their companies in thirty-five minutes, and arrived in Salem at 3.45 p. m. In the meantime the Salem officials were notified to arrange for a pilot and horses to meet the apparatus on their arrival, for the purpose of transporting the apparatus to the points desired by the commanding officer at the fire.

At 4.40 p. m., a second call for assistance was received by Chief McDonough from Mr. Dolan, wire chief, and some few minutes later the chief of the Salem Fire Department made a request for more help. A second assignment was made up, consisting of Engine Companies Nos. 8, 26 and 39. The railroad officials were notified to make up a train to convey the apparatus. The companies were ordered to respond to the shipping point in yard No. 20, where the apparatus was loaded very quickly, arriving in Salem about 6 p. m.

There was no delay in the unloading of either assignment as each piece of apparatus was unloaded by their respective companies. As in the first instance, the Salem officials were notified when the apparatus left Boston.

Fire Commissioner Grady responded to the fire and not finding any of the Salem officials present to direct the operations of the reinforcements, he assumed command and directed the work of the companies of the Boston Fire Department from 6 p. m. until their services were no longer required and companies made up at 7 a. m., June 26, 1914.

The Boston assignment was then made up, entrained, and reported for duty at their respective stations at 8.45 a. m., in Boston.

The first assignment, Engines Nos. 6 and 27, and Ladder No. 21, were on duty at fire fourteen hours; absent from quarters, seventeen hours and fifteen minutes. The second assignment, Engines Nos. 8, 26 and 39, were on duty twelve hours; absent from quarters, fifteen hours and forty-three minutes.

The entraining of apparatus was conducted under the supervision of the Chief of Department, P. F. McDonough. The horses of each piece of apparatus responding were turned over to the care of the veterinary surgeon of the department at the Boston & Maine Railroad yard No. 20, until required to convey their apparatus from the freight yard to their quarters.

The first position taken by Engine Companies Nos. 6 and 27 was east of the railroad tracks. The wagon guns were put in operation to wet down roofs and try and check the advance of the fire. This position was held for thirty minutes, when both companies were compelled to shift to the corner of Holly and LaFayette streets. This position was held for ten minutes when the water gave out; the compound gauges showed a vacuum of 8 inches and not enough water to throw a stream 25 feet in height. The sweep of flame was so rapid at this position that the companies were forced to abandon it, losing some hose, members and apparatus escaping through LaFayette street, with the fire on both sides.

A position was then taken opposite the French Catholic Church on LaFayette street. The water pressure here was fairly good. The fire gained in force and sped rapidly towards the canal and it was considered best to operate single lines both sides of the street. Held this position thirty minutes when the fire crossed LaFayette street 500 feet in our rear, driving companies located there from their positions. In abandoning this position a woman, paralyzed with fear and unable to help herself to safety, was placed in the tender of Engine No. 6 by members and carried out of the danger zone and was then cared for by citizens.

The next position was taken about 1,000 feet north on LaFayette street, where both companies were reinforced by Engine Company No. 39. This position was held for thirty minutes when all three companies were compelled to abandon this location because of rapid spread of fire, and take position on LaFayette street, north of canal.

This was the final stand made by Engine Companies Nos. 6, 27 and 39 in this section of the fire. The wagon guns of Engines Nos. 27 and 39 were brought into action at this point and the position held.

Two hose streams were taken from Engine No. 6 and were run to the rear of a coal pocket in the vicinity and killed fire along Derby street and streets adjoining. Some few streams from other departments located in the rear of Engine Companies Nos. 6, 27 and 39 helped to make their position tenable. Engine Companies Nos. 6, 27 and 39 worked all the way from the City Orphan Asylum, LaFayette street, to Fairfield's Wharf and Derby street, fighting the hottest kind of fire the entire route. Several rescues were made of bewildered persons, mostly women, and as time was precious, no names were taken.

At 10 p. m., Engine Company No. 6 was ordered to North Salem for a separate fire; about ten minutes were consumed in reaching the same. Connected to Lowry hydrant at corner of Mason and Buffum streets and operated on this fire until 3 a. m., using two fire streams; operated ladder and worked inside of building under direction of Commissioner Grady. There was considerable difficulty in working at this fire owing to broken trolley wires, which charged the aerial ladder from which this company worked, several members receiving slight shocks, but not sufficient to render them unfit for duty. After this fire was out,

Engine Company No. 6 returned to the first fire and worked in conjunction with Engine Companies Nos. 27 and 39 in the extinguishment of fire along the canal and street adjoining, working east until the fire was controlled.

Engine Companies Nos. 8 and 26 were assigned to position on the south side of the fire by orders from Commissioner Grady. Engine No. 8 was hauled by hand to the junction of Summer street, Jefferson avenue and Margin street; engine connected to Lowry hydrant and maintained that position. The fire was sweeping down and across Summer street, and there was an almost complete circle of fire.

Two lines were run up Summer street, one stream on each side of the street. One of these streams practically maintained this position throughout. The other was taken to the right of Summer street and played upon all buildings within reach. In this work Engine Company No. 1 of Malden assisted on Margin street. The fire was cut off in line with the position first taken, no building not actually on fire when the company arrived being lost, with the exception of a low wooden garage.

Fire Commissioner Grady came upon the scene shortly after arrival and directed the work of the force present for some time.

When one line seemed insufficient to hold the fire at that point the second line was taken down Summer street to Jefferson avenue, where a large factory (wood) was on fire. After wetting down several piles of lumber that was threatening the freight sheds, this line was used upon the factory. The line was used about different points of vantage, and taken to roof of an extension, and finally to the third floor.

The third story was entirely destroyed, but this company succeeded in controlling the fire so that practically two stories remained intact. The building was turned over to the owners, who were notified to get all the help possible to overhaul the material therein. The line was then taken down the railroad tracks to Margin street, to complete the circle with the first line.

The result is that the entire group of buildings between Jefferson avenue, Summer and Margin streets was saved.

Engine Company No. 26 was provided with horses by the Salem Fire Department and proceeded to the south side of the fire, as per order of Commissioner Grady. On arriving at destination the engine was coupled up to a hydrant at the corner of Willow avenue and Summit street, and run both lines of 2½-inch and 3-inch hose. Water was passed at the corner of La Fayette and Holly streets for about two hours, and company advanced towards La Fayette and Leach streets, when Truck Company No. 21 came to our assistance. The heat was so intense here that in order to hold our position doors were taken from houses in the rear to deflect heat and shelter the men in their progress along Leach street. About this time the water pressure was very low; it registered less than 5 pounds on the hydrant, and the fire streams would not reach over 25 feet. Finally had to retreat, as the water gave out, and the fire gained. The companies, Engine No. 26 and Ladder No. 21, picked up their lines, shifted engine to another hydrant, pieced both lines out to 1,200 feet, and worked with fair streams, around on buildings on the line of fire, until the water gave out altogether, about midnight.

Shortly after the loss of water by this company, the resource of the company commander showed itself, when fire broke

out on several of the roofs of buildings nearby. The men raised ladders and used chemicals and wet rags, blankets, etc., to accomplish their object, namely—to prevent fire entering through window openings by covering same with this material, and by using all available chemicals in the vicinity, and when the tanks were emptied, dispatched truck or wagon equipped with same, to fill and return, and in this way the efforts of the department were successful.

To sum the matter up in a few words, the extension of fire was prevented by chemicals, wet blankets and good luck at this point. Several changes were made to try and get water, but with no success. The men were kept busy until daylight, using every means to extinguish fire.

Truck No. 21, with company (motor apparatus), proceeded over the road, arriving in Salem at 3.15 p. m., or thirty minutes in reaching the scene of fire. This truck is equipped with two chemical tanks of 35 gallons capacity each, and company performed splendid service in skirmish duty. They were located on the south side of the fire and rendered efficient service in the handling of fire streams of companies of other departments, previous to the arrival of the Boston Department, when they worked in conjunction with Engine Company No. 26 on the south side of the fire.

Equipment.

The apparatus responding consisted of one motor ladder truck and three first and two second size engines with hose wagons, each wagon equipped with deck guns and deluge sets and 1,200 feet of 2½ and 3 inch hose, a total of 6,000 feet of heavy service hose.

Personnel.

Sixty-seven officers and men, including Supervisor of Engines Byington, under the command of Fire Commissioner John Grady.

Comment.

The conditions under which the various companies were compelled to work were attended with hardship and danger and fully taxed the resources of both officers and men to keep their apparatus in effective operation on the fire.

The necessities required for this purpose were sadly lacking, namely, fuel, inadequate water supply and means of conveying the apparatus to important locations.

The motor apparatus proved its superiority in so far as mobility and radius of action were concerned, as it takes time to place the horse-drawn apparatus on the train, and the time consumed to reach its destination, wherein a motor-driven apparatus in less time would be in action at a fire.

As in this case, viz.: Truck No. 21, at fire in thirty minutes from the time of first call; horse-drawn apparatus, time of loading on the cars, thirty-five minutes. It simply demonstrates that a first-class motor equipment with an efficient crew would be invaluable in any locality.

The officers and men in attendance at the fire deserve considerable credit for the manner in which they worked; especial credit should be given to the engineers for maintaining the efficiency of the steam end under adverse conditions. In order to do this everything burnable was used, including soft coal and hard coal, rail fences and inflammable rubbish. Were it not for the assistance of interested citizens this would have been impossible. As expected, the traditions of the Boston Fire Department were fully lived up to—every man did his duty.

FIRE DEPARTMENT SERVICE.

By reason of the facts set forth in the following communication from Fire Commissioner Grady, the Mayor has approved a contract in an amount estimated to be about \$2,900, for the laying of ducts and building of manholes in Massachusetts avenue. In the letter Commissioner Grady declares:

BOSTON, July 6, 1914.

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—Permission is hereby requested to contract, without advertising, for the laying of ducts and the building of manholes in Massachusetts avenue. The reason for desiring to make this contract, without advertising, is as follows:

In about one week the Public Works Department is to begin paving Massachusetts avenue, and if this department is obliged to advertise, considerable time will be lost, and the paving work will be going forward. When this department was first notified that this work must be done we were informed that the New England Telephone Company intended laying ducts, and then all we would have to do would be to install our cable, as we would have had the use of a duct in the telephone company's conduit. Later, notice was received that the telephone company had decided not to lay any ducts and it became necessary for this department to plan some way of earing for our wires on Massachusetts avenue. After investigating several routes, the department decided to install conduits in conjunction with the Police Department. The estimated cost of the work will be about \$2,900, of which amount the Police Department will pay half.

Plans are being prepared and we would be able to proceed with the work in a few days. We can invite six or eight contractors to submit bids for the work.

Yours very respectfully,

JOHN GRADY,
Fire Commissioner.

ASSESSMENT OF LAND DAMAGES.

The Mayor has formally approved the order of the Board of Street Commissioners, assessing damages in the amounts named, by the making of the public improvement consisting of the widening, relocation and construction of Washington street, Dorchester, as a highway, from Armandine street to Mora street, under the order of the Board:

	Amount.
Annie Ginn, 4 square feet.....	Nothing
Mary C. Decker, 168 square feet.....	\$97 04
George Rowbotham, Frank W. Carter, 366 square feet.....	102 48
John H. Merriam, 541 square feet.....	162 30
Jonathan L. Parker, 1,763 square feet....	528 00
Harry P. Nawn, 832 square feet.....	Nothing
Harry P. Nawn, 140 square feet.....	Nothing
Robert F. Crosbie Heirs, 270 square feet, West End Street Railway Company, 153 square feet.....	75 60
	42 00
Total.....	\$1,008 32

Ordered, That this Board determines that no person receives benefit or advantage to his estate from the improvement above described beyond the general advantage to all real estate in said city.

TEMPORARY LOAN.

City Treasurer Slattery has borrowed an additional \$1,000,000 in anticipation of taxes, making \$5,500,000 temporary money borrowed thus far this year. Present loan was negotiated at 3 per cent interest.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

BOSTON TRANSIT COMMISSION.

Advertises for proposals for furnishing materials for and laying about 4,000 square yards of concrete platform finish in the Massachusetts and Copley stations of the Boylston Street Subway and about 600 yards of granolithic sidewalk at points on the surface and adjacent to these stations. Specifications and forms of contract may be obtained at the office of the commission, 15 Beacon street, Boston. Bids to be filed at the same office.

Bids close Thursday, July 16, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertises for proposals for bituminous macadam roadway in St. Rose street, from 600 feet south and west of Jamaica street to the Arborway, West Roxbury. Surety bond will be required in the amount of \$1,200. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$300, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 13, at 12 m.

Advertises for proposals for bituminous macadam roadway in Denton terrace, West Roxbury. Surety bond will be required in the amount of \$1,200. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$300, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 13, at 12 m.

Advertises for proposals for furnishing and laying a 2-inch bituminous top surface in Appleton street, between Berkeley and West Canton streets, city proper. Surety bond will be required in the amount of \$4,000. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 17, at 12 m.

Advertises for proposals for furnishing and laying a 2-inch bituminous top surface in Chandler street, between Berkeley and Dartmouth streets, city proper. Surety bond will be required in the amount of \$3,000. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 17, at 12 m.

Advertises for proposals for furnishing and laying an asphalt or bitulithic pavement in Clarendon street, between Columbus avenue and Tremont street, city proper. Surety bond will be required in the amount of \$5,000. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at Room 62, City Hall. Dupli-

cate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 17, at 12 m.

Advertises for proposals for granite block paving and regulating Shirley street, from Norfolk avenue, about 500 feet northerly, Roxbury. Surety bond will be required in the amount of \$400. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$300, to be filed at Room 62, fifth floor, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 21, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for sewerage works in Manthorne road and private land, between Centre street and upper end of Bussey brook, West Roxbury. Surety bond will be required in the amount of \$3,000. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, July 15, at 12 m.

Advertises for proposals for pipe sewer and drains in Oakland street, from Richmond road to Regent road; Oakland street between Regent road and Harvard street; and Richmond road between Randolph road and Oakland street, and outlet in private land between Richmond road and Bismarck street, Dorchester. Surety bond will be required in the amount of \$7,000. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$2,000, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 20, at 12 m.

PUBLIC WORKS DEPARTMENT (Water Service).

Advertises for proposals for laying and relaying about 7,500 linear feet of 30-inch water pipe in Columbus avenue, between New Heath and Worcester streets, Roxbury and city proper. Surety bond will be required in the amount of \$7,000. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$1,000, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, July 15, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for furnishing and installing wiring and electrical material in Mechanic Arts High School, Belvidere street, Boston. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 17, at 12 m.

Advertises for proposals for additional class rooms in the Dorchester High School, Talbot avenue and Washington street, Dorchester. Surety bond will be required in the amount of \$750. Blank

forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 17, at 12 m.

Advertises for proposals for additional class rooms in the Lewis School, Paulding street and Walnut avenue, Roxbury. Surety bond will be required in the amount of \$300. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 17, at 12 m.

Advertises for proposals for general work in the Austin School, Paris street, East Boston. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 21, at 12 m.

Advertises for proposals for furnishing and delivering furniture of various kinds in the schoolhouses throughout the city for a period of one year beginning July 1, 1914. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 21, at 12 m.

Advertises for proposals for furnishing, delivering and setting up, opera chairs, in the halls of schoolhouses throughout the city, for a period of one year from July 1, 1914, and of the kind and quality now upon exhibition at the offices of the Schoolhouse Commissioners, 120 Boylston street. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of the Schoolhouse Department. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 21, at 12 m.

Advertises for proposals for furnishing, delivering and setting up pupils' schoolhouse furniture, in miscellaneous schoolhouses, throughout the city, for a period of one year from July 1, 1914. Surety bond will be required in the amount of \$5,000. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 21, at 12 m.

Advertises for proposals for general and sanitation work at the Winthrop School, Winthrop street, Roxbury. Surety bond will be required in the amount of \$750. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the

amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 21, at 12 m.

Advertises for proposals for repairing and retubing horizontal return tubular boilers for various schoolhouses throughout the city. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 21, at 12 m.

Advertises for proposals for cabinet laboratory fittings and other work at the Mechanic Arts High School, Belvidere and Dalton streets, Boston. Surety bond will be required in the amount of \$700. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$150, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, July 21, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, July 9, 1914:

BOSTON TRANSIT COMMISSION.

The commission has organized for the extended term, as provided by an act of the Legislature, by the choice of George F. Swain as chairman and B. Leighton Beal as secretary.

CEMETERY DEPARTMENT.

The temporary employment of Kathryn C. Kelleher, stenographer of the department, has been continued for a term of sixty days, at the present salary of \$12 the week.

CHILDREN'S INSTITUTIONS DEPARTMENT.

Edward J. McKay has been appointed as supervisor of the Suffolk School for Boys, at a salary of \$480 the year, to fill a vacancy caused by the resignation of Charles E. Perkins.

Margaret T. Walsh has been appointed to the position of clerk in the Placing-Out and Office Division, at a salary of \$7.50 the week. Miss Walsh will replace Violet M. McIntyre, who has resigned from the department.

Exila LaJoie has been appointed a laundress at the Parental School, at a salary of \$240 the year, to fill a vacancy caused by the resignation of Alice Bearse.

James E. O'Lally has been appointed to the position of temporary supervisor at the Suffolk School for Boys, at a salary of \$480 the year, to fill a vacancy caused by the illness of Joseph M. Milford.

Lilly Bennett has been appointed to the position of cook and housekeeper of the Suffolk School for Boys, at a salary of \$25 the month, to fill a vacancy caused by the resignation of Carrie L. Stroker.

FINANCE COMMISSION.

Charles G. Snyder has been appointed temporary office boy in the department, to take the place of Edward F. Hines, Jr., during the vacation of the latter. This appointment is to take effect July 6, 1914, and the salary is \$5 the week.

FIRE DEPARTMENT.

The following transfers are announced by Fire Commissioner Grady: Captain Victor H. Richer, from Ladder 24 to Engine 43; Engineer Eugene H. Alexander, from Engine 38-39 to Engine 11; Hoseman Dennis Walsh, from Engine 11 to Engine 10; Hoseman William R. Boyd, from Engine 10 to Engine 38-39; Hoseman George E. Darragh, from Engine 6 to Engine 32; Hoseman George Hamilton, from Chemical 11 to Ladder 4; Hoseman David L. Brooks, from Engine 14 to Ladder 28; Hoseman John J. Donohue, from Engine 14 to Engine 7; Hoseman John J. Whalen, from Engine 7 to Engine 14; Ladderman Dennis J. Courtney, from Ladder 28 to Engine 14; Ladderman John McKenna, from Ladder 4 to Chemical 11.

George H. Morris, Thomas J. Mulhern, John R. Keefe, Egbert R. Murphy, Michael J. Foley have been appointed as permanent men, to take effect July 9, 1914. Their salaries will be increased from \$720 to \$900 the year. These men are now serving in this department on probation, and their probationary terms will expire on the above date.

William K. Griffin has been employed as an assistant operator in the Fire Alarm Branch of the department, at a salary of \$2.50 the day, seven days the week.

Daniel J. Collins, operator in the Fire Alarm Branch of this department, has been promoted as principal operator. His salary will be increased from \$1,400 to \$1,600 the year. This vacancy was caused by the retirement of principal operator John Flavell. Mr. Collins is the senior, by five years, of the second operators and is qualified in every way to have charge of a watch and has been depended on to do this for some time.

Edward H. Harrington has been reinstated in the department. Mr. Harrington resigned from this department June 1, 1914, to join the Boston Police Department. His salary will be at the rate of \$1,200 the year, which was the salary he was receiving at the time he resigned from the department.

Assistant operator John H. Finnan has been promoted as operator in the Fire Alarm Branch of the department. His salary will be increased from \$1,200 to \$1,400 the year.

With the promotion of Daniel J. Collins to be a principal operator a vacancy will be caused, and Mr. Finnan is the senior of the assistant operators in service and is fully qualified for the position.

John H. Finnan joined the department November 14, 1902, as a chief's driver. He was detailed to the Fire Alarm Branch October 27, 1910, to act as an assistant operator. On January 5, 1914, he was provisionally appointed as an assistant operator.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the week ending July 2:

To Fill Vacancies.

Permanent.—Lena Svceder, laundress, \$16 per month; Francis L. Norman, night telephone operator, \$7 per week; Jennie McGrath, ward helper, \$5 per week; Josephine Daly, ward attendant, re-employed, \$5 per week; Apina Hickey, ward maid, \$16 per month; Annie Daley, ward assistant, re-employed, \$5 per week; Dr. Edgar M. Medlar, second assistant in pathology, \$41.66 per month; Agnes J. Hogan, chambermaid, \$15 per month; Catherine Sullivan, scrubber, \$5 per week; John J. Egan, house porter, \$25 per month;

James Bennett, orderly, \$25 per month; George J. Walker, orderly, \$25 per month; John J. Coveney, orderly, re-employed, \$35 per month.

Temporary.—Angus A. McDougall, ward porter, \$30 per month; Willard J. Harnold, cook's assistant, \$34 per month; Herbert G. Sumner, carpenter, \$2.75 per day; Mary F. Bowen, assistant housekeeper, \$30 per month; Margaret Degnan, kitchenwoman, \$15 per month.

The following employees have had increase of wages:

Dr. Frank A. McJunkin, second assistant in pathology at \$41.66 to first assistant in pathology at \$83.33 per month; Mary Lorden, laundress, \$20 to \$22 per month; John A. McAdam, orderly, \$25 to \$30 per month; Fred E. Ranagan, orderly, \$25 to \$30 per month; Charles V. Chase, orderly, \$25 to \$30 per month; Emile Renard, nurse, no pay to \$5 per month; Sabina J. Delaney, nurse, \$5 to \$8.33 per month; Rose M. Dolan, nurse, \$5 to \$8.33 per month; Ethel B. McKevitt, nurse, \$5 to \$8.33 per month; Ruth E. Reilly, nurse, \$5 to \$8.33 per month; Rosaline Moncrieff, nurse, \$8.33 to \$12.50 per month; Mabel Manning, nurse, \$8.33 to \$12.50 per month; Georgina O. Dunn, nurse, \$8.33 to \$12.50 per month; Elizabeth C. Heuse, nurse, \$8.33 to \$12.50 per month; Etta M. Pratt, nurse, \$8.33 to \$12.50 per month.

The following persons have been employed at the Boston City Hospital during the week ending July 9:

To Fill Vacancies.

Permanent.—Maude B. Kittredge, assistant seamstress, \$17 per month; Kate Sullivan, scrubber, re-employed, \$5 per week; James Callery, house porter, \$25 per month; William Leahy, orderly, \$25 per month; Clarence B. Higgins, orderly, re-employed, \$35 per month; James W. Carroll, orderly, re-employed, \$35 per month; Daniel Rose, orderly, \$25 per month; Mary Keane, laundress, \$20 per month; Onofrio Domenica Loiacono, house porter, \$25 per month; John Grube, house cleaner, \$1 per day; Wilhelm Shabe, house cleaner, \$1 per day; Genevieve F. Moran, probationer, no pay; Edrie B. Meader, probationer, no pay; Josephine Daly, ward attendant, \$5 per week; Frank Coutts, porter, re-employed, \$20 per month; Margaret Powers, house cleaner, \$24 per month.

Temporary.—Dr. Walter T. Garfield, executive assistant, re-employed, \$100 per month; Helen E. Hutt, New England Hospital nurse, \$10 per month; Elizabeth B. Walls, New England Hospital nurse, \$10 per month; Elizabeth A. Barry, Taunton Hospital nurse, \$8.33 per month; Jessie M. Bowes, Taunton Hospital nurse, \$8.33 per month; Mary A. Griffin, Medfield Hospital nurse, \$8.33 per month; Mary E. Reardon, Medfield Hospital nurse, \$8.33 per month; Ella E. Sullivan, Medfield Hospital nurse, \$8.33 per month; Bessie W. Halfyard, Boston State Hospital nurse, \$8.33 per month; Florrie Hartshorn, Boston State Hospital nurse, \$8.33 per month; Elizabeth B. Mahoney, Boston State Hospital nurse, \$8.33 per month; Addie C. Keay, seamstress, re-employed, \$30 per month.

The following employees have had increase of wages:

David H. Gibson, orderly, \$25 to \$30 per month; Francis J. Kelly, orderly, \$25 to \$30 per month; H. George Jones, porter at \$20 to kitchenman at \$25 per month; Rose E. Doyle, head nurse at \$40 to night casualty head nurse at \$50 per month; Mary Kennedy, nurse at \$12.50 to head nurse at \$35; Mollie

Going, temporary scrubber at \$0.15 per hour to laundress at \$1 per day.

OVERSEEING OF POOR DEPARTMENT.

The salary of Timothy J. Good, chief visitor of the department, has been increased to \$2,000 per year.

The salary of John W. McMahon, visitor, has been increased to \$1,200 per year.

Frederic L. Gillooly, bookkeeper of the department, has been discharged from service, by reason of charges alleging the misappropriation of funds.

The Board has voted that the service of Dr. Thomas J. Lawlor be terminated July 14, the intervening time to be considered as a vacation period.

Daniel A. Murphy has been employed in the supply room for a term of eight weeks during the vacation period of other employees. The wage of Mr. Murphy will be \$2 the day.

PARK AND RECREATION DEPARTMENT.

John Duncan has been provisionally appointed to the position of second-class engineer at a salary of \$2.84 the day.

John F. McKernan has been appointed a special police officer of the department to serve at Wood Island Park.

Margaret Curley has been temporarily appointed to the position of stenographer in the department, at a salary of \$50 the month.

Theresa Appel has been temporarily appointed to the position of stenographer in the department, at a salary of \$50 the month.

PENAL INSTITUTIONS DEPARTMENT.

The salary of Charles R. Eaton, officer at Deer Island, has been increased from \$660 to \$800 the year.

The salary of Patrick J. Maguire, officer at Deer Island, has been increased from \$540 to \$600 the year.

PUBLIC BUILDINGS DEPARTMENT.

Frederick A. Williams has been appointed to the position of custodian of the Roxbury Courthouse, at a salary of \$1,000 the year.

Margaret E. Good has been appointed telephone operator at a salary of \$2 the day, same to take effect on Tuesday, July 7, 1914.

PUBLIC WORKS DEPARTMENT (Sewer Service).

The salary of James Clancy, sewer flusher, has been increased from \$2.50 to \$3 the day, to take effect July 10, 1914.

SCHOOLHOUSE DEPARTMENT.

Hогarty, repairer, $\frac{1}{2}$ day at \$2.75 \$0.69; P. Hurley, laborer, $\frac{1}{2}$ day at \$2.50, \$1.09; J. Kelly, repairer, 1 day at \$2.75, \$2.75; R. Lambert, repairer, 1 day at \$2.50, \$2.50; J. Looney, repairer, 1 day at \$2.75, \$2.75; M. McCue, repairer, 1 day at \$2.75, \$2.75; J. McCarthy, 2d, repairer, $\frac{1}{2}$ day at \$2.75, \$1.20; P. McGuiness, laborer, $\frac{1}{2}$ day at \$2.50, \$1.17; C. McKenna, repairer, 1 day at \$2.75, \$2.75; R. Mc-

Laughlin, repairer, 1 day at \$2.83, \$2.83; C. Monagle, laborer, $\frac{1}{2}$ day at \$2.50, \$0.63; J. J. O'Brien, laborer, $\frac{1}{2}$ day at \$2.50, \$1.09; M. O'Day, laborer, $\frac{1}{2}$ day at \$2.50, \$1.09; C. Quigley, laborer, $\frac{1}{2}$ day at \$2.50, \$0.63; C. Ryan, laborer, 1 day at \$2.50, \$2.50; J. Horgan, machinist, $\frac{1}{2}$ day at \$2.75, \$0.69; J. Moran, machinist, $\frac{1}{2}$ day at \$3.75, \$0.94; C. Driscoll, plumber, $\frac{1}{2}$ days at \$3.50, \$4.38; P. Lawless, laborer, $\frac{1}{2}$ days at \$2.50, \$3.13; M. Sullivan, plumber, $2\frac{3}{4}$ days at \$3.50, \$7.33; J. Cunningham, laborer, 1 day at \$2.50, \$2.50; P. Cassidy, laborer, 1 day at \$2.50, \$2.50; E. Dillon, laborer, 1 day at \$2.50, \$2.50; J. McMahon, laborer, 1 day at \$2.50, \$2.50; D. Buckley, laborer, 1 day at \$2.50, \$2.50; J. Concannon, laborer, $1\frac{1}{2}$ days at \$2.50, \$3.91; E. Gray, laborer, $\frac{1}{2}$ day at \$2.50, \$1.09; P. Gorman, laborer, 1 day at \$2.50, \$2.50; P. Halligan, laborer, $\frac{1}{2}$ day at \$2.50, \$1.09; J. McNulty, repairer, $1\frac{1}{2}$ days at \$2.75, \$4.98; D. Shea, laborer, 1 day at \$2.50, \$2.50; T. Dolan, laborer, 1 day at \$2.50, \$2.50; J. Moynihan, laborer, 1 day at \$2.50, \$2.50; P. McCarthy, laborer, 1 day at \$2.50, \$2.50; W. Regan, laborer, 1 day at \$2.50, \$2.50; J. Hayes, laborer, 1 day at \$2.50, \$2.50; W. Kilty, laborer, 1 day at \$2.50, \$2.50; N. McPhee, laborer, 1 day at \$2.50, \$2.50; E. Sullivan, laborer, 1 day at \$2.50, \$2.50; D. Donovan, laborer, 1 day at \$2.50, \$2.50; P. O'Hare, repairer, 1 day at \$2.75, \$2.75; H. Sullivan, laborer, 1 day at \$2.50, \$2.50; F. Skaynor, repairer, $\frac{1}{2}$ day at \$2.75, \$1.38. Total, \$154.71.

Income Branch.—M. Welch, plumber, $1\frac{1}{2}$ days at \$3.50 per day, \$4.38; J. Mahoney, helper, 1 day at \$2.50, \$2.50. Total, \$6.88.

BOSTON MUST PAY MORE.

Massachusetts state tax will total \$8,750,000, or \$750,000 above previous high water mark reached last year. Boston's share is \$2,878,750, against \$2,682,000 last year.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending July 9, 1914:

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon July 9 the Acting Mayor approved a contract with James Doherty for bitulithic pavement in Dillaway street, from Dix place to Hollis street, city proper. Bids for the work, opened July 6, were as follows:

James Doherty, \$1,723.15; William J. Rafferty Company, \$1,849.70; Warren Brothers Company, \$1,860.35; Charles B. Telless, \$1,955.50; A. H. Archer, \$1,991; John F. Lynch, \$2,094.80.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon July 7 the Mayor approved a contract with Frank Drinkwater for sewerage works in Clement avenue, between Meredith street and Anawan avenue; Kenneth street, between Beech and Meredith streets; Anawan avenue and Beech street, between West Roxbury Parkway and New York, New Haven & Hartford Railroad, West Roxbury. Bids for the work, opened June 26, were as follows:

Frank Drinkwater, \$4,294.70; Louis Balboni, \$4,469.75; Martino De Matteo, \$4,522.60; Antony Cefalo, \$4,841.55; West Roxbury Trap Rock Company, \$4,875.20; Timothy Coughlin, \$5,206.55;

Charles J. Jacobs Company, \$5,209.95; George J. Regan, \$5,229; M. De Sisto, \$5,242.57; M. H. Kelley, \$5,251.25; James Driscoll & Son Company, \$5,509.17; John F. Lynch, \$6,047.30; McCarthy & Walsh, \$6,054.55; John Guarino, \$6,221.44.

Upon July 7 the Mayor approved a contract with the Charles J. Jacobs Company for sewerage works in Tremont entrance, northwesterly drive, from Tetlow street, northeasterly, Roxbury. Bids for the work, opened June 29, were as follows:

Charles J. Jacobs Company, \$1,563.40; Louis Balboni, \$1,839.45; M. DeSisto, \$1,842.40; James Driscoll & Son Company, \$1,974.40; M. H. Kelley, \$2,120.96; John Guarino, \$2,139.40; Timothy Coughlin, \$2,143.40; McCarthy & Walsh, \$2,181.60; John H. Broderick, \$2,249.88; George J. Regan, \$2,341.37.

Upon July 9 the Acting Mayor approved a contract with James Driscoll & Son Company for sewerage works in Washington, Leshar and South streets, West Roxbury. Bids for the work, opened June 30, were as follows:

James Driscoll & Son Company, \$12,559.90; M. De Sisto, \$13,084.30; Anthony Barr Baruffaldi, \$13,521.18; Martino De Matteo, \$14,140.60; West Roxbury Trap Rock Company, \$14,300.88; Louis Balboni, \$14,998.30; Antony Cefalo, \$15,197.95; George M. Byrne Company, \$16,108; M. H. Kelley, \$16,379.28; McCarthy & Walsh, \$16,481.80; Michael Mehan, \$18,554.90.

SCHOOLHOUSE DEPARTMENT.

Upon July 8 the Mayor approved a contract with McDonald & Kivell for cooking room in the Henry Grew School, Gordon avenue, Hyde Park. Bids for the work, opened July 3, were as follows:

McDonald & Kivell, \$1,567.20; M. F. McDonald & Son, \$1,659; T. H. Hanlon, \$1,743; M. S. Kelliher, \$1,759; C. D. Redmond & Co., \$2,053; P. F. Lamont, \$2,083.

Upon July 8 the Mayor approved a contract with M. F. McDonald & Son for cooking room in the Everett School, Northampton street, Roxbury. Bids for the work, opened July 3, were as follows:

M. F. McDonald & Son, \$1,490; T. H. Hanlon, \$1,525; M. S. Kelliher, \$1,549; McDonald & Kivell, \$1,651.40; C. D. Redmond & Co., \$1,809; P. F. Lamont, \$1,978.

Upon July 8 the Mayor approved a contract with T. H. Hanlon for cooking room in the Longfellow School, South and Hewlett streets, Roslindale. Bids for the work, opened July 3, were as follows:

T. H. Hanlon, \$1,589; McDonald & Kivell, \$1,593.30; M. S. Kelliher, \$1,649; M. F. McDonald & Son, \$1,674; C. D. Redmond & Co., \$1,712.80; Peter F. Lamont, \$1,991.

SUPPLY DEPARTMENT.

Upon July 10 the Mayor approved a contract with John J. White, covering grain to be furnished the South Boston district for the month of July. Bids for the supply, opened June 26, were as follows:

WITHOUT ADVERTISING, *continued.*

boiler in Engine No. 6, by reason of the facts set forth in the following communication of Fire Commissioner Grady:

BOSTON, July 8, 1914.

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—Permission is hereby requested to enter into contract with the American-British Manufacturing Company, without advertising, to repair and put a new boiler in Engine 6 of this department for the sum of \$1,450.

My reasons for desiring to make this contract without advertising are as follows:

1. This engine was built years ago by the Amoskeag Company, which is now a part of the American-British Manufacturing Company.

2. I believe that the American-British Manufacturing Company have the proper knowledge and experience to do this work better than if done by anyone else.

Yours very respectfully,

JOHN GRADY,
Fire Commissioner.

The Mayor has formally approved a contract with the Velie Motor Vehicle Company of Moline, Ill., for two one-ton automobile trucks at \$1,975 each, by reason of the facts presented in the inclosed communication from Fire Commissioner Grady:

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—I respectfully request permission to purchase, without advertising, from the Velie Motor Vehicle Company of Moline, Ill., with a New England agency at Cambridge, Mass., two (2) one-ton automobile trucks at \$1,975 each, or \$3,950. It is my intention, if purchased, to place these trucks in the repair shop and fire alarm branches of this department, to replace the horses and wagons at present in use in these branches.

My reasons for requesting permission to make this purchase, without advertising, are:

1. Automobiles are neither a standard nor staple product, and the lowest bidders are not necessarily the proper ones to accept.

2. Several different makes of trucks have been investigated carefully before

making this selection. Some trucks are new on the market and have not been tried out. Others are of freak design. Some are handled through agents and have no service station in this vicinity, and some makes frequently change agencies.

3. This company conducts a well-organized factory, and maintains a factory branch with service station at Cambridge, open day and night, with a complete stock of parts.

4. This make of machine shows wonderful power and hill climbing ability, and is strongly built. The department already has four machines of this make for chief's cars.

5. The financial rating of the company is A1, which is a very vital consideration in the purchase of automobiles, especially since so many companies have either failed or gone into the hands of receivers.

Yours very respectfully,

JOHN GRADY,
Fire Commissioner.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 12-inch earthen pipe in Marsh street, from Hallet-Davis street, about 770 feet westerly, Dorchester, at an estimated cost of \$1,425.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface with tar macadam Washington street, south side, from Oak square to Foster street, Brighton. Estimated cost of labor and materials, \$1,800.

Resurface with tar macadam Tremont street, south side, from Washington street to Newton line, Brighton. Estimated cost of labor and materials, \$1,700.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor.

PUBLIC BUILDINGS DEPARTMENT.

An addition, amounting to \$120, upon contract with the Whiton-Haynes Com-

pany for erection and completion of South Boston Police Station, for installing gas piping to outlets and making meter connections. Original contract, \$75,800; total additions, \$1,220; total deductions, \$142; contract as standing, \$76,878.

An addition, amounting to \$2,235.85, upon contract with the Whiton-Haynes Company for the erection and completion of Municipal Building, Ward 17, Roxbury: For extra rail in guard rail around running track, \$126.50; for installing two extra "I B's," 10 by 13 inches, with bolts and separators, \$55.35; separate meters for library of gas and electricity, \$150; installing in ceiling of boiler room, one 100-gallon horizontal water tank and one 100-gallon-per-hour-capacity tank heater, connected with main smoke pipe, \$575; substitute terrazzo floors in shower rooms in basement in place of granolithic as specified, \$748; substitute Clarendon marble steps and platforms instead of slate, as specified, \$356; improvements in lavatories, \$225. Original contract, \$115,796; total additions, \$2,235.85; contract as standing, \$118,031.85.

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$4,100, on contract with James Doherty for furnishing and laying bituminous top surface in Marlborough street, between Clarendon street and Massachusetts avenue, on account of extending contract to Charlesgate East. Original contract, \$22,997.10; total addition, \$4,100; contract as standing, \$27,097.10.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$1,319.37, on contract with Antony Cefalo for sewerage works in Pleasant street, between Eliot and Washington streets, city proper, on account of building new house drains at all vacant lots and alleys on both sides of street. Original contract, \$15,958.50; total additions, \$2,082.44; contract as standing, \$18,040.94.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$394.24, on contract with Thomas Burke for excavating and refilling trenches and openings, setting and regulating boxes, establishing hydrants, gates, etc., on account of handling and laying 22 feet of 10-inch pipe on Floyd street, Dorchester; hauling, handling and laying 266 feet of 8-inch pipe on Puritan avenue, Dorchester; hauling, handling and laying 20-inch pipe around manholes on Harvard avenue, Brighton; cutting stone wall, helping mason and teaming material to Albany street yard from Charles river embankment; lowering 400 feet of 10-inch pipe on Spring street, West Roxbury; excavating for leak on High street place, city proper; moving materials, High Pressure Fire Service yard, Albany street. Original contract, \$16,382.75; total additions, \$620.11; contract as standing, \$17,002.86.

An addition, amounting to \$107.19, on contract with Frank H. Cowin & Co. for laying water pipes in Avenue Louis Pasteur, Roxbury; Huntington and Milton avenues, Hyde Park; Hinsdale road and Washington street, West Roxbury; and Itasca street, Dorchester, on account of allowance made for extra care in blasting to avoid injury to adjacent structures, Washington street, West Roxbury. Original contract, \$2,560; total additions, \$289.94; contract as standing, \$2,849.94.

An addition, amounting to \$77.08, on contract with John Guarino for laying water pipes in various streets in Roxbury, West Roxbury and Hyde Park, on account of lowering hydrant, Hawthorne street, West Roxbury; resetting defective hydrant, laying under 48-inch pipe and setting two hydrants on Murray Hill road, West Roxbury; resetting gate box and regulating mains, Museum road, Roxbury; resetting hydrant and removing obstacles, South street, West Roxbury. Original contract, \$10,374; total addition, \$77.08; contract as standing, \$10,451.08.

An addition, amounting to \$124.50, on contract with Hugh Nawn Contracting Company for laying water pipe in Boylston street, between Exeter street and Park square, city proper, on account of removing and returning four 6-inch gates to Water Service yard; guarding hose; supplying water to Boston University Building; replacing defective 12-inch pipe at Arlington street and defective 1-inch service cock at 381 Boylston street; furnishing lead and calking fourteen 12-inch joints. Original contract, \$3,555; total additions, \$1,324.50; contract as standing, \$4,879.50.

SALE OF FURNITURE AND FITTINGS.

Edward W. Foye, municipal auctioneer, will sell all furniture and fittings in the building, 100 Summer street, Boston, in the offices lately occupied by city departments, upon the premises, Thursday, July 16, at 10.30 a. m.

CLAIMS.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of the New York, New Haven & Hartford Railroad *et al.*, in the amount of \$1,350, for damages occasioned its estate by the laying out and construction of Railroad street, West Roxbury, and in confirmation of the order of the Board of Street Commissioners.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Edmund Bridge, in the amount of \$1,800, for damages occasioned his estate in rear of Chelsea street, East Boston, by taking the same for a city playground, and in confirmation of the order of the Board of Street Commissioners.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of G. Philip Wardner *et al.*, trustees under the will of Mary F. Mallon *et al.*, in the amount of \$300, for damages occasioned the estate by the laying out and construction of Mallon road, Dorchester, and in confirmation of the order of the Board of Street Commissioners.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Annie E. McCormick, in the amount of \$25, for damages occasioned her estate by the laying out of Woodford street, Dorchester, and in confirmation of the order of the Board of Street Commissioners.

Acting Mayor McDonald has approved, with the indorsement of the Corporation Counsel, the claim of Mrs. G. H. Snelling, in the amount of \$150, for compensation for personal injuries, caused by position of water meter cover in sidewalk on Warren street, opposite St. James street, Roxbury, July 11, 1913.

Acting Mayor McDonald has approved, with the indorsement of the Corporation Counsel, the claim of Barnett Finkelstone,

in the amount of \$325, for damages occasioned his estate, by the taking for playground purposes of Chelsea place, East Boston, and in confirmation of the order of the Board of Street Commissioners.

TAKING OF LAND FOR IMPROVEMENTS.

The Board of Street Commissioners announces, and the Mayor has formally approved, the taking of land in a private way, known as Leshner street, West Roxbury, owners unknown, for sewerage works, and containing 2,048 square feet, more or less. The sewerage works will consist of about 340 linear feet of 10-inch pipe, sanitary sewer. The Board declares that no person sustains damages in his estate by the taking for and construction of the sewerage works and awards no damages therefor.

The Board of Street Commissioners announces, and the Mayor has formally approved, the taking of land in a private way, known as Foster street, Hyde Park District, owners unknown, for sewerage works, and containing 2,592 square feet, more or less. The sewerage works will consist of about 432 linear feet of 8-inch pipe, sanitary sewer. The Board declares that no persons sustains damages in his estate by the taking for and construction of the sewerage works and awards no damages therefor.

The Board of Street Commissioners announces, and the Mayor has formally approved, the taking of land in a private way, known as Wilkins place, West Roxbury, owners unknown, for sewerage works, and containing 1,303 square feet, more or less. The sewerage works will consist of about 217 linear feet of 10-inch earthen pipe, sanitary sewer. The Board declares that no person sustains damages in his estate by the taking for and construction of the sewerage works and awards no damages therefor.

STREET COMMISSIONERS.

The location, direction, width and grade of the private way at Brighton, designated as Glenville terrace, leading easterly from Harvard avenue, for a distance of about 218 feet, and about 206 feet north of Commonwealth avenue, has been approved by the Mayor and in confirmation of the order of the Board of Street Commissioners.

SALE OF STEAM ROLLERS.

Permission has been granted Capt. John H. Dillon, Commissioner of the Park and Recreation Department, for the sale of two Aveling and Porter steam rollers, the proceeds of sale to be credited to the department.

CHANGE IN CONTRACT.

PARK AND RECREATION DEPARTMENT.

Chairman Dillon of the department has notified the Wright Wire Company that the amount of \$380.50 will be deducted from their contract for the erection of fences at Orchard Park, Roxbury, by reason of the omission of iron pipe railings.

SALE OF SHEEP FOLD.

Permission has been granted Capt. John H. Dillon, Commissioner of the Park and Recreation Department, to sell and remove, after due notice by advertising, the old sheep fold and house adjoining, at Franklin Field.

A TRIP TO BOSTON PARKS.

By CAPT. JOHN H. DILLON, *Chairman of the Park and Recreation Department.*

A drive or walk through our parks at this season means much. The ever changing landscape, with its hills and valleys, the shrub-bordered driveways, the numerous ponds of which one catches a glimpse through the trees—all breathe a spirit of restfulness and peace to those not fortunate enough to be able to leave the city with its warm weather discomforts and betake themselves to the mountains or seashore.

The many varieties of trees, the formation of their leaves or foliage, and the different shades of color, make an interesting picture and bring relief to the tired mind and eye. Perhaps in all nature there is not a more fascinating study than trees—their shapes, their foliage, their flowers and their names, of which mention of just a few may prove advantageous.

Almost every one is familiar with the maple; it can be recognized at a glance and one often wonders why it received such a botanical name. And yet how true to the student it is! The botanical name of the maple is from the Latin word "Acer," sharp, vigorous, and its wood in ancient times was used for weapons of war, especially lances. It is much cultivated as an ornamental or shade tree. The wood is very strong and compact and yields that saccharine article of commerce known as maple sugar or syrup. The wood of the maple is highly prized by the builder and the furniture manufacturer for the fine polish of which it is susceptible. Then again there is the oak—botanically, "Quercus," the derivation of which is disputed by many writers of botany; some maintaining that "Quercus" is the classical name, while others define it thus: "Quereus from the Celtic 'quer,' fine, and 'euez,' a tree, so-called because the sacred mistletoe grew upon it." The old Celtic name was "Derw," hence "Druid." The oak yields timber of great value for durability and strength for ship building, cabinet work and architectural finish, and the bark is profitable for tanning, dyeing and medicinal purposes. And the birch tree, botanically "Betula," derived from "Betu," the Celtic name of the birch, is another tree familiar to all. The wood is strong and compact, takes a good polish and is much used in cabinet work. The paper or canoe birch yields the bark of which the Indians construct their canoes.

COMPLETION OF WORK AT WOOD ISLAND BATHS.

The Mayor has approved a final payment to William H. Ellis, in the amount of \$1,150, for additional work at the Wood Island Bathhouse. The improvements consisted in the fitting up of quarters, the moving and fitting up of buildings, the erection of runways to the beach, the building of an additional concrete wall and moving piers.

EXTENSION OF CONTRACT.

The contract of James Doherty for furnishing and laying bituminous top surface in Marlborough street, between Clarendon street and Massachusetts avenue, has been extended by a continuance of the work to Charlesgate East. The estimated cost of the extra work is \$4,100.

REPORT BY COMMISSIONER ROURKE ON PUMPING STATION.

Commissioner Louis K. Rourke, of the Department of Public Works, in his address before the Directors of the Port of Boston, relative to the location of a high pressure fire service pumping station in Fort Point channel, declared:

In connection with the petition of the City of Boston for the location of a high pressure pumping station in Fort Point channel, I have made this application because of the fact that the first location selected, namely, under Boston Common, was found to be impracticable, because of the unanimous public opposition against it.

The second choice for a site under Charles street, after long and careful consideration, does not seem to be advisable because of the very bad condition of the ground for building purposes, and because of the fact that it is undesirable to put such delicate machinery under ground and it is also undesirable to work men in artificial light and ventilation if it can be avoided, and there would be great danger of flooding this station in case the supply pipes should break.

My third choice for a site on the Charlesbank was found to be impracticable owing to the objections of the abutters and the public.

The fourth choice is now before you. This site admirably fills the requirements of this station, one of the first safety from conflagration. This site is protected from conflagration on the one side by the South Terminal Station and railroad yard and on the other by Fort Point channel itself. In addition to this natural protection, the station itself will be fire-proof and surrounded by a water curtain. The second requirement is that it shall be near the source of water supply. For all ordinary fires the station will be adequately provided with water from our fresh water main in Congress street, and at the same time we will have emergency connections with the salt water in the channel, so that if any trouble should occur with our fresh water supply we will have an inexhaustible supply of salt water. Thirdly, the station in this loca-

tion is advantageously located as regards the source of power for operating the station, which will be electricity secured from the Edison Company, with an emergency connection with the Boston Elevated.

The station will not affect navigation appreciably, as it is outside of the channel used by traffic, and will project no further into the channel than the present Mt. Washington Avenue Bridge approach.

We might also install, in connection with this station, a common public landing which is very much needed.

In a report to the Boston Chamber of Commerce, Commissioner Rourke declared:

I submit herewith for your information approximate figures of relative cost of connecting the proposed high pressure pumping station with the distribution system for the protection of the congested value district.

PUMPING STATION ON DORCHESTER AVENUE AT SOUTH STATION.

4,500 feet of discharge pipe.....	\$16,200
1,000 feet of suction pipe.....	4,000
	<u>\$20,200</u>

PUMPING STATION ON CHARLES STREET AT PUBLIC GARDEN.

11,800 feet of discharge pipe.....	\$42,480
1,000 feet of suction pipe.....	4,000
	<u>\$46,480</u>
Decrease in cost of distribution system..	20,200
	<u>\$26,200</u>

PUMPING STATION ON CHARLESBANK AT CAMBRIDGE STREET.

16,000 feet of discharge pipe.....	\$57,600
9,600 feet of suction pipe.....	38,400
	<u>\$96,000</u>
Decrease in cost of distribution system...	20,200
	<u>\$75,800</u>

The Dorchester avenue site has additional advantages over the actual saving in money in that the capacity of the distribution system is increased and the reliability more assured.

A station above ground is more desirable than underground, which would be necessary on the Charles street site, and the cost of construction would be at least \$60,000 less.

The Dorchester avenue site would enable direct cable lines to be laid from the Edison power plant, whereas the power supply of the two other sites would have to be taken from substation feeders.

The class of building required by the surroundings at Dorchester avenue will be architecturally plain and involves a minimum of expense.

CONCERTS FOR SUNDAY.

The musical program for the concerts for Sunday, July 12, is announced by Capt. John H. Dillon, Commissioner of the Park and Recreation Department, as follows:

BOSTON COMMON, 3.30 P. M. to 5.30 P. M.

Moore's Orchestra, Alfred J. Moore,

Director.

Program.

- | | |
|------------------------------------|---------|
| 1. March. "Boston Commandery." | Carter |
| 2. Overture. "William Tell." | Rossini |
| 3. Waltz. "Valse June." | Barter |
| 4. Popular Airs, selected. | |
| 5. Selections. "The Red Mill." | Herbert |
| 6. a. Intermezzo. "Ivy." | Carroll |
| b. "Humoresque." | Deorak |
| 7. Grand Selection. "Martha." | Flotow |
| 8. American Airs. "Tone Pictures." | Lampe |
| 9. March. "Stars and Stripes." | Sousa |
| 10. "Star Spangled Banner." | |

MARINE PARK, 3.30 P. M. TO 5.30 P. M.

Stone's Military Band, Walter F. Randall,

Director.

Program.

- | | |
|-----------------------------------|------------|
| 1. March. "Cymbeline." | Booley |
| 2. Overture. "Orpheus." | Offenbach |
| 3. Concert Waltz. "España." | Waldteufel |
| 4. A Group of Southern Songs. | Catlin |
| 5. Intermezzo. "After Sunset." | Fryer |
| 6. Selection. "Prince of Pilsen." | Luders |
| 7. A Potpourri of Irish Airs. | Bennet |
| 8. Tone Pictures of America. | Bendix |

CARE SHOULD BE TAKEN OF MILK SUPPLIES.

Dr. Francis X. Mahoney, Chairman of the Boston Board of Health, desires to again advise residents of Boston of the imperative necessity of the exercise of extreme care in the buying of milk supplies at this season.

As an illustration of the necessity of wise prevention, Dr. Mahoney declares:

"During the past few days several cases of septic sore throat have been reported from the West Roxbury district. An investigation was immediately made, and the patients were found to have one common milk supply. Examination was made of the farm supplying the milk, and one of the employees was found with a history of having had a sore throat five or six days ago. A culture was made and the laboratory reported a streptococcus infection. The milk supply of this particular farm was immediately cut off from the Boston market, and at the present time is being pasteurized. This outbreak again emphasizes the importance of pasteurizing the milk supply of this city, as outbreaks of this kind can never be controlled or foreseen until such action is taken."

PUBLIC INSTITUTIONS IN BOSTON.

Expenditure for maintenance in 1913, of City Hospital, \$616,301; Consumptives' Hospital, \$200,804; Infirmary, \$217,963; Children's, \$215,704; Soldiers' Relief, \$201,296; Overseeing of Poor and Registration Departments, \$259,097; total \$1,711,165, or \$101,033 more than in 1912; of Penal Institutions (including County Jail and steamer "Monitor"), \$355,796, or \$1,279 more than in 1912. Valuation of property, \$9,168,600.

1913-14 includes 22 weekly pay rolls, 1914-15 includes 21 weekly pay rolls.

The administration of Mayor Curley continues to reveal a material reduction in the city debt as instanced in the monthly exhibit of City Auditor J. Alfred Mitchell.

The gross funded debt of Boston has decreased \$532,000 during the term of Mayor Curley, of which \$436,000 was in the city debt, \$88,000 in water debt and \$8,000 in county debt.

The net funded debt has during Mayor Curley's term decreased \$503,532.14. Of this amount \$423,893.75 was in the city debt, \$20,656.24 in the county debt, \$32,360.87 in the water debt and \$26,621.28 in the rapid transit debt.

The statement of City Auditor Mitchell is as follows:

GROSS FUNDED DEBT.

	City Debt.	County Debt.	Water Debt.	Rapid Transit Debt.	Total.
January 31, 1914.....	\$89,553,431 00	\$3,799,000 01	\$2,486,450 00	\$24,686,700 00	\$120,525,581 01
June 30, 1914.....	89,117,431 00	3,791,000 01	2,398,450 00	24,686,700 00	119,993,581 01

	2,054,000 00
Debt incurring power June 30, 1914.....	\$1,229,045 91

* Includes \$496,000.01 issued by the Commonwealth under chapter 534 of the Acts of 1906.

SUMMER EVENTS.

The annual swimming meets and summer events of the City of Boston will be held this year under the auspices of the Park and Recreation Department. All boys and girls who are residents of this city are eligible to compete in these athletic events. The city has been divided off into various sections, and the children of these sections are classified according to age and height. The preliminary meets and final meet take place on Wednesdays and Saturdays throughout the summer months. Buttons will be awarded the first three place winners in each event, and all place winners in the preliminary meets are eligible to compete in the final meet. These buttons are of a special design with the Park and Recreation stamp imbedded. The list of events and rules of eligibility are as follows:

Wednesday, July 15, 1914, Tenean Beach, McKenzie Beach and Freeport Street Beach, at Tenean Beach, at 2 p. m.

Wednesday, July 29, 1914, L Street Beach and Savin Hill Beach, at L Street, at 2 p. m.

Wednesday, August 12, 1914, Dewey Beach, North End Park and Wood Island Park, at Wood Island Park, at 2 p. m.

Saturday, August 22, 1914, finals at Charles River Basin.

LIST OF SWIMMING EVENTS.

The list of swimming events is as follows:

GIRLS—JUNIOR DIVISION.

From 12 and under 16 years of age.
50-yard dash—diving—relay race—4 girls—25 yards each.

GIRLS—SENIOR DIVISION.

From 16 and under 20 years of age.
100-yard dash—diving—relay race—4 girls—25 yards each.

BOYS—JUNIOR DIVISION.

From 12 and under 16 years of age.
50-yard dash—diving—relay race—25 yards each.

BOYS—SENIOR DIVISION.

50-yard dash—diving—220-yard swim—relay race—25 yards each.

In the finals, a life-saving competition will also be conducted in addition to the regular schedule of events.

TRACK AND FIELD SPORTS.

The district meets for boys are divided as follows:

Saturday, July 18, Charlestown, North End, East Boston, at Wood Island Park.

Saturday, July 25, Neponset, Dorechester, South Boston, at Strandway.

Saturday, August 1, Hyde Park, Roslindale, Brighton, North Brighton, at Franklin Park.

Saturday, August 8, Roxbury, North Dorechester, Forest Hills, at William Eustis Playground.

Saturday, August 15, South End, West End, at Charlesbank.

Saturday, August 29, finals at Franklin Park.

FREE SUMMER ATHLETICS, 1914, FOR ALL DISTRICTS OF BOSTON—JULY 18 TO AUGUST 29, 1914.

BOYS—JUNIORS.

Under 5 feet 1 inch and under 15 years of age.
50-yard dash—110-yard run—running high jump—running broad jump—relay races in final meets only.

BOYS—INTERMEDIATE.

Boys not included in the junior or senior division.
75-yard dash—220-yard dash—running high jump—running broad jump—putting 8-pound shot

BOYS—SENIORS.

Boys 5 feet 5 inches or over in height or from 17 to 19 years of age.

100-yard dash—220-yard run—440-yard run—880-yard run—1-mile run—running high jump—running broad jump—putting 12-pound shot

RELAY RACES AT FINAL MEET.

Juniors—4 boys—110 yards each.
Intermediate—4 boys—220 yards each.
Final—4 boys—220 yards each.

No boy allowed to compete in more than one track and field event other than team race.

Entries may be made to the instructors at the several beaches and playgrounds cited. Entries close the day before the date of competition.

THE NECESSARY REPORTING OF DISEASE.

The Metropolitan Life Insurance Company, with New England headquarters in Boston, and whose officials have for many years directed a painstaking service in our cities and towns for the conservation of public health, have attached to the general staff of the organization one of the most entertaining and convincing writers upon questions affecting the welfare of the people's health, Prof. Louis I. Dublin.

In the matter of the necessary reporting of disease, in cities the size of Boston, especially, Professor Dublin declares:

"The life-saving campaigns of the last few decades have borne fruit. The death rate has been lowered and the average span of life correspondingly lengthened. Deaths from certain causes, especially from typhoid fever, smallpox, the infectious diseases of childhood and tuberculosis have been reduced. The amount of sickness on the other hand, has not been controlled to any appreciable degree. There is still too much sickness among us. Indeed, there are those who, with some authority, maintain that illness has actually increased in spite of all the saving in mortality. The next twenty years must, therefore, see our activities in health work directed especially to the control of disease. If we avail ourselves of our present knowledge of sanitary science, we can reduce the incidence of illness fully as much as we have already cut down our death rates.

"The basis for any campaign against sickness must be an accurate knowledge of its prevalence. Just as the reduction of mortality is furthered by a complete registration of deaths and their causes, so our efforts to reduce the frequency of disease depend upon machinery for reporting the cases of sickness, their causes, and their duration, for each group in the community. For this purpose, it is not sufficient to know only, as we do now, the number who have died from any particular cause. We must henceforth place our emphasis upon the cases of sickness themselves. They are socially more important than deaths and our program must more and more prevent their occurrence and effect their control. The state must, therefore, in the first instance, see that all preventable diseases are recorded, that we may lay our foundation for efficient sanitary administration.

"Health departments have long realized the importance of registering disease. At first they required the reporting of the plagues such as smallpox, yellow fever, cholera, etc. Later the list was extended to include the acute infections, especially those of childhood, like diphtheria, scarlet fever and measles. With the development of the germ theory of disease, the reporting of tuberculosis was included, first on a voluntary, and later on a compulsory basis. Finally, in some of the more advanced states, certain noninfectious diseases, such as cancer, pellagra, and even a few of the occupational diseases, have been made reportable. At the present time nearly all states of the Union have laws requiring the reporting of one or more of the preventable diseases.

"What, then, is the actual condition of disease registration in the states? A questionnaire sent in 1913 by the statistical bureau of the Metropolitan Life Insurance Company to the state health officers made specific inquiry regarding disease registration. The replies received showed conclusively that this important phase of our health work was sorely

neglected. While some of the communicable diseases, such as smallpox, scarlet fever, diphtheria, acute anterior poliomyelitis (infantile paralysis), and tuberculosis were required to be reported in the larger number of communities, the facilities for carrying out the provisions of the law were most unsatisfactory. The statement of one health officer is typical of many: 'We do not have funds,' he writes, 'to properly enforce the reporting of diseases and hence make it a local matter. We expect to make tuberculosis and some others reportable as soon as we can get our state-wide vital statistics law into operation. Then we will have some means of checking delinquent doctors who neglect to report.' Other states fare even worse.

"In the inquiry referred to above, health officers were asked to indicate the diseases which involved special difficulties in registration. One health officer replied as follows: 'We have not marked those which give special difficulty in securing complete reports, because we seldom get complete returns for any of them.' Much the same story was obtained from a number of other health officers, but perhaps the most illuminating return was received from the health officer of one of the largest of the eastern states, who replied that he was 'experiencing more or less difficulty in obtaining complete returns of all the diseases at the present time.'

"Various explanations are, of course, offered. In some cases the fault is put directly upon the state for neglecting to provide adequate legislation. In others the lack of funds for the proper administration of the law is deplored, and in still other instances the fault is ascribed to the lack of cooperation from physicians who will not take the necessary pains to report their cases.

"Whatever be the explanation, it is quite clear that at the present time no important aspect of our state health work shows up to such poor advantage as does the registration and control of the preventable diseases. We are here concerned with conditions which are responsible from year to year for large economic and social losses, and yet we have only the crudest machinery for checking them. Prof. Irving Fisher, of Yale, has estimated that about 3,000,000 people are seriously ill at any one time in the United States, of whom about a half are suffering from preventable causes. The economic losses from such illness he declares to be no less than \$500,000,000 annually in wages and an equal sum in doctors' fees, drugs, and other necessary medical accessories. These figures, he believes, are conservative; but it is obviously impossible to make any estimate which will approximate the truth in view of the total absence of reliable information. In fact, there are no records of illness in this country excepting the very fragmentary reports of a few states and some corporations. Whatever be the exact amount of loss sustained through sickness, effective registration will help materially to reduce it and will thus yield a big return to the communities on the relatively small investment required.

"Permit me to show in some detail how an efficient system of reporting disease will effect the public welfare:

"First. It will make possible the immediate and effective treatment of certain infectious diseases. In cases of tuberculosis, for example, an early report to the department of health puts at the disposal of the patient the entire battery of the hygienic resources of the com-

munity. In New York City, where, for years, facilities have been well developed, an early report of a tuberculosis case means that a nurse is at once sent to the home to inspect the premises and to give the necessary advice and instruction as to home care. She urges enrollment in a municipal clinic, and in many cases arranges to have the patient treated in a sanatorium or a day camp. It is altogether possible that the reduction in the amount of tuberculosis in New York City and other cities which have extensive anti-tuberculosis work has been largely effected through the enforced registration of this disease.

"Let us take another instance, that of diphtheria, where success in the treatment depends so largely on an early and correct diagnosis. The registration of a suspected case enables the health authorities to make a culture which settles the diagnosis. In positive cases the information placed at the disposal of the physician in charge helps to make a cure almost certain. So, too, the early reporting of eye affections of the new born brings a nurse or medical inspector to the home, who sees that the required treatment is given. As a result, many children now grow up with normal vision whose lives would otherwise have been shrouded in blindness.

"Second. The registration of the communicable diseases will enable health officers to discover foci of infection in time to prevent the further spread of such diseases. The early and complete reporting of cases of typhoid fever at once puts the efficient health officer on the track of the infection. It may be the sewerage system, or the water or milk supply, which is at the bottom of the trouble. In any event, the location and the sequence of the cases settles the question, and the epidemic may, in this way, be quickly prevented from spreading to other sections. Such was the case recently in New York City, where an infected milk supply gave rise to some 300 cases of typhoid fever. In this instance, if the department of health had waited until the first death had been reported, the epidemic would in all probability have spread to innumerable other homes and the death losses increased many fold.

"Similarly, in the city of Buffalo, during 1912, an epidemic of infantile paralysis was checked without serious fatalities, as the result of early reporting. In this one instance, the combined forces of the local health department, the Rockefeller Institute for Medical Research, and the United States Public Health Service were brought into consultation by the reporting of the first few cases which indicated a widespread contagion. Rigid steps were at once taken to isolate every case. As a result of the work of these cooperating agencies, it was possible to give proper treatment to the 281 cases of the disease and to prevent its further spread among the foreign population, where it had had its widest development.

"Third. The reporting of occupational diseases enables departments of health to supplement the efforts of bureaus of labor in following up cases to their sources. Thus, the compulsory reporting of a case of lead poisoning puts the authorities at once on the trail of carelessly kept factories where other workmen may be similarly exposed to possible poisoning. The health and labor officials can then bring to bear all their facilities for the instruction of employers and employees and also for the fulfillment of the various requirements of the law. The reporting of occupational diseases can be made to

serve as a most excellent check on the efficiency of existing labor legislation. It is significant to observe at this point that as a result of the effort of the American Association for Labor Legislation, there are now fifteen states which have upon their statute books a model bill for the reporting of occupational diseases. This is what one public-spirited organization accomplished.

"Fourth. The thorough registration of certain diseases, such as pellagra and cancer, will throw much light upon the origin of these obscure maladies. We have much to learn with regard to the frequency with which these diseases occur in the various social groups. There is already sufficient evidence at hand that their incidence varies considerably with race, sex, age, occupation, personal habits, and other conditions not as yet differentiated. Thus, a recent study of considerable merit, of cancer in Norway showed the very surprising fact that in that country cancer is more prevalent among men than among women, and that the commonest form of the disease is the affection of the stomach. In one large series of cases 65 per cent of the total were cancers of the stomach, a condition not previously noted in any other country. If these figures be verified, a careful research may lead to the discovery and elimination of the conditions which are responsible for the prevalence of this form of the disease. In like manner, there is evidence that cancer may result from certain occupations which involve the continuous irritation of the skin or other exposed parts of the body. Thus, there are the peculiar cancers of chimney sweeps, of X-ray workers, and of those engaged in the manufacture of arsenical products. The application of preventive measures to those trades should have a beneficial effect. Our advance in the control of cancer, therefore, depends in large measure upon the cooperation of the physician, the registrar, and the vital statistician.

"Fifth. The registration of the preventable diseases is, furthermore, the chief test at our disposal for measuring the efficiency of community control over them. Millions of dollars are being expended annually in our campaigns to check their progress. There is, however, a considerable difference of opinion, even among experts, as to the best methods to pursue, and the several communities are applying their appropriations in different ways. Thus, in the treatment of tuberculosis the widest differences of opinion are to be noted. There are those who place considerable emphasis upon the value of sanatorium treatment, while others discount this method, indicating that our results will depend upon an entirely different line of attack. It is clearly an advantage for every group to know the results obtained through the application of their special methods. In this way, the recording of cases, together with a complete statement of the method employed, will ultimately decide the fate of such experiments as are now being made with visiting nursing, isolation of communicable diseases, and the disinfection of premises where such diseases have occurred, sanatorium treatment for incipient tuberculosis, and other plans still awaiting judgment.

"In spite of the fine possibilities that the registration of morbidity promises, the actual conditions, as we have already pointed out, are far from satisfactory. Not one state in the entire country has made adequate provisions for this important branch of its health work, and the

largest number have just begun to make any advances in this field. In view of this situation, the Surgeon General of the Public Health Service and the state health officers, assembled in their annual conferences for the discussion of health matters, have during the last few years directed their attention to this problem.

"The following law is proposed:

"I. The law definitely stipulates that the reporting and registering of the preventable diseases shall be one of the responsible functions of the State Department of Health and makes specific provision and appropriation for the technical administration of this work.

"II. It specifies diseases and conditions which shall be reported in every state and includes:

"(a) The infectious diseases;

"(b) The occupational diseases and injuries;

"(c) The private diseases; and

"(d) Certain diseases of unknown origin, like pellagra and cancer.

"III. A precise provision is made for supplementary information and a uniform report blank is stipulated. This will facilitate comparisons of the data obtained from the several states.

"IV. The time within which the disease or injury must be reported is definitely stated, and the local machinery and routine for bringing the necessary information to the attention of the state departments is specified.

"V. Adequate provisions are made for the instruction of physicians and midwives in the requirements of the law. Severe penalties are also provided which will more fully assure the enforcement of the measure.

"The bill which I have just summarized gives the results of the continuous deliberations of a body of health specialists who are familiar at first hand with the various phases of the problem and know what they want.

"In closing, permit me to direct your attention to one other important phase of our subject. We have to this point considered only the mechanism of reporting morbidity as a state function. It must be remembered, however, that the communicable diseases are unconventional enough to ignore any and all artificial state boundary lines. Typhoid fever, for instance, follows along the lines of water courses and many states thus receive infection from the same source. New York and other large communities have for years been the dumping ground for the tuberculous sick of near-by communities which have fewer facilities for treatment. Every railway is an avenue for the spread of infection. The New York City milk supply is brought from five adjacent states and in this way the germs of tuberculosis, typhoid fever, scarlet fever and diphtheria are in many instances brought into the city. It is, therefore, not enough for a state health officer to know the incidences of the infectious diseases in his own state only. He must, in addition, have some effective arrangement with the authorities of neighboring states and particularly with some central interstate office to keep him fully informed as to the existence of epidemics in other parts of the country. Nothing short of a central governmental agency in constant communication with all sections can help solve the problem of controlling the communicable diseases.

"Ultimately, there should be an approved registration area for morbidity under the jurisdiction of the Surgeon General's office very much as the Census Bureau at the present time provides for

the registration and statistical analysis of data on births and deaths. This much has already been accomplished by the Russian Government throughout the Empire. Our plan of campaign should aim for as much. Many practical difficulties will be encountered in the operation of this system, but our obvious duty is first to obtain an effective and uniform statute. The amount of effort required to bring about this desired condition will be small compared with the benefits which will ultimately accrue to the participating organizations."

WHAT IS A SAFE DRINKING WATER?

The *City Record* is indebted to Dr. Allan J. McLaughlin, Surgeon of the United States Public Health Service, and chief sanitary expert and director of field work of the International Commission, and one of the greatest living authorities upon water sanitation, for the following article upon conditions attending the consumption of water in our metropolitan cities.

Doctor McLaughlin declares:

"Cities using sewage polluted water without purification invariably have very high typhoid fever rates. The installation of a filtration plant to purify the polluted water supply almost without exception effects a prompt and marked reduction in the typhoid fever rates. This reduction is usually so great that municipal officials are satisfied that their water supply is perfect when in reality there is still something to be desired. When a city with a typhoid fever death rate persistently above 100 per 100,000 population has a reduction coincident with the installation of a filtration plant to a rate between 20 and 30, there is good ground for general rejoicing because of the undeniable saving of human lives. Nevertheless the raw water may be of such a character that an unreasonable burden is imposed on the filtration plant, and under such circumstances, in spite of fair efficiency, the plant delivers an effluent which is unsafe at times.

"With the general sanitary conditions which pertain in American cities and a safe public water supply there is no valid excuse for typhoid death rates above 20 per 100,000 population per annum. There is excellent evidence to show that if all the water-borne typhoid were eliminated in northern cities the death rate for typhoid fever would be less than 10. As a matter of fact, there is a group of American cities which is fast approaching European cities in the matter of low typhoid fever rates. These are the cities which have gone farthest in making their water supplies safe; and while their yearly typhoid death rates are not always expressed in a single figure, their rates are usually below 12. In these cities, with safe water supplies, the general sanitary conditions, exclusive of water supply, are not conspicuously better and in some instances are very much worse than those found in cities with polluted water supplies and high typhoid fever rates.

"There is a large group of cities in which, following the substitution of a filtered for an untreated surface water supply, the rates have been greatly reduced, but still remain too high. These cities should not be satisfied with typhoid fever death rates of from 15 to 30. It behooves them to make a searching investigation to determine whether the raw water imposes an unreasonable burden on their filtration plant or whether their plant is efficiently operated and delivering

a safe water at all times. This brings us to the question: What is safe drinking water?

"In order to say that a drinking water is hygienically safe one must be assured that it contains no pathogenic bacteria. The efficiency of water purification plants varies from day to day and from hour to hour, and an opinion upon the absolute safety of a given water supply can not be rendered unless many bacteriologic analyses, made at short intervals during each twenty-four hours, show an absence of the *Bacillus coli*. While an absolute dictum is thus most difficult to secure, it is not difficult to determine, by daily bacteriologic analyses, that a water does or does not give a reasonable index of safety. Instead of attempting to find the germs of typhoid fever, Asiatic cholera, and dysentery in water, we accept the presence of the *Bacillus coli* as an index of pollution with sewage, for the reason that the chances of finding the *Bacillus coli* are very much better than the chances of finding the specific germs in the small quantity of water examined.

"When we consider the grossly polluted water supplies used by many of our large cities until recent years, we must admit that even if the present effluents from filter plants do not show constant absence of *Bacillus coli*, they must be classed as reasonably safe, or relatively safe water.

"Following a sanitary survey of the cities and towns in the basin of the Great Lakes, the writer recommended, among other things necessary, that a standard for filtered or treated water be established, which should be a minimum requirement for the prevention of the spread of water-borne disease in interstate traffic.

"Allowing a sufficient margin of safety, filter plants, with a good raw water, should produce effluents of less than 2 *Bacillus coli* per 100 cubic centimeter, and it is the opinion of the writer that a modern water purification plant which delivers an effluent which has more than 2 *Bacillus coli* per 100 cubic centimeter is either inefficiently operated or is dealing with a raw water which imposes an unreasonable burden upon the plant.

"Accepting tentatively the standard of less than 2 *Bacillus coli* per 100 cubic centimeter as a good drinking water, although perhaps not an ideal drinking water or a safe drinking water at all times, the results indicate that this standard is attained by both rapid sand and slow sand plants, even with a very bad raw water. Cincinnati and Washington, D. C., are good examples of each type. Close examination of the daily records at Washington and Cincinnati show that while this excellent average is attained for the year, there are periods when the capacity for purification seems to be overtaxed by the very bad raw water. At Cincinnati the use of hypochlorite seems to compensate for the deficiency in purification by the standard process, but in Washington the excellent general average of 1.4 is attained only by the almost perfect purification effected during periods when the raw water is fairly good.

"There is a strong tendency in America to accept any raw water, however bad, as a source of supply for a municipal filtration plant. This often imposes an unreasonable burden and responsibility upon the water purification plant. Now, filter plants are not infallible. They are mechanisms which must be properly constructed and efficiently operated under careful bacteriologic control in order to secure a safe effluent. They are operated

by human agency and subject to the results of human error. It is true that properly constructed and efficiently operated filter plants can produce safe water from a very bad raw water, especially by the use of hypochlorite or liquid chlorine as an adjuvant. The responsibility of effecting such purification every hour of every day in the year is unreasonable and unfair. Many plants are now struggling with a raw water of such a character that a safe effluent is obtained only at the price of eternal vigilance, perfect operation every day in the year, and the free use of auxiliary chemicals. The raw water demanding such extraordinary treatment is like a sword of Damocles constantly threatening disaster. There is no margin of safety under such conditions.

"I believe that a sufficient margin of safety should be given to all filter plants by reducing the pollution of the raw water to a point where it would not impose an unreasonable burden or responsibility upon the plant. I believe that in reckoning the bacterial purifying capacities of filtration plants hypochlorite or liquid chlorine should not be considered, but that a raw water should be furnished of such a character that the plant could turn out consistently a safe effluent without the aid of chlorine. This would reserve the chlorination as an additional margin of safety for use in extraordinary fluctuations of the raw water or during accidents to the plant or interruptions in its ordinary efficiency."

A CLEAN CITY.—FOREIGN CITIES.

By Miss ETHEL M. ROGERS, *South Boston High School*.

Upon arriving at a clean city the stranger is first impressed by the streets, which fact proves that special care must be given to these parts in order to have a beautiful city.

The city of Berlin is to-day one of the most modern and enterprising cities of the world in everything that has to do with street cleaning. In that city, as in many other large cities of Europe but not of America, an efficient number of young men with some kind of military training are employed to do the street cleaning.

Orderlies are appointed to take their positions at different posts along the street and direct these young men in the cleaning. All large waste materials are promptly and frequently removed to prevent them from pulverizing and causing extra work. Every night the work consists in watering the streets and then either sweeping them with horse brooms or horse-propelled squeegees, or flushing them with a stream from a hose accompanied by work with hand brooms or squeegees. The dirt is pushed to the sides of the street and then it is swept into piles and left to be removed by collecting carts.

In European cities it is considered of great importance that the streets should be kept in good repair, for it is impossible to keep bad streets clean.

The removal of street refuse in Paris is carried on chiefly by means of sewers. These were originally intended to receive all kinds of street litter, but it is considered advisable to remove as much as possible with brooms. By means of an immense supply of water there is an almost continuous flushing of gutters.

Gutter flushing exists throughout Europe in cities of every size, but Paris makes the most use of it. In London

the streets are flushed every night except when it is so cold that ice may form. The hydrants are placed 120 feet apart, and since much skill is required the man at the hose receives more pay than the other workmen of his grade. Flushing is very effective when preceded by a sprinkling and in five hours, with one man at the nozzle and two with squeegees, a mile of asphalt can be cleaned.

During the day the streets are swept both by hand and by machine, and the waste is carried away in large carts.

For temporary storage of refuse from the streets, iron bins have been constructed, on the outside of which is a basket of fruit skins, etc., and these are emptied as often as necessary.

When a snowstorm is approaching, as is the custom in all other European cities, the street cleaners scatter salt of the color and consistency of coarse sand over the streets. When the snow falls on this it melts and runs to the sewers. If the snow falls too rapidly or the weather is too cold for the snow to melt, slush is formed, and this is flushed away into the gutters.

A CLEAN CITY.—CITY BUILDINGS.

By WILLIAM E. DONEGAN, *South Boston High School*.

Modern hygiene has decreed that dirt must go; the microbe, the germ must vanish before the relentless advance of present day sanitation.

We no longer will endure the bad air of a dirty alley to prey upon the lives of the children, no longer allow disease-stricken people by their personal uncleanness to transmit those deadly germs to their unfortunate neighbors.

The question comes up, how can we educate the citizens up to the ideals of cleanliness? How can we make Boston the world's cleanest city and a matter of civic pride, the glory of even the humblest of our citizens?

It is an acknowledged fact that the best teaching is that where the force of example is made a powerful factor. Couldn't we adopt this method with our citizens? Give them a standard of cleanliness, healthfulness by which they may govern themselves, an ideal of purity to attain. What better example could we set before them than our city buildings?

Our public libraries represent our ideal in literature, why not an ideal of wholesomeness also? Our courthouses speak to us of law and order, why not of health and wholesomeness also? Our schools teach us of knowledge and power that it brings, why can it not tell of the power and strength of cleanliness?

We spend thousands of dollars upon our museums in order that they may show ideals of the æsthetic in our people, why can they not typify also ideals of cleanliness, for it is by example that we teach. It is not enough to appeal to the ear and the eye, the whole nature must have its appeal and corresponding response. Some one once said, "If you wish to keep a man out of the mud, black his boots." There is a great deal of philosophy wrapped up in this remark that could be applied to our buildings. If we wish to make our people clean let us surround them with only the most wholesome and the most untainted city property.

"A CLEAN CITY."

Let our city buildings shine out like beacon lights ever guiding the way to the clean and the pure; ever realizing the ideal of the hygienic and clean City of Boston.

FINANCE COMMISSION.

BOSTON, July 8, 1914.

HON. JAMES M. CURLEY:

SIR,—On April 8, 1914, the Finance Commission wrote to your Honor, calling attention to the fact that a quantity of pipe, furnished by the Standard Cast Iron Pipe and Foundry Company for the high pressure water service, was not in the condition required by the contract because there were minor defects in the castings of the water pipes and the interior coating of the pipes was in such bad condition that it would not protect the pipes from corrosion. The pipes were inspected by William R. Conard, of Burlington, N. J., who was specially employed by the City of Boston for this particular piece of work. The commission recommended that no further payment be made to the foundry company until the conditions of the contract had been complied with. As the auditor's office has recently communicated with the Finance Commission, notifying it that the contractor had requested payment of \$5,000 on account of the amount due, the commission deems it for the public interest to call the following facts to your attention.

After the first complaint had been made by the commission to your Honor, the interior of a large part of the pipes was recoated by the contractor under the supervision of inspectors of the Public Works Department, and during this process of recoating the work was inspected by the engineer of the Finance Commission. From his inspection and from the information furnished to him by the city employees connected with the work, it appears that the operation of recoating the pipe was substantially as follows:

The interior of the pipes was first cleaned with a wire brush, which removed the loose portion of the original coating, and then was painted with a material commonly known as asphaltum. A few of the pipes had been coated with a preparation of hot coal tar, but the inspector in charge stated that as this process was too slow and expensive the asphaltum preparation had been adopted. The exterior surface of the pipes was not recoated.

As your Honor may be aware, the pipes in question were of special design for the high pressure water service and great care was taken in preparing the original specifications, in order to secure a pipe of a superior quality and a proper protective coating, so that in case of a conflagration, like that of Salem, when the pipes would be in full use, the carrying capacity of them might not be reduced by an inferior grade of coating. It is the height of folly for a city, after expending hundreds of thousands of dollars for a high pressure water service, to take the chances of putting itself in jeopardy of a serious catastrophe by the acceptance of a grade of pipe inferior to that contracted for.

So far as the Finance Commission is aware nothing has developed which renders the coating of the pipes of less importance than at the time the original contract was made, and it believes that a recoating as good as the coating contemplated in the contract should have been insisted upon by the Public Works Department officials. In the opinion of the commission it is of the utmost importance to insist upon the furnishing of a proper pipe, inasmuch as the use for a high pressure water supply might be negated in the very moment when it would be most needed.

The commission from its investigation believes that the contractor has been allowed to recoat the interior of the pipes by a process and with materials which will result in a coating greatly inferior to the coating contemplated in the original contract, and that the interests of the city have been unnecessarily sacrificed by the officials in charge of the Public Works Department, in order that the contractor might be relieved of its responsibility with as little expense as possible.

The commission recommends:

1. That the pipes be rejected, unless the acts of the officials of the Public Works Department have committed the city to their acceptance.

2. That if the acts of the officials of the Public Works Department have committed the city to an acceptance of the pipes already recoated, a substantial rebate be made the city for this inferior grade of coating, and that the remaining pipes which have not been recoated be so treated as to secure the coating required by the specifications, whatever the cost to the contractor may be.

3. That another inspector be employed in future to inspect water pipe castings at the foundry.

4. That the contract be referred to the Law Department for adjustment.

Respectfully submitted,

THE FINANCE COMMISSION,

by JOHN R. MURPHY,

Chairman.

PROCEEDINGS OF CITY COUNCIL.

Friday, July 3, 1914.

Meeting of the City Council held in the Council Chamber, City Hall, at three o'clock p. m., for the purpose of drawing jurors, President McDONALD in the chair, and a quorum present.

Jurors were drawn in accordance with law, as follows (the Mayor not being present):

Two hundred and seventy-five traverse jurors, Superior Criminal Court, Second Session, to appear July 20, 1914:

Daniel E. Lynch, Ward 16; James J. Morris, Ward 20; George W. Pierson, Ward 12; William J. Elton, Ward 20; William T. Scott, Ward 2; Henry Wyner, Ward 20; Walter J. Connell, Ward 16; Michael B. Plunkett, Ward 22; John H. Gilbody, Ward 24; Michael V. Geoghegan, Ward 15; John J. Lyons, Ward 20; James Reardon, Ward 8; Patrick Maguire, Ward 23; George White, Ward 18; George H. Sterritt, Ward 11; Earl E. Barber, Ward 9; Fred L. Benjamin, Ward 15; Joseph J. Monahan, Ward 1; Edward H. Hynes, Ward 2; George B. Haskel, Ward 21; Thomas H. Glazebrook, Ward 20; William Irvin, Ward 15; Thomas Brown, Ward 13; Dominick A. Keating, Ward 1; Frederick W. Goodwin, Ward 20; Abram Jordan, Ward 22; John J. Silva, Ward 1; Frederic W. Mayhew, Ward 23; John D. Berran, Ward 21; Edward F. Kearns, Ward 24; Simon Albert, Ward 6; Frederick F. Noonan, Ward 20; David E. Mixer, Ward 12; Carl W. Melin, Ward 26; Frederick W. Adjourned at 4.12 p. m.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announces an open competitive examination for assistant mining engineer, for men only, on July 13, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Mines, Department of the Interior, for service in the field, in relation to coal mining or metal mining, at salaries ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will include, in one case, investigations in relation to coal mines, and in another case in relation to metal mines, particularly such as concern the causes of mine accidents or waste in mining, and the suggestion of remedies therefor. It is desired to procure the services of persons having a broad training in mining, particularly underground experience.

The commission announces that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announces an open competitive examination for cartographer in agricultural geography, for men only, on July 13, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The duties of this position will be to assist in the preparation of crop, land utilization, and land tenure maps and charts.

The commission announces an open competitive examination, July 13, 1914, for metallurgical engineer, for work in iron and steel, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Mines, Department of the Interior, for service at Pittsburgh, Pa., at a salary ranging from \$3,000 to \$4,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The special duties of the position will be to conduct inquiries and investigations into both safety and efficiency problems in the metallurgy of iron and steel.

The commission announces an open competitive examination for forest inspector, for men only, on July 20, 1914. From the register of eligibles resulting

from this examination certification will be made to fill a vacancy in this position in the Forest Service, Washington, D. C., at \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The duties of this position will consist of directing the cooperative work in forest management carried on with private owners of timber lands in the Eastern United States. The position demands thorough familiarity with theoretical and practical work in forestry and lumbering, including timber cruising, mapping, the direction of logging operations and the management of private forest lands in the Eastern States.

The commission announces an open competitive examination for record examiner, for men only, on July 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position as they may occur in the Department of Agriculture, for service in the field, at salaries ranging from \$1,500 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It is desired to secure eligibles capable of making independent examinations of land titles in connection with the acquisition of forest lands by the Government.

The commission announces an open competitive examination for transitman, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Forest Service, for duty in the field, at salaries ranging from \$800 to \$900 a year, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to assist in the survey of lands to be acquired under the Weeks law in the southern Appalachian and White Mountains.

The commission announces an open competitive examination for dental interne, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$600 per annum, with maintenance, in the Government Hospital for the Insane, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

As an insufficient number of applications were filed for the examination for this position announced to be held on June 3, 1914, qualified persons are urged to enter this examination.

The department states that it reserves the right to terminate the appointment at the expiration of one year of service if it is deemed advisable to do so.

In addition to many interesting cases presented, the dental interne is given an excellent opportunity for study and for doing experimental and research work in the pathological, histological, and other laboratories of the institution.

The commission announces an open competitive examination for map colorist, for both men and women, on July 22, 1914. From the register of eligibles

resulting from this examination certification will be made to fill vacancies as they may occur in this position, at salaries ranging from \$600 to \$720 a year, in the departments at Washington, D. C., or in the field, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for skilled laborer, for women only, on July 22, 1914, at Pittsfield, Mass. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of counter, at \$720 a year, in the Government paper mill, Pittsfield, Mass., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces the postponement from June 17 and 18, 1914, to July 22 and 23, 1914, of the open competitive examination for law assistant, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of law clerk in the office of the Solicitor, Department of Agriculture, Washington, D. C., at entrance salaries of \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for investigator in poultry and egg handling, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Chemistry, Department of Agriculture, for service in the field, at salaries ranging from \$1,200 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will involve scientific investigations of eggs and poultry in transit; cooperation with the producers of these products; and demonstration to the producing farmers and handlers of the most desirable methods of preparation, packing and transportation of these products.

The commission announces an open competitive examination for nautical expert, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position at entrance salaries of \$1,000 per annum in the Hydrographic Office, Bureau of Navigation, Navy Department, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The salaries paid in this position range from \$1,000 to \$1,800 a year, promotion being dependent upon the occurrence of vacancies and demonstrated fitness of persons in the service.

The duties of a nautical expert in the Hydrographic Office comprise in a general way the correction of charts and publications; writing and compiling notices to mariners, light lists, sailing directions and other nautical matter; measuring and computing distances and answering nautical inquiries.

As insufficient eligibles were obtained from the examination for the position held May 6, 1914, qualified persons are urged to enter this examination.

The commission announces an open competitive examination for scientific assistant in marketing and distribution, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Office of Markets, Department of Agriculture, Washington, D. C., at salaries ranging from \$1,400 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The Office of Markets is carrying along the following lines of work: Market surveys and market news investigations; grading and standardization; packing, transportation, storage and cost investigations; organized production and marketing, city distribution and parcel post marketing. Persons appointed as the result of this examination will be assigned to the various divisions of the work in accordance with the special qualifications they show in the examination or which they develop during their probationary period.

The commission announces an open competitive examination for copyist marine engine and boiler draughtsman, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Steam Engineering, Navy Department, Washington, D. C., at \$3.04 per diem, and vacancies as they may occur in positions requiring similar qualifications at entrance salaries ranging from \$2.80 to \$3.28 per diem, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for apprentice plate printer, for boys only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of plate printer's helper, at \$700 a year, in the Coast and Geodetic Survey, Department of Commerce, Washington, D. C., and vacancies as they may occur in the position of apprentice plate printer in the Bureau of Engraving and Printing, Washington, D. C., and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary of apprentice plate printers is \$1 per diem.

The commission announces an open competitive examination for mechanical draftsman, for men only, on July 22 and 23, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Panama Canal Service, at entrance salaries ranging from \$125 to \$150 a month, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for instrument maker, for men only, on July 27, 1914. From the register of eligibles resulting

from this examination certification will be made to fill a vacancy in this position at \$3.84 per diem at the Naval Observatory, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for assistant in agricultural education, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the office of Experiment Stations, Department of Agriculture, Washington, D. C., at salaries ranging from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include correspondence, report writing, editing and the preparation of original articles concerning different phases of agricultural education, including instruction in regular college and school courses, various forms of extension teaching, farmers' institutes, etc. This position also calls for some field work, that is, work outside of Washington, studying problems in agricultural education, studying educational institutions, attending conferences and giving addresses at important public meetings.

The commission announces an open competitive examination for assistant in plant malnutrition, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in the plant malnutrition work in the office of Biophysical Investigations in the Bureau of Plant Industry.

It is desired to secure applicants well qualified in soil physics, plant physiology and biochemistry.

The commission announces an open competitive examination for chief, section of derived products, for men only, on August 3, 1914. From the register of eligibles resulting from this examination, certification will be made to fill a vacancy in this position in the Forest Products Laboratory, Forest Service, Madison, Wis., at a salary of \$3,000 to \$3,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of the direction of investigations in the utilization of woods, and particularly of various forms of wood waste, by distillation and other chemical processes, including the production of naval stores, of hardwood distillates, and of ethyl alcohol. Personal investigation in some one of these fields will be part of the work, and general advice on all of the investigations and activities of the laboratory involving chemical methods or processes, will be required.

The commission announces an open competitive examination for chemical engineer, for men only, on August 3, 1914. From the register of eligibles resulting from this examination, certification will be made to fill a vacancy in this position in the Bureau of Mines, Department of the Interior, for service at Pittsburgh, Pa., at a salary ranging from \$2,400 to \$4,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct investigations in applied physical chemistry in its relation to fuels, oils and gases.

The commission announces an open competitive examination for assistant in farm management, for men only, on August 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to conduct investigations concerning the relation of farm enterprises to geographic factors. It is desired to secure applicants experienced in field investigations, in collecting data, and in classifying and filing material collected.

The commission announces an open competitive examination for junior zoologist, for men only, on August 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Animal Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be laboratory and field work in the investigation of animal parasites and routine work carried on in the Zoological Division of the Bureau of Animal Industry.

The commission announce an open competitive examination for laboratory apprentice, for men only, on August 5 and 6, 1914, at the places mentioned in the list printed hereon. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at salaries of \$480 per annum in the Bureau of Standards, Department of Commerce, and vacancies as they may occur in positions requiring similar qualifications, at entrance salaries ranging from \$480 to \$540 per annum, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

As an insufficient number of eligibles were obtained from the examination for this position held on April 8 and 9, 1914, qualified persons are urged to enter this examination.

Two days will be required for this examination.

STREET COMMISSIONERS.

Breed street, East Boston, has been extended and the grade to Bennington street established.

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for cabinet laboratory fittings and other work at the Mechanic Arts High School, Belvidere and Dalton streets, Boston, Mass., and giving bond of a surety company therefor in the sum of \$700. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Tuesday, July 21, 1914, at said office, with a certified check for \$150, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

JOSEPH P. LOMASNEY,
CHARLES B. PERKINS,
WILLIAM F. KEARNS,
Commissioners.

(July 11.)

CITY OF BOSTON.

Commissioners.

(July 11.)

CITY OF BOSTON.

PROPOSALS FOR 2-INCH BITUMINOUS TOP SURFACE IN CHANDLER STREET, CITY PROPER.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for furnishing and laying a 2-inch bituminous top surface in Chandler street, between Berkeley and Dartmouth streets, city proper, and giving bond therefor of a surety company approved by the commissioner in the sum of three thousand dollars (\$3,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Surface, Chandler Street," and left at Room 62, fifth floor, City Hall, before 12 m. on Friday, July 17, 1914, with a certified check for one thousand dollars (\$1,000), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The contractor must furnish his own specifications and attach same to the proposal. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 9, 1914. (July 11.)

CITY OF BOSTON.

TO BOILER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for repairing and retubing horizontal return tubular boilers for various schoolhouses throughout the city, and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by bidder and left before 12 o'clock noon of Tuesday, July 21, 1914, at said office, with a certified check for \$100, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

CHARLES B. PERKINS,
WILLIAM F. KEARNS,
Commissioners.

(July 11.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR SEWERAGE WORKS IN MANTHORNE ROAD AND PRIVATE LAND, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for sewerage works in Manthorne road and private land, between Centre street and upper end of Bussey brook, West Roxbury, and giving bond therefor of a surety company approved by the commissioner in the sum of three thousand (3,000) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposals for Sewerage Works, Manthorne Road," and left at Room 62, fifth floor, City Hall, before 12 m. on Wednesday, July 15, 1914, with a certified check for one thousand (1,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 9, 1914. (July 11.)

CITY OF BOSTON.

PUBLIC AUCTION.

By order of the Superintendent of Public Buildings, all furniture and fittings in the building 100 Summer street will be sold upon the premises Thursday, July 16, at 10.30 a. m. Terms cash. Goods to be removed immediately.

RICHARD A. LYNCH,
EDW. W. FOYE,
Municipal Auctioneers.
30 State Street, Room 505. Tel. F. II. 5882.
(July 11.)

CITY OF BOSTON.

SALE OF BUILDING TO BE REMOVED.

The Schoolhouse Commission of the City of Boston will sell at public auction on Tuesday, July 14, at 10 a. m., on the premises, a part of the buildings numbered 39, 40, 41 and 42 Blossom street, West End, to be removed, the same being the wooden and brick ells in the rear of said buildings. Terms: Purchase price in full in cash at time of sale. Ten days from date of sale will be allowed for removal of buildings.

For further information inquire of
JOHN C. KILEY, 18 Tremont Street.
(July 11.)

CITY OF BOSTON.

EDWARD W. FOYE, *Municipal Auctioneer.*
Room 505, 30 State Street. Tel. F. II. 5882.

Will sell at public auction, Friday, July 17, at 3 p. m., upon the premises, a parcel of land, under the authority of the following order passed by the City Council and approved by the Mayor June 30, 1914, viz:

June 11, 1914.
Ordered, That his Honor the Mayor be and hereby is authorized to sell at public auction, at not less than the assessed valuation (35 cents per square foot), the parcel of land on Cambridge street, corner of Mansfield street, in the Allston district, containing 13,948 square feet, more or less, and upon such sale his Honor the Mayor is hereby further authorized, in the name and behalf of the city and by an instrument or instruments satisfactory to the Law Department, to convey said land to the purchaser or purchasers thereof.

In the City Council, June 11, 1914.
Read once and passed, yeas eight, nays none.
JAMES DONOVAN, *City Clerk.*

In the City Council, June 29, 1914.
Read a second time and again passed, yeas nine.
JAMES DONOVAN, *City Clerk.*

Approved.
JAMES M. CURLEY, *Mayor.*

CITY OF BOSTON.

TO FURNITURE CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for furnishing, delivering and setting up in the halls of the various schoolhouses throughout the city for a period of one year, beginning July 1, 1914, opera chairs of the kind and quality as per specifications and samples on exhibition in the office of the Schoolhouse Commissioners, and giving bond of a surety company in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Tuesday, July 21, 1914, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

THE COST OF COLLECTING OF ASHES.

The municipal collection of ashes has been under discussion in the city of Providence, and incident to the consideration of the matter, a number of householders of the Rhode Island metropolis engaged Mr. C. D. Morse of Brown Uni-

versity to obtain data relative to methods employed in leading American cities.

It appears that six cities, Worcester, New Haven, Kansas City, St. Paul, Denver and Portland, Ore., require the householder to dispose of his ashes and waste material.

The following table is instructive:

CITY.	Cubic Yards Collected per Capita.	Cost per Capita.	Cost per Cubic Yard.	Cubic Yards Collected per Man Employed.	Population Served per Man Employed.
Cambridge.....	1.50	\$0 50	\$0 33	2,492	1,657
Detroit.....	1.44	72	50	1,822	1,258
Boston.....	1.44	83	58	1,933	1,342
Buffalo.....	1.42	33	23	2,884	2,026
Syracuse.....	1.30	27	21	5,870	4,487
Washington.....	.93	26	25	2,899	3,116
Lowell.....	.90	14*	15	4,092	4,531
Cincinnati.....	.77	35	45	2,079	2,691
Milwaukee.....	.73	57	77	734	1,000
Cleveland.....	.64	33	51	2,205	3,411
Fall River.....	.62	33	53	1,881	3,988
Chicago.....	.61	36	59	2,410	3,949
Rochester.....	.41	85	2 09	407	1,001
Minneapolis.....	.15	18	1 22	714	4,621
Average.....	.92	45	60	2,316	2,791

* Expense of labor only included.

Many of the cities could not furnish figures as to both amount collected and cost of collection. It was found that in Providence the cost for private removal of ashes is \$1.25 for a 2-cubic yard load, 10 cents for a household can. One office building pays \$150 a year, another \$812. The common method among householders is to store ashes and rubbish in the cellar or back yard and have it removed two or three times a year—this storing being often unsanitary and unsightly. In some cities where the municipality performs the service the array of ash cans and rubbish along the street on the days when collections are made is unsightly. While this objection holds good in many cities it is not characteristic of municipal collection. There are several ways of avoiding this trouble. In Milwaukee, New York City and other places the collections are made at night. In Syracuse the city ordinances require that empty cans shall not remain on the sidewalk for more than one hour after being emptied. In Springfield, Mass., the city collectors even go into basements and return cans there when emptied. In Montclair, N. J., this is also done, if the householder desires, for the payment of a small additional fee.

Mr. Morse in his report declares:

"In Providence the habit among householders has been to keep ashes and rubbish cans in the basement. In the cities having municipal collection, cans are kept on the ground level in the rear yard.

"In carrying away the waste from the premises the best plan wherever possible is to collect on rear alleys. Where not possible the street in front of the residence or store must be used. It would seem that the night plan of collection, found very satisfactory in many cities, could be applied to Providence. In the residential districts the cans could be placed on the curb the night before, collected early in the morning and the empty receptacles returned to the back yard.

"The residential and down-town business districts could thus be accommodated early in the day so that except for a few

hours in the morning one day a week the street could be kept entirely free from cans and rubbish. The wharves, storehouses and factory districts could be attended to later."

MUNICIPAL ENGINEERS AND EXPERTS.

"There is no field of municipal work where the engineer has the opportunity to develop greater versatility than in the moderate sized city, corresponding, say, with cities of the second class in New York state. Here the city engineer, appointed by the mayor, is a voting member both of the board of estimate and apportionment and of the board of contract and supply. He is called upon to exercise control over almost every kind of public work incidental to the modern city. The work may not be of the magnitude to be found in the greater cities, but its variety is far greater than that which comes to the engineer of cities of the first class, where jurisdiction and responsibility are subdivided. Having less of a certain kind of work to do, he takes it very seriously and it is often exceptionally well done.

"The practice of electing a city engineer by the council or other legislative body, or, as is done in some cases, by popular vote, cannot be too strongly condemned. Past experience has given good ground for the general statement that no man should be selected to do professional or highly technical work by election, whether that election be by the general public or by a legislative body. Those who are called upon to vote for candidates for such an office have no means of knowing their peculiar qualifications, or lack of qualifications, and better results will almost invariably be obtained if responsibility for the appointment of a man to do such work is vested in the chief executive of the city."

The above is part of an address delivered by Nelson P. Lewis, chief engineer of the Board of Estimate and Apportionment of New York City, before the graduate students in highway engineering at Columbia University; and there are two

points in this brief quotation which seem to us to deserve special recognition—the reasons advanced for appointing rather than electing a city engineer; and the great variety of the work which he must undertake and the fact that this is "often exceptionally well done."

With the latter point we are frequently impressed as we come into contact with engineers of the smaller cities. The duties of the city engineer of a large city are often more executive than technical, and both he and his subordinates are too overwhelmed with details to give adequate study to the problems presented; and so for year after year they follow standard methods, use standard plans and specifications, and depart from the old standard of practice only after most of the more progressive moderate sized cities have led the way.

The city engineer of a medium sized city has, in fact, unusual opportunities for obtaining wide engineering experience, since he is called upon in many cases to act as designing and constructing engineer in connection not only with sewers, water works and street pavements, but also bridges, street railway tracks, buildings, river improvements, retaining walls, and almost every kind of structure which is included under the head of engineering.

That he should be an expert in all of these branches is impossible; that he should be even reasonably competent in all of them is hardly to be expected, when we consider that, for the salaries ordinarily paid to city engineers, young and comparatively inexperienced engineers, only can be obtained. City Councils should realize this, and city engineers should not be ashamed to confess it, since it is certainly in no way to their discredit, and to seek expert advice on important or novel work.

Probably in no one feature are American cities so far behind the most successful European ones as in the proper utilizing of expert services—expert mayors as well as expert engineers; and city engineers should not only consider it as no reflection upon their ability, but should even recognize it as a duty to their city and to their profession, to insist that when they are called upon to undertake any important work, the city should employ an expert in that particular line to advise them. None but a large city could, of course, expect to retain on its payroll experts in various lines or even in one line; and an expert in one line would probably be less effective in carrying on the general routine work of a city engineer than the average man that fills that position.

The city engineer's duties are most diverse and important, and when well carried out deserve as much credit and may require as much talent as those of the best paid consulting expert. But part of his ability is the recognition of the times (which will come in the history of most of them) when the best interests of the city as well as his own reputation call for the advice of an expert in the particular subject involved, and he should not hesitate to urge that such advice be obtained. On the other hand, the city should not expect the engineer to pay for this advice, but should do so themselves; since they should realize that the salary which they are paying is not sufficient to engage for them expert knowledge in a dozen different branches, or probably even in one, but that the engineer, although not a specialized expert, is probably giving them more than their money's worth in carrying out the ordinary work entrusted to his charge.

— *Municipal Journal.*

CITY DOCUMENTS.

The following city documents of the current year are now ready and can be had from the office of the City Messenger, Room 24, City Hall, until the edition is exhausted:

Doc. No.

1. Inaugural address of Mayor Curley.
3. Annual report of the Assessing Department.
4. Annual report of the City Auditor.
5. Annual report of the Board of Appeal.
7. Annual report of the Cemetery Department.
8. Annual report of the Children's Institutions Department.
9. Annual report of the City Clerk.
11. Annual report of the Consumptives' Hospital Department.
12. Annual report of the Election Department.
18. Annual report of the Law Department.
20. Annual report of the Market Department.
29. Annual report of the Sinking Funds Department.
30. Annual report of the Soldiers' Relief Department.
33. Annual report of the Supply Department.
34. Annual report of the Treasury Department.
39. Message from the Mayor transmitting the estimates from the heads of departments for the current year.
40. Ordinances of the City Council up to February 1, 1914.
41. Report of the Committee on Rules.
42. Report of the City Auditor for February 1.
43. Ordinance concerning the building limits.
44. Report of the City Treasurer for the month of February.
45. First location of the Carnegie Steel Company.
46. Report of the City Auditor for the month of February.
47. Report of the City Collector for the month of February.
48. Four hundred and thirty-fourth location of the West End Street Railway Company.
49. Freight track location granted to Fred L. Hewitt.
50. Jury List for 1914.
51. Four hundred and thirty-fifth location of the West End Street Railway Company.
52. Auditor's Quarterly Statement of Contingent Expenses.
53. Report of the City Auditor for the month of March.
54. Report of the City Treasurer for the month of March.
55. List of Constables.
56. Report of the City Collector for the month of March.
57. List of officials paid by fees.
58. Report of the Committee on Appropriations.
59. Ordinance concerning the sales of land.
60. Ordinance relative to the Park and Recreation Department.
61. Ordinance concerning the building limits.
62. Report of the City Treasurer for the month of April.
63. Report of the City Auditor for the month of April.
64. Report of the City Collector for the month of April.
66. Report of the City Treasurer for the month of May.

Doc. No.

67. Four hundred and thirty-sixth location of the West End Street Railway Company.
68. Four hundred and thirty-seventh location of the West End Street Railway Company.
69. Report of the City Auditor for the month of May.
71. Report of the City Collector for the month of May.
72. Four hundred and thirty-eighth location of the West End Street Railway Company.
73. Ordinance concerning the Printing Department.
74. Contracts with the Boston Consolidated Gas Company.

BOSTON'S MUNICIPAL GYMNASIA.

The following is a list of the free Park and Recreation gymnasia and instructors in charge:

Curtis Hall, Jamaica Plain.—Joseph J. McNamara.
Cabot Street, Roxbury.—Matthew M. Leary.
Columbia Road.—George E. Fraser and William E. Mullen.

Ward 9, Harrison Avenue.—Henry J. Brennan.
Ward 7, Tyler Street.—John A. Lane.
D Street, South Boston.—Leo C. Knebel.
North Bennet Street, North End.—James F. Winston.
Paris Street, East Boston.—John J. Driscoll.
Bunker Hill Street, Charlestown.—Maurice R. Smith.

All of them are conducted entirely free of charge. Membership in a class in any one of them may be obtained by making application to the instructor. The requirements are simple. Each applicant must agree to observe the rules of the gymnasium, and must provide himself with proper gymnasium costume.

Classes for men will be held on Tuesday and Friday mornings at 10.30 and in the evenings at 8 o'clock. The morning lessons are devoted largely to men who are preparing for civil service examinations for Police and Fire Departments, but in the night classes all grades of instruction are offered.

Classes for women are held on Mondays and Thursdays. At 10.30 in the morning instruction is given in calisthenics, general upbuilding exercises and in gymnastic and æsthetic dancing. At 8 o'clock in the evening similar instruction is given to young ladies and working girls. And at 4.30 in the afternoon school girls' classes are formed for games, dancing and calisthenics.

Wednesday and Saturday afternoons and Saturday mornings classes are held for school boys. They are given gymnastic drills, athletics and play. And on Wednesday and Saturday nights classes are formed for working boys. They are given recreational exercise and athletics. Both school boys and working boys are given much time for free play.

GYMNASIUM HOURS AND CLASSES.

MONDAY — WOMEN AND GIRLS.

Women, 10 a. m. to 12 m.; class at 10.30. School Girls, 3 to 6 p. m.; class at 4.30. Women, 7.30 to 10 p. m.; class at 8.

TUESDAY — MEN AND HIGH SCHOOL BOYS.

Civil Service Class, 10 a. m. to 12 m.; class at 10.30. High School Boys, 3 to 6 p. m. Men, 7 to 10 p. m.; class at 8.

WEDNESDAY — MEN, SCHOOL AND WORKING BOYS.
Men, 10 a. m. to 3.30 p. m.; School Boys, 4 to 6 p. m.; class at 4.30. Working Boys, 7.30 to 10 p. m.; class at 8.

THURSDAY — WOMEN AND GIRLS.

Same as Monday.

FRIDAY — MEN AND HIGH SCHOOL BOYS.

Same as Tuesday.

SATURDAY — SCHOOL AND WORKING BOYS AND MEN.

Junior Boys, 10 a. m. to 12 m. Senior Boys, 2 to 4 p. m.; class at 2.30. Men, 4 to 6 p. m. Working Boys, 7.30 to 10 p. m.; class at 8.

OPPORTUNITIES FOR BATHING.

The Park and Recreation Commissioners have provided every possible facility for the enjoyment of bathing during the present season.

The list of houses are as follows and are open from 2 p. m. until 10 p. m. daily:

Curtis Hall, Jamaica Plain (swimming pool).
Cabot Street, Roxbury (swimming pool).
Columbia Road, Dorchester.
Ward 7 Gymnasium, Tyler street.
Ward 9 Gymnasium, Harrison avenue.
Dover Street Bath, city.
D Street Baths, South Boston.
North Bennet Street Baths, city.
East Boston Baths, Paris street, East Boston.
Ward 3 Baths, corner Lexington and Bunker Hill streets, Charlestown.

The beaches of the city are opened from three hours before to three hours after high tide, with the exception of I. street, from 6 a. m. until 10 p. m., and they are as follows:

L Street Beach, South Boston.
Tenean Beach, Neponset.
Freeport Street, Dorchester.
Savin Hill Beach, Dorchester.
McKenzie Beach, South Boston.
North End Park, city, Ward 6.
Dewey Beach, Charlestown.
Wood Island Beach, East Boston.

Instructors and life guards are present at all times during the bathing period.

The list of floating houses and their locations are as follows:

Jeffries Point, East Boston.
Border Street, East Boston, 2 houses, men and women.
Warren Bridge, Charlestown, 2 houses, men and women.
Charlesbank, city, West End, 2 houses, men and women.
Dover Street Bridge, city, 2 houses, men and women.
Fort Point Channel, city, near South Station, men only.

BOSTON'S FREE RECREATION OPPORTUNITIES.

RECREATION AND HEALTH AGENCIES, MAINTAINED BY CITY OF BOSTON.

Three Swimming Pools—Admission, 15 cents; lessons free.

Ten Free Public Gymnasias.—With instruction in all branches of physical education.

Free Public Shower Baths.—With hot and cold showers and comfortable dressing closets.

Free Golf Course in Franklin Park.—With small course for beginners.

Excellent Tennis Courts.—At Franklin Park, Franklin Field and Wood Island Park. Many good tennis courts on other grounds.

Franklin Park.—With its beautiful drives and walks, its Zoo, including largest bird house in the country and an exceptional collection of bears.

Beautiful Aquarium.—At Marine Park, City Point. Fine collection of varied species of fish.

Public Gardens.—With beautiful walks and seasonal floral exhibitions.

Arnold Arboretum.—With its wonderful collection of trees and shrubs.

Olmsted Park.—With its beautiful scenery, fine walks, and its Children's Museum.

GAMES AND SPORTS.

Basketball.—Courts in most of the gymnasia.

Handball.—Finest court in New England at East Boston Gymnasium.

Squash.—Can be played in the East Boston Handball Court.

Football and Soccer.—Numerous fields throughout the city.

Ice Hockey.—Many rinks kept in condition during season.

Skating.—On many parks and on most playgrounds during season.

Tobogganing.—Slide at Franklin Park in season.

Park Walks with Guide.—Weekly when weather is favorable.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, JULY 18, 1914.

No. 29

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By Subscription \$1.00 Per Year.
Single Copies 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 37, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, August 10, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, City Hall Annex.

PUBLIC HEARING.

The directors of the Port of Boston will give a hearing upon the application of Louis K. Rourke, Commissioner of Public Works, for license to rebuild Malden Bridge, in accordance with chapter 777 of the Acts of 1913, in and over the tide-waters of Mystic river, in the City of Boston, at the office of the directors, 40 Central street, upon Thursday, July 30, at 9.15 a. m.

MAYOR CURLEY APPEALS TO NAVY DEPARTMENT.

Mayor Curley has made a vigorous appeal to Hon. Josephus Daniels, Secretary of the Navy, in behalf of the issue of an executive order in approval of the rate of wage recommended in behalf of the chainmakers' helpers, employed at the Boston Navy Yard, and submitted by Assistant Constructor Drake, U. S. N.

The chainmakers' helpers quit work upon July 7, owing to failure to secure the wage of \$2.72 a day, recommended by Assistant Constructor Drake.

The chainmakers were subsequently compelled to abandon work because they were powerless to properly perform their work without the aid of experienced helpers.

The chainmakers are held responsible for all work and declare it is impossible to meet the standard demanded with inexperienced men as helpers.

In a determined effort to end the wage disagreement, Mayor Curley sent the following communication to Secretary Daniels:

July 16, 1914.

HON. JOSEPHUS DANIELS,
Secretary of the Navy:

MY DEAR MR. DANIELS,—I very much regret to report an unfortunate condition of affairs at the Boston Navy Yard, which has resulted in the men engaged as chainmakers' helpers leaving work owing to a dispute over settlement of wage and the subsequent retirement of the chainmakers, who are powerless to perform the customary labor without the aid of experienced helpers.

The allegation of the chainmakers' helpers is that no increase in wages has been received in twenty years, notwithstanding the fact that the labor, which they are compelled to perform, has increased in ratio from 100 to 125 per cent.

I am advised that Assistant Naval Constructor Drake directed investigation of this entire subject matter and that an agreement was subsequently reached insofar that a recommendation was presented to Naval Constructor Baxter that the pay of these men be \$2.72 the day.

This was an increase of 32 cents a day in the wages of men of this rating and also consisted of a concession on their part in the amount of 8 cents a day.

I am further advised that all chains used in the naval service are forged at the Boston Navy Yard and also that the chains used in the operation of the Panama Canal are forged here.

I sincerely trust that in order to alleviate a most unfortunate situation and to provide an opportunity for hardworking men of an especially laborious calling to return to their customary pursuit, you may be able, after due consideration, to issue an executive order insofar that the agreement made by the Assistant Naval Constructor may be formally ratified and approved.

Faithfully yours,
JAMES M. CURLEY, Mayor.

NECESSITY FOR NEW DRYDOCK.

Hon. Jerome Jones and Mr. Charles E. Gibson, members of the Committee on Maritime Affairs of the Boston Chamber of Commerce, presented to the Governor of the Commonwealth and members of the Executive Council on the 15th instant, a carefully reviewed argument in advocacy of the building of a drydock for the port of Boston.

The argument formally presented by Mr. Jones, and a copy of which he has kindly prepared for the *City Record*, is as follows:

The question of the development of the port of Boston is an important one, not only to the commercial and industrial interests but to the traveling public.

The nine million dollars secured has been productive of important results on both the East Boston and the South Boston sides. In 1895 the state was alive to the question, and sent three competent men abroad to study dock development in Hamburg, Bremen, Antwerp, London and Liverpool. They brought back blueprints, photographs and statistics, now in the archives of the Harbor and Land Commission.

The Commonwealth Pier was built, but was not then completed for the use of large over-sea steamers. The White Star Line were not properly accommodated at Hoosac Tunnel docks. The dock was so short that the sterns of vessels were injured by passing craft, and also all the hatches could not be worked at one time for want of room.

The question came before the Port Directors none too soon, and we have all witnessed the results in the present year of the Hamburg Line and the White Star, proving the wisdom of dock development. Since the widening and deepening of the channels the Cunard Company have put on larger boats and more frequent sailings.

Now we come to the most important feature, the big dry dock. No port is complete without such a possession to meet the requirements of big ships needing dry-docking. The Port Directors, after careful study of experts, submitted plans for bids, and the state has had the benefit of competition, and the question is before your Council to approve so that the work can be promptly executed. Arguments are set up to oppose and delay the work for various reasons. One is that the building of some large docks has failed the contractors. The Port Directors have safeguarded against any such happening. Inquiries will prove that the present contractors have demonstrated their financial and practical ability and reliability beyond question. The one attempted in Brooklyn failed because they had not the proper foundation. Expert engineers have found a rock foundation at South Boston ample of carry the burden. The same objection was raised when the dry dock was built at the Navy Yard in 1899, but it was proved to be ample.

Some have raised the point that it is unnecessarily large, but experienced steamship owners say it is necessary. Others say that the dry dock is not needed here because we have gotten along without it all these years. In answer to that we have to say, that to prove the necessity of such a dock in this port the steamship companies, the Hamburg-American, the Cunard, the White Star and other companies have made a contract with the Port Directors to pay into the State Treasury the sum of \$50,000 per annum for twenty years whether they use it or not. Is not that a sufficient answer to those who carp about the build-

ing of the dock? It is up to you gentlemen to settle this question without delay.

We hear but one voice among the business men who are familiar with the needs of this port, the Chamber of Commerce in which there are 4,500 members, and we hear no discordant voice as to the need of it. There are always those who take an opposite view. When the tunnels in the North river were proposed several years ago, the same objection was made because there was no proper rock foundation. Hon. William G. McAdoo had soundings made and found that away down it was silt. Silt had been coming down the Hudson for a thousand years, but engineers said that they could build a tunnel through that silt, and so lock it together that it would be reliable. Their calculations proved sound, and several other tunnels are now in operation on a similar condition. I mention these facts in connection with the question before your Council.

Shall we be held up by objections which always come before important projects?

As you know fifty years ago when the Hoosac Tunnel was proposed, it was opposed violently for several sessions of the Legislature. It was claimed that it would reduce the cost of transportation of food-stuffs and raw materials coming into New England, and also serve lower freight rates on the finished product going West to the great mass of consumers, and that claim proved sound. The tunnel was built at a cost of twenty-five million dollars. It saved New England industrially and commercially, and while there never was any cash dividend to the State Treasury, it came back several times over for the benefit of the masses and New England. It is continuing to serve the important purpose for which it was built.

The policy of having dock development, including the dry dock, has been proved out by previous Councils and the Legislature, and it is to be hoped that technicalities will not be allowed to delay a project that has been accepted by the majority of the Port Directors, and the sooner it is completed the sooner the State will receive fifty thousand dollars per annum, and the port be attractive to the largest ships in over-sea traffic, including the Panama Canal traffic, which is to be available for new lines the present season.

The New York waterfront is overcrowded, and the overflow has come to this port, which is about a day's sail nearer Europe than New York, Philadelphia, Baltimore. Therefore, it is up to you gentlemen to approve of the contract decided upon by the Port Directors.

A big city without an adequate dry dock is like a big city without a big hospital.

CORPORATION COUNSEL WILL REPORT.

Mayor Curley has conferred with representatives of the Law Department and the Fire and Public Works Departments as to the report of the Finance Commission recommending that pipes furnished by the Standard Cast Iron Pipe and Foundry Company for the high-pressure water service be rejected, unless acts of the officials have committed the city to their acceptance. The commission asserted that the pipes are not up to standard.

It is agreed to turn the matter over to Corporation Counsel Sullivan, who will investigate the matter in the most thorough manner.

BIDS FOR NAVAL SUPPLIES.

The present activity in Army and Navy circles has resulted in the opening of bids for many supplies. The attention of Boston merchants is particularly called to these bids. The Navy Department invites proposals for furnishing the following supplies:

Bids will be received until July 21 for the following: Schedule 6964, bath brick, oxalic acid; schedule 6957, squirt cans, padlocks, pipe wrenches, screw wrenches; schedule 6956, iron or steel cement, litharge, muriatic acid, sulphuric acid, alcohol, beeswax, calcium carbide, paint drier, petrolatum, paint and varnish remover, gum shellac; schedule 6961, charcoal, coal for rivet forges, window glass, rubber air hose, suction hose, wash-deck hose, pump leather, rigging leather, ash oars, fishing seines; schedule 6979, furnishing and applying bituminous compositions; schedule 6960, gravel and sand for concrete; schedule 6958, white ash, iron bark, Port Orford cedar, Douglas fir, white hickory, laurel, white oak, redwood, shingles, fir shiplap; schedule 6962, silver anodes, round naval brass, sheet brass, sheet copper, monel metal; schedule 6963, antimony; schedule 6959, medium bronze, sheet lead, medium steel, sheet zinc.

Bids are invited until July 28 for the following supplies: Schedule 6980, garbage incinerator; schedule 6969, forming machine, horizontal single-feed pumps, hydraulic pumps; schedule 6967, wire rope, drop-forged steel sockets, special mixing varnish; schedule 6968, universal saw.

Boston firms desiring to bid should make immediate application to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., and give the schedule number of all bids for information desired, as printed above.

NO LICENSE FOR SUNDAY BALL.

Assistant Corporation Counsel George A. Flynn has advised Mayor Curley that no license can be legally issued for a baseball game upon Sunday, 19th instant, at Fenway Park, Back Bay, between clubs of the American League, for the benefit of sufferers from the Salem fire.

The statement of Mr. Flynn is as follows:

"In answer to your question relative to the issuance of a license for a Sunday baseball game to be given for the benefit of the Salem sufferers, I desire to say that the statutes relating to the observance of the Lord's Day make it unlawful to be present at, or to take part in, any game, sport, play or public diversion on the Lord's Day. The only exceptions to this law are sacred concerts, open-air free concerts and public entertainments in keeping with the character of the day and not inconsistent with its due observance (Acts of 1908, chapter 385), which may be licensed by the Mayor, and which may be given, if approved by the chief of the district police.

"In my opinion this statute does not authorize the issuing of a permit for Sunday baseball, no matter how worthy the charity for whose benefit it is played. The issuance of such a license would, in my opinion, be beyond the authority vested in you by the above statute and therefore illegal.

"This construction of the statute is strengthened by the fact that in the last few years the General Court has been petitioned for legislation to permit Sunday baseball and it has always been denied."

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

BOSTON TRANSIT COMMISSION.

Advertises for proposals for constructing two entrances, chiefly of granite, to the Dartmouth street lobby of the Copley Station of Boylston Street Subway. Specifications and forms of contract may be obtained at the office of Fox & Gale, architects, 3 Park street. Bids to be filed at the office of the commission, 15 Beacon street.

Bids close Tuesday, July 21, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

George J. Regan, \$377.08; Louis Balboni, \$483; Antony Cefalo, \$504.22; Martino De Matteo, \$524.34; C. J. Jacobs Company, \$542.80; John Guarino, \$561.38; T. F. Broderick, \$562.46; T. J. O'Connell Company, \$563.70; M. De Sisto, \$575.90;

FIRE DEPARTMENT.

Upon July 17 the Mayor approved a contract with the John F. Garrity Company for underground conduit work in Massachusetts avenue. Bids for the work, opened July 6, were as follows:

	2-Duct (Per Foot.)	1-Duct (Per Foot.)	Manholes.	Set Posts.	Pole Connections (Per Foot.)
John F. Garrity Company.....	\$0 67	\$0 59	\$54 00	\$12 00	\$0 48
John T. Shea, Jr.....	0 75	0 60	75 00	15 00	
Hugh McNulty.....	0 84	0 64	58 00	7 00	0 64
Coleman Brothers.....	0 90	0 80	80 00		

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states his attention to construct sanitary sewer of 18 and 10 inch pipe earthen pipe, in a taking made by the Board of Street Commissioners, approved by the Mayor February 15, 1911, in Richmond road, between Randolph road and Oakland street, Dorchester. The estimated cost is \$5,770.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 10, 12 and 15 inch earthen pipe, a surface drain of 10, 18 and 20 inch earthen pipe and four catch-basins in Oakland street, between Richmond road and Harvard street, Dorchester. Estimated cost is \$16,000.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.**PUBLIC WORKS DEPARTMENT.**

The Mayor has granted the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface, with macadam, Business street, from River street to River street, Hyde Park district. Estimated cost for labor and materials, \$3,000.

Resurface, with tar macadam, Clapp street, from Boston street to Massachusetts avenue. Estimated cost for labor and materials, \$2,575.

Resurface, with tar macadam, Evans street, from Capen street to Milton avenue, Dorchester, the estimated cost for labor and materials being \$3,120.

McCarthy & Walsh, \$618.50; Charles M. Callahan, \$644.20; Peter J. Raftus, \$690.40; John F. Lynch, \$904.12.

SCHOOLHOUSE DEPARTMENT.

Upon July 17 the Mayor approved a contract with M. F. McDonald & Son, for erecting and completing a masters' and teachers' office in the yard of the Wendell Phillips School, Phillips street, corner of Anderson street, Ward 8. Bids for the work, opened July 8, were as follows:

M. F. McDonald & Son, \$5,790; McDonald & Kivell, \$7,700; John F. Garrity, \$8,893; C. D. Redmond & Co., \$6,981; John Ferguson, \$4,941.

John Ferguson, the lowest bidder upon this contract, withdrew his bid upon appeal to the members of the Schoolhouse Commissioners and the contract was awarded the next lowest bidder, M. F. McDonald & Son.

Resurface, with asphalt macadam, Maverick street, from Frankfort street to Jeffries street, East Boston. The estimated cost for labor and materials is \$7,000.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor.

FIRE DEPARTMENT.

An addition, amounting to \$300, upon the contract with Charles R. Gow Company for the rebuilding of floor in the quarters of Water Tower Company No. 2, Bristol street, Boston, for removing old wooden floor over brick arches, including wooden nailing slips, and all old concrete that is loose, patch and fill with concrete all holes made by plumber, and place over all a granolithic finish to conform with all grades indicated. Original contract, \$1,950; total additions, \$300; contract as standing, \$2,250.

Incident to this contract, Fire Commissioner Grady declares: "The reason for this order for extra work is that since the original contract was drawn I have decided to eliminate the stable in this building, with its dangerous accessories, hay loft, etc., from the Headquarters Building, thereby disposing with the use of eleven horses. To do this I propose to replace the present wooden floor with one of concrete, with granolithic finish."

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$514.50, on contract with Jeremiah J. McCarthy Company for asphalt macadam roadway in Ballou avenue, between Woodrow avenue and Willowwood street, Dorchester, on account of omitting the hauling and laying of granite block gutters and substituting the furnishing and placing of asphalt macadam. Original contract, \$12,421.25;

total amount of omitted work, \$2,751.90; total amount of substituted work, \$1,410; contract as standing, \$11,082.35.

An addition, amounting to \$177, on contract with James Doherty for macadam roadway in Montebello road, Marmion and Haverford streets, West Roxbury, on account of regulating Marmion street, where directed beyond the contract limits; dressing old flagging, as required on Montebello road. Original contract, \$4,021.40; total addition, \$177; contract as standing, \$4,198.40.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$79.35, on contract with Charles M. Callahan for relaying water pipe in Brookline, Newton, Eustis and Zeigler streets, on account of repairing service pipe leak, and removing tree stump, Eustis street; replacing two catch-basin drains, Zeigler street; plugging 8-inch pipe; setting four concrete boxes, Newton street; guarding hose to St. Elizabeth's Hospital and American Sanitary Laundry Company on Brookline street. Original contract, \$4,531.50; total addition, \$79.35; contract as standing, \$4,610.85.

Addition, amounting to \$26.45, on contract with Roger P. Cushing for laying water pipes on various streets in Brighton and Dorchester, on account of furnishing extra lead, Tip Top street, Brighton; regulating mains and removing obstructions, Randolph road, Dorchester. Original contract, \$10,626.50; total additions, \$45; contract as standing, \$10,671.50.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$542.03, upon the contract with Joseph Slotnik for work at the Quincy E. Dickerman School, for 58 cubic yards of trench blasting, at \$5 per yard, minus \$1 per yard for excavating, \$232; 10 per cent on blasting, \$23.20; 149 cubic yards of open blasting, at \$2.75 per cubic yard, minus \$1 per yard for excavating, \$260.75; 10 per cent on open blasting, \$26.08. Original contract, \$85,100; total additions, \$2,274.93; total deductions, \$10; contract as standing, \$87,364.93.

A deduction, amounting to \$45, on contract with J. F. Griffin Company, on contract at the Everett School Hall, for fuel used during time temporary heat was required for building. Original contract, \$18,944; total additions, \$1,803.39; total deductions, \$1,166; contract as standing, \$19,581.39.

A deduction, amounting to \$10, on contract with Patrick Rich for work at the George Frisbie Hoar School, for substituting tack boards for blackboards. Original contract, \$66,944; total additions, \$1,396.50; total deductions, \$1,564; contract as standing, \$66,776.50.

PERMISSION FOR OVERTIME WORK.

The Mayor has granted the commissioners of the Schoolhouse Department permission to utilize the service of the members of the electrical division of the department, overtime, in order to harmonize with the work of the members of the alteration and repair division. The overtime will amount to ten nights' employment and the estimated cost is \$170.

The commissioners have been further authorized to utilize the service of the members of the heating and ventilation divisions, overtime, in order to harmonize with the divisions above named. The overtime work will amount to ten nights' employment, and the estimated cost is \$150.

PORT OF BOSTON.

b. "Humoresque." *Doerak*
7. Southern Airs. "The Sunny South." *Lampe*
8. Gems. "Adele." *Briquet*
9. March. "Stars and Stripes." *Sousa*

DECLINES SERVICE OF EXPERT.

Mayor Curley declines to sign order providing for appointment of an expert to study affairs of Edison Company and report whether the company is in position to give the city a better bargain. The Mayor is still of opinion that a reduction in price from \$103.15 per year for each tungsten street lamp to \$87.50 is a most generous concession, as it would save the city \$87,825 a year.

TAX SALES ANNOUNCED.

City Collector John J. Curley announces his intention of advertising for sale all estates upon which taxes, street, sewer, gypsy moth and sidewalk assessments remain unpaid for the years 1910, 1911 and 1912. They will be advertised August 1 and the sale will be without reserve. Assessments remain unpaid on about 1,200 parcels.

BUSINESS OF BOSTON POST OFFICE.

Postmaster Mansfield has compiled figures showing business transacted at Boston post office, including main office, seventy-five stations and branches and 209 contract stations, for fiscal year ended June 30, 1914. Receipts were \$8,192,857, compared with \$7,767,984 in previous year.

Transactions in money order business were \$3,850,680, and total amount of money represented in these transactions was \$27,788,114; this compares with 3,484,926 transactions of \$25,980,753 value in 1913.

In the postal savings department 12,117 accounts were opened, compared with 13,582 in the previous year; deposits amounted to \$1,368,125, against \$1,177,990. Accounts remaining open amounted to \$1,133,009, against \$862,326 at close of the previous year.

There were 1,248,746 letters registered. Total number of registered letters and parcels handled by Boston post office, including number received for registration, delivered, reregistered and handled in transit, amounted to 2,643,117.

CLAIMS.

The Mayor has approved, with the indorsement of the Acting Corporation Counsel, the claim of John S. Doane *et al.*, executors, in the amount of \$175, in recovery of tax paid under protest, February 17, 1914.

The Mayor has approved, with the indorsement of the Acting Corporation Counsel, the claim of John J. Halloran, in the amount of \$100, for injuries received while in the active employ of the City of Boston.

MR. KENNEY WILL INVESTIGATE.

Mayor Curley has delegated William F. Kenney, vice-president of the Boston Library trustees, to visit New York and Newark for the purpose of making an investigation of the business men's reference libraries. At the suggestion of Mr. Kenney and others plans are being made to establish in the Aldermanic Chamber at City Hall a business men's reference library as a branch of the Public Library. Mayor Curley is in hearty accord with the plan.

BIDS FOR GOVERNMENT SUPPLIES.

Sealed proposals will be received at the office of the lighthouse inspector, Tompkinsville, N. Y., until July 29 for furnishing buoys and appendages for 1915. Blank proposals and particulars may be obtained by addressing the lighthouse inspector, Tompkinsville, N. Y. The supplies consist of the following: Bell buoys, spherical mooring buoys, can and num buoys, tall-type buoys, ballast balls, iron sinkers, buoy castings.

FAMILIAR TREES IN OUR PARKS.

By CAPTAIN JOHN H. DILLON, *Chairman of the Park and Recreation Department.*

The elm, botanically *Ulmus*, from the Saxon word *Ulm*. The American elm, *Ulmus Americana*, and the English elm, *Ulmus Campestris*, or field elm, are the best known. They are majestic trees and a general favorite for shade; the wood is tough and strong but not readily worked.

The poplar, botanically from the Latin *Populus*, the people. It was planted around the ancient forum at Rome and was called *Populus Arboreum*, or the Tree of the People. Its wood is soft and quite light and in some varieties quite durable—to this variety belongs the proverbial trembling aspen.

The beech, botanically *Fagus*, from Phago, to eat, the fruit or nuts being used for food; the wood is very fine grained.

The linden, botanically *Tilia*, also called lime tree and basswood. The American variety is a very useful tree, its inner bark being very strong and manufactured into ropes; its wood is white, clear and soft and used in cabinet work. In Germany the European variety is much planted as a street tree and it is also much used for the same purpose in our own city.

The willow, botanically *Salix*, derived from the Celtic *sal*, near, and *lis*, water, alluding to their usual locality. Its bark is astringent and tonic, while the wood is employed for various economical purposes.

Salisbury *Adiantifolia* derives its name from Lord Salisbury, a patron of botany, and *Adiantifolia*, from the resemblance of its leaves to an *Adiantum* fern. It is synonymous with *Ginkgo biloba*, the ginkgo tree—the fruit is called *Ginkgo* in China, and the natives use it as a preserve.

The walnut tree, botanically *Juglans*, derived from the Latin *Jovis glans*, the nut of Jove. Its fruit is well known, also its wood which is used everywhere for cabinet work.

Many of our coniferæ, which means cone-bearing, derive their names from the Celtic. The pine, botanically *Pinus*, from the Celtic pin or pen, a rock or mountain, many of the species preferring such situations. The wood is of much strength and used for building purposes, masts for ships, etc.

The spruce, *Abies*, from the Celtic *Arbetoa*. The wood is used extensively for framing buildings and the bark of some of the species is much used for tanning, and also the juniper from *Juniperus*, rough or rude, and the yew, botanically *Taxus*, from *Toxon*, a bow, the wood being in great demand in ancient days by the archers to make good bows.

SALE OF CITY PROPERTY.

The Park and Recreation Commissioners announce the sale of two Aveling and Porter steam rollers at Franklin Park yard, Jamaica Plain, upon Friday, July 24, at 12 m.

The commissioners further announce the sale of and removal of sheep barn at Franklin Park, upon the same date, at 1 p. m.

RIGHT OF WAY GRANTED.

Mayor Curley has given permission to the Pennsylvania Coal Company to lay a spur track across city property at Medford and Terminal streets, Charlestown, where they intend to install a \$150,000 plant. The city gets \$250 for this privilege.

NEEDS OF BOSTON CITY HOSPITAL.

President A. Shuman of the Boston City Hospital has sent the Mayor the following communication relative to the needs of the institution:

BOSTON, July 15, 1914.

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—I would respectfully call your attention to the fact, as personally explained, that when the budget for the fiscal year ending January 31, 1915, was submitted the amount stated which would be required to properly conduct the hospital for the year was \$675,668, which amount was based on the most careful study of the hospital requirements. The amount actually granted, however, for this department was but \$625,000.

In a former statement, among other items in the budget was \$18,738 for salaries and increase in wages; the other estimates for necessary repairs on buildings, medical supplies, X-ray appliances, was \$40,615, making a total of \$59,353. It is very important that the salaries of nurses, orderlies and employees should be materially increased in order to properly carry on the work of the hospital. During the past year a great many of the officers, nurses, orderlies and other employees have repeatedly asked for an increase in pay. The trustees have been obliged to refuse all requests of this nature owing to lack of funds. Some of our most efficient head nurses and orderlies are leaving for lack of sufficient pay. In order to retain in the service of the hospital satisfactory orderlies who have completed their training, and also in order to elevate the standard of men applying for training as orderlies, it is of paramount importance to increase the pay of this class of employees. A careful analysis of the wages paid to nurses and orderlies in other institutions shows conclusively that the wages in the Boston City Hospital are not as high as in other similar institutions.

The importance of the necessary repairs cannot be overestimated. Although much has been done toward rendering the hospital buildings fireproof, there is yet very much more to be accomplished. The need of installing automatic sprinklers in all the buildings not fireproof must appeal to your Honor and the City Council as an item of expense of the utmost necessity.

Requests have been made by the staff for changes in the method of keeping the medical and surgical records. It is very important that these changes should be made as soon as possible, although it will require an increased expenditure.

On April 16, 1914, your Honor ordered the transfer of \$10,000 to meet the expenditures of the South Department, caused by an outbreak of scarlet fever. This sum, however, will all be required to meet the necessary outlay for this emergency.

In an interview with your Honor it was stated that if the full amount according to the estimate was not granted it would be necessary to close certain of the wards the latter part of the fiscal year.

There now remains for the six months' drafts, exclusive of pay rolls and coal, \$148,553.61, or an average for each month of \$24,758.94. The average monthly draft during the present fiscal year, exclusive of pay rolls and coal, has been \$27,646.04, or a total amount of \$165,876.23. Therefore it is evident, from the foregoing figures, that there will be a deficit of \$17,322.62 for maintenance at the end of

the year unless certain wards are closed or there is a transfer from the Reserve Fund.

In addition I wish to call your Honor's attention to the great importance of having special police officers on duty at all times at the hospital. It is not an infrequent occurrence for disorderly persons to force their way into the hospital and cause disturbances not only in the wards but on the grounds. Assaults have been made upon employees during the past five years.

It must be borne in mind that during the first six months of the present fiscal year there were no extraordinary expenditures, the money being used for the ordinary routine expenditures of the hospital. There has been no general increase in salaries and wages, but a large increase in the number of patients over the corresponding period in the previous year. The increase in the hospital proper was 6,313, and in the South Department, 2,139, making a total increase of 8,452 patients to be cared for.

In view of these facts, your Honor, who has always been a warm friend of the hospital, will appreciate the obvious necessity of a transfer from the Reserve Fund, if the high standard of the hospital is to be maintained and if the closing of a portion of the hospital is to be prevented.

Will you please, therefore, recommend to the honorable City Council the transfer of \$46,369.62, made up of the following items, reduced to the minimum for efficient work for the balance of the fiscal year:

Deficit for maintenance.....	\$17,322 62
General increase in wages for six months.....	6,600 00
Increased pay for furnace tenders (two additional furnace tenders at Haymarket Square and East Boston Relief Stations, to place furnace tenders on an eight-hour basis).....	1,600 00
Plumbing.....	2,500 00
New auto carriage for emergencies....	3,500 00
Additional ambulance.....	3,500 00
Orthopedic Department } for full year..	3,915 00
X-Ray Evening Clinic.....	3,500 00
Installing sprinkler system.....	3,200 00
Needed repairs on buildings.....	1,500 00
Special police officers, day and night....	1,500 00
Total.....	\$46,369 62

The increase in the wages for nurses and orderlies should commence from July 1, and the needed repairs should be done during the summer months.

I therefore beg the early consideration of this request by your Honor and the honorable City Council, and have the honor to remain, on behalf of the trustees.

Very respectfully yours,
A. SHUMAN,
President Board of Trustees.

A CLEAN CITY.—THE ORDERLY APPEARANCE OF A CITY.

BY MISS CATHERINE F. O'BRIEN, *South Boston High School.*

Clean, tidy streets do much to improve the orderly appearance of a city. If there are no papers lying about, and if the streets are free from fruit skins and the many other untidy things which are too often seen lying in the gutters and about the sidewalks, how much better the entire neighborhood looks.

On the other hand, if there are papers, old cans, or boxes scattered about the streets, even though the houses, yards, doorways and steps of the houses are neat and clean, the disorder of the streets detracts so much from the scene that the impression conveyed is not that of a tidy, well-kept neighborhood, but that of a carelessly kept, dirty one. It is, then, very important that the streets be kept clean.

As an aid to this, in our city there are receptacles provided for waste matter, so there is no excuse for negligence on the part of anyone. Also, in Allston, the people have worked together and endeavored to keep their lawns in a neat condition and their gardens so that they are a true adornment. In the spring prizes are given to those who have done this work with the best results. There is a great deal of enthusiasm and the whole vicinity shows the result of this desire for order and cleanliness.

Sometimes, even in the best neighborhoods of our city, papers are seen lying about, and the streets are not very clean. This is because many of the people who carelessly throw papers about forget that a little work on the part of each one is all that is necessary to keep the city clean. This forgetfulness about the good appearance of our cities has been remedied by our cleaning campaign, and all the people seem to have a greater desire for cleanliness than they possessed before the campaign.

The people of Boston and its suburbs have been roused to a state of keen interest by this campaign. The campaign has indeed had its effects. There is a new activity on the part of the people and all the places concerned are cleaner and better kept than usual. Better than this, the spirit is still alive; as a result the people are better satisfied and we have a pleasanter, cleaner, and more healthful city.

"Cleanliness is next to Godliness." This is an old saying and is indeed true. There is no person who does not feel much more satisfied and self-respecting in fresh clean surroundings than in careless dirty ones, and it is much easier to enjoy good health and much easier to enjoy one's self when one is in the midst of cleanliness than when one is conscious of filth about him. In my opinion, too, it is much easier to be good when everything is sweet and fresh and clean about one.

A CLEAN CITY.—CARE OF THE PARKS.

BY ARTHUR E. BAIRD, *South Boston High School.*

The park system of a city is the property of the people of the city. Each citizen should feel a personal interest, a sense of ownership, in the public parks. The parks are kept at the expense of the people for the pleasure and benefit of the people; and a very considerable expense they are. We continually find people crying out at this expense, people who claim that our Park Department is inefficient, that it is not showing sufficient results for the money it spends.

These criticisms are absurd. Our Park Department is doing very good work when one considers the conditions under which this work must be done. The department could, it is true, cut its expenses down tremendously, but only by the cooperation of every user of the parks.

In the first place, let us consider the cleaning of the parks. This portion of the work is one of the greatest factors in the expense account of the department, yet it could be cut down 75 per cent if our citizens would only exercise a little care. How often do we see picnic parties in our parks on Sundays and holidays who, having eaten their lunches, throw not only the papers, boxes and paper bags in which it has been wrapped, but even the refuse of the lunch itself, wherever they may happen to be.

"The Park Department will pick up the papers," they say. True, they will, but at the expense not only of those who

throw away the papers but of the entire citizen body. A man would consider himself a pretty poor specimen if, having eaten his dinner at home, he should throw half the refuse on his own parlor floor and the other half on that of his neighbor; yet hundreds of us do that very thing by defiling our public parks. Any public park after a Sunday or holiday will bear silent witness to this.

Another form of expensive carelessness is that which causes users of the parks to trample upon and break down young shrubs and flowers, to disregard signs requesting one not to walk across grassy lawns till the grass is worn out and the bare earth makes its appearance.

All these things add to the cost of our Park Department, and anyone who considers can see that remedy for the excessive cost of the department lies not in the department but with the people, very probably with those who are crying out so vigorously against our Park Department and its "extravagance."

Let the people, therefore, stand together in the proper spirit of cooperation and with the proper pride of ownership, each one doing his or her individual part, and we shall have better, cleaner parks for much less money.

BOSTON INDUSTRIAL COMMISSION.

The following communication, inclosing check in the amount of \$200, in behalf of the Boston Industrial Commission, has been received by Mayor Curley:

BOSTON, MASS., July 16, 1914.

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—The undersigned, in behalf of several citizens of color, are pleased hereby to hand over to your Honor the sum of \$200, which has been severally donated by those whose names are herewith attached, to your citizens' fund to boom Boston, by bringing to our beloved city new business plants and thereby providing more employment for our citizens. This is but a portion of the money donated by colored Bostonians, given in love of this city, ever foremost in according equal public rights, and given with the faith that you and your Industrial Commission will exert their moral influence in favor of equality of opportunity for employment in these new business enterprises, without distinction as to race, color or creed.

For the subscribers,

EDGAR P. BENJAMIN.
WILLIAM M. TROTTER.

SALE OF POTATOES.

Permission has been granted the trustees of the Boston Consumptives' Hospital to sell potatoes in an amount not to exceed \$500.

IMPROVEMENTS IN SOUTH BOSTON.

An understanding has been reached and a satisfactory arrangement made between business interests in South Boston and the New Haven Railroad whereby a spur track would be laid along West First street as soon as West and East First streets are joined by the city.

FREE GARBAGE CANS.

New York proposes to experiment with traction engines instead of ordinary horse-drawn vehicles in the collection of garbage and ashes and the removal of snow. Covered garbage cans will be furnished free to citizens.

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR BITUMINOUS MACADAM ROADWAY IN KITTREDGE STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for bituminous macadam roadway in Kittredge street, from Metropolitan avenue to Cornell street, West Roxbury, and giving bond therefor of a surety company approved by the commissioner in the sum of eighteen hundred dollars (\$1,800), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Macadam Roadway in Kittredge Street," and left at Room 62, fifth floor, City Hall, before 12 m. on Friday, July 24, 1914, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.

Boston, July 16, 1914. (July 18.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER AND DRAINS, ROWE STREET AND OUTLET AND NEPONSET AVENUE BROOK, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for pipe sewer and drains in Rowe street, between Ashland street and Brown avenue and outlet in private land and Neponset avenue brook in private land, between Mt. Hope street and Hyde Park avenue, and giving bond therefor of a surety company approved by the commissioner in the sum of two thousand (2,000) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewer, Rowe Street and Outlet," and left at Room 62, fifth floor, City Hall, before 12 m. on Monday, July 27, 1914, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.

Boston, July 16, 1914. (July 18.)

CITY OF BOSTON.

PROPOSALS FOR METAL POLISH.

The Supply Department of the City of Boston invites proposals for furnishing 1,500 gallons, more or less, of metal polish to the various departments of the City of Boston for one year. Copy of proposal to be used and other information can be obtained at the office of the Superintendent of Supplies, Room 808, City Hall Annex. Bidder must leave his proposal at the above office with a certified check for \$100, payable to and to become the property of the City of Boston if the said proposal is not carried out. A bid in duplicate must be filed with the City Auditor, without check, prior to the time named for opening bids. Bids will be publicly opened and read on Friday, July 31, 1914, at 12 m. at Room 808, City Hall Annex. The successful bidder must furnish a bond for one-quarter the amount of the contract of a surety company authorized to do business in Massachusetts. The superintendent reserves the right to reject any or all contracts, or any part of a contract, and award the contract as he deems it for the best interest of the city. All contracts are made subject to appropriations to meet payments thereunder.

D. FRANK DOHERTY,
Superintendent of Supplies.
(July 18.)

READVERTISEMENT.

CITY OF BOSTON.

PROPOSALS FOR BROOMS.

The Supply Department of the City of Boston invites proposals for furnishing to the various departments of the City of Boston throughout the year:

- 350 dozen, more or less, 18-inch street cleaning brooms.
- 50 dozen, more or less, teamsters' brooms.
- 75 dozen, more or less, stable brooms.
- 100 dozen, more or less, house brooms.

Samples of the above must be left with proposal at the office of the Supply Department, Room 808, City Hall Annex. A copy of the proposal to be used and other information can be obtained at the above office. The bidder must leave his proposal at the above office with a certified check for \$200, payable to and to become the property of the City of Boston if the said proposal is not carried out. A bid in duplicate, without check, must be filed with the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read on Friday, July 31, 1914, at 12 m. at Room 808, City Hall Annex. The successful bidder must furnish a bond for one-quarter the amount of the contract of a surety company authorized to do business in Massachusetts. The superintendent reserves the right to reject any or all proposals, or any part of a proposal, and award the contract as he deems it for the best interest of the city. SALE OF TWO AVELING AND PORTER STEAM ROLLERS, ALSO THE SHEEP BARN AT FRANKLIN PARK.

The Park and Recreation Commissioners announce the sale of two Aveling and Porter steam rollers at the Franklin Park Yard, Jamaica Plain, upon Friday, July 24, 1914, at 12 o'clock m., also the sale of and removal of sheep barn at Franklin Park, which will be on the same date, at 1 p. m.

A deposit will be required at the time of the sale.

JOHN H. DILLON,
THOMAS F. GALVIN,
CHARLES GIBSON,
Commissioners.
(July 18.)

CITY OF BOSTON.

NOTICE TO CONTRACTORS.

Sealed bids for constructing two entrances, chiefly of granite, to the Dartmouth street lobby of the Copley Station of the Boylston Street Subway will be received by the undersigned until 12 o'clock noon of Tuesday, July 21, 1914. Specifications and forms of contract can be obtained at the office of Fox & Gale, architects, 3 Park street. The right to reject any and all bids and to award the contract as is deemed to be for the best interest of the City of Boston is reserved.

By order of the BOSTON TRANSIT COMMISSION,
(July 18.) B. LEIGHTON BEAL, Secretary.

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, July 16, 1914.

I. REINSTATEMENT.

1. The following reinstatement is hereby announced to take effect at 10 a. m., July 16, 1914:

Edward H. Harrington to Chemical 9.

II. NEW FIRE ALARM BOX.

1. The following new fire alarm box will shortly be established:

Box 3453. On Ashmont street, opposite Newhall street, connected into circuit No. 38. Assignments will be the same as for Box 945.

III. EXAMINATION FOR PROMOTION.

1. Examination for promotion to the rank of lieutenant from the grade of engineer, assistant engineer, hoseman and ladderman, will be held on Wednesday, August 12, 1914, under the direction of the Civil Service Commission. Only members of the department who will have served six years or more on August 12 are qualified to take the examination.

2. Members of the department who are qualified, and desire to take the examination, must make application on the blanks forwarded herewith, and return same to these headquarters not later than 10 a. m., Friday, July 24, 1914.

3. Only the first two pages of the application blank need be filled out and sworn to by a justice of the peace.

4. The examination will be based on the subjects outlined in Bulletin No. 3.

IV. TAPPER SIGNAL FOR A. D. T. ALARMS.

1. On and after 12 o'clock noon (the striking of the meridian blow on the gongs in the houses) on Friday, July 17, 1914, the following special signal shall be established for the striking on the department tappers of alarms and all-out signals of boxes received over the system of the American District Telegraph Company.

Alarm.—Eleven blows followed by the A. D. T. box number, repeating once, both the preliminary signal and the box number.

Example—A. D. T. Box 142.

All out.—Two, two, followed by eleven blows, followed by A. D. T. box number.

Example—A. D. T. Box 142.

V. COMMENDATIONS.

1. The Fire Commissioner desires to express his personal appreciation of the conduct of the members of this department who worked at the fire at Salem, Mass., June 25, 1914. The zeal and spirit with which the men performed their work reflected great credit upon the Boston Fire Department.

2. The following extract from a letter to the commissioner from the Chief of the Salem Fire Department is published herewith, for the information of the department:

"I wish to express to you and to the men who responded to the call for help from Boston on June 25, to one of the largest fires in the country, my sincere thanks. Words cannot express my feelings. No one but the firemen know the condition that existed here, always dreaded, but hopeful that it would not occur.

"No power at my command could stop it. The call for help was answered by the cities and towns with remarkable quickness. I had always looked for help from Boston, as you carry the chucks necessary for flush hydrants, and your men are trained fighters.

"They were equal to the work. With moves from place to place, they put up a fight that was commendable to their reputation, and the people of Salem will always remember their service with gratitude."

3. Capt. Edward J. McKendrew is hereby commended for responding to an alarm from box 687, July 13, 1914, while on vacation.

By order of the Fire Commissioner,
PETER F. McDONOUGH,
Chief of Department.

STUDIES FOR CIVIL SERVICE EXAMINATIONS.

The following has been outlined by the examination department of the Civil Service Commission and is hereby published for the information of the department:

1. The markings of the Civil Service Commission in the competitive examination for promotion will be based upon the candidate's record in the department, seniority, efficiency (which is a matter of honest, every-day work), and his knowledge of subjects pertaining to his calling, such as:

2. General knowledge of the city.

3. Regulations of the Fire Department; laws and ordinances relating to buildings and to the authority of the Fire Department; use and occupancy of buildings; regulations relating to explosives and combustibles.

4. The proper method of handling single and siamesed lines of hose and the different connections and nozzles; roof and ladder lines, burst hose, standpipes; cellar pipes, extinguishers, sprinklers and other auxiliary fire extinguishing appliances.

5. The causes of fires; how to handle chimney fires, fires in defective flues; grease, oil and similar fires; cellar, subcellar, subway and ship and dock fires; ammonia, acid, chemical and gas fires; lime and cement fires; awning fires; electric, automobile and garage fires; sawdust and shaving chute fires; brush, grass and similar fires; lumber and coal yard fires.

6. Various things that should not be done at fires. (Such as playing water carelessly; playing water from ladders before they are dogged; playing water from ladders before the hose lines are secured, etc.)

7. Dangers to be avoided. (Such as nitric acid fumes; working on unsafe roofs, etc.)

8. The proper method of ventilating all buildings on fire; of opening locked doors and windows, shutters, gates and screens; of breaking window glass, window frames, iron bars, gratings and railings. How to cut holes through roofs, floors, walls, etc. Construction of buildings so far as this may favor or retard the progress of fire.

9. The use of aerial, extension, roof and scaling ladders; handling of water towers, ladder trucks and chemical engines.

10. Water supply, high pressure, high and low service.

11. Water and combustibles. Water as an added weight on floors. Overhauling burnt material. Making up lines of hose.

12. Engine relay work. Types and operation of hydrants.

13. Location of hydrants, fire alarm boxes, etc.

14. Alarm codes and signals. Telephone instructions.

15. Care of horse drawn and motor propelled apparatus, tools, implements, etc.

16. Fire prevention.

17. Supervision of fire drills in factories, theaters, schools, etc.

18. Theater inspections and details to places of public amusement.

19. Mathematics, including addition, subtraction, multiplication and division of whole and fractional numbers, squares and square roots (as applied to the substitution of two small nozzles for one large one, or *vice versa*, and the relation of the base and altitude to the hypotenuse in right-angled triangles), simple formulas. Practical formulas and rules for calculating exactly (at the desk), and for estimating roughly (at fires):

A. The placing of ladders.

B. The discharge in gallons when nozzle size and pressure are given.

C. The number of lengths of hose required when location of fire in building is known.

D. The pressure required to deliver water at any given point in a standpipe.

E. The pressure exerted at any given point by water from tank in a standpipe.

F. The friction in hose.

G. Pressures as applied to hose and nozzles.

H. The effective reaching distance of fire streams, either vertical or horizontal.

I. The capacity in gallons of a pump.

20. Firemen aspiring to become officers should study books and periodicals on fire prevention and fire fighting; the annual reports of the fire departments of large cities when obtainable; the reports of the National Board of Fire Underwriters; Crosby-Fiske Handbook of Fire Protection and similar books; clippings from the daily and periodical press on fire matters; catalogues of fire department supplies; the material, construction, uses, dangers, etc., of every kind of fire apparatus, tools, implements, etc.

JOHN GRADY,
Fire Commissioner.

STOREHOUSE FOR SCHOOL SUPPLIES.

The Mayor has formally approved the use of the building in Warcham street, South End, formerly utilized by the Wire Department as a storehouse, for the supplies of the Schoolhouse Department.

The formal communication of Chairman Lomasney of the Commission is as follows:

July 16, 1914.

HON. JAMES M. CURLEY, Mayor:

DEAR SIR,—Referring to our conversations regarding the Wareham street building, which we understand the Wire Department has now abandoned, we respectfully request that your Honor take such action as you pay deem proper to have the said building turned over to the Schoolhouse Commission, to be used for storing furniture, etc.

As your Honor is no doubt aware, some of the school buildings now used as storehouses cannot be sold, even with the permission of the School Committee, because of the necessity of retaining them for storehouse purposes. So if you will kindly take this up with Superintendent of Public Buildings Lynch, and settle the matter, it will materially improve the efficiency of this department.

This request is made with the understanding, of course, that the Schoolhouse Commission will assume all fixed or any other charges that the Public Building Department heretofore has been compelled to maintain.

Respectfully yours,
J. P. LOMASNEY,
Chairman.

SAFETY IN BOSTON STREETS.

The widely advertised campaign for greater safety in the streets of Boston that is at present being waged with marked activity has met unqualified approval. "Safety First" posters greet one on every hand.

The safety of pedestrians is not, however, the only consideration, and the question has other than a humanitarian side.

During the years 1912 and 1913 nearly \$900,000 a year was spent by the Boston Elevated Railway Company in the settlement of injury and damage cases.

The books of the Elevated corporation reveal the fact that practically a nickel of every \$1 passed through this unproductive channel. In other words, a sum equal to nearly 4 per cent on the stock is paid yearly for damages.

The four largest street railway companies in Massachusetts spend about 5 per cent of their gross on injuries and damages. The percentage to stock varies considerably, however. Last year it was 1.9 per cent for the Bay State, 2.5 per cent for the Worcester Consolidated, 2.8 per cent for the Springfield Street Railway and 3.5 per cent for Boston Elevated.

The table follows:

	1911.	1912.	1913.
Boston Elevated:			
Injuries and damages.....	\$778,738	\$891,059	\$849,626
Per cent to operative revenue.....	4.9	5.6	5.0
Per cent on stock.....	3.9	4.4	3.5
Bay State: *			
Injuries and damages.....	\$411,988	\$430,276	\$442,344
Per cent to operative revenue.....	4.8	4.8	4.8
Per cent on stock (common).....	2.1	2.2	1.9
Springfield Street Railway:			
Injuries and damages.....	\$91,240	\$86,429	\$107,426
Per cent to operative revenue.....	5.9	4.8	5.1
Per cent on stock.....	2.4	2.3	2.8
Worcester Consolidated:			
Injuries and damages.....	\$96,408	\$123,191	\$130,831
Per cent to operative revenue.....	5.0	4.9	4.8
Per cent on stock.....	1.8	2.4	2.5

* 1911 figures for Boston & Northern and Old Colony.

MAYOR CURLEY AT PLATTSBURGH.

Mayor Curley received during the week, from Rev. Fr. John P. Chidwick, D. D., of St. Joseph's Seminary, Yonkers, N. Y., the famous chaplain of the ill-fated "Maine," the plans for the celebration of the hundredth anniversary of Com. Thomas Macdonough's great victory on Lake Champlain, Sunday, September 11, 1814, which established the American Nation as a world power.

The decisive naval victory of the famous Macdonough will be observed by an elaborate ceremonial at Plattsburgh, September 6 to 11, in which Mayor Curley will endeavor to join.

Father Chidwick in the announcement of the Plattsburgh Centennial declares:

"No other naval battle in our history has had a more profound effect upon our country's destiny. The influence since exercised by American in the world's progress in large measure may be traced to it.

"The heroism and sacrifices signalized then, and also often during our struggle for independence, as well as in later days, served to show to mankind what could be achieved by the individual inspired by patriotism and struggling to establish human rights as conceived by the forefathers of the Republic.

"Great as were the victories won by American heroes in previous naval engagements, they fell short of the decisive importance which history has awarded to the final and complete victory that settled forever the momentous conflict in the Western Hemisphere.

"Recalling the well-nigh insurmountable obstacles overcome by Macdonough in building and equipping his fleet, and his model report to his government, we are impressed with his modesty and with the humility and reverence of his mind, and also with the traits possessed by him in common with so many other great American patriots from Washington to Lincoln, namely an abiding trust in Almighty God, courage, resourcefulness, determination, generosity and magnanimity of spirit.

"At the close of the battle Commodore Macdonough sent his message to the Secretary of the Navy:

"Sir: The Almighty has been pleased to grant us a signal victory on Lake Champlain in the capture of one frigate, one brig and two sloops of war of the enemy."

"No boasting of what he or they had accomplished, although the building, equipping and manning of an efficient fleet within eight months in a wilderness was little short of a miracle.

"Macdonough's victory resulting in the destruction or capture of the entire British fleet, not only prevented the projected advance of the enemy, but caused the British to return to Canada to escape like disaster.

"The event was decisive and the treaty of peace was signed three months thereafter, on Christmas eve, 1814.

"The magnanimity of Macdonough toward the memory of the gallant Downie and his fallen comrades has governed the people of Plattsburgh who have honored and kept green their graves, annually including them within the tributes of Memorial Day.

"Without then disparaging the valor of the forefathers who here 'jeopardized their lives in the breach,' everyone, everywhere may rejoice over the battle of Plattsburgh and its final contribution to a century, and it may be hoped, to a millennium of international peace."

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announces an open competitive examination for forest inspector, for men only, on July 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Forest Service, Washington, D. C., at \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The duties of this position will consist of directing the cooperative work in forest management carried on with private owners of timber lands in the Eastern United States. The position demands thorough familiarity with theoretical and practical work in forestry and lumbering, including timber cruising, mapping, the direction of logging operations and the management of private forest lands in the Eastern States.

The commission announces that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announces an open competitive examination for record examiner, for men only, on July 21, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position as they may occur in the Department of Agriculture, for service in the field, at salaries ranging from \$1,500 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

It is desired to secure eligibles capable of making independent examinations of land titles in connection with the acquisition of forest lands by the Government.

The commission announces an open competitive examination for transitman, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Forest Service, for duty in the field, at salaries ranging from \$800 to \$900 a year, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to assist in the survey of lands to be acquired under the Weeks law in the southern Appalachian and White Mountains.

The commission announces an open competitive examination for dental interne, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$600 per annum, with maintenance, in the

Government Hospital for the Insane, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

As an insufficient number of applications were filed for the examination for this position announced to be held on June 3, 1914, qualified persons are urged to enter this examination.

The department states that it reserves the right to terminate the appointment at the expiration of one year of service if it is deemed advisable to do so.

In addition to many interesting cases presented, the dental interne is given an excellent opportunity for study and for doing experimental and research work in the pathological, histological, and other laboratories of the institution.

The commission announces an open competitive examination for map colorist, for both men and women, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position, at salaries ranging from \$600 to \$720 a year, in the departments at Washington, D. C., or in the field, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for skilled laborer, for women only, on July 22, 1914, at Pittsfield, Mass. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of counter, at \$720 a year, in the Government paper mill, Pittsfield, Mass., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces the postponement from June 17 and 18, 1914, to July 22 and 23, 1914, of the open competitive examination for law assistant, for men only. From the register of eligibles resulting from this examination certification will be made to fill vacancies in the position of law clerk in the office of the Solicitor, Department of Agriculture, Washington, D. C., at entrance salaries of \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for investigator in poultry and egg handling, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Chemistry, Department of Agriculture, for service in the field, at salaries ranging from \$1,200 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will involve scientific investigations of eggs and poultry in transit; cooperation with the producers of these products; and demonstration to the producing farmers and handlers of the most desirable methods of preparation, packing and transportation of these products.

The commission announces an open competitive examination for nautical expert, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position at entrance salaries of \$1,000 per annum in the Hydrographic Office, Bureau of Navigation, Navy Department, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The salaries paid in this position range from \$1,000 to \$1,800 a year, promotion being dependent upon the occurrence of vacancies and demonstrated fitness of persons in the service.

The duties of a nautical expert in the Hydrographic Office comprise in a general way the correction of charts and publications; writing and compiling notices to mariners, light lists, sailing directions and other nautical matter; measuring and computing distances and answering nautical inquiries.

As insufficient eligibles were obtained from the examination for the position held May 6, 1914, qualified persons are urged to enter this examination.

The commission announces an open competitive examination for scientific assistant in marketing and distribution, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Office of Markets, Department of Agriculture, Washington, D. C., at salaries ranging from \$1,400 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The Office of Markets is carrying along the following lines of work: Market surveys and market news investigations; grading and standardization; packing, transportation, storage and cost investigations; organized production and marketing, city distribution and parcel post marketing. Persons appointed as the result of this examination will be assigned to the various divisions of the work in accordance with the special qualifications they show in the examination or which they develop during their probationary period.

The commission announces an open competitive examination for copyist marine engine and boiler draughtsman, for men only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Steam Engineering, Navy Department, Washington, D. C., at \$3.04 per diem, and vacancies as they may occur in positions requiring similar qualifications at entrance salaries ranging from \$2.80 to \$3.28 per diem, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for apprentice plate printer, for boys only, on July 22, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of plate printer's helper, at \$7.00 a year, in the Coast and Geodetic Survey, Department of Commerce, Washington, D. C., and vacancies as they may occur in the position of apprentice plate printer

in the Bureau of Engraving and Printing, Washington, D. C., and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary of apprentice plate printers is \$1 per diem.

The commission announces an open competitive examination for mechanical draftsman, for men only, on July 22 and 23, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position, in the Panama Canal Service, at entrance salaries ranging from \$125 to \$150 a month, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for instrument maker, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$3.84 per diem at the Naval Observatory, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for assistant in agricultural education, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the office of Experiment Stations, Department of Agriculture, Washington, D. C., at salaries ranging from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include correspondence, report writing, editing and the preparation of original articles concerning different phases of agricultural education, including instruction in regular college and school courses, various forms of extension teaching, farmers' institutes, etc. This position also calls for some field work, that is, work outside of Washington, studying problems in agricultural education, studying educational institutions, attending conferences and giving addresses at important public meetings.

The commission announces an open competitive examination for assistant in plant malnutrition, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in the plant malnutrition work in the office of Biophysical Investigations in the Bureau of Plant Industry.

It is desired to secure applicants well qualified in soil physics, plant physiology and biochemistry.

The commission announces an open competitive examination for chief, sec-

tion of derived products, for men only, on August 3, 1914. From the register of eligibles resulting from this examination, certification will be made to fill a vacancy in this position in the Forest Products Laboratory, Forest Service, Madison, Wis., at a salary of \$3,000 to \$3,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of the direction of investigations in the utilization of woods, and particularly of various forms of wood waste, by distillation and other chemical processes, including the production of naval stores, of hardwood distillates, and of ethyl alcohol. Personal investigation in some one of these fields will be part of the work, and general advice on all of the investigations and activities of the laboratory involving chemical methods or processes, will be required.

The commission announces an open competitive examination for chemical engineer, for men only, on August 3, 1914. From the register of eligibles resulting from this examination, certification will be made to fill a vacancy in this position in the Bureau of Mines, Department of the Interior, for service at Pittsburgh, Pa., at a salary ranging from \$2,400 to \$4,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct investigations in applied physical chemistry in its relation to fuels, oils and gases.

The commission announces an open competitive examination for assistant in farm management, for men only, on August 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to conduct investigations concerning the relation of farm enterprises to geographic factors. It is desired to secure applicants experienced in field investigations, in collecting data, and in classifying and filing material collected.

The commission announces an open competitive examination for marketing specialist, for men only, on August 3, 1914. Two registers of eligibles will be established from this examination. From Grade 1, certification will be made to fill a vacancy in the Office of Markets, Department of Agriculture, at a salary of \$2,500 to \$3,000 a year, and from Grade 2, to fill a vacancy in the same office at a salary from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will be to supervise or to assist in investigations in every branch of the live stock marketing business, and in the marketing and distribution of all kinds of meat products.

The commission announces an open competitive examination for organic chem-

ist, for men only, on August 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., and a vacancy in the Hygienic Laboratory, Public Health Service, Washington, D. C., at salaries ranging from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position in the Bureau of Chemistry will consist of investigations in problems of organic chemistry relating to agriculture and the administration of the Food and Drugs Act in the Bureau of Chemistry. It is desired to secure persons having a thorough training in organic chemistry and in exact analytical chemistry. Physical chemistry, biological chemistry, particularly as applied to foods, drugs, bacteria, fungi and agricultural plants are desirable qualifications.

The duties of the position in the Hygienic Laboratory will be to assist in and to undertake original investigations in synthetic organic chemistry.

The commission announces an open competitive examination for assistant engineer of mine tests, for men only, on August 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Mines, at Pittsburgh, Pa., at a salary ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to make tests and compute and discuss the results thereof relative to the supporting power of mine roof material, mine pillars, hauling and hoisting cables or other material pertinent to mining.

The commission announces an open competitive examination for junior zoologist, for men only, on August 5, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Animal Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be laboratory and field work in the investigation of animal parasites and routine work carried on in the Zoological Division of the Bureau of Animal Industry.

The commission announces an open competitive examination for inspector of musical instruments, for men only, on August 5, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,200 per annum in the Quartermaster Corps, Philadelphia, Pa., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for teacher of housekeeping, for women only, on August 5, 1914. From the register of eligibles

resulting from this examination certification will be made to fill vacancies as they may occur in this position at salaries ranging from \$600 to \$720 a year, in the Indian Service, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for physician, for both men and women, on August 5, 1914. From the register of eligibles resulting from this examination certification will be made to fill the vacancies in the positions mentioned below, and vacancies as they may occur in all branches of the service except the Philippine, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The existing vacancies are as follows:

One physician (male), Fort Peck Agency, Montana, Indian Service, \$1,100 per annum.

One physician (male), Klamath Agency, Oregon, Indian Service, \$1,000 per annum.

One physician (male), Pueblo Day Schools, Albuquerque, New Mexico, Indian Service, \$1,000 per annum.

Two acting assistant surgeons (female), Ellis Island, New York, Public Health Service, \$150 a month each.

Qualified men have an excellent opportunity for appointment to the Indian Service as a result of this examination.

Female acting assistant surgeons in the Public Health Service are to be employed in connection with the examination and care of a large number of alien women and children arriving at Ellis Island. Others may be needed in connection with the investigation of sanitary conditions in New York carried on by the Public Health Service.

The commission announce an open competitive examination for laboratory apprentice, for men only, on August 5 and 6, 1914, at the places mentioned in the list printed hereon. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at salaries of \$480 per annum in the Bureau of Standards, Department of Commerce, and vacancies as they may occur in positions requiring similar qualifications, at entrance salaries ranging from \$480 to \$540 per annum, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

As an insufficient number of eligibles were obtained from the examination for this position held on April 8 and 9, 1914, qualified persons are urged to enter this examination.

Two days will be required for this examination.

The commission announces an open competitive examination for heating and ventilating engineer, for men only, on August 5 and 6, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,800 a year in the United States Military Academy, West Point, N. Y., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The appointee should be thoroughly familiar with direct and indirect heating of large buildings; the thermograde and thermostat systems of regulation; the operation of motor-driven fans; steam fitting; regulation of reducing valves, steam traps, etc.

The commission announce an open competitive examination for statistical expert, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be general administrative charge of the field agents and of the tabulating force of the Bureau, and will require knowledge of statistics, statistical methods and the technique of field investigation.

The commission announce an open competitive examination for social service expert, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will be the investigation of such subjects as juvenile courts, desertion, orphanage and relevant legislation, with studies of the special groups known as the dependent, the delinquent and the defective, and of public and private provisions for recreation.

The commission announce an open competitive examination for expert on sanitation, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will be to act as adviser of the Bureau in matters requiring knowledge of hygiene and in cooperation with other experts to conduct investigations into dangerous and injurious occupations, the social factors responsible for high infant mortality and other matters involving health.

The commission announce an open competitive examination for special agents and research assistants, for both men and women, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in these positions in the Children's Bureau, Department of Labor, at salaries ranging from \$1,200 to \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of special agents will be mainly in the field to collect data for use in the preparation of reports. At the outset most of them will be assigned to investigations into the social factors responsible for the high infant mortality, but a few will be engaged on subjects connected with the employment of children. In the infant mortality work the agents interview the mothers in their

homes to get the data called for by the schedule.

The duties of research assistants will be mainly in the Washington office, studying existing material bearing on the subjects being investigated by the Bureau and preparing reports and sections of reports.

NAVY YARD EXAMINATIONS.

United States civil service examinations for the following mechanical trades and noneducational positions in the United States Navy Yard, Boston, Mass., will be held on September 1, 1914:

Chainmaker's helpers; boy, rivet heaters; rigger's helpers; shipfitters; holders on; shipfitter's helpers; riveters; brick masons; carpenters; painters; calkers and chippers; iron wharf builders.

No educational test will be given and applicants will not be assembled for a mental examination. The examination will consist of the subjects mentioned below, weighted as indicated:

Subjects.	Weights.
1. Physical ability,.....	40
2. Training, experience and fitness, ..	60
Total.....	100

All statements relating to training, experience and fitness are subject to verification. Applicants should name in their applications, as references, employers, or other persons who are competent to furnish information relative to the applicants' fitness for the position sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications the applications may be canceled.

An applicant is required to show to the satisfaction of the labor board that he has the following qualifications in order to have his name placed on the eligible list of appointments:

That he is a citizen of, or owes allegiance to, the United States. That he has the necessary knowledge of, and experience in, the occupation or trade in which he seeks employment. That he is industrious and of good character. That he is physically able to perform the work of his occupation or trade, and that he has no physical defect that will, as a contributory cause, tend to prolong a disability resulting from an accident or injury received in the performance of his work, or which would render him more liable to such accident or injury.

Age limits: Riveters, 18 or over; helpers, 17 or over; boy, rivet heaters, 14 to 18; all others, 20 or over.

Application Form 1800 is required and may be obtained from the labor board, with whom it must be filed on or before August 17, 1914. Complete instructions are issued with each application form.

CUSTOM RECEIPTS AT BOSTON.

Custom receipts of port of Boston in fiscal year ended June 30, 1914, totaled \$15,177,315. Moneys derived from head tax, tonnage, etc., amounted to \$384,959, making the total for the year \$15,673,808, compared with \$24,421,740 in 1913, a decrease of \$8,859,165.

Wool imports at Boston are greater than any other city in the country, and the fact that this commodity now comes in duty free can be held responsible for the greater part of the decrease in custom fees. Amount of business done at this port by the custom force last year was greater than in 1913, 92,540 entries being made by custom brokers for imports as compared with 88,513 in 1913.

PROCEEDINGS OF CITY COUNCIL.

Monday, July 13, 1914.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., President McDONALD in the chair and all the members present.

The Council voted, on motion of Coun. BAL-LANTYNE, to dispense with the records of the last two meetings.

APPOINTMENTS BY THE MAYOR.

The following were received:

City of Boston,
Office of the Mayor, July 13, 1914.

To the City Council:

Subject to the confirmation of your honorable body I have this day appointed Walter G. Moffett (194 Hillside street), to be a Measurer of Leather; John Bogan (570 Canterbury street), to be an Inspector of Pressed or Bundled Hay and Straw; Michael Quinn (250 Freeport street), Harry E. Adams (63 University road, Brookline), John Joseph Lavin (68 Whitney street) and George T. Smith (118 Cambridge street, Charlestown), to be Weighers of Coal, and Edward P. Morrison (22 Union street, Watertown), employed by the Boston & Albany Railroad Company, to be a Measurer of Wood and Bark, a Weigher of Coal, a Measurer of Grain and a Weigher of Boilers and Heavy Machinery, for the term ending April 30, 1915.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,
Office of the Mayor, July 13, 1914.

To the City Council:

Subject to the confirmation of your honorable body I have this day appointed Daniel P. Sullivan (4 Florida street, Ward 24) and Lewis W. Leary (292 Columbus avenue, Ward 10) to be constables in the City of Boston for the term ending April 30, 1915.

Respectfully,
JAMES M. CURLEY, Mayor.

Severally laid over under the law.

MONEY FOR RESERVE FUND.

The following was received:

City of Boston,
Office of the Mayor, July 13, 1914.

To the City Council:

Under chapter 615 of the Acts of 1913 the School Committee has certified that the balance not appropriated of the amount allowed for school buildings, lands, yards and furnishings, is 10 cents on each \$1,000 of the valuation. This produces \$147,708.72 available for appropriation by the City Council, and I respectfully recommend the passage of the accompanying order.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That the sum of one hundred forty-seven thousand seven hundred eight dollars (\$147,708) be and hereby is appropriated for the Reserve Fund; that said sum be met by taxes to the amount so appropriated and be raised by tax on the polls and estates taxable in the City of Boston, and that all orders heretofore passed relating to taxes and the interest thereon apply to the taxes herein provided for.

Referred to the Executive Committee.

EXPENSES FOR MEMORIAL EXERCISES.

The following was received:

City of Boston,
Office of the Mayor, July 13, 1914.

To the City Council:

I respectfully recommend passage of the accompanying order, appropriating the sum of \$253.15, to be expended for music, printing and transportation for Spanish War Veteran Memorial exercises held on Boston Common, on Sunday, May 24, 1914, the same to be charged to the appropriation for Mayor, Public Celebrations.

Respectfully,
JAMES M. CURLEY, Mayor.

Ordered, That the sum of two hundred fifty-three and 15-100 dollars be appropriated, to be expended for Spanish War Veteran Memorial exercises held on Boston Common on May 24, 1914, the same to be charged to appropriation for Mayor, Public Celebrations.

Referred to the Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Margaret M. Callahan, widow of patrolman John J. Callahan, to be paid an annuity, under provisions of Acts 1887, chapter 178, section 2.

Charles W. Miller, to be reimbursed for expenses incurred in defence of suit brought against him on account of his acts as a police officer.

Michael Haggerty, for compensation for injuries received while in the employ of the city.

Harry Crystal, for compensation for injuries caused by his being struck by an automobile of the Building Department.

Esther L. Cogan, for compensation for damage to clothing by an asphalt machine.

Elizabeth Flynn, to be paid amount of doctor's bill on account of the illness of her children caught from a child boarded with her by the Children's Institutions Department.

R. L. Rice, for compensation for damages to automobile on ferryboat "Hugh O'Brien."

Louis E. Merry Company, for compensation for damages to wagon by a hose wagon of the Fire Department.

Eugene F. Murphy, for compensation for damage to furniture van by a spraying machine of the city.

Samuel B. Roos, for compensation for damages to machine by a defect in Columbus avenue.

Samuel and Rebecca Goldfine, for compensation for damage to property 622-624 Saratoga street by the bursting of a sewer pipe.

Pinkus Rappaport, for compensation for damage to wagon by an automobile of the Public Works Department.

Mary Jane McNulty, for compensation for damages at 119-121 M street by the bursting of a water meter.

S. W. K. Brooks, for compensation for damages caused by a city team knocking over his pitch kettle, while he was at work on the ferryboat "Hugh O'Brien."

Mary Ellen Mehigan, for compensation for injuries received by herself and her little girl by a defect at the corner of Washington and Franklin streets.

Francis Joseph Coady, for compensation for injuries caused by his falling into a coal hole on Ferrin street, Charlestown.

John Gordon, for compensation for injuries caused by his being struck by an automobile belonging to the city.

Mrs. Alice M. Williams, for compensation for damage to clothing by a truck repairing Bowdoin street, Dorchester.

Annette L. Sullivan, for compensation for loss of coat at City Hospital.

Executive.

Ellen Melendy and others that an appropriation be made for the repair of Neptune road.

Petitions were received for licenses to sell, rent or lease firearms, as follows:

Herman Rosenthal, 360 Washington street, Ward 25.

Michael F. Rosenthal, 33 Border street, Ward 2.

Royal Loan Office, 44 Green street, Ward 8.

CONSTABLES' BONDS.

The City Treasurer, after having duly approved of the same, submitted the constables' bonds of Thomas F. Brett, George W. Kimball, Joseph J. McWeney, John J. Pendoley.

Approved by the City Council.

CITY OF BOSTON, MILITIA ENROLLMENT.

The following was received:

City of Boston,
Assessing Department, June 30, 1914.
James Donovan, Esq., City Clerk:

Dear Sir,—At a meeting of the Board of Assessors, held to-day, it was voted to certify to the City Clerk, under section 8 of chapter 604 of the Acts of 1908, that the number of persons in the City of Boston liable to enrollment in the militia is found to be 123,657.

Respectfully,
BOARD OF ASSESSORS,
by CHARLES E. FOLSOM,
Secretary.

Placed on file.

STORAGE OF EXPLOSIVES.

Notices were received of intention to continue the use of premises for explosives or inflammable fluids, viz.:

Warner & Co., keeping of gasoline, at 8 Liberty street, Ward 16.

Iver Johnson Sporting Goods Company, keeping and sale of shells, cartridges, primers, caps, gunpowder and carbide, at 155-157 Washington street, Ward 6.

Boston Electric Garage Company, keeping and sale of gasoline, at 321-323 Columbus avenue.

Joseph P. Collins, keeping and sale of gasoline, at Cliff street, near Washington street, Ward 21.

Joseph P. Collins, keeping of gasoline, at 414 Jamaica way, corner Lookstead avenue, Ward 22.

Kirkwood Brothers, keeping and sale of gunpowder, ammunition and primers, at 23 Elm street, Ward 6.

Boston Yacht Club, keeping and sale of gasoline, at Columbia road, foot of O street, Ward 14.

John L. Whiting-J. J. Adams Company, keeping of naphtha, at 690-710 Harrison avenue (two licenses).

Charles F. Withington, keeping of gasoline, 35 Bay State road, Ward 11.

Armory Garage Company (Inc.), keeping and sale of gasoline, at 29-33 Ferdinand street, Ward 10.

Standard Oil Company of New York, keeping and sale of petroleum and its products, at Chelsea street, East Boston; 6-8 Custom House street; rear 250 Freeport street, Dorchester; Wolcott street, Hyde Park.

Placed on file.

EXPERT ADVICE, LIGHTING CONTRACT.

The following was received:

City of Boston,
Law Department, July 1, 1914.
To the Honorable the City Council:

Gentlemen,—I submit herewith my opinion as to the power of the City Council to employ an expert in the manner provided in the following order:

Ordered, That the Executive Committee of the City Council be authorized to obtain expert advice upon the proposed electric lighting contract, at an expense not exceeding \$500; such expense to be charged to the appropriation for City Council, Incidental Expenses.

In my opinion such an expert may be employed by the City Council and paid for out of the appropriation for incidental expenses, assuming that the appropriation is sufficient. The City Council is required to pass on street lighting and refusal disposal contracts for terms of more than one year, and expert services may be required in order to give the Council necessary information or advice. The prohibitions of section 8 of the Charter Amendments of 1909 do not extend to the employment by the City Council of experts on contracts which, under section 6 of said amendments, must be approved by the Council before they can become effective.

I think, however, that the order in question must be submitted to the Mayor for approval under the provisions of section 3 of the charter amendments. The exception in said section 3 is as to "votes relating to its own internal affairs," and seems to relate only to matters connected with its organization, rules and mode of procedure.

Yours truly,

JOHN A. SULLIVAN,
Corporation Counsel.

Referred to the Executive Committee.

MINORS' LICENSES.

President McDONALD submitted reports on petitions for minors' licenses for nine newsboys, two bootblacks and ten vendors—recommending that licenses be granted.

Reports accepted; licenses granted on the usual conditions.

UNFINISHED BUSINESS.

President McDONALD called up unfinished business, viz.:

1. Ordered, That the sum of four hundred thousand dollars (\$400,000) be and hereby is appropriated for Highways, Making of, under the provisions of chapter 393 of the Acts of 1906, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On June 22 the foregoing order was read once and passed, yeas 8, nays 1.

The order was given its final reading and passed, yeas 8, nays 1, Coun. KENNY voting nay.

2. Ordered, That the sum of forty-two thousand one hundred dollars (\$42,100) be and hereby is appropriated for the widening of Washington street, from Warrenton street to Pleasant street, to a uniform width, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

On June 22 the foregoing order was read once and passed, yeas 9.

The order was given its final reading and passed, yeas 9.

3. Ordered, That the Executive Committee of the City Council be authorized to obtain expert advice upon the proposed electric lighting contract at an expense not exceeding \$500, such expense to be charged to the appropriation for City Council, Incidental Expenses.

Referred to the Executive Committee, on motion of Coun. KENNY.

4. Ordered, That the salaries of Margaret H. Markham and Teresa C. Dowling, female assistant probation officers of the Municipal Court of the City of Boston, determined by the Chief Justice of said court at the rate of \$1,500 per annum, to begin June 20, 1914, be and the same is hereby approved, the amounts so paid to be charged to the appropriation for County of Suffolk Municipal Court of the City of Boston.

The order was passed.

SOLDIERS' RELIEF.

Coun. WATSON, for the Committee on Soldiers' Relief, submitted the following:

(1) Report recommending the passage of an order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of July.

Report accepted; order passed.

(2) Report on order (referred June 15) for acceptance of act relative to widow of Russell M. Zover—recommending reference of same to the Executive Committee.

Report accepted; said reference ordered.

MONEY FOR PARK AND RECREATION DEPARTMENT.

Coun. WATSON, for the Committee on Parkman Fund, submitted a report on message of Mayor and order (referred June 22) appropriating \$50,372.08 from income of Parkman Fund to Park and Recreation Department for various purposes—recommending reference of same to the Executive Committee.

Report accepted; message and order referred to Executive Committee.

CLAIMS.

Coun. BALLANTYNE, for the Committee on Claims, submitted the following:

(1) Report on claim of John L. Ames for compensation for medical attendance at Charles Street Jail—recommending the passage of the following:

Ordered, That there be allowed and paid to John L. Ames the sum of twenty-five dollars for medical attendance at Charles Street Jail on December 20, 1911, said sum to be charged to the appropriation for County of Suffolk, Jail.

(Recommended by the Law Department.)

Report accepted; order laid over under the rule.

(2) Report on claim of David D. Brough for compensation for medical attendance at Charles Street Jail—recommending the passage of the following:

Ordered, That there be allowed and paid to David D. Brough the sum of \$37.50 for medical attendance at Charles Street Jail on December 20, 1911, said sum to be charged to the appropriation for County of Suffolk, Jail.

(Recommended by the Law Department.)

Report accepted; order laid over under the rule.

BUILDING LIMITS.

Coun. WOODS, for the Committee on Fire Hazard, submitted the following:

(1) Report on ordinance (referred February 16) to amend ordinance on building limits so as to exclude Brighton—that the ordinance ought not to pass.

(Coun. Woods dissents.)

Coun. WOODS—Mr. President: I presented an order here the first of the season for the repeal of the building limits extension in Brighton. The committee on considering this question took into consideration the whole city, as this wise Council of a year ago passed a building limits extension which prohibited any person from building a two or three or one family wooden house within a certain area. Now, Mr. Chairman, the State Legislature—composed of 240 house members and forty senators—saw fit to practically nullify this entire ordinance as it was passed by the City Council. They have allowed them to build one and two family wooden buildings in the building district but they have not been allowed to build three-family houses. But they can go outside the district and build three-family houses, but they can't keep 10 feet from the line. Therefore it was my purpose, Mr. Chairman, to have the building limits extension, as they were practically repealed by the State Legislature, to have them repealed by this Council, and not carry the burden of over four or five thousand names which I have here, that asked for the repeal of this building law. I want to say that it is unfair in every particular. It is unfair to my part of the city, and it is true in other parts of the city. Now in Brighton in 1908 we had \$33,000,000 worth of property and in 1913 we had \$43,000,000 worth of property. We increased our building there \$10,000,000. We had 8,000,000 feet of land, idle land, in 1908, and we have only got 6,000,000 to-day. But I want to say that it is one of the greatest hardships that was ever put on anybody to pass this law as it is. The fact is the Legislature has passed the law. Your City Council has made the ordinance that you can't build a one, two or three family wooden building after the first of July, and the State Legislature has passed a building law which will not allow you to build a one or two family house for ninety days more. Therefore we are in this position in Boston to-day, that no man can build a home in that district. He can't get a permit to build a one or two family house for ninety days. And what does that mean? Ninety days means about the second day of October, you have got to wait until October. What does it mean? It means that thousands of carpenters, plumbers and all kinds of mechanics will have to lie idle on this account. The builders have gone to Cambridge. They are building three-flat houses there. I want to say that the only opposition that we had to this bill was from people that appeared from other places—Mr. Blackall and others from Cambridge. They asked everyone what kind of house they lived in and every one lived in a wooden house. Still in Boston they wanted us to put on brick buildings.

Coun. BALLANTYNE—If the brother would yield for a moment I would like to have the clerk

read the order which is before the Council. I would like to know what ordinance we are talking about.

President McDONALD—Will the gentleman yield?

Coun. WOODS—Yes.

(The clerk read the ordinance.)

Coun. WATSON—Will the gentleman yield?

Coun. WOODS—I would rather not. Mr. Chairman, I want to say that one order was put in here by mistake. That was rectified by the committee and a new order introduced. I am talking on the order to repeal the building limits as they were extended to that part of Brighton. Now it is immaterial in a way to me whether you repeal them or extend them over Boston. I claim if it is fair to have them in one part of Boston it is fair to have them in every part of Boston, Ward 3, the rest of Dorchester and the rest of Brighton. I don't think we should enjoy the privilege of having one kind of houses in one part of Brighton and not in the other. There are over five thousand names that have been produced here in favor of the bill and probably there are something like thirty people who oppose the bill. We haven't got the minutes of the people that opposed the bill because they thought it was too much expense. But in a matter of this kind I don't think any expense is too much. Something that means the loss of life and limb and the housing of the public ought to get careful consideration. Take Dorchester: In 1880 there were 21,000 inhabitants. To-day, in 1914, just thirty-four years, there are 230,000 people there. There were six engines in Dorchester in 1880 and to-day there are seven engines. I want anybody to point out to me where the increase of the apparatus for the protection of life and property is in any proportion to the increase of people. We have to house our people and we can't do it in \$40 flats. We have got to put up a style of house that will meet the people's demands. In the lower end of our ward where the land is 5 and 6 cents a foot we are building houses for five to six thousand dollars that we can let for \$18—five nice rooms, front and back piazza, bath and all the improvements. And for a two-family house we have got to get \$25 a month for the same kind of place. And the housing conditions are something we have got to be careful of. It is all right to stand here and holler fire hazard and all that sort of thing, but let us do it in the right way. The new law calls for 10 feet from lot lines, wooden buildings, in all kinds of material. What objection can anybody have to that. The two-family house is 5 feet. There is a better chance for fire to get in where they are 10 feet apart than where they are 20 feet apart. I claim the law is wrong. I want to say I could take up the Council's time for the next three or four hours if I desired. I don't want to do it. I just wanted to give a few facts. The fact is on three-apartment houses that you can buy a three-apartment house, say, for \$6,500 up, \$1,000 down, and a \$5,500 equity. What does this bill mean? It means that the mortgagee who has the mortgage on that house will make you take out a demolition clause or compel you to reduce the mortgage, and the majority are making them reduce the mortgage. I have a letter from the South Boston Savings Bank, a bank that takes care of most of the poorest property in Boston, and it says here:

South Boston Savings Bank.

Boston, April 1, 1914.

Mr. W. H. Woods, Councilman.

Dear Sir,—The question of a repeal of the ordinance which includes South Boston in the city fire limits, was discussed last evening by the members of the Board of Investment of this bank, and it was the unanimous opinion that it should be repealed. At the risk of repeating a good deal that was said at the last hearing before your committee, I do want to call your attention to one or two phases of the question as it applies especially to this section.

There are a great many small houses over here occupied by the owner and covering small areas of land. The destruction of any of these would mean more vacant land practically valueless, as no one could afford to rebuild of first-class construction on these small lots. In that event the banks, in considering applications for loans in the future, can place but little if any value on the land.

This bank holds about 1,700 mortgages on property in South Boston and Dorchester and should the ordinance become operative a great deal of this property would require additional insurance, thus putting an added expense on the borrower. We are informed that this extra insurance will cost 15 per cent of the regular rate.

We therefore believe that, as relating to tenements, the ordinance should be repealed, though we have no objections to its applying to property constructed for other purposes.

Yours truly,

GEORGE A. TYLER,
President.

I am glad for South Boston that this law is passed that allowed them to build one and two family houses. The very fact that the ordinance that was passed was wrong was shown when one of the members that voted for the ordinance introduced the bill into the Legislature asking for relief from this ordinance by allowing one and two family wooden houses, which bill I am glad to say was passed. It is a credit to him that it was passed. I want to say that the fact that that is in is a great help. I want to say that as far as Brighton is concerned it doesn't make much difference, because in Brighton we have a majority of two-family houses. But in

justice to the house owner and the public in general I want that they should have fair play. I don't believe it is the intention of any man, if I own a house with a \$1,500 mortgage and can't take a demolition clause on it, that I shall be forced to pay the \$1,500 off. It means a foreclosure of a lot of mortgages when they come due, and it means the squeezing of the man that has got the small equity. The man with a \$1,500 equity or a \$2,000 equity will be told to reduce it. What will be the result? He will go to the sharks and get a second mortgage and pay 12 per cent. And there is no doubt that there are lots of unscrupulous people in the community who have sold their houses for cash and have a mortgage. They will say, "Here is a chance to squeeze some more out of them." "We will have to make you reduce this mortgage to —, because it is not safe under the building law. If you were burned out you could not rebuild. Therefore, you must reduce your mortgage." What does it mean? It means the foreclosure and the wiping out of that man's equity. I don't believe any member of the Council wants to work any such hardship on any man. You are talking about your second-class constructor. I think the Legislature should be commended for the passage of this bill nullifying the ordinance as passed by the last year's Council. Suppose I have a nice house back from the thoroughfare, and the second man is compelled to build second-class construction and he would bring his house out on the front line, and then another man does the same. And there is my house twenty-five feet set back, practically ruined by the second-class construction. And what is second-class construction? Nothing but a forest of lumber inside of four brick walls. It was best shown at the Melvin fire. There was a five-story brick building with thirty families. Is that as safe as the three-family wooden structure with the front entrance and back entrance and front and back piazzas, with three families? Is that three-family house more hazardous and disastrous to have in your community than the five-story apartment house with thirty suites in one building? I want to say that if some of the members think it is I will have to disagree with them. But I want to say as to the second class of construction as it is proceeding in Brighton, there isn't to-day a second-class construction in Brighton but is practically condemned, and it must be altered over to meet the requirements of the new act. The stairways must be built up with concrete or brick, the stairways inclosed, and the only protection the people have is that they have got to comply with the law,—which is a good thing as far as Brighton goes. It is true of any part of the city, but I must talk on this order which relates to Brighton. I was going to be fair and let every part of Boston get the benefit of the act, because I think there are many parts—East Boston, the upper part of Dorchester, and Roslindale (which is of course exempt), which need it. But if you want to be fair either repeal the act or extend it over Boston. Every piece of property I own is not in this restricted section, but I don't think it is fair to the public to say the people on this side can't do such a thing and I can do it on the other. I don't know whether the members of the Board have given this the study I have, but I have carefully gone over it, and you will all have to admit that when the Legislature of Massachusetts practically nullifies your ordinance, only in one particular, somebody must be wrong. It is either the Legislature or this body,—I don't know which. But I think as long as the Legislature was kind enough to take this Council out of the dilemma of having the burden of carrying this on, they should not carry it any further. Of course the legislation calling for seventeen councilors may or may not go into effect, but the fact that there are 5,000 names staring us in the face I think is something that should be given consideration, for every man there is honest as far as I know. I have carefully looked it over. I am not talking for the builder. I am against the jerry-builders, the people that borrow four or five thousand dollars, build a house costing \$28,000, and then put on a mortgage, costing 15 or 20 per cent. I am in favor of the people that raise a fair mortgage on 60 per cent valuation. I don't think I will take up any more of your time. I could talk to you here two or three hours,—I have a volume of evidence here,—but I don't believe in doing that. Only one thing I would say: The position we are in to-day is this,—a builder can't build. As I have explained before, a man who owns his little three-family house is going to get forced out of his equity. I don't believe in forcing this thing. I believe in giving everybody time to think it over. We are going to give the Corporation Counsel a chance to rule on this building law. I hope this matter will be referred to the Executive Committee, so that the whole thing can be taken up to-day.

Coun. BALLANTYNE—As I understand the question before the House at the present time is the elimination of that part of Brighton which was included in the fire limits ordinance as passed in September, 1913. That being the case, it refers to only a very small portion of Boston, and we have listened to a long argument in the interests of the entire city. Now, if my brother on the other side is so much interested in the entire city, why didn't he offer an amendment to the ordinance protecting all sections of the city instead of that one portion, Brighton? I am very glad that the Legislature has passed the bill that was passed within the last few days amending the building laws of Boston. I have contended for years in this body that the place to go for redress and for protection was to the

Legislature by amendment of the building laws. I have opposed any radical extension of the fire limits under the power given to the City Council, and even the small extension that was made a year ago last September I did not altogether approve of, but I agreed to it because it was the best that I could get. And I am very glad that the Legislature has practically wiped out all our work at that time. And in ninety days from the passage of that bill every section of Boston will be relieved from the burdens placed upon their shoulders as described by my brother on the other side. And I do not see why we should take special pains to relieve Brighton now before the rest of the city is taken care of. At the meeting of the Fire Hazard Committee to-day it was voted to report back ought not to pass on this order. It was also voted that the Corporation Counsel be requested to come before the Executive Committee and give us his opinion as to the effect which the law passed by the recent Legislature would have upon the ordinance as passed in September, 1913. And if I judged the members right their idea in asking for that opinion from the Corporation Counsel was in order that they might frame some amendment to the ordinance after having his opinion, giving relief not to one particular section of the city but to all sections of the city, which I suppose we are here to represent. Now, Mr. President, I am just as much in favor of the poor householder and I am just as much in favor of wooden buildings built under proper building laws; I am just as much opposed to second class construction as it has been allowed in Boston for many years, as any man in Boston. I have given considerable thought to that question of second class construction, and I have said here in this House, and I repeat it again, that I will risk my life any time in that so-called three-decker, any day in the week, before I will risk my life in those buildings of so-called second class construction. I am very glad that the building laws have been amended so as to make it impossible to have any such construction as we have had in the past. But I do oppose having this legislation in this body for one particular section while members of the Committee on Fire Hazard are considering—and perhaps may consider to-day before this Council adjourns—some means of relieving the entire city. I hope, Mr. President, that the order will be rejected, as recommended by the committee, and that when we hear the Corporation Counsel give us his opinion as to the effect of the law upon the ordinance as it stands to-day, we may see our way as a Council to relieve the entire city.

Coun. WOODS—Mr. President, it was not my purpose at the start to introduce any particular part of Boston. I knew the condition of Brighton. I practically did not know what the ordinance was when I came in here but it was taken up at our hearing that we would consider all parts of Boston and that was so understood by the members of the committee—that we did not consider Brighton. The order was in as Brighton and we put it in that way. I asked to have this matter referred to the Executive Committee to be taken up in connection with whatever the members may say in regard to the opinion of the Corporation Counsel. If they can frame up some law I hope it will be for the interests of everybody. And I would like to have that matter referred to the Executive Committee to take action.

President McDONALD—Coun. Woods moves that the matter be referred to the Executive Committee.

Coun. BALLANTYNE—Notwithstanding the statement as made by the brother on the opposite side it is a fact that the only ordinance we have before us to-day, and the ordinance presented by the Councilor from Brighton, is the ordinance relieving that section of Brighton, and there is no reference to any other section of the city. And I hope the order will not be referred to the Executive Committee but the recommendation of the committee be adopted.

President McDONALD—The question comes on the motion of Coun. Woods that the matter be referred to the Executive Committee.

The motion was declared lost. Coun. Woods doubted the vote and asked for a call of the yeas and nays. The roll was called and the motion was lost, yeas 2, nays 6, the vote being as follows:

Yeas—Coun. McDonald and Woods—2.

Nays—Coun. Attridge, Ballantyne, Coleman, Collins, Coulthurst, Kenny—6.

President McDONALD—The question comes on the report of the committee that it ought not to pass.

The report was accepted and the ordinance rejected.

(2) Report on ordinance (referred February 9) to amend building limits—that the same ought not to pass.

Report accepted; ordinance rejected.

ANNUITY FOR MRS. NORTON.

Coun. COLLINS offered the following: Ordered, That chapter 760 of the Acts of the year 1914, entitled "An Act to Authorize the City of Boston to Pay an Annuity to the Widow of Thomas J. Norton," be and hereby is accepted.

Ordered, That under the provisions of chapter 760 of the Acts of 1911 there be allowed and paid to Annie L. Norton, widow of Thomas J. Norton, a member of the Police Department who was killed while in the discharge of his duty, the sum of one hundred dollars a month so long as she remains

unmarried. In case the said widow shall die within sixteen years from the date of the passage of said act (July 7, 1914), or if she shall remarry at any time, the said sum shall be paid to a guardian for the benefit of any of the children of the said Thomas J. Norton living at the death or remarriage of the widow and then under sixteen years of age; provided, however, that all payments under this act shall cease when the youngest surviving child of said Thomas J. Norton shall have attained the age of sixteen years. The amounts paid under the authority of this order to be charged to the appropriation for Police Department, Pensions.

Referred to the Executive Committee.

JUDGMENT AGAINST THE CITY.

Coun. BALLANTYNE offered the following:

Ordered, That the Corporation Counsel be authorized to have judgment entered against the city in the sum of \$4,397.94, with interest from December 3, 1913, and costs, in the case of Roger N. Allen *et al.* v. Boston, an action to recover for personal property tax paid under protest December 3, 1913.

Ordered, That the order passed by the City Council June 22, 1914, and approved by the Mayor June 26, 1914, authorizing a settlement of the case of Roger N. Allen *et al.* v. Boston be and the same is hereby rescinded.

Referred to the Executive Committee.

NAMING OF SQUARE, BRIGHTON.

Coun. WOODS offered an order—That the vacant space in Brighton bounded by Winship, Washington, Cambridge, Henshaw and Wirt streets, be hereafter known as "Lee square."

Referred to the Executive Committee.

NEW ROOF, PARKMAN BANDSTAND.

Coun. WOODS offered an order—That the Park and Recreation Commissioners be requested, through his Honor the Mayor, to consider and report to the City Council upon the advisability of placing a copper roof on the Parkman bandstand, in place of the present roof.

Coun. WOODS—Mr. President, I want to say in relation to this, I attended for the first time recently and saw the Parkman bandstand. I don't know who the architect was on that stand or whether they lived up to his requirements, but I want to say it was a disgrace to him and to the community. The idea of building a stand as a memorial to Parkman that left so much money and then putting a tar and gravel roof on it. It is a disgrace to the architect. In the hot days the tar flows over the sides and anybody entering the stand is liable to get smeared with tar. And the fact is it has destroyed the whole face of the Parkman stand, and to clean it to-day will cost more than the price of three copper roofs. I want to call attention to it at this time so that the present Commissioner of Park and Recreation Department would not be to blame for it at a later time, but it is a disgrace to the community to put a tar and gravel roof on a stand without any gutter, to have the tar smear over the sides.

President McDONALD—Referred to the Executive Committee.

FAUCET ON WATER FOUNTAIN.

Coun. WOODS offered an order—That the Commissioner of Public Works be requested, through his Honor the Mayor, to cause to be placed on the water fountain at the corner of Market and Washington streets, Brighton, a faucet, from which water may be drawn for animals.

Referred to the Executive Committee.

SIDEWALK ORDERS.

Coun. WOODS presented a petition signed by Jessie P. Kelley *et al.* for edgestones on Saunders street.

In connection with the petition Coun. WOODS offered an order—That the Commissioner of Public Works lay a granite edgestone along the easterly side of Saunders street, Ward 25, in front of the estates bordering thereon, under the provisions of chapter 437 of the Acts of 1893.

Referred to the Executive Committee.

President McDONALD offered an order—That the Commissioner of Public Works make a sidewalk along Day street, between Centre and Linden streets, Ward 22, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

Referred to the Executive Committee.

President McDONALD offered an order—That the Commissioner of Public Works make a sidewalk along Creighton street, between Centre and Day streets, Ward 22, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with

granite edgestones, under the provisions of chapter 437 of the Acts of 1893.

Referred to the Executive Committee.

RAILWAY SERVICE, WALK HILL STREET.

President McDONALD presented a petition signed by Patrick Meehan *et al.* for extension of street railway service along Walk Hill street.

In connection with the petition President McDONALD offered an order—That the Boston Elevated Railway Company be requested, through his Honor the Mayor, to extend its street railway service along Walk Hill street, between Hyde Park avenue and Blue Hill avenue, Wards 23 and 24, as the same is necessary for the convenience of the residents of said section.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted, at 5.08 o'clock p. m., on motion of Coun. BALLANTYNE, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 7.40 o'clock p. m.

MONEY FOR INFIRMARY DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, July 13, 1914.
To the City Council:

I hereby withdraw the order for the transfer of \$206,411.48 from the appropriation for Street Lighting Equipment to an appropriation for Boston Infirmary Department, Long Island Improvements, accompanying my message presented to the City Council June 15, 1914, and to substitute therefor the accompanying order transferring \$198,411.48 for the same purpose, and I recommend the passage of said substitute order.

Respectfully

JAMES M. CURLEY, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$198,411.48 from the appropriation for Street Lighting Equipment to an appropriation for Boston Infirmary Department, Long Island Improvements.

The order was passed, yeas 9.

The order will take its final reading not less than fourteen days from date.

MONEY FOR COAL POCKET.

The following was received:

City of Boston,
Office of the Mayor, July 13, 1914.
To the City Council:

I hereby withdraw the order for the transfer of \$90,000 from the appropriation for Street Lighting Equipment to appropriations for Hospital Department, Coal Pocket, and Hospital Department, Fireproof Storage Building, accompanying my message presented to the City Council on June 15, 1914, and to substitute therefor the accompanying order transferring \$95,000, for the same purpose, and I recommend the passage of said substitute order.

Respectfully,

JAMES M. CURLEY, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to make the following transfers:

From the appropriation for Street Lighting Equipment to the appropriation for Hospital Department, Coal Pocket.....	\$95,000 00
From the appropriation for Street Lighting Equipment to the appropriation for Hospital Department, Fireproof Storage Building.....	3,000 00
Total.....	\$98,000 00

The order was passed, yeas 9.

The order will take its final reading not less than fourteen days from date.

MONEY FOR PARK DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, July 13, 1914.
To the City Council:

In order to have available funds for the necessary care and improvement of the Common and parks of the city in existence January 12, 1887, I respectfully recommend the adoption of the accompanying order making provision for an appropriation from the income of the Parkman Fund for the maintenance and improvement of the Common and parks in existence on January 12, 1887, and for the maintenance of the Aquarium and Zoological Garden.

Respectfully,

JAMES M. CURLEY, Mayor.

Ordered, That the sum of one hundred and four thousand and twenty dollars and twenty-one cents (\$104,020.21) be and hereby is appropriated from the income of the Parkman Fund to be expended under the direction of the Park and Recreation Department, for the maintenance and improvement of the Common and parks in existence on January 12, 1887, and for the maintenance of the Aquarium and Zoological Garden.

The order was passed, yeas 9.
Coun. COLLINS—By unanimous consent I ask to be allowed to make a statement.

Unanimous consent was given.
Coun. COLLINS—I understand that the foregoing amount is earned and in the treasury; in other words, it is now available. This report comes to me from the chairman of the Parkman Fund Committee to whom I am informed the City Auditor this afternoon reported.

Coun. WATSON—I ask unanimous consent to make a statement.

Unanimous consent was given.
Coun. WATSON—As chairman of the Parkman Fund Committee I ought to have been awake when this was read. That amount of \$104,022 is available, I understand, July 13.

REDISTRICTING OF CITY.

The following was received:

City of Boston,
Office of the Mayor, July 13, 1914.

To the City Council:

I transmit herewith communication from the Board of Election Commissioners relative to the redistricting of the city, together with orders making provision for appropriation of \$2,300 for the purpose of arranging the list of voters registered for the annual state election of 1914 and the furnishing of a list thereof to the City Council and the request that the Street Commissioners furnish the City Council with a map showing the assessment blocks and the number of voters in each block. I recommend the adoption of the accompanying orders.

Respectfully,
JAMES M. CURLEY, Mayor.

Board of Election Commissioners,
Boston, July 13, 1914.

Hon. James M. Curley,

Mayor of Boston:

Dear Sir,—In reference to the order passed by the City Council June 22, 1914, requesting the Election Commissioners to furnish the City Council with a list of the male voters registered for the last city election, arranged so as to show the number of such voters residing in each assessment block, we have received the following opinion from the Corporation Counsel:

Boston, July 3, 1914.

Board of Election Commissioners,
100 Summer Street, Boston, Mass.:

Gentlemen,—In reply to yours of July 2, I submit my opinion which is that the information you are required to furnish the City Council as the basis of the new division of wards which it must make in the present calendar year under chapter 630 of 1914, is that provided for by section 1 of chapter 676 of 1914, namely, a list of all male voters of the city registered therein for the state election of 1914, arranged so as to show the number of such voters residing in each ward and precinct by streets. You must use the registration for the next state election in making up your lists, but the statute does not prevent you from dividing the streets into blocks, if you so desire.

Yours truly,

JOHN A. SULLIVAN, Corporation Counsel.

In order to prepare the list of the voters registered for the annual state election of 1914 arranged so as to show the number of such voters residing in each assessment block, an additional appropriation of \$2,300 is necessary.

Respectfully,

BOARD OF ELECTION COMMISSIONERS,
JOHN M. MINTON, Chairman.

Ordered, That the Election Commissioners be requested, through his Honor the Mayor, to furnish the City Council a list of male voters registered for the annual state election of 1914, arranged so as to show the number of such voters residing in each assessment block, and that the Street Commissioners be requested to furnish the City Council with a map showing the assessment blocks and the number of voters in each block.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$2,300 from the appropriation for Reserve Fund to the Election Department, for the purpose of arranging the list of voters registered for the annual state election of 1914, so as to show the number of such voters residing in each assessment block.

The orders were passed, yeas 9.

APPROPRIATION FOR HIGH PRESSURE.

The following was received:

City of Boston,
Office of the Mayor, July 13, 1914.

To the City Council:

I transmit herewith a communication recommending the appropriation of \$150,000 for High Pressure Fire Service, to be expended for the

construction of high pressure pumping station and the extension of high pressure mains.

I recommend the adoption of the accompanying loan order making provision for an appropriation of the amount required.

Respectfully,
JAMES M. CURLEY, Mayor.

City of Boston,

Public Works Department, July 13, 1914.

To the Honorable the Mayor:

Sir,—I respectfully recommend that an appropriation of \$150,000 be made by the city government for the High Pressure Fire Service, same to be expended for the construction of the high pressure pumping station and the extension of the high pressure mains.

Respectfully,
L. K. ROURKE,
Commissioner of Public Works.

Ordered, That the sum of one hundred and fifty thousand dollars (\$150,000) be and hereby is appropriated, to be expended under the direction of the Commissioner of Public Works for High Pressure Fire Service, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE, for the Executive Committee, submitted the following:

(1) Reports on petitions (referred to-day) for licenses to sell, rent or lease firearms at various places—that licenses be granted, viz.:

Herman Rosenthal, 360 Washington street, Ward 25.

Michael F. Rosenthal, 33 Border street, Ward 2.

Royal Loan Office, 44 Green street, Ward 8.

Reports accepted; licenses granted on the usual conditions.

(2) Reports on orders (referred to-day) for edgestones and sidewalks on various streets—that the orders ought to pass, viz.:

Edgestone, easterly side of 7 Saunders street.

Artificial stone sidewalk, Day street, Ward 22.

Artificial stone sidewalks, Creighton street, Ward 22.

Reports accepted; orders passed.

(3) Report on petition of John Colesie (referred June 29) for license to make sausage meat, etc.—recommending reference to the Board of Health.

Report accepted; said reference ordered.

(4) Report on order (referred to-day) for placing of copper roof on the Parkman bandstand—recommending reference of same to Park and Recreation Department for report.

Report accepted; said reference ordered.

(5) Report on order (referred to-day) for naming of vacant space in Brighton as Lee square—recommending reference of same to the Committee on Public Lands.

Report accepted; said reference ordered.

(6) Report on petition of J. B. Crofwell et al. (referred June 29) for naming of space at junction of Tremont, Francis, Kenwood and Calumet streets and Huntington avenue as Farragut circle—recommending reference of same to the Committee on Public Lands.

Report accepted; said reference ordered.

(7) Report on petition of Ellen McIndy et al. (referred to-day) for an appropriation for the repair of Neptune road—recommending reference of same to the Commissioner of Public Works.

Report accepted; said reference ordered.

(8) Report on order (referred June 15) to accept act relative to widow of Russell M. Zuvet, concerning soldiers' relief—that the order ought to pass.

Report accepted; order passed.

(9) Reports on various orders (referred to-day) that the same ought to pass, viz.:

Order for placing faucet on water fountain, corner of Market and Washington streets.

Orders for payment to Roger N. Allen et al. \$4,397.94, for property tax paid under protest.

Order that the Boston Elevated Railway Company extend its street railway service along Walk Hill street, Wards 23 and 24.

Order accepting chapter 760 of the Acts of 1914, said act authorizing the city to pay an annuity to Mrs. Annie L. Norton, widow of Thomas J. Norton.

Order that there be allowed and paid to Annie L. Norton, widow of Thomas J. Norton, the sum of \$100 a month so long as she remains unmarried.

Reports severally accepted, orders passed.

(10) Report on message and order (referred to-day) appropriating \$147,708 for the Reserve Fund—that the order ought to pass.

Report accepted; order passed, yeas 9.

(11) Report on message of Mayor and order (referred to-day) appropriating \$253.15 for Spanish War Veteran memorial exercises—that the order ought to pass.

Report accepted; order passed.

(12) Report on message and order (referred to-day) transferring \$90,000 from Street Lighting to Hospital Department—that no further action is necessary.

Report accepted; said order rejected.

(13) Report on message and order (referred June 15) transferring \$206,411.48 to appropriation for Boston Infirmary Department—that no further action is necessary.

Report accepted.

(14) Report on message and order (referred June 22) appropriating \$50,372.08 from Parkman Fund income for Park and Recreation Department—that the order ought not to pass.

Report accepted; order rejected.

GENERAL RECONSIDERATION

Coun. COULTHURST moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

The Council voted, on motion of Coun. BALLANTYNE, that when it adjourns it be to meet on Monday, August 10, at three o'clock p. m.

Adjourned at 7.55 o'clock p. m., on motion of Coun. COLLINS.

CLEANING AND REPAIRING AQUEDUCT.

The Weston aqueduct, which delivers water from the Sudbury reservoir to the metropolitan district in the vicinity of Boston, was cleaned up and repaired during 1913. A section of the conduit, 5,660 feet long, between the terminal chamber and the Weston reservoir, was out of service from March 18 to April 10, while the work was in progress. The following description of the methods employed is from the annual report of Dexter Brackett, chief engineer of the Metropolitan Water Board:

Two gangs of men were employed, one beginning at each end of the section to be cleaned and working toward each other. One gang used water and hand brooms in cleaning the sides and top of the aqueduct, a wagon with a tank body being used when cleaning the top. The second gang made use of a gasoline power sprayer by which water under 200 pounds pressure was discharged against the interior surface of the aqueduct. This method proved more efficient, more economical and quicker than the hand method. The cleaning of the bottom was done with push brooms, operated by hand. The ironwork of the gates and stop-plank grooves in the screen and terminal chambers was thoroughly scraped, dried by the use of torches and painted with two coats of red lead and oil.

COST OF CLEANING WESTON AQUEDUCT.

	Labor.	Material.	Total
Cleaning aqueduct. . .	\$270 05	\$4 58	\$274 63
Cleaning and painting ironwork.	121 00	21 27	142 27
Repairing leaks in masonry.	96 75	37 10	133 85
Total.	\$187 80	\$62 95	\$550 75

When the aqueduct was first emptied it was found that water was flowing in through small crevices in the brick and concrete, the greater number of which were between stations 659 and 671, where the aqueduct is generally in tunnel. In this section 1,400 leaks in the tunnel lining were repaired by driving and calking wedge lead, tea lead or lead wool into the joints. The cost of cleaning and repairing this section of the aqueduct is given in the accompanying table.

Minor repairs were made to the Cochituate aqueduct. The interior of this conduit, which was in service only sixty-two days during the year, was inspected, but it was not considered necessary to clean it.

PLANS FOR AN AMERICAN GARDEN SUBURB.

By ARTHUR C. COMEY OF CAMBRIDGE.

Billerica Garden suburb has been organized to take over and develop along advanced lines a 57-acre estate at North Billerica, 21 miles from Boston. This marks the first conclusive stage in bringing into existence in this country the improved methods of housing for workmen proven so successful in England. For nowhere else in the United States, so far as is known, have the five essential elements—site planning, limited number of houses per acre, wholesale operations, limited dividend, and participation by the residents—been combined in an undertaking designed to meet the needs of the workman earning \$12 to \$20 per week.

The Billerica project is the first concrete application of the principles laid down by the Massachusetts Homestead Commission, which, since its appointment in 1911, has held as one of its chief purposes the establishment of improved housing for workmen. But as the court has decided that the commission cannot engage in housing by the direct use of public money, its attention has been turned to private undertakings along approved lines. In November, 1913, the commission adopted a committee report covering four methods for organizing such companies, of which the most important are the Limited Dividend Company and Co-Partnership. As the latter is pioneering in this country, a detailed prospectus was prepared for adapting it to American conditions. Papers for incorporating a Limited Dividend Company in Massachusetts were drawn up.

Since issuing these reports the Homestead Commission has investigated every opportunity which has appeared for establishing such companies. Of four more or less immediate prospects, that at Billerica was found to combine to an unusual degree the conditions for a successful undertaking.

There the establishment of the \$3,000,000 Boston & Maine repair shops, early in 1914, with 1,200 operatives at present and ultimately 2,000 to 3,000, has created a great demand for workmen's houses in a formerly rural community. Furthermore, other manufacturers are locating there in order to utilize the supply of labor. This means an influx of 10,000 people and more.

The establishment of a model community near the factory has the unqualified approval and backing of the officials of the shops, who desire, as much as the workmen, to secure good living conditions. Land is as yet cheap, though much of it has been exploited and is no longer attractive to the operatives.

Options were placed on a tract of fifty seven acres, favorably located, adjoining the North Billerica station and the present village center, where schools and other public buildings make immediate development possible. This lies less than a mile from the shops, and, furthermore, a free workman's train carries the men directly from the North Billerica station into the works. The cost of this property is far below that demanded by real estate operators farther from the works and with much less attractive surroundings.

The proposed type of development is along advanced garden suburb lines, with an average of five to six families per acre. Of special esthetic value are the river frontage and a large grove of pines in the southwest section. The underlying gravel and sand furnish abundant material for concrete construction, and greatly sim-

plify the grading of roads and sanitary problems. Water is already piped upon the estate, supplying sixteen houses, now in the southeast corner, which yield an income of \$1,600 per annum, sufficient to pay all carrying charges not chargeable to development.

We have here a combination of advantages—demand for many homes, cheap land, and low construction cost—and the moral support of the Boston & Maine officials is added assurance of its success from the start. Many operatives have already signified their intention of living on the tract.

The 57 acres held under option have been taken over and a company formed including as two of its directors, the superintendent of the Boston & Maine shops and the president of the local Board of Trade, who has actively promoted the establishment of the suburb from the start. A portion will be turned over to a copartnership society for development by that method. In another section houses will be sold outright on instalments, each owner taking up 10 per cent of value in stock. In a third section houses for rent will be built, and in the fourth district the company will construct special buildings as the demand arises for shops, lodgings, boarding houses, etc.

Briefly stated, the company proposes to solve permanently the increasingly difficult housing problem on the areas under its control—by elimination of speculative profits, distributing the payments for the home, wholesale operations, constructing houses of durable materials, limiting the number of houses per acre, scientific planning along advanced garden suburb lines, providing community buildings and playgrounds, laying out allotment gardens, and promoting the formation of a copartnership society.

SCHOOL STATISTICS OF CITIES.

The city of Newton, Mass., had the highest average school attendance, per 100 inhabitants, in 1912 of any of the 195 cities in the United States for which figures are given in the recent report on financial statistics of cities having a population of over 30,000 each, which has been issued by William J. Harris, Director of the Census, Department of Commerce. The average for Newton, Mass., was 21 per 100 inhabitants; for Newark, N. J., 20.5; Chelsea, Mass., 18.9; Hartford, Conn., 17.9; Everett, Mass., 17.8, and Brockton, Mass., 17.6.

The city having the lowest average attendance per 100 inhabitants was Dubuque, Iowa, with an average of 7.4, followed by Charleston, S. C., 7.6; Augusta, Ga., 7.8; Covington, Ky., 8.3; and Amsterdam, N. Y., 8.7. The average school attendance, per 100 inhabitants, for some of the larger cities in this report was as follows: Boston, 14.5; Washington, 14.1; Cleveland, 14; New York, 13.5; Los Angeles, 12.9; Buffalo, 12.7; Minneapolis, 12.2; Pittsburgh, 11.6; Chicago, 11.5; St. Louis, 11.3; Philadelphia, 10.7; New Orleans, 10.4; Baltimore, 10.3; Milwaukee, 10; Detroit, 9.9; Cincinnati, 9.7, and San Francisco, 9.3.

The total school sittings reported from these 195 cities numbered 3,772,556; of this number, 3,395,563, or 90 per cent, were reported for elementary day schools, and 345,969, or 9.2 per cent, for secondary day schools. The sittings in elementary day schools exceeded the average attendance in these schools by 372,586, or 12.3 per cent of the average number in attendance. In like manner the sittings in secondary day schools exceeded the

average daily attendance in those schools by 45,152, or 15 per cent of the average attendance in those schools.

The total number of school buildings reported was 7,308, of which 6,765, or 92.6 per cent, were for elementary schools, and 448, or 6.1 per cent, for secondary schools, the number of sittings per building being 502 and 772, respectively.

The average payment for the expenses for the three kinds of schools (elementary day schools, secondary day schools and night schools) per 100 inhabitants for the 195 cities for which figures are presented was \$491. The city reporting the highest average was Pasadena, Cal., with \$899, followed by Newton, Mass., with \$834; Mt. Vernon, N. Y., \$814; Colorado Springs, Colo., \$786; New Rochelle, N. Y., \$744, and Berkeley, Cal., \$725. The cities with the lowest average per 100 inhabitants were Jacksonville, Fla., \$169; Tampa, Fla., \$173; Portsmouth, Va., \$181; Charleston, S. C., \$191.

Reports as to the number of supervisors and teachers employed were received from 182 cities. There was a total of 110,662 supervisors and teachers reported for these cities, of whom 85,559, or 77.3 per cent, were employed in elementary schools; 12,643, or 11.4 per cent, in secondary schools; 593, or 0.5 per cent, in normal schools; 3,137, or 2.8 per cent, in other day schools, and 8,730, or 7.9 per cent, in night schools.

Of the 195 cities considered in this report 53 made payments for teachers' pensions and gratuities, and 5 others had funds for that purpose. Of these 58 cities 38 had permanent pension trust funds and 20 had made no such provision. The total pensions and gratuities paid in 1912 by the 53 cities amounted to \$1,702,811, of which \$1,622,426, or 95.3 per cent, was paid by the cities maintaining teachers' retirement funds with investments, and \$80,385, or 4.7 per cent, was paid by the other 20 cities. Pensions and gratuities are paid to the teachers by two methods: (1) From or through the agency of public trust funds established for that purpose, and (2) directly from the school district or city corporation treasury.

The cities paying teachers' pensions but maintaining no permanent retirement funds or investments were: Pittsburgh, Pa.; Newark, Paterson, Trenton, Camden, Elizabeth, Hoboken, Bayonne and East Orange, N. J.; Denver, Colo.; Atlanta, Ga.; Lynn, Malden and Pittsfield, Mass.; Charleston, S. C.; Mobile, Ala.; New Britain, Conn.; Topeka, Kan.; Niagara Falls, N. Y., and La Crosse, Wis.

The 38 cities having permanent funds with investments for the payments of teachers' retirement pensions reported assets in those funds at the close of 1912 amounting to \$4,134,488. These invested funds paid out \$1,622,426 in pensions; \$13,072 for expenses of fund management, and \$1,398,717 for investments purchased. They received during the year an aggregate of \$1,968,977, of which amount \$1,085,295 was revenue or fund income. Of this latter amount \$917,252, or 84.5 per cent, was derived from teachers' contributions to pension funds.

The payment of pensions, as well as the establishment of teachers' retirement funds, has been adopted as a policy by the large cities to a greater extent than by the smaller. For example, of the total payments of pensions, \$989,324, or 59.3 per cent, was paid by New York City alone, which city also reported 25.8 per cent of the assets of pension funds.

THE ECONOMY OF EXPERT ADVICE.

To know and admit one's limitations is to take a long step on the road to progress. That there are things which he cannot do the successful business man realizes even more surely perhaps than he knows what he can do. And one of the chief reasons for his success is his ability to find men to do what he cannot do—and his willingness to have them do it. The acknowledgment of a limitation thus becomes a far more valuable asset than an abundance of misdirected energy.

If this is true of the individual in the conduct of his business affairs, how much more forcibly does it apply to the management of a city! If graft has cost its thousands, inefficiency has cost its tens of thousands.

Instances are familiar to all where stone block pavements have been laid at a cost of three or four dollars per square yard when sheet asphalt or brick at half the cost not only would have answered in the first place, but later actually was put in to replace the stone blocks. Equally familiar are the cases of macadam laid only to be taken up and replaced within a short period by a more enduring pavement. In such cases the actual extravagance of the misfit may not have been publicly expressed in figures, but it nevertheless existed and was paid for by the taxpayers.

Existing organizations developed for carrying on the ordinary operations of a municipality, or of a department thereof, may be suddenly loaded with extraordinary work, such as the expenditure of the funds from a bond issue for certain improvements. The usual tendency is to attempt to handle the work by simply enlarging the existing machine by the addition of subordinate units to it, of the same character as those already employed. Frequently, however, what should be done is so to reorganize the whole department that efficiency and the lowest possible "overhead charges" on all the work may be assured. If the organization of a department is poor, and if the overhead charges are too high, it may be taken for granted that the costs of the work itself will be extravagant, even if its quality is all that it should be.

Men there are available, expert and capable of advising to the profit of municipalities as to proper organization for work to be done; proper selection of methods and materials; proper design, plans and specifications; and proper inspection, supervision and accounting or recording of expenditures and of details of the work done. No considerable improvement—whether it be for water supply, sewerage, parks and playgrounds, or paving or other work requiring the expert training of the consulting engineer, architect or city planner—should be undertaken without advice from one or more of them. Such men are not only trained in the principles underlying the work, but are experienced in the solution of its problems. They have actually met and overcome the difficulties which reappear to each local authority in one form or another when new work is to be undertaken. Their knowledge of the past difficulties of themselves and of others, their skill and ingenuity, tempered by outside training and experience, will prove valuable complements to those of the local authority, broaden his viewpoint and aid his judgment.

Such assistance is worth its cost, even though the latter stands out, a separate item in the accounts of expenditures, "like a sore finger." The "sore finger" is well worth having if thereby a more serious infection of the whole body is averted.

Most municipal engineers have come to

recognize the value of competent advice—though there are, regrettably, still a few who seem to consider it a shameful confession on their part to accept such outside assistance. But the public generally still needs to be educated to the real value of employing experts to assist their local authorities on frequent occasions. Such education is in progress, as is apparent; but the local engineers themselves need, for their own as well as for the public interest, to assist in the matter by encouraging the engagement of competent advisers, showing the value of their employment, and demonstrating to the public the remarkable evolution of the profession by the development of its branches or specialties.

In many cases where public work has been undertaken without advice and supervision from a competent engineer independent enough to be able to render unprejudiced service, an expert has been called for later to help the local officials "out of the hole." in which they have put themselves. This emphasizes another important axiom—that the expert should be brought in early in the game. He can be generally employed to advantage when the raising of funds is first considered. By his advice then, unjustifiable mistakes of financing can be prevented and fifty-year bonds for macadam surfaces avoided. He should unquestionably be availed of in planning the organization of the forces for surveying, planning and executing the work, and he will be not only convenient but valuable in helping to solve the unforeseen, but inevitable, problems that come up during the production of results themselves.—*The American City.*

BOND SALE MARKET.

The market for municipal bonds still remains good—indeed it may almost be said to be eager. The purchases of such bonds this year have been quite extensive, but in spite of this good prices are being obtained. The following list of city, county and state bonds sold during June, show the basis of sales last month and of bonds sold by the same cities last year:

City.	Basis Last Sale, Per Cent.	Basis Last Year, Per Cent.
Albany, N. Y.....	4.139	4.48
Boston, Mass.....	3.89	4.15
Buffalo, N. Y.....	4.10	4.27
Charleston, W. Va.....	4.675	4.98
Cincinnati, O.....	4.179	4.50
Columbus, Ga.....	4.512	5.00
Cuyahoga County, O....	4.01	5.00
Hartford, Conn.....	4.00	4.30
Lowell, Mass. (Notes)...	3.85	4.72
Milwaukee, Wis.....	4.20	4.50
Montclair, N. J.....	4.25	4.80
Memphis, Tenn.....	4.68	5.00
Minneapolis, Minn.....	4.456	4.96
Port of Seattle, Wash....	4.876	5.00
Rhode Island (State)....	3.896	4.00
Rochester, N. Y. (Notes)...	3.50	* 5.875
Salt Lake City, Utah....	4.409	4.50
Syracuse, N. Y.....	4.153	4.40
Westchester County, N. Y.,	4.125	4.40
Wilmington, Del.....	4.176	4.48
Yonkers, N. Y.....	4.22	4.97

* July 10, 1913.

These cities range from Massachusetts south to Georgia and west to Washington. The basis of sale ranges from 3.50 to 4.876, as compared to 4.00 to 5.875 last year, the averages last month and last year being 4.205 and 4.68 respectively.

Especially good is the showing for the first six months of this year—\$301,828,696. The next largest total for a corresponding period was in 1911, when \$275,578,950 was sold; and in only three other six-month periods has the total exceeded \$200,000,000. It will be noted that municipalities have obtained about 10 per cent more money on bonds this half-year than any previous similar period, and for the same total amount of interest if last year's rates be applied to the 1911 sales.

BOSTON PUBLIC LIBRARY.

On February 1, 1914, total number of volumes, 1,067,103, or 813,533 in Central Library, and 253,570 in 13 branch libraries. Reading rooms, 17, besides those in the 14 libraries, and each of them is also a delivery station. Periodicals and newspapers in various reading rooms, 2,152. Number of books circulated in 1913, 1,848,973. Endowment funds, \$473,304. Cost of maintenance for 1913, \$380,849, or \$8,293 more than in 1912. Expenditure for new branch libraries in 1913, \$112,231. Valuation of property, \$6,000,000.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, JULY 25, 1914.

No. 30

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION \$1.00 Per Year.
SINGLE COPIES 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 37, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, July 27, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, City Hall Annex.

SPECIAL MEETING OF CITY COUNCIL.

A special meeting of the City Council will be held upon Monday, July 27, at 3 p. m., for the consideration of the taking of land adjacent to the Forsyth Dental Infirmary and for an additional appropriation in behalf of the Boston City Hospital.

PUBLIC HEARINGS.

The Directors of the Port of Boston will give a hearing upon the application of the directors of the New York, New Haven & Hartford Railroad for license to fill in a portion of its present South bay trestle, so called, and to construct two abutments on either side of the channel, and erecting thereon steel plate girders, to carry the tracks in and over the tide-waters of portion of South bay, at the office of the directors, 40 Central street, Boston, Thursday, July 30, at 9.15 a. m.

The Directors of the Port of Boston will give a hearing upon the application of the City of Boston, by its Public Works Department, for license to fill solid, with slopes to extend, East First street, across waterway, near Dorchester street, in accordance with chapter 652 of the Acts of 1914, in and over the tidewaters of Boston Harbor, in the City of Boston, at the office of the directors, 40 Central street, Boston, Thursday, July 30, at 9.15 a. m.

The Board of Street Commissioners advertise a public hearing, at the office of the Board, 41 City Hall, upon Wednesday, August 5, at 11 a. m., for the consideration of the taking of land for schoolhouse purposes on Athens street, South Boston.

LOW DEATH RATE IN BOSTON.

By DR. FRANCIS X. MAHONEY, *Chairman Boston Board of Health.*

The Board of Health desire to call the attention of all those interested in the health of the city to the remarkably low death rate for the week ending July 18, 1914. That week was the lowest in the history of the city since the week of June 18, 1904, the rate being 11.83 in 1904 against 11.88 this year. There were only 171 deaths in the city and 30 of these were nonresidents, which gives a corrected death rate of 9.79.

Deaths of children under one year of age were 26, compared with 31 a year ago.

Of the preventable diseases, there were 2 deaths from diphtheria against 5 in the corresponding week of last year, 1 death from scarlet fever, no deaths from measles, typhoid fever or whooping cough. There were 10 deaths from violent causes and 84 deaths in institutions.

This death rate has only been surpassed twice in the last 18 years, one week in 1904 the rate being 11.83, and one week in 1903 the rate being 11.78. This low death rate must be accounted for by the cool weather and the many advantages that the city offers in the way of parks, open-air grounds and beach facilities for the health and comfort of her citizens.

So far this summer there has been an abundance of milk at the market which has arrived in the city in good condition and properly handled and distributed. The great decrease in the infant mortality must be accounted for by the babies receiving a pure milk and the education that has been imparted to their mothers, not only in the care of the baby but also in the care of handling and preparing their milk.

MOTOR FIRE APPARATUS.

By FIRE COMMISSIONER JOHN GRADY.

It is not very long ago that the advisability of installing automobile fire apparatus was questionable, but the advances in the manufacturing of this form of apparatus have been so fast that it is now far beyond the experimental stage and it has become a permanent fixture in the fighting of fire. Unlike some of the other large cities, Boston moved slowly and advisedly in the matter of motor-driven apparatus, and gave the question much study and thought.

While Boston may have moved a little slowly at the advent of motor fire apparatus, it is now rapidly gaining its proper place among the leading cities of the country for equipment in this kind of fire fighting machinery. To-day all the chiefs of the department are supplied with runabouts, and the following motor-driven apparatus is in service:

Chemical 5, Grove Hall.

Chemical 11, Callender and Lyons streets.

Chemical 13, Walk Hill and Wenham streets.

Ladder 21, Byron and Saratoga streets.

Ladder 29, Callender and Lyons streets.

Ladder 30, Egleston square.

Ladder 31, Oak square, Brighton.

Hose tender of Engine 11, Byron and Saratoga streets.

Hose tender of Engine 37, Brookline and Longwood avenues.

Wrecking wagon, Headquarters, Bristol street.

The following pieces of automobile apparatus are now being tested or fitted out at the Fire Department repair shops, and will shortly be put in service:

Tractor to be installed at Engine 46, Peabody square.

Tractor to be installed at Engine 10, River street, city proper.

Tractor to be installed at Engine 37, Brookline and Longwood avenues.

Gasolene pumping engine to be installed at Engine 11, Byron and Saratoga streets.

Gasolene pumping engine to be installed at Engine 45, Washington and Poplar streets.

Combination chemical and hose wagon to be installed at Engine 46, Peabody square.

Aerial ladder truck to be installed at Ladder 4, Dudley street.

Combination chemical and hose wagon to be installed at Engine 10, River street, city proper.

Two one-ton trucks have been ordered for service as supply wagons in the repair shop and fire alarm branches, and will replace seven horses.

The advantages of motor-driven apparatus over horse-drawn are many and varied. With motor apparatus it is possible to reach the scene of a fire in much less time than with horse-drawn. Especially in the outlying sections of the city the advantage is very manifest, as in the suburbs, where the long runs and the many steep hills are easily negotiated by motor apparatus. In these localities it is often necessary to change the horses after a long run, because if another alarm came in on the return of the company to the house there would be some question as to the ability of the horses to reach the second box. The always ready automobile apparatus does away with all this.

Furthermore, it gives the department the services of a man that it would not have with horse-drawn apparatus. The driver of a piece of horse-drawn apparatus, when he reaches a fire, must stay with and care for the horses, whereas the

chauffeur of a piece of motor apparatus is available for fire duty like the other members of the company. It is very evident, therefore, that on the installation of each piece of motor apparatus the city gains the service of one man.

Motor-driven apparatus is economical. While the first cost of the apparatus may be larger in many cases than horse-drawn apparatus, the cost of upkeep is slightly lower, and it is not unlikely that the cost of maintenance will proportionately decrease as the amount of apparatus is increased, as the cost of service for a larger number of machines will not be any greater than for the present number. Further, motor-driven apparatus consumes only when in actual operation, whereas horse-drawn apparatus costs for maintenance while lying idle.

Motor-driven apparatus is of several different types. In Boston we have, or are about to have, combination chemicals and hose wagons, ladder trucks, aerial ladder trucks, triple combinations and tractors.

The combination chemical and hose wagon consists of a chemical engine and hose wagon, carrying a 35-gallon chemical tank, 800 feet of 2½-inch hose and 250 feet of chemical hose, besides other accessories. The motor-driven ladder trucks, in addition to the usual complement of ladders, carry a 40-gallon chemical tank with 250 feet of chemical hose. The so-called triple combinations consist of a gasolene pumping engine, whereby the engine that drives the car pumps the water at a fire, a chemical engine, and also carries its own hose, doing away with the hose tender. This piece of apparatus is used instead of a third size steam fire engine. The tractors are attached to the present steam fire engines, replacing the horses, by which means the present boiler and engine are retained, the driving power being in the front of the car. The whole front of the engine is removed and the tractor is attached in such a manner that it becomes a part of the apparatus. The motor-driven aerial ladder truck is the newest addition to Boston's fire apparatus. The first one is to be put in service in Roxbury. This truck carries an aerial ladder 85 feet long as well as the smaller ladders.

Although to-day Boston is not behind the other big cities in its percentage of motor apparatus, it is the intention of the present commissioner to add still more of this type of fire fighting equipment to the department just as soon as the money is made available.

CLAIMS.

The Mayor has formally approved, with the indorsement of the Corporation Council, the claim of the Sunnyside Day Nursery, I. M. Garfield, treasurer, in the amount of \$10,900, for damages occasioned their property in Blossom street, West End, by the taking of the same for school-house purposes.

PAYMENT OF AVERY STREET DRAFT.

Acting Mayor Donovan signed the draft in favor of William A. Gaston, trustee, in the amount of \$415,000, for damages occasioned by the widening of Avery street, upon the 22d instant.

SALE OF AUTOMOBILE.

Permission has been granted Fire Commissioner Grady to sell one old 1910 Pope-Hartford automobile, the same being of no further use to this department.

PROTECTION OF APPARATUS.

By FIRE COMMISSIONER JOHN GRADY.

In order to properly safeguard the valuable fire alarm apparatus located in the headquarters building at Bristol street, every effort is being made to make the building as proof against fire as possible. The necessity of protecting this building was very forcibly brought home to the city at the big Albany street fire in August, 1910, when the department repair shop adjoining headquarters as well as other buildings very close to it were destroyed. It was only by an extreme effort on the part of the department that the headquarters building was saved. The confusion that would result from the destruction of the fire alarm office cannot be easily realized.

The work will soon be finished and the National Board of Fire Underwriters is to be invited to examine and test the equipment.

The lower floor of the building is used as a fire station, containing the quarters of Water Tower Company No. 2. The automobile wrecking wagon and the commissioner's automobile are also kept in that station. It is intended to put a tractor on the water tower, and thus entirely eliminate horses from the building. In order to reduce the liability of fire in that part of the building to a minimum, all the woodwork, including the floors, has been taken out. A concrete floor is being laid and masonry partitions are being erected.

Metal-covered fire doors are being installed throughout the building, and fire shutters have been placed on all windows on exposed sides of the building.

The building has been equipped with an outside sprinkler system, which, when in operation, forms a powerful water curtain on the outside of the building. This system is connected with both the high and low water service, so if anything should happen to the high service the engines can be connected and water sent through the two three-way connections that have been attached to the main supply pipes.

DISPOSITION OF PARENTAL SCHOOL CHILDREN.

Chairman John O'Hare of the Children's Institutions Department, in a communication to his Honor the Mayor, explains the provision that has been made for the Parental School children, with the opening of the school year in September.

The communication is as follows:

BOSTON, MASS., July 22, 1914.

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—The Trustees for Children are in receipt of a letter from Franklin B. Dyer, Superintendent of Schools of Boston, stating that he has planned to distribute the children at the Parental School in the public schools of the city on the opening thereof, September 9.

Desiring to cooperate with the School Committee, the trustees have voted to release all inmates of the Parental School, and will send to the courts from which these boys were committed a request for approval of the release in the case of each boy, as required by the statute still in force, so that the boys may be released at the earliest possible date.

Yours respectfully,

TRUSTEES FOR CHILDREN,
JOHN O'HARE, Chairman.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

BOSTON TRANSIT COMMISSION.

Advertises for proposals for building enlargement of Park Street Station of the subway. Blank specifications and forms of contract may be obtained at the office of the commission, 15 Beacon street. Bids to be filed at the same office.

Bids close Tuesday, August 4, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertises for proposals for bituminous macadam roadway in Ulmer street, from Arklow street to Minden street, West Roxbury. Surety bond will be required in the amount of \$300. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$100, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 31, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for pipe sewer and drains in Rowe street, between Ashland street and Brown avenue, and outlet in private land and Neponset Avenue Brook, in private land, between Mt. Hope street and Hyde Park avenue, Roslindale. Surety bond will be required in the amount of \$2,000. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$500, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, July 27, at 12 m.

Advertises for proposals for pipe sewer and drains in Thompson street, between Warren and Main streets, Charlestown. Surety bond will be required in the amount of \$200. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$100, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, July 30, at 12 m.

Advertises for proposals for pipe sewers and drains in Rutledge road, between Blake street and Wood avenue, Hyde Park. Surety bond will be required in the amount of \$1,200. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$500, to be filed at Room 62, City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 31, at 12 m.

PUBLIC WORKS DEPARTMENT (Water Service).

Advertises for proposals for furnishing of all labor necessary for the assembling of 100 Boston post hydrants. Surety bond will be required in the amount of \$600. Blank forms for proposals may be obtained at Room 49, City Hall. Bids, accompanied by a certified check in the amount of \$300, to be filed at Room 62,

City Hall. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, July 30, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for general alterations in the four houses numbered 39, 40, 41 and 42 Blossom street, West End. Surety bond will be required in the amount of \$750. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street, and will be ready for contractors July 22. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, July 29, at 12 m.

Advertises for proposals for grading yard of the Wells School, Blossom street, West End. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, August 4, at 12 m.

Advertises for proposals for cabinet fittings, etc., at the Roxbury High School, Warren and Montrose streets, Roxbury. Surety bond will be required in the amount of \$300. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$100, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, August 4, at 12 m.

Advertises for proposals for alterations and repairs in No. 25 La Grange street. Surety bond will be required in the amount of \$750. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, August 4, at 12 m.

SUPPLY DEPARTMENT.

Advertises for proposals for the hay, straw, oats, shorts and corn needed for the different city departments for August, 1914. The bidder must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1 straight rye straw. The bidder is requested to bid on No. 1 oats to test 38 to 40 pounds; No. 2 clipped white oats to test not less than 34 pounds to the bushel. The bidder must use the special form to be obtained at the office of the Superintendent of Supplies, 808 City Hall Annex. Bids, with a certified check equivalent to one-quarter of the contract, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, July 29, at 12 m.

Advertises for proposals for furnishing the City of Boston 1,500 gallons of metal polish for the various departments. Surety bond will be required in an amount equivalent to one-quarter of the contract. Blank forms for proposals may be obtained at the office of the Superintendent of Supplies, Room 808, City Hall Annex. Bids, accompanied by a certified

check in the amount of \$100, to be filed at same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 31, at 12 m.

Advertises for proposals for furnishing the City of Boston, for the various departments, throughout the year:

350 dozen, more or less, 18-inch street cleaning brooms.

50 dozen, more or less, teamsters' brooms.

75 dozen, more or less, stable brooms.

100 dozen, more or less, house brooms.

Surety bond will be required in an amount equivalent to one-quarter of the contract. Blank forms for proposals may be obtained at the office of the Superintendent of Supplies, Room 808, City Hall Annex. Bids, accompanied by a check in the amount of \$200, to be filed at same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, July 31, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, July 23, 1914:

CHILDREN'S INSTITUTIONS DEPARTMENT.

Lawrence L. Conley has been appointed temporary relief master at the Parental School at a salary of \$50 the month.

Helen F. Conley has been appointed temporary relief matron at the Parental School at a salary of \$300 the year.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

The following have been appointed to positions:

Ellen Doherty, cook, at \$18 a month; Margaret Rosie, attendant nurse, at \$25 a month; John McKay, male nurse, at \$35 a month; Annie A. Watson, nurse, at \$40 a month; Minnie Gallagher, nurse, at \$40 a month; Rhoda A. Lamb, nurse, at \$40 a month; Minnie Bryant, maid, at \$18 a month; Elizabeth Smith, maid, at \$20 a month; Delia Lombard, maid, at \$18 a month; Kate Reardon, maid, at \$18 a month; Michael Murphy, choreman, at \$18 a month; Thomas McGowan, choreman, at \$18 a month; Catherine Silvey, nursing maid, Out-Patient Department, at \$1 a day; Henry Healey, farmer, at \$45 a month; Francis Heaney, carpenter, at \$55 a month.

FINANCE COMMISSION.

The temporary employment of Charles G. Snyder, office boy, ceased July 18, 1914.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

To Fill Vacancies.

Permanent.—Dennis F. Mahoney, porter, \$7 per week; George F. Jones, pathological porter, \$25 per month; Laura McEacharn, chambermaid, \$15 per month; Annie Edwards, chambermaid, \$15 per month; Helen Eger, laundress, \$16 per month; Elizabeth Weisman, laundress, \$16 per month; Mary Suse, ward maid, \$16 per month; Frank H. Monahan, orderly, \$25 per month; Jan Kyiewsky, house cleaner, \$1 per day; Walter L. Gierwiatski, house cleaner, \$1 per day; Wladyslaw Kulesh, house cleaner, \$1 per day; Elizabeth G. Reger, nurse, re-employed, \$8.33 per month; Catherine Beagin, nurse, re-employed, \$5 per month.

Temporary.—Edmond A. Millett, graduate special nurse, \$21 per week; Samuel Odiorne, graduate special nurse, \$21 per week.

The following employees have had increase of wages:

John D. McLaughlin, orderly, \$30 to \$35 per month; George T. Miller, orderly, \$25 to \$30 per month; Walter O'Connell, orderly, \$25 to \$30 per month; Thomas H. Sanderson, orderly, \$30 to \$35 per month; Hazel Williams, nurse, no pay to \$5 per week.

INFIRMARY DEPARTMENT.

The pay rolls of this department for the week ending July 23, 1914, show the following changes:

Long Island Hospital.

To Fill Vacancies.—Annie L. Havey, head nurse, \$50 per month; Mary L. Coquard, ward maid, \$20 per month.

Increase in Salary.—Hannah M. Cotter, nurse, from \$10 to \$12 per month.

POLICE DEPARTMENT.

The resignation of Reserveman Patrick J. Grant of Division 2 has been presented and duly accepted.

OVERTIME ALLOWED.

The heads of various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law.

Hospital Department.

The extra time on the pay roll for the week ending Thursday, July 23, 1914, is accounted for, viz.:

Main Department.—T. J. McNally, assistant engineer, 8 hours at \$0.43½ per hour, \$3.50; B. J. Sandiford, assistant engineer, 8 hours at \$0.43½ per hour, \$3.50; W. T. Slater, assistant engineer, 8 hours at \$0.43½ per hour, \$3.50; E. Cochrane, assistant engineer, 8 hours at \$0.43½ per hour, \$3.50; N. MacPherson, assistant engineer, 8 hours at \$0.43½ per hour, \$3.50; R. W. Jaeger, assistant engineer, 8 hours at \$0.43½ per hour, \$3.50. Total, \$21.

Printing Department.

For the week ending Thursday, July 16, 1914:

George Devlin, caster, 4 hours at \$0.25 per hour, \$1; William J. Fitzgerald, caster, 4 hours at \$0.31 per hour, \$1.24; Joseph E. Hart, caster, 4 hours at \$0.37 per hour, \$1.48; Mortimer A. Toomey, caster, 4 hours at \$0.65 per hour, \$2.60; Lewis G. Smith, chief caster, 4 hours at \$0.93 per hour, \$3.72. Total, \$10.04.

Public Works Department (Bridge Service).

For the week ending Monday, July 20, 1914:

Hugh McLaughlin, stableman, 1 day at \$2.75, \$2.75; Patrick F. Murphy, machinist, ¾ day at \$3.75, \$2.81. Total, \$5.56.

Public Works Department (Ferry Service).

For the week ending Monday, July 20, 1914:

John H. Nolan, fireman, ¼ day at \$3.25, \$0.81; Arthur F. Keefe, gateman, ¾ day at \$3.25, \$2.03; Walter H. Noyes, gateman, ¾ day at \$3.25, \$1.22; James E. Green, temporary gateman, 1 day at \$3.25, \$3.25; Horatio L. Nelson, tankman, ¾ day at \$3, \$2.63; John Kelly, fireman, 1 day at \$3.25, \$3.25. Total, \$13.19.

Public Works Department (Sanitary Service).

For the week ending Monday, July 20, 1914:

Cornelius O'Brien, inspector, 1 day at \$3.50, \$3.50.

Public Works Department (Sewer Service).

For the week ending Monday, July 20, 1914:

Office.—Michael J. Dagle, inspector, 1 day at \$3.50, \$3.50; William J. Drummond, inspector, 3½ days at \$3.50, \$12.25.

Districts 1, 7 and 8.—Dennis Callahan, bracer, 3 days at \$2.75, \$8.25; Stephen Connolly, laborer, 3 days at \$2.75, \$8.25; Michael Foley, bracer, 3 days at \$2.75, \$8.25; James Giblin, bracer, 3 days at \$2.75, \$8.25; John Joyce, laborer and bracer, 3 days at \$2.75, \$8.25; Peter J. Keenan, laborer and bracer, 3 days at \$2.75, \$8.25; William H. Keenan, laborer and bracer, 3 days at \$2.75, \$8.25; John O'Connor, laborer and bracer, 3 days at \$2.75, \$8.25; Michael O'Keefe, laborer and bracer, 3 days at \$2.75, \$8.25; Michael O'Toole, laborer and bracer, 3 days at \$2.75, \$8.25; Michael McMahan, laborer and bracer, 3 days at \$2.75, \$8.25; Timothy Kennedy, teamster, 3 days at \$2.50, \$7.50; John A. McDonald, teamster, 3 days at \$2.50, \$7.50; Jeremiah Sheehan, teamster, 3 days at \$2.50, \$7.50; Robert Noonan, laborer, 1 day at \$2.75, \$2.75; Edward J. Ryan, inspector, ½ day at \$3.50, \$1.75; Timothy Reardon, sewer cleaner, ½ day at \$3, \$1.50; Michael Patten, laborer, ½ day at \$2.75, \$1.38; Martin J. Tynan, laborer, ½ day at \$2.50, \$1.25; George H. Caswell, laborer, ½ day at \$2.50, \$3.75; Ernest E. Cummings, inspector, 1½ days at \$3.50, \$5.25; John Curley, laborer, 1½ days at \$2.50, \$3.75; James Duffy, mason, 12 hours at \$0.70 per hour, \$8.40. Total, \$158.78.

Public Works Department (Water Service).

For the week ending Monday, July 20, 1914:

T. Carey, laborer, 1½ day at \$2.50, \$0.86; M. Brennan, inspector, 3½ days at \$3.50, \$12.03; P. H. Burke, inspector, 1¾ days at \$3.50, \$4.16; M. Durand, inspector, 5½ days at \$3.50, \$18.38; P. Fallon, laborer, 1½ days at \$2.50, \$2.81; P. Hayes, laborer, ¼ day at \$2.50, \$0.31; P. Lynch, laborer, 1½ days at \$2.75, \$3.09; J. Lyons, laborer, ¼ day at \$2.50, \$0.63; J. McCarthy, repairer, ½ day at \$2.75, \$0.34; M. McLaughlin, repairer, ½ day at \$3, \$0.38; M. McCue, repairer, 1½ days at \$2.75, \$3.09; J. McGee, laborer, ½ day at \$2.50, \$0.31; M. O'Connor, inspector, 2½ days at \$3.50, \$7.88; M. O'Day, laborer, ¼ day at \$2.50, \$0.31; T. Riley, laborer, ¼ day at \$2.50, \$0.63; I. Saperstein, repairer, ¼ day at \$3, \$0.75; J. Sullivan, machinist, 4½ days at \$3, \$12.94; J. J. Doherty, carpenter, 1½ day at \$3.50, \$1.20; R. Doyle, plumber, 1½ days at \$3.50, \$3.94; E. Hasenfus, plumber, ¼ day at \$3.50, \$0.88; M. Sullivan, plumber, ¼ day at \$3.50, \$1.53; J. Ryan, plumber, 4½ days at \$3.50, \$15.09; C. T. Verry, plumber, ¼ day at \$3.25, \$1.42; J. Concannon, laborer, 1¾ days at \$2.50, \$2.97; M. Gray, laborer, ¼ day at \$2.50, \$0.31; P. Halligan, laborer, ½ day at \$2.50, \$0.31; J. McNulty, repairer, ¼ day at \$2.75, \$1.20; J. Cummings, repairer, 1½ days at \$3.50, \$5.25; J. Fenton, laborer, 1½ days at \$2.50, \$3.75; M. Matthews, laborer, 1½ days at \$2.50, \$3.75; G. Roddy, laborer, 1½ days at \$2.50, \$3.75; F. Skaynor, repairer, 1½ day at \$2.75, \$1.89. Total, \$116.14.

Income Branch.—M. Welch, plumber, ¼ day at \$3.50, \$1.64; J. Roche, helper, ¼ day at \$2.50, \$0.31; T. Sullivan, plumber, ¼ day at \$3.50, \$1.20; Daniel Sullivan, helper, ¼ day at \$2.50, \$0.86; J. O'Brien, plumber, ¾ day at \$3, \$1.78; E. Mahoney, helper, ¼ day at \$2.50, \$1.09. Total, \$6.88.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending July 23, 1914:

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon July 20 the Mayor approved a contract with John F. Lynch for bituminous macadam roadway in Denton terrace, between Washington and Kittredge streets, West Roxbury. Bids for the work, opened July 13, were as follows:

John F. Lynch, \$3,169.59; Martino De Matteo, \$3,522.88; James Doherty, \$3,562.58; William J. Rafferty Company, \$3,616.47; West Roxbury Trap Rock Company, \$3,670.35; Thomas F. Minton, \$3,911.25.

Upon July 20 the Mayor approved a contract with John F. Lynch for macadam roadway in St. Rose street, from 600 feet south and west of Jamaica street to the Arborway, West Roxbury. Bids for the work, opened July 13, were as follows:

John F. Lynch, \$3,237.25; James Doherty, \$3,493.35; William J. Rafferty Company, \$3,707.46; Thomas F. Minton, \$3,913.35; Martino De Matteo, \$3,976.88; John Kelly Company, \$4,591.70.

WITHOUT ADVERTISING.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor:

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$10, on contract with Daniel E. Lynch for artificial stone sidewalks in Buttonwood street, easterly side, between Mt. Vernon and Locust streets, Dorchester, on account of removing edgestone already set and constructing driveway as directed. Original contract, \$772.06; total addition, \$10; contract as standing, \$782.06.

An addition, amounting to \$60, on contract with J. C. Coleman & Sons Company for asphalt macadam roadway in Binney street, between Longwood avenue and Francis street, Roxbury, on account of constructing water bound macadam roadway in approach at Peabody square; furnishing stonecutter for driveway; removing poor material below subgrade and filling same with crushed stone. Original contract, \$4,411.70; total additions, \$141; contract as standing, \$4,552.70.

An addition, amounting to \$200, on contract with James Doherty for tar macadam roadway in Cottage and Lubece streets, between Gove and Porter streets, East Boston, on account of regulating edgestones, gutters and sidewalks and resurfacing macadam roadway in Cottage street, easterly side, from Gove street, southerly. Original contract, \$7,932.10; total addition, \$200; contract as standing, \$8,132.10.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$73.76, on contract with Hugh McNulty for laying and relaying water pipe in Washington, Westminster, Coventry, Williams, Warwick, Lenox, Marvin and St. Francis de Sales streets, Roxbury, on account of extra work at service pipe cock in Warwick street; extra work due to service pipe leak, Warwick street; setting post hydrant not shown on plan, St. Francis de Sales street; guarding hose to Beacon Laundry, helping plumber, etc., Lenox street; cutting out two catch-basins, excavating and repaving for nine service pipes, Washington street. Original contract, \$4,372; total addition, \$73.76; contract as standing, \$4,445.76.

POPULAR GARDEN PLANTS.

By CAPT. JOHN H. DILLON *Chairman of the Park and Recreation Department.*

Among the plants easily cultivated in the home garden, and which under ordinary conditions prove satisfactory to the amateur florist, might be mentioned a few which will certainly add to the appearance of one's garden and allow the cultivator the gratification of having a nosegay every morning.

First, the fuchsia (named in honor of Professor Fuch, a German botanist), with its very showy flowers is in bloom all summer, and can be purchased in almost every greenhouse where plants are for sale; then the heliotrope (turning to the sun), with its bright blue flowers, whose sweet odor is so well known, and the delicately shaded petunia, so named from Petun, the South American name for the tobacco plant, to which it is closely allied.

The nasturtium (named from nasus, the nose, and tortus, distortion, in reference to the effect upon the nose), whether the tall or dwarf variety, is much used for covering rocks and trellises, or allowed to trail along the ground; its shining leaves and many flowers, for it is a profuse bloomer, and its rapid growth from seed, make it a plant not easily dispensed with in the garden.

The helianthus (named from helios, the sun, and anthus, a flower), the sunflower, especially the dwarf varieties, are all lavish bloomers and welcome acquisitions for every garden.

Zinnias (named in honor of Professor Zinn, a German botanist) is another plant easily grown from seed, a lasting bloomer and very showy.

Marigolds, properly calendula, should be given a place in every garden. It derives its name from Calendæ, flowering throughout the months.

Cereopsis, or tickseed (the seeds of the cereopsis look like little bugs, whence its name from the Greek), grows four feet or more and is a good background for lower growing plants. Nothing can surpass a bed of cereopsis and salvia for a showy bed of fall flowers.

One must not forget the prime favorites, geraniums and coleus, which are to be found in almost every garden. The geranium, or cranesbill, derives its name from the Greek geranus, a crane, because of the fancied resemblance to the front of a crane's bill. There are many varieties of the geranium, with different colored flowers, and it may be planted in single varieties, or mixed to good advantage. The coleus, from kolas, a sheath, is readily grown from cuttings or seed. There are many varieties, grown chiefly for their foliage, and whether planted in single varieties or in different varieties blended together, make very ornamental beds.

BIDS FOR NAVAL SUPPLIES.

The present activity in Army and Navy circles has resulted in the opening of bids for many supplies. The attention of Boston merchants is particularly called to these bids. The Navy Department invites proposals for furnishing the following supplies:

Bids are invited until July 28 for the following supplies: Schedule 6980, garbage incinerator; schedule 6969, forming machine, horizontal single-feed pumps, hydraulic pumps; schedule 6967, wire rope, drop-forged steel sockets, special mixing varnish; schedule 6968, universal saw.

Bids will be received until July 28 for the following: schedule 7003, sheathing copper, Douglas fir; schedule 6985, rough brass valves, gate valves.

Bids will be received until July 28 for furnishing the following materials: Schedule 7021, barber chairs, oak and mahogany chairs; schedule 7023, billiard cloth; schedule 7017, ship fenders, linoleum, lead pipe, flax ravens, linen thread, hickory wedges, paint cans, hose washers; schedule 7010, installing a new roof covering of asbestos fabric; schedule 7020, brass pipe, silica sand, hard rolled copper bar, castor oil; schedule 7012, hacksaw blades, chisels, hacksaw frames, grommets, coat and hat hooks, drawer locks, rim locks, wardrobe locks, tape measures, padlocks, screw wrenches; schedule 7011, vacuum pump; schedule 7018, composition hasps, composition hinges, spring hinges, painters' gasoline torches, pipe wrenches; schedule 7013, taps, dies, tap wrenches, die stocks, machinists' and pipe sets; schedule 7019, white ash, mahogany, white pine, yellow pine, southern spruce; schedule 7015, steel bar, steel sheet; schedule 7016, muriatic acid, crude turpentine, spirits of turpentine; schedule 7014, magnesia blocks, asbestos cement, high temperature cement, plaster cement, plastic cement, magnesia pipe covering, asbestos fiber felting, asbestos millboard, wick packing, asbestos paper; schedule 7022, twist drills, steel plates, steel sheet.

Boston firms desiring to bid should make immediate application to the Bureau of

Supplies and Accounts, Navy Department, Washington, D. C., and give the schedule number of all bids for information desired, as printed above.

OPENING OF CAPE COD CANAL.

For the benefit of those persons intending to visit the Cape Cod Canal upon the occasion of the formal opening, July 29, the following program for the day has been arranged by the officials of the Boston, Cape Cod and New York Canal Company:

From Boston.—Special train will leave South Station at 8.55 a. m., arriving at Steamboat Wharf, foot of Union street, New Bedford, at 10.30 a. m. Please present train card to conductor.

New Bedford.—On arrival of train at New Bedford, please have card ready to present at gangway of the vessel lying at wharf or to the launches to other vessels lying in the harbor. Landing for launches at City Pier No. 1. The official fleet will leave New Bedford at 11 a. m. for the canal.

Canal.—The passage through the canal to the eastward will be made in column of vessels, turning in Cape Cod bay, and thence back through the canal to the westward. Lunch will be served on the various vessels. Passengers on board steamer "Rose Standish" will be landed at the Buzzards Bay pier and by launches from other vessels. Ceremonies on south bank of canal at the village of Buzzards Bay.

For Boston.—After ceremonies, special train will leave Buzzards Bay at 4.30 p. m., stopping at Middleboro to allow guests to return to New York via Fall River Line. Please present train card to conductor at Buzzards Bay.

For New Bedford.—The steamer "Rose Standish" will leave Buzzards Bay about 4.30 p. m.

Parking places for automobiles have been provided along the banks of canal.

For Motorists.—The bridges over canal will be open for the passage of the fleet eastward about 1 p. m. and the return passage of the fleet westward probably between 2 and 2.30 p. m.

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, July 21, 1914.

I. ASSIGNMENTS.

The following assignments are hereby announced to take effect as of 10 a. m., Monday, July 20, 1914:

Joseph W. Murray to Engine 5.
James J. Eagan to Ladder 2.
Robert F. Mackie to Engine 2.
Philip S. Bates to Engine 34.
James F. Ryan to Engine 29.
John J. Devine to Engine 11.
Charles D. Robertson to Engine 9.
James A. Gagan to Ladder 18.
William H. Cuddy, Jr., to Ladder 24.

II. TRANSFERS.

The following transfers are hereby announced to take effect as of 10 a. m., Monday, July 20, 1914:

Joseph S. Farley from Ladder 1 to Ladder 24.

Martin J. Callahan from Ladder 24 to Ladder 1.

Albert A. Spear from Ladder 18 to Chemical 5.

John H. O'Leary from Engine 44 to Engine 31.

William S. Slauenwhite from Engine 31 to Engine 44.

William R. Hayhurst from Engine 2 to Engine 6.

The following transfers are hereby announced to take effect at 10 a. m., Wednesday, July 22, 1914:

Capt. George B. Norton from Engine 14 to Engine 28.

Capt. Charles C. Springer from Engine 28 to Engine 14.

John J. McDonald from Engine 14 to Engine 28.

John J. Donohoe from Engine 7 to Engine 14.

III. EXTENSION OF TIME FOR FILING APPLICATIONS.

Owing to the absence of members of the department on vacation the time for filing applications to take the examination for promotion to the grade of lieutenant has been extended to 10 a. m., Tuesday, July 28, 1914.

By order of the Fire Commissioner,
PETER F. McDONOUGH,
Chief of Department.

FINANCE COMMISSION.

July 22, 1914.

HON. JAMES M. CURLEY, Mayor:
SIR,—On December 15, 1913, the Finance Commission wrote to the then Mayor of Boston recommending:

"That the Corporation Counsel be instructed to present to the incoming Legislature a bill requiring that recording fees for licenses issued by the Licensing Board of the City of Boston be paid into the city treasury, and that the bill also provide that the salary of the secretary of the Licensing Board be fixed by the Board at an amount not exceeding \$3,500 a year." (Finance Commission Reports, Vol. IX., page 229.)

As a result of this report the Corporation Counsel prepared a bill, House 342, providing for an increase in the salary of the secretary from \$3,000 to \$3,500, and for the receipt by the city of all the recording fees received at the office of the Licensing Board. The bill was referred to the committee on cities on January 20, 1914, but no date for hearing was set until March 3. The committee reported favorably upon that part of the bill which provided for the retention by the city of the

recording fees, but refused to recommend the increase of the salary of the secretary. The bill was reported in the Senate, passed the three reading stages, and was about to be engrossed when, for some unexplained reason, it was rejected. Meanwhile the recording fees for the present year had been collected by the secretary in March. In 1912, the last year for which figures are available, the recording fees amounted to \$1,514.

The commission feels that the Legislature indicated that the salary fixed in the act establishing the Licensing Board (chapter 291, Acts of 1906) should constitute the entire compensation of the secretary, and that any further addition to it should come as a special request to the Legislature. It never apprehended that the secretary of the Board, whose salary was fixed below that of the chairman, should in reality receive a much larger compensation than the chief officer of the Board. Under the present system of allowing the secretary to retain the recording fees his salary amounts to approximately \$4,500 a year, whereas the salary of the chairman is only \$4,000. The Legislature has again and again, by the rejection of bills seeking increases of salary for members of the Licensing Board, given evidence that it considers that the present salaries are sufficient.

Furthermore, the commission can find no evidence that the secretary was ever designated as the recording officer of the Board for recording these liquor licenses, and consequently is of the opinion that the secretary, by a mere assumption of power as a recording officer, without a direct appointment to the office, does not fall within the provision of the law which states that the recording officer shall be paid \$1 for each liquor license recorded.

In order to solve whatever legal right the city may have to these fees, the commission requested the Corporation Counsel to rule on the question whether or not these recording fees belonged to the city or could be retained by the secretary of the Licensing Board for his personal use. He has furnished the commission with an opinion that the bringing of a test case in court would be justified.

The commission therefore recommends that the Corporation Counsel be instructed by your Honor to institute necessary legal proceedings to determine the right of the City of Boston to retain these fees for recording liquor licenses.

Respectfully submitted,
THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

SAVING OF CITY RENTALS.

Superintendent Richard A. Lynch of the Department of Public Buildings, in an interesting communication to his Honor the Mayor, declares that the saving to the City of Boston in rentals by the transfer of the several departments, already located in the new City Hall Annex, will total \$33,283 the year.

Other departments will be located in the Annex later and augment the saving to the city.

The communication of Superintendent Lynch is as follows:

BOSTON, July 22, 1914.

HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—The following is a list of buildings for which the city was paying rental of \$33,283 a year. As these departments have been transferred to the City

Hall Annex, the department will cease paying rent August 1.

	Per Year.
Huntington Chambers.....	\$5,000
Tremont Building.....	3,808
100 Summer street.....	18,000
88 Summer street (vault).....	1,000
6 Beacon street.....	475
Schoolhouse Commission.....	5,000
	\$33,283

Yours respectfully,
RICHARD A. LYNCH,
Superintendent of Public Buildings.

CONCERTS FOR SUNDAY.

The musical program for the municipal concerts for Sunday, July 26, is announced by Capt. John H. Dillon, Commissioner of the Park and Recreation Department, as follows:

BOSTON COMMON, 3.30 P. M. TO 5.30 P. M.

Boston Letter Carriers' Band.

Program.

| Selection. "Il Trovatore." | Friml |
| Light Operatic Medley. "The Firefly." | Lacey |
| American Gems. | |

BIDS FOR GOVERNMENT SUPPLIES.

Sealed proposals will be received at the office of the lighthouse inspector, Tompkinsville, N. Y., until July 29 for furnishing buoys and appendages for 1915. Blank proposals and particulars may be obtained by addressing the lighthouse inspector, Tompkinsville, N. Y. The supplies consist of the following: Bell buoys, spherical mooring buoys, can and nun buoys, tall-type buoys, ballast balls, iron sinkers, buoy castings.

NUMBER OF CITY EMPLOYEES.

The annual list of officials and employees of the City of Boston was issued during the present week, and including the employees of the County of Suffolk, in accordance with the Acts of 1909, chapter 486, section 27. The number of paid officials and employees is as follows:

	April 30, 1905.	April 30, 1906.	April 30, 1907.	April 30, 1908.	April 30, 1909.	April 30, 1910.	April 30, 1911.	April 30, 1912.	April 30, 1913.	April 30, 1914.

MAYOR CURLEY EXPLAINS CONTRACT.

The full meaning of the proposed contract with the Edison Electric Illuminating Company, upon the part of the City of Boston, and the benefit accruing, was very clearly set forth in the following communication of Mayor Curley, issued upon the 21st instant:

There is so much confusion of thought respecting the proposed ten-year contract between the City of Boston and the Edison Electric Illuminating Company that a statement should be made by me to clarify the situation.

The contract provides for various electric lamps of different degrees of candle power, but the controversy which has arisen relates chiefly to the high power lamps which are offered for \$87.53 each per year, a reduction of \$16.01 from the present price of \$103.54. The saving to the city on these lamps at the proposed price would be about \$80,000 a year, as we shall use about 5,000 of them. In ten years this saving would be about \$800,000. Now, while the Chamber of Commerce and the Finance Commission have suggested changes in the form of the contract, neither body has asserted that \$87.53 is an excessive price. On the contrary, the reports of both bodies and that of the Finance Commission's engineer, Guy C. Emerson, fairly indicate that the price is a reasonable one. The only doubt is as to whether the Edison Company cannot be forced or induced to make a still lower price. On its face a reduction of nearly 16 per cent would seem reasonable, particularly as the report of the engineer of the Finance Commission shows that at the reduced price the Edison Company would make a net profit of about 6½ per cent on the service furnished to the city. This is evidence that would satisfy the ordinary business man that the proposed price is fair.

But it is contended that the city could not make any further savings in addition to the \$80,000 a year, even though the Edison Company should save in production costs by substituting improved high power incandescent lamps for the magnetite lamps offered at \$87.53 per year. The assertion is made that the contract provides that the substitution shall not operate to reduce the total payments to the company. This has been denied by the company's counsel and by the Corporation Counsel of the city, both of these lawyers interpreting the contract to mean that two-thirds of the savings resulting from such substitution shall go to the city and one-third to the company. The critics who accept the lawyers' interpretation are not silenced, however. They next urge that all such savings should go to the city and none to the company, thereby ignoring the fact that this principle of distributing the savings would remove all incentive to the company to save, and that it would conflict with the policy established by the state in the sliding scale system under which the Consolidated Gas Company is allowed to increase its dividends in proportion to the reduction it makes in the cost of light to the consumer.

To bolster up the case of the opponents of the proposed contract, a so-called expert has been brought before the Council, and in his report he stated that a 40 per cent saving on \$10.80, due to suggested improved methods, would be \$6.48, and proceeded to estimate the total savings on that basis, although nonexperts readily saw that 40 per cent of \$10.80 is only \$4.32. The rest of his reasoning

was equally absurd and the Council now apparently attaches no weight to his opinion, particularly as the same man about a month ago publicly declared that the proposed price of \$87.53 was a fair one.

To prevent the city from taking advantage of the proposed reduction in prices a new issue has been dragged in — the labor issue. The labor unions want recognition from the Edison Company. Their negotiations with the company have not been successful so far, hence they ask the city to refuse to accept an advantageous offer in the belief that the city's refusal of the offer will force the company to recognize the union. I have been and am a friend of union labor. I sympathize with every just demand they make. I cannot see, however, why the city should be made a party to their contention with the company, particularly as the city may lose \$80,000 a year by so doing.

I firmly believe I am acting for the best interests of the city in urging the City Council to approve the contract. The real experts, men who are competent engineers, and have had practical experience in such matters, Commissioner Rourke and former Superintendent of Streets Emerson, agree with me. I want to economize, but I am not getting much help. This is a disagreeable situation and it should be remedied. The City Council should hold a meeting this week and approve the contract, or reject it and take the responsibility of compelling the city to pay \$103.54 per lamp when a price of \$87.53 can be obtained. I can use the saving of \$80,000 a year for much needed service at the City Hospital, the Consumptives' Hospital, the institutions for the poor and for various other necessary objects. I want the public to know the facts so that they may place the responsibility where it belongs. We are offered a contract, at a fair price, with a practicable and just provision for arbitration, which will yield us our fair share of the benefits of all cost-reducing improvements that may be effected in the next ten years. I think the municipal corporation should show that it possesses sufficient business sense to conduct its affairs as economically as private business concerns do, and it is time that the citizens should insist upon this being done.

CITY HOSPITAL APPROPRIATION.

Mayor Curley issued the following statement during the week relative to the increased appropriation desired by President Shuman in behalf of the Boston City Hospital:

At the semi-centenary of the Boston City Hospital I presented my views with reference to the institution. Those views have not changed. I believe it is a duty that I owe to the taxpayers of Boston and to all citizens, that before additional funds are provided for the administration of the hospital I may be thoroughly informed as to the exact need and the purpose for which all portions of such additional fund may be required.

I have accordingly arranged a conference with the members of the Board of Trustees and the staff of the hospital, to be held at the office of the Mayor Monday, July 27, at 11 a. m., and at which time the situation at the hospital, which I have outlined in the foregoing statement, will be very fully considered.

At the semi-centenary of the hospital I said:

"It is exceedingly unfortunate that the duties of the office which I hold are such as to make it extremely difficult to apply

the amount of thought, attention and study that is necessary to an address, brief though it may be, delivered on an occasion as important as the occasion which we are gathered here to-day to commemorate.

"However, it has been my good fortune at all times to be in close touch during the last fourteen years, in some measure, with the work performed at the Boston City Hospital. And if there is anything that I may say here to-day that may be in the nature of criticism it is intended solely for the good of the institution in which we are all interested, and which has accomplished so much for our city.

"No institution of a similar character in the entire country has occupied a place in the field of medicine and surgery such as has been held by the Boston City Hospital, and it is my desire, and I believe I voice the wish and thought that are uppermost in the mind of every woman and man present, when I say I sincerely hope that in the next half century we shall continue to occupy first place among institutions of this kind.

"To my mind the two most important essentials to the accomplishment of this most necessary and laudable object are brains and money. Boston is essentially the birthplace on this continent of brains and service. That it is possible for us to supply the brains for the future no man can question. And that it should be possible for the municipality to supply the money no man is justified in contending against. I wish to say that it is my purpose to aid in every way the matter of the furnishing the money to make possible the first place among the institutions of this kind in the United States of the Boston City Hospital. I depend upon the trustees and upon the staff to supply the brains.

"I recognize that we have been lax in some particulars with respect to the City Hospital. It is my experience that the service rendered by a low-paid official is usually in proportion to the wages received; and if increased wages to nurses and other employees is going to make more successful the work of the physicians and surgeons, I believe it is the duty of the city to supply the money.

"We are expending this year in new buildings and improvements for the City Hospital, \$400,000; for maintenance, \$600,000; making a total expenditure of approximately \$1,000,000. It is my purpose, during my administration, to take up one department after another and place each department on a first-class basis. The work has begun at our institution known as the Boston Infirmary Department at Long Island. And if I am compelled to practice economy in every branch of the city service in order to provide the money that is necessary to make this institution the best of its kind in the country, I am prepared to do it. I believe that it will require probably an increase of approximately 16 to 20 per cent to provide the necessary additional help, and to provide reasonable living wage for those employees who serve as nurses, orderlies or in other capacities.

"I do believe, Mr. Chairman, that perhaps more publicity would not do the City Hospital a bit of harm. It would serve to dissipate that undercurrent of criticism on the part of patients. People come to the hospital in pain of body and distress of mind, and it is only natural that they become critics. But if the general public were aware of the number of cases treated monthly, in a little publication, it is my opinion that the City Hospital might occupy a more enviable position in the

minds of the entire public than it does at the present time.

"I believe there is a great field for our convalescents' hospital, and the city has the available area on which to erect the necessary buildings. If a system might be devised by which we could give greater care to the men or women, who, because of crowded conditions, are consigned to the Out-Patient Departments, and who thereupon become chronic critics, I think most of such criticism might be allayed.

"I want to say that I stand ready to do my share to provide such funds as may be necessary to increase the amount of good possible for this institution to accomplish. We are gradually placing the various city departments on an efficiency basis. I believe your institution has always been on an efficiency basis. I believe you can expend more money to advantage in this institution. Every time \$100,000 is saved in other departments we ought to allow at least one-tenth of that sum—and it will be available—for the Boston City Hospital. And that is not an inconsiderable sum; for, in the last four months, by merely insisting on an old-fashioned honesty, we have succeeded in saving approximately \$800,000 without serious injury to any individual who was rendering honest service in return for his salary, and with increased efficiency in every branch of the city service.

"Finally, if the City Hospital exceeds its appropriation this year by thirty, forty or fifty thousand dollars, I shall make it my business to secure the necessary money. If the trustees will map out a definite program anticipating the needs of this community for the next twenty or thirty years, I shall make it my business next year to provide the necessary money. In short, I'll furnish the money if the trustees will furnish the ideas, the program and the brains."

NAVY YARD EXAMINATIONS.

United States civil service examinations for the following mechanical trades and noneducational positions in the United States Navy Yard, Boston, Mass., will be held on September 1, 1914:

Chainmaker's helpers; boy, rivet heaters; rigger's helpers; shipfitters; holdsons on; shipfitter's helpers; riveters; brick masons; carpenters; painters; calkers and chippers; iron wharf builders.

No educational test will be given and applicants will not be assembled for a mental examination. The examination will consist of the subjects mentioned below, weighted as indicated:

Subjects.	Weights.
1. Physical ability.....	40
2. Training, experience and fitness, 60	
Total.....	100

All statements relating to training, experience and fitness are subject to verification. Applicants should name in their applications, as references, employers, or other persons who are competent to furnish information relative to the applicants' fitness for the position sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications the applications may be canceled.

An applicant is required to show to the satisfaction of the labor board that he has the following qualifications in order to have his name placed on the eligible list of appointments:

That he is a citizen of, or owes allegiance to, the United States. That he has the necessary knowledge of, and experience in, the occupation or trade in which he seeks employment. That he is industrious and of good character. That he is physically able to perform the work of his occupation or trade, and that he has no physical defect that will, as a contributory cause, tend to prolong a disability resulting from an accident or injury received in the performance of his work, or which would render him more liable to such accident or injury.

Age limits: Riveters, 18 or over; helpers, 17 or over; boy, rivet heaters, 14 to 18; all others, 20 or over.

Application Form 1800 is required and may be obtained from the labor board, with whom it must be filed on or before August 17, 1914. Complete instructions are issued with each application form.

THE VALUE OF MUNICIPAL BONDS AS INVESTMENTS.

Advices from financial circles in all parts of the country indicate that the municipal bond was never stronger as a means of excellent investment than to-day.

There are so many important points to consider in the selection of municipal bonds as investments that the individual investor finds it almost impossible to accurately observe all the conditions and technicalities under which they are issued.

He must determine if the bonds had been issued under full legal requirements; whether properly authorized by the voters, or issued by the authority of a board of finance, education, trustees or commissioners; if they had been correctly advertised; whether the debt limitation had already been exceeded, or would be by such issue; whether or not the municipality had ever defaulted, and if it is growing in population and industry, or declining.

There are different conditions under which many of these bonds are issued which should be thoroughly investigated by legal and statistical experts. This is why it is preferable to purchase municipal securities from responsible bond houses. These firms have spent years in the study of this class of securities and can detect, and have remedied many irregularities which might jeopardize the funds of investors.

There then is another great safeguard thrown around municipal bond issues to which many of the trust companies of large cities are giving attention. Departments have been established by these institutions which look after certain necessary details, such as the engraving of the bonds, supervision of their signing and countersigning by the proper municipal officials, careful checking to prevent an over issue, and the correction of any irregularities which might accidentally arise.

The municipal bond field is, and should be, in the hands of responsible firms. Otherwise a host of small brokers would be in the business and not know, half the time, what they were buying or selling.

TAX SALES ANNOUNCED.

City Collector John J. Curley announces his intention of advertising for sale all estates upon which taxes, street, sewer, gypsy moth and sidewalk assessments remain unpaid for the years 1910, 1911 and 1912. They will be advertised August 1 and the sale will be without reserve. Assessments remain unpaid on about 1,200 parcels.

EXCELLENT CHANCES FOR EMPLOYMENT.

To those men who are residents of Boston, and without remunerative employment, especial attention is called to the examinations that have been arranged by the United States Civil Service Commission during the fall of 1914.

The positions for which requisition will be made from the successful candidates, in a majority of cases, give splendid opportunity for advancement, and the entire list of examinations is worthy of the most careful consideration upon the part of those who are unemployed.

The following-named examinations will be held on September 9, 1914:

Aid, Coast and Geodetic Survey.
Apprentice plate cleaner, transferer and engraver, Bureau of Engraving and Printing.
Assistant inspector of boilers.
Assistant inspector of hulls.
Clerk, Panama Canal Service (men only).
Computer, Coast and Geodetic Survey (men only).
Computer and estimator, Supervising Architect's Office.
Draftsman:
Architectural, Supervising Architect's Office.
Copyist topographic, Departmental Service.
Junior engineer, Engineer Department at large.
Topographic, Departmental Service.
Engineer and draftsman, heating and ventilating, Supervising Architect's Office.
Forest assistant, Philippine Service.
Junior chemist, Departmental Service.
Kindergarten teacher, Indian Service.
Laboratory apprentice, Bureau of Standards.
Library cataloguer.
Local inspector of boilers.
Local inspector of hulls.
Matron, Indian Service.
Pharmacist, Public Health Service (men only).
Physician, all services except Philippine (men only).
Postal clerk, Panama Canal Service (men only).
Press feeder, Government Printing Office.
Printer, Government Printing Office.
Telegraph operator, Departmental Service.
Veterinarian.

The following-named examinations will be held on various dates between September 11 and November 7, 1914:

Clerk, stenographic, departments and offices at Washington, D. C.
Stenographer, Departmental Service.
Stenographer and typewriter, Departmental and Panama Canal Service.
Typewriter, Departmental and Panama Canal Services.

The following-named examinations will be held on October 14, 1914:

Agricultural inspector, Philippine Service (men only).
Aid, Bureau of Standards.
Aid, Lighthouse Service.
Apprentice fish culturist.
Assistant observer (men only).
Bookkeeper, Departmental Service (men only).
Cadet engineer, Lighthouse Service.
Cadet officer, Lighthouse Service.
Civil engineer and draftsman.
Computer, Nautical Almanac Office and Naval Observatory (men only).
Draftsman:
Copyist ship, Navy Department.
Junior architectural, Supervising Architect's Office.
Mechanical, Panama Canal Service (men only).
Ship, Navy Department.
Topographic, Panama Canal Service (men only).
Engineer, Indian Service.
Engineer and draftsman, structural, Supervising Architect's Office.
Farmer, Indian Service.
Fish culturist.
Junior engineer (civil), Engineer Department at large.
Junior engineer (mechanical or electrical), Engineer Department at large.
Junior engineer (mining), Bureau of Mines.
Laboratory assistant, Bureau of Standards.
Scientific assistant, Department of Agriculture.
Teacher, Indian Service.
Trained nurse, Indian and Panama Canal Services.

The assistant, teacher and industrial teacher examinations for the Philippine Service will be held on August 27, 28, 1914.

Inquiry relative to the examinations named should be addressed to Edward E. Stebbins, District Secretary, United States Civil Service Commission, 141 Post Office Building, Boston.

REPORT UPON BOSTON'S TRANSIT SYSTEM.

Hon. Theodore K. Long, a member of the City Council of Chicago, commissioned to visit Boston by the Hon. Carter H. Harrison, Mayor of Chicago, and report upon our system of rapid transit, has filed a very entertaining brief with the Chicago officials, and a copy of which has been sent the *City Record*.

BRIEF OF ALDERMAN LONG (In Part).

A free and easy intra-urban transportation is as important to the inhabitants of cities as the circulatory system is to the human body. The question in large cities is to provide for sustained growth without congestion. Where density and intense concentration of population obtain at the expense of proper sanitary conditions, wholesome tenements and decency, cheap, adequate and rapid transit to the outlying zones of the city is one of the solutions of the problem.

The constant movement of population from the interior to the outer belts of the municipal and metropolitan area renders the ever increasing demand for adequate transportation facilities more and more difficult of satisfactory adjustment. This demand is chiefly centered about the distinctive need for cheap and rapid transit of the so-called home-to-work and similar traffic between the newer and farther removed residence districts and the business, industrial and amusement axis of the community.

The city streets, with the enormous vehicle traffic which congests them, cannot be used as means of rapid local travel because the surface street railways under the prevailing conditions are too slow, except for short haul journeys. With the city streets unsuited for use for rapid transit purposes the super and sub-surface has been utilized by the construction of elevated and underground railways, designed to furnish a mode of transportation, whereby traffic, freed from surface interference, can move more speedily.

Rapid transit lines, therefore, as the name implies, furnish their patrons with facilities for quicker movement over similar distances at a corresponding saving in time.

The necessity for high-speed lines in Boston arose principally from the extreme congestion in the narrow streets of the principal business district. In 1893 a partial solution of this problem was undertaken by the construction of a subway for surface cars under Boylston and Tremont streets, which was completed in 1898. This was followed by the construction of a high-speed system, consisting of an elevated line extending two miles to the north and an elevated line extending three miles to the southwest, both connecting with a loop which inclosed the principal district and connected the two large railroad terminals. The east side of this loop is on an elevated structure running along the water front, and two of the Tremont street tracks of the original subway were used temporarily for the west side. A subway about one mile long was then constructed under the principal business street, and this is now used permanently for through operation of the elevated lines to the north and south. The elevated line to the south has been extended to a distance of five miles from the center, and it is proposed to extend the northern arm to about the same distance.

A tunnel has also been driven under the harbor to East Boston, extending into the heart of the business district, where con-

nection is made with the north and south line. Special type cars are operated singly in this tunnel and run out onto the surface lines in East Boston.

Within the past year a subway line running about three miles westward to Cambridge has been placed in operation. Standard rapid transit service is maintained in this subway. An extension of this line eastward through the business district, and thence southward for a distance of about two miles, has been authorized and is in process of construction. An elevated line for surface cars extends about a mile to the northwest, and an extension of the subway for surface cars on Boylston street is in course of construction to a point about two miles from City Hall.

All underground construction was undertaken by the city, while all of the elevated construction belongs to the operating company, which also owns and operates practically all of the surface system. All of the high-speed lines have elaborate terminals for the transfer of passengers to and from surface cars. This method of transfer is the most important feature of the Boston rapid transit system.

According to a statement by the Boston Transit Commission, the cost of construction of the Tremont Street Subway and the East Boston Tunnel was as follows:

	Length Miles.	Track Miles.	Total Cost.
Tremont Street Subway,	1.8	5.3	*\$4,125,000
East Boston Tunnel . . .	1.83	3.66	†3,288,000

* Plus \$242,900 for alterations on elevated railway.

† December, 1913.

Charles S. Sergeant, vice-president of the Boston Elevated Railway Company, gives the cost of the Boston subways and tunnels per mile of two-track main line structure as follows:

Tremont Street Subway	\$1,974,000
East Boston Tunnel	2,482,000
Washington Street Tunnel (including approaches)	6,823,000
Cambridge Subway Route (including Beacon Hill Tunnel, Cambridge Bridge)	2,587,000

Mr. Sergeant calls particular attention to the comparison of cost between the Tremont Street Subway and the Washington Street Tunnel, so called. The Tremont Street Subway was the first built and but one station approach in addition to the northern terminus was constructed on private land. On the contrary, the Washington Street Tunnel or Subway, while built mainly under public streets, was for a portion of its route carried under private land, and no less than ten of the station entrances and exits were placed on private land on account of the narrowness of the streets. This resulted in a cost per mile of nearly three and one-half times that of the Tremont Street Subway and is a good illustration of the essential government of subway costs by local conditions.

ADVANTAGES OF SUBWAYS.

(1.) Depreciation in value of adjacent property is greater in the case of an elevated than for a subway, the latter often actually increasing real estate values.

(2.) Maintenance of steel structures like those of the elevated railway is higher than for concrete ones, such as the

subway would be. For a subway maintenance charges other than pumping, lighting and ventilating would be a minimum.

(3.) Obsolescence caused by increased weight of rolling stock is much more likely in the case of an elevated than in a subway founded on rock, so that the economic life of a subway would be the greater of the two.

(4.) An elevated actually offers an obstruction to street traffic, while a subway does not.

(5.) An elevated is a marked obstruction and disadvantage to the general public in the case of fires, explosions, riot or other calamities.

(6.) The possibility of depreciation through electrolysis would be relatively less for a subway than an elevated.

(7.) The noise of operation and distraction due to the presence of the structure would be greater in the case of an elevated.

(8.) Accidents on the elevated structure might damage pedestrians, adjoining buildings and street traffic generally, which is impossible in the case of a subway.

(9.) A subway is conducive to a higher type of building development with relatively higher taxable values.

(10.) Less stair climbing.

(11.) Larger platform space.

ADVANTAGES OF ELEVATED RAILWAYS.

(1.) By the location of the main tracks of an elevated nearly 100 feet from the buildings on either side the depreciation of property would be rendered a minimum.

(2.) No lighting, ventilating or pumping constructions would be involved in maintenance charges for an elevated.

(3.) Greater ease would be experienced in widening an elevated structure should it be necessary to increase its capacity, because columns, beams and girders can be strengthened much more readily than a subway can be widened.

(4.) Wider and higher rolling stock could be accommodated more easily on an elevated structure, while it would be extremely costly to alter a subway to care for increase in size of rolling stock, so that the initial size and consequent cost would have to be relatively greater to care for possible future increases in size of rolling stock.

(5.) The first cost for construction would be much less for an elevated than for a subway in any location, especially since the subway work would probably have to be done under cover. Lesser cost of construction would entail lesser interest and sinking fund charges.

(6.) An elevated could be constructed in less time than a subway. Quicker time of construction would lessen construction interest charges, thereby reducing total cost.

(7.) Since the time of construction for an elevated would be less than for a subway, the interference with business during construction would be greatly lessened.

(8.) The distance which would intervene between the elevated and the buildings abutting on the same on either side would be so great as to render the elevated only of small disadvantage in cases of fire, explosion, riot, etc. The difficulty of fighting fire if it should occur in the subway, is much greater.

(9.) By the construction of an elevated railway no change would be required in underground improvements such as sewers, conduits and the like;

only relatively unimportant remodeling of pipes, sewers, ducts and other sub-surface structures would be entailed compared to the necessities in the case of a subway.

(10.) Operation in the open air, with ample head room, would be very superior to that in any subway.

(11.) The difficulty of signaling and switching trains would be materially less on the elevated railway than in a subway.

(12.) The noise of operation could be largely eliminated on the elevated railway by proper design of structure.

(13.) There would be less liability of accidents to employees and to equipment on an elevated railway because of operation in the open.

(14.) With proper operation accidents could be practically eliminated on the elevated structure, as has been the history for a number of years on the passenger elevated railways in New York City and Chicago.

(15.) No artificial lighting required during day time as in the case of a subway.

(16.) The difficulty of waterproofing and taking care of drainage is greater in subways than on elevated as well as of properly cooling and ventilating the former.

DRAWBACKS PAID UPON IMPORTS.

The *City Record* is in receipt of the statement of the Bureau of Foreign and Domestic Commerce, Department of Commerce, Washington, of the drawbacks paid on imports used in manufactured exports.

The statement is of interest to our merchants.

American manufacturers have received in the last decade nearly \$50,000,000 as drawbacks under a provision of law which entitles them to a refund of the duties paid on imported articles used in the manufacture of articles exported. In 1883 the amount of drawbacks thus paid was 2½ million dollars; in 1893, 3½ million, and in 1913, 4½ million. The largest amount of drawbacks received by our manufacturers in any single year since 1883 was 8½ million dollars in 1885.

Many American industries depend upon foreign countries for a portion of the materials entering into their manufactures for export. Examples in point include for last year 165,000 pounds of piano and paper makers' felts made from imported wool; a million typewriter ribbons, manufactured from imported cotton cloth; 550 million cigarettes containing imported tobacco and glycerin and wrapped in imported cigarette paper; 69 million tin cans manufactured from imported tin plates and lead; 57 million pounds of refined sugar and 18 million gallons of sirup, involving in their manufacture 83 million pounds of cane sugar of foreign production, and 117 million pounds of cured and preserved meats, requiring in their preparation imported salt, borax and sugar.

Our manufacturers of motion picture films use only small quantities of imported gelatin and paper in the production of their rapidly growing exports. Out of 74 million linear feet exported in 1913, only 697,000 feet were exported with benefit of drawback. Foreign-grown flaxseed, however, entered into the manufacture of about one-fourth of the 838 million pounds of linseed oil cake exported last year; while over 12 million jute bags were manufactured from imported bur-

laps and exported with benefit of drawback to the extent of \$300,000.

They include such varied items as steel wheels used in the manufacture of cigar lighters; glycerin, used in the preparation of proprietary and other medicines; chicle, used in making chewing gum; mica, employed in the manufacture of motors and dynamos; lead, used in the manufacture of cartridges; glass lenses, for use in American-made spectacles; valves for automobile tires; needle wire for making needles; diamonds and pearls, for use by manufacturers of jewelry; glass beads, for use in chandeliers; lead and antimony, needed in the manufacture of type metal; cane sugar, used in making condensed milk, confectionery and soft drinks; and galilith and horn, largely wanted for umbrella handles.

The largest amounts of drawbacks paid are those in connection with the manufacture of refined sugar and sirup, over one million dollars a year; those on bags, from 250 to 450 thousand dollars per annum; on aluminum goods, from 200 to 300 thousand dollars annually; on milling products, from 200 to 400 thousand dollars a year; and articles for the smelting industries, from 200 to 500 thousand dollars. Drawbacks paid on imported tin plates averaged about two million dollars per annum in the decade from 1901 to 1910, but in 1913 they had decreased to only \$45,000, American manufacturers now supplying from their own plants practically all the tin plate which they consume.

A CLEAN CITY.—CIVIC PRIDE BOXES.

By Miss Mary Martha Doubleday,
South Boston High School.

We, the citizens of Boston, want a clean city. We have recently had a "Clean up and paint up week." Now that time has expired. But does this mean that we are to discontinue the work of keeping our city clean? Let us hope not, for keeping it clean means helping keep it beautiful.

Is it entirely the fault of our citizens that our city is not cleaner, more beautiful? I do not think so. It is true, a great many persons are very thoughtless and throw waste of various kinds about in the streets. They have this excuse, perhaps, that they do not wish to carry bits of paper and peels of fruit, etc., about for any length of time, waiting to reach some place in which to deposit it.

One of the very best means of keeping a city clean is the use of the "Civic Pride Boxes," which are receptacles for rubbish. They are red boxes, lettered with gilt, with an opening at the top for the rubbish. They are situated on corners of the principal streets. The main trouble is that these boxes are not numerous enough.

From personal experience I know that one may walk a good distance before coming upon a can or box for refuse. On some of the less frequented streets there are none at all.

It is a pleasure to see the work of installing these boxes in different sections of the city, which is now being done. In all the Greek colonies they are lettered in Greek, in the Jewish sections with Jewish letters, so that everyone, even the children, may know their purpose.

Now that we have the means of keeping our city clean and beautiful, by means of depositing rubbish and waste in our "Civic Pride Boxes," let us make good use of our opportunities, that Boston may become one of the cleanest and thereby one of the most beautiful cities in the world.

A CLEAN CITY.—A VISITOR'S IMPRESSIONS.

By Miss Katherine A. Collins, *South Boston High School.*

When a foreigner enters a strange city he immediately forms an opinion of its inhabitants by the appearance of the city. In France, shortly after midnight, the streets are thoroughly flushed with water and they are kept clean in this way. Thousands of dollars are expended yearly for this purpose, but still they do not spend as much as we spend in Boston. In Germany, if a person is found littering the streets, there is a law permitting the arrest of any person found guilty of this act. In Holland, where the women are noted for their cleanliness, they scrub the streets. People who have been in these countries and then visit Boston, seeing papers and other waste material carelessly thrown about streets, would naturally think Boston an unclean city. If the people of this city would help to keep the streets and public passageways clean, visitors would bring back with them a good impression of this city. At present the Women's Municipal League is accomplishing wonderful work in this direction. This is an organization composed of enthusiastic women, who are seeking to arouse the citizens to recognize the great importance of a clean city. Lately the Mayor issued a proclamation that during the first week in May each citizen should clean out his own home, cellar and all public or private passages around his house. Let us hope that in the future Boston may have first place in regard to a clean and sanitary city.

BOSTON'S PUBLIC SCHOOLS, 1913.

Number of school buildings, 363, or 186 brick and 177 wooden (including 105 portable houses); besides these, 32 rented buildings; day schools contain 2,780 rooms and 120,039 sittings; 3,057 teachers in day schools, or 2,613 women and 444 men; evening schools, 30, with 479 teachers. Playground teachers, 121; school physicians, 81; school nurses, 36; truant officers, 22. Maximum number of day pupils in 1913, 107,429 on November 30; average number in evening schools, 11,032. Total number of text books used in the schools in 1913 was 1,076,780. Valuation of school property, \$21,668,000, approximately. Cost of maintenance for 1913-14, \$5,552,004 (including \$72,893 for pensions to teachers), or \$432,147 more than in 1912-13; expenditure for construction of new schools, \$1,012,912. Annual cost (maintenance), per pupil, \$76.34 in high schools (day), \$34.23 in elementary schools (day). Annual cost per pupil (administration and general charges included), in high schools (day), \$79.30; in elementary schools (day), \$38.33. School census in September, 1913, showed 127,025 as total number persons 5 to 14 years, inclusive, or 92,664 in public schools, 20,743 in private schools, 13,618 not in any school; total number of boys, 63,691; of girls, 63,334. Per capita cost in 1912 of maintenance of Boston schools, \$6.89, ranking highest among the 50 leading American cities, New York ranks second (*i. e.*, \$6.86); Newark, third (*i. e.*, \$6.65); Washington, D. C., fourth (*i. e.*, \$6.60); Los Angeles, Cal., fifth (*i. e.*, \$6.56); Pittsburgh, sixth (*i. e.*, \$6.35). Chicago shows but \$4.53 per capita; Philadelphia, \$3.88; St. Louis, \$4.67; Cleveland, \$4.88, Baltimore, \$3.41. (See United States Census Bureau's Financial Statistics of Cities, 1912, pages 41-43.)

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announces an open competitive examination for instrument maker, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$3.84 per diem at the Naval Observatory, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announces an open competitive examination for assistant in agricultural education, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the office of Experiment Stations, Department of Agriculture, Washington, D. C., at salaries ranging from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will include correspondence, report writing, editing and the preparation of original articles concerning different phases of agricultural education, including instruction in regular college and school courses, various forms of extension teaching, farmers' institutes, etc. This position also calls for some field work, that is, work outside of Washington, studying problems in agricultural education, studying educational institutions, attending conferences and giving addresses at important public meetings.

The commission announces an open competitive examination for assistant in plant malnutrition, for men only, on July 27, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in the plant malnutrition work in the office of Biophysical Investigations in the Bureau of Plant Industry.

It is desired to secure applicants well qualified in soil physics, plant physiology and biochemistry.

The commission announces an open competitive examination for chief, sec-

tion of derived products, for men only, on August 3, 1914. From the register of eligibles resulting from this examination, certification will be made to fill a vacancy in this position in the Forest Products Laboratory, Forest Service, Madison, Wis., at a salary of \$3,000 to \$3,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of the direction of investigations in the utilization of woods, and particularly of various forms of wood waste, by distillation and other chemical processes, including the production of naval stores, of hardwood distillates, and of ethyl alcohol. Personal investigation in some one of these fields will be part of the work, and general advice on all of the investigations and activities of the laboratory involving chemical methods or processes, will be required.

The commission announces an open competitive examination for chemical engineer, for men only, on August 3, 1914. From the register of eligibles resulting from this examination, certification will be made to fill a vacancy in this position in the Bureau of Mines, Department of the Interior, for service at Pittsburgh, Pa., at a salary ranging from \$2,400 to \$4,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct investigations in applied physical chemistry in its relation to fuels, oils and gases.

The commission announces an open competitive examination for assistant in farm management, for men only, on August 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to conduct investigations concerning the relation of farm enterprises to geographic factors. It is desired to secure applicants experienced in field investigations, in collecting data, and in classifying and filing material collected.

The commission announces an open competitive examination for marketing specialist, for men only, on August 3, 1914. Two registers of eligibles will be established from this examination. From Grade 1, certification will be made to fill a vacancy in the Office of Markets, Department of Agriculture, at a salary of \$2,500 to \$3,000 a year, and from Grade 2, to fill a vacancy in the same office at a salary from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will be to supervise or to assist in investigations in every branch of the live stock marketing business, and in the marketing and distribution of all kinds of meat products.

The commission announces an open competitive examination for organic chem-

ist, for men only, on August 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., and a vacancy in the Hygienic Laboratory, Public Health Service, Washington, D. C., at salaries ranging from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position in the Bureau of Chemistry will consist of investigations in problems of organic chemistry relating to agriculture and the administration of the Food and Drugs Act in the Bureau of Chemistry. It is desired to secure persons having a thorough training in organic chemistry and in exact analytical chemistry. Physical chemistry, biological chemistry, particularly as applied to foods, drugs, bacteria, fungi and agricultural plants are desirable qualifications.

The duties of the position in the Hygienic Laboratory will be to assist in and to undertake original investigations in synthetic organic chemistry.

The commission announces an open competitive examination for assistant engineer of mine tests, for men only, on August 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Mines, at Pittsburgh, Pa., at a salary ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to make tests and compute and discuss the results thereof relative to the supporting power of mine roof material, mine pillars, hauling and hoisting cables or other material pertinent to mining.

The commission announces an open competitive examination for junior zoologist, for men only, on August 5, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Animal Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be laboratory and field work in the investigation of animal parasites and routine work carried on in the Zoological Division of the Bureau of Animal Industry.

The commission announces an open competitive examination for inspector of musical instruments, for men only, on August 5, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,200 per annum in the Quartermaster Corps, Philadelphia, Pa., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announces an open competitive examination for teacher of housekeeping, for women only, on August 5, 1914. From the register of eligibles

resulting from this examination certification will be made to fill vacancies as they may occur in this position at salaries ranging from \$600 to \$720 a year, in the Indian Service, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for physician, for both men and women, on August 5, 1914. From the register of eligibles resulting from this examination certification will be made to fill the vacancies in the positions mentioned below, and vacancies as they may occur in all branches of the service except the Philippine, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The existing vacancies are as follows:

One physician (male), Fort Peek Agency, Montana, Indian Service, \$1,100 per annum.

One physician (male), Klamath Agency, Oregon, Indian Service, \$1,000 per annum.

One physician (male), Pueblo Day Schools, Albuquerque, New Mexico, Indian Service, \$1,000 per annum.

Two acting assistant surgeons (female), Ellis Island, New York, Public Health Service, \$150 a month each.

Qualified men have an excellent opportunity for appointment to the Indian Service as a result of this examination.

Female acting assistant surgeons in the Public Health Service are to be employed in connection with the examination and care of a large number of alien women and children arriving at Ellis Island. Others may be needed in connection with the investigation of sanitary conditions in New York carried on by the Public Health Service.

The commission announce an open competitive examination for laboratory apprentice, for men only, on August 5 and 6, 1914, at the places mentioned in the list printed herein. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at salaries of \$480 per annum in the Bureau of Standards, Department of Commerce, and vacancies as they may occur in positions requiring similar qualifications, at entrance salaries ranging from \$480 to \$540 per annum, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

As an insufficient number of eligibles were obtained from the examination for this position held on April 8 and 9, 1914, qualified persons are urged to enter this examination.

Two days will be required for this examination.

The commission announces an open competitive examination for heating and ventilating engineer, for men only, on August 5 and 6, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,800 a year in the United States Military Academy, West Point, N. Y., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The appointee should be thoroughly familiar with direct and indirect heating of large buildings; the thermograde and thermostat systems of regulation; the operation of motor-driven fans; steam fitting; regulation of reducing valves, steam traps, etc.

The commission announce an open competitive examination for statistical expert, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be general administrative charge of the field agents and of the tabulating force of the Bureau, and will require knowledge of statistics, statistical methods and the technic of field investigation.

The commission announce an open competitive examination for social service expert, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will be the investigation of such subjects as juvenile courts, desertion, orphanage and relevant legislation, with studies of the special groups known as the dependent, the delinquent and the defective, and of public and private provisions for recreation.

The commission announce an open competitive examination for expert on sanitation, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will be to act as adviser of the Bureau in matters requiring knowledge of hygiene and in cooperation with other experts to conduct investigations into dangerous and injurious occupations, the social factors responsible for high infant mortality and other matters involving health.

The commission announce an open competitive examination for motor car mechanic and driver, for men only, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Office of Public Roads, Department of Agriculture, for duty in the field, at a salary of \$1,200 a year, and vacancies as they occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to maintain and operate a dynamometer car, and to perform work in the instrument shop and testing laboratory in the Office of Public Roads.

The commission announce an open competitive examination for mechanic, for men only, on August 17, 1914. From the register of eligibles resulting from this examination certification will be made to

fill vacancies in this position at \$900 a year in the Bureau of Standards, Department of Commerce, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Persons appointed as a result of this examination will be employed in the machine shop of the Bureau where high-grade scientific apparatus and instruments are produced. This position has opportunities for advancement to higher grades of instrument making as experience and fitness may qualify.

The commission announce an open competitive examination for highway bridge engineer and junior highway bridge engineer, for men only, on August 19, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in these positions in the Office of Public Roads, Department of Agriculture, for duty in the field, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The salary of the position of highway bridge engineer ranges from \$1,500 to \$1,800 a year, and the salary of junior highway bridge engineer from \$960 to \$1,200 a year.

The duties of these positions will involve the making of surveys of bridge sites, superintending the construction and inspection of highway bridges and the design and preparation of plans for highway bridges.

The commission announce an open competitive examination for special agents and research assistants, for both men and women, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in these positions in the Children's Bureau, Department of Labor, at salaries ranging from \$1,200 to \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of special agents will be mainly in the field to collect data for use in the preparation of reports. At the outset most of them will be assigned to investigations into the social factors responsible for the high infant mortality, but a few will be engaged on subjects connected with the employment of children. In the infant mortality work the agents interview the mothers in their homes to get the data called for by the schedule.

The duties of research assistants will be mainly in the Washington office, studying existing material bearing on the subjects being investigated by the Bureau and preparing reports and sections of reports.

The commission announce an open competitive examination for engineer, for men only, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Indian Service at the Sac and Fox Sanatorium, Iowa, at \$900 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

For the vacancy at the Sac and Fox Sanatorium, Iowa, examination in Branches 1 and 2 is required. The elig-

ibles certified for this vacancy must be unmarried.

Owing to the widely varying conditions in the various schools and agencies of the Indian Service, general engineering examinations will be given under the following separate branches: Steam engineering, electrical engineering, heating, refrigeration, gas and gasoline engines and hydraulics. An applicant may take one or more than one of these in his discretion. The prospects of appointment will be increased by successfully passing more than one of the branches indicated. Applicants should fully indicate in their applications the particular branch or branches in which they desire to be examined and should state as definitely as possible the experience they have had which would tend to qualify them in the branches selected.

Salaries, \$480 to \$1,000 per annum. The majority of the appointments, however, are made at salaries of \$750, \$840 and \$900 per annum.

The commission announce an open competitive examination, on August 24, 1914, for telephone lineman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Life-Saving Service, at \$85 a month, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The person appointed to this position will be subject to assignment at any point on the Atlantic, Pacific or Lake coast.

THE PROBLEM OF CHILD LABOR.

By H. H. DURYEA, *National Child Labor Commission.*

For ten years the National Child Labor Committee has endeavored to secure uniform legislation in the various states, and although partially successful, many manufacturers still continue to oppose the enactment of any child labor law, or when passed, endeavor to defeat its enforcement, by claiming that they cannot meet, in competition, the products of those states in which the cost is based on wages paid to immature children whose hours of labor are totally unregulated.

For years it has been apparent that the evils of child labor could not be remedied by state laws. It was not a question of state boundaries, but an industrial problem that could only be successfully solved by securing a federal law.

Early in the year a bill was prepared by the National Child Labor Committee and introduced, at its request, by the Hon. A. Mitchell Palmer, of Pennsylvania, in the House, and by the Hon. Robert L. Owen, of Oklahoma, in the Senate.

The title of this bill is, "To prevent interstate commerce in the products of child labor and for other purposes." It is officially known as the Palmer-Owen Child Labor Bill and the following (Section 1) shows its standards:

"Section 1. On and after January 1, 1915, no person, partnership, association or corporation or any agent or employee thereof manufacturing, producing or dealing in the products of any mine or quarry in which children under sixteen years of age are employed or permitted to work at any time; or of any mill, cannery, workshop, factory or manufacturing establishment in which children under fourteen years of age are employed or permitted

to work at any time or in which children between fourteen and sixteen years of age are employed or permitted to work more than eight hours in any day or more than six days in any week, or after the hour of 7 p. m., or before the hour of 7 a. m., of any day, shall ship or offer or deliver for shipment such products in interstate commerce."

The secretary of commerce, the secretary of labor and the attorney-general are constituted a board to make the necessary rules and regulations to enforce the act which contains ample provisions for thorough inspection and prosecution for violation.

Largely owing to the work of the National Child Labor Committee, aided by local state organizations, a majority of the states have laws embodying the provisions of the Palmer-Owen Bill.

Forty states, the District of Columbia and Porto Rico now prohibit the employment of children under fourteen years of age in manufacturing establishments.

In the hazardous business of mining or quarrying, child labor is prohibited in fifteen states, and in many others there are no mining industries.

Over thirty states, Porto Rico and the federal government have either passed an eight-hour law or recognize its principles.

Thirty-three states, the District of Columbia and Porto Rico forbid night work for children under sixteen years of age.

The opposition to the Palmer-Owen Bill is practically limited to the southern cotton spinning states and the glass manufacturing states of Pennsylvania, Maryland and West Virginia. Although these three states have refused to pass adequate laws, and still permit little boys to be employed at night in the overheated and unsanitary glass houses, the other glass manufacturing states of New York, New Jersey, Ohio, Indiana, Illinois, Wisconsin, Missouri and Kansas prohibit the night work of children under sixteen years of age, and their manufacturers, while obeying the law and protecting the children of their states, are penalized by having to meet the products of the three first mentioned states in competition.

The southern cotton spinning states claim that it would be impossible for them to ship goods out of their borders if the Palmer-Owen Bill should become a law.

In a brief for the bill, Owen R. Lovejoy, general secretary of the National Child Labor Committee, sets forth their position as follows:

"In other words, we are warned that we cannot use cotton manufactured in these numerous establishments built by American capital, protected by American laws, operated by American management and American workmen unless children under fourteen years of age are employed and unless children under sixteen years are worked more than eight hours a day. To make the objection concrete, we are asked to believe that a cotton mill in Georgia equipped with the best modern machinery, surrounded by cotton fields, located in a territory where rents are not high and the cost of living is not great, surrounded by a labor force that can be employed at low wages and with tide water facilities for bringing its product to the great markets of the world, cannot manufacture cotton under conditions that now exist in New York and Ohio and Massachusetts where labor is costly, rents are high and cotton fields are remote. It will require some stretch of the imagination to accept this astounding position."

In 1913 the National Child Labor Committee reported that in one southern state

alone 75 per cent of all the spinners were under fourteen years of age, mostly little girls, and that they stood at their frames eleven hours a day or at night.

U. S. Senate document No. 645 reports that in Virginia 50 per cent, North Carolina 74 per cent and Georgia 91 per cent, of all the mills inspected were found employing children in violation of their state laws.

The child labor supply is plentiful, it is cheap, it is unresisting, it never organizes for better hours, better wages, better safeguards or better conditions. When the employment of children is begun adult wages always fall, until in a short time industry is carried on on the basis of a child's wage. These children, no matter in what state they are employed, are American children, the future citizens of this Republic, whom we allow to be exploited. There are 2,000,000 of them under sixteen years of age, many as young as seven, eight or nine years, working in our textile mills, glass factories, mines, canneries, sweatshops, etc.

Should the Palmer-Owen Bill, which is still in committee, both in the senate and the house, fail to pass, numbers of these children will still continue to be sacrificed, robbed of childhood, health, normal growth and development, deprived of education and made inferior in body and mind, many to be turned off while still young in years as broken down, illiterate unemployables, a burden on the community.

THE POPULATION OF BOSTON.

Hon. William J. Harris, Director of the Census Bureau, Washington, has prepared his annual estimates of the population of the metropolitan cities of the United States, based upon the computation of 1910, and which is as follows:

	POPULATION.	
	Estimated July 1, 1914.	Census, April 15, 1910.
New York (Greater).....	5,333,537	4,766,883
Chicago.....	2,393,325	2,185,283
Philadelphia.....	1,657,810	1,549,008
St. Louis.....	734,667	687,029
Boston.....	733,802	670,585
Cleveland.....	639,431	560,663
Baltimore.....	579,590	558,485
Pittsburgh.....	564,878	533,906
Detroit.....	537,650	465,766

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for cabinet fittings, etc., at the Roxbury High School, Warren and Montrose streets, Roxbury, Boston, Mass., and giving bond of a surety company therefor in the sum of \$300. The plans will be ready for contractors Tuesday, July 28, 1914. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Tuesday, August 4, 1914, at said office, with a certified check for \$100, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

J. P. LOMASNEY,
CHARLES B. PERKINS,
WILLIAM F. KEARNS,
Commissioners.

(July 25.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER AND DRAINS, RUTLEDGE ROAD, HYDE PARK.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for pipe sewer and drains in Rutledge road, between Blake street and Wood avenue, Hyde Park, and giving bond therefor of a surety company approved by the commissioner in the sum of twelve hundred (\$1,200) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewer, Rutledge Road," and left at Room 62, fifth floor, City Hall, before 12 m. on Friday, July 31, 1914, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 23, 1914. (July 25.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWER AND DRAINS, THOMPSON STREET, CHARLESTOWN.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for pipe sewer and drains in Thompson street, between Warren street and Main street, Charlestown, and giving bond therefor of a surety company approved by the commissioner in the sum of two hundred (200) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewer, Thompson Street," and left at Room 62, fifth floor, City Hall, before 12 m. on Thursday, July 30, 1914, with a certified check for one hundred (100) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 23, 1914. (July 25.)

CITY OF BOSTON.

PROPOSALS FOR HAY, STRAW, OATS, SHORTS AND CORN.

Sealed proposals will be received at the office of the City of Boston Supply Department, Room 808, City Hall Annex, until 12 o'clock Wednesday, July 29, for the hay, straw, oats, shorts and corn needed in the different departments for August, 1914. The bidder must cover the cost of delivery. The bidder is requested to bid on both No. 1 and No. 2 hay. The hay to be timothy hay, clean and sweet; the straw to be No. 1 straight rye straw. The grade of hay and straw must comply with the rules of the National Hay Association and shall be weighed and inspected by a weigher appointed under the ordinances of the City of Boston. The bidder is requested to bid on No. 1 oats, to test 38 to 40 pounds; No. 2 clipped white oats, to test not less than 34 pounds to the bushel. Samples of the oats must be given with the proposal, and must conform to the grade adopted by the Chamber of Commerce. The bidder must use the form to be obtained at Room 808, City Hall Annex. A bid in duplicate, without check, to be deposited with the City Auditor previous to the time named for opening bids. The successful bidder must deposit a certified check for one-quarter the amount of the contract as surety that the terms of the contract will be carried out. The proposals will be publicly opened and read on Wednesday, July 29, at 12 m. The superintendent reserves the right to reject or accept bids.

D. FRANK DOHERTY,
Superintendent of Supplies.
(July 25.)

READVERTISEMENT.

CITY OF BOSTON.

PROPOSALS FOR METAL POLISH.

The Supply Department of the City of Boston invites proposals for furnishing 1,500 gallons, more or less, of metal polish to the various departments of the City of Boston for one year. Copy of proposal to be used and other information can be obtained at the office of the Superintendent of Supplies, Room 808, City Hall Annex. Bidder must leave his proposal at the above office with a certified check for \$100, payable to and to become the property of the City of Boston if the said proposal is not carried out. A bid in duplicate must be filed with the City Auditor, without check, prior to the time named for opening bids. Bids will be publicly opened and read on Friday, July 31, 1914, at 12 m., at Room 808, City Hall Annex. The successful bidder must furnish a bond for one-quarter the amount of the contract of a surety company authorized to do business in Massachusetts. The superintendent reserves the right to reject any or all proposals, or any part of a proposal, and award the contract as he deems it for the best interest of the city. All contracts are made subject to appropriations to meet payments thereunder.

D. FRANK DOHERTY,
Superintendent of Supplies.
(July 25.)

CITY OF BOSTON.

PROPOSALS FOR BITUMINOUS MACADAM ROADWAY IN ULMER STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for bituminous macadam roadway in Ulmer street, from Arklow to Minden streets, West Roxbury, and giving bond therefor of a surety company approved by the commissioner in the sum of three hundred dollars (\$300), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Macadam Roadway in Ulmer Street," and left at Room 62, fifth floor, City Hall, before 12 m. on Friday, July 31, 1914, with a certified check for one hundred dollars (\$100), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.
Boston, July 23, 1914. (July 25.)

READVERTISEMENT.

CITY OF BOSTON.

PROPOSALS FOR BROOMS.

The Supply Department of the City of Boston invites proposals for furnishing to the various departments of the City of Boston throughout the year:

- 350 dozen, more or less, 18-inch street cleaning brooms.
- 50 dozen, more or less, teamsters' brooms.
- 75 dozen, more or less, stable brooms.
- 100 dozen, more or less, house brooms.

Samples of the above must be left with proposal at the office of the Supply Department, Room 808, City Hall Annex. A copy of the proposal to be used and other information can be obtained at the above office. The bidder must leave his proposal at the above office with a certified check for \$200, payable to and to become the property of the City of Boston if the said proposal is not carried out. A bid in duplicate, without check, must be filed with the City Auditor prior to the time named for opening bids. The bids will be publicly opened and read on Friday, July 31, 1914, at 12 m., at Room 808, City Hall Annex. The successful bidder must furnish a bond for one-quarter the amount of the contract of a surety company authorized to do business in Massachusetts. The superintendent reserves the right to reject any or all proposals, or any part of a proposal, and award the contract as he deems it for the best interest of the city. All contracts are made subject to appropriations to meet payments thereunder.

D. FRANK DOHERTY,
Superintendent of Supplies.
(July 25.)

CITY OF BOSTON.

NOTICE OF LAND TAKING.

IN BOARD OF STREET COMMISSIONERS OF THE CITY OF BOSTON, JULY 20, 1914.

Ordered, That due notice be given that this Board is of the opinion that public necessity and convenience require that there should be a taking of land for schoolhouse purposes on Athens street, South Boston, substantially as shown on a plan in the office of this Board, that it intends to pass an order for making said taking, and that it appoints 11 o'clock a. m. of August 5, 1914, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:
(July 25.) J. J. O'CALLAGHAN, Secretary.

CITY OF BOSTON.

NOTICE TO CONTRACTORS.

Sealed bids for building enlargement of Park Street Station of the subway will be received by the undersigned until 12 o'clock noon of Tuesday, August 4, 1914. Specifications and forms of contract can be obtained at 15 Beacon street, ninth floor. The right to reject any and all bids and to award the contract as is deemed to be for the best interest of the City of Boston is reserved.

By order of the BOSTON TRANSIT COMMISSION,
(July 25.) B. LEIGHTON BEAL, Secretary.

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for alterations and repairs in No. 25 La Grange street, and giving bond of a surety company therefor in the sum of \$750. The plans will be ready for contractors Tuesday, July 28, 1914. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Tuesday, August 4, 1914, at said office, with a certified check for \$200, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

J. F. LOMASNEY,
CHARLES B. IERKINS,
WILLIAM F. KEARNS,
Commissioners.
(July 25.)

CITY OF BOSTON.

TO GRADING CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for grading yard, etc., Wells School, Blossom street, West End, Boston, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Tuesday, August 4, 1914, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

JOSEPH P. LOMASNEY,
CHARLES BRUEN PERKINS,
WILLIAM F. KEARNS,
Commissioners.
(July 25.)

CITY OF BOSTON.

PROPOSALS FOR THE FURNISHING OF ALL LABOR NECESSARY FOR THE ASSEMBLING OF 100 POST HYDRANTS.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for the furnishing of all labor necessary for the assembling of 100 Boston post hydrants, and giving bond therefor of a surety company approved by the commissioner in the sum of six hundred dollars (\$600), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 49, City Hall. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Assembling Post Hydrants," and left at Room 62, fifth floor, City Hall, before 12 m. on Thursday, July 30, 1914, with a certified check for three hundred dollars (\$300), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, AUGUST 1, 1914.

No. 31

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By Subscription \$1.00 Per Year.
Single Copies 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 41, City Hall, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 49, City Hall, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 37, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, August 10, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, City Hall Annex.

PUBLIC HEARING.

The Board of Street Commissioners advertise a public hearing, at the office of the Board, 41 City Hall, upon Wednesday, August 5, at 11 a. m., for the consideration of the taking of land for schoolhouse purposes on Athens street, South Boston.

BIDS FOR NAVAL SUPPLIES.

The present activity in Army and Navy circles has resulted in the opening of bids for many supplies. The attention of Boston merchants is particularly called to these bids. The Navy Department invites proposals for furnishing the following supplies:

Bids will be received until August 4 for furnishing the following materials. Firms interested therein should make application to the Bureau of Supplies and Accounts, giving the schedule numbers desired: Schedule 7040, bits, belt punches, steel rules, boat and buoy grapnels, brass grommets, combination planes, anchor and chain shackles, black and galvanized spikes, turn-buckles; schedule 7039, deck brushes, ships' bugles, cases to contain two 5-gallon empty cans, bellows leather, pump leather, rigging leather, plain ash oars, refrigerators, cotton sheeting, ceramic tiling; schedule 7044, copper hose, steam cocks, pipe fittings, brass pipe, composition tubing; schedule 7026, fire hose, steel plates; schedule 7029, laying of tiling on ships; schedule 7055, double conductor, aerial wire, ignition circuit wire; schedule 7053, lamp cord, weather-proof wire; schedule 7054, igniters and spark plugs for same, spark plugs; schedule 7024, stranded wire; schedule 7038, North Carolina pine, yellow pine, spruce; schedule 7028, yellow pine, railroad ties; schedule 7043, naval bar brass, round bar brass, soft brass sheet, scrap cast iron, pig iron, ribbon floor steel, ingot zinc; schedule 7027, rolled naval brass, copper tubing; schedule 7031, brass tube sheets, boiler-plate steel, steel shapes; schedule 7042, copper ingot; schedule 7037, sheet lead, spelter solder, steel bar; schedule 7041, phosphide of calcium, clear white glue, hard white glue, chrome green in oil, dry venetian red; schedule 7045, glycerin, castor oil.

Bids will be received until August 11 for the following supplies: Schedule 7049, direct differential blocks, empty paint cans, sheathing felt, flake graphite, lubricating graphite, chrome green in oil; schedule 7047, hard red brick; schedule 7052, steel wire brushes, elbows, tees, bushings, brass pipe, wrought pipe; schedule 7048, Douglas fir; schedule 7051, round brass rod, brass sheet, sheet copper; schedule 7050, rolled bronze, sheathing copper, billet steel, medium steel, sheet steel; schedule 7035, water-tight annunciators, general alarm and boat hour gongs, contact makers, electric-whistle outfit, thermostats, transmitter and indicators; schedule 7033, bars and plating, bronze padlocks, sheathing metal, material trucks with trailers; schedule 7034, lathe chucks; schedule 7032, watt-hour meters, engine-driven generating unit.

Boston firms desiring to bid should make immediate application to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., and give the schedule number of all bids for information desired, as printed above.

PROPOSALS ADVERTISED.

A VISIT TO LONG ISLAND.

By CAPT. JOHN H. DILLON, *Chairman Park and Recreation Department.*

It was my good fortune to be enabled to visit Long Island in company with the distinguished soil experts, Professors Foord and Haskell of the Massachusetts Agricultural College at Amherst, and others interested in the soil and its development for farming purposes. Unmindful of the extreme heat of the day, and with the sun's rays pouring down upon their devoted heads, these gentlemen, with spade and other suitable implements, dug and scientifically examined the land at frequent intervals throughout the length and breadth of the island.

Hardly had I stepped upon the island when a flood of recollections pleasant and chastened came stealing o'er me, especially the memory of my dear old friend, John Galvin, at one time city forester and later the superintendent of this island, and the splendid farm he had there twenty years ago. Under his fostering care the island attained a high state of cultivation, producing not only a sufficient supply of vegetables for almost all the city institutions, but having a surplus to sell to the hotels and produce dealers of Boston—potatoes, corn, celery, cabbages, beets, onions, melons, carrots, turnips and even strawberries were grown there in goodly quantity. In fact, it was as fine a farm for its acreage as could be found in New England, and I recalled, while walking over the land, the old and trite saying, "What man has done, man can do"—put humus into the soil with well rotted barnyard manure or fertilizer, barnyard manure preferred, and there is no good argument against restoring fertility and growing vegetables there so successfully in the future as to renew its oldtime prestige and enable it to become once more a competitor at our horticultural exhibits to the same extent as formerly,

when Long Island won premiums for the size and quality of its productions.

The banks on the island might be sown with alfalfa, United States Government tested seed, from which at least three crops can be obtained in a season—an excellent fodder for cattle.

It is my opinion that all the islands in the harbor have a good depth of loam and could be readily farmed.

EXTRA WORK BY DRAUGHTSMEN.

The Mayor has formally approved the request of Chairman Lomasney of the Schoolhouse Department that extra work may be performed by the experts of the Civil Engineer Division, in order to have Boston schoolhouses properly repaired for the opening of the school year in September.

The communication of Commissioner Lomasney is as follows:

July 28, 1914.

HON. JAMES M. CURLEY, *Mayor:*

DEAR SIR,—At the present time we have several schools in process of repair, which repairs are very difficult in nature. In order to successfully carry on the work, and terminate same before the opening of the school year, we find it necessary to employ the drafting force of the Civil Engineer's Division overtime, probably ten nights, at a cost of eleven (11) dollars per night, the total cost not to exceed one hundred and twenty (120) dollars.

We figure this as the outside cost of what this overtime will come to, paying the draughtsmen time and a half for night work. We therefore respectfully ask that you approve this request as indicated, with the understanding that if such time and such money are not needed, the same will not be expended.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

APPROPRIATION FOR CITY HOSPITAL.

At a conference held at the Mayor's office upon the 27th instant, between his Honor and the trustees and staff of the Boston City Hospital, the amount of \$48,300 was agreed upon as an additional appropriation for the institution.

The items of the appropriation are as follows:

Deficit for maintenance.....	\$18,000
General increase in wages for six months.....	6,600
Plumbing.....	2,500
New auto carriage for emergencies.....	3,500
Additional ambulance.....	3,500
Orthopedic Department.....	2,000
Installing sprinkler system.....	3,500
Needed repairs upon buildings.....	3,200
Special police officers, day and night.....	1,500
Dressing service and lint supply.....	2,500
Record system.....	1,500
Total.....	\$48,300

The two items which the trustees had not asked for, but which were agreed upon, were those for new dressings and bandages and for a card index system. The former, Mayor Curley said, he deemed highly necessary, in order to prevent any possibility of transmitting disease. The system has been to sterilize dressings and lint and use them over again, but this will be abolished.

The Mayor stated that he thought an adequate system of keeping records of the hospital cases was needed, and it was for this reason that he approved the additional appropriation of \$1,500 for a card index system of bookkeeping.

He stated that the low wages paid nurses and orderlies at the hospital has seriously impaired its efficiency, as private hospitals, by offering larger salaries, have lured many of those at the City Hospital away. This trouble has been felt at the institution for many years.

Cases requiring immediate operations call for the need of an additional automobile to carry them from the physician's or surgeon's home direct to the hospital. It is for this use that the \$3,500 machine will be purchased.

There is also a need for an additional automobile for the South Department, to-day's conference showed. This car will cost \$3,500, but it will do away with the possibility of contagion.

The \$2,000 appropriation for the Orthopedic Department will affect the poor citizen, who is working all day, but who will now be enabled to attend an X-ray clinic in the evening.

STREET COMMISSIONERS.

The Mayor has formally approved the following orders of the Board of Street Commissioners relative to public improvements:

The Board determines that the undermentioned estates sustain damages by the making of the public improvement consisting of the laying-out and construction of Frankfort street, East Boston, as a highway, from Neptune road to Bennington street, in the amounts hereinafter respectively set against them, and awards said amounts therefor:

John A. Quinn and Bridget Quinn.....	\$50 00
Gaetano Scaramella.....	50 00
Felice Scurpa.....	30 00
Daniel D. Flaherty.....	25 00
Antone Lawrence.....	50 00
Mary Thomas.....	300 00
Edwin J. Marsh.....	75 00
Ellen E. Donovan.....	300 00
Agnes E. Bennett.....	50 00
Katie E. McHugh.....	25 00
Nellie H. Stowers.....	40 00
Total.....	\$995 00

The Board estimates that the estates hereinafter specified are all the estates which will receive benefit or advantage from the improvement above specified, beyond the general advantage to all real estate in said city, each to the amount hereinafter set against it.

Ellen E. Donovan.....	\$142 85
East Boston Company.....	156 25
East Boston Company.....	156 25
East Boston Company.....	156 25
East Boston Company.....	156 25

Antone Lawrence.....	93 75
Mary Thomas.....	93 75
Mary Thomas.....	93 75
Edwin J. Marsh.....	93 75
Ellen E. Donovan.....	93 75
Lorinda Rodenhiser.....	93 75
Agnes E. Bennett.....	93 75
Mary C. Humphrey.....	150 00
Mary E. Christian.....	75 00
Katie E. McHugh.....	75 00
Aaron M. Sherry.....	150 00
Nellie H. Stowers.....	93 75
Benjamin P. Cheney.....	154 20
Total.....	\$4,826 27

The Board determines that the undermentioned estate sustains damages by the making of the public improvement consisting of the laying out and construction of an extension of Kittredge street, West Roxbury, as a highway, from Metropolitan avenue to Norfolk street, in the amount hereafter respectively set against it, and awards said amount therefor:

Francis H. Webb heirs, 1,250 square feet.....	\$87 50
---	---------

The Board estimates that the estates hereinafter specified are all the estates which will receive benefit or advantage from the improvement above specified, beyond the general advantage to all real estate in said city, each to the amount hereinafter set against it:

Francis H. Webb heirs.....	\$211 86
Emelio Caruso and Vituliano Corea.....	280 00
Emelio Caruso and Vituliano Corea.....	274 00
Amos W. Staton heirs.....	275 00
Charles S. Browne.....	155 25
Charles S. Browne.....	170 00
Lillian K. Ramsay.....	200 00
Lillian K. Ramsay.....	200 00
Katherine G. Cratty.....	400 00
Total.....	\$2,166 11

The Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of Rosceliff street (formerly Norfolk street), West Roxbury, as a highway, from Washington street to Kittredge street, and awards no damages therefor.

The Board estimates that the estates hereinafter specified are all the estates which will receive benefit or advantage from the improvement above specified, beyond the general advantage to all real estate in said city, each to the amount hereinafter set against it:

Mabel J. Stehle.....	\$182 79
Francis McDonald.....	242 00
Margaret Martin.....	242 00
George Greim.....	123 75

Robie E. Dimock.....	\$82 50

CLAIMS.

The Mayor has formally approved the claim of Mary G. O'Donnell, in the amount of \$13,000, for damages occasioned her

estate in McLean street, city proper, in the taking of this property for school-house purposes, and in confirmation of the order of the Board of Street Commissioners.

The Mayor has approved the claim of William Fitzgerald, by his attorney, Edgar P. Benjamin, in the amount of \$105, for damages occasioned his estate in Spring street, West Roxbury, by the widening and relocation of the street, and in confirmation of the order of the Board of Street Commissioners.

The Mayor has approved the claim of Michael J. Brown, in the amount of \$150, for damages occasioned his estate in Norfolk street, Dorchester, by the widening of the street, and in confirmation of the order of the Board of Street Commissioners.

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, July 27, 1914.

I. RAYMOND V. LANDRY.

The Fire Commissioner regrets to announce the death of Hoseman Raymond V. Landry of Engine Company 26-35, by accidental drowning, on Saturday, July 25, 1914.

Hoseman Landry was thirty-one years of age, and joined the department April 22, 1907. His record in this department was an exemplary one, and the Fire Commissioner deeply regrets the loss of such a faithful and conscientious member.

By order of the Fire Commissioner,
PETER F. McDONOUGH,
Chief of Department.

CONCERTS FOR SUNDAY.

The musical program for the municipal concerts for Sunday, August 2, is announced by Capt. John H. Dillon, Chairman of the Park and Recreation Department, as follows:

BOSTON COMMON, 3.30 P. M. TO 5.30 P. M.

D'Avino's Band, Sig. A. D'Avino,
Conductor.

Program.

1. Grand March. "Aida." G. Verdi
2. Overture. "William Tell." G. Rossini
3. Preludia. "Faust." C. Gounod
4. Selection. "Fortune Teller." V. Herbert
(Incidental solos.) (Chimes and xylophone.)
5. a. "Pilgrim Chorus," "Tannhauser." R. Wagner
b. Religious Meditation. "The Last Hope." L. Gottschalk
6. Operatic Selection. "La Boheme." G. Puccini
7. a. Minuetto and Gavotte. "Pagliacci." R. Leoncavallo
b. "Angelus," "Scenes Pittoresques." J. Massenet
8. Grand Selection. "Carmen." G. Bizet

MARINE PARK, 3.30 P. M. TO 5.30 P. M.

Bates' Band.

Program.

1. March. "El Ruiston Club." Crosby
2. Overture. "Morning, Noon and Night." Suppe
Hall
3. Concert Waltz. "Adlyn." Frank S. Truda.
4. Cornet Solo. Selected.
5. Medley. "Remick's Hits." Lampe
6. Irish Selection. "Beauties of Erin." Bennett
7. Intermezzo. "Flower Girl." Wenrick
8. Selection. "Babes in Toyland." Herbert
9. Potpourri. "Orpheus." Offenbach
10. March. "Greetings to Dexter." Crosby
"Star Spangled Banner."

WOOD ISLAND PARK, 3.30 P. M. TO 5.30 P. M.

Stone's Military Band.

Program.

- March. "Boston Commandery." Carter
Overture. "Morning, Noon and Night." Suppe
Potpourri of Popular Songs. Remick
Concert Waltz. "Andalusia." Theire
Selection. "Plantation Songs." Solomon
Caprice. "The Whistler and His Dog." Pryor
Grand Selection. "Il Trovatore." Verdi
Oddity. "Le Secret." Gautier
Finale. "Star Spangled Banner." Keyes

FRANKLIN PARK, 3.30 P. M. TO 5.30 P. M.
Commonwealth Band.

Program.

1. March. "En Avant." J. Gungl
2. Overture. "Mirella." Gounod
3. Medley of Popular Songs. Remick
4. Selection. "Sari." Kalman
5. Characteristic. "Simplicity." Theo. Moser
6. Selection from Grand Opera. "I Lombardi" Verdi
7. Overture. "Le Chevalier." Herman
8. "Luna Walzer," from Operetta "Frau Luna." Paul Lincke
9. March. "Bersagliere." Eisenberg

ELECTRIC LIGHTING CONTRACT.

Mayor Curley, upon the 27th inst., addressed the following communication to the members of the City Council, relative to the necessity of immediate action upon the contract for the electric lighting of the city:

BOSTON, July 27, 1914.

DEAR SIR,—

I feel it my duty to call the attention of the City Council again to the necessity of prompt and decisive action upon the pending contract for electric lighting. The various questions that have arisen in the four months since the contract was submitted to the City Council have been fully discussed and the Council must now have sufficient information upon every feature of the situation that is entitled to consideration in the city's interests. If the contract is approved the city will get the benefit of its reduced prices back to April 1, 1914, as well as in the future, but I have reason to apprehend that the Electric Lighting Company will withdraw the contract unless it is acted upon very soon.

The withdrawal would throw the city back upon the existing price of \$103.54 for magnetite lamps, a price \$16.01 higher than that offered in the pending contract, and would cause the city a loss at the rate of \$80,000 a year.

If the new contract should afterwards be offered at the same price for magnetite lamps, \$87.53 a year, and should be approved, we would have lost at the rate of \$16.01 a lamp per year for the period between April 1, 1914, and the date when the new contract became effective. I cannot believe, for there is no evidence to warrant the belief, that if the pending contract is withdrawn a better one for the city will be offered. The company's officials have assured me, in apparent good faith, that \$87.53 is the rock bottom price for the magnetite lamp. It appears from figures taken from the company's sworn returns, and from the estimate based thereon by the Finance Commission's engineer, that the price of \$87.53 will yield the company a profit of less than 6½ per cent without making allowance for depreciation charges. How, then, can we expect that private arbitrators or the Gas and Electric Light Commission would fix a rate below \$87.53 and thereby reduce the company's net return, after allowing for depreciation, below 6 per cent?

No business man would expect a reduction in price below a 6 per cent profit basis, and the Mayor and City Council, as the responsible officers of the city should, it seems to me, be guided by business principles and go forward with the execution of a contract that is advantageous to the city. The objections to this course have been numerous, but I will review only those which seem worthy of your consideration. In stating those objections, and giving you my views thereon, I am only doing what is my plain duty under the statute which requires lighting contracts for more than one year to be approved both by the Mayor and the City Council, thus making

you coexecutives with me on this highly important branch of the city's business and sharers in equal degrees of the serious responsibility for its proper disposition.

It is urged that union labor should be recognized by the company, either by a new clause in the contract or by the company independently of the provisions of the contract. Two reasons are assigned. One is that after such recognition the unions would see to it that the poles, wires, etc., would be kept in proper condition and the number of accidents thereby reduced. But the contract as drawn requires the company to keep in good order and condition the poles, wires and other apparatus which it furnishes, and the city's inspectors should promptly report all defects which menace the safety either of the company's workmen or of the public even if the workmen should be so neglectful of self-interest as to omit taking the steps necessary for their own protection. I need not assure you that I feel keenly the necessity of protecting life and limb and that I shall insist upon proper inspection and upon the immediate discharge of any inspector who shirks his duty.

The other reason assigned is that it is only fair that the company should recognize and not discriminate against union labor. I am personally in favor of this view, and it is my hope and expectation that the company will soon see the wisdom and expediency of accepting it, but I cannot force the company to accept this view as a condition of obtaining the contract, nor is it my duty to make the attempt. There are only two parties to the contract, the city and the company, and neither can compel the other to accept the demands of a third person or persons not parties to the contract. My duty is not to any particular class in the community but to all the people of the city, and in the performance of that duty I should not and shall not jeopardize the interests which the people as a whole have in securing a beneficial contract by injecting into the discussion of its terms an issue which has no proper place in the discussion. My sympathies are with union labor whenever its demands are in harmony with public interests, but I am convinced that public interests in this case require that the city and the company be left free to settle the questions involved in the pending contract and that the labor unions and the company be left free to adjust their differences without dragging the city into the controversy.

It is objected that ten years is too long a term. But if the price is fair the term is not too long. The company will take a five-year contract or a one-year contract, as I understand their position, but in either case they will demand a higher price than under a ten-year contract; and this for obvious business reasons. I have already stated the reasons for my belief that the price offered under a ten-year contract is fair. The only statement to the contrary which has been made by any witness before the Council and which seems to have been considered is that of the electrical contractor, whose mathematics, as shown in his calculation that 40 per cent of \$10.80 is \$6.48, and whose assertion that a saving of 40 per cent in electrical current means a saving of 40 per cent in the cost of production, both show that his opinion is entitled to little, if any, weight. The only other statement that the price is unfair, which seems to have been considered, is that of a Philadelphia official, made by letter or telegram, or both. Long distance opinions,

however, are not impressive when compared with those of competent engineers who are here on the ground and are familiar with local conditions, such as Commissioner Rourke and Mr. Emerson, the engineer of the Finance Commission, both of whom state that the proposed price is fair.

It is objected that the price, though fair in the beginning, will not be fair throughout the entire term because improvements are certain to be made which will reduce the cost of the service furnished by the company. The answer is that the contract provides an arbitration clause under which the city shall get the benefit of two-thirds of the reduction, the other third going to the company as compensation for the expense incurred and the business enterprise displayed in conducting cost-reducing experiments or in establishing cost-reducing methods and appliances. In this connection it is only fair to recognize that when new appliances are installed, the old ones which are displaced go into the scrap heap and with them go certain values which, but for the substitution, could profitably be utilized. As I have stated before, the effect of giving the city the benefit of the entire reduction would remove the company's incentive to save and would be contrary to the principles established in the sliding scale system of fixing prices.

It is objected that if certain higher power incandescent lamps are substituted for magnetite lamps the city will get no benefit, the claim being that the contract provides that the total payments to the company cannot be diminished. The Corporation Counsel, however, has stated that this is not a proper interpretation of the contract, but that the city, under the arbitration clause, can get the benefit of two-thirds of any reduction in cost effected by the substitution. The company has written a letter agreeing to be bound by the interpretation of the Corporation Counsel, and it should set this question at rest.

The remaining objection is to the personnel of the arbitration board. It is said "the head professors of applied electricity" in the Massachusetts Institute of Technology and the Scientific Department of Harvard University should not be allowed to serve on the arbitration board, but that the city should be free to choose one arbitrator, the company another, the third to be selected by the two thus chosen. I have no objection to this latter method, and it appears that the company has none, for it has already stated in writing its willingness to abide by the latter method. This seems to dispose of the remaining objection.

In conclusion, it is only proper to call your attention to the fact that it has been suggested that action by the Council on the contract should not be taken while some of its members are on vacation, but that it should be postponed until their return. I venture to suggest, however, that the city's financial interests are not on vacation, that they are present and urgent, and that they require immediate attention by every city official who has a duty to perform in connection with them. I feel that you share this view and that you will cooperate with me in hastening final action, one way or the other, upon a contract which I have urged for the economy which I believe will be effected under it and the resulting benefit to the entire community.

Yours very truly,

JAMES M. CURLEY, Mayor.

A CLEAN CITY.—THE HOME SURROUNDINGS.

By MISS MARION E. HUGHES of the South Boston High School.

To clean a big city of half a million inhabitants is no easy task. If, however, each one would keep his own home and its immediate surroundings clean, the task would be comparatively simple, and there would be little or no work for the city officials.

A man or woman cannot as a rule afford to have his or her house painted every year, but at least the windows and blinds could have an attractive appearance. No one cares to see a street lined with houses that need a coat of paint badly or where windows are broken and blinds missing.

Every yard should have an orderly appearance. If the yard is very small, and trees make the place damp, ferns, violets or lilies-of-the-valley could grow there. An old tub could be given a coat of green paint, nailed to a box, and hanging flowers could be planted or even trees; fruit trees or ornamental trees. Lots of house owners have little houses for the ash barrels and garbage pails but as this is not possible for all, other ways could be had to keep the ash barrels and garbage pails out of sight. One way is to have a place where they could be put, under the shrubbery, or in some corner of the yard where they will not cause litter to be visible from the street or windows of neighboring houses.

The sidewalks should be kept clean at all times. The gutter in front of the house should not become crowded with refuse. When a city undertakes such a campaign as the clean up and paint up campaign, there is the greatest need of a hearty public cooperation.

A CLEAN CITY.—CLEAN AND UNCLEAR FOOD.

By MISSES HELEN G. FITZGERALD AND ANNIE P. FOERSTER of the South Boston High School.

Many people know the danger in eating food which has been exposed to the dust, but many do not realize the injury which may result from it. Although some people are fortunate in escaping harm, sickness or death are often the consequence.

Invariably, when we enter the street or store, we see food displayed under unsanitary conditions. For instance, one may see on the street wagons of produce dealers. People having some skin disease, yet invisible, may handle the uncovered fruit and may not purchase. Some other person who buys this infected produce may thus obtain the disease. This is one of the many cases the cause of which cannot be traced to its source.

This contamination may be avoided to a great extent by prohibiting people, other than the dealer, from touching the food.

When one enters the grocery, one sees meat upon which microbes, deposited by flies, are accumulating rapidly, for as everybody knows, the fly is the greatest germ carrier. This could easily be prevented by covering the meat or placing it in a refrigerator when not in use.

Vegetables in the store are also exposed to the dust. Cats and dogs are often seen lying upon them, and the microbes and germs which are lurking in the sawdust, fall on them when the floor is getting swept.

Another specimen of uncleanness is shown when children place their hands in the pickle barrels or the like to obtain what they want.

BAND CONCERTS FOR THE SUMMER OF 1914.

- Aug. 3. Columbus Avenue Playground.
 Aug. 5. Eaton square, Dorchester.
 Aug. 6. Edward Everett square.
 Aug. 11. Sullivan square.
 Aug. 12. Sharon street.
 Aug. 13. Ashmont Playground.
 Aug. 17. Everett square, Hyde Park.
 Aug. 21. Charlesbank.
 Aug. 24. Gibson Street Playground.
 Aug. 25. Washington Park.

NAVY YARD EXAMINATIONS.

United States civil service examinations for the following mechanical trades and noneducational positions in the United States Navy Yard, Boston, Mass., will be held on September 1, 1914:

Chainmaker's helpers; boy, rivet heaters; rigger's helpers; shipfitters; holders on; shipfitter's helpers; riveters; brick masons; carpenters; painters; calkers and chippers; iron wharf builders.

No educational test will be given and applicants will not be assembled for a mental examination. The examination will consist of the subjects mentioned below, weighted as indicated:

Subjects.	Weights.
1. Physical ability.....	40
2. Training, experience and fitness, ..	60
Total.....	100

All statements relating to training, experience and fitness are subject to verification. Applicants should name in their applications, as references, employers, or other persons who are competent to furnish information relative to the applicants' fitness for the position sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications the applications may be canceled.

An applicant is required to show to the satisfaction of the labor board that he has the following qualifications in order to have his name placed on the eligible list of appointments:

That he is a citizen of, or owes allegiance to, the United States. That he has the necessary knowledge of, and experience in, the occupation or trade in which he seeks employment. That he is industrious and of good character. That he is physically able to perform the work of his occupation or trade, and that he has no physical defect that will, as a contributory cause, tend to prolong a disability resulting from an accident or

injury received in the performance of his work, or which would render him more liable to such accident or injury.

Age limits: Riveters, 18 or over; helpers, 17 or over; boy, rivet heaters, 14 to 18; all others, 20 or over.

Application Form 1800 is required and may be obtained from the labor board, with whom it must be filed on or before August 17, 1914. Complete instructions are issued with each application form.

A NATIONAL MUSEUM FOR EMPLOYERS.

Louis B. Schram, of New York City, one of the largest brewers in the Empire State, appealed to Mayor Culey, during the week, to strongly indorse the Lewis Bill now pending in the House of Representatives at Washington.

Mr. Schram is chairman of the Committee on Accident Prevention of the Department on Compensation for Industrial Accidents and their Prevention of the National Civic Federation.

The purpose of the Lewis Bill is to create a Bureau of Labor Safety in the Department of Labor at Washington and to permit the establishment of a Federal Museum of Safety, both being in the prevention of industrial accidents.

Mr. Schram in behalf of the legislation desired declares in a written statement that many such museums of safety are maintained in the metropolitan cities of Europe. He declares it is of the utmost importance to properly provide for the securing of information to be disseminated among manufacturers which will assist them in safeguarding dangerous machinery and work places.

The annual invalidity and death toll incurred through industrial accidents in the United States warrants, in the opinion of the National Civic Federation, the establishment of a central bureau at which there may be exhibited safety devices.

This central labor bureau would encourage it is declared the further establishment of such museums of safety in the principal industrial districts of the country and several of which are now seeking either state or municipal aid.

Mr. Schram declares further that the benefit to be derived in the circulation of literature and plans for the benefit of employers by a Federal Museum of Safety would be incalculable. He says that the average employer is desirous of having safe conditions of employment and only needs to have called to his attention devices which may be often installed at small cost.

He further declares that through a national museum of safety a determined effort could be made to prevent the sale of unguarded machinery as has been done in Europe.

CITY OF BOSTON.

NOTICE TO CONTRACTORS.

Sealed bids for building Section D of the Dorchester Tunnel will be received by the undersigned until 12 o'clock noon of Thursday, August 13, 1914. The section is located in Dewey square and Summer street and has a length of about 800 lineal feet. About one-half of its length is to be built in tunnel excavation and the remainder by open cut. The tunnel portion is to be of reinforced concrete; the open cut portion is to be of reinforced concrete with interior steel columns and beams. Specifications and forms of contract can be obtained at 15 Beacon street, ninth floor. The right to reject any and all bids and to award the contract as is deemed to be for the best interest of the City of Boston is reserved.

By order of the BOSTON TRANSIT COMMISSION,
 (Aug. 1.) B. LEIGHTON BEAL, Secretary.

CITY OF BOSTON.

NOTICE TO CONTRACTORS.

Sealed bids for furnishing and setting in place twenty-nine copper-covered doors and five windows with copper-covered frames in the stations of the Boylston Street Subway will be received by the undersigned until 11.30 a. m. of Tuesday, August 4, 1914. Plans and specifications can be obtained at 15 Beacon street, ninth floor. The right to reject any and all bids and to award the contract as is deemed to be for the best interest of the City of Boston is reserved.

By order of the BOSTON TRANSIT COMMISSION,
 (Aug. 1.) B. LEIGHTON BEAL, Secretary.

CITY OF BOSTON.

NOTICE TO PLUMBING CONTRACTORS.

Trustees of the Boston City Hospital invite sealed proposals for changes and additions to plumbing of East and West Pavilions, Domestic and Laundry Buildings, South Department, and giving bond of a surety company therefor in the sum of 25 per cent of proposal. Only proposals obtained at the office of the architect, signed by the bidder, and left before 12 noon of August 12, 1914, at the office of the trustees, with a certified check for \$300, payable to the city if the proposal is not carried out, will then and there be read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time mentioned for the opening of bids. The trustees reserve the right to reject any or all proposals. A deposit of five dollars will be required for each set of complete drawings and specifications taken for estimating purposes from the office of the architect, Joseph McGinniss, 112 Water street, and obtainable at said office on August 5; such sum to be refunded provided the drawings are returned on or before August 8.

(Aug. 1.) FRANK H. HOLT, M. D.,
 Acting Superintendent.

CITY OF BOSTON.

NOTICE TO ELECTRICAL CONTRACTORS.

Trustees of the Boston City Hospital invite sealed proposals for changes and additions to electric wiring of East and West Pavilions, Domestic and Laundry Buildings, South Department, and giving bond of a surety company therefor in the sum of 25 per cent of proposal. Only proposals obtained at the office of the architect, signed by the bidder, and left before 12 noon of August 12, 1914, at the office of the trustees, with a certified check for \$200, payable to the city if the proposal is not carried out, will then and there be read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time mentioned for the opening of bids. The trustees reserve the right to reject any or all proposals. A deposit of five dollars will be required for each set of complete drawings and specifications taken for estimating purposes from the office of the architect, Joseph McGinniss, 112 Water street, and obtainable at said office on August 5, 1914, such sum to be refunded provided the drawings are returned on or before August 8, 1914.

(Aug. 1.) FRANK H. HOLT, M. D.,
 Acting Superintendent.

CITY OF BOSTON.

PROPOSALS FOR FURNISHING AND LAYING ASPHALT OR BITULITHIC PAVEMENT IN ST. FRANCIS DE SALES STREET, ROXBURY.

The Commissioner of Public Works of the City of Boston, office 49 City Hall, invites proposals for furnishing and laying an asphalt or bitulithic pavement in St. Francis de Sales street, from Cabot street to Roxbury street, Roxbury, and giving bond therefor of a surety company approved by the commissioner in the sum of one thousand dollars (\$1,000), to secure the due performance of the contract and the full protection of the city. Only proposals obtained at said office, filled out, signed by the bidder, and left at Room 62, fifth floor, City Hall, before 12 o'clock m. of Monday, August 10, 1914, with a certified check for five hundred dollars (\$500), payable to and to be the property of the city if the proposal is not carried out, will at said hour and place be publicly opened and read. The proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. The contractor will furnish his own specification and attach same to the proposal. The commissioner reserves the right to reject any or all proposals or to award the contract as he may deem in the best interests of the city. If the price of any item appears to the commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The proposals should be inclosed in an envelope, sealed, and marked "Proposal for Asphalt or Bitulithic Pavement, St. Francis de Sales Street."

L. K. ROURKE,
 Commissioner of Public Works.
 Boston, July 30, 1914. (Aug. 1.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announce an open competitive examination for chief, section of derived products, for men only, on August 3, 1914. From the register of eligibles resulting from this examination, certification will be made to fill a vacancy in this position in the Forest Products Laboratory, Forest Service, Madison, Wis., at a salary of \$3,000 to \$3,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will consist of the direction of investigations in the utilization of woods, and particularly of various forms of wood waste, by distillation and other chemical processes, including the production of naval stores, of hardwood distillates, and of ethyl alcohol. Personal investigation in some one of these fields will be part of the work, and general advice on all of the investigations and activities of the laboratory involving chemical methods or processes, will be required.

The commission announce that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announce an open competitive examination for chemical engineer, for men only, on August 3, 1914. From the register of eligibles resulting from this examination, certification will be made to fill a vacancy in this position in the Bureau of Mines, Department of the Interior, for service at Pittsburgh, Pa., at a salary ranging from \$2,400 to \$4,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to conduct investigations in applied physical chemistry in its relation to fuels, oils and gases.

The commission announce an open competitive examination for assistant in farm management, for men only, on August 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be to conduct investigations concerning the relation of farm enterprises to geographic factors. It is desired to secure applicants experienced in field investigations, in collecting data, and in classifying and filing material collected.

The commission announce an open competitive examination for marketing specialist, for men only, on August 3, 1914. Two registers of eligibles will be established from this examination. From Grade 1, certification will be made to fill a vacancy in the Office of Markets, Department of Agriculture, at a salary of \$2,500 to \$3,000 a year, and from Grade 2, to fill a vacancy in the same office at a salary from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will be to supervise or to assist in investigations in every branch of the live stock marketing business, and in the marketing and distribution of all kinds of meat products.

The commission announce an open competitive examination for organic chemist, for men only, on August 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., and a vacancy in the Hygienic Laboratory, Public Health Service, Washington, D. C., at salaries ranging from \$1,800 to \$2,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position in the Bureau of Chemistry will consist of investigations in problems of organic chemistry relating to agriculture and the administration of the Food and Drugs Act in the Bureau of Chemistry. It is desired to secure persons having a thorough training in organic chemistry and in exact analytical chemistry. Physical chemistry, biological chemistry, particularly as applied to foods, drugs, bacteria, fungi and agricultural plants are desirable qualifications.

The duties of the position in the Hygienic Laboratory will be to assist in and to undertake original investigations in synthetic organic chemistry.

The commission announce an open competitive examination for assistant engineer of mine tests, for men only, on August 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Mines, at Pittsburgh, Pa., at a salary ranging from \$1,800 to \$2,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to make tests and compute and discuss the results thereof relative to the supporting power of mine roof material, mine pillars, hauling and hoisting cables or other material pertinent to mining.

The commission announce an open competitive examination for junior zoologist, for men only, on August 5, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Animal Industry, Department of Agriculture, Washington, D. C., at a salary of \$1,400 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The duties of this position will be laboratory and field work in the investigation of animal parasites and routine work carried on in the Zoological Division of the Bureau of Animal Industry.

The commission announce an open competitive examination for inspector of musical instruments, for men only, on August 5, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,200 per annum in the Quartermaster Corps, Philadelphia, Pa., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for teacher of housekeeping, for women only, on August 5, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position at salaries ranging from \$600 to \$720 a year, in the Indian Service, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for physician, for both men and women, on August 5, 1914. From the register of eligibles resulting from this examination certification will be made to fill the vacancies in the positions mentioned below, and vacancies as they may occur in all branches of the service except the Philippine, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The existing vacancies are as follows:
One physician (male), Fort Peck Agency, Montana, Indian Service, \$1,100 per annum.

One physician (male), Klamath Agency, Oregon, Indian Service, \$1,000 per annum.

One physician (male), Pueblo Day Schools, Albuquerque, New Mexico, Indian Service, \$1,000 per annum.

Two acting assistant surgeons (female), Ellis Island, New York, Public Health Service, \$150 a month each.

Qualified men have an excellent opportunity for appointment to the Indian Service as a result of this examination.

Female acting assistant surgeons in the Public Health Service are to be employed in connection with the examination and care of a large number of alien women and children arriving at Ellis Island. Others may be needed in connection with the investigation of sanitary conditions in New York carried on by the Public Health Service.

The commission announce an open competitive examination for laboratory apprentice, for men only, on August 5 and 6, 1914, at the places mentioned in the list printed hereon. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at salaries of \$480 per annum in the Bureau of Standards, Department of Commerce, and vacancies as they may occur in positions requiring similar qualifications, at entrance salaries ranging from \$480 to \$540 per annum, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

As an insufficient number of eligibles were obtained from the examination for this position held on April 8 and 9, 1914, qualified persons are urged to enter this examination.

Two days will be required for this examination.

The commission announce an open competitive examination for heating and ventilating engineer, for men only, on August 5 and 6, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at \$1,800 a year in the United States Military Academy, West Point, N. Y., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The appointee should be thoroughly familiar with direct and indirect heating of large buildings; the thermograde and thermostat systems of regulation; the operation of motor-driven fans; steam fitting; regulation of reducing valves, steam traps, etc.

The commission announce an open competitive examination for domestic science teacher, for women only, on August 6 and 7, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Indian Service at salaries ranging from \$600 to \$720 a year, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for statistical expert, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be general administrative charge of the field agents and of the tabulating force of the Bureau, and will require knowledge of statistics, statistical methods and the technic of field investigation.

The commission announce an open competitive examination for social service expert, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will be the investigation of such subjects as juvenile courts, desertion, orphanage and relevant legislation, with studies of the special groups known as the dependent, the delinquent and the defective, and of public and private provisions for recreation.

The commission announce an open competitive examination for expert on sanitation, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,800 a year, and vacancies as they may occur in positions

requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will be to act as adviser of the Bureau in matters requiring knowledge of hygiene and in cooperation with other experts to conduct investigations into dangerous and injurious occupations, the social factors responsible for high infant mortality and other matters involving health.

The commission announce an open competitive examination for motor car mechanic and driver, for men only, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Office of Public Roads, Department of Agriculture, for duty in the field, at a salary of \$1,200 a year, and vacancies as they occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to maintain and operate a dynamometer car, and to perform work in the instrument shop and testing laboratory in the Office of Public Roads.

The commission announce an open competitive examination on August 10, 1914, for marketing specialist (cottonseed and its products), for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Office of Markets, Department of Agriculture, Washington, D. C., at a salary ranging from \$2,280 to \$2,760 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be the supervision and conduct of investigations of all handling and marketing processes and of the utilization of cotton seed and its products, from the gin to the manufacturer and consumer. It will include studies looking to the establishment of standards and grades, supervision of experimental crushings, and the collection of information necessary for the successful organization and operation of cottonseed oil mills by cooperative producers.

The commission announce an open competitive examination for mechanic, for men only, on August 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$900 a year in the Bureau of Standards, Department of Commerce, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Persons appointed as a result of this examination will be employed in the machine shop of the Bureau where high-grade scientific apparatus and instruments are produced. This position has opportunities for advancement to higher grades of instrument making as experience and fitness may qualify.

The commission announce an open competitive examination for highway bridge engineer and junior highway bridge engineer, for men only, on August 19, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in these positions in the Office of Public Roads, Depart-

ment of Agriculture, for duty in the field, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The salary of the position of highway bridge engineer ranges from \$1,500 to \$1,800 a year, and the salary of junior highway bridge engineer from \$960 to \$1,200 a year.

The duties of these positions will involve the making of surveys of bridge sites, superintending the construction and inspection of highway bridges and the design and preparation of plans for highway bridges.

The commission announce an open competitive examination for special agents and research assistants, for both men and women, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in these positions in the Children's Bureau, Department of Labor, at salaries ranging from \$1,200 to \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of special agents will be mainly in the field to collect data for use in the preparation of reports. At the outset most of them will be assigned to investigations into the social factors responsible for the high infant mortality, but a few will be engaged on subjects connected with the employment of children. In the infant mortality work the agents interview the mothers in their homes to get the data called for by the schedule.

The duties of research assistants will be mainly in the Washington office, studying existing material bearing on the subjects being investigated by the Bureau and preparing reports and sections of reports.

The commission announce an open competitive examination for engineer, for men only, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Indian Service at the Sac and Fox Sanatorium, Iowa, at \$900 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

For the vacancy at the Sac and Fox Sanatorium, Iowa, examination in Branches 1 and 2 is required. The eligibles certified for this vacancy must be unmarried.

Owing to the widely varying conditions in the various schools and agencies of the Indian Service, general engineering examinations will be given under the following separate branches: Steam engineering, electrical engineering, heating, refrigeration, gas and gasoline engines and hydraulics. An applicant may take one or more than one of these in his discretion. The prospects of appointment will be increased by successfully passing more than one of the branches indicated. Applicants should fully indicate in their applications the particular branch or branches in which they desire to be examined and should state as definitely as possible the experience they have had which would tend to qualify them in the branches selected.

Salaries, \$480 to \$1,000 per annum. The majority of the appointments, however, are made at salaries of \$750, \$840 and \$900 per annum.

The commission announce an open competitive examination for junior fuel engineer, for men only, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Mines, Washington, D. C., at salaries ranging from \$1,200 to \$1,500 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

As an insufficient number of applications were filed for the examination for this position announced to be held on June 3 and 4, 1914, qualified persons are urged to enter this examination.

Two days will be required for this examination.

The duties will be to assist in tests of boiler and other furnaces, of auxiliary equipment affecting efficiency in the use of fuels, investigation of fuel-burning methods and machinery, inspecting and sampling fuel, and the compilation of data and making reports.

The commission announce an open competitive examination, on August 24, 1914, for telephone lineman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Life-Saving Service, at \$85 a month, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The person appointed to this position will be subject to assignment at any point on the Atlantic, Pacific or Lake coast.

The commission invites attention to the open competitive examination for junior chemist, for both men and women, scheduled to be held on September 9 and 10, 1914. In addition to vacancies in positions in the Bureau of Chemistry, Bureau of Mines, Bureau of Soils and Bureau of Standards, to be filled from the register of eligibles resulting from this examination, it is expected to fill vacancies in the position of junior chemist in the Bureau of Animal Industry and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary for these positions ranges from \$1,000 to \$1,440 a year, but persons showing in the examination that they are unusually qualified are occasionally appointed at higher salaries, not to exceed \$1,740 a year. Certification to fill vacancies in positions paying more than \$1,440 will be made only from those attaining the highest averages in the examination.

The following vacancies in such positions exist at the present time:

One junior chemist, qualified in biological chemistry, Bureau of Animal Industry, Washington, D. C., at \$1,200 a year.

One junior chemist, qualified in biological chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,620 a year.

One chemist, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,440 a year.

Two chemists, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,620 to \$1,740 a year.

WATER CONSUMPTION AT FIRES.

For the purpose of making a careful study of the water requirements during fires in Massachusetts cities, Mr. Francis F. Longley, of the firm of Hart & Whipple, consulting engineers, New York City, has been in Boston and visited the scenes of the recent fire at Salem.

Mr. Longley, after his return from Salem, said:

"The fire at Salem burned over an area of more than 250 acres, approximately one-third of the area of the city. The estimated fire loss was \$20,000,000, and the assessed valuation of the city is about \$42,000,000. Only a few lives—about five—are known to have been lost during the fire.

"The fire broke out at about 1.45 p. m. of June 25. Aided by a high wind, the fire spread very rapidly. Within three-quarters of an hour or an hour sparks had kindled other fires as far away as one and a half or two miles and the blaze was beyond control. The entire Salem Fire Department was, of course, in service at once, and apparatus from numerous other cities was soon on the way. From such records as are available there were, in all, about twenty-four engines in service during the fire.

"The Salem pumps were at once called upon for their maximum output, which was about 9,500,000 gallons per day, and with this quantity and the numerous engines at work at the fire, the pressure in Salem dropped off rapidly. At 3.30 p. m. a connection was made with a 16-inch main from the Peabody supply. This connection was on until 3 o'clock the following afternoon. The superintendent of the waterworks at Peabody estimated that water was delivered into the Salem main from Peabody at a rate of 8,000,000 gallons per day. The pump record and reservoir record substantiated this estimate. At 8 p. m. a connection was made with the Danvers supply, which was kept on until 11 a. m. the following day. At about 9 or 10 p. m. of June 25 connections were made with the Beverly mains, which were on until 1 p. m. the following day. The estimated rate of flow from Danvers was about 4,700,000 gallons per day, and from Beverly about 3,600,000 gallons per day. A connection was also made with a

main from Marblehead, but was closed again within half an hour.

"The service reservoir of Salem was shut off entirely during this period to enable the pumps to operate at a slightly higher pressure. The accompanying diagrams show the water quantities, the estimated aggregate rate of supply, the water pressure by a recording gauge in the water department office and the estimated pressure above the same base at the Salem pumping station.

"The normal working pressure in Salem, as measured at the water department office, is about 45 pounds. Before the Danvers connection was made the pressure on the Danvers 8-inch main was 93 pounds and in the Salem main, near the connection, 20 pounds. After opening, the pressure on the Danvers main dropped to about 50 pounds.

"The average consumption in the city of Salem is normally only little more than 4,000,000 gallons per day. The maximum rate, from the best information obtainable, is about 6,500,000 gallons per day; the minimum is perhaps 2,000,000 gallons per day. The diagram showing the estimated aggregate rate of supply indicates that for a period of more than twelve hours during the fire water was used at a rate of 25,000,000 gallons per day.

"There were no breaks in the mains to interfere with the use of the system during the height of the fire. After the fire was well under control and the pressure conditions were coming back to normal a break occurred in a 12-inch cement pipe on Front street. This was promptly shut off and did not interfere in any way with fire protection.

"The population of Salem at the last census was about 46,700; it is now probably about 50,000. By the conventional rule, about 7,000,000 gallons per day should be sufficient for fire service. Adding to this the maximum rate previously stated, of 6,500,000 gallons, gives a total of 13,500,000 gallons per day. The lesson that this seems to teach is that the quantity to be provided by that rule may not be more than about one-third to one-half, enough to take care of such a serious conflagration as the one which devastated the city of Salem."

PROCEEDINGS OF CITY COUNCIL.

Thursday, July 23, 1914.

Meeting of the City Council, held in the Council Chamber, City Hall, at one o'clock p. m., for the purpose of drawing jurors, a quorum being present.

Coun. WOODS, senior member present, called the meeting to order, and on motion of Coun. WATSON was unanimously elected President *pro tem*.

Jurors were drawn as follows in accordance with law:

Forty-one traverse jurors, Superior Criminal Court, to appear August 5, 1914:

William L. McElhenney, Ward 3; George I. Francis, Ward 20; Edward P. Denn, Ward 24; Seydney Wadman, Ward 15; Irving G. Robertson, Ward 7; Michael J. Gallagher, Ward 21; James F. McCarthy, Ward 20; Joseph S. Cheatham, Ward 17; Joseph M. Patten, Ward 21; Eric W. Nelson, Ward 23; Junius Walden, Ward 18; John F. Cody, Ward 6; William Barrett, Ward 24; Alanson L. Daniels, Ward 11; Abraham Pereira, Ward 12; Francis F. Blake, Ward 11; Frank J. Welch, Ward 5; Jacob Kaufman, Ward 20; John Connolly, Ward 12; Joseph A. Cotter, Ward 21; William M. Wescott, Ward 21; James Brett, Ward 3; John E. Cook, Ward 23; Ernest L. Stelle, Ward 22; Joseph H. Smith, Ward 25; Albert Rosenberg, Ward 12; John R. Burns, Ward 16; George W. Parsons, Ward 23; Henry N. Barrett, Ward 20; John H. McDevitt, Ward 21; William Pohl, Ward 9; Joseph M. Barry, Ward 16; Raymond E. Valignet, Ward 10; Charles F. Onthank, Ward 1; Alfred A. Bligh, Ward 22; Peter K. Webster, Ward 1; Winfield S. Parks, Ward 12; James A. Kelly, Ward 12; John C. Roche, Ward 7; Hugh F. Kelley, Ward 15; Carl M. Mitchell, Ward 23.

Adjourned at 1.23 p. m.

Monday, July 27, 1914.

Special meeting of the City Council, held in the Council Chamber, City Hall, at three o'clock p. m., Coun. Ballantyne, senior member, in the chair. Absent—Coun. Collins, Kenny, McDonald.

Coun. BALLANTYNE—The question now comes on the election of a President *pro tem*.

On motion of Coun. ATTRIDGE the roll was called and Coun. Ballantyne was elected unanimously as President *pro tem*.

The Clerk read the call for the meeting as follows:

City of Boston,
Office of the City Clerk, July 23, 1914.

To the City Council:

I have this day received the following telegram:

Washington, D. C., July 22, 1914.

James Donovan, City Clerk:

Will you please call a special meeting of the City Council for Monday, the 28th, for purpose of considering the taking of additional park land adjacent to Forsyth Dental Infirmary, additional appropriation for City Hospital and such other matters as may come before the body.

JAMES M. CURLEY, Mayor.

In accordance with the foregoing, you are hereby requested to assemble in the Council Chamber, City Hall, on Monday, July 27, 1914, at three o'clock p. m., for the purpose of considering the following matters: The taking of land adjacent to the Forsyth Dental Infirmary; asking an additional appropriation for the City Hospital and such other matters as may come before you.

Respectfully yours,

JAMES DONOVAN, Acting Mayor.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

C. A. Williamson, to be paid for damages to brick wall rear 604-608 Columbus avenue, by a city ash team.

Antonio Capelli, for compensation for injuries caused by a city automobile.

William J. Hammond, M. D., for compensation for damages to automobile by an auto in use by the Schoolhouse Commission.

Annie Bonito, for compensation for damages caused by the shutting off of water at 84 Paris street, East Boston.

Williams Brothers, for compensation for damages at corner of Chelsea and Prospect streets, Charlestown, by leak in water main.

D'Arcy & Sons Company, for compensation for damage to property by flooding from a hydrant.

Charles J. Fitzgerald, for compensation for injuries caused by a hydrant cover.

Executive.

Petitions for permits to sell, rent or lease fire-arms at certain locations, viz.:

L. Segal, 184 Hanover street, Ward 6.

Klein & Pearlstein, 21 Beach street, Ward 7.

Resnick & Levine, 364 Hanover street, Ward 6.

STORAGE OF EXPLOSIVES.

Notices were received from the following-named parties of storage of explosives at the hereinafter

named places, and of intention to use said premises for the ensuing year:

Joseph Neustadt, 95 Savin street.

Joseph Kalman, 361 Chelsea street, East Boston.

William L. Devitt, 142 Rosseter street, Dorchester.

Clifford D. Gay, 365 Walnut avenue, Ward 21.

Hudson & Dolan Sales Company, 1112-1116 Boylston street.

Dahlquist Manufacturing Company, 36-40 West Third street.

Christian Science Board of Directors, rear 54 Norway street, Ward 10.

Capitol Oil Company, South bay.

J. A. Dowling, corner Commonwealth and Harvard avenues.

Placed on file.

NOTICE OF HEARING.

Notice was received from the Port Directors of hearing on July 23, at 9.15 o'clock a. m., on petition of Alger Land Trust for license to fill solid in South bay.

Placed on file.

APPOINTMENT OF PROBATION OFFICER.

A communication was received from Edward L. Logan, special justice Municipal Court of South Boston, asking that the salary of James F. Gleason, appointed as probation officer in said court, be approved, said appointment having been made by Judge Joseph D. Fallon June 26, 1914.

Referred to the Committee on County Accounts.

CITY BUILDING LIMITS.

The following was received:

City of Boston,
Law Department, July 27, 1914.

To the Honorable the City Council:

Gentlemen,—In reply to your request for an opinion as to the power of the City Council to curtail the building limits of the City of Boston as previously established by the statutes and ordinances, I respectfully submit the following:

The authority given by the city, as shown by a series of statutes, is to extend the area of existing limits, or to add new areas, and not to curtail limits already established by ordinance and recognized by statute. If, however, since the passage of the last statute, which is now in effect recognizing established building limits, an ordinance should be passed extending said limits or defining new areas as within the limits, this ordinance may be repealed. To illustrate: Chapter 4 of the Ordinances of 1913 extending the building limits, and the ordinances subsequently passed postponing the time when said chapter 4 was to become effective, may be repealed by ordinance passed and approved prior to but not after October 7, 1914, the date when chapter 782 of the Acts of 1914 amending the city building laws will take effect.

Yours truly,

JOHN A. SULLIVAN, Corporation Counsel.

Referred to the Executive Committee.

CONGRESS OF AMERICAN PRISON ASSOCIATION.

The following was received:

Commonwealth of Massachusetts,
Prison Commissioners,

Boston, July 23, 1914.

To the City Council of the City of Boston:

Gentlemen,—I write to call your attention to the Congress of the American Prison Association, which will hold its sessions at St. Paul, Minn., October 3 to 8 of this year.

The sessions are attended by many of the foremost prison men of the United States and Canada, and afford an unexcelled opportunity for an exchange of views and experiences.

In connection with the general organization there are sections made up of members of managing boards, wardens, physicians, chaplains, probation officers, etc., which each hold special meetings for the consideration of matters of peculiar interest to their members.

The county prisons of Massachusetts have not been extensively represented in the past, and the benefits which would otherwise accrue have been lost to the service. In case that one member of the managing board and the master of each of the county prisons of any particular degree of importance were delegated to attend the next congress, I feel assured that the expense would be clearly justified in the valuable return that would be realized.

I therefore submit this letter for your consideration.

Yours respectfully,

FRANK L. RANDALL, Chairman.

Placed on file.

CLERK HIRE.

W. T. A. Fitzgerald, Register of Deeds, submitted a statement in accordance with the provisions of section 33, chapter 22, of the Revised

Laws, certifying that certain persons had been employed in his office from June 22 to July 27, and that work had been performed to the amount of \$4,364.56.

Approved and ordered paid.

UNFINISHED BUSINESS.

President BALLANTYNE called up unfinished business, viz.:

1. Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to make the following transfers:

From the appropriation for Street Lighting Equipment to the appropriation for Hospital Department, Coal Pocket.....	\$95,000 00
From the appropriation for Street Lighting Equipment to the appropriation for Hospital Department, Fireproof Storage Building.....	3,000 00
Total.....	\$98,000 00

The order was given its final reading and passed, yeas 6.

2. Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer the sum of \$198,411.48 from the appropriation for Street Lighting Equipment to an appropriation for Boston Infirmary Department, Long Island Improvements.

The order was given its final reading and passed, yeas 6.

3. Ordered, That there be allowed and paid to John L. Ames the sum of twenty-five dollars for medical attendance at Charles Street Jail, on December 20, 1911, said sum to be charged to the appropriation for County of Suffolk, Jail.

(Recommended by the Law Department.)

The order was passed.

4. Ordered, That there be allowed and paid to David D. Brough the sum of \$37.50 for medical attendance at Charles Street Jail on December 20, 1911, said sum to be charged to the Appropriation for County of Suffolk, Jail.

(Recommended by the Law Department.)

The order was passed.

Action on appointments submitted by the Mayor, July 13, 1914, viz.:

5. Walter G. Moffett (194 Hillside street) to be a Measurer of Leather; John Bogan (570 Canterbury street) to be an Inspector of Pressed or Bundled Hay and Straw; Michael Quinn (250 Freeport street), Harry E. Adams (63 University road, Brookline), John Joseph Lavin (68 Whitney street) and George T. Smith (118 Cambridge street, Charlestown) to be Weighers of Coal, and Edward P. Morrison (22 Union street, Watertown), employed by the Boston & Albany Railroad Company, to be a Measurer of Wood and Bark, a Weigher of Coal, a Measurer of Grain and a Weigher of Boilers and Heavy Machinery, for the term ending April 30, 1915.

6. Daniel P. Sullivan (4 Florida street, Ward 24) and Lewis W. Leary (292 Columbus avenue, Ward 10) to be Constables in the City of Boston for the term ending April 30, 1915.

The question came on the confirmation of Nos. 5 and 6. Committee—Coun. Attridge and Watson. Whole number of ballots cast 5, yeas 5, and the several appointments were confirmed.

ABOLITION OF TUNNEL TOLLS, EAST BOSTON.

Coun. ATTRIDGE offered an order—That his Honor the Mayor be requested to take the necessary steps to secure from the holders of the bonds issued to pay for the construction of the East Boston Tunnel their consent to a waiver of the pledge expressed on the face of the said bonds as one of the terms thereof, to the effect that the whole amount of the tolls collected from persons passing through said tunnel should be used to meet the principal and interest of the said bonds, and shall also secure for the city a release from the said pledge.

And be it further ordered, That his Honor the Mayor be requested to submit to the City Council an appropriation of \$125,000, to be added to the rental received from the Boston Elevated Railway Company, for the lease of the East Boston Tunnel, as provided for in chapter 667 of the Acts of 1913, which was accepted by the voters at the city election of this year.

The order was declared referred to the Executive Committee.

Coun. ATTRIDGE—Mr. President, I move reconsideration of the reference. I had intended to say a word in regard to the order before it was referred. I am perfectly willing that it should be sent to the Executive Committee so that the members of the Council can give it some discussion and consideration. The Legislature of last year passed an act, chapter 667, approved May 16, 1913, which was entitled, "An Act to authorize the City of Boston to appropriate money to be added to the rental of the East Boston Tunnel." As the act is a short one I will read it so that it may be incorporated in the records:

"Sec. 1. The City of Boston may appropriate from the tax levy each year until the tenth day of

June, 1922, the sum of \$125,000 to be added to the rental received from the Boston Elevated Railway Company for the lease of the East Boston tunnel. Provided, that the holders of the bonds issued to pay for the construction of said tunnel consent to a waiver of the pledge, expressed on the face of the said bonds as one of the terms thereof, to the effect that the whole amount of the tolls collected from persons passing through said tunnel shall be used to meet the principal and interest of the said bonds, and shall release the city from the said pledge.

"Sect. 2. This act shall be submitted to the voters of the City of Boston at the next city election and the vote shall be in answer to the following question to be placed upon the ballot: 'Shall the City of Boston be authorized to appropriate money to be added to the rental of the East Boston tunnel?', and this act shall take effect if a majority of the voters voting thereon vote in the affirmative."

This act was submitted to the voters at the last city election in January of this year and it was approved by the voters of the city, those in favor to the number of 35,121, and those opposed to the number of 26,588. I have introduced the order so that the members of the Council can take some action, affirmative or otherwise, before the assessors announce the tax rate, because under this particular act the city may appropriate the money from the tax levy each year. And I now withdraw my motion for reconsideration, Mr. President, and trust that the matter will be discussed in the Executive Committee.

The order was referred to the Executive Committee.

MONEY FOR GRANOLITHIC SIDEWALKS

Coun. ATTRIDGE offered an order—That his Honor the Mayor be requested to send to the City Council an appropriation of one hundred thousand dollars (\$100,000) for granolithic sidewalks.

Coun. ATTRIDGE—Mr. President, I have just one word to say in regard to this order. The Mayor sent in some time ago a loan order for \$100,000 for granolithic sidewalks in the City of Boston. The Council, after a discussion of the order, rejected it. And it was my impression that most or all of the members of the Council believed that the city should build more granolithic sidewalks in the suburbs. At our last meeting this Council transferred to the Reserve Fund the sum of \$147,708.72, which money was received from the School Department. With the money in the Reserve Fund on hand to date the total amount in the Reserve Fund with the school appropriation is \$305,310.36, and it may be possible for this Council to get the Mayor to send in at this time an appropriation of \$100,000 for granolithic sidewalks, especially in view of the fact that the School Committee did not use the \$147,000, but returned it to the Mayor to be transferred to the Reserve Fund, and which can be used for any purpose the Council and Mayor see fit under the law.

Coun. WOODS—Mr. President, I would like to have that referred to the Executive Committee because we don't know what he plans to do or how much he is going to take out of the Reserve Fund for the City Hospital.

President BALLANTYNE—The question comes on motion of Coun. Woods.

Coun. ATTRIDGE—I quite agree with the gentleman on the other side of the Chamber, that the order should be referred to the Executive Committee, and it was my intention that the order should be so referred, and I have no objection.

President BALLANTYNE—The question comes on the motion of Coun. Woods that the matter be referred to the Executive Committee.

The order was referred to the Executive Committee.

BELL RINGING, HOLIDAYS.

Coun. WATSON offered an order—That until otherwise ordered his Honor the Mayor be requested to cause the bells to be rung at nine o'clock in the morning, at noon and at sunset, on Lincoln's Birthday, Washington's Birthday, Evacuation Day, Patriots' Day, Seventeenth of June, Fourth of July, Labor Day, Columbus Day, Thanksgiving and Christmas and at midnight on New Year's Eve, the expense attending the same to be charged to the appropriation for City Council, Incidental Expenses.

The order was declared referred to the Executive Committee.

Coun. WATSON—Mr. President, I move a reconsideration while I say a word on the order, if I may. I presume the order, Mr. President, reads rather peculiarly to some members in view of the fact that it goes back to Washington's Birthday of this year. Now, heretofore, an order has been introduced, early in the year, providing for the ringing of bells. Last year an order was introduced. It read in substance that until further ordered the bell be rung on state holidays, and the same be paid for out of City Council, Incidentals. This year no such order has been introduced, and the auditor claims that the order of last year, which says, "until further notice," in his opinion does not carry with it sufficient authority for him to audit any bills introduced to pay for the ringing of bells which have already been rung. That will explain the order.

The order was passed.

PETITION CONCERNING CHELSEA LAND.

Coun. BALLANTYNE presented a petition signed by Elizabeth M. J. Haydock and other residents of Chelsea concerning alleged nuisance in vicinity of Crescent avenue and Louis street, Chelsea.

Referred to the Corporation Counsel for opinion on same.

GRANOLITHIC SIDEWALKS, POPLAR STREET.

Coun. BALLANTYNE submitted a petition signed by Mary J. Arnold and others, residents of Poplar street, Ward 23, asking for curbstones and granolithic sidewalks on said street.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted at 3.30 p. m., on motion of Coun. WATSON, to take a recess, subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 4.40 p. m.

APPOINTMENTS BY THE MAYOR.

The following was received:

City of Boston,
Office of the Mayor, July 27, 1914.

To the City Council:

Subject to confirmation by your honorable body, I hereby make the following appointments:

Hector McLean (25 Antium street, Cambridge, Mass.), William Vincent Kenney (11 Waverly place, Newton Lower Falls, Mass.) and Fred B. Riggs (18 Thurston street, Ward 1) to be Weighers of Boilers and Heavy Machinery for the term ending April 30, 1915.

William F. Loughman (153 Milk street, Ward 7), a Weigher of Beef for the term ending April 30, 1915.

Fred B. Riggs (18 Thurston street, Ward 1) and James F. Murphy (295 Kilton street, Ward 20) to be Weighers of Coal and Measurers of Wood and Bark for the term ending April 30, 1915.

William F. Loughman (153 Milk street, Ward 7), a Weigher of Goods for the term ending April 30, 1915.

Respectfully

JAMES M. CURLEY, Mayor

Laid over under the law.

PROPERTY PURCHASE, FENWAY.

The following was received:

City of Boston,
Office of the Mayor, July 27, 1914.

To the City Council:

In order that the property and institution known as the Forsyth Dental Infirmary, located in the Fenway, which is to be devoted to the care of the teeth of the children of Boston, may be protected by healthful and necessary adjacent property, it is imperative that property surrounding this institution be purchased by the city. To this end I respectfully recommend the passage of the accompanying order.

Respectfully,

JAMES M. CURLEY, Mayor.

Ordered, That the sum of one hundred and twenty-five thousand dollars (\$125,000) be and hereby is appropriated, to be expended by the Park and Recreation Commissioners, for park purposes for the purchase of land bounded by Heneiway street, Huntington avenue and the Fenway and the Forsyth Dental Infirmary, containing 43,263 square feet, more or less.

Referred to the Executive Committee.

On motion of Coun. ATTRIDGE the reference was reconsidered and the order was given its first reading and passed, yeas 6.

The order will take its final reading not less than fourteen days from date.

TRANSFER FOR REFUSE STATION.

The following was received:

City of Boston,
Office of the Mayor, July 27, 1914.

To the City Council:

I respectfully recommend the passage of the accompanying order making provision for the transfer of twenty-three thousand dollars (\$23,000) from the appropriation "Everett Street, Brighton," to an appropriation for Refuse Transfer Station, this order to be substituted for order recommended under date of March 7, 1914, for transfer of this amount from "Everett Street, Brighton," appropriation to appropriation for Refuse Transfer Station, Duncan and Ward streets.

Respectfully,

JAMES M. CURLEY, Mayor.

Ordered, That under the provisions of chapter 261 of the Acts of 1893 the City Auditor be and

hereby is authorized to transfer the sum of twenty-three thousand dollars (\$23,000) from the appropriation for Everett Street, Brighton, Property, to an appropriation for Refuse Transfer Station.

Referred to the Executive Committee.

On motion of Coun. WOODS the reference was reconsidered and the order was given its first reading and passed, yeas 6.

The order will take its final reading not less than fourteen days from date.

EXECUTIVE COMMITTEE REPORTS.

Coun. ATTRIDGE for the Executive Committee, submitted the following:

(1) Reports on petitions (referred to-day) for permits to sell, rent or lease firearms at various places—that permits be granted, viz:

L. Segal, 184 Hanover street, Ward 6.

Klein & Pearlstein, 21 Beach street, Ward 7.

Resnick & Levine, 364 Hanover street, Ward 6.

Reports accepted; permits granted on the usual conditions.

(2) Report on order (referred to-day) for abolition of tunnel tolls from the city proper to East Boston—that the order ought to pass.

Report accepted; order passed.

(3) Report on communication from Corporation Council (referred to-day) concerning building limits—that the same be placed on file.

Report accepted; communication placed on file.

(4) Report on order (referred to-day) that the Mayor be requested to recommend appropriation of \$100,000 for granolithic sidewalks—that the order ought to pass.

Report accepted; order passed.

(5) Report on message of Mayor and orders (referred June 8) accepting chapter 263 of the Acts of 1913, and chapter 331 of the Acts of 1914, relative to city building—that the order ought to pass.

Report accepted; order passed.

RESOLUTIONS ON DEATH OF

M. E. INGALLS.

Coun. ATTRIDGE offered the following:

Resolved, That the City Council has heard with regret of the decease of Melville E. Ingalls, formerly President of the Boston Common Council in the year 1870, a former business man of this city.

Coun. ATTRIDGE—Mr. President, I have introduced these resolutions for the purpose of having the City Council of Boston pay some tribute to this man, Melville E. Ingalls, who died a few weeks ago. He was of Cincinnati. He was president of the old Boston Common Council in 1870. As a boy, a young man, he lived in South Boston, and he was honored by the people of that particular section in representing that district in the old Common Council. He left this city and became president of the Big Four Railroad. But during all his time in the West I understand that he did a great deal to further the business interests of this city, and I further understand that he always had the best interests of the city at heart. And I have introduced these resolutions so that the City Council of to-day can pay a slight tribute to one of the former citizens of Boston who was honored by the people of South Boston and honored by the members of the Common Council in 1870. And I trust, Mr. President, that these resolutions will pass to-day by a rising vote.

President BALLANTYNE—The question comes on the adoption of the resolutions.

The resolutions were adopted by a unanimous rising vote.

GENERAL RECONSIDERATION.

Coun. COLEMAN moved a general reconsideration of all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 4.50 o'clock p. m., on motion of Coun. WATSON, to meet on Monday, August 10, at three o'clock p. m.

OUR CORPORATION RETURNS.

Hon. Frank J. Donahue, Secretary of State, reports that the annual returns of corporations show a total of 7,052 certificates of conditions filed, with an authorized total capital stock of \$1,008,968,633. Total assets amount to \$1,487,039,304, and total liabilities \$1,481,840,241.

TESTS AT WATERTOWN.

Watertown arsenal tests made during 1913 include 2,310 gun and ordnance tests and 758 other tests, most of them for private parties, comprising tests of steel columns, comparisons of testing machines and tests of cordage, rope fastening, pneumatic hose, concrete cylinders, slabs, columns, blocks and bricks, wire, shackles and chains.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, AUGUST 8, 1914.

No. 32

City of Boston.

CITY RECORD.

Published weekly under legislative act by the
City of Boston, Mass.

By SUBSCRIPTION \$1.00 Per Year.
SINGLE COPIES 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 23, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 37, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

TO THE BOARD OF HEALTH, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

TO BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, August 10, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LARGE BRIDGE CONTRACT AT TORONTO.

The editor of the *City Record* calls the particular attention of Boston contractors to the fact that the Commissioner of Public Works for the city of Toronto, Canada, will now receive tenders for building a bridge in that city, the estimated cost of which is \$2,500,000. It will be about 1,500 feet long, including approaches, and 86 feet wide. The height above the lowest part of the valley will be 124 feet, and the bridge proper will consist of five arch spans, the longest being 251 feet. The upper deck or level is to carry a double track for electric street railways laid in ballast, two 20-foot roadways and two sidewalks. Provision is to be made for installing, on a lower level,

two lines of railway to connect with a future tube or subway system. The amount of steel required will be about 5,500 tons, and of concrete about 43,000 cubic yards.

BIDS FOR NAVAL SUPPLIES.

The present activity in Army and Navy circles has resulted in the opening of bids for many supplies. The attention of Boston merchants is particularly called to these bids. The Navy Department invites proposals for furnishing the following supplies:

Bids will be received until August 11 for furnishing the following materials. Firms interested therein should make application to the Bureau of Supplies and Accounts, giving the schedule numbers desired: Schedule 7061, Trinidad asphalt. Val-de-Travers asphalt, paving cement, steam-jacketed kettles, white bow lights for motor boats; schedule 7060, direct differential and worm-gear chain blocks, spur-gear chain hoists, hasps with swivel staples, hinges, knobs, locks and latches, sash lifts, padlocks without chain, hoisting rope, plow-steel wire; schedule 7063, fire clay in cloth sacks, clean picked rags, granular sal ammoniac, steel tubing, bar copper, soft copper sheet; schedule 7059, paint drier, whitening; schedule 7057, fans, angle and glove valves and spare discs; schedule 7047, furnishing and installing a 10-ton auxiliary hoist; schedule 7065, field gun shrapnel; schedule 7062, white ash, white cedar, white oak, white pine, yellow pine, merchantable spruce; schedule 7058, steel angles, medium steel.

Bids will be received until August 11 for the following supplies: Schedule 7049, direct differential blocks, empty paint cans, sheathing felt, flake graphite, lubricating graphite, chrome green in oil; schedule 7047, hard red brick; schedule 7052, steel wire brushes, elbows, tees, bushings, brass pipe, wrought pipe; schedule 7048, Douglas fir; schedule 7051, round brass rod, brass sheet, sheet copper; schedule 7050, rolled bronze, sheathing copper, billet steel, medium steel, sheet steel; schedule 7035, water-tight annunciators, general alarm and boat hour gongs, contact makers, electric-whistle outfit, thermostats, transmitter and indicators; schedule 7033, bars and plating, bronze padlocks, sheathing metal, material trucks with trailers; schedule 7034, lathe chucks; schedule 7032, watt-hour meters, engine-driven generating unit.

Bids are invited until August 18 for scoop shovels, schedule 7064.

Tenders will be received until August 25 for evaporated apples, tinned apricots, lima beans, string beans, corned beef, tinned corn, lemon extract, vanilla extract, macaroni, evaporated peaches, tinned peaches, tinned pears, split peas, tinned prunes, tinned salmon, sirup, tea, tinned tomatoes, schedule 7069.

Boston firms desiring to bid should make immediate application to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., and give the schedule number of all bids for information desired, as printed above.

BROADWAY BRIDGE.

By LOUIS K. ROURKE, *Commissioner of Public Works.*

Broadway Bridge extends from the city proper to South Boston, crossing Fort Point channel and the tracks of the New York, New Haven & Hartford Railroad. It is traversed by surface cars of the Boston Elevated Railway Company, and is about 1,100 feet long by 60 feet wide, and except for the draw span it is a deck girder bridge, built in 1901-04.

The draw span at Fort Point channel crosses a single waterway, about 42½ feet wide. The span that has just been replaced was a center bearing iron swing draw, operated by steam, on a masonry foundation, built in 1875, and was about 165 feet long by 60 feet wide. The new draw span, which was opened for travel on Tuesday morning, last, is a center bearing steel swing draw with arms of equal length, operated by electricity, and rests on the old masonry foundation. The draw is about 210 feet long by 60 feet wide, furnishing a roadway 40 feet wide, between curbs, and two sidewalks, having a clear width of about seven feet each. The roadway provides for two surface car tracks and two lines of team travel.

In construction it is of the through truss type, with trusses 44 feet on centers, carrying steel floor beams and steel stringers. On the steel stringers is laid a wooden flooring for the roadway consisting of yellow pine cross-ties laid about two feet on centers on which is laid a course of four-inch plank. On the four-inch plank is placed the wood block pavement of three and one-half inches deep.

The draw is operated by electricity by means of two 20 horse power electric motors and two trains of gears, operating pinions on the circular rack connected to the 40-foot diameter track on the draw foundation. The ends are lifted by means of wedges, operated by electricity, with automatic controlling devices for the motors. A centering device is used for accurately centering the draw when it is within a few inches of the exact center, and consists of a bolt with a roll on the outer end actuated by an air cylinder, the roll engaging in a V casting on the landing.

The bridge was built under a contract with the Boston Bridge Works, Incorporated, dated October 8, 1913. The contract price of the draw superstructure was \$68,459, to which is to be added the cost of electric equipment, machinery and other work paid for on an itemized basis. The total cost of the bridge is estimated at about \$93,000. The contract called for completing the work, without interrupting travel, for a longer period than 90 days, and the work has been prosecuted so vigorously that the draw was closed to travel but 77 days.

The bridge was closed May 17 and opened August 3, 1914.

BOSTON LABOR MARKET.

Walter R. Sears, Superintendent of the Massachusetts Free Employment Office, 8 Kneeland street, Boston, reports that the local labor market for the month of July shows a decrease of 29 per cent in the number of persons called for, and 25 per cent in the number of positions reported filled, as compared with July, 1913. This condition is partly due to the unseasonable weather of the past two months, resulting in a very light demand for help for the summer resorts. Retail trade has also been affected for the same reason. The demand for skilled help is far below normal for this season.

THE LESSON OF THE SALEM FIRE.

By FIRE COMMISSIONER JOHN GRADY.

Early in the afternoon of Thursday, June 25, 1914, the stage was set in the city of Salem, Massachusetts, for a conflagration that was to destroy over one-third of the city, to consume about sixteen hundred buildings, to make homeless approximately fifteen hundred families and to throw out of employment four thousand persons. As the curtain rose, in the foreground might be seen a group of manufacturing buildings, wooden in construction, one of which was four stories in height and 40 by 200 feet in ground area; another, four and one-half stories, 30 by 150 feet in ground area, and a smaller, lower building, 60 by 40 feet. In the larger buildings were housed industries relating to the manufacture of shoes, while in the third or smaller buildings was housed an industry in which celluloid scrap, alcohol and anyl-acetate were used in the manufacture of a preparation for coating leather. In the background, extending to the east, is seen the city of Salem, bisected by the Boston & Maine Railroad running north and south. To the left of the picture is the mercantile section, while in the immediate front and right is the manufacturing and residential sections, more or less intermingled. The construction is largely wooden with hundreds of shingled roofs, which have been baking and drying in the sun for weeks, for no rain has fallen in that time. Dotted here and there throughout the city are engine houses, quattering, all told, four second-size steam fire engines, four hose wagons, one large auto combination, one horse-drawn combination, one aerial ladder truck and one ordinary ladder truck.

At the time the curtain rises, of the twenty-three permanent men of this Fire Department, a scant dozen are on actual duty. The rest are either on day-off or at their meals. About the city are scattered eighty-odd call men.

A flash of flame and a puff of smoke comes from the smaller building in the foreground and almost instantly the building is in flames. In response to the alarm which is immediately sounded, three engines and hose wagons and a ladder truck left their quarters. The first engine company took a hydrant close to the burning building, and before they could get water on the fire they were forced to withdraw the engine and take up a new position.

This, in brief, is the story of the contributing factors at the start of the Salem fire. The reader can picture to himself the same general lay-out in almost any city or town in New England; in some cases, perhaps, picturing more men and apparatus ready to respond, but the picture will be substantially the same in other respects—acres and acres of wooden buildings waiting for just the conditions to send them into smoke.

No one factor can be blamed independently for this conflagration. It was the result of a combination of many factors.

No one has hinted or can truthfully hint that the chief of the Salem Fire Department was not an able official or that his men were not as brave and hardworking as their brothers in other cities. It was not their fault that the City Government, in spite of repeated warnings, had refused to enlarge the personnel of the force. Lulled into security by the fact that time and time again this handful of men, a maximum of twenty-three permanent and eighty call

men, had extinguished without serious extension all the fires which had started in Salem previous to this time, the city fathers failed to heed the warnings of what might come.

The building conditions and the layout of the city cannot be blamed to the present generation, nor to any one past generation. It is simply the thoughtless growth which has characterized all our New England cities. Nothing could have been done except, after a long period of years, to have materially improved or bettered this building and street construction. It was there, and must be made the best of. The same conditions exist to-day in most of our large towns and cities and will exist for many years to come unless visited by a conflagration such as visited Salem.

Within twenty minutes from the rise of the curtain, calls were sent to outside cities and towns for aid, which aid began to arrive shortly after two o'clock and continued through the early evening, so that before the fire had finally been extinguished, or rather, had reached Salem harbor, and found no more material, there were at work twenty-five engines, both steam and gasoline, the former predominating. The out of town apparatus met many obstacles, which would probably be met under similar circumstances to-day almost anywhere in New England. Chief among these obstacles was the lack of fuel for the steam fire engines, horses with which to move them after they were unloaded from special trains on which they reached the city, and the lack of proper hydrant and hose connections. Many of the hydrants in Salem are of the "flush" type and require a portable hydrant or "chuck" which most of the out of town engines, excepting Boston, did not have, with the result that in some cases hours were lost in getting apparatus to work.

And right here may be said a good word for motor propelled apparatus and its value at a time like this. In the first place, it can respond from any distance from which it might reasonably be called, without the necessity of special trains for its transportation, without the necessary but frightful delays incident to their making up and loading of these trains. In the second place, its fuel is so compact that a large supply can be carried and gasoline needed can be obtained at any one of a dozen or more places in any town of reasonable size.

The picture which we have seen is substantially a fireman's standpoint, the same picture we saw at Chelsea, that of the conflagration being confined more or less laterally but mowing a path straight for the water.

It was not, however, a continuous march, but, like Chelsea, it was the "flying brand" conflagration,—those shingled roofs could mean nothing else. It availed little, even if there had been administration and organization to accomplish it, to form a battery of streams across the fire and check its sweep—those flying brands go far above the water and hundreds of them find lodging in gutter, cornice, piazza or projection of the wooden buildings far to the front, and it is not long before there are many fires, each of which eventually develops into a small conflagration.

As a practical matter it is believed that once started, with the condition that existed in Chelsea, and Salem, it is impossible to stop such a fire. In a city the size of Boston, in the Dorchester, Roxbury, or other suburban districts it might be done, in theory at least, by

forming a battery of heavy streams across the front of the fire and sending forward, ahead of the fire, as a line of skirmishers to follow the flying brands, every available ladder truck and chemical engine—but Boston could concentrate from her own resources at least forty engines to form such a battery and could send forward twenty or thirty such skirmishers.

Until the method of construction changes, and that cannot come in our day in sufficient quantity to have any effect, water in immense quantities is the only safeguard, and to get water in such quantities we must have large mains and either a high pressure system or a number of pumping engines entirely out of proportions to the normal demand.

As we look over the scene just before the curtain drops, we see some examples of foresight and realization of conditions—notably the power station of the Electric Light Company and some of the storehouses of the Naumkeag Steam Cotton Company. These buildings were of modern fire resisting construction and stood the test and to-day stand as mute witnesses of the efficiency of concrete, brick, wire glass, sprinklers, etc.

The time will probably come, but long after the oldest living fireman cannot remember having seen horses used to draw fire apparatus, when all our mercantile and manufacturing buildings will be of this construction, and when our dwellings will have nonflammable roofs. The time should come, and come long before horses have ceased to draw apparatus, when we should have a standard hose coupling and hydrant connection, and the time should come, and in not more than a matter of weeks, when every chief should realize that what happened to Spencer and Arnold may happen any day to him. Realizing this, he will get a topographical map of his own town or city, will study it carefully, will plot on it the various buildings of fire resisting construction, the water mains, the worst hazards where the fire is liable to get the jump at the start, and then lay his plans accordingly; not where each engine will be set, but in general where his defence will be and the lines where he can make the best resistance; for when his time comes, it will not be a question of piecemeal fighting; he must make up his mind quickly that he is going to lose a good many buildings, perhaps let them burn while he is placing his apparatus to make a grand stop.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

BOSTON TRANSIT COMMISSION.

Advertises for proposals for building Section D of the Dorchester Tunnel. The section is located in Dewey square and Summer street, and has a length of about 800 linear feet. About one-half of its length is to be built in tunnel excavation and the remainder by open cut. The tunnel portion is to be of reinforced concrete with interior steel columns and beams. Specifications and forms of contract may be obtained at the office of the Commission, 15 Beacon street, Boston. Bids to be filed at the same office.

Bids close Thursday, August 13, at 12 m.

FIRE DEPARTMENT.

Advertises for proposals for alterations to Engine House 41, Brighton district, Boston. Surety bond will be required in the amount of \$2,500. Blank forms for proposals may be obtained at the office of Fire Commissioner Grady, Bristol street, Boston. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 17, at 12 m.

HOSPITAL DEPARTMENT.

Advertises for proposals for erecting and completing alterations and additions to East and West Pavilions, Domestic, Laundry and Nurses' Home Buildings. Surety bond will be required in an amount equivalent to 25 per cent of the contract. Blank forms for proposals may be obtained at the office of Architect Joseph McGinniss, 112 Water street, Boston. Bids, accompanied by a certified check in the amount of \$1,500, to be left at the office of the Trustees, City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, August 12, at 12 m.

Advertises for proposals for changes and additions to the heating of East and West Pavilions, Domestic and Laundry Buildings, South Department. Surety bond will be required in an amount equivalent to 25 per cent of the contract. Blank forms for proposals may be obtained at the office of Architect Joseph McGinniss, 112 Water street, Boston. Bids, accompanied by a certified check in the amount of \$200, to be filed at the office of the Trustees, City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, August 12, at 12 m.

Advertises for proposals for changes and additions to electric wiring of East and West Pavilions, Domestic and Laundry Buildings, South Department. Surety bond will be required in an amount equivalent to 25 per cent of the contract. Blank forms for proposals may be obtained at the office of Architect Joseph McGinniss, 112 Water street, Boston. Bids, accompanied by a certified check in the amount of \$200, to be filed at the office of the Trustees, City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, August 12, at 12 m.

Advertises for proposals for changes and additions to plumbing of East and West Pavilions, Domestic and Laundry Buildings, South Department. Surety bond will be required in an amount equivalent to 25 per cent of the contract. Blank forms for proposals may be obtained at the office of Architect Joseph McGinniss, 112 Water street, Boston. Bids, accompanied by a certified check in the amount of \$300, to be filed at the office of the Trustees, City Hospital. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, August 12, at 12 m.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Advertises for proposals for renewing the wooden flooring on the roadways of the draw span of the Charlestown Bridge over the Charles river. Surety bond will be required in the amount of \$3,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at Room 511, City Hall Annex. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, August 19, at 12 m.

PUBLIC WORKS DEPARTMENT (Paving Service).

Advertises for proposals for bituminous macadam roadway in Pinehurst street, from Belgrade avenue to Dudley avenue, West Roxbury. Surety bond will be required in the amount of \$1,800. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at Room 511, City Hall Annex. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 10, at 12 m.

Advertises for proposals for bituminous macadam roadway in Clement avenue, from Meredith street to Anawan avenue, West Roxbury. Surety bond will be required in the amount of \$2,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at Room 511, City Hall Annex. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 10, at 12 m.

Advertises for proposals for furnishing and laying an asphalt or bitulithic pavement in St. Francis de Sales street, from Cabot street to Roxbury street, Roxbury. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex, Boston. Bids, accompanied by a certified check in the amount of \$500, to be filed at Room 511, City Hall Annex. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 10, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for sewerage works in Vose avenue, Metropolitan avenue, Milton avenue, Washington place and Glenwood place, Hyde Park. Surety bond will be required in the amount of \$2,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at Room 511, City Hall Annex. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, August 12, at 12 m.

Advertises for proposals for pipe and drains in Bellvista road, Brighton, between Woodstock avenue and Allston street; Matchett street, between Washington street and Perthshire road, Brighton. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at Room 511, City Hall Annex. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, August 14, at 12 m.

PUBLIC WORKS DEPARTMENT (Water Service).

Advertises for proposals for the furnishing of all labor necessary for the assembling of 100 6-inch gates. Surety bond will be required in the amount of \$200. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$100, to be filed at Room 511, City Hall Annex. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, August 14, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for erecting and completing fire escapes on the George Bancroft School, Appleton street, Boston. Surety bond will be required in the amount of \$1,200. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street, Boston. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, August 14, at 12 m.

Advertises for proposals for moving various portable school buildings. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street, Boston. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, August 14, at 12 m.

Advertises for proposals for grading addition to the yard of the Phillips Brooks School, Quincy and Perth streets, Dorchester. Surety bond will be required in the amount of \$500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, August 14, at 12 m.

Advertises for proposals for selling to the city, land for elementary school, in Eliot-Hancock Districts, Boston, in territory bounded and described as follows: Beginning at the water end of Haverhill street; thence by the center of Haverhill street to Washington street; thence by the center of Washington street to State street; thence by the center of State street to the water; thence by the water to the point of beginning, and containing 25,000 square feet of land, more or less. A public hearing will be given by the Schoolhouse Commissioners, Tuesday, August 25, at 12 m., at which time the proposals and suitable character of the land will be duly considered.

Bids close Tuesday, August 18, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, August 6, 1914:

FINANCE COMMISSION.

Ann L. Wing has been appointed, at a salary of \$15 a week, as temporary visitor for this commission. Mrs. Wing's appointment takes effect August 3 and is for the period of ten days.

Julia O'Leary, employed as stenographer, will cease work on Saturday, August 8.

FIRE DEPARTMENT.

The Mayor has approved the appointment upon probation in the department of Joseph E. MacDermott and Eugene J. Doherty, at a salary of \$720 the year. These appointments are necessary to fill vacancies in certain companies.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the week ending August 6:

To Fill Vacancies.

Permanent.—Jan Gytuk, house cleaner, \$1 per day; Margaret Clifton, scrubber, re-employed, \$16 per month; Jennie Sullivan, scrubber, \$5 per week; Joseph V. McDonald, orderly, \$25 per month; Daniel J. Lorden, orderly, \$25 per month; Walter J. Swift, orderly, \$25 per month; Harry W. Baker, orderly, \$25 per month; Charles T. Eagan, orderly, \$25 per month; Jennie Fitzgerald, wardmaid, \$15 per month; Francis Shaw, wardmaid, re-employed, \$23 per month; Daniel J. Donovan, engineer, \$150 per month; Lily F. M. Remahl, nurse, re-employed, \$8.33 per month; Alice Chatterton, nurse, re-employed, \$8.33 per month.

Temporary.—Helen Doherty, vegetable cook, \$20 per month; James G. Gill, porter, storeroom, \$30 per month; Ella Craig, table girl, \$16 per month; Harriet M. Goucher, Leonard Morse Hospital nurse, \$9 per month; Marie Katts, cook, \$7 per week.

The following employees have had increase of wages:

Whelma Mikulsky, laundress, \$16 to \$18 per month; Bridget Delancy, wardmaid, \$15 to \$16 per month; George L. Whooley, window porter at \$20 to supply man at \$25 per month; Charles H. Riley, house cleaner at \$1 per day to watchman at \$35 per month; Marion L. Humphrey, head nurse at \$45 to night nurse for Casualty Ward at \$50 per month; Gabriella F. Christian, nurse, \$8.33 to \$12.50 per month; Myra B. Conover, nurse, \$5 to \$8.33 per month; Mary E. Currier, nurse, no pay to \$5 per month; Angelina Reinhardt, nurse, no pay to \$5 per month; Mary A. Doyle, nurse, no pay to \$5 per month; Margaret F. Donovan, nurse, no pay to \$5 per month.

INFIRMARY DEPARTMENT.

The pay rolls of this department for the week ending August 6 show the following changes:

Long Island Hospital.

Temporary Employment.—Frank Rodgers, orderly, \$30 per month.

Increases in Salary.—Annie I. Hartz, nurse, \$10 to \$12 per month; Mary C. O'Keefe, nurse, \$10 to \$12 per month.

LAW DEPARTMENT.

Daniel J. Kane has been appointed as a member of the Law Department, and will

receive a salary of \$2,000 the year. Corporation Counsel Sullivan advises of the necessity of the appointment in the following communication:

CITY OF BOSTON,
LAW DEPARTMENT,
August 4, 1914.

HON. JAMES M. CURLEY, Mayor:

DEAR SIR,—I have this day appointed, subject to your approval, Daniel J. Kane, Esq., to the office of Assistant Corporation Counsel, at a salary of \$2,000 a year, to take effect August 10, 1914.

This appointment is made necessary because of the taking on by this department of the work of investigating claims under an ordinance passed by the City Council May 25, 1914.

Yours respectfully,
JOHN A. SULLIVAN,
Corporation Counsel.

POLICE DEPARTMENT.

Patrolman John C. Williams is hereby transferred from Division 9 to Division 8, to take effect Tuesday, August 4, 1914, at 5.45 p. m.

The resignation of Reserveman Edward V. O'Neil of Division 6 having been presented, it is hereby accepted, to take effect August 6.

General Order No. 879.

Capt. George D. Yeaton having performed faithful service in the Police Department for thirty-two and two-twelfths years has requested to be retired from active service, and it appearing to the Police Commissioner that the said Captain Yeaton is physically incapacitated for useful service in the Police Department, it is hereby

Ordered,—His Honor the Mayor having approved the same, that the said Captain Yeaton be retired from active service and that his name be placed upon the department pension roll with pay at the rate of fifteen hundred (1,500) dollars per annum, being one-half of the amount of compensation received by him in the office from which he is retired; to take effect at 5.45 o'clock p. m., Friday, July 31, 1914.

Captain Yeaton has always been recognized as an officer of unusual ability and intelligence, and the injury received by him in the active performance of his duty not only closes his highly creditable career as a police officer but deprives the department of services of exceptional value.

The Superintendent of Police will promulgate this order.

STEPHEN O'MEARA, Commissioner.

General Order No. 882.

The following promotions and assignments are hereby ordered, to take effect Saturday, August 8, 1914, at 5.45 p. m.:

To the grade of Captain: Lieutenants Patrick F. King and Jeremiah F. Gallivan; both assigned to the Superintendent's office.

To the grade of Lieutenant: Sergeant Joseph F. Hurley to Division 1; Sergeant Harry P. Burns to Division 11.

To the grade of Sergeant: Patrolman William J. Carey of Division 2 to Division 5.

Patrolman Edward J. Murphy of Division 17 to Division 18.

Patrolman John C. E. Clark of Division 11 to Division 10.

Patrolman John T. O'Dea of Division 6 to Division 15.

Patrolman George H. Dickinson of Division 15 to Division 7.

Patrolman Orrington Waugh of Division 12 to Division 17.

Patrolman Norman S. Ramsay of Division 3 to the same division, for the con-

tinued performance of his present special duties and such others as his superior officers shall direct.

Patrolman Patrick J. Fitzgerald of Division 7 to the City Prison.

The assignment of additional sergeants to Divisions 7, 10 and 15 is to be regarded not as permanent but as provision for the temporary needs of those divisions.

The following transfers are hereby ordered, to take effect Saturday, August 8, 1914, at 5.45 p. m.:

Sergeant Patrick J. McDonough from Division 18 to Division 3.

Sergeant Samuel Dunlap from Division 4 to Division 6.

Sergeant Oscar W. Burgess from Division 6 to Division 4.

The Superintendent of Police will promulgate this order.

STEPHEN O'MEARA,
Commissioner.

PUBLIC BUILDINGS DEPARTMENT.

Walter L. Cronin, inspector and clerk of works in the Public Buildings Department, has been granted leave of absence for one year, to take effect August 22, 1914. Mr. Cronin has been requested to accept the position of clerk of works for the Armory Commission on the new State Armory about to be erected.

SCHOOLHOUSE DEPARTMENT.

Commissioner Charles Bruen Perkins has been allowed two months' leave of absence.

SOLDIERS' RELIEF DEPARTMENT.

John D. Connors of the Health Department has been appointed provisionally as a clerk and visitor of the department, subject to the approval of the Civil Service Commission, and compensation will be at the rate of \$1,500 the year.

OVERTIME ALLOWED.

The heads of various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to work more than eight hours per day it has been only in case of emergency under the law.

Election Department.

For the week ending August 6, 1914:

Allan H. Farnham, assistant registrar, 6 hours at \$0.75 per hour, \$4.50; Paul D. Kane, assistant registrar, 6 hours at \$0.75 per hour, \$4.50. Total, \$9.

Hospital Department.

The extra time on the pay roll for the week ending August 6, 1914, is accounted for, viz.:

Main Department.—E. F. Cochrane, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; T. J. McNally, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; W. T. Slater, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; N. MacPherson, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; R. W. Jaeger, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; J. Deery, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50. Total, \$21.

Penal Institutions Department.

For the week ending Thursday, August 6, 1914:

Thomas O'Neil, engineer, 1 day, \$4; Arthur F. Bowes, engineer, 1 day, \$3.46; Lawrence Hackett, engineer, 2 days, \$5.48. Total, \$11.94.

Printing Department.

For the week ending Thursday, July 30, 1914:

George Devlin, caster, 20 hours at \$0.31 per hour, \$6.20; William J. Fitzgerald, caster, 16 hours at \$0.37 per hour, \$5.92; Joseph E. Hart, caster, 20 hours at \$0.43 per hour, \$8.60; Mortimer A. Toomey, caster, 20 hours at \$0.65 per hour, \$13; Lewis G. Smith, chief caster, 20 hours at \$0.93 per hour, \$18.60; Daniel Cadigan, errand boy, 3 hours at \$0.18 per hour, \$0.54; James J. Dolan, apprentice, $\frac{3}{4}$ hour at \$0.25 per hour, \$0.19. Total, \$53.05.

Public Works Department (Ferry Service).

For the week ending Monday, August 3, 1914:

Walter J. Holland, chauffeur, $\frac{1}{4}$ day at \$3, \$2.25.

Public Works Department (Paving Service).

For the week ending Monday, August 3, 1914:

Henry J. O'Neil, inspector, 1 $\frac{1}{2}$ days at \$3.50, \$6.56.

Public Works Department (Sewer Service).

For the week ending Monday, August 3, 1914:

Office.—Michael J. Dagle, inspector, 2 $\frac{3}{4}$ days at \$3.50, \$9.63.

Districts 1, 7 and 8.—Edward J. Ryan, inspector, $\frac{1}{2}$ day at \$3.50, \$1.75; Timothy Reardon, sewer cleaner, 1 $\frac{1}{2}$ days at \$3, \$4.50; Michael Patten, laborer, 1 $\frac{1}{2}$ days at \$2.75, \$4.13; Martin Tynan, laborer, 1 $\frac{1}{2}$ days at \$2.50, \$3.75; Cornelius Sullivan, teamster, 1 $\frac{1}{2}$ days at \$2.75, \$4.13. Total, \$27.89.

Public Works Department (Water Service).

For the week ending Monday, August 3, 1914:

E. Mahoney, teamster, $\frac{1}{4}$ day at \$2.50, \$0.63; J. Mahoney, plumber's helper, 1 $\frac{1}{2}$ days at \$2.50, \$3.75; J. O'Brien, meter setter, $\frac{1}{2}$ day at \$3, \$1.59; M. Welch, plumber, 1 $\frac{1}{2}$ days at \$3.50, \$5.25; John Begley, repairer, 3 days at \$3, \$9; J. J. Breen, laborer, 1 $\frac{1}{2}$ days at \$2.50, \$4.69; D. D. Burke, laborer, 3 days at \$2.50, \$7.50; J. T. Butler, laborer, $\frac{3}{4}$ day at \$2.50, \$0.47; H. Campbell, repairer, 1 $\frac{1}{2}$ days at \$3, \$5.63; John Campbell, repairer, $\frac{1}{2}$ day at \$2.75, \$0.34; M. F. Daley, laborer, 1 $\frac{1}{2}$ days at \$2.50, \$4.69; John Ganley, driller, 3 $\frac{3}{4}$ days at \$2.75, \$9.28; Patrick Heffernan, repairer, $\frac{1}{2}$ day at \$3, \$1.59; Charles Hines, plumber, 3 $\frac{3}{4}$ days at \$3.50, \$11.81; John Hourihan, laborer, 3 days at \$2.50, \$7.50; Alessandro Iula, laborer, 1 $\frac{1}{2}$ days at \$2.50, \$3.75; J. W. Kelly, laborer, 1 $\frac{1}{2}$ days at \$2.50, \$4.69; James Logue, laborer, $\frac{1}{2}$ day at \$2.50, \$1.33; William Lonergan, repairer, $\frac{3}{4}$ day at \$2.75, \$0.52; Thomas McAuliffe, laborer, $\frac{3}{4}$ day at \$2.50, \$0.47; Patrick F. Mullen, inspector, 2 $\frac{1}{4}$ days at \$3.50, \$7.88; J. W. Murphy, laborer, $\frac{1}{2}$ day at \$2.50, \$1.33; William A. O'Connor, inspector, 1 $\frac{1}{2}$ days at \$3.50, \$5.25; Cornelius Sullivan, 2d, laborer, 3 days at \$2.50, \$7.50; Edward Hasenfus, plumber, $\frac{1}{2}$ day at \$3.50, \$0.44; D. F. Lynch, laborer, $\frac{1}{2}$ day at \$2.50, \$0.31; J. Morrissey, plumber, $\frac{3}{4}$ day at \$3.50, \$2.95; Joseph T. Ryan, plumber, $\frac{3}{4}$ day at \$3.50, \$2.30; Hugh Cauley, laborer, $\frac{3}{4}$ day at \$2.75, \$0.52; George Greer, plumber, $\frac{1}{4}$ day at \$3.50, \$0.88; Owen McDermott, laborer, $\frac{3}{4}$ day at \$2.50, \$0.47; John Concannon, laborer, $\frac{1}{4}$ day at \$2.75, \$0.41; John McNulty, laborer, $\frac{1}{4}$ day at \$2.50, \$2.19; Frank Skaynor, laborer, $\frac{1}{2}$ day at \$2.75, \$1.38. Total, \$120.29.

CONTRACTS AWARDED.

The following contracts for work, materials and supplies have been awarded with the approval of the Mayor. Those awarded without public advertisement are specially indicated. Week ending August 6, 1914:

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon August 6 the Mayor approved a contract with the Warren Brothers Company for bitulithic pavement in Clarendon street, between Columbus avenue and Tremont street, city proper. Bids for the work, opened July 17, were as follows:

	Asphalt.	Bitulithic.
Warren Brothers Co.	\$15,257 54	\$15,149 74
John F. Beatty.		15,262 39
James Doherty.	15,345 72	15,287 92
William J. Rafferty Co. . .	15,972 31	15,972 31
Independent Coal Tar Co. .	14,077 06	
Central Construction Co. .	14,891 78	

Contract awarded under item 2, for bitulithic pavement.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon August 6 the Mayor approved a contract with George J. Regan for sewerage works in Rutledge road, between Blake street and Wood avenue, Hyde Park. Bids for the work, opened July 31, were as follows:

George J. Regan, \$2,586; Louis Balboni, \$2,677.25; Antony Cefalo, \$2,890.25; Anthony Baruffaldi, \$2,943.05; Timothy Coughlin, \$2,967; M. De Sisto, \$2,994.44; John Guarino, \$3,099; M. J. McGawley, \$3,100.07; T. J. O'Connell Company, \$3,149.50; Martino De Matteo, \$3,216.77; Thomas H. Corrigan, \$3,257.75; John F. Lynch, \$3,341.90.

Upon August 6 the Mayor approved a contract with Antony Cefalo for sewerage works in Rowe street, between Ashland street and Brown avenue, and outlets at Neponset Avenue Brook conduit, in private land between Mt. Hope street and Hyde Park avenue, West Roxbury. Bids for the work, opened July 27, were as follows:

Antony Cefalo, \$7,431.97; Louis Balboni, \$7,465.55; George J. Regan, \$8,645.65; Martino De Matteo, \$8,707.81; John Guarino, \$9,107.25; Charles J. Jacobs Company, \$9,234.40; M. G. McGawley, \$9,377.89; William L. Dolan, \$9,495.46; M. De Sisto, \$9,537.75; M. H. Kelley, \$10,379.50.

Upon August 7 the Mayor approved a contract with M. H. Kelley for sewerage works in Thompson street, between Warren and Main streets, Charlestown. Bids for the work, opened July 30, 1914, were as follows:

M. H. Kelley, \$278; T. J. O'Connell Company, \$311; Louis Balboni, \$344; John F. Lynch, \$359; Anthony Baruffaldi, \$389.51; John Guarino, \$402.29; John McCourt Company, \$417; James J. Brock, \$505; J. Jacob Kirsis Company, \$522.25; George J. Regan, \$716.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without

advertising; additions to and deductions from contracts: also a contract for sidewalks.

FIRE DEPARTMENT.

The Mayor has approved, by reason of the facts set forth by Fire Commissioner Grady, contracts with The Robinson Fire Apparatus Manufacturing Company of St. Louis, Mo.; The Seagrave Company of Columbus, Ohio; The American and British Manufacturing Company of Providence, R. I.

The communications of Fire Commissioner Grady are as follows:

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 3, 1914.
HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—I respectfully request permission to purchase, without advertising, from the Robinson Fire Apparatus Manufacturing Company of St. Louis, Mo., with a Boston agency at 170 Summer street:

Two 2-wheel, Big-4 type, tractors.

One triple combination pumping engine.

One 65-foot, special, city service ladder truck, all motor driven, and all for the sum of twenty-three thousand seven hundred and fifty (23,750) dollars.

My reasons for requesting permission to make this purchase without advertising are as follows:

1. Motor fire apparatus is neither a standard nor staple product and the lowest bidders are not necessarily the proper ones to accept.

2. The above make of apparatus is of extra heavy construction and with heavy duty motors of greater horse power than has been purchased heretofore. My knowledge and investigation of fire apparatus warrants the conclusion that motor apparatus should be built along these lines.

3. This company is one of the oldest manufacturers of fire apparatus in the country, and has motor apparatus in service in several of the cities around Boston, and this apparatus has been giving excellent service. This department already has purchased from this company two pieces of motor apparatus. In my opinion this car is the most economical that can be purchased for the price.

The financial standing of this company is very good, which is a vital question with fire departments, especially in these days when automobile concerns all over the country are going into the hands of receivers. This company maintains a large and well organized factory.

If this apparatus is purchased it is my intention to install it as follows:

A tractor to be attached to Ladder 14, Fort Hill square, to cover the big mercantile and office buildings in that section of the city.

A tractor to be attached to Ladder 15, Boylston street, to cover the large hotels and apartment houses in the Back Bay and Fenway sections.

The triple combination will be placed in Allston, and the 65-foot city service ladder truck will be installed at Meeting House Hill, to cover a very hilly section of the city.

Yours very respectfully,
JOHN GRADY,
Fire Commissioner.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 3, 1914.
HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—I respectfully request permission to purchase, without advertising, from the Seagrave Company of Columbus,

Ohio, with a Boston agency at the Old South Building, 294 Washington street, one motor driven, 85-foot aerial ladder truck, for the sum of eleven thousand dollars.

I desire to make this purchase without advertising because I am of the opinion that this truck fills the requirements of this department, and motor apparatus is not a standard or staple product, and it does not follow that the lowest bid is the best one to accept. This make of apparatus has been investigated by the Supervisor of Motor Apparatus of this department, and the Advisory Engineer, and they recommend this purchase.

This company is strong financially and maintains a well equipped and well organized factory.

It is my intention, if this piece of apparatus is purchased, to install it at the house of Engine Company No. 41, Harvard avenue, Allston, to cover the large apartment blocks in that section of the city. The necessity of such a piece of apparatus in that locality has been demonstrated more than once.

Yours very respectfully,

JOHN GRADY,
Fire Commissioner.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 3, 1914.
HON. JAMES M. CURLEY,
Mayor of Boston:

DEAR SIR,—I respectfully request permission to purchase, without advertising, from the American and British Manufacturing Company of Providence, R. I., one A and B tractor with supporting frame, to be installed under water tower, and one 1,100-gallon Morse deck gun, all for the sum of fifty-six hundred (5,600) dollars.

I desire to purchase this tractor without advertising for the following reasons:

It is my intention to attach this tractor, if purchased, to water tower No. 2, located in the Headquarters Building. The stalls, woodwork and dangerous stable accessories are being removed from the Headquarters Building in order to make the building as fireproof as possible and thus protect the valuable fire alarm machinery located in it. It will be necessary, therefore, to replace the horses on the present water tower with a tractor. This will, no doubt, result in a saving to the city as the water tower has not very many first alarm runs, yet the cost of maintenance of the horses goes on just the same. The tractor will be an expense only when in actual operation. The work of remodeling the building has almost been finished, and if this department is obliged to advertise for bids for this tractor the installation will be delayed some time, and the efficiency of the company located in this building will be greatly hampered. Motor fire apparatus is not a staple or standard product and the lowest bidder is not necessarily the proper one to accept.

This make of apparatus has been personally investigated by the supervisor of motor apparatus and the advisory engineer of this department and they recommend the acceptance of this proposal. The financial standing of the company is good, and they agree to deliver the apparatus in about ninety days.

Yours very respectfully,

JOHN GRADY,
Fire Commissioner.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states his intention of constructing a sani-

tary sewer of 10-inch earthen pipe in Mascoma street, from Intervale street about 209 feet northeasterly, Dorchester, at an estimated cost of \$840.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 8-inch earthen pipe in Milton avenue, between Reservoir street and the Boston and Milton town line, Hyde Park, at an estimated cost of \$1,683.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 8-inch earthen pipe in Glenwood place, from Washington street southeasterly, Hyde Park, at an estimated cost of \$1,013.

The Commissioner of Public Works states his intention to construct a surface drain of 20-inch earthen pipe in Washington street, from Shepard street about 170 feet southeasterly, Brighton, at an estimated cost of \$510.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 8-inch earthen pipe in Washington place, from Washington street southeasterly, Hyde Park, at an estimated cost of \$968.

The Commissioner of Public Works states his intention to construct a surface drain of 18-inch earthen pipe, three catch basins and connections in Ulmer street, between Minden and Arklow streets, Roxbury, at an estimated cost of \$1,518.

The Commissioner of Public Works states his intention to construct a surface drain of concrete in a taking made by the Board of Street Commissioners in Hyde Park avenue, West Roxbury, at an estimated cost of \$4,050.

The Commissioner of Public Works states his intention to construct a surface drain of 18-inch earthen pipe in Vose avenue, from Beacon street about 120 feet westerly, in the Hyde Park district, at an estimated cost of \$380.

The Commissioner of Public Works states his intention to construct a surface drain of 18-inch earthen pipe, a sanitary sewer of 8-inch earthen pipe and six catch-basins in Metropolitan avenue, between Beacon and Highland streets, Hyde Park district, at an estimated cost of \$5,610.

The Commissioner of Public Works states his intention to construct a surface drain of 18-inch earthen pipe, three catch-basins and connections in Ulmer street, between Minden and Arklow streets, Roxbury, at an estimated cost of \$1,518.

The Commissioner of Public Works states his intention to construct a surface drain of 20-inch earthen pipe in Washington street, from Shepard street about 170 feet, southeasterly, Brighton, at an estimated cost of \$510.

The Commissioner of Public Works states his intention to construct a surface drain of 10 and 12 inch earthen pipe and two catch-basins and a sanitary sewer of 8-inch earthen pipe in Rowe street, between Ashland street and Brown avenue, West Roxbury, at an estimated cost of \$5,497.

SCHOOLHOUSE DEPARTMENT.

By reason of the urgent request of the Boston School Committee for eight additional class rooms in the schools of the Wells and Washington Districts the Mayor has approved, upon request of Chairman Lomasney of the Schoolhouse Department, an extension of the contract with the P. J. Sullivan Company, for heating, in the amount of \$1,590.

The communication of Chairman Lomasney is as follows:

August 3, 1914.

HON. JAMES M. CURLEY, Mayor:

DEAR SIR,—At the Wells Schoolhouse, West End, the firm of P. J. Sullivan Company is performing a contract to replace the old heating and ventilating plant complete, excepting boilers.

The School Committee have requested that eight additional class rooms be furnished for the Wells and Washington Districts about September 9, the date of opening of the schools. As we could not find any private property to lease the Board was compelled to retain four main buildings on the Blossom street land, which was purchased for the new school, in which to locate and build eight class rooms to be used until the new West End school is completed.

These four houses adjoin the Wells School, and our plans provide for heating these temporary rooms from the Wells School heating plant. We therefore request your Honor to authorize this Board to award the contract to P. J. Sullivan Company to perform the extra work of heating the adjoining buildings, in the sum of one thousand five hundred and ninety (1,590) dollars.

Respectfully yours,

J. P. LOMASNEY,
Chairman.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor:

PUBLIC BUILDINGS DEPARTMENT.

An addition of \$242 upon contract with the John F. Griffin Company for erecting and completing Municipal Building, City square, Charlestown. For additional fittings in court room, consisting of bookcase for judges, two additional desks in court room, paneled wood dado for iron grille work in prisoners' dock, additional drawers for clerk of court and filing cabinet for female probationer's office. Original contract, \$106,441; total additions, \$1,683.85; contract as standing, \$108,124.85.

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$20, on contract with James Doherty for bitulithic pavement in Norfolk street, between Washington street and New York, New Haven & Hartford Railroad Bridge, near Corbet street, Dorchester, on account of removing old edgestone already set and constructing driveways at numbers 217 and 296; trim foundation wall at numbers 309 and 317 to conform with the street line. Original contract, \$58,095.75; total additions, \$977.55; contract as standing, \$59,073.30.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$330, on contract with William L. Dolan for sewerage works in Centre street, between Spring and Cass streets, West Roxbury, on account of furnishing and placing about 55 cubic yards of Class C concrete. Original contract, \$4,065.40; total additions, \$375; contract as standing, \$4,440.40.

An addition, amounting to \$18.11, on contract with McCarthy & Walsh for sewerage works in Atkinson street, between Southampton street and South Bay avenue, Roxbury, on account of cutting old piles and timber bulkheads. Original

contract, \$1,484; total addition, \$18.11; contract as standing, \$1,502.11.

An addition, amounting to \$28, on contract with Charles Latorella for sewerage works in Mattapan Brook and Delhi street, Dorchester, on account of building 25 linear feet 6-inch pipe chimneys; changing 24-inch connection at New York, New Haven & Hartford Railroad. Original contract, \$16,135.15; total addition, \$28; contract as standing, \$16,163.15.

An addition, amounting to \$77, on contract with Louis Balboni for sewerage works in Roosevelt street and outlet in Middleton street, Dorchester, on account of building embankment over surface drain in Middleton street; digging out old stumps in sewer trench; laying 36 linear feet 6-inch house connection under surface drain. Original contract, \$1,394.62; total additions, \$77; contract as standing, \$1,471.62.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$29.08, on contract with Hugh Nawn Contracting Company for laying and relaying water pipe in Boylston street, between Exeter street and Park square, city proper, on account of furnishing lead for fifteen additional joints; extra labor on account of assisting plumber on large service connections. Original contract, \$3,555; total additions, \$1,353.58; contract as standing, \$4,908.58.

SCHOOLHOUSE DEPARTMENT.

An addition, amounting to \$112, upon contract with C. S. Cunningham & Sons for work at the E. P. Tileston School, for using master builders' hardener upon granolithic floor of boys' playroom, \$80; for furnishing and erecting flagpole projecting over front entrance of old part of building, \$20; for removing rough brick work and replacing with smooth brickwork in sanitariums, \$12; total, \$112. Original contract, \$66,700; total additions, \$5,187.50; total deductions, \$3,750; contract as standing, \$68,137.50.

An addition, amounting to \$25, on contract with Patrick Rich for work at the George Frisbie Hoar School, for changing return steam piping so it will drop down in stairway leading to boiler room and pass under the sill of boiler room, and building extra trench to accommodate piping in stairway with cast-iron frame, and for necessary concrete work in stairway, \$25. Original contract, \$66,944; total additions, \$1,421.50; total deductions, \$1,564; contract as standing, \$66,801.50.

A deduction, amounting to \$4, on the contract with Thomas H. Hanlon for work at the Practical Arts High School, in the Annex. Completed work for which \$100 was set aside was completed for \$96. Original contract, \$4,787; total additions, \$1,643.50; total deductions, \$348; contract as standing, \$6,082.50.

CONTRACT FOR SIDEWALKS.

By reason of the facts set forth by Commissioner of Public Works Rourke, the Mayor has approved the granting of a contract to Holt, Fairchild Company, Boston, for the construction of artificial stone sidewalks, without advertising.

The communication of Commissioner Rourke is as follows:

August 5, 1914.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets to Holt, Fairchild Company, 1001 Old South Building,

Boston, without advertising, is hereby requested on the ground that this contractor is not selected by the city in the first instance, but by the abutters, and secondly, the expense of construction being divided by the city and the abutters; also because this contract may not involve one thousand (1,000) dollars.

Respectfully,

L. K. ROURKE,
Commissioner of Public Works.

STREET COMMISSIONERS.

The Mayor has approved the order of the Board of Street Commissioners in taking land in the Hyde Park district, containing 3,984 square feet, more or less, and being part of the private way known as Milton avenue.

The Board determines that no person suffers damage to his property by the taking and construction of the sewerage works.

The sewerage works will consist of 664 linear feet of 8-inch pipe sanitary sewer.

The Mayor has approved the order of the Board of Street Commissioners in taking land in the Hyde Park district, containing 2,610 square feet, more or less, and being part of the private way known as Washington place.

The Board determines that no person suffers damage to his property by the taking and construction of the sewerage works.

The sewerage works will consist of 435 linear feet of 8-inch pipe sanitary sewer.

The Mayor has approved the order of the Board of Street Commissioners in taking land in the Hyde Park district, containing 2,610 square feet, more or less, and being part of the private way known as Glenwood place.

The Board determines that no person suffers damage to his property by the taking and construction of the sewerage works.

The sewerage works will consist of 435 linear feet of 8-inch pipe sanitary sewer.

The Mayor has approved the order of the Board of Street Commissioners in taking land in the Hyde Park district, containing 1,247 square feet, more or less, and being part of the private way known as Mascota street.

The Board determines that no person suffers damage to his property by the taking and construction of the sewerage works.

The sewerage works will consist of 209 linear feet of 10-inch pipe sanitary sewer.

SCHOOLHOUSE COMMISSION QUARTERS.

Upon approval of the Mayor the building in Wareham street, South End, formerly occupied by the Wire Department, will be used as a storehouse by the Schoolhouse Department, an agreement having been reached between Chairman Lomasney of the department and Chairman Brock of the School Committee. It is understood that the Schoolhouse Department will not have permanent use of the building and may be required at any time to move to other quarters.

CLAIMS.

The Mayor has approved the claim of Mary C. McGuinness, administratrix, in the amount of \$10,400, for damages occasioned her estate in Blossom street, West End, caused by the taking of the estate for schoolhouse purposes, and in confirmation of the award of the Board of Street Commissioners.

THE TOBACCO PLANT.

By CAPT. JOHN H. DILLON, *Chairman of the Park and Recreation Department.*

This plant easily found a place among the other narcotics, which habit has rendered essential to man. Its botanical name, *Nicotiana*, is derived from Jean Nicot, a Frenchman, who was an Ambassador to Portugal, and while there received the seed from a Dutchman and sent a species of the plant from Lisbon to Catherine de' Medici about the year 1560, and was first called by the French "herbe a la reine."

It is a native of America, much used in sub-tropical planting by horticulturists for its ornamental foliage and flowers, and is greatly admired even by those who are opposed to the many uses its leaves are put to, the making of cigars, snuff and pipe tobacco being a few. The taste and even the odor of this narcotic plant are nauseous, and yet it has obtained a more universal popularity than almost any other kind of luxury, not excepting the famous betel nut of the east.

The name "tobacco" is of uncertain meaning, many accounts being given. The Spaniards with Columbus on his first voyage to Cuba saw the Indians smoking leaves in small tubes, called by them "tabacos"; again from "Tabaco" a province of Yucatan, or "Tobago" in the West Indies.

Sir Francis Drake first introduced it into England about the year 1585, and notwithstanding its use was strongly opposed by those high in authority, tobacco resorts became almost as prevalent as ale houses, and I will take it for granted that many readers of this little story will agree with this quotation from Byron:

"Sublime tobacco; which from East to West,
Cheers the tar's labor or the Turkman's rest."

FORT WARREN FOR FLORISTS.

Mayor Curley secured during the week the use of Fort Warren, Boston Harbor, for the Society of American Florists during their forthcoming national convention in Boston, which opens upon Monday, August 17.

The members of the society and their ladies will visit Fort Warren upon Friday, 21st instant, leaving Rowe's Wharf at 9.30 a. m. Field sports will be given under the auspices of the Boston committee of the society, upon an extensive scale, at Fort Warren, and the delegates and their ladies will leave the Fort at 2 p. m. for Nantasket, where luncheon will be served at the Rockland House at 3 p. m.

Mayor Curley secured the use of the grounds at Fort Warren from Maj. Gen. W. K. Wetherspoon, U. S. A., Acting Adjutant General of the United States Army, Washington, D. C.

ORDER OF BOARD OF HEALTH.

It has been voted by the Commissioners of the Board of Health that the persons, firms or corporations, now under contract with the City of Boston to collect and to remove kitchen swill and garbage, and any other persons hereafter making such contracts with the city through the Department of Public Works, are hereby authorized to collect and to transport through the alleys, streets or public places of the city such kitchen swill and garbage subject to the rules and regulations of the Board of Health.

This order to take effect from August 15, 1914.

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 6, 1914.

I. ASSIGNMENTS.

The following assignments are hereby announced to take effect at 10 a. m., Friday, August 7, 1914:

Joseph E. MacDermott to Engine 7.
Eugene J. Doherty to Ladder 2.

II. TRANSFERS.

The following transfers are hereby announced to take effect at 10 a. m., Friday, August 7, 1914:

George J. Schiedel, from Engine 14 to Engine 26-35.

James P. Gallagher, from Engine 28 to Engine 14.

John P. Dowd, from Engine 7 to Engine 28.

Robert L. Quilty, from Engine 2 to Engine 7.

Frank L. Jewett, from Ladder 21 to Engine 2.

Edward J. Donelan, from Ladder 2 to Ladder 21.

By order of the Fire Commissioner,
PETER F. McDONOUGH,
Chief of Department.

THE SUNDAY CONCERTS.

MARINE PARK, 3.30 P. M. TO 5.30 P. M.

Moore's Band.

No program stated.

TRANSFER OF PROPERTY.

The Mayor has approved the transfer from the Parental School to the Suffolk School of all available material, including laundry machinery, tools, etc., that may be useful at the latter institution.

MAYOR CURLEY'S TRIBUTE TO MRS. WILSON.

Mayor Curley directed City Messenger Leary upon Thursday evening to place all city flags at half staff in honor of the memory of the late Mrs. Woodrow Wilson, wife of the President of the United States.

Mayor Curley said:

"Death has removed from the executive home of the Nation a woman of most charming personality, rare intelligence and wonderful strength of purpose. In my official relations at Washington it has been my province to meet no woman of clearer and broader reasoning, of more untiring service in trying to make the world brighter and better because she lived in it, and offering constantly suggestions for ways and means to improve in manifold ways the government of the City of Washington.

"I have sent the President a message of sympathy and condolence and my heart goes out to him in his irreparable loss and life's sorrow.

"In reviewing the work which Mrs. Wilson accomplished in Washington, I believe that her greatest and most successful labor, and one which will serve as her most lasting monument, was the removal of the insanitary conditions existing in the slum sections of the Capital, the insistence that the residents of these sections must live with due regard to hygiene and sanitation, especially during the intense heat of the summer months.

"Under Mrs. Wilson's direction, alleys and overcrowded areas, bisecting the city's principal streets, were cleared of old and shambling tenements, the property flushed with sanitary applications and old and destitute people removed to a more healthful section of the city.

"It was a great labor most successfully performed and to the Chief Executive of this Nation will be extended the condolence of a vast number of people who profited by the gentle suggestion and kindly imparted advice of a true noblewoman."

OLD GLORY ONLY MAY FLY.

Mayor Curley on the 7th instant issued the following statement relative to the permits for parades and fraternal gatherings by residents of the City of Boston.

"The cosmopolitan character of the citizenship of Boston is such," declared the Mayor, "that I feel constrained to say that during the great war in Europe no permits for parades in Boston streets will be granted where the flags of the various nations of Europe may be carried. The Stars and Stripes may float during these days of war and carnage abroad, but no other flag."

BOSTON'S BEST HEALTH MONTH.

The July death rate, 12.48, was the lowest rate ever recorded by the Health Department of this city for any month.

The total number of deaths for the month was only 778, which is the smallest number for any July since 1881, when, with a population of less than half the present population, the total number of deaths was 718.

Deaths of children under one year in July numbered 139, which is also a July record, the smallest number for any July in previous years being 163 in 1913, the highest 549 in 1896, and the July average for the period 1881-1913, inclusive, 299.

SALE OF FIRE HORSES.

Permission has been granted Fire Commissioner Grady to sell old horses to an amount not exceeding \$500, the same to be in part payment for new horses.

QUARTERS FOR BUSINESS AGENT.

The Mayor has approved the assignment of an office for Mr. William T. Keogh, business agent of the Boston School Committee, upon the eighth floor of the new City Hall Annex, at the Court street end of the building.

REQUEST FOR FISH.

The Mayor, upon request of the Commissioners of the Park and Recreation Department, has asked the Metropolitan Water and Sewerage Board for permission for the Director of the City Aquarium to take bass from the Chestnut Hill Reservoir and other waters under the jurisdiction of the Board, with the understanding that the laws of the state relative to such fish will be strictly complied with.

THE MUNICIPAL BOND MARKET.

Municipal borrowers are beginning to feel the pinch of high money rates induced by European wars. Two or three cities have just borrowed at 6 per cent discount, which compares with rates between 3 per cent and 4 per cent prevailing for the past several weeks. Having recently sold \$6,558,000 bonds, the City of Boston will not face any borrowing necessities in the near future. Neither will the state. Treasurer Mansfield says that he obtained in the spring all the money required. It comes due in October and November, but on October 15 heavy tax payments will be received which may be applied towards retirement of maturing notes. In view of the slump in investment demand, it is expected that cities and towns will probably defer the offering of bond issues until a rift appears in the war clouds. Outside of New England a number of municipal issues have failed, and it is doubtful if any of the local bond houses would care to take on any amount of Massachusetts municipal 4 per cent bonds at par or higher.

AREA OF BOSTON.

Area to ward lines (26 wards), 30,295 acres (*i. e.*, 47.34 square miles), 2,517 acres being filled land and 1,137 acres water area. Original Boston contained about 780 acres of land. Of the twelve leading American cities, five are larger in land area than Boston, viz., New York, Chicago, Philadelphia, St. Louis and San Francisco.

CITY OF BOSTON.

TO GRADING CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for grading addition to yard, etc., Phillips Brooks School, Quincy and Perth streets, Dorchester, Mass., and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Friday, August 14, 1914, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

JOSEPH P. LOMASNEY,
CHARLES BRUN PERKINS,
WILLIAM F. KEARNS,
Commissioners.

(Aug. 8.)

NOTICE TO SUBSCRIBERS.

Subscribers will find the expiring date of their subscription stamped upon the mailing wrapper. As payment must be made in advance, remittance should be made on or before that date.

CITY OF BOSTON.

PROPOSALS FOR LAND.

The Schoolhouse Commissioners of the City of Boston will receive sealed proposals for selling to the city land for elementary school in Eliot-Hancock Districts, Boston, Mass., in the territory bounded and described as follows: Beginning at the water end of Haverhill street; thence by the center of Haverhill street to Washington street; thence by the center of Washington street to State street; thence by the center of State street to the water; thence by the water to the point of beginning; to contain 25,000 square feet of land, more or less. All proposals must be submitted on or before 12 o'clock m., of Tuesday, August 18, 1914, at the office of the commissioners, 120 Boylston street, Boston. Said proposals will at that time be publicly opened and read, and thereafter a public hearing will be given by the commissioners at said office, Tuesday, August 25, 1914, at 12 o'clock m., at which hearing the proposals and suitability of the land offers therein will be considered. The commissioners reserve the right to reject any or all proposals.

JOSEPH P. LOMASNEY,
CHARLES B. PERKINS,
WILLIAM F. KEARNS,
Commissioners.

(Aug. 8.)

CITY OF BOSTON.

TO GENERAL CONTRACTORS.

The Fire Commissioner of the City of Boston invites sealed proposals for alterations to Engine House No. 41, Brighton district, Boston, Mass., and giving bond of a surety company therefor in the sum of \$2,500. Only proposals obtained at the office of the Fire Commissioner, Bristol street, Boston, Mass., signed by the bidder, and left before 12 o'clock m. of August 17, 1914, at said office, with a certified check for \$300, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, before the time of opening the bids. The undersigned reserves the right to reject any and all proposals.

JOHN GRADY,
Fire Commissioner.

(Aug. 8.)

CITY OF BOSTON.

TO CARPENTER CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for moving various portable school buildings and giving bond of a surety company therefor in the sum of \$500. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder, and left before 12 o'clock m. of Friday, August 14, 1914, at said office, with a certified check for \$500, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be sent to the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

J. P. LOMASNEY,
CHARLES B. PERKINS,
WILLIAM F. KEARNS,
Commissioners.

(Aug. 8.)

CITY OF BOSTON.

TO FIRE ESCAPE (IRON) CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals for erecting and completing fire escapes on the George Bancroft School, Appleton street, Boston, Mass., and giving bond of a surety company therefor in the sum of \$1,200. Only proposals obtained at the office of the commissioners, 120 Boylston street, signed by the bidder and left before 12 o'clock m. of Friday, August 14, 1914, at said office, with a certified check for \$300, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The bid must be made in duplicate, the one with the check to be sent as above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening bids. The commissioners reserve the right to reject any and all proposals.

JOSEPH P. LOMASNEY,
CHARLES B. PERKINS,
WILLIAM F. KEARNS,
Commissioners.

(Aug. 8.)

CITY OF BOSTON.

PROPOSALS FOR THE FURNISHING OF ALL LABOR NECESSARY FOR THE ASSEMBLING OF 100 6-INCH GATES.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for the furnishing of all labor necessary for the assembling of 100 6-inch gates, and giving bond therefor of a surety company, approved by the commissioner in the sum of two hundred dollars (\$200), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Assembling Gates," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, August 14, 1914, with a certified check for one hundred dollars (\$100), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.

Boston, August 6, 1914.

(Aug. 8.)

CITY OF BOSTON.

PROPOSALS FOR WOODEN FLOORING OF DRAW SPAN OF CHARLESTOWN BRIDGE, OVER CHARLES RIVER.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for renewing the wooden flooring of the roadways of the draw span of Charlestown Bridge, over Charles river, and giving bond therefor of a surety company approved by the commissioner in the sum of three thousand dollars (\$3,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Charlestown Bridge," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Wednesday, August 19, 1914, with a certified check for five hundred dollars (\$500), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.

Boston, August 6, 1914.

(Aug. 8.)

CITY OF BOSTON.

PROPOSALS FOR PIPE SEWERS AND DRAINS IN BELLVISTA ROAD AND MATCHETT STREET, BRIGHTON.

The Commissioner of Public Works of the City of Boston, office 511 City Hall Annex, invites proposals for pipe sewers and drains in Bellvista road, between Woodstock avenue and Allston street; Matchett street, between Washington street and Perthshire road, Brighton, and giving bond therefor of a surety company approved by the commissioner in the sum of one thousand (1,000) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 511, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Pipe Sewers, Bellvista Road and Matchett Street," and left at Room 511, fifth floor, City Hall Annex, before 12 m. on Friday, August 14, 1914, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the commissioner to be abnormally high or low it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

L. K. ROURKE,
Commissioner of Public Works.

Boston, August 6, 1914.

1913-14 includes 26 weekly pay rolls, 1914-15 includes 25 weekly pay rolls.

BOSTON RANKS FIRST IN HEALTH.

The United States Public Health Service, in their latest bulletin, state that during the past year the number of cases of notifiable diseases in the cities of the United States, having a population of 500,000 or more, the number of cases reported, and the number of deaths. Upon a study of these tables it is found that Boston has the lowest fatality rate of all the large cities, namely:

DIPHTHERIA.

INFORMATION UPON SEWERS.

About fifteen years ago, engineers engaged in municipal work were devoting considerable attention to devising uniform methods of accounting in connection with the construction and operation of waterworks. One reason for this was that consumers in cities where high rates prevailed insisted that the rates should be lowered to the level of those in other cities, and in the absence of uniform systems of accounting it was impossible to present detailed figures to prove that the high rates were due to inevitably greater fixed and operating charges rather than to a desire to get all the revenue the consumers would yield without a fight to a finish. Another reason was that engineers had learned that cost accounting was highly important in showing how work was going, and that comparisons of costs for similar work in other years or in the same year at different places were decidedly helpful. At first the New England Water Works Association was the only strong advocate of uniform accounting, but other organizations followed its lead, the Bureau of the Census helped the work along, public service commissions cooperated, and now waterworks accounting is beginning to look business-like in most cities of 30,000 population and over. Below that limit the opportunities for improvement are still very great.

Recently the same thing has taken place in the sewerage field. The cost of sewers and sewage treatment works has become a heavy burden on every community, and the importance of economy without any sacrifice of efficiency has been brought home to municipal officials and their engineering advisers. Unfortunately, the experience of one city is rarely available for much use in another city, financially speaking, because of a lack of any uniform system of accounting. Eight years ago the sanitary section of the Boston Society of Civil Engineers recognized the importance of the subject and adopted certain forms for reporting statistics, and two years later it published statistics from twenty-four cities arranged according to this system. It was often commended by the Census Bureau and eventually adopted as the basis for the collection of the Bureau's information. Last year the Bureau published its first volume of sewerage statistics, and after examining this critically a committee of the society has reported that the work was so well done that the society should abandon its endeavors along the same line. This is a high tribute to the work of the Bureau and to the confidence felt in its willingness and ability to enlarge and strengthen the scope of its sewerage studies.

But it is to be hoped that the engineers in charge of sewerage systems will not be content to let their accounting methods become lax when they relate to items not called for in the Bureau's schedule. If the sewage is screened, the volume or weight of the screenings and the size of the openings in the screens should be recorded, and a statement made of the method of disposal. A record should be kept of the volume of grit removed annually from the grit chambers and of the method of disposing of it. Such quantitative details of every step in the treatment of sewage, even if kept only approximately, become important when improvements are necessary, for they furnish the definite information about what has been done, which is essential in studying a project. The usual information which is recorded is of insignificant value and is occasionally so general as to be actually misleading.

NECESSITY FOR COMMERCIAL INTERVENTION.

Mayor Curley addressed a strong letter to President Wilson during the week, calling attention to the imperative necessity of safeguarding our commerce upon the seas in the event of war, with England and Germany as combatants, and the pressing issue to service of transatlantic and transpacific ships to carry our exports and bring in our supplies.

The communication of Mayor Curley was as follows:

MAYOR'S OFFICE,
BOSTON, August 3, 1914.

HON. WOODROW WILSON,
President of the United States:

Dear Mr. President,—In behalf of the people of Boston, I am most pleased to express an approval of your recommendation to Congress, favoring admission of foreign ships to American registry, which the present condition abroad makes necessary.

I beg to submit in addition for your consideration the advisability of recommending to Congress the appropriation of fifty millions of dollars for the purchase by the American government of fifty transatlantic and transpacific steamships, the same to be apportioned among the leading commercial cities on the Atlantic and Pacific coasts.

The Chambers of Commerce upon both coasts would undoubtedly find it possible to raise a sum sufficient to refund to the United States, within the life of the ships, or say twenty years, the entire cost thereof.

A plan might be adopted, which appears feasible, whereby each member of a Chamber of Commerce on these coasts could contribute annually his *pro rata* share, during the period of twenty years, of the entire cost, and by this means it would not only be possible to develop a merchant marine, but, in addition, direct forcibly to the attention of the entire American people our present weakness in this respect.

A study of the figures relative to our commercial activities covering a half-century of the nation's growth is sufficient to convince even the most bitter opponent of Government aid, in a development of the merchant marine, the imperative need for action.

In 1859 the value of goods carried in American vessels was \$465,741,381, and in foreign vessels \$229,816,211, or more than 100 per cent greater value carried in American ships than in foreign ships.

In 1909, however, the value of goods carried in American ships decreased 44.46 per cent, or a value of \$258,657,217, while on the other hand during this brief period of fifty years the value of goods carried in foreign vessels increased 971.59 per cent, and from \$229,816,211 to the staggering total of \$2,462,693,814.

Vast sums of money have been expended on river, lake and harbor improvement; our great railroad terminals are located on the waterways throughout the land, and there at the very point deserving of our most urgent consideration we have ceased our labors. The amount actually expended for the carrying of our foreign commerce is estimated in excess of three hundred millions of dollars, and this enormous amount is an important factor in the forces of trade and a serious one in the present situation, in view of the fact that our exports of natural products is

rapidly decreasing, while the presence of our flag upon ships engaged in foreign trade has become a genuine curiosity.

Our export trade, which to-day is in excess of two billion five hundred million dollars, furnishes permanent employment to men and women engaged in various lines of industry for at least three months annually, and in the event of Germany and England becoming involved in the present European war it is impossible to estimate the injury that would result to this nation, since to-day we depend upon the ships controlled by these two Powers for the carrying of more than 90 per cent of our exports.

There is no way to justify a continuance of our one-sided policy, which, in the event of the withdrawal of the foreign carriers upon whom we depend, would result in our goods rotting on the docks through the lack of carriers, our industries paralyzed through lack of distributors of their output, and despite the fact that we are at peace with the world it would be difficult, if not impossible, to avert a panic.

Protest has been made by some of our citizens against the proposition to admit foreign ships to American registry, even in view of the fact that the leading maritime nations of the world to-day are what may be termed disciples of the free ship policy. Great Britain in 1849 adopted the policy and continued it until such time as its shipping, thanks to subsidies in some form or other, found it possible to defy real competition in the matter of shipbuilding.

The adoption of the subsidy policy by the French government resulted in an increase in its merchant shipping from 914,000 tons in 1881 to 1,900,000 tons in 1910.

Germany in 1873 adopted the policy, its shipping at that time representing 1,098,000 tons. Through the aid of mail subventions and the encouragement of native shipbuilding its tonnage has been increased more than four fold, or in excess of 4,500,000 tons.

Japan, through a free ship policy and governmental aid, has increased its shipping more rapidly in proportion than any other nation in the world, or more than 800 per cent in sixteen years, its tonnage in 1894 being 200,000 tons and in 1910, 1,544,000 tons.

I beg you will pardon the suggestion that the scout cruisers under control of the Secretary of the Navy might be utilized in the present emergency in conformity with the policy of the English government, which constructed the Mauretania and the Lusitania for commercial use in time of peace and auxiliary cruisers in time of war, or the policy of the German government which to-day subsidizes to the extent of \$1,300,000 annually to the North German Lloyd Line.

The imports and exports of the United States in the year ending January 1, 1913, which were in excess of four billion dollars, was carried largely in ships flying a flag other than Old Glory, and to-day less than 8 per cent of our foreign trade is carried in ships flying the American flag.

Your splendid labors in behalf of peace on this continent and the propounding of the principle of equality of opportunity, as expressed by your action, both on the tariff and currency questions, strengthens the belief that in the present crisis your action will be timely and its results a lasting blessing to the American people.

Very respectfully yours,

JAMES M. CURLEY,
Mayor of Boston.

REVIVAL OF MERCHANT MARINE.

Mayor Curley delivered a masterful address at the luncheon served at the Copley-Plaza Hotel by the Fore River Shipbuilding Corporation, following the launching at Quincy of the new Emery steamship liner "Pacific."

A very interesting plan and analysis for the development of the American merchant marine was presented by his Honor.

The Mayor declared that the government should issue certificates to every shipper who exports goods to foreign countries in American ships. These certificates should be good for payment of duties on goods imported from abroad and would give American ships an advantage which would create a big demand for them by the shippers in this country.

The Mayor declared that the federal government should immediately serve notice upon the powers with which it has trade treaties, stating its intention to abrogate as much of our commercial treaties as relate to the carriage of our foreign trade.

Mayor Curley said:

"The present war, which is shaking all Europe to its very foundations, is offering to the United States the long sought-for opportunity to obtain for itself a just percentage of its own world-carrying trade. With something over a billion dollars annually of exports, and imports not far from approximating this sum, this country is carrying less than 10 per cent of its oversea commerce, and is paying to foreign nations a sum for doing this carrying which is never estimated at less than three hundred millions of dollars.

"Americans do not demand that they do all this huge trade, but they do insist that one half of it should be theirs as an economic necessity. That such a necessity is no idle dream has been brought to the notice of the cotton growers of the South and the farmers of the West by the present dearth of tonnage to carry the produce of the land to the foreign market.

"All of the work of the patriotic citizens who have given their time and money to the advancement of this cause for many years past counts for nothing towards its successful completion in comparison to the sudden cold fact that has confronted the farming population that the value of their produce has fallen at a panic rate simply because, while they have the produce and while the demand exists, it is not possible to supply the transportation facilities required.

"At this time it is particularly essential that a workable plan should be offered that will achieve the results desired in a simple and effective manner. It is everywhere recognized that, due to the increased cost of labor in this country and due to our strict navigation laws, the first cost of building an American ship and the cost of operating her are very much greater than the cost of building abroad and of operating ships under foreign flags. What the American people want is an American built and American operated merchant marine.

"It will never make the heart of the American citizen swell with pride to see a ship 'Made in Germany,' and manned by 'German' officers, flying the American flag, but it is equally certain that the country will not pay to shipbuilders or to shipowners a direct subsidy to compensate for this difference in cost. There is, however, a simple and effective method of achieving the desired end. Let the Government immediately give notice to the twenty odd treaty powers that the United States proposes to abrogate so much of

our commercial treaties as relate to the carriage of our foreign trade; let a law be placed on the statutes providing for the issuance of export custom certificates to every shipper who sends any goods to a foreign country; let those certificates be issued in the amount of two per cent of the American selling value of the exported goods for each one thousand miles these goods are to be carried; let these certificates be issued after the lading of the vessel and require the total amount of such certificates to be limited to 10 per cent of the value of the goods on any single cargo and also to a total on any one cargo so that the rate to the ship per ton mile will not exceed one mill.

"These customs certificates when issued will be good for only one purpose, namely, for the payment of duties on goods imported from abroad. The Government, therefore, pays out no money whatever from the Treasury. There is no payment to shipbuilders or to shipowners, but there is issued a trading medium usable for only one purpose, *i. e.* for the payment of custom duties. These certificates will be handled by customs brokers and will result in American shippers demanding American tonnage for all their classes of freight where the amount offered by the Government will overcome the difference in cost of transportation in foreign as against American ships.

"It is believed that the figures given above will result in immediately placing under the American flag a sufficient fleet to relieve the present vitally serious situation at a minimum cost to the Government. If necessary, it may be provided that for a period of two years ships for the foreign trade may be purchased for American registry, but that after this time all ships must be built by American labor, of American material, in American yards.

"If experience should show that the figures quoted above are too high or too low, it is an easy matter to vary them to achieve the requirements desired.

"It should not be forgotten that England, which carried 70 per cent of the indirect trade of the world (*i. e.* the trade where the ship carrying the goods does not belong to the nations between which she is trading) has no treaty with this country covering her indirect trade and that for this enormous part of the world's business we are entirely free to legislate as we may see fit.

"And incident to this presentation of fact, I desire to call particular attention to the Tariff Act, adopted July 4, 1789, and which made possible the development of a commercial supremacy for the new republic that was the envy of the entire world. This Act provided:

"On all teas imported from China or Indian ships built in the United States and belonging to a citizen or citizens thereof, or in ships or vessels built in foreign countries and on the sixteenth day of May last wholly the property of a citizen or citizens of the United States, and so continuing until the time of importation, as follows: On Bohea tea, per pound, 6 cents. On all Souchong or other black teas, per pound, 10 cents. On all other green teas, per pound, 12 cents.

"On all teas imported in ships or vessels built in the United States and belonging wholly to a citizen or citizens thereof, or in ships or vessels built in foreign countries and on the sixteenth day of May last wholly the property of a citizen or citizens of the United States, and so continuing until the time of

importation, as follows: On all Bohea tea, per pound, 8 cents. On all Souchong and other black teas, per pound, 13 cents. On all Hyson teas, per pound, 26 cents. On all other green teas, per pound, 16 cents.

"On all teas imported in any other manner than as above mentioned, as follows: On Bohea tea, per pound, 15 cents. On all Souchong or other black teas, per pound, 22 cents. On all Hyson teas, per pound, 45 cents. On all other green teas, per pound, 27 cents.

"On all goods, wares and merchandise other than teas imported from China or India in ships not built in the United States and not wholly the property of a citizen or citizens thereof, nor in vessels built in foreign countries and on the sixteenth day of May last wholly the property of a citizen or citizens of the United States, and so continuing until the time of importation $12\frac{1}{2}$ per cent *ad valorem*.

"SECTION 5. A discount of 10 per cent on all the duties imposed by this act shall be allowed on such goods, wares, and merchandise as shall be imported in vessels built in the United States and which shall be wholly the property of a citizen or citizens thereof, or in vessels built in foreign countries and on the sixteenth day of May last wholly the property of a citizen or citizens of the United States and so continuing until the time of importation."

"Moreover in view of the fact that the war to-day existing will cut out from the benefits of this act the ships of Germany, France and Austria, the principal shipping nations, other than England, if this law were put into effect immediately practically none of the money expended would go to foreign shipping. On the other hand incalculable benefits would be immediately available to the United States in this moment of national need, and a permanent shipping policy would be established that would prevent the United States from ever again being the laughing stock of nations in its position as a world trader with no delivery wagons to carry its goods."

GREAT HONOR FOR MAYOR CURLEY.

Mayor Curley was immeasurably gratified upon Thursday to receive a telegram from Congressman Gallivan in Washington, advising that the Mayor's suggestions relative to the registry of foreign ships had been incorporated in the administration measure, which is directed by the Hon. Oscar W. Underwood of Alabama, Chairman of the Ways and Means Committee of the House of Representatives.

Upon Saturday last Mayor Curley sent the following telegram to Congressmen Underwood, Hardy, Gallivan, Peters, Murray and Roberts:

Boston, August 1, 1914.

I am informed that it is proposed to permit registry of foreign ships more than five years old and to waive the requirement of United States citizenship for officers. There is a tremendous tonnage of foreign shipping built within the last five years and until some of this tonnage seeks United States registry why should this concession be extended to old and partly worn out vessels? There are sufficient United States naval officers retired prematurely during the last decade to completely officer a large fleet in both navigating and engineering departments. I also believe that it should be stipulated that registry so granted should be for a term of years not shorter than five and preferably longer.

JAMES M. CURLEY,
Mayor of Boston.

The following telegram was received by Mayor Curley from Congressman Gallivan:

WASHINGTON, D. C., August 3, 1914.
HON. JAMES M. CURLEY,
Mayor of Boston:

Have talked with Congressmen Underwood and Hardy and your suggestions contained in telegram addressed me upon the 1st instant have been incorporated in legislation adopted on merchant marine.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announce an open competitive examination for statistical expert, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be general administrative charge of the field agents and of the tabulating force of the Bureau, and will require knowledge of statistics, statistical methods and the technic of field investigation.

The commission announce that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announce an open competitive examination for social service expert, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will be the investigation of such subjects as juvenile courts, desertion, orphanage and relevant legislation, with studies of the special groups known as the dependent, the delinquent and the defective, and of public and private provisions for recreation.

The commission announce an open competitive examination for expert on sanitation, for both men and women, on August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Children's Bureau, Department of Labor, Washington, D. C., at a salary of \$2,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of the position will be to act as adviser of the Bureau in matters requiring knowledge of hygiene and in cooperation with other experts to conduct investigations into dangerous and injurious occupations, the social factors responsible for high infant mortality and other matters involving health.

The commission announce an open competitive examination for motor car mechanic and driver, for men only, on

August 10, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Office of Public Roads, Department of Agriculture, for duty in the field, at a salary of \$1,200 a year, and vacancies as they occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to maintain and operate a dynamometer car, and to perform work in the instrument shop and testing laboratory in the Office of Public Roads.

The commission announce an open competitive examination on August 10, 1914, for marketing specialist (cottonseed and its products), for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Office of Markets, Department of Agriculture, Washington, D. C., at a salary ranging from \$2,280 to \$2,760 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be the supervision and conduct of investigations of all handling and marketing processes and of the utilization of cotton seed and its products, from the gin to the manufacturer and consumer. It will include studies looking to the establishment of standards and grades, supervision of experimental crushings, and the collection of information necessary for the successful organization and operation of cottonseed oil mills by cooperative producers.

The commission announce an open competitive examination for mechanic, for men only, on August 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$900 a year in the Bureau of Standards, Department of Commerce, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Persons appointed as a result of this examination will be employed in the machine shop of the Bureau where high-grade scientific apparatus and instruments are produced. This position has opportunities for advancement to higher grades of instrument making as experience and fitness may qualify.

The commission announce an open competitive examination for highway bridge engineer and junior highway bridge engineer, for men only, on August 19, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in these positions in the Office of Public Roads, Department of Agriculture, for duty in the field, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The salary of the position of highway bridge engineer ranges from \$1,500 to \$1,800 a year, and the salary of junior highway bridge engineer from \$960 to \$1,200 a year.

The duties of these positions will involve the making of surveys of bridge sites, superintending the construction and inspection of highway bridges and the design and preparation of plans for highway bridges.

The commission announce an open competitive examination for junior civil engineer, for men only, on August 19, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Interstate Commerce Commission under the act providing for the valuation of the property of common carriers, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The salaries of these positions will range from \$1,200 to \$1,500 per annum, with necessary expenses when absent from headquarters in the discharge of official duties.

Appointments to these positions will be principally for duty in the field, but some appointments will be made for duty in Washington, D. C.

Qualified persons have an excellent opportunity for appointment from this examination.

The commission announce an open competitive examination for telephone operator, for both men and women, on August 19, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in the position of telephone switch board operator at salaries ranging from \$660 to \$720 a year, in the departmental service at Washington, D. C., unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for special agents and research assistants, for both men and women, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in these positions in the Children's Bureau, Department of Labor, at salaries ranging from \$1,200 to \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of special agents will be mainly in the field to collect data for use in the preparation of reports. At the outset most of them will be assigned to investigations into the social factors responsible for the high infant mortality, but a few will be engaged on subjects connected with the employment of children. In the infant mortality work the agents interview the mothers in their homes to get the data called for by the schedule.

The duties of research assistants will be mainly in the Washington office, studying existing material bearing on the subjects being investigated by the Bureau and preparing reports and sections of reports.

The commission announce an open competitive examination for engineer, for men only, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Indian Service at the Sac and Fox Sanatorium, Iowa, at \$900 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

For the vacancy at the Sac and Fox Sanatorium, Iowa, examination in Branches 1 and 2 is required. The eligibles certified for this vacancy must be unmarried.

Owing to the widely varying conditions

in the various schools and agencies of the Indian Service, general engineering examinations will be given under the following separate branches: Steam engineering, electrical engineering, heating, refrigeration, gas and gasoline engines and hydraulics. An applicant may take one or more than one of these in his discretion. The prospects of appointment will be increased by successfully passing more than one of the branches indicated. Applicants should fully indicate in their applications the particular branch or branches in which they desire to be examined and should state as definitely as possible the experience they have had which would tend to qualify them in the branches selected.

Salaries, \$480 to \$1,000 per annum. The majority of the appointments, however, are made at salaries of \$750, \$840 and \$900 per annum.

The commission announce an open competitive examination for junior fuel engineer, for men only, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Mines, Washington, D. C., at salaries ranging from \$1,200 to \$1,500 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

As an insufficient number of applications were filed for the examination for this position announced to be held on June 3 and 4, 1914, qualified persons are urged to enter this examination.

Two days will be required for this examination.

The duties will be to assist in tests of boiler and other furnaces, of auxiliary equipment affecting efficiency in the use of fuels, investigation of fuel-burning methods and machinery, inspecting and sampling fuel, and the compilation of data and making reports.

The commission announce an open competitive examination, on August 24, 1914, for telephone lineman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Life-Saving Service, at \$85 a month, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The person appointed to this position will be subject to assignment at any point on the Atlantic, Pacific or Lake coast.

The commission announce an open competitive examination for plant physiologist, experienced in plant metabolism, for men only, on August 30, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to plan and lead research work dealing primarily with questions of plant metabolism.

The commission announce an open competitive examination for graduate nurse and dietitian, for women only, on September 2, 1914. From the register of eligibles

resulting from this examination certification will be made to fill a vacancy in this position in the United States Public Health Service, for duty in the Pellagra Hospital at Spartanburg, S. C., at a salary not exceeding \$1,200 a year (in addition to board and room or compensation therefor), and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in making metabolic and dietetic studies in relation to pellagra and to supervise the nursing. No administrative work will be required.

The commission announce an open competitive examination for entomological ranger, for men only, on September 2, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Entomology, Department of Agriculture, for service in the Rocky Mountains and Pacific Coast States, at salaries ranging from \$840 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to collect specimens and information, locate and mark trees infested with destructive insects, and give instructions and assistance to private owners on the practical details of the methods recommended for the control and prevention of insect depredations on living timber.

The commission announce an open competitive examination for junior physical chemist, for men only, on September 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be chiefly research work in the preparation and investigation of sugars, their occurrence, identification and properties, and the importance of the various sugars in various foods.

The commission invites attention to the open competitive examination for clerk in the Panama Canal Service scheduled to be held on September 9, 1914.

It is especially desired to secure eligibles from this examination who are qualified as bookkeepers.

The usual entrance salary for this position is \$1,200 a year.

The commission invites attention to the open competitive examination for junior engineer draughtsman, for men only, scheduled to be held on September 9, 1914. In addition to other vacancies to be filled from the register of eligibles resulting from this examination, it is expected that certification will be made to fill a vacancy in this position in the Engineer Department at Large, Wheeling, W. Va., at a salary ranging from \$1,800 to \$2,100 a year, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

For the vacancy at Wheeling, W. Va., mentioned above, the department requires

the services of a person with experience in the independent design of steel structures.

The commission invites attention to the open competitive examination for library cataloguer, for both men and women, scheduled to be held on September 9, 1914, at all places marked "(D)" in section 2 of the Manual of Examinations for the fall of 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Departmental Service, Washington, D. C., at entrance salaries ranging from \$720 to \$1,000 per annum, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The following vacancies in positions which may be filled as the result of this examination exist at the present time:

One in the position of library assistant (male) qualified for bibliographical and reference work in educational literature, and to serve as administrative assistant in the library of the Bureau of Education, Department of the Interior, at \$1,000 per annum.

One in the position of library cataloguer (female), Smithsonian Institution, at \$75 a month.

The commission invites attention to the open competitive examination for junior chemist, for both men and women, scheduled to be held on September 9 and 10, 1914. In addition to vacancies in positions in the Bureau of Chemistry, Bureau of Mines, Bureau of Soils and Bureau of Standards, to be filled from the register of eligibles resulting from this examination, it is expected to fill vacancies in the position of junior chemist in the Bureau of Animal Industry and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary for these positions ranges from \$1,000 to \$1,440 a year, but persons showing in the examination that they are unusually qualified are occasionally appointed at higher salaries, not to exceed \$1,740 a year. Certification to fill vacancies in positions paying more than \$1,440 will be made only from those attaining the highest averages in the examination.

The following vacancies in such positions exist at the present time:

One junior chemist, qualified in biological chemistry, Bureau of Animal Industry, Washington, D. C., at \$1,200 a year.

One junior chemist, qualified in biological chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,620 a year.

One chemist, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,440 a year.

Two chemists, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,620 to \$1,740 a year.

OXYGEN HELMETS IN PITTSBURGH.

It has recently been announced by the director of the Department of Public Safety of Pittsburgh, C. S. Hubbard, that every fire station in that city will be equipped with oxygen helmets to be used by firemen in rescue work. The plan is to equip each engine house with at least two oxygen outfits, and an order has already been placed for a number of these. This decision of the director followed a very successful test of this device.

REDUCING WATER WASTE.

A summary of statistics of water consumption in the metropolitan district of Boston shows some of the results of the commendable efforts that are being made in many large cities of this country to reduce water waste. For several decades the water consumption in American cities has increased by leaps and bounds. For example, some recently published figures on water consumption in about 35 Massachusetts cities and towns show an increase from an average daily consumption of 46 gallons per capita in 1890, to 60 in 1900, and to 82 in 1910. In many cities, and especially in the large ones, the consumption has increased far beyond any of those figures and has assumed proportions that have made absolutely necessary the adoption of some measures which would result in a reduction of the waste. The reasons for this tendency toward rapid increase are many. Some of them are legitimate, others not, and it is gratifying to see this concrete example of actual betterment of conditions.

It is explained in the report mentioned that the large specific reductions were due partly to the increased use of meters and partly to unusually mild weather during the year to which the report applied. It is a well-known fact that the consumption, or rather the waste, of water in many cities is greatly influenced by the intensity of the winter, but aside from that the evidence in this case indicates clearly that there has been a progressive and certain reduction in waste, sufficient probably to postpone for a number of years large expenditures for construction that might otherwise have been necessitated.

Many other cities besides Boston have been following a similar policy in the last few years. About ten years ago there was a critical period of depletion in the supply from the Croton sources for New York. A vigorous campaign of waste reduction since that time has been one of the important factors that have contributed to make the Croton sources adequate for the needs of the city pending the completion of the works for additional supply from the Catskills. Washington, D. C., nearly a decade ago undertook a campaign of waste reduction with results that were eminently successful. Chicago, Buffalo, Milwaukee and numerous other cities have, by means of additional meters or sub-surface investigations, secured promising results along the same line. On the other hand, although Toronto has spent much money and effort in this direction, the consumption has increased during the last few years at a rate almost unprecedented. Philadelphia, never favorably disposed toward meters, has accomplished some results by other means, one of which is also mentioned in a recent issue of this journal. This is the novel expedient of cutting down the night pressure in certain districts to a minimum assumed to be just above the point at which complaints would result. From the reported figures the result of this was striking and gives rise to arguments in favor of using as low a pressure in city mains as is consistent with good service. Other cities, notably Springfield, Mass., have had experiences that would tend to support the opposite argument, that is, in favor of high pressures to reduce the waste, on the assumption that if the pressure is high enough any leak, no matter how small, will make itself conspicuous and will therefore be taken care of. The reports indicate that this is as true of underground leaks as of those on exposed piping systems.

Water waste, to the layman, is not usually one of the obvious shortcomings of the

system. It is often obviously logical for the engineer to write into a report the necessity for the advantages of waste reduction and to make recommendations along that line. It is surprising, though, how many times such recommendations are passed over lightly, while at the same time large amounts of money are appropriated for the purpose of providing still more water to be wasted.

The saving of water such as is indicated by the Boston report is, therefore, a gratifying manifestation of true conservation. Efforts in this direction, vigorously carried out, can usually be relied upon to reduce waste in a greater or less degree, and this would seem to be one of the most promising lines of endeavor for water-works managers at the present time.—*Engineering Record.*

EXAMINATIONS FOR LIGHTHOUSE SERVICE.

United States civil service examinations for the following mechanical trades and noneducational positions in the Lighthouse Service, Engineer Department at Large and the Quartermaster Corps, U. S. A., and the various branches of the government service in Boston, Mass., and vicinity, will be held on October 1, 1914.

Positions.—Assistant marine steam engineer (including positions on lighthouse tenders), carpenter, marine fireman, mate (including positions on lighthouse tenders), * oiler, stationary fireman.

Age limits, Lighthouse Service: 18 years or over, except for positions requiring license from U. S. Steamboat Inspection Service, for which the minimum age is 21. Maximum age for officer of tender, 45 years. Persons honorably discharged from the U. S. Army, Navy or Marine Corps and persons already in the Lighthouse Service in classified positions will be examined without regard to their age.

No educational tests will be given and applicants will therefore not be called upon to appear at any place to be examined. They will be rated according to their physical condition and experience as indicated in their applications and the medical certificate and vouchers furnished.

All statements relating to training and experience are accepted subject to verification. No applicant will be eligible for appointment who fails to attain a rating of at least 70 per cent in the subject of training and experience. Applicants should name in their applications, as references, employers or other persons who are competent to furnish information relative to the applicants' fitness for the positions sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications the applications may be canceled.

The following physical defects will debar applicants from any examination: Insanity, tuberculosis, paralysis, epilepsy, blindness, loss of both arms or both legs, loss of arm and leg; badly crippled or deformed hands, arms, feet, or legs; uncompensated valvular disease of the heart, locomotor ataxia, cancer, Bright's disease, and diabetes. In addition, persons who have lost an arm or a leg, or who are ruptured, are ineligible for appointment to positions in the Custodian Service. Other

* A vacancy now exists as oiler on the steamer "Anderson," Fort Warren, Mass., at \$780 per annum. To be considered for this position, application should be filed on or before August 19.

physical defects will render applicants ineligible for any particular service or position when, in the judgment of the Commission, such defects would disqualify them from the duties required.

An applicant who is unable to write may have his application filled in by another and sign it by mark, which must be properly witnessed; but only those eligibles will be certified for appointment in the Custodian Service whose applications are in their own handwriting.

The age limits for the different branches of the service are as follows: Quartermaster Corps, men, 20 to 50 years; women, 18 to 50 years; Engineer Department at Large, 18 years or over; Custodian Service, 20 to 50 years; other branches, 20 years or over. The age limits are waived in the case of persons honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds received or sickness incurred in the line of duty.

In filling vacancies certification will be made of eligibles readily available for employment—that is, of those who live in the place, or in the vicinity of the place, of employment, and of those who do not live in the place or vicinity, but who have presented themselves to a member of the local board of civil service examiners (or to the employing officer when there is no local board member) at the place at which employment is desired. An eligible who does not live at the place where he desires employment will not be certified for appointment there until he has personally appeared before a member of the local board of examiners (or the employing officer) at that place, has secured a certificate from the board member (or the employing officer) showing the date on which he appeared, and has filed such certificate with the district secretary. In this connection vicinity is defined as the territory within the usual commuting distance. An employing officer is the official in charge of an office or other establishment.

This examination is open to all citizens of the United States who meet the requirements. For application and examination blank, Form 1800, address the secretary of the board of civil service examiners at the post office or customhouse in the city named at the head of this announcement, or the district secretary.

No application will be accepted unless properly executed and filed with the district secretary prior to the hour of closing business on September 15, 1914.

SAND AND GRAVEL PRODUCTION.

The total production of sand and gravel in the United States in 1913 was 79,555,849 short tons, valued at \$24,217,508, a net increase in quantity of 11,201,286 short tons and in value of \$1,104,300 over the production of 1912. Sand for building purposes constituted nearly one-third of the total production. In 1913 a production of 25,397,383 tons of building sand was recorded with a value of \$8,007,949. This is an increase in quantity of 1,621,370 tons and in value of \$39,822 over the production of 1912. The average value per ton, which increased from 31 cents in 1911 to 33½ cents in 1912, fell to 31½ cents in 1913.

Glass sand was marketed in greater quantity than ever, the total quantity produced in 1913 being 1,791,800 tons, valued at \$1,895,991. This is an increase in quantity of 326,414 tons and in value of \$465,520 over the production of 1912. The average value per ton rose from 97 cents in 1912 to \$1.05 in 1913.

DELINQUENT TAX SALES.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

The owners and occupants of the following described parcels of real estate situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public, are hereby notified that the taxes and assessments thereon severally assessed for the years hereinafter specified, according to the lists committed by the assessors of taxes of said City to me as collector of taxes for said City, including assessments for the suppression of gypsy and brown-tail moths, remain unpaid, and that the smallest undivided part of said land sufficient to satisfy said taxes and assessments, with interest and all legal costs and charges, or the whole of said land if no person offers to take an undivided part thereof, will be offered for sale by public auction at the City Collector's office, room numbered eleven, in the basement of City Hall, in said City of Boston, on Wednesday, September 2, A. D. 1914, at 9.30 o'clock a. m., for the payment of said taxes and assessments with interest, costs and charges thereon, unless the same shall be previously discharged.

The sums set against the following descriptions of the several parcels of land show the amounts due thereon respectively for the taxes and assessments for the nonpayment of which each of said parcels of land is to be sold, but not including the costs and interests thereon and costs and charges incident to this sale:

WARD ONE.

Carmello Capillo—Buildings and about 15,540 feet of land, numbered 201 Orient avenue, tax for 1912..... \$103 32

Emanuel Downing and Isabella Gallagher, Trustees will of Sarah Downing—Buildings and about 1,335 feet of land, numbered 223 first rear Princeton street, tax for 1912..... 19 68

Also buildings and about 1,335 feet of land, numbered 223 second rear Princeton street, tax for 1912..... 16 40

Caroline W. Duesbury—Buildings and about 2,500 feet of land, numbered 92 Trenton street, tax for 1912..... 45 92

East Boston Company—About 5,755 feet of land on the easterly side of Breed street, being lot 5, H. T. Whitman plan, dated 1893, recorded with Suffolk Deeds, tax for 1912..... 27 88

Also about 6,170 feet of land on the easterly side of Breed street, being lot 6, same plan, tax for 1912..... 31 16

Also about 3,000 feet of land on the easterly side of Breed street, being the southerly part of lot 7, same plan, tax for 1912..... 14 76

Jennie Forgeron (Bk. Div. 3, p. 85)—Buildings and about 2,516 feet of land, numbered 857 Saratoga street, apportionment of sewer assessment for 1912, 3 84

Gertrude Ginsberg, Joseph Goldman and Meyer Weiner—Buildings and about 3,000 feet of land, numbered 447 Frankfort street, to be sold for apportionment of sewer assessment for 1912, 11 20

Then for apportionment of street construction assessment for 1912..... 6 72

Vincenzo Grosso—Buildings and about 1,250 feet of land, numbered 194 Marion street, balance of tax for 1912..... 58 64

James E. Maguire (supposed present owner William C. Maguire) (Bk. 27, p. 6)—About 5,847 feet of land on the northerly side of Bayswater street, making the northwesterly corner of Austin avenue, adjoining an estate now or formerly of Rena F. Sumner (numbered 70 Bayswater street), apportionment of street construction assessment for 1910..... 21 31

Person or Persons unknown, reassessed from George W. Estabrook—About 10,000 feet of land on the southeasterly side of Saratoga street, making the easterly corner of Byron street, adjoining an estate of Timothy D. Sullivan (numbered 789 Saratoga street), to be sold for tax for 1911..... 65 60

Then for apportionment of street construction for 1911..... 19 80

Then for tax for 1912..... 65 60

Then for apportionment of street construction for 1912..... 19 20

Harlow H. Rogers (supposed present owner Edward J. McLaughlin, Trustee will of Eunice McLaughlin)—About 5,000 feet of land on the northerly side of Bennington street, adjoining an estate now or formerly of Eunice McLaughlin heirs or devisees (numbered 490), to be sold for tax for 1911..... 24 60

Then for apportionment of street construction assessment for 1911..... \$39 60

Margaret A. Torrens—Buildings and about 3,636 feet of land, numbered 1150 Bennington street, tax for 1912, 78 72

WARD TWO.

Anthony D. Carbone—About 2,488 feet of land on the northwesterly side of Geneva street, being lot 31, George R. Wadsworth plan, dated March, 1910, recorded Suffolk Deeds, tax for 1912..... \$6 56

Joseph Camuso and Pietro A. Massa, (now set off to Carolina Massa) Buildings and about 1,400 feet, of land, numbered 6 Sumner place, balance of tax for 1912..... 24 60

Joseph Camuso and Pietro A. Massa, (now set off to Amadeo Aliberti) Buildings and about 1,400 feet of land, numbered 8 Sumner place, balance of tax for 1912..... 24 60

John J. Dwyer, Trustee—Buildings and about 1,800 feet of land, numbered 22 Liverpool street, tax for 1912..... 67 24

Timothy F. Legallo—Buildings and about 2,150 feet of land, numbered 241 Everett street, tax for 1912..... 44 28

WARD THREE.

Michael J. Doran—Buildings and about 786 feet of land, numbered 25 and 27 Bunker Hill street, tax for 1912..... \$49 20

Michael J. Feeley—Buildings and about 1,175 feet of land, numbered 28 Cottage street, tax for 1912..... 34 44

Also buildings and about 760 feet of land, numbered 26 Ferrin street, tax for 1912..... 22 96

Also buildings and about 918 feet of land, numbered 44 Cottage street, tax for 1912..... 29 52

Also buildings and about 800 feet of land, numbered 24 Ferrin street, tax for 1912..... 22 96

Annie E. Feeley—Buildings and about 1,274 feet of land, numbered 13 Mystic street, tax for 1912..... 49 20

Also buildings and about 1,296 feet of land, numbered 32 Cottage street, tax for 1912..... 31 16

John P. Reynolds Heirs or Devises, one-half (4), and Annie E. Leary, one-half (4) (Bk. 22 p. 5)—Buildings and about 803 feet of land, numbered 15 Deatur street, apportionment of sewer assessment for 1912..... 1 68

WARD FOUR.

Walter C. Marston, reassessed from Albion Towle—Buildings and about 1,165 feet of land, numbered 38 Sackville street, tax for 1912..... \$11 48

WARD FIVE.

Simon Burman—Buildings and about 2,225 feet of land, numbered 38 and 40 Lincoln street, registered in the Court of Land Registration, certificate number 1703, tax for 1912..... \$111 52

Charles H. D. Murphy—Buildings and about 8,775 feet of land, numbered 46 High street, tax for 1912..... 246 00

WARD SIX.

James Fitzgerald (Bk. 26, p. 8)—Buildings and about 584 feet of land, numbered 381 Hanover street, to be sold for apportionment of sewer assessment for 1910..... \$4 15

Then for apportionment of sewer assessment for 1911..... 3 08

Then for apportionment of sewer assessment for 1912..... 3 08

(Bk. 26, p. 8) Also buildings and about 616 feet of land, numbered 375, 377 and 379 Hanover street, to be sold for apportionment of sewer assessment for 1910..... 4 05

Then for apportionment of sewer assessment for 1911..... 3 02

Then for apportionment of sewer assessment for 1912..... 3 02

WARD SEVEN.

John D. Long, Moses Williams and Charles F. Smith, Trustees under will of John C. Haynes—Buildings and about 1,090 (assessed as 1,092) feet of land, numbered 45 Corning street, tax for 1912..... \$98 88

Catherine V. Matson—Buildings and about 805 feet of land, numbered 13 Oliver place, tax for 1912..... 90 20

Also buildings and about 762 feet of land, numbered 14 Oliver place, tax for 1912..... 90 20

Jacob Tarplin—Buildings and about 1,007 feet of land, numbered 77 and 79 Albany street, tax for 1912..... \$100 04

Hannah I. Tarplin—Buildings and about 831 feet of land, numbered 21 Wheeler street, tax for 1912..... 36 08

WARD EIGHT.

Sarah S. Berman—Buildings and about 1,100 feet of land, numbered 55 and 55A Allen street and 60 Spring street, tax for 1912..... \$224 68

Lawrence Bond, surviving Trustee, under will of Nathaniel Springfield (supposed present owner Willard Welsh) (Bk. 17, p. 20)—Buildings and about 615 feet of land, numbered 9 North Grove street, apportionment of sewer assessment for 1910..... 4 82

Simon Burman—Buildings and about 852 feet of land, numbered 16 Parkman street, tax for 1912..... 113 16

Julia Gordon—Buildings and about 810 feet of land, numbered 54 Auburn street, tax for 1912..... 96 76

Louis Rosenstein—Buildings and about 1,458 feet of land, numbered 40 and 40A Staniford street, tax for 1912..... 339 48

Also buildings and about 2,400 feet of land, numbered 111 and 113 Brighton street, tax for 1912..... 377 20

WARD NINE.

Carl Gerstein—Buildings and about 1,200 feet of land, numbered 668 Harrison avenue, tax for 1912..... \$109 88

Isaac Isaacs—Buildings and about 1,561 feet of land, numbered 26 Dwight street, tax for 1912..... 123 00

Nellie C. Kelliher, three-fifths (3), James P. Kelliher, one-fifth (1), and Josephine D. Kelliher, one-fifth (1)—Buildings and about 905 feet of land, numbered 45 Albion street and 89 and 91 Lucas street, tax for 1912..... 70 52

Morris J. Limer (Bk. 30, p. 32)—Buildings and about 950 feet of land, numbered 24 Seneca street, apportionment of sewer assessment for 1912..... 3 43

John D. Long, Moses Williams and Charles F. Smith, Trustees under will of John C. Haynes—Buildings and about 2,103 feet of land, numbered 10 Middlesex street, tax for 1912..... 232 88

Samuel Price—Buildings and about 1,855 feet of land, numbered 314 and 314A Shawmut avenue and 2A and 2B Union Park street, tax for 1912..... 367 36

Also buildings and about 1,870 feet of land, numbered 312 and 312A Shawmut avenue, tax for 1912..... 246 00

M. Emmie Quincy Trustee under will of William H. Quincy (supposed present owner Florence M. Gilmore) (Bk. 20, p. 21)—Buildings and about 1,269 feet of land, numbered 74 Village street, apportionment of sewer assessment for 1912..... 8 28

Hannah I. Tarplin—Buildings and about 874 feet of land, numbered 45 Village street, to be sold for tax for 1912..... 73 80

Then for apportionment of sewer assessment for 1912..... 5 37

Also buildings and about 1,072 feet of land, numbered 89 Albion street, to be sold for tax for 1912..... 106 60

Then for apportionment of sewer assessment for 1912..... 6 97

Also buildings and about 900 feet of land, numbered 9 Oswego street, tax for 1912..... 85 28

Harry A. Webber (Bk. 22, p. 22)—Buildings and about 1,100 feet of land, numbered 3 Lovering place (now Lovering street), apportionment of sewer assessment for 1912..... 6 91

William Williams—About 170 feet of land on the northeasterly side of Union Park street, between two estates now or formerly of the Roman Catholic Archbishop of Boston, tax for 1912..... 6 56

WARD TEN.

Bertha E. Arseno (now set off to Frank L. Woldman)—About 1,104 (assessed as 1,152) feet of land on the northerly side of Denmark street (formerly and now Batavia street), being the westerly part of lot 9, Fuller-Whitney Surveys Corporation plan, September 15, 1904, recorded with Suffolk Deeds, balance of tax for 1912..... \$27 88

Clara B. Brown—Buildings and about 1,040 feet of land, numbered 13 Appleton street, tax for 1912..... 91 84

Hannah Daly—Buildings and about 1,960 feet of land, numbered 18 Berwick park, tax for 1912..... 109 88

Jacob Tarplin—Buildings and about 1,040 feet of land, numbered 38 Clarendon street, tax for 1912.....	\$104 96
Also buildings and about 1,040 feet of land, numbered 45 Appleton street, tax for 1912.....	91 84
Also buildings and about 2,058 feet of land, numbered 240 West Canton street, tax for 1912.....	108 24
Also buildings and about 1,460 feet of land, numbered 79 Dartmouth street, tax for 1912.....	152 52
Also buildings and about 1,020 feet of land, numbered 10 Dartmouth place, tax for 1912.....	62 32
Also buildings and about 1,065 feet of land, numbered 23 Dartmouth place, tax for 1912.....	62 32
Also buildings and about 1,906 feet of land, numbered 231 West Canton street, tax for 1912.....	124 64
Also buildings and about 2,205 feet of land, numbered 30 Holyoke street, tax for 1912.....	124 64
Also buildings and about 2,205 feet of land, numbered 5 Berwick park, tax for 1912.....	123 00
Also buildings and about 1,960 feet of land, numbered 24 Berwick park, tax for 1912.....	106 60
Also buildings and about 1,960 feet of land, numbered 22 Berwick park, tax for 1912.....	106 60
Also buildings and about 2,271 feet of land, numbered 69 and 71 Falmouth street, and 15 and 15A Norway street, tax for 1912.....	442 80
Also buildings and about 1,908 feet of land, numbered 71 Gainsborough street, tax for 1912.....	254 20
Also buildings and about 1,908 feet of land, numbered 73 Gainsborough street, tax for 1912.....	254 20
Hannah I. Tarplin—Buildings and about 1,400 feet of land, numbered 57 Clarendon street, tax for 1912.....	154 16
Also buildings and about 1,020 feet of land, numbered 12½ Dartmouth place, tax for 1912.....	62 32

JOHN J. CURLEY,
Collector of Taxes for the City of Boston.

CITY OF BOSTON. CITY COLLECTOR'S NOTICE.

SALE OF REAL ESTATE FOR UNPAID EDGESTONE AND SIDEWALK ASSESSMENTS.

The owners and occupants of each of the parcels of real estate hereinafter described, situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public are hereby notified that the assessments made by the Board of Aldermen of said city prior to February 7, A. D. 1910, or the assessments made by the City Council of said city since the first Monday in February, A. D. 1910, on each of said parcels, respectively, for the benefit and advantage received by the parcel by the construction of an edgestone and sidewalk according to the list committed to me as Collector of Taxes of said city by said Board, or by said City Council, respectively, remain unpaid and that the smallest undivided part of each parcel sufficient to satisfy said assessments thereon with interest and all legal costs and charges, or the whole of the parcel if no person offers to take an undivided part thereof, will be offered for sale at public auction at the City Collector's office, room numbered eleven, in the basement of City Hall, in said City of Boston, on Wednesday, September 2, A. D. 1914, at 9.30 o'clock a. m., for the payment of said assessment and the costs and charges thereon unless the same be paid prior to the sale.

The sums set against the following descriptions of the several estates show the amounts due thereon respectively for the assessments for the nonpayment of which each of said estates is to be sold, but not including the costs and interests thereon, and costs and charges incident to this sale.

JOHN J. CURLEY,

Collector of Taxes for the City of Boston.

SUMMARY OF LAWS FOR DEPENDENT CLASSES.

The specific term "pauper" is gradually passing out of use in connection with the poor, and there has been a marked change in recent years in the attitude of the state and public toward those who are unable to provide for themselves, according to the summary of the state laws affecting the dependent classes in the United States soon to be published by Director William J. Harris, of the Bureau of the Census, Department of Commerce.

The census report for 1904 gave an outline of the laws indicating the kind and extent of outdoor relief furnished; the auspices under which it has been disbursed; the class of persons entitled to aid; the methods of almshouse administration and the chief regulations governing them; the treatment of destitute children; the extent of state supervision of almshouses, and in general the pauper statistics of each state. In connection with the report for 1910 this outline was extended so as to summarize all laws affecting the dependent classes up to 1913, including not only inmates of poorhouses and those receiving outdoor relief, but dependent children, the indigent and insane, the feeble-minded, and other defectives; the sick, particularly those suffering from tuberculosis; soldiers and sailors; and the blind and the deaf, so far as their education and training involves special care.

This summary states that in place of the specific term "pauper" there are now used the general terms "poor," "indigent," "dependent," applicable to a great variety of persons; the "pauper asylum" and "poorhouse" are giving place to infirmaries, hospitals, and homes for the aged and infirm. Insane asylums are called state hospitals; state charity with its almost inevitable stigma is gradually giving place to state aid, and it is coming to be recognized that the mere fact of inability to support oneself does not involve necessarily any disgrace.

Thus the laws of the different states affecting dependent, neglected and delinquent children almost invariably contain the caution and the injunction that they should be interpreted liberally to the extent that the child's best interests may be subserved, and with this in view the child, except as an infant, is excluded from the almshouse and from the jail, especially in association with criminals, and is to be placed in a good home or well-conducted institution, or, better still, kept in its own home even if it costs the state something in the form of a mother's pension to keep it there. The sick are to be healed, not merely have their suffering alleviated; and hospitals, sanatoriums, dispensaries, etc., are being organized on every hand for the benefit of those who otherwise would fail of receiving the best nursing

as well as medical treatment in the homes—this is coming to be recognized as part of the duty of the county and town authorities. So also with the insane, the feeble-minded, epileptic, lepers, inebriates, and others who are regarded not so much as drags upon the community who must somehow be taken care of, but as unfortunate to whom the community is debtor for service.

The first state board of charities was organized in Massachusetts in 1863, for the purpose of supervising the whole system of state charitable and correctional institutions. It is significant that the only specification and authorization in that act had to do with paupers. Other states followed the example of Massachusetts and in 1913 the number had reached 37, all with the same avowed purpose—to secure better care for those who cannot care for themselves and to prevent waste in labor and expense for the state.

With this increase in the number of state boards of charities has come more careful study of conditions, involving greater labor and heavier responsibilities far beyond the reach of the voluntary service of those who had other duties as well. It has also become apparent that supervision of charitable work, to be effective, must be accompanied by authority. In some states, in place of the supervising board, administrative boards have been established whose members are salaried employees of the state government and give their whole time to the conduct of the state institutions; in others, supplementary boards have been organized for the conduct of special departments.

Still another change is found in the attitude of the state toward private charitable institutions. In the past an orphanage, or a home for the aged, or a rescue mission, that asked no public appropriation, permitted and received no public supervision, but stood practically on the same basis as a private home, the castle of its owner. All this is passing, and the state is coming to regard the inmates of a charitable institution as having a claim upon its watch and care superior to the claim of the proprietor. In most states the state authorities are still debarred from investigation except on specific request or complaint, but a few place private as well as public institutions on the same footing, while certain institutions, especially home-finding associations, institutions for the insane, maternity hospitals and the like, are not allowed to receive inmates at all except as they receive a license from some state authority.

The summary of the laws in the different states affecting the dependent classes follows this general scheme: Under the heading of "Administrative and Supervisory Agencies" there are two classes, public and private. The public agencies are subdivided into (1) general, including state boards of charities, control, etc.; (2) institutional, including institutions state wide in scope and supported by state funds but under independent boards of trustees or directors; (3) local, including county and town officers. Under private agencies are included institutions not under state control though sometimes receiving some state aid.

Included under the general heading "Poor Relief" are the two subdivisions of conditions of relief and methods of relief. Under conditions of relief are (1) persons entitled to relief; (2) legal settlement; (3) responsibility of relatives. Under methods of relief are (1) institutional relief (poorhouses, etc.); (2) outdoor relief.

Included under the general division

"Classes Receiving Special Care" are (1) children (juvenile courts, boards of guardians, adoption, home-finding, etc.); (2) the sick (in poorhouses, in families, tubercular patients, etc.); (3) the blind and deaf (state institutions, industrial education, etc.); (4) the insane (laws governing the care of indigent insane); (5) the feeble minded (epileptics, inebriates, etc.); (6) soldiers, sailors and marines.

TO LESSEN TOWN FIRES.

The National Fire Protection Association of Boston have, through a committee on construction of buildings, published an ordinance commended to small towns and villages, providing for fire limits and the construction and equipment of buildings. It is an abbreviation of modern requirements representing best practice in building construction and has been compiled with special reference to sections of small towns. It is designed to arrest present hazardous practices and to serve as a reasonable regulation of ordinary building construction in communities where congestion of values is not abnormal. Numerous building experts have advised in its preparation and much effort has been devoted to make it brief in text and broad in scope.

Among the important features of the ordinance are sections providing for the construction of incombustible walls, cornices and roofs. Within the stated fire lines the limit of height is four stories, or 65 feet, except for fireproof construction, which may be ten stories, or 125 feet. The limit of floor area between fire walls of non-fireproof buildings is 5,000, 6,000 or 7,500 square feet, according as they front on one, two or three streets. The area is extended 50 per cent for fireproof buildings and 50 per cent for other buildings fully equipped with automatic sprinklers.

In all buildings except private residences stair shafts and elevator shafts shall be separately inclosed by incombustible partitions; exits are carefully specified and general requirements are provided governing areaways, bay windows, chimneys, coal pockets, concrete construction, cornices, doors, electric installations, partitions, shutters, fire traps and walls, strength of materials, lath and plaster construction, parapets, skylights, stairs, terra cotta construction and the general equipment and installations in building.

A horizontal exit as a means of rapid and safe egress through a fire wall is strongly recommended. The wall or partition should be built of fire-resisting material not less than 3 inches thick, be securely attached to the walls, floor and ceiling of the room which it subdivides and be provided with one or more self-closing fire doors. Each area must be sufficient to accommodate all employed upon the floor and must be provided with at least one independent exit to the street. A doorway in such a partition or fire wall may be considered the equivalent of three times the same width of stairway.

The use of a smokeproof tower or stairway is recommended as one of the best known means of safe escape from a burning building. This also furnishes a protected position from which firemen can attack a fire on any floor. Such a tower is built entirely of incombustible materials and has no direct openings into the interior of the building it serves. It is reached by a fireproof open-air balcony or interior open-air vestibule, thus effectually excluding smoke and fire from the tower.

CITY RECORD

OFFICIAL PUBLICATION OF THE CITY OF BOSTON.

VOL. 6.

SATURDAY, AUGUST 15, 1914.

No. 33

City of Boston.

CITY RECORD.

Published weekly under legislative act by the City of Boston, Mass.

By Subscription \$1.00 Per Year.
Single Copies 5 Cents.
IN ADVANCE.

ADVERTISING.

A rate of 10 cents per agate line has been established for such advertisements as under the law must be printed in the *City Record*. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at all news stands, and at the Mayor's Office, Room 25, City Hall.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

To THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

To THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 37, City Hall, for information relative to the supplying or metering of water and the water charges of the city.

To THE BOARD OF HEALTH, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

To THE BOARD OF PARK AND RECREATION COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city; and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts.

To THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

To THE SCHOOLHOUSE COMMISSIONERS, 120 Boylston street, for information as to the construction and repair of school buildings.

To BOARD OF EXAMINERS at 6 Beacon street, Room 725, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

MUNICIPAL CALENDAR.

Meeting of City Council, Monday, August 17, at 3 p. m.

Meetings of the Boston Transit Commission are held Tuesday and Thursday of each week at 10.30 a. m.

LICENSING OF ELEVATOR OPERATORS.

Applications for licenses to operate passenger elevators, as required by recently enacted statute, may be obtained at the office of the Building Department, City Hall Annex.

GOVERNMENT COTTON CONTRACT.

The attention of the cotton manufacturers of Boston is particularly called to the fact that the Department of War is now ready to receive bids for furnishing and delivering 1,000,000 pounds of unspun short-fiber cotton for nitrating purposes. Specifications may be obtained by addressing the Commandant, Picatinny Arsenal, Dover, New Jersey.

NOTICE OF LAYING OUT AND CONSTRUCTION WORK.

Especial attention is called to the advertisement of the Public Works Department in the current issue of the *City Record* relative to the laying out and construction of highways in South Boston, East Boston, Brighton, Dorchester, city proper and West Roxbury, and that all work in said highways relative to sewer, gas, water or other pipes must be accomplished before September 19, as after that time no permits for openings will be granted until two years after the said highways are completed.

BIDS FOR NAVAL SUPPLIES.

The present activity in Army and Navy circles has resulted in the opening of bids for many supplies. The attention of Boston merchants is particularly called to these bids. The Navy Department invites proposals for furnishing the following supplies:

Bids are invited until August 18 for scoop shovels, schedule 7064.

Bids will be received until August 18 for furnishing the following materials: Schedule 7092, leather belting, fire extinguishers, filters and coolers, boat shutter lanterns, wrought pipe, bronze tubing; schedule 7101, steel bolts and nuts, fire hydrants, slitting saws, gate valves, pig iron, chromium steel; schedule 7105, blank books; schedule 7091, cement compound, alcohol in tank cars, raw linseed oil, aluminum paint, cold-water paint, venetian red; schedule 7100, pipe covering and plastic cement, drawing tables, standard weight flanges, wrought pipe; schedule 7103, portable oil-burning rivet forges, dry neutral blanc-fixe, amorphous graphite; schedule 7083, furnishing and installing a 200 square foot surface condenser with wet vacuum pumps and piping; schedule 7080, household furniture; schedule 7084, broaching machine; schedule 7085, pipe expanding and flanging machine; schedule 7093, North Carolina pine, yellow pine; schedule 7104, cambric cable, metal shrouding; schedule 7095, interior fittings, plug fuses, uncut mica, lighting and power wire, twin-conductor wire; schedule 7102, aluminum sheet, torpedo bronze, bronze tubing, copper tubing; schedule 7094, naval brass, brass bar, sheet brass, round copper rod, copper sheet, pig iron, brass pipe, copper pipe; schedule 7090, sheet lead, bar steel, sheet steel, zinc plates.

Bids will be received until August 25 for furnishing the following materials: Schedule 7096, composition bells for motor boats, sheathing nails, wire rope, screw shackles, cotton sheeting, wrought-iron spikes, brass voice tubing; schedule 7087, burlap, galvanized wrought-iron chain, green baize cloth, hinges, glass skylight lights, crash toweling, paint drier; schedule 7109, candles; schedule 7099, inclosed fuses, copper pipe, cold-rolled steel, engineers' wrenches, glycerin, lard oil; schedule 7088, pig iron; schedule 7081, motors; schedule 7106, steel-head shells; schedule 7086, bathtubs, lavatories, water-

closets, showers, urinals; schedule 7082, windlass; schedule 7107, air hose for diving apparatus, cotton hose, garden hose, suction hose, wash-deck hose; schedule 7108, copper hose, rubber hose; schedule 7098, Douglas fir, lignum-vitæ, sugar pine, white pine, redwood; schedule 7097, powdered aluminum for bronzing, dry yellow ochre, putty, venetian red, vermilion.

Tenders will be received until August 25 for evaporated apples, tinned apricots, lima beans, string beans, corned beef, tinned corn, lemon extract, vanilla extract, macaroni, evaporated peaches, tinned peaches, tinned pears, split peas, tinned prunes, tinned salmon, sirup, tea, tinned tomatoes, schedule 7069.

Boston firms desiring to bid should make immediate application to the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., and give the schedule number of all bids for information desired, as printed above.

A VERY USEFUL AND ORNAMENTAL PLANT.

By CAPT. JOHN H. DILLON, *Chairman Park and Recreation Department.*

The cotton plant, botanically, gossypium, derived from goz, an Arabic word, which signifies a soft substance. The early history of the cotton plant is somewhat involved in obscurity, and one finds it hard to determine in what section of the globe it was first cultivated and applied to purposes of domestic use. One is led to believe that it was unknown to the early Egyptians, or rare amongst them, from the profusion of linen with which they enveloped their mummies. It seems probable that the cotton plant was introduced into Egypt from Persia, and then spread over Asia. There are further accounts of the early Mexicans being clothed in vivid colored cotton garments. The colonists in what are now our Southern states introduced the cotton plant at an early period of their settlement, and its culture was extended to such an extent that it became, and has remained, one of the staple articles of commerce. The state of Georgia produced a very fine grade of cotton. The cotton was extensively cultivated in China, the Indies, Holland, and somewhat in Italy and in Spain. The foliage is vine shaped, and the flowers a beautiful yellow. It can be used by horticulturists for planting in masses, or mixed with other plants in sub-tropical beds, and is very effective when planted in either manner. That it can be grown, and its bolls brought to maturity in Massachusetts, was practically demonstrated in the Public Garden, when plants which were first started in the greenhouse, and then set out in the garden flowered, seeded and ripened, and some of the cotton produced from them was sent to the Lowell Textile School, where it was woven into cloth.

BOSTON POSTAL SAVINGS.

The Boston postoffice in point of postal savings deposits at the end of the fiscal year June 30 was one of the four offices that passed the \$1,000,000 mark. New York leads with \$4,400,000 on deposit, then comes Chicago with \$2,300,000, Brooklyn \$1,500,000 and Boston \$1,100,000. Boston showed a gain of deposits during the year of 31 per cent, and there was an increase of 12 per cent in number of depositors, which on June 30 aggregated 12,441. The average account of the Boston postal savings depositor is growing rapidly. In 1912 it was \$62; in 1913, \$78; and in 1914, \$91.

PUBLIC HEARING.

The Board of Street Commissioners announce a public hearing at their offices, City Hall Annex, relative to the taking of land for schoolhouse purposes in Ceylon street, Dorchester, upon Monday, August 31, at 11 a. m.

PROPOSALS ADVERTISED.

Bids have been asked for by advertisements in the *City Record* by the following departments. The attention of contractors and others is specially called to the closing time for the receipt of such proposals. This will be published weekly.

FIRE DEPARTMENT.

Advertises for proposals for alterations to Engine House 41, Brighton district, Boston. Surety bond will be required in the amount of \$2,500. Blank forms for proposals may be obtained at the office of Fire Commissioner Grady, Bristol street, Boston. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 17, at 12 m.

Advertises for proposals for furnishing the Fire Alarm Branch of the Fire Department rubber insulated, lead-covered cable, comprising about:

- 1,000 feet of 37 conductor.
- 15,800 feet of 20 conductor.
- 10,000 feet of 10 conductor.
- 1,500 feet of 6 conductor.
- 3,100 feet of 4 conductor.

Surety bond will be required in the amount of \$2,500. Blank forms of proposals may be obtained at the office of the Superintendent of Fire Alarms, Fire Department Headquarters, Bristol street, Boston. Bids, accompanied by a certified check in the amount of \$250, to be filed with Fire Commissioner Grady, Bristol street, Boston. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, August 26, at 12 m.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Advertises for proposals for renewing the wooden flooring on the roadways of the draw span of the Charlestown Bridge over the Charles river. Surety bond will be required in the amount of \$3,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at Room 511, City Hall Annex. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Wednesday, August 19, at 12 m.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Advertises for proposals for pipe sewers and drains in Long avenue, between Commonwealth avenue and Allston street, Brighton. Surety bond will be required in the amount of \$300. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Thursday, August 20, at 12 m.

Advertises for proposals for pipe sewers and drains in Museum road, between Huntington avenue and the Fenway, Roxbury. Surety bond will be required

in the amount of \$1,500. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, August 21, at 12 m.

Advertises for proposals for pipe sewers and drains in Chestnut street, between Brimmer street and Charles River Embankment. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$400, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, August 21, at 12 m.

Advertises for proposals for sewerage works in Huntington avenue and Riverway, between Brookline town line and a point 750 feet northeast of Huntington avenue, Roxbury. Surety bond will be required in the amount of \$1,200. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$500, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 24, at 12 m.

Advertises for proposals for pipe sewers and drains in Station street, between Columbus avenue and Parker street, Roxbury. Surety bond will be required in the amount of \$1,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$400, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Monday, August 24, at 12 m.

Advertises for proposals for pipe sewers and drains in Jewett and Folsom streets, and outlets in Mt. Hope street and Neponset avenue, West Roxbury. Surety bond will be required in the amount of \$2,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$800, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, August 25, at 12 m.

Advertises for proposals for sewerage work in Barbara, Edgemont and Houston streets, and outlet in Montview, Rosecliff and Kittredge streets, and outlet in Whitford street and Clarendon and Hillside avenues, West Roxbury. Surety bond will be required in the amount of \$4,000. Blank forms for proposals may be obtained at Room 511, City Hall Annex. Bids, accompanied by a certified check in the amount of \$1,200, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Tuesday, August 25, at 12 m.

SCHOOLHOUSE DEPARTMENT.

Advertises for proposals for selling to the city, land for elementary school, in Eliot-Hancock Districts, Boston, in territory bounded and described as follows: Beginning at the water end of Haverhill street; thence by the center of Haverhill street to Washington street; thence by the center of Washington street to State street; thence by the center of State street to the water; thence by the water to the point of beginning, and containing 25,000 square

feet of land, more or less. A public hearing will be given by the Schoolhouse Commissioners, Tuesday, August 25, at 12 m., at which time the proposals and suitable character of the land will be duly considered.

Bids close Tuesday, August 18, at 12 m.

Advertisers for proposals for erecting and completing fire escapes on the Frothingham School, Prospect and Edgeworth streets, Charlestown. Surety bond will be required in the amount of \$1,500. Blank forms for proposals may be obtained at the office of the Schoolhouse Commissioners, 120 Boylston street, Boston. Bids, accompanied by a certified check in the amount of \$300, to be filed at the same office. Duplicate bid, without check, to be filed with the City Auditor.

Bids close Friday, August 21, at 12 m.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made during the week ending Thursday, August 13, 1914:

ASSESSING DEPARTMENT.

John J. Hastry has been appointed as a temporary clerk in the department, said employment having been allowed by the Civil Service Commission, for a period extending to September 1, 1914. Compensation for services will be by hour and piece work, as per schedule in force in the department.

AUDITING DEPARTMENT.

Julien C. Hayes has been designated to act as City Auditor at such times as the City Auditor may be absent during the four weeks beginning Monday, August 17, 1914.

COLLECTING DEPARTMENT.

William T. Gartland has been designated to serve as Acting City Collector at such times as the City Collector may be absent during the two weeks commencing August 5, 1914.

FINANCE COMMISSION.

Florence Larkin has been appointed temporary stenographer in the office of the commission during the vacation period of Gertrude C. Bayley, at a salary of \$12 the week. Helen Campbell has been appointed temporary visitor at a salary of \$15 the week. Miss Bayley will serve ten days and Miss Campbell seven days.

FIRE DEPARTMENT.

John P. O. Graig has been appointed upon probation in the department, at a salary of \$720 the year. Mr. Craig has had experience in driving automobiles and fire apparatus.

HOSPITAL DEPARTMENT.

The following persons have been employed at the Boston City Hospital during the past week:

To Fill Vacancies.

Permanent.—Charles T. Eagan, orderly \$25 per month; Charles A. Dowd, orderly \$25 per month; Daniel J. McCarthy, desk orderly, \$25 per month; Delia McManus, cook, \$30 per month; John R. Cook, centre orderly, \$20 per month; Mary Carroll, waitress, \$15 per month; Annie Sheehy, wardmaid, \$16 per month; Thomas Carroll, house cleaner, \$1 per day; Stanislaw Petner, house cleaner, \$1 per day; Joseph Vaitkunas, house porter, \$25 per month; Wilfred Kelly,

house porter, \$25 per month; Boleslaw Wrona, house porter, \$25 per month; Tecfil Pawluk, house cleaner, \$1 per day; Eugenie Gray, assistant table girl, \$14 per month.

Temporary.—William H. Keough, blacksmith and leather worker, \$25 per week.

The following employees have had increase of wages:

James Curley, ward porter, \$25 to \$30 per month; Stanis Zubiel, laundress, \$18 to \$20 per month; Addie S. Moses, head nurse, \$35 to \$40 per month; Marguerite R. Burke, nurse, no pay to \$5 per month; Mary T. Cullen, nurse, \$5 to \$8.33 per month; Ida E. Voorhees, nurse, \$8.33 to \$12.50 per month; Lois V. Jomini, nurse, \$8.33 to \$12.50 per month.

LIBRARY DEPARTMENT.

The trustees have authorized the following service changes in the department:

Grade Increases in Pay.—Bessie London, Catalogue Department, \$12 to \$13 per week; Lillian M. Needham, West Roxbury Branch, \$6 to \$7 per week; Frank J. Krigel, Patent Department, \$7 to \$8 per week.

OVERSEEING OF POOR DEPARTMENT.

The Mayor has approved the order of the Civil Service Commission in extending to September 15 the term of provisional clerk David P. Leahy to cover the time of vacations of other clerks in the department.

PARK AND RECREATION DEPARTMENT.

Daniel J. Harkins has been appointed elephant keeper in the department, with wage of \$18 the week, same to take effect on August 17, 1914.

PUBLIC BUILDINGS DEPARTMENT.

John J. Goodfellow, employed in the Street Cleaning and Oiling Division, Public Works Department, with the rating of machine driver, has been transferred to the Public Buildings Department, with the rating of elevatorman, at a salary of \$2.75 the day.

PUBLIC WORKS DEPARTMENT (Paving Service).

Daniel F. Dailey, paver in the service of the Highway Division of the department, has received an increase from \$2.75 to \$3 per day, to take effect August 14, 1914.

PUBLIC WORKS DEPARTMENT (Street Cleaning Service).

Thomas Kilduff has been employed as a laborer in the Street Cleaning Service with wages of \$2.50 the day, to take effect August 14, 1914.

SUPPLY DEPARTMENT.

Francis P. Rock, assistant purchasing agent, has been designated to serve as Acting Superintendent of the Supply Department for two weeks; beginning August 15, 1914, and ending August 29, 1914.

TREASURY DEPARTMENT.

Benjamin S. Turner has been designated to serve as Acting City Treasurer at such times as City Treasurer may be absent during the four weeks commencing August 17, 1914.

OVERTIME ALLOWED.

The heads of various departments whose employees have received payment for overtime state in connection therewith that if any laborer has been allowed to

work more than eight hours per day it has been only in case of emergency under the law.

Election Department.

For the week ending Thursday, August 13, 1914:

Allan H. Farnham, assistant registrar, 2 hours at \$0.75 per hour, \$1.50; Paul D. Kane, assistant registrar, 2 hours at \$0.75 per hour, \$1.50. Total, \$3.

Hospital Department.

For the week ending Thursday, August 13, 1914:

Main Department.—John Deery, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; B. J. Sandiford, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; T. J. McNally, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; W. T. Slater, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50; N. MacPherson, assistant engineer, 8 hours at \$0.43 $\frac{3}{4}$ per hour, \$3.50. Total, \$17.50.

Printing Department.

For the week ending Thursday, August 6, 1914:

George Devlin, caster, 8 hours at \$0.31 per hour, \$2.48; William J. Fitzgerald, caster, 8 hours at \$0.37 per hour, \$2.96; Joseph E. Hart, caster, 8 hours at \$0.43 per hour, \$3.44; Mortimer A. Toomey, caster, 8 hours at \$0.65 per hour, \$5.20; Lewis G. Smith, chief caster, 8 hours at \$0.93 per hour, \$7.44. Total, \$21.52.

Public Works Department (Ferry Service).

For the week ending Monday, August 10, 1914:

Henry H. McCarthy, temporary tollman, 1 day at \$3.75, \$3.75.

Public Works Department (Paving Service).

For the week ending Monday, August 10, 1914:

Henry J. O'Neil, inspector, 2 $\frac{1}{2}$ days at \$3.50, \$7.88.

Public Works Department (Sewer Service).

For the week ending Monday, August 10, 1914:

Office.—John F. Mullin, inspector, 1 day at \$3.50, \$3.50; Michael J. Dagle, inspector, 3 days at \$3.50, \$10.50.

Districts 1, 7 and 8.—Daniel Doherty, laborer, 2 days at \$2.50, \$5; James Clancy, sewer flusher, $\frac{1}{2}$ day at \$3, \$1.50; Michael Mulvey, laborer, $\frac{1}{2}$ day at \$2.75, \$1.38; Cornelius J. Sullivan, laborer, $\frac{1}{2}$ day at \$2.75, \$1.38; Timothy Reardon, sewer cleaner, 1 $\frac{1}{2}$ days at \$3, \$4.50; Michael Patten, laborer, 1 $\frac{1}{2}$ days at \$2.75, \$4.13; Martin Patten, laborer, 1 $\frac{1}{2}$ days at \$2.50, \$3.75.

District 12.—Daniel Murnane, laborer, $\frac{1}{4}$ day at \$2.75, \$0.69. Total, \$36.33.

Public Works Department (Street Cleaning Service).

For the week ending Monday, August 10, 1914:

Charles Noon, driver, 1 day at \$2.75, \$2.75; L. McGahan, teamster, 1 day at \$2.50, \$2.50. Total, \$5.25.

Public Works Department (Water Service).

For the week ending Monday, August 10, 1914:

O. Gilloon, plumber, $\frac{1}{8}$ day at \$3.50, \$0.44; M. Greeley, laborer, $\frac{1}{4}$ day at \$2.50, \$0.31; E. Mahoney, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; J. Mahoney, laborer, $\frac{1}{4}$ day at \$2.50, \$0.63; J. O'Brien, plumber, $\frac{1}{8}$ day at \$3, \$1.59; P. Russell, laborer, $\frac{5}{16}$

day at \$2.50, \$0.78; T. Sullivan, plumber, $\frac{1}{8}$ day at \$3.50, \$0.44; M. Welch, plumber, $\frac{1}{8}$ day at \$3.50, \$2.84; J. Begley, repairer, $1\frac{1}{8}$ days at \$3, \$5.06; J. J. Breen, laborer, $1\frac{1}{8}$ days at \$2.50, \$4.22; D. Burke, laborer, $1\frac{1}{8}$ days at \$2.50, \$4.22; H. Campbell, repairer, $1\frac{1}{8}$ days at \$3, \$5.06; M. Daly, laborer, $1\frac{1}{8}$ days at \$2.50, \$4.22; M. Durand, inspector, $\frac{1}{8}$ day at \$3.50, \$2.84; J. Hayes, laborer, $\frac{1}{8}$ day at \$2.50, \$2.03; M. Hogarty, repairer, $\frac{1}{8}$ day at \$2.75, \$0.69; P. Heffernan, repairer, $\frac{1}{8}$ day at \$3, \$1.50; J. Hourihan, laborer, $1\frac{1}{8}$ days at \$2.50, \$4.22; J. W. Kelly, laborer, $1\frac{1}{8}$ days at \$2.50, \$4.22; J. Lyons, laborer, $\frac{1}{8}$ day at \$2.50, \$2.03; M. McLaughlin, repairer, $\frac{1}{8}$ day at \$3, \$2.44; J. W. Murphy, laborer, $\frac{1}{8}$ day at \$2.50, \$0.63; W. O'Connor, inspector, $\frac{1}{8}$ days at \$3.50, \$5.25; T. Riley, laborer, $\frac{1}{8}$ day at \$2.50, \$2.03; I. Saperstein, repairer, $\frac{1}{8}$ day at \$3, \$2.44; C. Sullivan, laborer, $1\frac{1}{8}$ days at \$2.50, \$4.22; J. Morrissey, plumber, $\frac{1}{8}$ day at \$3.50, \$0.88; J. Ryan, plumber, $2\frac{3}{8}$ days at \$3.50, \$7.98; W. Donovan, laborer, $\frac{1}{8}$ day at \$2.50, \$0.63; D. Brady, laborer, $\frac{1}{8}$ day at \$2.50, \$0.31; H. Cauley, repairer, $\frac{3}{8}$ day at \$2.75, \$1.03; G. Greer, repairer, $\frac{1}{8}$ day at \$3.50, \$0.88; J. Killacky, laborer, $\frac{1}{8}$ day at \$2.50, \$0.31; T. Lyden, laborer, $\frac{1}{8}$ day at \$2.50, \$0.63; P. McLaughlin, laborer, $\frac{1}{8}$ day at \$2.50, \$0.31; O. McDermott, laborer, $\frac{1}{8}$ day at \$2.50, \$0.63; J. McMahon, laborer, $\frac{3}{8}$ day at \$2.50, \$0.94; J. Riley, laborer, $\frac{1}{8}$ day at \$2.50, \$0.31; J. Williamson, laborer, $\frac{1}{8}$ day at \$2.50, \$0.31; E. Gray, laborer, $\frac{1}{8}$ day at \$2.50, \$1.25; P. Halligan, laborer, $\frac{1}{8}$ day at \$2.50, \$0.63; J. McNulty, repairer, $\frac{3}{8}$ day at \$2.75, \$1.03; D. Shea, laborer, $\frac{1}{8}$ day at \$2.50, \$0.63; J. Coyne, repairer, $1\frac{1}{2}$ days at \$2.75, \$4.13; J. Cummings, laborer, $1\frac{1}{2}$ days at \$3.50, \$5.25; M. Mathews, laborer, $1\frac{1}{2}$ days at \$2.50, \$3.75; J. Price, laborer, $1\frac{1}{2}$ days at \$2.50, \$3.75; P. Cassen, laborer, $1\frac{1}{2}$ days at \$2.50, \$4.38; W. Curran, repairer, $1\frac{1}{2}$ days at \$2.75, \$4.81; P. Doherty, laborer, $1\frac{1}{2}$ days at \$2.50, \$4.38; C. Hegarty, repairer, $1\frac{1}{2}$ days at \$2.75, \$4.81; D. Murphy, laborer, $1\frac{1}{2}$ days at \$2.50, \$4.38; J. Noonan, laborer, $\frac{1}{8}$ day at \$2.50, \$0.63; J. Reed, laborer, $1\frac{1}{2}$ days at \$2.50, \$4.38; F. Skaynor, repairer, $\frac{1}{8}$ day at \$2.75, \$1.38; J. Logue, laborer, $\frac{1}{8}$ day at \$2.50, \$0.63. Total, \$130.33.

CITY TREASURY REPORT.

The July statement of City Treasurer Slattery shows total receipts of the City of Boston last month of \$8,680,330, of which \$6,629,354 was from the sale of bonds and \$1,000,000 from temporary loan negotiated at 3 per cent. The premium received on the \$6,558,000 bonds issued last month was \$91,090.

July payments were \$3,918,171, leaving a balance of receipts amounting to \$4,762,129, which will be sufficient to carry the city along until the payment of taxes without further temporary borrowings.

On July 1 the city had a cash balance of \$7,268,383 in its general fund, which includes special and trust accounts. With the exception of \$208,207 in cash and cash vouchers in the office of the treasurer, this rising \$7,000,000 balance is on deposit with Boston banks.

The banks having the largest deposits of the city's funds, both general and sinking fund accounts, which amount to \$10,569,494, are as follows:

Old Colony Trust Company...	\$1,000,475
Merchants' National Bank...	984,500
First National Bank.....	939,102
Second National Bank.....	909,883
National Shawmut Bank.....	807,756

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states his intention to construct a surface drain of 12-inch earthen pipe in Board of Survey street No. 2244, east of Rowe street and north of Ashland street, West Roxbury, at an estimated cost of \$200.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 10-inch earthen pipe in Matchett street, from Washington street to Perthshire road, Brighton, at an estimated cost of \$1,990.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 10-inch earthen pipe and a surface drain of 10-inch earthen pipe in Belvista road, from Woodstock avenue to Allston street, Brighton, at an estimated cost of \$1,432.

The Commissioner of Public Works states his intention to construct a sanitary sewer of 12-inch earthen pipe in Dorchester avenue, from Hyde street about 155 feet northerly, South Boston, at an estimated cost of \$908.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

PUBLIC WORKS DEPARTMENT.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force, without advertising for competitive bids:

Resurface with asphalt macadam Saratoga street, from Central square to Putnam street, East Boston. Estimated cost for labor and materials, \$2,000.

Resurface with asphalt macadam Saratoga street, from Moore to Addison street, East Boston. Estimated cost for labor and materials, \$2,500.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved by his Honor the Mayor:

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$972.74, on contract with W. S. Rendle for constructing half-tide dam across sluiceway at Southampton street, South Boston, on account of extending wing-walls for an additional length of about sixty feet. Original contract, \$975; total addition, \$972.74; contract as standing, \$1,947.74.

An addition, amounting to \$15, on contract with George J. Regan for sewerage works in Marsh street, between Hallett-Davis street and 1,000 feet westerly, Dorchester, on account of pumping water from trench during delay caused by changing water main. Original contract, \$744.44; total addition, \$15; contract as standing, \$759.44.

An addition, amounting to \$200.80, on contract with Thomas Burke for excavating and refilling trenches and openings, setting and regulating boxes, establishing hydrants, gates, etc., on account of cutting edgestone, Shawmut avenue; capping Lowry pot, Brookdale street; assisting inspector replacing cap, filling pipe, etc., Townsend street; hauling, handling and laying 308 feet of 8-inch pipe, Marion street; removing tree stump, Washington street; regulating 150 feet of 12-inch pipe, Lake street. Original contract, \$16,382.75; total additions, \$820.91; contract as standing, \$17,203.66.

An addition, amounting to \$833.67, on contract with Antony Cefalo for sewerage works in Pleasant street, between Eliot street and Washington street, city proper, on account of pumping sewerage from 20-inch pipe in Kirkland street; excavating under gas pipes to lay 12-inch pipe spur, west side Shawmut avenue; extra sheeting and pumping caused by leak in water pipe at station 9+58, easterly side; extra labor on account of gas and water pipes north of Tremont street; changing combination manhole for house drains at station 9+15, easterly side; pumping and cleaning out manhole; backfilling and paving at manhole at end of 10-inch pipe on

Shawmut avenue, caused by Edison Electric Illuminating Company occupying trench at same time; delay on account of waiting for casting; delay caused by Edison Electric Illuminating Company at catch-basin, north side of Kirkland street; setting Bradley head at 5 Pleasant street. Original contract, \$15,958.50; total additions, \$2,916.11; contract as standing, \$18,874.61.

PUBLIC WORKS DEPARTMENT (Water Service).

An addition, amounting to \$103.86, on contract with John Guarino for laying water pipe in various streets in West Roxbury, Roxbury and Hyde Park, on account of setting hydrant, Cross street, West Roxbury; repairing broken pipe, Regent street, Hyde Park; extra work due to obstructions, Worthington street, Roxbury; setting hydrant, Wren street, West Roxbury. Original contract, \$10,374; total additions, \$180.94; contract as standing, \$10,554.94.

SCHOOLHOUSE DEPARTMENT.

An addition, in the amount of \$46, upon the contract with J. J. Hurley for work at the Agassiz School, for installing a wooden door in the storeroom adjacent to the primary radiators, to be covered with galvanized iron and match the finish of the room. Original contract, \$1,215; total addition, \$46; contract as standing, \$1,261.

CLAIMS.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of John E. Burns, in the amount of \$1,675.33, for breach of two contracts. The first for the construction of a surface drain in Howard avenue, Dorchester, and the second for construction of surface drain and sewer in Chadwick street and Orchard place, Roxbury.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of John S. Gordon, in the amount of \$35, for personal injuries caused by projecting nail in street opposite 2129 Washington street, November 28, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of William Kyle, in the amount of \$250, for injuries caused by a defective chair in the Charlestown High School, September 15, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of John Slattery, in the amount of \$1,446.71, for breach of contracts on Munroe street and Geneva avenue, Dorchester, December 27-30, 1905.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of James W. O'Brien, in the amount of \$1,002.75, for breach of contract for drain construction in Rockville street, Dorchester, December 30, 1905.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Joseph Wolonguviez, in the amount of \$524, for trespass upon land in Ralston street, Dorchester, March 1, 1913.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Peter W. Hill, in the amount of \$1,300, for balance due on contract in Porter street, between Frankfort and Cottage streets, East Boston, October 6, 1909.

The Mayor has approved, with the indorsement of the Corporation Counsel, the claim of Peter W. Hill, in the amount of \$1,200, for balance due on contract in Rogers avenue, Roxbury, August 4, 1908.

STREET COMMISSIONERS.

The Mayor has approved the order of the Board of Street Commissioners in the taking of land for sewerage works in Board of Survey street No. 2244, West Roxbury, and containing 768 square feet, more or less. The sewerage works to be constructed will be about 96 linear feet of 12-inch pipe surface drain. The Board determines that no persons sustain damages to their estate by the taking for and construction of the sewerage works.

The Mayor has approved the order of the Board of Street Commissioners in the taking of land for sewerage works in Matchett street and Hunnewell avenue, Brighton, and containing one parcel of 1,905 square feet, more or less, and another parcel containing 3,290 square feet, more or less. The sewerage works to be constructed are about 800 linear feet of 10-inch sanitary sewer. The Board determines that no persons sustain damages to their estate by the taking for and construction of the sewerage works.

The Mayor has formally approved the following orders of the Board of Street Commissioners relative to the laying out and construction of streets:

The Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of Whitfield street, Dorchester, as a highway, from Talbot avenue to Norfolk street, and awards no damages therefor.

The Board estimates that the estates hereinafter specified are all the estates which will receive benefit or advantage from the improvement above specified, beyond the general advantage to all real estate in said city, each to the amount hereinafter set against it:

FIRE DEPARTMENT ORDERS.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 10, 1914.

General Orders No. 103.

I. ENGINE 11.

1. Horse-drawn Engine 11, Byron and Saratoga streets, District 1, has been replaced by an American-LaFrance combination pumping engine, hose wagon and chemical engine. This engine has a pumping capacity of 800 gallons per minute.

This automobile carries one 40-gallon chemical tank, one pony extinguisher, 200 feet of chemical hose, 1,000 feet of 2½-inch hose.

Weight, without men, 9,400 pounds.

2. The automobile hose tender of Engine 11 was taken out of service.

II. ENGINE 45.

1. Horse-drawn Engine 45, Washington and Poplar streets, District 13, has been replaced by an American-LaFrance combination pumping engine, hose wagon and chemical engine. This engine has a pumping capacity of 800 gallons per minute.

This automobile carries one 40-gallon chemical tank, one pony extinguisher, 200 feet of chemical hose, 900 feet of 2½-inch hose.

Weight, without men, 9,400 pounds.

III. COMMENDATIONS.

1. Acting District Chief Allan J. Macdonald of District 3 is hereby commended for responding to an alarm from box 241, July 22, 1914, while on a day off.

2. Capt. John P. Murray of Engine Company 36 is hereby commended for responding to an alarm from box 85, July 27, 1914, while on a day off.

By order of the Fire Commissioner,

PETER F. McDONOUGH,
Chief of Department.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 10, 1914.

General Orders No. 111.

I. EXAMINATIONS FOR PROMOTION.

1. Examinations for promotion in this department, in addition to the one announced in General Orders No. 101, c. s., will be held as follows:

a. For promotion from the rank of lieutenant to the rank of captain, Monday, August 17, 1914.

Only members of this department who will have served as lieutenants for three years or more on August 17, 1914, are qualified to take this examination.

b. For promotion from the rank of captain to the rank of district chief, Tuesday, August 18, 1914.

Only members of this department who will have served as captains for three years or more on August 18, 1914, are qualified to take this examination.

c. For promotion from the rank of district chief to the rank of deputy chief, Friday, August 21, 1914.

Only members of this department who will have served as district chiefs for one year or more on August 21, 1914, are qualified to take this examination.

2. Only the first two pages of the application blank need be filled out and sworn to by a justice of the peace.

3. The examination will be based on the subjects outlined in Bulletin No. 3.

By order of the Fire Commissioner,

JOHN O. TABER,
Acting Chief of Department.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 10, 1914.

General Orders No. 112.

I. UNPAID POLL TAXES, 1913.

In accordance with a request from the City Collector all members and employees of this department who have failed to pay their poll tax for 1913 will do so at once. In this matter attention is hereby called to section 226 of the Rules and Regulations.

By order of the Fire Commissioner,

JOHN O. TABER,
Acting Chief of Department.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 11, 1914.

General Orders No. 113.

I. EXAMINATIONS FOR PROMOTION.

1. Sub-section "c," section 1, paragraph I, General Orders No. 111, c. s., is hereby amended as follows:

Strike out the words "one year" in the fourth line of said sub-section, and substitute in place thereof the words "six months," so that the sub-section will read as follows:

c. For promotion from the rank of district chief to the rank of deputy chief—Friday, August 21, 1914. Only members of this department who will have served as district chiefs for six months or more on August 21, 1914, are qualified to take this examination.

By order of the Fire Commissioner,

JOHN O. TABER,
Acting Chief of Department.

HEADQUARTERS FIRE DEPARTMENT,
BOSTON, August 13, 1914.

General Orders No. 114.

I. EXAMINATIONS FOR PROMOTION.

1. The examination for promotion from the rank of lieutenant to that of captain will be held in Room No. 15, State House, Boston, on Monday, August 17, 1914, at 9 a. m., sharp.

2. The examination for promotion from the rank of captain to that of district chief will be held in Room No. 15, State House, Boston, on Tuesday, August 18, 1914, at 9 a. m., sharp.

3. The examination for promotion from the rank of district chief to that of deputy chief will be held in Room No. 15, State House, Boston, on Friday, August 21, 1914, at 9 a. m., sharp.

4. Each applicant must bring his own penholder, pen, blotter, pencil, eraser and ink.

5. The time for taking the examination will be arranged as follows:

a. Days off August 16, 17 and 18 will begin at 8 a. m.

b. Changes in days off must be made so that all lieutenants taking the examination will go on day off August 17, and all captains taking the examination will go on day off August 18.

By order of the Fire Commissioner,

JOHN O. TABER,
Acting Chief of Department.

FINANCE COMMISSION.

BOSTON, August 10, 1914.

To the Honorable the Mayor and City Council:

GENTLEMEN,—There are serious objections to the passage of the proposed appropriation by the City Council of \$125,000 to pay for the taking by eminent domain of the land of ex-Governor Foss, which partly adjoins the Forsyth Dental Infirmary on Hemenway street and the Fenway.

The project for acquiring the land adjoining the Forsyth Dental Infirmary was first agitated in the last year of the last administration, when the Mayor recommended to the Council the acquisition of this site, in order to provide a perspective for the building.

The plan was laid aside by the City Council after it had learned from the officials of the Park and Recreation Department that the improvement would cost \$250,000, of which \$235,000 would be paid for the taking of the land and \$15,000 for grading.

The building of the Forsyth Dental Infirmary has at the present time a 50-foot space on each side and abuts on open streets on the front and rear, the façade fronting on the Fenway and the rear of the building on Hemenway street.

The real purpose of the order for the taking is to add to the æsthetic appearance of the building. In order to do this it will be necessary not only to take the Foss land, assessed at \$140,000, but also the three brick apartment houses on Hemenway street, assessed for \$48,000, which jut into the Foss land and conceal one-half of the flank of the building.

The Mayor has stated that the improvement will cost \$125,000. The Finance Commission is of the opinion that the Mayor is mistaken in the amount he has estimated and that the amount required will be \$250,000, if not more, as formerly estimated by the Park and Recreation Department. The passage of this proposed appropriation means the establishment of a policy of embellishing private buildings by the city. The Christian Science Church trustees have long urged the city to take over the care and maintenance of the Christian Science park, but without success. If it is decided to make an appropriation for the taking of the land adjoining the Forsyth Dental Infirmary, the city cannot in justice deny the plea of the Christian Science Church trustees. Neither can the petitions of other corporations and individuals be refused when the city is asked to adorn their buildings.

The Finance Commission is of the opinion that the city should not expend money to improve the æsthetic conditions of private institutions, even though those institutions are used for philanthropic purposes. It is also of the opinion that business conditions are of such a nature at the present time that it would be bad financial policy on the part of the city to expend a quarter of a million dollars for the proposed taking of the land in question.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

BOSTON, August 13, 1914.

HON. JAMES M. CURLEY, Mayor:

SIR,—The Finance Commission submits a report in addition to the partial report of June 29, 1914, covering the defalcations of \$5,066.69 from the charity trust funds of the Overseers of the Poor by Frederick L. Gillooly.

The Edwin S. Morse Company, public accountants and auditors, has finished its examination of the accounts of the Overseers of the Poor and the commission submits such portions of the accountants' report which refer to the embezzlements of Frederick L. Gillooly.

The report shows two more defalcations, the first amounting to \$2,395.14, taken from the money sent by various cities and towns to the Overseers of the Poor, from December 31, 1910, to February 15, 1913, for the support of dependents living in

Boston and who had legal settlements in these cities and towns, and the second, amounting to \$816.66, taken from the fund known as the Wood account. The total of the discovered defalcations of Frederick L. Gillooly, taken from the three different accounts, amounts to \$8,278.49.

The accounts of the Overseers of the Poor have been examined each year by accountants who have reported that they were correct. The accountants have been paid for their services.

In view of all these facts the Finance Commission is of the opinion that there has been negligence in the work of the accountants of the Overseers of the Poor and recommends that the question of whether or not these accountants are liable for negligence to the city be referred to the Corporation Counsel for such action as he would recommend.

The commission further recommends that these two defalcations of Frederick L. Gillooly be referred to the District Attorney of Suffolk County.

Respectfully submitted,

THE FINANCE COMMISSION,
by JOHN R. MURPHY,
Chairman.

THE LIGHTING CONTRACT.

The Hon. John A. Sullivan, Corporation Counsel, is in receipt of the following communication from President Edgar of the Edison Electric Illuminating Company, relative to the municipal lighting contract:

BOSTON, August 11, 1914.

HON. JOHN A. SULLIVAN,
Corporation Counsel:

DEAR SIR,—At the semi-public hearing held by the Executive Committee of the City Council in the afternoon and evening of August 10, when there was under consideration a contract for lighting the streets of Boston executed March 18, 1914, by the Edison Electric Illuminating Company of Boston and L. K. Rourke for the City of Boston, another question regarding the proper interpretation of a clause in the contract was raised by Mr. John P. Feeney. The question being one of interpretation, the Edison Company desires to state what its interpretation is, in the same manner in which it stated its interpretation of other provisions in the letter of May 1 to you.

The question is whether the provision substituted in the main body of the contract for the provision for arbitration set out in the last clause of the third of the terms and conditions enables the city to have more than one arbitration or investigation of the question whether the cost to the company of furnishing the service has been reduced. Mr. Feeney contended that the last sentence of this provision showed that the proper interpretation of this provision was that there could be only one arbitration. The company does not believe that Mr. Feeney is right, and desires to admit, in as binding a manner as is possible, so that the admission shall operate as an estoppel to prevent it from making any other contention, that the true interpretation of this provision is that the question may be arbitrated or investigated at any time, and as many times as the city or company may demand, whether or not any decision of the investigators or arbitrators has been affirmed or set aside by the Supreme Court on the ground that the constitutional rights of either party have been infringed.

It has been quite generally stated by the opponents of the contract that the pro-

vision for arbitration contained therein is not as suitable as the provision contained in the Terms and Conditions, for which it is a substitute. As has been stated several times, the provision in the proposed contract is copied word for word from the similar provision of the contract for 1909, when the change was made at the demand of the then Corporation Counsel, Mr. Babson. It is absolutely immaterial to the company which provision for arbitration is adopted. It is impossible, however, under the statute for the company and the city to change or amend the proposed contract unless a new contract is made and another public hearing had upon it. The making of a new contract incorporating this substantive change would mean a loss to the city of somewhere in the neighborhood of from \$40,000 to \$45,000, because any new contract that was made could not, under the policy of the Gas Commission, be dated back to April 1, so that the city would obtain the benefit of the new price only from the date of the execution of the new contract instead of from April 1. The company suggests, therefore, that if the contract as it stands at present is approved by the City Council, and the city shall desire, a formal amendment to the contract be subsequently entered into striking out the provision for arbitration, which is substituted for the last clause of the third of the Terms and Conditions, so that said last clause shall be operative as it appears in the third of the Terms and Conditions. The company on its part agrees to make this amendment after the contract is approved, if the city desires.

Respectfully yours,

THE EDISON ELECTRIC ILLUMINATING
COMPANY OF BOSTON,
by CHARLES L. EDGAR,
President.

August 11, 1914.

This letter has been submitted to and is approved by

BURDETT, WARDWELL & IVES,
Attorneys for
THE EDISON ELECTRIC ILLUMINATING
COMPANY OF BOSTON.

LOCAL EXAMINATIONS FOR WORK IN BOSTON HARBOR.

The United States Civil Service Commission announce an open competitive examination for the position named above. As a result of this examination certification will be made to fill a vacancy in the position specified, and vacancies in positions requiring similar qualifications in the different branches of the Federal classified service at the place, or in the vicinity of the place, named above, unless it should be found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

No educational test will be given and applicants will not be assembled for a mental examination. The examination will consist of the subjects mentioned below, which will have the relative weights indicated.

Subjects.	Weights.
1. Physical ability.....	40
2. Training and experience.....	60
Total.....	100

Applicants must have had actual experience as marine fireman.

All statements relating to training and experience are accepted subject to verification. No applicant will be eligible for

appointment who fails to attain a rating of at least 70 per cent in the subject of training and experience. Applicants should name in their applications, as references, employers or other persons who are competent to furnish information relative to the applicants' fitness for the positions sought, and these persons will be communicated with. Unless answers are received from these persons within two weeks from the date of sending the communications the applications may be canceled.

The following physical defects will debar applicants from any examination: Insanity, tuberculosis, paralysis, epilepsy, blindness, loss of both arms or both legs, loss of arm and leg; badly crippled or deformed hands, arms, feet, or legs; uncompensated valvular disease of the heart, locomotor ataxia, cancer, Bright's disease, and diabetes. In addition, persons who have lost an arm or a leg, or who are ruptured, are ineligible for appointment to positions in the Custodian Service. Other physical defects will render applicants ineligible for any particular service or position when, in the judgment of the Commission, such defects would disqualify them from the duties required.

An applicant who is unable to write may have his application filled in by another and sign it by mark, which must be properly witnessed; but only those eligibles will be certified for appointment in the Custodian Service whose applications are in their own handwriting.

The age limits for the different branches of the service are as follows: Quartermaster Corps, men, 20 to 50 years; women, 18 to 50 years; Engineer Department at Large, 18 years or over; Custodian Service, 20 to 50 years; other branches, 20 years or over. The age limits are waived in the case of persons honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds received or sickness incurred in the line of duty.

No application will be accepted unless properly executed and filed with the district secretary prior to the hour of closing business on September 8, 1914.

Address all inquiries to Secretary, First Civil Service District, 141 Postoffice Building, Boston, Mass.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

Competitive examinations of applicants for positions in the classified service will be held in Boston as follows:

FOR THE SERVICE OF THE COMMONWEALTH.	
1914.	
Oct. 21.	Foreman of Laborers, Inspectors of Work, Class 22.
Oct. 27.	Drawtenders, Assistant Drawtenders, Class 25.
Nov. 2.	Clerks, Messengers, Class 3.
Nov. 16.	Stenographers, Class 9.
Dec. 7.	Civil Engineers, Class 27.
Dec. 17.	Metropolitan Park Policemen, Class 16.
1915.	
Jan. 19.	Prison Watchmen, Class 17.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply.

Blank applications (Form No. 1) can be obtained by applying to the Civil Service Commission, State House, Boston, and when filled out, should be filed in the office of the commission at once.

In order to receive a notice to appear at any of the above-scheduled examinations, an applicant should have his application on file at least ten days before the date set for holding the examination.

BAND CONCERTS FOR THE SUMMER OF 1914.

Aug. 17.	Everett square, Hyde Park.
Aug. 21.	Charlesbank.
Aug. 24.	Gibson Street Playground.
Aug. 25.	Washington Park.
Aug. 27.	Mt. Hope Playground.
Aug. 16.	Marine Park.
Aug. 23.	Marine Park.
Aug. 30.	Marine Park.

Aug. 16.	Jamaica Pond.
Aug. 23.	Jamaica Pond.

BOSTON'S MUNICIPAL GYMNASIA.

The following is a list of the free Park and Recreation gymnasias and instructors in charge:

Curtis Hall, Jamaica Plain.	—Joseph J. McNamara.
Cabot Street, Roxbury.	—Matthew M. Leary.
Columbia Road.	—George E. Fraser and William E. Mullen.
Ward 9, Harrison Avenue.	—Henry J. Brennan.
Ward 7, Tyler Street.	—John A. Lane.
D Street, South Boston.	—Leo C. Knebel.
North Bennet Street, North End.	—James F. Winston.
Paris Street, East Boston.	—John J. Driscoll.
Bunker Hill Street, Charlestown.	—Maurice R. Smith.

All of them are conducted entirely free of charge. Membership in a class in any one of them may be obtained by making application to the instructor. The requirements are simple. Each applicant must agree to observe the rules of the gymnasium, and must provide himself with proper gymnasium costume.

Classes for men will be held on Tuesday and Friday mornings at 10.30 and in the evenings at 8 o'clock. The morning lessons are devoted largely to men who are preparing for civil service examinations for Police and Fire Departments, but in the night classes all grades of instruction are offered.

Classes for women are held on Mondays and Thursdays. At 10.30 in the morning instruction is given in calisthenics, general upbuilding exercises and in gymnastic and aesthetic dancing. At 8 o'clock in the evening similar instruction is given to young ladies and working girls. And at 4.30 in the afternoon school girls' classes are formed for games, dancing and calisthenics.

Wednesday and Saturday afternoons and Saturday mornings classes are held for school boys. They are given gymnastic drills, athletics and play. And on Wednesday and Saturday nights classes are formed for working boys. They are given recreational exercise and athletics. Both school boys and working boys are given much time for free play.

GYMNASIUM HOURS AND CLASSES.

MONDAY — WOMEN AND GIRLS.

Women, 10 a. m. to 12 m.; class at 10.30. School Girls, 3 to 6 p. m.; class at 4.30. Women, 7.30 to 10 p. m. class at 8.

TUESDAY — MEN AND HIGH SCHOOL BOYS.

Civil Service Class, 10 a. m. to 12 m.; class at 10.30. High School Boys, 3 to 6 p. m. Men, 7 to 10 p. m.; class at 8.

WEDNESDAY — MEN, SCHOOL AND WORKING BOYS
Men, 10 a. m. to 12 m.; School Boys, 4 to 6 p. m.; class at 4.30. Working Boys, 7.30 to 10 p. m.; class at 8.

THURSDAY — WOMEN AND GIRLS.

Same as Monday.

FRIDAY — MEN AND HIGH SCHOOL BOYS.

Same as Tuesday.

SATURDAY — SCHOOL AND WORKING BOYS AND MEN.

Junior Boys, 10 a. m. to 12 m. Senior Boys, 2 to 4 p. m.; class at 2.30. Men, 4 to 6 p. m. Working Boys, 7.30 to 10 p. m.; class at 8.

BITULITHIC OVER MACADAM PAVEMENT.

The economical, resurfacing of old macadam streets on which traffic has increased until a better wearing surface is demanded is a problem which troubles many cities. The successful solution of the problem on several streets in Boston warrants a description of the method used. The specifications are given almost in full because they show how to meet one of the difficulties, that of keeping the cost as low as it should be, by the simple expedient of paying for all labor directly. The method of separating the other items and leaving them open to competition in the bidding is ingenious and should result in the lowest possible cost of the completed work.

In the year 1903 bitulithic surface on a crushed stone macadam foundation was laid on Dartmouth street, from Newbury street to Beacon street, in the fashionable residential Back Bay district of Boston.

The Dartmouth street pavement, now eleven years old, has proved so satisfactory that the taxpayers of Marlborough street, which intersects Dartmouth, have for several years urgently petitioned for the laying of bitulithic on Marlborough street, from Clarendon street to Massachusetts avenue. In the meantime the city has been attempting to keep the macadam on Marlborough street in repair by the frequent addition of new stone and surface applications of various forms of bituminous material, all of which have proved to provide periodically a dusty, muddy, oily and generally quite unsatisfactory wearing surface. During the spring of the present year Mayor Curley directed that the petition of the property owners requesting a new pavement be complied with, and Commissioner Rourke awarded the contract to James Doherty for surfacing the macadam with bitulithic at a cost of \$1,645 per square yard, including five-year guaranty.

The bitulithic surface mixture is being made by Warren Brothers Company, at its permanent plant in East Cambridge, about two miles from the site of the work on Marlborough street. The contract price of bitulithic surface is \$1.48 plus 16½ cents per square yard for scarifying and regulating the grade of the old macadam. This price does not include the hauling away of granite crosswalks, granite paving block gutters and other surplus materials, nor the furnishing of new stone to take the place of the gutter paving and crosswalks. It is estimated that the old granite gutter blocks and crosswalks removed by the city are worth about fifteen cents per square yard of entire area of the street, so that the net cost of the improvement complete is about \$1.50 per square yard.

Owing to the fact that crushed stone has been periodically rolled into the surface for about twenty years, the crown has become undesirably high, necessitating regulation of the surface and reshaping the crown by picking off the surplus macadam at the crown and placing it in the gutter and depressions in the surface of the old macadam. After this regulation of grade the macadam is rerolled and the standard crown of ¼-inch per foot of width and uniform grade thus established. All labor in connection with the regulation and rolling of the grade, but as noted above no new material in foundation, is included the gross cost of \$1,645 per square yard.

If the crown of the old macadam had not been raised by many years' accumulation of repairs the picking of the surface would have been unnecessary, except as

to the few high spots which are always found to a greater or less extent on old macadam surface. It is most economical and desirable to build on the old macadam without disturbing it. During the years 1912 and 1913 Warrenite road was laid in Connecticut, under contract with the state highway department, to the extent of 55.9 miles of roadway, 16 feet wide, most of which was laid over the old macadam without disturbing it.

Warren Brothers Company's latest specifications include the following provisions applicable particularly to this class of construction:

"It is the general intention of this specification that the different parts of the existing macadam roadbed shall be given such treatment as will most economically give the desired results and any or all of the methods of treatment given below, or a combination of them, may be adopted at the discretion of the engineer for different portions of the work.

"1. Where the existing surface of the macadam is generally of suitable grade and contour, the surface of the existing macadam shall be swept for the width to be surfaced so as to dislodge and remove the detritus and expose the stone. The ruts and depressions existing shall be filled with bituminous binder which shall be compacted by tamping and rolling, so that the finished subgrade shall be parallel to and substantially 2 inches below the proposed finished surface of the road. Bituminous binder shall be made as herein specified and shall be paid for at the price bid per ton of 2,000 pounds delivered on the site of the work. The cost of spreading, tamping and rolling the binder shall be paid for at the actual cost of labor plus 15 per cent. At the edges of the bitulithic surface, 2 by 4 inch joists shall be laid and spiked in position on the roadbed to provide a shoulder against which the bitulithic surface shall be laid, and after the surface is laid and rolled, the spikes and joists shall be removed and stone or gravel shall be spread over the shoulders to such depth and in such manner as may be directed by the engineer. Stone and gravel shall be paid for at the price per cubic yard bid for these materials. The cost of labor in spreading stone and gravel, and of all spikes and joists, and the labor expended in placing same shall be paid for at cost plus 15 per cent.

"2. Where the contour of the existing macadam is such as to provide too flat a crown for the finished surface, the portions of macadam at the edges of the area to be resurfaced may be removed by picks or otherwise so as to provide a suitable contour and in cases where the new surface does not extend to a curbstone or header a shoulder shall be left in the macadam at each edge of the travel path against which to lay the bitulithic wearing surface. All labor required in removing such macadam shall be paid for at cost plus 15 per cent. Where the condition of the existing macadam surface is such as to require a general redistribution of the material in the roadbed, the roadbed shall be scarified and the material redistributed over the roadbed and thoroughly rolled to the desired grade and contour. Where required by the engineer, loose stone or gravel shall be provided by the contractor. Such stone or gravel shall be paid for at the price per cubic yard bid for same and the labor required for the spreading of the stone or gravel and scarifying of the roadbed shall be paid for at cost plus 15 per cent.

"3. Any soft springy places unsuitable for resurfacing shall be dug out and re-

filled with such material as the engineer may direct, thoroughly solidified by rolling or tamping and brought to proper grade. Crushed stone, gravel, bituminous binder or Portland cement concrete which may be ordered used by the engineer will be paid for at the price bid for such materials and the labor required for preparing the subgrade and the placing of all materials in place shall be paid for at cost plus 15 per cent.

"Bituminous binder shall consist of sound gravel or crushed stone which will pass through a screen having openings 1 inch in diameter and will pass over a screen having openings ¼ inch in diameter, and shall contain about 10 per cent of sand screenings passing screen openings ¼ inch in diameter. The gravel or crushed stone shall be heated to a temperature of about 225 degrees Fahrenheit and mixed with sufficient bituminous cement to thoroughly coat all the particles, after which it shall be hauled to the road and spread while hot over the roadbed as may be directed by the engineer. Bituminous binder delivered on the site of the work shall be paid for at the price per ton stipulated in the bid. The placing of the bituminous binder on the roadbed and the tamping and rolling of the same shall be paid for at actual cost of the labor plus 15 per cent.

"Crushed stone for the preparation of the roadbed and shoulders, where ordered by the engineer, shall be of hard sound stone of such size or sizes as may be required by the engineer. Crushed stone shall be paid for and delivered on the site of the work at the price per cubic yard stipulated in the bid. The labor used for the placing of the crushed stone in position as directed by the engineer shall be paid for at cost plus 15 per cent.

"Gravel shall be used as directed by the engineer in the preparation of the subgrade and shoulders. The gravel shall contain not more than 25 per cent of material finer than ¼ inch and shall all pass a screen having 2-inch square openings and shall be acceptable to the engineer. Gravel, where ordered, shall be paid for delivered on the site of the work at the price bid per cubic yard. The labor used in placing the gravel as directed shall be paid for at cost plus 15 per cent.

"Where ordered by the engineer, Portland cement concrete shall be laid to such depth as he may direct, and paid for delivered in place on the work at the price bid per cubic yard.

"On the foundation prepared as hereinabove specified shall be laid the following wearing surface composed of hard crushed stone, sand, and bituminous cement to have the thickness when compressed of 2 inches.

"The following method and apparatus shall be used in the preparation of the wearing surface. The stone and sand shall be heated in a rotary drier and while still hot, separated into the desired number of different sizes by means of a rotary screen having a minimum screen opening of 1-10 of an inch and a maximum opening of about 1½ inches. The openings in the successive screen sections up to ½-inch size shall not vary more than ¼ inch and not more than ¾ inch for the sizes larger than ½ inch. The aggregate thus separated shall pass into a bin having sections or compartments corresponding to the screen sections. From these compartments the aggregate shall pass into a weigh box, resting on a multi-beam scale. The desired amount of aggregate from each of the above compartments shall be accurately weighed separately on the scale and the batch dropped into a

'twin pug' mixer where it shall be intimately associated and thoroughly commingled with a predetermined quantity of bitulithic cement sufficient to coat all particles of the aggregate and to fill the voids in same. The different grades of stone and sand ranging in size from impalpable powder to about one-half the thickness of the wearing surface shall be combined in such proportions as to secure, in the mineral aggregate, inherent stability, that is, density or low percentage of voids, and stability or resistance to displacement, producing an aggregate which, when combined with the bitulithic cement and laid in place and compacted, will form a street paving structure consisting of mineral aggregate of different sizes and the bitulithic cement which permeates the entire mass fills the voids and unites the various particles thereof. If the crushed stone and sand do not contain enough finely divided particles or impalpable powder to produce a low percentage of voids in the aggregate the deficiency shall be made up by the addition of any other suitable fine mineral matter.

"The mixture and ingredients thereof shall be maintained at a temperature consistent with good workmanship. The mixture when reaching the street shall be hot enough to allow of being spread and raked and shall not be so hot as to injure the bitulithic cement.

"There shall be spread over the bitulithic surface mixture a seal coat, using per square yard of bitulithic pavement approximately $\frac{1}{4}$ gallon of bitulithic cement, into which shall be incorporated approximately 25 pounds of mineral aggregate not larger than $\frac{1}{4}$ -inch diameter. After spreading the seal coat it shall be thoroughly rolled into the bitulithic surface mixture.

"Each layer of the work shall be kept as free as possible from dirt, so that it will unite with the succeeding layer.

"The bituminous composition or cement shall in each case be free from water, and shall be especially refined to remove volatile and other matter susceptible to atmospheric influences.

"Warren Brothers Company, owner of the patents used in the construction of the bitulithic pavement, shall file with the proper official or board which is about to receive bids for the work, a properly executed binding agreement to furnish to any contractor desiring to bid for the work all the necessary bitulithic surface material, mixed ready for use, and bitulithic cement, and the sand, gravel, or stone screenings for the surface finish course, in accordance with sections, 'Wearing Surface' and 'Surface Finish,' at a definite reasonable price per square yard. Said price shall include a license to use all of the patents required in the construction of the bitulithic pavement as herein specified.

"Bitulithic wearing surface and surface finish laid in place shall be paid for at the price bid per square yard."

The specifications are copyrighted, but can be used by city and other engineers and municipal officials, provided they are not modified, as to wearing surface and surface finish, without permission.

Necessarily, the cost of regulation of grade of the old macadam varies very widely, depending on the grade and condition of the old macadam and might vary as much as from five cents to twenty-five cents per square yard, depending on the quantity of new material required. On account of the varying conditions of the old macadam and consequently varying treatment, fairness to both contractors and city necessitates the establishment of

unit prices for material and "force account" for the labor required in connection with the regulation of the grade of the old macadam. In fact, it is practically impossible for the engineer definitely to determine in advance of the letting of a contract, or until the work is in actual progress, exactly how much of each class of new material will be required or how to treat most economically each part of the surface. If, therefore, the specifications provide that this preparatory work is to be done at a price bid per square yard the contractor must bid high enough to be safe and probably 50 to 100 per cent more than the work would cost under fair unit prices for each class of material used and "force account" for the labor employed in preparation of the foundation. On the 55.9 miles of work in Connecticut on this basis the cost of preparation of the old macadam for the new surface averaged eleven and one-half cents per square yard.—*Municipal Engineering.*

A CLEAN CITY.—CITY MARKETS.

By MISS EMILY G. SULLIVAN of the South Boston High School.

One of the important divisions of a clean city is a clean market. In a place of this kind a large per cent of the city's rubbish is originated. As a general rule sawdust is put on the floor of a market for the purpose of catching and holding all dirt. When it has served its purpose it is removed and placed in barrels, which should be but are not always emptied.

The wind, a helpmate of the germs which are bred in these barrels, spreads them throughout the universe. This gives rise to many diseases.

All this could be prevented by having covers on the barrels and insisting that they be promptly emptied.

A noticeable thing in markets is that the articles for sale are often exposed to dirt and flies. A netting should be placed over these articles to prevent the flies from resting their disease laden feet on them.

Another equally important item relating to this topic is to guard against the use of dirty paper. This can be prohibited by the purchaser's refusal to accept a parcel so wrapped up. To have clean markets should be and is the duty and interest of both dealer and purchaser.

A CLEAN CITY.—HELP OF SCHOOL CHILDREN.

By MISS ALICE F. MAGNER, South Boston High School.

In a large flourishing city the government has many duties to perform. One of these is to keep the city clean. Every year thousands of dollars are expended for this purpose. This vast amount of money could be saved if the inhabitants were careful and clean. School children may assist their city and beautify it by taking care not to throw any waste material in the public streets and passageways. They may also caution other children in this matter. If every school child took an interest in the city and tried by every means to prevent rubbish and dirt from being thrown or cast away on the "halls of our beautiful home," the latter would then, besides being clean, have in its treasury a large amount which was saved by its children.

Moreover, in order to have a healthy city the inhabitants must be clean. Therefore, children may besides benefiting the city in this regard, preserve their own health which proves to be very valuable. The places they occupy or

frequent, also the surroundings, should be kept as neat and clean as possible. When this particular duty has been done they may do more to help the city in the difficult work of keeping it in a clean and sanitary condition.

It would be very beneficial for a group of children from the same neighborhood to work together and on Saturday mornings pick up the streets of their own section. This would benefit the city and also give the streets of their surroundings a clean and healthy appearance. Although the number of children organized may be very small, at first, they may increase gradually and thus make their city the cleanest in the country, perhaps in the world.

The natural principle of cleanliness is to drive off the enemy, dirt, and do the least harm ourselves; that is, by preventing germs and other injurious insects from increasing. Children may clean out the yards of their homes and keep them clean and healthy. After this has been performed they may beautify it by planting shrubs and flowers which always render a pleasing effect. All this contributes to make the city clean and beautiful.

UNITED STATES CIVIL SERVICE EXAMINATIONS.

The United States Civil Service Commission announce an open competitive examination for mechanic, for men only, on August 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position at \$900 a year in the Bureau of Standards, Department of Commerce, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Persons appointed as a result of this examination will be employed in the machine shop of the Bureau where high-grade scientific apparatus and instruments are produced. This position has opportunities for advancement to higher grades of instrument making as experience and fitness may qualify.

The commission announce that applications will be accepted at any time for the examination for office helper (typewriter) at Watertown Arsenal, Watertown, Mass., from both men and women. Examinations will be held at Room 141, Post Office Building, Boston, Mass., whenever it becomes necessary to provide eligibles. Persons who apply will be notified of the date of examination. As a result of this examination vacancies will be filled as they occur in the position of office helper, qualified in typewriting, in the Watertown Arsenal, Watertown, Mass.

The usual entrance salary is \$480 a year. The duties of the position are routine clerical work, requiring ability to use the typewriter.

The commission announce an open competitive examination for highway bridge engineer and junior highway bridge engineer, for men only, on August 19, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in these positions in the Office of Public Roads, Department of Agriculture, for duty in the field, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion. The

salary of the position of highway bridge engineer ranges from \$1,500 to \$1,800 a year, and the salary of junior highway bridge engineer from \$960 to \$1,200 a year.

The duties of these positions will involve the making of surveys of bridge sites, superintending the construction and inspection of highway bridges and the design and preparation of plans for highway bridges.

The commission announce an open competitive examination for junior civil engineer, for men only, on August 19, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Interstate Commerce Commission under the act providing for the valuation of the property of common carriers, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The salaries of these positions will range from \$1,200 to \$1,500 per annum, with necessary expenses when absent from headquarters in the discharge of official duties.

Appointments to these positions will be principally for duty in the field, but some appointments will be made for duty in Washington, D. C.

Qualified persons have an excellent opportunity for appointment from this examination.

The commission announce an open competitive examination for telephone operator, for both men and women, on August 19, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in the position of telephone switch board operator at salaries ranging from \$660 to \$720 a year, in the departmental service at Washington, D. C., unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for special agents and research assistants, for both men and women, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in these positions in the Children's Bureau, Department of Labor, at salaries ranging from \$1,200 to \$1,600 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of special agents will be mainly in the field to collect data for use in the preparation of reports. At the outset most of them will be assigned to investigations into the social factors responsible for the high infant mortality, but a few will be engaged on subjects connected with the employment of children. In the infant mortality work the agents interview the mothers in their homes to get the data called for by the schedule.

The duties of research assistants will be mainly in the Washington office, studying existing material bearing on the subjects being investigated by the Bureau and preparing reports and sections of reports.

The commission announce an open competitive examination for engineer, for men only, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Indian Service at the Sac and Fox Sanatorium, Iowa, at \$900 per annum,

and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

For the vacancy at the Sac and Fox Sanatorium, Iowa, examination in Branches 1 and 2 is required. The eligibles certified for this vacancy must be unmarried.

Owing to the widely varying conditions in the various schools and agencies of the Indian Service, general engineering examinations will be given under the following separate branches: Steam engineering, electrical engineering, heating, refrigeration, gas and gasoline engines and hydraulics. An applicant may take one or more than one of these in his discretion. The prospects of appointment will be increased by successfully passing more than one of the branches indicated. Applicants should fully indicate in their applications the particular branch or branches in which they desire to be examined and should state as definitely as possible the experience they have had which would tend to qualify them in the branches selected.

Salaries, \$480 to \$1,000 per annum. The majority of the appointments, however, are made at salaries of \$750, \$840 and \$900 per annum.

The commission announce an open competitive examination for junior fuel engineer, for men only, on August 19 and 20, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Mines, Washington, D. C., at salaries ranging from \$1,200 to \$1,500 per annum, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

As an insufficient number of applications were filed for the examination for this position announced to be held on June 3 and 4, 1914, qualified persons are urged to enter this examination.

Two days will be required for this examination.

The duties will be to assist in tests of boiler and other furnaces, of auxiliary equipment affecting efficiency in the use of fuels, investigation of fuel-burning methods and machinery, inspecting and sampling fuel, and the compilation of data and making reports.

The commission announce an open competitive examination, on August 24, 1914, for telephone lineman, for men only. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Life-Saving Service, at \$85 a month, and vacancies as they may occur in positions requiring similar qualifications unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The person appointed to this position will be subject to assignment at any point on the Atlantic, Pacific or Lake coast.

The commission announce an open competitive examination for plant physiologist, experienced in plant metabolism, for men only, on August 30, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Plant Industry, Department of Agriculture, Washington, D. C., at a salary of \$3,000 a year, and vacancies as they may occur in positions requiring similar qualifi-

cations, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to plan and lead research work dealing primarily with questions of plant metabolism.

The commission announce an open competitive examination for graduate nurse and dietitian, for women only, on September 2, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the United States Public Health Service, for duty in the Pellagra Hospital at Spartanburg, S. C., at a salary not exceeding \$1,200 a year (in addition to board and room or compensation therefor), and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to assist in making metabolic and dietetic studies in relation to pellagra and to supervise the nursing. No administrative work will be required.

The commission announce an open competitive examination for entomological ranger, for men only, on September 2, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Entomology, Department of Agriculture, for service in the Rocky Mountains and Pacific Coast States, at salaries ranging from \$840 to \$1,200 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be to collect specimens and information, locate and mark trees infested with destructive insects, and give instructions and assistance to private owners on the practical details of the methods recommended for the control and prevention of insect depredations on living timber.

The commission announce an open competitive examination for junior engineer (experimental plant and machine testing), for men only, on September 2 and 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Chemistry, Department of Agriculture, at a salary ranging from \$1,200 to \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The headquarters for this position will be in Washington, D. C., but the duties of the position will eventually necessitate temporary transfers to various parts of the United States for indefinite periods, and applicants must be willing to accept appointment anywhere in the United States in order to receive consideration.

The duties of this position will consist of designing, constructing and operating plants for experimental and demonstration purposes in the preparation of certain fruit and vegetable products, especially fruit and vegetable drying and refrigeration, the computing and compiling of technical and cost data on the operation of such plants; and a limited amount of mechanical drafting.

It is desired to obtain the services of someone who has had experience in the

design or operation of experimental plants, or who has had technical laboratory work along the lines of machine testing and refrigeration.

The commission announce an open competitive examination for business principal, for men only, on September 2 and 3, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of principal, Business Department, Haskell Institute, Lawrence, Kans., at \$1,200 per annum and quarters, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The commission announce an open competitive examination for expert radio aid (for administration and operation), for men only, on September 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in the position of expert radio aid in the office of the Superintendent of Radio Service at the Naval Radio Station, Radio, Va., at a salary of \$10 per diem, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will involve assisting in the supervision of the administrative details of the Naval Radio Service, including both the operating and accounting features; the inspection of radio stations, so far as relates to their operation and management, and advising in regard to their improvement in both technical and administrative matters. The duties of the position will require a thorough knowledge of all the essential features of a communication system, and the details of land wire, cable and radio systems in the United States and foreign countries, including their organization both for administrative and other purposes. There will be required a knowledge of laws, rulings and precedents established by such systems, both United States and international.

It is desired to secure the services of a man having a broad training in both administrative and technical matters of radio, and one who has had considerable experience in dealing with other systems of communication. He must also be an experienced and efficient operator.

The commission announce an open competitive examination for junior physical chemist, for men only, on September 8, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position in the Bureau of Chemistry, Department of Agriculture, Washington, D. C., at a salary of \$1,800 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of this position will be chiefly research work in the preparation and investigation of sugars, their occurrence, identification and properties, and the importance of the various sugars in various foods.

The commission invites attention to the open competitive examination for clerk in the Panama Canal Service scheduled to be held on September 9, 1914.

It is especially desired to secure eligibles from this examination who are qualified as bookkeepers.

The usual entrance salary for this position is \$1,200 a year.

The commission invites attention to the open competitive examination for junior engineer draughtsman, for men only, scheduled to be held on September 9, 1914. In addition to other vacancies to be filled from the register of eligibles resulting from this examination, it is expected that certification will be made to fill a vacancy in this position in the Engineer Department at Large, Wheeling, W. Va., at a salary ranging from \$1,800 to \$2,100 a year, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

For the vacancy at Wheeling, W. Va., mentioned above, the department requires the services of a person with experience in the independent design of steel structures.

The commission invites attention to the open competitive examination for library cataloguer, for both men and women, scheduled to be held on September 9, 1914, at all places marked "(D)" in section 2 of the Manual of Examinations for the fall of 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies as they may occur in this position in the Departmental Service, Washington, D. C., at entrance salaries ranging from \$720 to \$1,000 per annum, and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The following vacancies in positions which may be filled as the result of this examination exist at the present time:

One in the position of library assistant (male) qualified for bibliographical and reference work in educational literature, and to serve as administrative assistant in the library of the Bureau of Education, Department of the Interior, at \$1,000 per annum.

One in the position of library cataloguer (female), Smithsonian Institution, at \$75 a month.

The commission invites attention to the open competitive examination for junior chemist, for both men and women, scheduled to be held on September 9 and 10, 1914. In addition to vacancies in positions in the Bureau of Chemistry, Bureau of Mines, Bureau of Soils and Bureau of Standards, to be filled from the register of eligibles resulting from this examination, it is expected to fill vacancies in the position of junior chemist in the Bureau of Animal Industry and in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The usual entrance salary for these positions ranges from \$1,000 to \$1,440 a year, but persons showing in the examination that they are unusually qualified are occasionally appointed at higher salaries, not to exceed \$1,740 a year. Certification to fill vacancies in positions paying more than \$1,440 will be made only from those attaining the highest averages in the examination.

The following vacancies in such positions exist at the present time:

One junior chemist, qualified in biological chemistry, Bureau of Animal Industry, Washington, D. C., at \$1,200 a year.

One junior chemist, qualified in biological chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,620 a year.

One chemist, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,200 to \$1,440 a year.

Two chemists, qualified in pharmaceutical chemistry, Bureau of Chemistry, Washington, D. C., \$1,620 to \$1,740 a year.

The commission announce an open competitive examination for district inspector, under the migratory bird law, for men only, on September 16, 1914. From the register of eligibles resulting from this examination certification will be made to fill vacancies in this position in the Bureau of Biological Survey, Department of Agriculture, for service in the field, at \$1,500 a year, and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

Vacancies exist in districts 4, 5, 8, 9, 10, 11 and 12, covering the following states: Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Montana, Nevada, New Mexico, North Dakota, Ohio, South Carolina, South Dakota, Tennessee, Texas, Utah and Wyoming.

The duties of district inspector will be general supervision of the migratory bird wardens appointed for the district, cooperating with local authorities in protection and propagation of game and diffusion of information regarding conservation of wild life.

The commission announce an open competitive examination for expert radio aid, for men only, on September 16, 1914. From the register of eligibles resulting from this examination certification will be made to fill one vacancy in this position at \$6 per diem in the Navy Yard, New York, N. Y.; five vacancies at either \$8 or \$6 per diem in the Navy Yards at Boston, Mass., Philadelphia, Pa., Norfolk, Va., Charleston, S. C., and Puget Sound, Wash.; and vacancies as they may occur in positions requiring similar qualifications, throughout the United States, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

The duties of these positions will be: To direct and assist in the laboratory tests of all circuits, instruments and apparatus pertaining to and used in radio signaling; the practical installation, repair and adjustment of radio apparatus both in shore stations and in ships; the development and design of special apparatus and methods of radio signaling suited to special conditions, and of new forms of sending and receiving circuits; to analyze the data which may accrue from observations of the operation of different radio installations and to plan and execute experimental investigations as indicated; to inspect the various radio stations when called upon and to make the necessary measurements of their electrical constants; and, in general, to carry out advanced technical work in radio research, design and development and practical work in construction and repair of radio apparatus. They will be required to prepare technical reports of inspections, tests and research work.

The commission announce an open competitive examination for statistical editor, for both men and women, on

September 16 and 17, 1914. From the register of eligibles resulting from this examination certification will be made to fill a vacancy in this position at an initial salary ranging from \$1,200 to \$1,400 a year, in the Children's Bureau, Department of Labor, Washington, D. C., and vacancies as they may occur in positions requiring similar qualifications, unless it is found to be in the interest of the service to fill any vacancy by reinstatement, transfer or promotion.

This position affords excellent opportunity for entrance into the field of statistical work, and the person who is appointed as a result of this examination and who proves competent to perform the duties of the position may expect reasonable promotion.

OCCUPATIONS IN MASSACHUSETTS.

According to the report issued by Director William J. Harris, of the Bureau of the Census Department of Commerce, there were 1,531,068 persons 10 years of age and over in Massachusetts engaged in gainful occupations. The gainful workers thus formed 45.5 per cent of the total population of the state (3,366,416) and 55.8 per cent of the population 10 years of age and over (2,742,684). In 1900 the 1,208,407 gainful workers of the state formed 43.1 per cent of the total population and 53.3 per cent of the population 10 years of age and over.

The male gainful workers numbered 1,086,767, or 81.1 per cent of all males 10 years of age and over, as compared with 879,374, or 80.1 per cent, in 1900. The female gainful workers numbered 444,301, or 31.7 per cent of all females 10 years of age and over, as compared with 329,033, or 28.1 per cent, in 1900.

The 1,531,068 gainful workers were distributed among the main branches of occupations as follows: Agriculture, forestry, and animal husbandry, 74,666, or 4.9 per cent; extraction of minerals, 2,681, or 0.2 per cent; manufacturing and mechanical industries, 774,398, or 50.6 per cent; transportation, 105,521, or 6.9 per cent; trade, 183,519, or 12 per cent; public service, 26,888, or 1.8 per cent; professional service, 77,829, or 5.1 per cent; domestic and personal service, 176,329, or 11.5 per cent; and clerical occupations, 109,237, or 7.1 per cent.

Of the gainful workers 1,086,767, or 71 per cent, were males and 444,301, or 29 per cent, females. In agriculture, forestry, and animal husbandry, the males numbered 71,873, or 96.3 per cent, and the females 2,793, or 3.7 per cent. Practically all—2,679, or 99.9 per cent—of the persons engaged in the extraction of minerals were males. In manufacturing and mechanical industries 571,833, or 73.8 per cent, of the workers were males and 202,565, or 26.2 per cent, females. Males constituted 95.2 per cent of the 105,521 persons engaged in transportation, 85 per cent of the 183,519 persons engaged in trade, and 98.2 per cent of the 26,888 persons engaged in public service. In professional service 40,560, or 52.1 per cent, of the workers were males and 37,269, or 47.9 per cent, females, a large proportion of the females being school teachers. Domestic and personal service was the only large field of occupations in which the females outnumbered the males. Here females numbered 120,580, or 68.4 per cent, and males only 55,749, or 31.6 per cent, of the workers. Of the persons pursuing clerical occupations, 61,131, or 56 per cent, were males and 48,106, or 44 per cent, females.

Of the 1,086,767 gainfully occupied males, 335,100 were native whites of native parentage, 270,853 native whites of foreign or mixed parentage, 464,618 foreign-born whites, 13,488 negroes, and 2,708 other colored. The proportion which the gainfully occupied males formed of all the males ten years of age and over in each principal class of the population was: For native whites of native parentage, 77 per cent; for native whites of foreign or mixed parentage, 71.7 per cent; for foreign-born whites, 91.3 per cent, and for negroes, 86.3 per cent.

Of the 444,301 gainfully occupied females, 117,785 were native whites of native parentage, 149,497 native whites of foreign or mixed parentage, 168,878 foreign-born whites, 8,026 negroes, and 115 other colored. The proportion which the gainfully occupied females formed of all the females ten years of age and over in each principal class of the population was: For native whites of native parentage, 25.3 per cent; for native whites of foreign or mixed parentage, 36.6 per cent; for foreign-born whites, 33 per cent; and for negroes, 49.9 per cent.

The gainfully occupied males were distributed according to age periods as follows: 10 to 13 years, 1,378; 14 to 15 years, 17,794; 16 to 20 years, 117,169; 21 to 44 years, and age unknown, 650,451; and 45 years and over, 299,975. The proportion which the gainfully occupied males formed of all males in each age period was: For those 10 to 13 years of age, 1.2 per cent; for those 14 to 15 years of age, 31.7 per cent; for those 16 to 20 years of age, 78.7 per cent; for those 21 to 44 years of age 97 per cent—that is, all but 3 men in every 100 had gainful occupations; and for those 45 years of age and over 85.5 per cent.
